SPEEDRITE ENERGIZERS

Speedrite – No-Nonsense electric fence solutions for the serious farmer.

Since 1938 Speedrite has produced powerful and robust electric fencing products. Products proven to perform in the harshest conditions and toughest environments. Our No-nonsense attitude to developing hardworking electric fencing systems has carved a worldwide reputation for performance and durability – a reputation built on 65 years of honesty, quality, and innovation.

Speedrite low-impedance energizers combine massive power and technology to produce hard-working performance. Proven to work in even the toughest of environments, Speedrite energizers power through areas of thick over-growth. State of the art componentry and programming technology means Speedrite energizers deliver a high quality pulse onto the fence – providing maximum energy as it is needed. All Speedrite energizers come with an industry leading warranty.

Maximum Power Factor 360 km / 220 miles

Max Output Energy: 37 J Max Stored Energy: 54 J
 Power Consumption: 52 W Power Source: 230 V / 110 V
 Suitable for up to: 500+ acres / 200+ ha

#36000R UPC 9-414731 37632-6

Designed for large properties with extensive electric fencing systems and for those that want maximum power to cater for extreme livestock pressure. The 36000R maintains high voltage and easily powers through seasonal growth in the toughest conditions.

- High powered, low impedance, mains energizer
- Remote control capable
- Suitable for all types of livestock
- LED display shows output voltage
- **Remote Control Fault Finder included**
- Energizer senses the voltage on the fence and automatically adjusts the output pulse to maximise livestock control
- Slotted wire terminals for easy wire connection
- Low voltage terminal to allow bi-polar fence construction

\$1899.99

Maximum Power Factor 200 km / 125 miles

Max Output Energy: 22 J Max Stored Energy: 34 J
 Power Consumption: 33 W Power Source: 230 V / 110 V
 Suitable for up to: 275 acres / 120 ha

#20000R UPC 9-414731 37620-3

Introducing the new Speedrite 20000R. Uncompromising power with new remote control and fault finding technology ensures safe and reliable control of your precious livestock. Designed for large farms with multi wire fences the Speedrite 20000R offers superior livestock control and is now available with a low voltage terminal to safely handle all types of livestock.

- High powered, low impedance, mains energizer
- **Remote control capable (Remote Control Fault Finder purchased separately)**
- Suitable for all types of livestock
- LED display shows output voltage
- Energizer senses the voltage on the fence and automatically adjusts the output pulse to maximise livestock control
- Slotted wire terminals for easy wire connection
- Low voltage terminal to allow bi-polar fence construction

\$1499.99

Maximum Power Factor 120 km / 75 miles

Max Output Energy: 14.5 J Max Stored Energy: 20 J
 Power Consumption: 20 W Power Source: 230 V / 110 V
 Suitable for up to: 180 acres / 75 ha

#12000R UPC 9-414731 37612-8

Introducing the new Speedrite 12000R. Uncompromising power with new remote control and fault finding technology ensures safe and reliable control of your precious livestock. Designed for large farms with multi wire fences the Speedrite 12000R offers superior livestock control and is now available with a low voltage terminal to safely handle all types of livestock.

- High powered, low impedance, mains energizer
- **Remote control capable (Remote Control Fault Finder purchased separately)**
- Suitable for all types of livestock
- Energizer senses the voltage on the fence and automatically adjusts the output pulse to maximise livestock control
- Slotted wire terminals for easy wire connection
- Low voltage terminal to allow bi-polar fence construction

\$1249.99

SPEEDRITE ENERGIZERS

#9800 UPC 9-414731 37879-5

A powerful mid-ranged energizer, ideal for medium to large sized farms. Suitable for the control of all types of animals.

- High and low output terminals
- Three indicator lights:
 - Red indicates electrical supply is present
 - Orange indicates pulse and that the main energizer module is working correctly
 - White indicates fence loading

Maximum Power Factor 95km / 60 miles

Max Output Energy: 9.4 J Max Stored Energy: 14 J
 Power Consumption: 15 W Power Source: 230 V / 110 V
 Suitable for up to: 170+ acres / 70+ ha

\$685.99

#5800 UPC 9-414731 37880-1

Designed for medium sized farms. Suitable for the control of all types of animals.

- High and low output terminals
- Three indicator lights:
 - Red indicates electrical supply is present
 - Orange indicates pulse and that the main energizer module is working correctly
 - White indicates fence loading

Maximum Power Factor 53 km / 35 miles

Max Output Energy: 5.3 J Max Stored Energy: 7.5 J
 Power Consumption: 10 W Power Source: 230 V / 110 V
 Suitable for up to: 100+ acres / 40+ ha

\$484.99

#Delta 3 UPC 9-414731 37873-3

Specifically designed for small to mid-sized farms of up to 40 acres. Has the capacity to power through vegetation and maintain high pulse strength. Suitable for the control of all types of animals.

- Pulse lights indicate output voltage
- Optimized energy and voltage performance
- Large fence terminals for easy installation
- Rugged construction

Maximum Power Factor 25 miles

Max Output Energy: 2.5 J Max Stored Energy: 4.1 J
 Power Consumption: 4.4 W Power Source: 230 V / 110 V
 Suitable for up to: 40 acres / 16 ha

\$299.99

#Delta 2 UPC 9-414731 37872-6

Designed for small farms with limited fence energizing requirements. Suitable for the control of cattle and horses in small numbers.

- Pulse lights indicate output voltage
- Optimized energy and voltage performance
- Large fence terminals for easy installation
- Rugged construction

Maximum Power Factor 10 miles

Max Output Energy: 1.0 J Max Stored Energy: 1.7 J
 Power Consumption: 2.6 W Power Source: 230 V / 110 V
 Suitable for up to: 15 acres / 6 ha

\$173.50

#Delta 1 UPC 9-414731 37871-9

Suitable for smaller farms including wire around barns, implement sheds and stables.

- Pulse lights indicate output voltage
- Optimized energy and voltage performance
- Large fence terminals for easy installation
- Rugged construction

Maximum Power Factor 5 miles

Max Output Energy: 0.5 J Max Stored Energy: 0.8 J
 Power Consumption: 4.4 W Power Source: 230 V / 110 V
 Suitable for up to: 7 acres / 3 ha

\$137.50

SPEEDRITE BATTERY ENERGIZERS

#9000 UPC 9-414731 37881-8

A heavy duty solution for large farms and large remote areas where electricity is not available. Provides high performance under extreme conditions. Suitable for control of all types of animals.

- Heavy duty energizer designed for large solar assisted applications and where fence is subject to heavy growth conditions.
- High and low output terminals
- Two pulse speed options
- Pulse light indicates pulse and fence loading
- Light sensor reduces battery consumption at night
- Power level selection – high for training animals and low for battery conservation

\$875.75

Maximum Power Factor 90km / 55 miles

Max Output Energy: 9 J Max Stored Energy: 13.5 J
 Recommended Solar Panel: 2 x 42W Power Source: 12, 24 or 36V
 Suitable for up to: 160 acres / 65 ha

#5000 UPC 9-414731 37882-5

Designed for large farms and harsh conditions. Suitable for the control of all types of animals.

