ALLIANCE PARTS

Alliance Wheel Bearings
First Fit Wheel End Bearings for the Commercial Vehicle Aftermarket

PRODUCT HIGHLIGHTS

- One year unlimited mileage warranty.
- Crowned raceways and rollers for optimum roller to raceway contact for increased load capacity.
- Superior component finishes yield lower running torque and operating temperatures for longer life.
- Vacuum degassed 52100 bearing steel ensures durability.
- World Class quality of < 2 PPM provides confidence for a critical wheel end application.
- Cup and cone dimensions are interchangeable with leading U.S. bearing manufacturers.

VERSATILE. EFFICIENT. SAFE.

The QWIKTIE tie rod assembly offers a highly adaptable solution that can accommodate a wide range of tie rod lengths. Increased clamping and tube strength allows it to hold alignment, reducing stress on other suspension components.

STEMCO[®]
A Higher Standard of Performance.[™]

an EnPro Industries company

QWIKTIE TIE ROD ASSEMBLY

QWIKKIT™

STEMCO Kaiser QWIK KIT™ THE “TRUE” NO-REAM King Pin Kit

Only the STEMCO Kaiser Qwik Kit™ gives you the performance of steel on steel. In fact, our proprietary High-Chrome, High-Carbon tool steel is the only material that can withstand the constant turning and pounding placed on a steering knuckle and axle over the life of the vehicle.

STEMCO Kaiser NO-REAM Spiral Steel Bushings and Pins are grease grooved for better and more constant lubrication. The Spiral Steel Bushing can be hand-twisted for easy installation and the grooved pin and bushing design allow grease to penetrate the high wear areas without jacking up the front end.

The STEMCO Kaiser Qwik Kit™ is easy to install, easy to maintain, and gives you three to four times the life of conventional bronze or nylon kits.

STEMCO Kaiser QWIK KIT™ For Longer Life And Less Maintenance

- 300% More Grease!
- Grooved Pin Allows Grease to Lubricate Bearing!
- Drive Past Your Next 3 King Pin Jobs!
- Install in Half The Time with Half The Effort!
- No Ream Installation!

SAFETY. PERFORMANCE. CONFIDENCE.

Webb® Wheel Hub

- Industry-standard hubs
- Precision machined for Trifecta
- Over 70 years of hub expertise

STEMCO Manufactured Bearings

- Exceed ABMA performance and durability standards
- Included in OEM long-life wheel end systems

STEMCO Spacer (patent-pending)

- Designed for optimized lubricant flow
- Reduces fretting corrosion between spindle and bearing mating surfaces
- Extends spindle, bearing and seal life

Discover® XR Wheel Seal

- High-temperature, long-life seal
- 4-zone labyrinth and slinger provide unmatched contamination prevention
- GlideLock patent-pending technology reduces installation force by 50% — no prelube required
- Addresses industry's leading seal failure modes — cocked seals and excessive heat generation

Zip-Torq® Axle Fastener

- Simplified, one-piece advanced axle fastener provides fast and simple installation
- Self-ratcheting feature prevents back-off
- No clips, keepers or set screws to install
- Easy removal

Sentinel® Hub Cap (Trailer)

- Tamper-proof for maximum protection and maintenance-free performance
- Prevents dirt and water from contaminating hub oil, extending life of seal and bearing
- Reduces contaminant build-up on hub cap windows, allowing accurate determination of lube levels
- Required for full warranty coverage

Relined Brake Shoes & Kits

Pro-Par brake shoes are constructed of high-quality materials and are engineered for superior strength and reliability.

- ONLY virgin materials
- No re-grind
- Provide consistent, safe, and reliable performance
- Meet or exceed FMVSS 121 testing criteria
- All shoes coined

The Pro-Par legacy, Aurora's own private label brand of products, Pro-Par or "Professional Parts" upholds the highest level of OEM standards. Since 1966, the Pro-Par name has represented a premium brand throughout the trucking industry. Pro-Par products are constructed of high-quality materials and designed for superior performance, reliability, and durability.

NOW AT A TRUCK CENTERS LOCATION NEAR YOU

FLEETRANNER® BELTS

FLEETRANNER HEAVY-DUTY BELTS

- › Last 34% longer than OE belts
- › Last 4X longer than other Aftermarket belts
- › Adhesion gum layer gives composite belt material superior durability
- › Superior resistance to the high heat conditions of modern diesel engines
- › Lowest cost per mile

The Best Belts For Your Fleet

GO FURTHER WITH FLEETRANNER

Don't settle for the limited service life of other belts, which drive up maintenance costs and take your trucks off the road. With more than 40% better load and wear protection, FleetRunner Heavy-Duty belts last longer between services, saving your fleet money and downtime.

SUPERIOR TECHNOLOGY

PROVEN FLEETRANNER PERFORMANCE IN ONE EASY-ORDER KIT

- FleetRunner belts are engineered to handle high mileage, high idle times and high temperatures in abusive environments.
- FleetRunner belts last 34% longer than OE, and 4 times longer than any other after market belts
- Tensioner round spring design and patented damping mechanism extends tensioner life - up to 3 times longer than any other aftermarket tensioner

GATES SOLUTIONS: BETTER THAN OE

The OE tensioner for the Detroit Diesel Series engines is slow to react to shocks in the serpentine system and susceptible to alignment issues due to an inadequately robust pivot bushing. The tensioners' hydraulic strut required a core charge with each purchase. Gates' redesign includes a more-responsive spring, double-row bearings, patented damping system and seal, and eliminates the strut and core charge. Just one example of Gates' superior engineering design.

GATES COMPLETE FLEETRANNER SERPENTINE KITS INCLUDE

- OE Exact FleetRunner Belts
- Green Stripe® DriveAlign® Heavy Duty Tensioner
- Exact length tensioner bolt
- Pulleys as required

GATES INNOVATION:

WE MAKE IT OUR BUSINESS TO KNOW YOUR BUSINESS

SYSTEM COMPONENTS ARE DESIGNED TO WORK AND WEAR TOGETHER

Sometimes a breakdown can cost a lot more than the actual repair and downtime. Failure of a relatively inexpensive part can cause big headaches with perishable cargo. Upgrade to Gates Complete and run with confidence.

It's important to use a systems approach when you diagnose and service the serpentine belt drive. When a high mileage belt is replaced, the tensioner has likely met its life cycle as well. Replacing the tensioner is critical to avoiding breakdowns.

Fleet managers trust Gates for the highest quality parts, comprehensive training, and superior engineering support. Contact your Gates representative and learn how you can benefit from one-number, Complete FleetRunner kits.
