

26) 1400m Japanese hackberry (*Celtis sinensis* var. *japonica*) エノキ

On the west bank of the Kyobashi River near Kamiyanagi-bashi Bridge 上柳橋西詰河岸緑地
12 Hashimoto-cho, Naka-ku, Hiroshima 中区橋本町 12

This tree was registered as an A-bombed tree thanks to the person who used to live here and could testify that the tree was in his garden at the time of the atomic bombing.

Please note that this document has been created by volunteers who would like to support the tree-planting initiative of Green Legacy Hiroshima. Despite every possible effort to ensure accuracy, we cannot ascertain the content. Copying photos and sentences without permission is prohibited.