- Heavy duty energizer designed for specialized solar assisted applications
- High and low output terminals
- Two pulse speed options
- Pulse light indicates pulse and fence loading
- Light sensor reduces battery consumption at night
- Power level selection – high for training animals and low for battery conservation

\$689.95

Maximum Power Factor 50km / 30 miles

Max Output Energy: 5 J Max Stored Energy: 7 J
 Recommended Solar Panel: 42W Power Source: 12, 24 or 36V
 Suitable for up to: 95 acres / 39 ha

#Delta 3B UPC 9-414731 37868-9

Designed for medium sized farms where electricity is not available. Suitable for the control of all types of animals.

- Pulse lights indicate output voltage. Variable power output option
- Battery protection technology
- Adjustable pulse speed including light sensor options
- Check battery charge level with the turn of a switch
- Rugged design

\$381.95

Maximum Power Factor 25 miles

Max Output Energy: 2.5 J Max Stored Energy: 4.1 J
 Recommended Solar Panel: 22W Power Source: 12V
 Suitable for up to: 40 acres / 16 ha

#Delta 2B UPC 9-414731 37869-6

Designed for small sized farms where electricity is not available. Suitable for small numbers of livestock and horses.

- Pulse lights indicate output voltage. Variable power output option
- Battery protection technology
- Adjustable pulse speed including light sensor options
- Check battery charge level with the turn of a switch
- Rugged design

\$279.95

Maximum Power Factor 10 miles

Max Output Energy: 1 J Max Stored Energy: 1.7 J
 Recommended Solar Panel: 11W Power Source: 12V
 Suitable for up to: 15 acres / 6 ha

#Delta 1B UPC 9-414731 37870-2

Suitable for semi-permanent or portable fences.

- Pulse lights indicate output voltage. Variable power output option
- Battery protection technology
- Adjustable pulse speed including light sensor options
- Check battery charge level with the turn of a switch
- Rugged design

\$199.99

Maximum Power Factor 5 miles

Max Output Energy: 0.5 J Max Stored Energy: 0.8 J
 Recommended Solar Panel: 5W Power Source: 12V
 Suitable for up to: 7 acres / 3 ha

SPEEDRITE BATTERY ENERGIZERS

Maximum Power Factor 4 km / 2.5 miles

Max Output Energy 0.25 J Max Stored Energy: 0.30 J

Power Source: 12V Battery Life: 3 years
Suitable for up to: 5.5 acres / 2.2 ha

\$355.95

S250 UPC 9-14731 100921-0

The Speedrite S250 integrated solar energizer is a new generation energizer with an integrated solar panel. The most powerful energizer in its class, the S250 delivers high performance even in low sunlight. Fully portable with steel and wood post fixing options, this energizer features a stylish, impact resistant case and optional security code settings to deter theft. The S250 is suitable for strip grazing and the containment of livestock in small to medium sized areas and offers rugged portability as well as delivering exceptional power output and performance.

- High output low impedance electric fence energizer
- Includes rechargeable internal sealed 12 V 7 Ah battery
- LCD indicator with built in voltmeter
- High or low energy output option
- Night time battery save mode to optimize battery performance
- Battery care system to protect battery from over discharging
- Power save software that optimizes output performance / battery use during periods of low sunlight
- Up to 21 days operation without sunlight
- 4.2 watt solar panel – the largest in its class
- New laminated impact resistant solar panel. Tough weather and UV resistant case
- Unique post mounting system for steel posts and wooden posts
- All in one unit with integrated carry handle for portability.

SG3

This advanced 9V utility energizer is a powerful and versatile unit. Designed for longer lengths of fence, it is ideal for securing areas for medium-term time frames, as well as intensive strip grazing. The more powerful battery means less changing of batteries.

Battery Life
400 days

Battery Life
450 days

- Low or high power output option
- LCD displaying output voltage
- Light sensor reduces consumption at night
- Pulse indicator light, low battery indicator
- Powered by integral 9V or external 12V battery
- Fully waterproof electronic casing

Maximum Power Factor 4 Km / 2.5 miles

Max Output Energy: 0.3 J Max Stored Energy: 0.45 J
Power Source: 9V/12V Suitable for up to: 5.5 acres / 1.4 ha

SG1

This 9V utility energizer is ideal for medium lengths of fence. Fully self-contained, this unit is suitable for strip grazing or securing problem areas on a medium term basis. Includes the same features as the SG3

Maximum Power Factor 2 Km / 1.25 miles

Max Output Energy: 0.15 J Max Stored Energy: 0.24 J
Power Source: 9V/12V Suitable for up to: 2.8 acres / 0.7 ha

Battery Life
40 days

\$143.95

\$197.99

Battery Life
80 days

AN90 UPC 9-414731 37741-5

The AN90 is the most powerful dedicated stripgrazing unit available. Ideal for longer lengths of portable fence.

- Two pulse speed option and indicator light
- Clips directly onto wire for strip grazing
- Internally powered by 4 x 1.5V D cell batteries or external 12V battery
- No conversion required for wet battery
- Optional tread in stand available

Maximum Power Factor 2 Km / 1.25 miles

Max Output Energy: 0.12 J Max Stored Energy: 0.16 J
Power Source: 6V/12V Suitable for up to: 2.8 acres / 0.7 ha

AN45 UPC 6-49998 02100-2

The AN45 is ideal for use on short lengths of portable fence. Includes the same features as the popular AN90.

Maximum Power Factor 1 Km / 0.65 miles

Max Output Energy: 0.04 J Max Stored Energy: 0.05 J
Power Source: 6V/12V Suitable for up to: 1.4 acres / 0.35 ha

HALLMAN FENCERS

See our *Hallman* line of CSA approved, low impedance energizers. Economy class and serviceable, with a **24 month warranty** from date of sale, including lightning damage. *These fencers have electrically grounded transformers to minimize tinkle voltage.*

GUARD VOLTAGE: Lowest effective guard voltage for long haired animals = 2000 V
 Lowest effective guard voltage for short haired animals = 700 V

Model Number	No Load Voltage	Type	½ mi.	1 mi.*	2 mi.	3 mi.	5 mi.	10 mi.	30 mi.	50 mi.

* 100,000 ohm, .015uF. Above ratings based on well insulated, single wire fence.

170-070 - Trident 6950 9 Joule

UPC 7-75348 06950-6

\$399.99

- 110 Volt AC Energizer
- 9300 Guard Volts Output
- 3 Terminals can be used simultaneously for 3 different fields and voltage settings
- 3 separate fence systems of up to 50 miles each

These ratings are based on clean fence, no obstructions.

- We recommend the Trident for areas of 40 to 100 Acres
- Features a flashing operating light.

