

REGULAR AGENDA SPRINGVILLE CITY COUNCIL MEETING MAY 05, 2020 AT 7:00 P.M. ELECTRONIC MEETING

Notice is hereby given that the Springville City Council will hold their regularly scheduled City Council meeting virtually. Please check the Springville City Website at www.springville.org for a link to participate and/or view the meeting. As per Governor Herbert executive order 2020-5, there will be no anchor location and a quorum will be present electronically.

CALL TO ORDER APPROVAL OF THE MEETING'S AGENDA MAYOR'S COMMENTS

PUBLIC COMMENT

Public Comment is held at the discretion of the Mayor. Written comments can be submitted via email to kcrane@springville.org and they will be distributed to the Council prior to the meeting and added to the public record. Oral comments may be requested by submitting the form found at https://www.springville.org/agendas-minutes/ by 5:00 pm on the day of the meeting. If the Mayor takes public comment on an item, you will be called on during the meeting and your microphone will be tuned on by the meeting moderator for the time period indicated.

CONSENT AGENDA

The Consent Agenda consists of items that are administrative actions where no additional discussion is needed. When approved, the recommendations in the staff reports become the action of the Council. The Agenda provides an opportunity for public comment. If after the public comment the Council removes an item from the consent agenda for discussion, the item will keep its agenda number and will be added to the regular agenda for discussion, unless placed otherwise by the Council.

- Approval of minutes for the regular meeting held on April 07, 2020
- 2. Approval of the Mayor's appointments of Karen Ellingson and Carrie Bennett to the Active Transportation Ad Hoc Committee
- 3. Approval of a proclamation for the 2020 high school graduating class

REGULAR AGENDA

- 4. Consideration of an <u>Ordinance</u> for Creek Corridor Preservation John Penrod, Assistant City Administrator/City Attorney
- 5. Consideration of a <u>Resolution</u> and Agreement between Springville City and Evans Legacy Development and Jamie Evans John Penrod, Assistant City Administrator/City Attorney
- Consideration of a <u>Resolution</u> regarding the Springville City Tentative Budget for Fiscal Year 2020/2021, and a request to schedule a Public Hearing date and time for formal adoption of the Final Budget - Bruce Riddle, Assistant City Administrator/Finance Director

CERTIFICATE OF POSTING - THIS AGENDA IS SUBJECT TO CHANGE WITH A MINIMUM OF 24-HOURS NOTICE- POSTED 04/30/2020

In compliance with the Americans with Disabilities Act, the City will make reasonable accommodations to ensure accessibility to this meeting. If you need special assistance to participate in this meeting, please contact the City Recorder at (801) 489-2700 at least three business days prior to the meeting.

Meetings of the Springville City Council may be conducted by electronic means pursuant to Utah Code Annotated Section 52-4-207. In such circumstances, contact will be established and maintained by telephone or other electronic means and the meeting will be conducted pursuant to Springville City Municipal Code 2-4-102(4) regarding electronic meetings. s/s - Kim Crane, CMC, City Recorder

ORDINANCE #08-2020 APPROVED

REGULAR AGENDA

5. Consideration of a <u>Resolution</u> approving a property purchase agreement for 2.0 acres of property from Suburban Land Reserve for a detention basin along 1200 West in Springville, Utah - John Penrod, Assistant City Administrator/City Attorney

Penrod reported Springville's stormwater master plan requires the construction of a new detention basin near the location of 1200 West on property currently owned by Suburban Land Reserve (SLR). The agreement is a purchase and sale agreement between the City and SLR wherein the City will be purchasing the needed property and an easement for stormwater infrastructure from SLR.

Penrod reported the City has been working with SLR for some time regarding this property. Recently SLR entered into a contract for an adjoining property and a detention basin would be needed for one of their churches. While second public access to the property is possible, Public Works is concerned about the current access.

Fitzgerald commented Community Development may also have some concerns with the access and may need to continue discussions with Community Development and Public Works.

Because 1200 West is an arterial road, from north to south, more than one access to the west would not be ideal. The access point suggested is close to 400 south and there were concerns for the busy area and access to the west.

Penrod reviewed the purchase price stated the purchase price of \$200,300 which is the appraised amount and explained the 60-day due diligence period. He reviewed the process of rollback taxes and explained they would be split between SLR and the City.

Councilmember Packard asked about the special warranty deed. Penrod explained with SLR this is the only type of warranty deed they will offer.

Councilmember Jensen asked about having developers paying for the detention basin. Penrod reported the city has regional detention basins and is paid for by impact fees.

Councilmember Monney asked about the landscaping of the detention basin. Penrod explained it would be all grass completed by the City.

Penrod explained the purchase agreement language and easement agreement. He wanted the council to be aware of the requirements SLR was requiring. He provided details on the indemnification in the easement language. The deed language SLR is requiring does not work well and if the Council approves the agreement he would like the flexibility to work through the deed language. If the council wants to postpone for a week or two, for more discussions with SLR it could be done.

