### Competitive Direct Replacement

By: Mickey Smith

Regional Account Manager, Johnson Controls

As part of JCI's Unitary Products Group product portfolio expansion, the Norman commercial product team is developing a rooftop platform to attack the aging commercial installed base. Historically, this segment has been dominated by the competition featuring unique footprints. To compete, typically a transition curb is required, which adds to the overall job cost as well as weight and height.

The CDR program, or Competitive Direct Replacement, is developing a line of commercial package units from 3-12.5 ton to fit directly on the existing curb dimensions and eliminate the need for a transition curb. But it doesn't stop there. To avoid developing a me-too product, in addition to footprint modifications, the team is also building in some exciting feature differentiators to create a robust, competitive product capable of helping our customers capture additional market share and additional business. Some of these features include, but not limited to:

- SES1 Controls
- Embossed panel for added structural support
- Seismic tested to 2.5 OSP certification
- Field convertible 4" filters
- Micro channel condenser coils on certain models.
- Powder Paint finish with a 1000 hour salt spray standard.
- Manufactured in the USA.

Initial launch for this series will begin in late fall 2013.

Stay tuned for additional details in upcoming newsletters.

## FAN BLOWER BOARDS

- Reliable solid state fan blower control
- Specifically designed to replace popular gas furnace centers
- Pin selectable blower delays
- High power, relay output
- Dual function fan delay timer
- Controls the circulating fan in heat pump, A/C and forced air systems
- OFF delay purges ducts for residual air
- ON delay allows air to reach the proper comfort level prior to energizing the fan

ITEM	PRICE
ICM271C Replacement for OEM models including Carrier CES0110017/18 and HH84AA-x series control boards	<b>\$45.19</b>

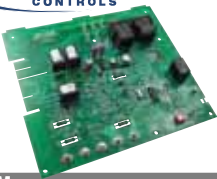

## FAN BLOWER BOARDS

- Microprocessor-based fan blower control

- Purges ducts of residual air
- Integral short cycle protection

ITEM	PRICE
ICM275C Replacement for OEM models including Carrier CES0110019 and HH84AA-x series control boards	<b>\$46.89</b>

## FURNACE BOARDS

- Controls gas valve, ignitor, blower motor, inducer, humidifier and air cleaner
- Microprocessor-based for precise timing
- Functions with all 24 VAC thermostats
- Designed for 100% gas shutoff in case of ignition failure
- Twinning compatible with another ICM281 board
- Reverse polarity protection
- Secondary brownout voltage protection
- Diagnostic fault codes (blinking LED) for simple troubleshooting

ITEM	PRICE
ICM281 Low cost form, fit and functional replacement board for Carrier CES011005700/01/02	<b>\$76.29</b>

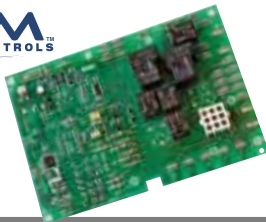

## FURNACE BOARDS

- Controls gas valve, ignitor, blower motor, inducer, humidifier and air cleaner
- Microprocessor-based precision
- Software for enhanced controls operation in counterflow and downflow furnace applications
- Designed for 100% gas shutoff in case of ignition failure
- Twinning compatible with another ICM282A board
- Reverse polarity protection
- Secondary brownout voltage protection
- Compatible with 24 VAC standard thermostat
- Diagnostic fault codes/LED to aid in troubleshooting

ICM291 Low cost form, fit and functional replacement for Carrier: LH33WP003A	<b>\$128.69</b>

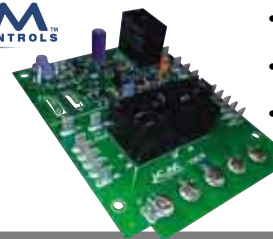

## FURNACE BOARDS

- Replacement for Carrier HK42FZ005, HK42FZ010, HK42FZ016 and HK42FZ017 boards.
- Controls gas valve, ignitor, blower motor, inducer, humidifier, and air cleaner.
- Microprocessor-based precision.
- Designed for 100% gas shutoff in case of ignition failure.
- Twinning compatible with another ICM2807 board.

ITEM	PRICE
ICM2807 Fixed Speed Furnace Control Replacement Kit	<b>\$185.49</b>

## FAN BLOWER CONTROLS

- Single board to replace both the Carrier HH84AA017 AND HH84AA018 boards.
- Controls both the blower fan motor AND the inducer fan.
- Saves on installation time.

ITEM	PRICE
ICM278 Fan Control Board	<b>\$77.29</b>

## GAS IGNITION CONTROLS

- Universal intermittent pilot gas ignition control
- Provides ignition sequence, flame monitoring and safety shutoff for single/dual rod intermittent pilot control applications
- For gas fired furnaces, boilers and other heating appliances
- Switch selectable pre-purge and ignition time trials with permanent lock
- Works with or without vent damper connected
- Works with both Natural and LP gas systems

ITEM	PRICE
ICM290A Low cost replacement control for Honeywell, White Rodgers, Robertshaw and others	<b>\$90.19</b>

## Zoning Made Easy

A Thermostat For Every Zone | A Damper For Every Duct

**NEW** By-Pass Zone Damper  
Model: **RDBP**

Combination by-pass and zone damper in one.

**NEW** Plug-In Motor  
Model: **MP12M**

Same great plug-in motor now with an adjustable minimum position.

**NEW** Outlet Zone Damper  
Model: **OZD**

Inserts at the Outlet when you can't get to the duct. Fits in floor / ceiling boots.

# COMMERCIAL ZONING SYSTEM

- Perfect for schools, campuses, restaurants, bank, retailers, offices and property management companies
- Heavy duty commercial dampers that are rated up to 2" of static pressure
- Cloud based server, so there is no expensive licensing fees or special monitoring software needed
- Compatible with most commercial rooftop gas/electric and heat pump package units
- Up to 4-stages heating and 2-stage of cooling
- Can eliminate bypass damper by using modulating supply dampers to open non-calling zones based on static pressure
- Commercial zoning panels that are expandable as needed from 3 zones to 12 separate zones
- Allows you to save on HVAC utility costs while you control, monitor and troubleshoot your commercial buildings

## AIRFLOW BALANCING METER

The ABM-100 Airflow Balancing Meter is an anemometer that fits in your pocket. It's our first of a series of tools that connect to smart devices and are specifically designed for the HVAC industry.

The ABM-100 easily and instantly converts air speed into air volume for you. Then it records the data to a history log which can be emailed for professional looking reports. The ABM-100 is designed to be better than any other handheld anemometer on the market. The ABM-100 was calibrated for extreme accuracy at the University of Florida's Aerospace Engineering Department.

### FEATURES

- Compatible with iPhone, iPad, iPod, and all major Android devices
- Measures airflow in:
  - o Linear Feet Per Minute
  - o Cubic Feet Per Minute
  - o Cubic Meters Per Hour
  - o Linear Meters Per Second
- Accurate to the larger of +/- 0.5% of the reading or 0.1 m/s at up to 15° off-axis
- Range is from 19 LFM (1 m/s) to 11,000 LFM (56 m/s)
- Resolution is 0.1 m/s
- Rugged and eco-friendly packaging that serves as a reusable storage case
- Sends onsite professional reports by email
