

Microsoft Accessories for Financial Services

Enable users to work from anywhere, collaborate, and share ideas easily and securely with innovative accessories from Microsoft. Choose from keyboards with programmable keys, ambidextrous mice, adapters, webcams, and more. Best of all, Microsoft Accessories easily integrate with Windows 10 devices and Microsoft 365 apps, as well as a variety of non-Microsoft devices.

Work comfortably and be productive while protecting personal data

Financial institutions are under constant pressure to deliver greater value and more personalized customer experiences. They're also facing greater pressure to protect sensitive information from internal and external threats while meeting regulatory requirements. Microsoft Accessories allow organizations to meet these goals by keeping workers comfortable, productive, and compliant.

Comfort and ergonomics

Innovative, modern accessories from Microsoft give financial services employees the freedom to work in a way that's most comfortable for them.

- Ergonomic keyboards reduce strain by keeping hands, wrists, and arms at more comfortable, natural positions.
- Ambidextrous mice support the hand and provide just the right amount of surface area for the palm and fingers to rest.

Productivity and collaboration

Empower financial services workers to create more value for customers with Microsoft Accessories that enable collaboration and productivity from virtually anywhere.

- Webcams, wireless display adapters, and tools for collaboration on the go.
- Lightweight, compact mice for fast, smooth tracking and precise navigation.
- Built-in shortcuts—including dedicated Office 365 keys and easy-access media controls and apps—for increased productivity.

Security and compliance

Keep information private and adhere to regulatory requirements with security features such as Bluetooth® and Advanced Encryption Standard (AES) technologies.

- Secure Bluetooth and AES keyboards encrypt keystrokes prior to transmitting to a PC or other device.
- Random data generation and unique identifiers for each transmission help prevent sophisticated attacks.

Comfort and ergonomics

Microsoft Ergonomic Desktop
RJY-00001

Reduce fatigue with a slim, refined design featuring split keyboard, improved cushion and palm rest, and time-saving dedicated shortcut keys.

The durable and lightweight mouse delivers an optimized scrolling wheel for precise web and document navigation, and two programmable buttons.

Microsoft Ergonomic Mouse
RJG-00001

Work in comfort all day with reduced risk of fatigue and injury. Durable and lightweight, this Microsoft ergonomic mouse is designed for exceptional control with ultrasmooth tracking on a variety of surfaces.

Productivity and collaboration

Microsoft Designer Compact Keyboard
21Y-00001

Optimized for exceptional comfort and a compact, space-friendly work area, Microsoft Designer Compact Keyboard features a smooth, elegant finish and low profile.

Microsoft Number Pad
23O-00016

Streamline working with numbers at your desk or on the go. Microsoft Number Pad gives you the perfect number pad when you need it, and a tidy workspace when you don't. Slim and compact, with premium finish.

Microsoft 4K Wireless Display Adapter
UTH-00001

Discover the strong, reliable way to project your content, photos, and videos on the big screen with the Microsoft 4K Wireless Display Adapter.

Security and compliance

Microsoft Bluetooth Mouse
RJR-00001

Meet your new go-to mouse for precise scrolling and navigation across documents and websites. The modern, compact design fits comfortably in your hand and makes it easy to be productive on the move with smooth tracking on most surfaces.

Microsoft Wireless Desktop 850
PY9-00001

Enjoy the freedom and convenience of wireless technology featuring AES technology to help protect your information.