98 COUNCILMEMBER JENSEN MOVED TO <u>APPROVE</u> **RESOLUTION #2020-13** REGARDING A PROPERTY PURCHASE AGREEMENT TO PURCHASE APPROXIMATELY 2 ACRES OF PROPERTY 100 FROM SUBURBAN LAND RESERVE NEAR 1200 WEST FOR A DETENTION BASIN. AND GIVING THE CITY ATTORNEY, JOHN PENROD THE ABILITY TO CHANGE THE LANGUAGE FOR ACCESS 102 IN THE DEED.

COUNCILMEMBER SNELSON SECONDED THE MOTION. THE VOTE IS RECORDED AS FOLLOWS:

	COUNCILMEMBER CRANDALL	AYE
106	COUNCILMEMBER JENSEN	AYE
	COUNCILMEMBER MONNEY	AYE

 Consideration of a <u>Resolution</u> with Nebo School District that provides Springville City's commitment to work with the District on property issues related to building the new Springville High School - John Penrod, Assistant City Administrator/City Attorney

The Nebo School District plans to start building a new Springville High School in 2024, with hopes to have it complete by 2026. As part of building the new high school, the City and District have expressed a desire to work together to construct the best campus possible for the new high school and surrounding City parks, which may require the City to exchange property with the District. In addition to exchanging property both parties already own, the District is considering purchasing approximately 28 acres of property from the Gammell family to be used in the new site plan for the new campus.

Penrod explained the property in question is owned by three entities. The Gammel's, Nebo school district and Springville City. The district is looking to enter into an agreement with the Gammel's and they want to make sure the city is on board with the process. A six-month due diligence period has been requested. During this time the city and Nebo will determine if the property will work and the property exchange is value for value with the school district.

Councilmember Crandall asked if the Gammel property was necessary for the school district to have access. Penrod during the due diligence this will be explored. It's possible it would be a nice campus for the school and the city.

Councilmember Monney asked about the entrance and exit through the Gammel property. He was concerned about the particular area being a problem for traffic coming off of 400 South.

Councilmember Snelson commented about the amount of water on the Gammel property. He was concerned about exchanging property with the school district and the city ending up with swampland. Penrod stated it would be very important to get all of the information during the due diligence period.

Mayor Child maintained the resolution was saying we are willing to work with the school district. There was concern about six months being enough time to complete the due diligence.

Penrod remarked the District would replace any park improvements currently located on City property. Councilmember Snelson asked about the replacement value and if it was for today's dollars or in six years when it's completed. Penrod agreed the word "today" should be struck from the resolution.

Councilmember Packard asked if it was possible to use the property the school district and city has by rearranging the campus, to save some dollars.

Penrod expressed access from the north was crucial.

Councilmember Jensen remarked a large campus would be nice

Mayor asked for any comments or discussion.

Councilmember Monney stated the Art City Days celebration has been postponed. He would like to see an official statement from the city and the possibility of celebrating the city's birthday in September. He asked about financing for next year's budget. Fitzgerald commented his concern was about how much next year's budget would be cut. There is a potential to purchase fireworks in this year's budget, there have been some cuts this year, but it may be feasible. There is a long way to go before the next year's budget. An amount would be advisable so it can be earmarked for a possibility.

Councilmember Packard expressed looking into it for next year and not prepay from this year's budget. Who knows what the city will be struggling with later in the year.

Fitzgerald gave a budget update, and explained a review of the budget has been done, it is balanced. Currently, it has been set aside to deal with the emergency at hand. They are now back at reviewing the budget implications. Next Tuesday's work session an hour is set aside to talk about revenues and the forecast. They will make any needed changes and come back with a budget for the council to approve. A dollar amount for the needs of the community will be discussed and start with the most needed and whittle away. Other cities are cutting 20 to 30%, that's a big number for Springville.

Councilmember Monney confirmed the Grand Marshall and Resident Artist, for this year's celebration has not been contacted and asked to postpone them until next year. The council was in agreement for postponing until next year.

Councilmember Monney asked about Miss Springville, he believed the pageant was canceled. The city float has been in other city parades, he was not sure what this year would be like. Mayor Child stated in meetings with other Mayors, there have been cancellations and may not be very many parades.

Councilmember Jensen asked if any discussion would be coming up on impact fees. Fitzgerald noted they are looking at postponing the discussions until the fall. He asked if there were other items of interest the council would like or if they wanted to keep it to critical items.