170-050 - Stockman 6000 1.5 Joule

UPC 7-75348 06000-8

\$199.99

- 110 Volt AC Energizer
- 4000 Guard Volts Output at 10 miles of fence
- 8300 Guard Volts Output at 2 miles of fence

These ratings are based on a clean well constructed fence

- We recommend the Stockman for areas of 10 to 40 Acres
- Features a flashing operating light.
- This is a good performing fencer, with a pulse rate of 60 per minute. Great for predator control.

170-055 - Stockman Extra 6050 1.5 Joule

UPC 7-75348 06050-3

\$224.99

- 110 Volt AC Energizer
- Same features and performance as the Stockman. This fencer comes equipped with a fence condition indicator that shows the user at a glance whether there is a problem with the fence installation.

HALLMAN FENCERS

170-030 - Shur Shock 2800 2 Joule UPC 7-75348 02800-8 **\$159.99**

- 110 Volt AC Low Impedance Energizer
- 3800 Guard Volts Output at 10 miles of fence
- 5800 Guard Volts Output at 2 miles of fence

These ratings are based on a clean well constructed fence

- Effective for up to 25 miles of clean fence
- Features a flashing operating light.
- A good quality fencer, the Shur Shock will easily do the job for a field of up to 20 acres with moderate weed load.

170-035 - Shur Shock Extra 2850 2 Joule UPC 7-75348 02850-3 **\$179.99**

- 110 Volt AC Low Impedance Energizer
- Same features and performance as the Shur Shock. This fencer comes equipped with a fence condition indicator that shows the user at a glance whether there is a problem with the fence installation.

Battery Fencers

170-060 - Battery Saver 1.5 Joule UPC 7-75348 06900-1 **\$199.99**

- 12 Volt DC Low Impedance Fence Controller
- High performance fencer will except some vegetation
- Photo cell extends operation to 120 days with night time power on low, 62 days on high setting. Photo cell automatically reduces nighttime pulse rate for battery conservation.
- Over-ride switch maintains daytime pulse rate for nocturnal predator control

These claims are based on fully charged 12 Volt deep cycle battery

- We recommend this energizer for up to 20 acres.

170-040 - Deter 300 Battery 0.1 Joule UPC 7-75348 03000-1 **\$159.99**

- 6 Volt DC Low Impedance Current Pulse
- Up to 8 weeks battery life
- Uses 6 volt Alkaline Lantern Batteries (*not included*)
- Up to 4000 Guard Volts on small acreage
- A low cost fencer alternative
- We recommend this energizer for fields of 5 to 10 acres.

170-020 - Deter 200 Battery 0.1 Joule UPC 7-74996 02705-6 **\$89.99**

- Battery Energizer
- Uses 4 D cell Alkaline Flashlight Batteries (*not included*)
- Will power fence up to 4 weeks, 24 hours a day
- Ideal for the circuit rider when you need a corral to let your horse have their freedom for the night. Also good for guarding your possessions from creatures while camping.
- 1 year warranty

HALLMAN SOLAR FENCERS

170-090 - Solar6 6985 0.1 Joule **UPC 7-75348 06985-8** **\$309.99**

- 6 Volt DC Low Impedance Solar Powered Fence Controller
- The Hallman Solar 6 delivers up to 4000 Guard Volts
- Solar Panel and 6 Volt Gel Cell battery included
- Fencer is powered by the sun by day and battery at night
- Battery will operate fencer up to 7 days in darkness
- High quality gelled electrolyte battery included
- 24 month warranty on fencer, 12 month warranty on battery
- We recommend this fencer for 5 to 10 acres

170-091 - 6 Volt Battery **UPC 7-74996 05279-3** **\$49.99**

- 6 Volt gel cell battery for solar fencer

180-010 - Shock Reducer **UPC 7-75348 02315-7** **\$84.99**

- This shock reducer is safely and successfully used with Hallman and many other brands of energizers as long as they bear the CSA or UL mark. It will reduce the power on the output terminals:
 - On High: by approximately 50% of the fencers normal output
 - On Med: by approximately 35% of the fencers normal output
 - On Low: by approximately 17% of the fencers normal output
- We do not recommend using the Shock Reducer with a high output fencer such as the Hallman Trident #170-070
- Ideal for use in dairy operations with cow trainers
- Ideal for use in poultry operations for bird control with feeders

170-100 - Dare O.K. Corral Kit 2700 **UPC 0-38923 02700-2** **\$296.99**

- Ideal for trail riding, horse shows, etc. Quick, Easy set-up
- Battery fence charger with 30 day continuous service life
- Powered by two D-cell batteries (*not included*)
- Durable compact carry bag attaches to most saddles
- Includes:

1 fence charger	12 fiberglass posts
25 insulators	2 gate hooks & hardware
1 262' roll of poly wire	4 corner stakes & tie-downs
1 fence tester	1 jumper cable
1 24" ground rod / hanger	1 roll flagging tape
1 Complete Instructions	

PARMAK ENERGIZERS

#P-RM-1 RANGE MASTER UPC 0-54711 02550-0

The most technically advanced Parmak fencer.

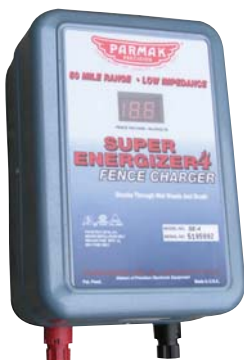

Suitable for the control of all types of animals.

- Digital meter shows voltage on fence - accurate within 100 volts
- Ultra-high visibility multi-color LED lights show condition of fence
- Audible and visible "Shut Down Alarm" sounds when fencer is not functioning
- Rugged high impact ABS housing
- Color coded fence and ground terminals

Maximum Power Factor 160km / 100 miles

Max Output Energy: 12 J Power Source: 110-120 V
 UL Listed Low Impedance
 2 Year Warranty For Indoor Installation

\$399.99

#P-SE4 SUPER ENERGIZER 4 UPC 0-54711 02514-2

Outstanding Parmak model with proven performance.

- Low impedance designed specifically for large pastures
- For single or multi-wire high-tensile fence
- Advanced solid state circuitry
- Parmak's exclusive built-in performance meter
- Ideal for controlled grazing of livestock and predator control
- Double fuse protection with built-in lightning arrester

Maximum Power Factor 80 km / 50 miles

Max Output Energy: 9.1 J Power Source: 110-120 V
 UL Listed Low Impedance
 1 Year Warranty For Indoor Installation

\$184.99

#P-MARK7 MAXI-POWER UPC 0-54711 02512-8

The all new Mark 7, low impedance fencer gives you the stock holding power that you have always wanted.

