Claim £120 Cash back with the HP ProLiant MicroServer Gen 8 when purchased with a HP PS110 Wireless 11n VPN Router

Limited time
offer while
stocks last!!

The HP ProLiant MicroServer Gen8 is a small, quiet, and stylishly designed server that is ideal as a first server solution for small businesses. With a form factor that is easy-to-use and service, it helps small businesses drive down their expenses while improving productivity, efficiency, and security.

The HP PS110 Wireless 11n VPN Router Series includes high-speed wired/wireless networking (802.11a/b/g/n single radio access point) and with a built-in, 4-port Gigabit Ethernet switch to make certain your small business has fast access to the data and files needed to get the job done. An Easy Setup Wizard allows you to quickly setup your network and connect your organization. This Series offers mobile workers and offices protected connectivity over the public internet through virtual private network (VPN) complete with enterprise-grade encryption and authentication. The Wireless Distribution System feature allows you to scale your wireless network as your organization grows by providing an extremely flexible and cost effective way to link or extend wireless connectivity. The HP Wireless Router has an Ethernet WAN interface connectivity. (RJ45 10/100/100 WAN) - Please check your connectivity interfaces with your telecom service provider. The router does not have an ADSL interface.

The sleek, unobtrusive design with internal wireless antennas fits well in any setting. It is specifically designed for physical stacking on the HP ProLiant MicroServer Gen8. The router also includes a simple to use Server management dashboard. The HP PS110 routers are specifically designed to work with your HP ProLiant Servers with unique management integration with the iLO interface.