Councilmember Packard asked about the Hardship Committee progressing. Riddle stated the 186 appointments and ordinance have been approved. The application could be done within the authority of the committee. Councilmember Snelson asked about a concern he received regarding small cell tower installation 188 and the Coronavirus. Fitzgerald explained there have been no approvals for installation, and the state 190 and the federal government have set some guidelines. Councilmember Crandall expressed some concerns she would like the council to consider and 192 discuss at another time. She asked what role does the council have to the citizens and businesses getting them information and help to access funds. How can the council address the coronavirus as a council to 194 the citizens? She also wanted to know how the city employees were doing. Also, what problems do trailer parks cause to the city? 196 Councilmember Snelson remarked the Chamber of Commerce was informing businesses on the coronavirus and has been giving out information, any questions can be referred to the chamber. 198 Fitzgerald reported he would provide an update tomorrow on the virus and employees. **ADJOURNMENT** 200 COUNCILMEMBER JENSEN MOVED TO ADJOURN THE CITY COUNCIL MEETING AT 8:37 P.M. COUNCILMEMBER SNELSON SECONDED THE MOTION, AND ALL PRESENT VOTED AYE. 202 204 206 This document constitutes the official minutes for the Springville City Council Regular Meeting held on Tuesday, April 07, 2020 208 I, Kim Crane, do hereby certify that I am the duly appointed, qualified, and acting City Recorder for Springville City, of Utah County, State of Utah. I do hereby certify that the foregoing minutes represent a true and accurate, and complete record of this meeting held on Tuesday, 210 April 07, 2020.

DATE APPROVED: __

STAFF REPORT

DATE: April 30, 2020

TO: Honorable Mayor and City Council

FROM: John Penrod, City Attorney

Cari Thomsen, Paralegal

SUBJECT: CONSIDERATION OF AMENDING SECTIONS 11-6-130 OF THE

SPRINGVILLE CITY CODE REGARDING THE PROTECTION OF

CREEK CORRIDORS.

RECOMMENDED MOTIONS

<u>Planning Commission's Recommended Motion</u>:

Motion to approve Ordinance No. ___A that amends Section 11-6-130 of the Springville City Code regarding the protection of creek corridors.

<u>City Staff's Recommended Motion</u>:

Motion to approve Ordinance No. ____B that amends Section 11-6-130 of the Springville City Code regarding the protection of creek corridors.

[If the Council decides that they want to approve Staff's recommended motion, the Council may approve Ordinance B without a recommendation on the revisions in Ordinance B from the Planning Commission. Pursuant to Section 10-9a-502 of the Utah Code a City Council may decide to make "any revisions" to the land use regulation that was recommended by the Planning Commission. However, even though Council may approve Ordinance B if it so chooses, the Council could also direct the Planning Commission to consider Ordinance B in a public hearing to allow anyone to address Ordinance B and obtain Planning Commission's recommendation on the revisions in Ordinance B.]

BACKGROUND

Prior to December 2019, a resident purchased property in Mapleton City directly across Hobble Creek from the resident's property in Springville. The resident submitted plans to the State's Water Rights Division to obtain a Stream Alteration Permit to allow the resident to build a private bridge across Hobble Creek from the resident's Springville property to the resident's Mapleton property. As part of the Stream Alteration Permit program, the State provided the resident's submittal to the City for comment. That was the first time the City was made aware of the resident's desire to build a private bridge.

The resident then approached the City, desiring the City to approve the building of the private bridge. Under the City's current ordinance, such a bridge may not be built. The current ordinance states as follows:

(2) (a) Without prior written consent of the Mayor upon approval of the City Council, the owner of property abutting any creek in Springville shall not:

. . .

(ii) <u>Erect any structure or improvement, including, but not limited to, buildings, fences, bridges, and parking lots.</u>

. . .

(3) All buildings and structures shall be set back at least fifty feet (50') from the creekside edge . . . along creek corridors.

The ordinance does allow for bridges to be built on a resident's property with the permission of the City Council. However, the bridge may not be within 50 feet of the creek side edge of a creek corridor.

After several internal discussions amongst the staff and a few discussions with the resident, in December 2019, the staff made a recommendation to the Council to take the following steps:

- Consider amending the ordinance to allow a bridge within 50 feet of the creek corridor.
- Require an additional easement to accommodate the recreational and maintenance easement around the bridge, as long as the ordinance is amended.
- Don't vacate the easement unless an alternative solution is determined.

In December, the Council directed staff to start this approach.

In February 2020, Staff presented the proposed Ordinance No. _____A to the Planning Commission for the Commission's consideration. At that time, staff was uneasy about having a private bridge behind homes, causing potential flooding issues for several residents within the area and no access for heavy equipment to help alleviate flooding when it occurs. However, staff did recommend the ordinance change to the Commission with several requirements to try and mitigate potential flooding damage from a private bridge. The Commission approved recommending the ordinance change with a 4-0 vote. Three commissioners were absent from the meeting.

Since the Planning Commission meeting, staff has further discussed the possible flooding issues associated with allowing a private bridge across a creek where there is little to no access to the bridge from a public right-of-way. Furthermore, in the March 10, 2020 Council work session, the City Council discussed creek corridors, including private

bridges along creek corridors. After further discussions regarding creek corridors and private bridges, Staff now recommendations against allowing private bridges. During flooding events and high water, the public works department regularly has to clear out debris buildup at the location of bridges to allow water to flow and not flood surrounding properties. If there are private bridges during the flood event, the force of water pressure acting on debris buildup on the private bridges has the potential to not only flood surrounding properties but to also remove the private bridge from its banks, which will cause flooding issues for Springville residents beyond the area of the property where the private bridge is located.