- For single or multi-wire high-tensile fence
- Advanced solid state circuitry
- Parmak's exclusive built-in performance meter
- Ideal for livestock or predator control
- Double fuse protection with built-in lightning arrester

Maximum Power Factor 48 km / 30 miles

Max Output Energy: 6 J Power Source: 110-120 V
 UL Listed Low Impedance
 1 Year Warranty For Indoor Installation

\$161.99

#P-FM FIELD MASTER UPC 0-54711-02516-6

Designed for small to medium pastures.

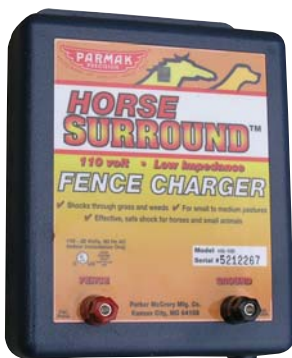

Suitable for the control of cattle and horses in small numbers.

- Advanced solid state circuitry
- Shocks through wet weeds and brush
- Built-in operational light
- Double fuse protection with built-in lightning arrester

Maximum Power Factor 24 km / 15 miles

Max Output Energy: 3 J Power Source: 110-120 V
 UL Listed Low Impedance
 1 Year Warranty For Indoor Installation

\$135.99

#P-HS-100 HORSE SURROUND UPC 0-54711 02575-3

Suitable for horses, pets, & other smaller animals. Ideal for controlling and training horses.

- Advanced solid state circuitry
- Shocks through wet weeds & brush
- Built-in dual flashing operational light
- 100% American made

Maximum Power Factor 24 km / 15 miles

Max Output Energy: 1.5 J Power Source: 110-120 V
 UL Listed Low Impedance
 1 Year Warranty For Indoor Installation

\$89.99

PARMAK BATTERY & SOLAR ENERGIZERS

#P-MAG12 MAGNUM 12 UNIT ONLY **UPC 0-54711 23113-0**
A heavy duty solution for medium to large farms and remote areas where electricity is not available.

- 12 volt advanced solid state circuitry
- Performance meter that shows condition of the fence
- Low impedance for maximum power and longer life
- Compact design
- Weatherproof, portable - outdoor model
- Use with 12 volt storage battery; complete with battery clamps
- Ideal for livestock or predator control
- Provides up to 3 months of continuous operation between battery charges

Maximum Power Factor 48km / 30 miles

Max Output Energy: 2.7 J Power Source: 12 V
 UL Listed Low Impedance
 1 Year Warranty For Outdoor Installation

\$131.99

#P-EM-200 SURROUND EM **UPC 0-54711 02580-7**
Safe, effective, shock designed for animals that are sensitive to electric shock like horses, dogs and other short haired animals. Control & train your horses, dogs, or other animals. Approved by leading equestrians.

- Advanced solid state circuitry
- Shocks through wet weeds & brush
- Built-in flashing operational light
- Weatherproof for outdoor installation

Maximum Power Factor Small Pastures

Max Output Energy: 1.6 J Power Source: 12 V
 UL Listed Low Impedance

\$94.95

#P-DF-LI-OU DELUXE FIELD **UPC 0-54711 02113-7**
New, compact 6 volt fencer designed for livestock control in small to medium pastures.

- New, compact, lightweight design
- 100% solid-state with increased shock output
- Compact design, weatherproof, portable - outdoor model
- Built-in operational light
- Use a Ray-o-vac #641 or equivalent 6-volt battery
- Shocks through wet weeds and brush

Maximum Power Factor 40km / 25 miles

Max Output Energy: 1.4 J Power Source: 6 V
 UL Listed Low Impedance
 1 Year Warranty For Outdoor Installation

\$111.49

#P-MAG12-SP MAGNUM 12 SOLAR PAK **UPC 0-54711 23111-6**
Featuring the latest state-of-the-art solar panel with superior charging power the Magnum 12 Solar-Pak eliminates battery recharging, thereby saving you time and money.

- Performance meter that shows condition of the fence
- No operating costs
- Complete with 12 volt rechargeable battery
- Weatherproof, portable, outdoor model

Maximum Power Factor 48km / 30 miles

Max Output Energy: 3 J Power Source: 12 V Solar
 UL Listed Low Impedance
 2 Year Warranty For Outdoor Installation

\$454.99

#P-DF-SP-LI DELUXE FIELD SOLAR PAK **UPC 0-54711 02111-3**
America's first solar-powered electric fencer is now low impedance and features an exclusive built-in performance meter .

- Weatherproof, outdoor model
- Sealed, rechargeable 6 volt battery
- Will operate for 21 days in total darkness
- New, more powerful solar panel

Maximum Power Factor 40km / 25 miles

Max Output Energy: 1.4 J Power Source: 6 V
 UL Listed Low Impedance
 1 Year Warranty For Outdoor Installation

\$269.99

speedrite™ by TRU-TEST® DIGITAL VOLTMETER		
S-ST010	9-414731 374797	65.50

speedrite™ DIGITAL VOLTMETER is highly accurate voltmeter for testing the most extensive fencing systems. Powered by a 9 volt battery with a life of 12 - 18 months. Tough, durable and reliable, the compact pocket sized digital voltmeter has solid state circuitry, automatic on/off and reads from 100 to 9,900 volts. Simply insert ground stake into the ground, then hook over fence.

S-ST010

DARE DIGITAL VOLTMETER		
180-095	0-38923 02411-7	52.49

DARE DIGITAL VOLTMETER for electric fence. Reads up to 9,999 volts. Extremely sensitive and accurate. Powered by a 9 volt battery supplied. Has an easy to use ground probe attached and automatic on/off. Leather pouch included.

180-095

speedrite™ by TRU-TEST® FENCEALERT		
S-ST0301	9-414731 103779	26.15

speedrite™ FENCEALERT warning light should be placed on every electric fence that is passed during the hours of darkness, especially alongside roads, lane ways and around buildings. The FENCEALERT provides an instant warning of low or intermittent voltage and hence, animals escaping. Low voltage warning light. Starts working when your fence stops. No ground lead required. Up to 5 years battery life. Can be seen for up to a mile.

S-ST0301

DARE ELECTRIC FENCE PULSE INDICATOR		
180-111	0-38923 02221-2	46.29

DARE ELECTRIC FENCE PULSE INDICATOR has a fluorescent lamp encased in vinyl tube. Attaches permanently to electric fence wire. Check the fence at night from a distance. Uses little power. Simply install this unit on end of your fence where you can see it from your house or barn. If flashing you know your fence is still charged. Gives you peace of mind, without following your entire fence. Clip red lead onto fence. Black lead to ground stake.

180-111

FENCE MANAGEMENT TOOLS

Part No.	UPC No.	Retail Price
----------	---------	--------------

DARE FIVE-O-LITE FENCE TESTER

180-110	0-38923 01360-9	13.69
---------	-----------------	-------

DARE FIVE-O-LITE FENCE TESTER is a graduated electric fence tester that actually show how many volts are at the charger or on the fence line. Voltages are plainly marked on the case - 625, 950, 2,000, 3,300 and 5000 volts. Take a reading on your fencer, then check fence. If reading is the same, fence is okay.

