- Makes finish super clean and smooth

Use On:

· All surfaces

Includes:

100 gram bar 12 oz. spray bottle

CLAY MAGIC INSTRUCTIONS FOR PAINT

Step 1: Make sure the vehicle is properly washed using a premium Auto Magic car wash soap. *See page 2*

Step 2: Form Clay Magic into a pancake shape, about the size of the palm of your hand.

Step 3: Spray Clay Magic Clay Lube onto a 3' x 3' section of the vehicle's painted surface.

Step 4: Clay the surface with Clay Magic. Use as much pressure as needed to lift the contaminants off the surface. If you drop the clay onto the ground, pinch off any dirt or debris. If the clay is too dirty to clean, discard it.

Step 5: Dry the area with a soft, clean terry or micro fiber towel. Repeat this process of "spraying & claying" to the entire vehicle. It's that easy. Your vehicle is now properly cleaned!

* The car pictured to the left was throughly washed, but after using Clay Magic, the remaining dirt on the surface was evident. Clay Magic really deep cleans and smooths the surface.

Don't polish or wax without it!

PERFORMANCE PLUS

Washes, Cleaners & Dressings -