As part of this report, there are two proposed ordinances: Ordinance No. ___A, which is the ordinance recommended by the planning commission with a few adjustments ("Ordinance A") and Ordinance No. ___B, which is the ordinance recommended by staff ("Ordinance B"). The below highlight what both ordinances amend.

Both ordinances amend the following definitions:

- "Creek" means any natural stream or natural waterway within Springville City and includes, but is not limited to, Dry Creek, Hobble Creek and Spring Creek. This definition helps to clarify which waterways fall under the ordinance.
- "Structure" means a building or something that is built, framed, erected, constructed, installed or placed on the ground <u>for which a building permit is required</u> pursuant to any building code or local, state or federal law or regulation. The significance of this change is that it helps current improvements previously not allowed within the 50-foot setback to come within compliance.

Ordinance A allows for bridges as long as the following requirements are met:

- (i) The owner shall follow the building permit process and obtain a building permit before commencing the construction of the private bridge.
- (ii) The owner must own a lot or parcel totaling at least 5,000 square feet of property on both sides of the creek where the bridge is going to be constructed.
- (iii) The bridge shall not be any wider than ten feet (10").
- (iv) In the event that the bridge is to be located within a recreation and maintenance easement, the owner shall provide Springville City with a 20-foot wide easement that connects the recreation and maintenance easement around the bridge to ensure that the recreation and maintenance easement will still meet the purposes for the easement and in a manner acceptable to the City engineer.
- (v) The bridge shall be engineered and installed to ensure that the bottom of the bridge (meaning the lowest point of any portion of the bridge above the creek) is two feet above the 100-year base flood elevation and any improvements associated with the bridge,

including, without limitation, piers and/or abutments, are located outside of the channel of the creek and the 100-year flood elevation.

·

(vi) The owner shall be responsible for all flood damage caused by or related to the

bridge.

Ordinance B removes the above language for private bridges, but does allow public bridges and bridges for driveways off of public rights-of-way. Ordinance B only allows bridges at locations where the City's public works department may remove debris.

ALTERNATIVES

The City Council could direct staff to make further desired amendments to either Ordinance A or B for Council approval. <u>The Council could also direct staff to further discuss any issues with the Planning Commission</u>.

FISCAL IMPACT

None at this time.

Attachments: F

Proposed Ordinances A & B

ORDINANCE #XXA-2020

AN ORDINANCE AMENDING SECTION 11-6-130 OF THE SPRINGVILLE CITY CODE REGARDING THE PROTECTION OF CREEK CORRIDORS.

WHEREAS, on February 25, 2020, in accordance with Section 10-9a-502 fo the Utah Codes, the Springville Planning Commission held a public hearing regarding Section 11-6-130 of the Springville City Code; and

WHEREAS, as part of the Planning Commission's recommendation, the Planning Commission recommended 4-0 that Section 11-6-130 should be amended; and

WHEREAS, on March 17, 2020, in a public meeting, the Springville City Council found that this ordinance is in the interest of the health, safety and welfare of its citizens and is appropriate and necessary to protect the creek corridors in Springville and both private and public property.

NOW THEREFORE, be it ordained by the City Council of Springville City, Utah:

SECTION 1. SECTION ADOPTED: Section 11-6-132 of the Springville City Municipal Code is hereby adopted to read and provide as follows:

11-6-130 Protection of Creek Corridors.

- (1) <u>Purpose</u>. The purpose of this Section is intended to promote, preserve, and enhance the important hydrologic, biological, ecological, aesthetic, recreational, and educational functions that creek corridors provide the City of Springville.
- (2) <u>Definitions</u>. For the purposes of this Section only, the following terms, phrases, words and their derivations shall have the below meaning.

"Creek" means any natural stream or natural waterway within Springville City and includes, but is not limited to, Dry Creek, Hobble Creek and Spring Creek.

"Recreation and Maintenance Easement" means a twenty-foot (20') wide public recreation, access and maintenance easement of no greater than three percent (3%) cross-slope located on each side of the banks of any creek.

"Structure" means a building or something that is built, framed, erected, constructed, installed or placed on the ground for which a building permit is required pursuant to any building code or local, state or federal law or regulation.

(3) At the time of development, the developer of any property abutting a creek shall provide Springville with a recreation and maintenance easement. The recreation and

maintenance easement shall provide adequate space for a ten-foot (10') trail with five foot (5') wide sides shoulders for maintenance of the waterway and trail recreation use. Maintenance of the trail may include the use of motor vehicles. The Recreation use of the trail shall , include, but not limited to, bicycling, jogging, walking sightseeing and other recreational use. Where the recreation and maintenance easement exceeds ten percent (10%) of the parcel of property owned by an owner or where any appropriate legal balancing test requires, Springville City will either forego the easement requirement or pay just compensation for the easement.