180-110

speedrite™ by TRU-TEST® DIRECTIONAL FAULT FINDER

S-ST101	9-414731 102680	157.00
---------	-----------------	--------

speedrite™ DIRECTIONAL FAULT FINDER is a combined voltage and current meter that allows you to rapidly find faults/shorts on your electric fence. Large backlight. Bold current indicator arrows. Simultaneous voltage and current reading. Audible current indicator. Robust, impact and water resistant case. Integrated belt carry clip. No earth lead needed. Low battery indicator. Replaceable 9 volt battery.

S-ST101

S-ST102

speedrite™ by TRU-TEST® FAULT FINDER/REMOTE CONTROL

S-ST102	9-414731 102680	250.00
---------	-----------------	--------

speedrite™ DIRECTIONAL FAULT FINDER/REMOTE CONTROL Same as above but is also a remote control for the R36 000, R20 000 and R12 000 electric fencer. Turn off your electric fence to perform repairs from anywhere in the field. No more running back to the fencer from the back end of your field to turn off the power for repairs.

DARE SINGLE LITE FENCE TESTER

180-100	0-38923 00460-7	4.55
---------	-----------------	------

DARE SINGLE LITE FENCE TESTER is essential to making spot checks in the field. Tells wether fence is working and helps locate faults such as 'opens', 'shorts', and partial grounds. Lamp protected by resistor.

180-100

DARE VOLTAGE SPIKE PROTECTOR

180-112	0-38923 00219-0	10.35
---------	-----------------	-------

DARE VOLTAGE SPIKE PROTECTOR A must for every 110-V fence controller. Reduces effects from electrical surge through power line, a common cause of controller damage. Use on grounded circuits only.

180-112

DARE ELECTRIC FENCE FUSED PLUG

180-116	0-38923 01624-2	3.69
---------	-----------------	------

DARE ELECTRIC FENCE FUSED PLUG Two one amp fuses protect controller on 110-V power. (Fuses not included.)

180-116

DARE ONE AMP FUSE

180-060	0-38923 01890-1	1.99
---------	-----------------	------

DARE ONE AMP FUSE to fit most types of electric fence controllers. Dimensions 1/4" x 1-1/4" AGC - 1 amp. Pack of 5 blister card.

180-060

LIGHTNING STRIKE PROTECTION

We recommend Lightning Protection for energizers, regardless of what make or model, to reduce your energizer repair bills. A properly installed lightning protection system will help to eliminate costly energizer repairs. Our 180-030 Dare Lightning Choke used in conjunction with 180-115 Dare Lightning Arrestor Kit should help to protect your energizer. Please see diagram on page #96. **Note: Make sure your ground on the lightning arrestor has more capacity than ground on energizer.*

Part No.	UPC No.	Retail Price
DARE LIGHTNING CHOKE		
180-030	0-38923 02454-4	15.75

DARE LIGHTNING CHOKE is designed to reduce the impact of lightning travelling the fence line to the controller. Complete with mounting screws, stand off insulators and instructions.

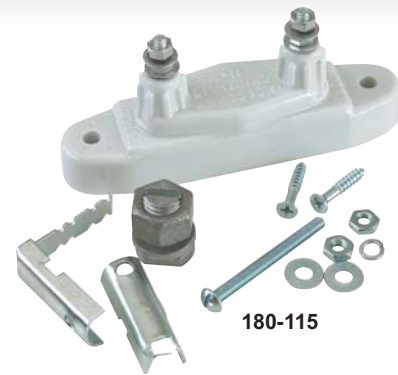

180-030

LIGHTNING STRIKE PROTECTION

Part No.	UPC No.	Retail Price
DARE LIGHTNING ARRESTOR KIT		
180-115	0-38923 02477-3	9.49

DARE LIGHTNING ARRESTOR KIT Heavy duty, farm tested and proven, electric fence lightning arrester. Complete with wire clamp, ground rod clamp and mounting screws. When installing the arrester kit you must use separate ground rods from fence energizer. Make sure your arrester ground is at least 50 feet from the closest ground on energizer.

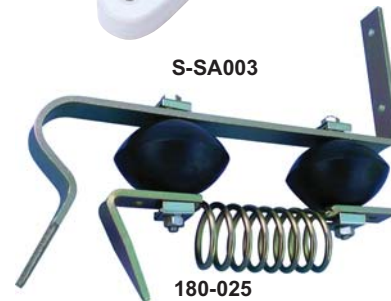

speedrite™ by TRU-TEST® LIGHTNING ARRESTOR		
S-SA003	9-415793 400301	9.25

speedrite™ LIGHTNING ARRESTOR Porcelain arrester used in line with fence. Protect your energizer from lightning strikes.

LACME LIGHTNING ARRESTOR		
180-025	3-41516 66710-2	21.39

LACME LIGHTNING ARRESTOR diverts lightning strike through 2 poles faced towards each other far enough apart no to interfere with energizer power voltage.

KOLTEC LIGHTNING ARRESTOR

BAYGUARD® HEAVY DUTY ELECTRIC FENCE WIRE for permanent or temporary pasture and rotational grazing. 3 Aluminum conductors for maximum shocking power - Conducts electricity 50X greater than stainless steel wire. High contrast yellow and black colors. 3 Reinforced PVC coated fiberglass cords give high strength plus low stretch and sag properties. Bayguard conductor wires are 0.159" (.4mm) compared to many products constructed of 0.008" (.2mm) conductor wires. UV stabilized for excellent weathering. 110-140 wire is wound on a ReelEasy™ Spool for use with optional Reel Easy™ handle. **5 Year UV Warranty.**

speedrite™ by TRU-TEST® ULTRAWIRE FOR ELECTRIC FENCE

S-SP041	9-414731 101379	78.50
400 meters/1312 ft., red/white,		
S-SP040	9-415793 321002	45.75
200 meters/656 ft., red/white,		

speedrite™ ULTRAWIRE ELECTRIC FENCE WIRE products feature 6 tin plated copper strands as the conductor. This is one of the most conductive materials known to man and it's the ULTRA product's low resistance that enables such high voltage readings at the end of strip grazing lengths. 60 Times more conductive than standard polywire. Ultra violet stabilized polyethylene yarn.

Using a larger energizer will not greatly increase the amount of shock (volts) at the end of a strip grazing section. If the resistance remains the same then so will the voltage. This can be likened to a rancher trying to increase the flow of water, to a trough at the end of a 1 mile section of pipe by using a larger pump. Increased water flow will only be achieved by lowering the resistance, or in other words by using a larger diameter pipe.

REMEMBER you need at least 3000 volts to successfully control animals, this is recognized as the industry standard.