- (4) Creek Corridor Development Work. The owner of property abutting any creek in Springville shall obtain all necessary approvals and follow all requirements of the State of Utah, including, without limitation, all Division of Water Rights Stream Alteration Program requirements, and all approvals and requirements of Springville City for any of the following listed activities:
 - (i) Divert, fill in, line, or cover the natural course of any creek.
 - (ii) Install or build any improvements or structures.
 - (iii) Dump or permit the dumping of any garbage or other refuse.
 - (iv) Cut, grub or remove any trees or other natural vegetation, remove any stone or earth, or otherwise disturb the natural state of the area.
- (5) All structures, except bridges across a creek that meet the requirements of subsection (6), shall be set back at least fifty feet (50') from the bank of the nearest creek's edge to the structure at the point where the bank edge begins to meet a three percent (3%) cross-slope.

(Amended by Ord. No. 36-2006, 12/05/2006)

- (6) <u>Private Bridges</u>. A property owner who desires to build a private bridge across a creek shall meet the following requirements:
- (i) The owner shall follow the building permit process and obtain a building permit before commencing the construction of the private bridge.

- (ii) The owner must own a lot or parcel totaling at least 5,000 square feet of property on both sides of the creek where the bridge is going to be constructed.
- (iii) The bridge shall not be any wider than ten feet (10").
- (iv) In the event that the bridge is to be located within a recreation and maintenance easement, the owner shall provide Springville City with a 20-foot wide easement that connects the recreation and maintenance easement around the bridge to ensure that the recreation and maintenance easement will still meet the purposes for the easement and in a manner acceptable to the City engineer.
- (v) The bridge shall be engineered and installed to ensure that the bottom of the bridge (meaning the lowest point of any portion of the bridge above the creek) is two feet above the 100-year base flood elevation and any improvements associated with the bridge, including, without limitation, piers and/or abutments, are permanently located outside of the channel of the creek and the 100-year flood elevation.
- (vi) The owner shall be responsible for all flood damage caused by or related to the bridge.
- (7) Sections 5 and 6 shall not apply to public bridges constructed by the City, state or federal government for a public purpose, or private driveway bridges that are constructed off of a public right-of-way and are engineered and installed to ensure that the bottom of the bridge (meaning the lowest point of any portion of the bridge above the creek) is two feet above the 100-year base flood elevation and any improvements associated with the bridge, including, without limitation, piers and/or abutments, are engineered so that 100-year flood elevation and associated creek flows will not be restricted or compromised.

SECTION 2. EFFECTIVE DATE. This Ordinance shall take effect upon first publication.

PASSED, ADOPTED AND ORDERED POSTED by the Council of Springville City, Utah this 05th day of May, 2020.

MAYOR RICHARD J. CHILD	

ATTEST:	
KIM CRANE, CITY RECORDER	_

ORDINANCE #XXB-2020

AN ORDINANCE AMENDING SECTION 11-6-130 OF THE SPRINGVILLE CITY CODE REGARDING THE PROTECTION OF CREEK CORRIDORS.

WHEREAS, on February 25, 2020, in accordance with Section 10-9a-502 of the Utah Codes, the Springville Planning Commission held a public hearing regarding Section 11-6-130 of the Springville City Code; and

WHEREAS, as part of the Planning Commission's recommendation, the Planning Commission recommended 4-0 that Section 11-6-130 should be amended; and

WHEREAS, on May 5, 2020, in a public meeting, the Springville City Council found that this ordinance is in the interest of the health, safety and welfare of its citizens and is appropriate and necessary to protect the creek corridors in Springville and both private and public property.

NOW THEREFORE, be it ordained by the City Council of Springville City, Utah:

SECTION 1. SECTION ADOPTED: Section 11-6-132 of the Springville City Municipal Code is hereby adopted to read and provide as follows:

11-6-130 Protection of Creek Corridors.

- (1) <u>Purpose</u>. The purpose of this Section is intended to promote, preserve, and enhance the important hydrologic, biological, ecological, aesthetic, recreational, and educational functions that creek corridors provide the City of Springville.
- (2) <u>Definitions</u>. For the purposes of this Section only, the following terms, phrases, words and their derivations shall have the below meaning.

"Creek" means any natural stream or natural waterway within Springville City and includes, but is not limited to, Dry Creek, Hobble Creek and Spring Creek.

"Recreation and Maintenance Easement" means a twenty-foot (20') wide public recreation, access and maintenance easement of no greater than three percent (3%) cross-slope located on each side of the banks of any creek.

- "Structure" means a building or something that is built, framed, erected, constructed, installed or placed on the ground for which a building permit is required pursuant to any building code or local, state or federal law or regulation.
- (3) At the time of development, the developer of any property abutting a creek shall provide Springville with a recreation and maintenance easement. The recreation and

maintenance easement shall provide adequate space for a ten-foot (10') trail with five foot (5') wide sides shoulders for maintenance of the waterway and trail recreation use. Maintenance of the trail may include the use of motor vehicles. The Recreation use of the trail shall , include, but not limited to, bicycling, jogging, walking, sightseeing and other recreational use. Where the recreation and maintenance easement exceeds ten percent (10%) of the parcel of property owned by an owner or where any appropriate legal balancing test requires, Springville City will either forego the easement requirement or pay just compensation for the easement.

- (4) Creek Corridor Development Work. The owner of property abutting any creek in Springville shall obtain all necessary approvals and follow all requirements of the State of Utah, including, without limitation, all Division of Water Rights Stream Alteration Program requirements, and all approvals and requirements of Springville City for any of the following listed activities:
 - (i) Divert, fill in, line, or cover the natural course of any creek.
 - (ii) Install or build any improvements or structures.
 - (iii) Dump or permit the dumping of any garbage or other refuse.
 - (iv) Cut, grub or remove any trees or other natural vegetation, remove any stone or earth, or otherwise disturb the natural state of the area.
- (5) All structures shall be set back at least fifty feet (50') from the bank of the nearest creek's edge to the structure at the point where the bank edge begins to meet a three percent (3%) cross-slope.

(Amended by Ord. No. 36-2006, 12/05/2006)

(6) <u>Bridges</u>. Section (5) does not apply to bridges constructed by the City, state or federal government for a public purpose, or private driveway bridges that are constructed off of a public right-of-way and are engineered and installed to ensure that the bottom of the bridge (meaning the lowest point of any portion of the bridge above the creek) is two feet above the 100-year base flood elevation and any improvements associated with the bridge, including, without limitation, piers and/or abutments, are engineered so that 100-year flood elevation and associated creek flows will not be

restricted or compromised. **SECTION 2.** EFFECTIVE DATE. This Ordinance shall take effect upon first publication.

PASSED, ADOPTED AND ORDERED POSTED by the Council of Springville

City, Utah this 05th day of May, 2020.	
	MAYOR RICHARD J. CHILD

ATTEST:

KIM CRANE, CITY RECORDER

STAFF REPORT

DATE: May 4, 2020

TO: Honorable Mayor and City Council

FROM: John Penrod, City Attorney

Cari Thomsen, Paralegal

SUBJECT: CONSIDERATION OF A RESOLUTION APPROVING AN AGREEMENT

THAT ALLOWS THE DEVELOPERS OF THE EVANS LEGACY PARK TO

PROVIDE DOCUMENTATION FROM THE ARMY CORPS OF

ENGINEERS AT A LATER DATE.

RECOMMENDED MOTION

Motion to approve Resolution No. ____ that approves the execution of an agreement between Springville City and the Developer of the Evans Legacy Park to provide an Army Corps of Engineers letter prior to receiving a certificate of occupancy.

BACKGROUND

Jamie and Terry Evans (the "Developers") own property within Springville City at the location of 816 West Raymond Klauck Way (the "Property"), on which the Developers are developing the Evans Legacy Park. The Evans Legacy Park consists of two office warehouse buildings immediately north of the Stouffer Plant. The Developers are under a self-imposed time crunch to start their project in order to develop it in the best economical manner. The Developer submitted their project in late November. The only item that is still outstanding is a letter from the Army Corps of Engineers (the "Army Corps") stating that no wetlands exist on the property.

Developers' Argument

The Developers have had a wetlands specialist and an environmental attorney provide a report and opinion letter to the City that there are no wetlands on the property and certainly no "jurisdictional" wetlands for which a Section 404 permit from the Army Corps is required. Based on the information provided, the Developers argue that the City's ordinances do not require a letter from the Army Corps for their Property because the ordinance only requires a letter "regarding any wetland areas," and since there are no wetland areas on the Property (according to the Developers' specialist and attorney), no letter is needed.

The Developers are not against going to the Army Corps to get the needed letter; however, the Army Corps' offices have been closed for the past several weeks because of the COVID-19 pandemic. Thus, holding up their project.

Wetlands History

Here's a brief history of known wetlands on the Property:

- In the 1980s, the City owned the Property along with several other acres of property (the "City's Property") that surrounded the Property.
- In 1984, the City was granted a Permit to move Spring Creek to the south. At the
 time the permit was granted, Spring Creek ran through the middle of the Property
 and the middle of several other acres of the City's Property. As part of the permit,
 the old Spring Creek channel could be filled with up to 13,000 cubic feet of fill
 material. No one knows whether the old channel was filled on the Property.
- In 1995, in a letter from the Army Corps, the City was instructed that there were
 "tracts immediately north and to the west of the Stouffers Plant" that contained
 wetlands. The Property is located north of the Stouffers Plant. The 1995 Army
 Corps letter does not state the size or exact location of the wetlands. As such,
 the 1995 Army Corps letter is not conclusive evidence that the Property had
 wetlands on it in 1995.
- The current National Wetland Inventory map (the "NWI") shows that there is a fresh water pond on the Property. The NWI is a wetlands map that is put together by the U.S. Fish and Wildlife Service and is not meant to be used as the basis for a jurisdictional wetland delineation. The NWI's information regarding the Property is based off of a digital black and white imagery form 1998. The NWI information is not conclusive that there are any wetlands on the Property.
- The only other information the City has regarding any wetlands are the Developers' wetlands specialist report and attorney's opinion, both of which claim there are no wetlands on the Property.