The "effective voltage" is the voltage experienced by an animal when it touched the fence. There is often a difference between a voltmeter reading and what an animal experiences when it touches the fence. At the end of a fence (or at the end of a length of polywire) a voltmeter may record a high voltage. However, the voltmeter does not load the fence when it records the voltage. If an animal touches the fence at the same place, it creates a significant load on the fence. The larger the load, the more important the resistance that the energizer must overcome to deliver a shock to the animal. As a consequence the voltage felt by the animal is always less than the voltage on the voltmeter, especially as you move further from the energizer. By using Speedrite ULTRA products you can lower the fence resistance, resulting in higher effective voltage.

speedrite™ by TRU-TEST® 9 STRAND ELECTRIC FENCE WIRE

S-SP211	6-91346 10130-0	57.50
400 meters/1312 ft., white,		

speedrite™ 9 STRAND ELECTRIC FENCE WIRE has higher strength and conductivity than conventional polywire. Recommended for temporary and semi-permanent fencing. High twist cord with excellent strength and durability and 9 strands of stainless steel wire for high corrosion resistance. UV stabilized for longer life. Available in bright white.

BAYGUARD® HIGH VISIBILITY POLY ELECTRIC FENCE EQUI-TAPE® is PVC coated fiberglass which gives this tape high strength plus low stretch and sag properties. High conductivity (low resistance) aluminum wires for superior conductivity compared to stainless steel wire. Fire resistant unlike many competitive brands. BAYGUARD conductor wires are .0159" (.4mm) compared to many competitive products constructed of .008" (.2mm) conductor wires. UV stabilized. Easy to install. **5 Year UV Warranty.**

POLY FENCING TAPE

Part No.	UPC No.	Retail Price
----------	---------	--------------

speedrite™ by TRU-TEST® ULTRATAPE ELECTRIC FENCE TAPE

S-SP052	9-415793 320364	96.80
400 meters/1320 ft., red/white,		
S-SP050	9-415793 320357	49.70
200 meters/660 ft., red/white,		

speedrite™ ULTRATAPE ELECTRIC FENCE TAPE features ultra high conductivity and delivers maximum energy transfer. 60 Times more conductive than conventional poly-tape. Ultra low resistance of 65 ohm/km (105 ohm/mile). Designed for long lengths of temporary or semi-permanent fencing. Special woven construction for extra strength and durability. Contrasting colours for excellent visibility. UV stabilized for longer life.

MATELEVAGE ELECTRIC FENCE TAPE

110-176	7-74996 05873-3	59.99
1/2" x 200 meters/656 ft., blue/white, 4 rolls/case, 24 lbs/case.		

MATELEVAGE ELECTRIC FENCE TAPE is ideal for permanent pastures and rotational grazing. The grouped arrangement of the conductors guarantees instant reelectrification in case of a failure on one wire. Perfect resistance in bad weather conditions. Treated against UV. Highly visible.

speedrite™ by TRU-TEST® POLITAPE ELECTRIC FENCE TAPE

S-SP017	9-415793 320173	61.50

EQUINE FENCE TAPE

Part No.	UPC No.	Retail Price
4" TAPE RAIL EQUINE FENCE		
110-211	8-35923 00329-2	84.99

4" x 100 meters/330 ft.,

THE TOP LINE ELECTRIC FENCE.

This tape rail has been designed to be highly visible and easy to erect.

The tape is constructed with 4 unique conductive twines. Each twine contains 3 tinned copper wires. The twisted construction means that the tape can be highly strained without the worry of breaking the conductive filaments. The tinned copper wires gives the Tape Rail a conductivity similar to 2.5mm galvanized fence wire.

The Tape Rail system has a full range of quality accessories listed below. This allows construction utilizing either steel or wood. If using steel posts, specially designed protective caps should be used to protect your livestock.

Tape Rail Dispensing. If constructing the fence by yourself, the box can be used as a dispensing unit. Tie the box to the strainer post using some wire. Alternatively you can place the box on the centre spindle of a common wire spinner. Simply pull the tape through the slit on the box.

Post spacings should be 5 meters apart. In high wind areas, post spacing may need to be reduced. It is important to make sure the tape is strained sufficiently so wind does not flutter the tape. If the tape moves in the wind, increase the strain on the tape.

While the tape is strained make sure the retaining clip is held in the cog. If the spring releases during straining the tape will unwind like a giant spring.

Once the tape has been strained tightly from both ends, the strainer should be returned to vertical position.

Electrical connection is made to the insulated strainer utilizing split bolt line clamps and underground cable. "Cut off" switches should be used to electrically isolate sections of the fence.

110-211

INSULATED RATCHET STRAINER FOR 4" TAPE RAIL FENCE

110-214	8-35923 00109-0	21.95
---------	-----------------	-------

2 Pack

Insulated Ratchet Strainer for 4" Tape Rail Fence is used to strain the tape. This should be used from both ends to guarantee an even strain along distances up to 300 meters.

Pull the tape through the slit of the cog and pull hand tight. Cut excess tape away. Turn the strainer to the horizontal position while straining with spanner. Make sure while straining that the tape is centered on the strainer to prevent the tape from being damaged by either side of the cog.

110-214

TAPE RAIL INLINE CONNECTOR

110-215	8-35923 00332-2	26.95
---------	-----------------	-------

Tape Rail inline connector joins Tape Rail. Wind the tape from both sides around individual plates and then clamp together utilizing bolts and nuts supplied.

110-215

TAPE RAIL INSULATOR

110-212	8-35923 00327-8	26.95
---------	-----------------	-------

Tape Rail insulator for T-posts and wood posts.

HORSERAIL FENCING

Part No.	UPC No.	Retail Price
HORSECOTE™ COATED HIGH TENSILE FENCE WIRE		
110-240	7-74996 04584-9	215.95

12-1/2" gauge wire., 1320'/400m., 68 lbs/30kg., White.

HORSECOTE™ COATED HIGH TENSILE FENCE WIRE is a plastic coated wire that is quickly becoming the coated wire of choice by both horse owners and fencing contractors. It is very easy to use, needs little maintenance, is cost-effective, easy to install and versatile. The molecularly bonded premium grade polyethylene plastic is reinforced by a 12.5 gauge high tensile fence wire, which has an ASTM classification for physical barrier fencing, that has a minimum breaking strength of 1650 lbs. It can handle animal impact and cold weather construction/expansion without permanent elongation. The large diameter of 0.3" is easier for animals to see, and this size helps reduce the chance of injury. 10 Year Limited Warranty.

HOTCOTE™ COATED HIGH TENSILE FENCE WIRE		
110-245	7-74996 04585-6	244.75

12-1/2" gauge wire., 1320'/400m., 68 lbs/30kg., White.

HOTCOTE™ COATED HIGH TENSILE FENCE WIRE has the same properties as the above wire but can be electrified. The black plastic core is conductive and comes to the surface in 3 narrow lines.

PONYRAIL™ COATED HIGH TENSILE FENCE RAIL		
110-300	6-49998 03835-2	314.99

750'/230m., 68 lbs/30kg., White.