Agreement Provisions

The agreement contains the following:

 The Developers must provide the City with documentation from the Army Corps stating that all wetlands issues are resolved prior to receiving a certificate of occupancy for any buildings on the Property.

- One of the reasons this agreement is being considered is because the Army Corps' offices have been closed during the COVID-19 pandemic.
- The Developers shall release, indemnify and hold the City harmless from any sort of liability associated with the wetlands.

ALTERNATIVES

Do not approve the Agreement and require the Developers to provide the letter from the Army Corps prior to beginning any development.

FISCAL IMPACT

None at this time.

Attachments: Proposed Resolution and Agreement

RESOLUTION #2020-XX

A RESOLUTION APPROVING AN AGREEMENT WITH THE DEVELOPERS OF THE EVANS LEGACY PARK THAT ADDRESSES WETLANDS.

WHEREAS, Jamie and Terry Evans (the "Developers") are developing the Evans Legacy Park located at approximately 816 West Raymond Klauck Way in the Springville Industrial Park; and

WHEREAS, as part of the Developers developing the Evans Legacy Park, the City Engineer has required the Developers to provide a letter from the Army Corps of Engineers to address any possible wetlands on the property; and

WHEREAS, the Army Corps of Engineers' offices have been closed because of the COVID-19 pandemic, causing timing issues for the Developers; and

WHEREAS, the Developers desire to move forward at their own risk, being willing to release, indemnify and hold the City harmless regarding any claims, penalties or damages associated with any possible wetlands on the property, and the Developers must provide a letter from the Army Corp before the Developers receive any certificate of occupancy on any building within the development; and

WHEREAS, the Springville City Council finds that the proposed Agreement is in harmony and complies with the law.

NOW, THEREFORE, BE IT RESOLVED BY THE SPRINGVILLE CITY COUNCIL:

<u>SECTION 1</u>. Agreement Approval. The Agreement, substantially in the form attached as Exhibit A, is approved and shall be executed by Springville City.

<u>SECTION 2</u>. Effective Date. This resolution shall become effective immediately upon passage.

PASSED AND APPROVED this _	day of May 2020.
Attest:	Richard J. Child, Mayor
Kim Crane, City Recorder	

Resolution #2020-XX Page 1

EXHIBIT A

Evans Legacy Park Wetlands Agreement

Resolution #2020-XX Page 2

AGREEMENT

THIS AGREEMENT is entered into effective this ____ day of _____, 2020, by and between **SPRINGVILLE CITY**, a municipal corporation of the State of Utah, 110 South Main Street, Springville, Utah 84663 ("City"), and **JAMIE EVANS AND TERRY EVANS**, with an address at 2097 Ironton Boulevard, Provo, Utah 84606 (Jamie Evans and Terry Evanst are collectively reffered to herein as "Developer").

RECITALS

- A. Developer is developing property located at approximately 816 West Raymond Klauck Way, Springville, Utah 84663 (the "Property"). A description of the Property is attached as Exhibit A.
- **B.** Developer has filed application to develop the Property. Developer's project is known as the Evans Legacy Park (the "Project"). A site plan is attached as <u>Exhibit</u> B.
- **C.** As part of developing the Project, Developer is required to meet all of City's wetland land use regulations.
- **D.** The Springville City Code states a developer must do the following regarding any wetlands:
 - i. For a site plan, provide:
 - a. The location of any "wetlands on the proposed site." Section 11-7-404(2)(e).
 - b. "A wetlands delineation or clearance letter as required by the City Engineer." Section 11-7-404(2)(g).
 - ii. For a subdivision, provide:
 - a. "A wetland report and letter from the Army Corps of Engineers, if potential wetlands are located on the site." Section 14-2-104(kk).
 - b. "A letter from the Army Corps of Engineers regarding any wetland areas within the boundaries of the proposed plat." Section 14-2-104(II).
- F. City's known wetland history of the Property is as follows:
 - i. In 1984, City owned the Property and obtained an Army Corps of Engineers ("Army Corps") Permit, Permit No. 8441 (the "Permit"). The Permit was to move Spring Creek to the south to a location immediately north of Raymond Klauck Way. Prior to 1984, Spring Creek ran through the middle of the Property, and under the Permit, it was moved south of the Property. The Permit also allowed for the filling of the old Spring Creek channel up to 13,000 cubic yards of fill.
 - ii. There is not clear evidence whether the old Spring Creek channel located