PONYRAIL™ COATED HIGH TENSILE FENCE RAIL. The 1" Ponyrail is an economical choice that does not sacrifice quality. The Ponyrail system is best used with our Horsecote and Hotcote wire fences. Ponyrail is both safe for the horse and rider and can be used to make attractive arenas.

HORSERAIL™ COATED HIGH TENSILE FENCE RAIL. The Horserail is available in 4", 5" and 6" widths and is a popular choice for horserail fencing. This is because of it's strength, flexibility, safety and competitive cost. It is available in three colours - white, brown and black - and is designed to be easily installed using the unique buckling and tensioning system. Horserail is competitively priced and comes with a "No Problems" Warranty.

4" 2 WIRE HORSE RAIL IS STRONGER THAN 4" 3 WIRE HORSE RAIL DUE TO ITS HEAVIER CONSTRUCTION

CRIMP SLEEVES AND JOINTERS

GRIPPLE JOINER & TENSIONER

GripPle is a unique wire joining and tensioning system, consisting of the GripPle Joiner and Tensioner and the GripPle Tensioning Tool.

At the heart of the system is the internally acclaimed, award winning GripPle Joiner and Tensioner. The unique GripPle design gives strength and durability, both essential requirements for outdoor use in extreme climatic conditions. GripPles have a 100% zinc alloy outer casing. Inside there are two precision serrated, hardened steel rollers which act as a locking mechanism. The rollers, supported by two stainless steel springs, allow the GripPle to be re-tensioned or reused as required.

The second component of the system, the GripPle Tensioning Tool takes up the wire tension when installing or during seasonal maintenance.

The real benefit of using the GripPle is its ease of use - simply push the wire through the GripPle. Pass a length of at least 50mm of wire through the other side of the GripPle; this will help future adjustments and re-tensioning.

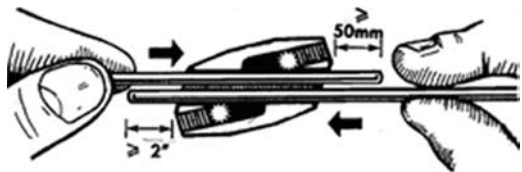

Once the GripPle is in position, and tension is applied, the rollers lock automatically onto the wire. Wire tension can be increased at any time by simply pulling more through the GripPle. To remove the GripPle, cut the wire and pull the ends through. The GripPle is now ready to use again.

The GripPle's clever design allows installations and repairs to be secured in seconds. This saves time, money and materials.

System Benefits

- Easy to Use - simple push-fit means no bending or twisting of awkward wires and no more cuts and grazes to hands
- Versatile - there is a GripPle Joiner and Tensioner to suit all types of wire, including stainless steel, high tensile and barbed wire
- Re-tensionable - the GripPle Joiner and Tensioner can be re-tensioned season after season, restoring original tension to the fence
- Maximizes the life of the wire - the wire maintains its straightness and strength - there is no bending or twisting to weaken the wire
- Durable - GripPle Joiner and Tensioners are made from zinc for maximum corrosion resistance
- Fast Repairs - GripPle Joiner and Tensioners are ideal for maintaining and replacing damaged sections of wire

Model	Plain Wire		Barbed Wire		Working Load

----------	---------	-------------	--------------

DARE FLOODGATE CONTROLLER

180-210	0-38923 02209-0		15.59
---------	-----------------	--	-------

Restricts the flow of current to specific sections of fence that may be shorted by rising water or heavy weed growth. Prevents shorted wire from grounding entire fence. Also as an "ENERGY LIMITER"

speedrite™ by TRU-TEST® FLOODGATE CONTROLLER

S-SA038	9-415793 403807		35.25
---------	-----------------	--	-------

Limits energy loss from heavy growth or flooding. Fully sealed from insects and the elements.

DARE 20' SLINKY GATE

180-200	0-38923 02222-9		16.29
180-201	7-74996 02675-6	Spring only.	8.79

Stretches to fit gate opening up to 20 feet. Retracts to keep gate off ground when open. Electrified when closed, neutral when open. Highly visible and effective. SLINKY GATE assembly consists of: One Rub'RGate handle, one large galvanized spring, two pinlock style wood post insulators with galvanized nails, two pinlock style T-Post insulators, one anchor/activator, one fence line clamp/tap and complete schematic instructions. Equipped to fit wood or T-Post openings.

speedrite™ by TRU-TEST® SPRING GATE

S-SA044	9-415793 404408	16' Spring Gate	20.95

S-RSGSXL	9-414731 376883	24' Spring Only for S-SA0448M	7.90

Heavy duty galvanized spring. Highly visible for maximum stock control.

speedrite™ by TRU-TEST® TAPE GATE

S-SA043	9-415793 404309	16' Tape Gate	20.95
---------	-----------------	---------------	-------

Wide, highly visible tape. 16' of 1-5/8" wide gate tape.

KOLTEC GATE HANDLE

180-230	7-74996 01930-7		2.29
---------	-----------------	--	------

Strong gate handle that can withstand heavy loads. Will not crush when driven over by tractor. Incorporates strong spring that cannot be overstrained.

DARE GATE HANDLE

180-231	0-38923 01793-5		4.99
---------	-----------------	--	------

OLD IRONSIDES® gate handle has a safety hook and body formed as one...from 7/8" diameter steel pipe. Spring mechanism consists of 4-1/4" long compression spring fastened to a 5/16" diameter eyebolt. All metal parts are permanently assembled using 20 tons of force. No flimsy snap-on/push-on fasteners used anywhere. Large insulated grip measures 5-1/8" long with a 2-1/4" diameter flange for extra shock protection, Molded of a soft flexible material that will not chip, crack or break when abused. Performs in any climate. Metal parts plated to resist rust. Molded grip contains carbon black to deter UV rays.

DARE GATE HANDLE

180-220	0-38923 00503-1	50 per box	1.75
---------	-----------------	------------	------

OLD FAITHFUL™ High quality, hi-impact styrene long and trouble free life. Measures 4-3/4" between flanges. All metal parts plated. Heavy stamped steel hook. Enclosed spring stretches 3-1/2" to keep wire taut. **Red.**

WOOD POST INSULATORS

Part No.	UPC No.	Retail Price
----------	---------	--------------

DARE BLACK WIDOW™ ELECTRIC FENCE INSULATOR

150-070	0-38923 01938-0	2.23
---------	-----------------	------

High density black linear polyethylene for sunlight resistance. Operates well in any climate in any part of the world. 45 degrees slot accepts any fence wire and holds it in place. BLACK WIDOW™ ...a very good insulator.

25/bag, 20 bags/ctn., 10 lbs./ctn., 1.02 cu. ft.

DARE SNUG® 1728 INSULATOR

150-080	0-38923 02070-6	2.69
---------	-----------------	------

SNUG® 1728 INSULATOR for wood posts. Extends wire 1" from post. Flexible base fits round and flat sided posts. Single headed nails supplied, easily removed. Molded of high density polyethylene with UV inhibitors.

25/bag, 20 bags/ctn., 14 lbs./ctn., 1.02 cu. ft. (Complete with nails)

DARE SNUG® SWP INSULATOR

150-090	0-38923 01911-3	3.44
---------	-----------------	------

SNUG® SWP INSULATOR for wood posts. Extends wire 2" from post. Heavier and tougher than others. Insulator rests on 3/4" nail surface. Won't tear or crack loose. Flexible base fits round or flat sided posts. Molded of high density polyethylene with UV inhibitors for all weather durability.

25/bag, 20 bags/ctn., 23 lbs./ctn., 1.78 cu. ft. (Complete with nails)

DARE WOODDEX® 5WP/10 INSULATOR

150-100	0-38923 01915-1	4.71
---------	-----------------	------

WOODDEX® 5WP/10 FOR WOOD POSTS. Extends wire 5" from post. Excellent for hogging down over old field fence. 3" od Wooddex rests on 30d nail. Strong and sturdy. Molded of high density polyethylene with UV inhibitors.

10/bag, 25 bags/ctn., 26 lbs./ctn., 1.78 cu. ft (Complete with nails)

DARE WOOD POST TAPE INSULATOR

150-110	0-38923 02403-2	7.84
---------	-----------------	------

For polytape up to 1 1/2" wide. Insulators grip tape tightly to prevent whipping and sawing. Heavy tape holder unlocks to aid installation. Molded of all-weather high density polyethylene.

25/bag, 10 bags/ctn., 13 lbs./ctn., 1.02 cu. ft

DARE WOOD POST TAPE INSULATOR EXTENDED

150-115	0-38923 02913-6	13.12
---------	-----------------	-------

For polytape up to 1 1/2" wide. Extends tape 3 1/2" from post. (Nails included)

150-115W	0-38923 02986-0	13.12
----------	-----------------	-------

Same as above in white. For polytape up to 1 1/2" wide. Extends tape 3 1/2" from post.

25/bag, 10 bags/ctn., 13 lbs./ctn., 1.02 cu. ft (Nails included)

DARE STAPLE INSULATOR

150-150	0-38923 01964-9	9.22
---------	-----------------	------

PERMATEMP STAPLE INSULATOR for wood posts. Designed to be used with high tensile permanent electric fence. Can be installed after wire is strung. Molded of highest quality polypropylene with carbon black for superior UV resistance. Performs in any climate. (Type III galvanized 2" staple included.)

50/bag, 10 bags/ctn., 15 lbs./ctn., .38 cu. ft.

<p>TEE POST TAPE INSULATOR for polytape up to 1-1/2" wide. Fits 1.25 & 1.33 lb./ft. T posts.</p> <p>25/bag, 10 bags/ctn., 10 lbs./ctn., 1.56 cu. ft.</p>			
150-280W	0-38923 02982-2	7.03	
<p>Same as above. In white.</p> <p>25/bag, 10 bags/ctn., 10 lbs./ctn., 1.56 cu. ft.</p>			

TEE POST INSULATORS

Part No.	UPC No.	Retail Price
----------	---------	--------------

DARE TEE POST TAPE INSULATOR

150-285	0-38923 02915-0	11.48
---------	-----------------	-------

TEE POST TAPE INSULATOR EXTENDER. Extends wire 31/2" from post. Fits 1.25 & 1.33 lb/ft T-posts. For polytape up to 1-1/2" wide.

25/bag, 10 bags/ctn., 10 lbs./ctn., 1.56 cu. ft.

DARE TEE POST TOP'R® SAFETY TOP AND ELECTRIC FENCE INSULATOR

150-290	0-38923 02046-1	7.73
---------	-----------------	------

TEE POST TOP'R® SAFETY TOP AND ELECTRIC FENCE INSULATOR. Fits all T-posts and can be nailed on top of wood posts. Protects horses and other valuable livestock from sharp, jagged T-post tops. Large heavy-duty cap/insulator can be installed with wire holders facing front, back, right or left. Holds wire, polywire, polyrope, and polytape up to 1-1/2" wide. Molded of high density polyethylene with UV inhibitors for all weather performance.

10/bag, 20 bags/ctn., 38 lbs./ctn., 3.08 cu. ft.

DARE PINLOCK INSULATOR FOR TEE POSTS

150-310	0-38923 02523-7	8.73
---------	-----------------	------

PIN LOCK INSULATOR FOR T-POSTS. Fits 1.25 & 1.33 lb/ft T-posts. Heavy cross sections withstand the pressure of high tensile fencing. Large flange prevents 'shorts' and arcing. Molded of high density polyethylene with carbon black for superior UV resistance. Performs in any climate. Black.

25/bag, 20 bags/ctn., 22 lbs./ctn., 1.78 cu. ft.

SUITABLE FOR HIGH TENSILE FENCING

CORNER POST INSULATORS

Part No.	UPC No.	Retail Price	
DARE HIGH STRAIN CORNER & END ASSEMBLY			
150-460	0-38923 01882-6	17.92	
<p>HIGH STRAIN CORNER AND END ASSEMBLY. Performs superbly from any wood post or tree - as a corner - for straight line fencing. Consists of 3/8" diameter hi-carbon steel bracket, 1752 insulator and self-locking nut. #1708 clip may be required when used for straight line fencing. All metal parts are zinc plated.</p> <p>10/pkg., 5 pkgs./ctn., 17 lbs./ctn., .37 cu. ft.</p>			
DARE HIGH STRAIN CORNER & END INSULATOR			
150-430	0-38923 01752-2	5.69	
<p>HIGH STRAIN CORNER AND END INSULATOR. Molded of high strength engineering grade polymer. Able to withstand the constant pressure of high tensile fence wire. Use for corners, ends, dips, and rises. All weather. Black.</p> <p>10/pkg.</p>			
DARE DOUBLE U END AND CORNER INSULATOR			
150-400	0-38923 02842-9	8.94	
<p>DOUBLE U END AND CORNER INSULATOR. Designed with heavy cross sections to withstand the pull of high tensile wire. Molded of an engineering grade polymer. All weather. Black.</p> <p>10/bag, 20 bags/ctn., 20 lbs./ctn., 1.02 cu. ft.</p>			
DARE REGULAR DUTY CORNER INSULATOR			
150-450	0-38923 01932-8	2.17	
<p>REGULAR DUTY CORNER INSULATOR. Use with polywire and 14 to 19 Ga. electric fence wire. Molded of high density polyethylene with carbon black for superior UV resistance. Large flanged corner insulator with heavy center section. Has flexible tabs that speed installation. Performs in any climate. Black. Not for high tensile fence.</p> <p>10/bag, 25 bags/ctn., 7.5 lbs./ctn., .72 cu. ft.</p>			
DARE BLACK EGG INSULATOR