- on the Property was filled as part of the Permit.
- iii. In a letter from the Army Corps, dated October 6, 1995, City was instructed that there were "tracts immediately north and to the west of the Stouffers Plant" that contained wetlands. The Property is located north of the Stouffers Plant. The 1995 Army Corps letter does not state the size or exact location of the wetlands.
- G. In addition to the history of the wetlands described above, the National Wetland Inventory map shows a possible 0.93 freshwater pond may be located on the Property (the "NWI Information").
- H. Given the wetland history known to City and the NWI Information, City has required Developer to do a wetlands delineation and provide a letter from the Army Corps of Engineers.
- In response, Developer has had a wetlands professional consulting firm, Kagel Environmental, LLC, provide an opinion concerning possible wetlands on the Property (the "Kagel Report"). The Kagel Report states that there "clearly is not a wetland" on the Property and any possible wetland "would not be jurisdictional." See the Kagel Report attached as Exhibit C.
- J. Developer has also provided a letter from his attorney that concludes that there are no wetlands on the Property and "the Evans property does not require a Section 404 permit" under the Clean Water Act.
- K. Currently, due to the COVID-19 situation, the local Army Corps' office has been closed for several weeks, making getting a letter from the Army Corps a much more lengthy and difficult process.
- L. Developer is willing to enter into this Agreement and move forward with the Project with the understanding that, before Developer may get a certificate of occupancy for Developer's buildings within the Project, Developer must have obtained and provided to City a letter or other documentation from the Army Corps providing either (i) that there are no waters or wetlands on the Property for which a permit or other authorization is required by the Army Corps for the Project, or (ii) that Developer has obtained any permits or authorizations required by the Army Corps of Engineers for the Project.
- M. The purpose of this Agreement is to memorialize certain agreements and understandings in relation to any possible wetlands issues relating to the property.

NOW, THEREFORE, in consideration of the mutual covenants, conditions and terms as more fully set forth below, Developer and City agree to the following:

1. <u>Recitals Affirmed</u>. The parties each certify the correctness and accuracy of the facts recited above and adopt the same as a statement of their principal reasons for entering this Agreement.

- 2. <u>Compliance with Applicable Law</u>. This Agreement only addresses the manner of Developer's compliance with the Springville City Code requirements set forth in Recital D regarding wetlands. Developer is required to follow all other approved construction, subdivision and site plans and all applicable laws, statutes, ordinances, resolutions, the Springville Municipal Code (the "City Code"), rules, regulations, and official policies of the City governing the use, density and intensity of the uses of land within the City, and the design, improvement, and public works construction standards and specifications applicable to the development of land within the City. In short, other than issues relating to the timing of Developer providing the City with documentation from the Army Corps regarding wetlands on the Property and subsequent issuance of certificates of occupancy for buildings within the Project, this Agreement does not modify any legal requirements Developer must satisfy to develop the Property pursuant to City Code, including, without limitation, all timing requirements for installing public improvements and all vesting provisions.
- 3. Army Corps. Developer agrees that, prior to receiving any certificate of occupancy for any building within the Project, Developer shall obtain and provide City with a letter or other documentation from the Army Corps providing either (i) that there are no waters or wetlands on the Property for which a permit or other authorization is required by the Army Corps for the Project or (ii) that Developer has obtained any permits or authorizations required by the Army Corps for the Project. The parties agree and acknowledge that this Agreement shall satisfy City's wetlands land use regulations with respect to the Project. One of the reasons for allowing Developer to proceed prior to receiving the Army Corps letter is based on the current COVID-19 pandemic and the Army Corps' offices being partially closed.
- Developer's Assumption of Risk, Release and Indemnity. Developer agrees and 4. acknowledges that Developer undertakes certain risks, including, without limitation, criminal and civil penalties, if Developer discharges dredge and/or fill material into the waters of the U.S., particularly wetlands and other special aquatic sites, especially and specifically in violation of Section 404 of the Clean Waters Act (the "CWA"), and any and all other applicable sections of the CWA and other state and federal rules, regulations and laws. Developer, and Developer's successors or assigns, expressly assume(s) any and all risks associated with wetlands on or associated with the Property and moving forward with the Project without first obtaining the appropriate approvals and permits from the Army Corps and other applicable government agencies. Developer agrees to release, hold harmless, defend and indemnify City from and against any and all, claims, contribution claims, suits, causes of action, judgments, losses, expenses (including, without limitation, attorneys' and other consultants' reasonable fees and costs), damages (including, without limitation, damages to property or injuries to persons), liabilities, fines, penalties, costs, environmental response costs, and natural resource damages that arise from, relate in any way to, are based upon, are caused by, or are in any way associated with any environmental issue, the CWA, state and federal laws and regulations protecting and governing wetlands, disturbing or filling wetlands, including, without limitation, any and all corrective action, mitigation, penalties or remediation thereof by whomsoever, including, without limitation, the Army Corps, the Environmental Protection Agency and

any other state or government entity. Developer's obligations under this paragraph shall survive any subsequent sale or transfer of the Property or portions thereof to third parties.

- 5. <u>Notices</u>. Any notice which is required or which may be given pursuant to the Agreement is sufficient if in writing and given by hand-delivery or sent to a party by (i) certified or registered mail, postage prepaid, or (ii) nationally recognized overnight carrier (*e.g.* FEDEX), addressed as first set forth above. A party may change the address for notice to it by giving a notice pursuant to this Section.
- 6. **Assignment.** Neither this Agreement nor any of the provisions, terms or conditions hereof can be assigned to any other party, individual or entity without assigning the rights as well as the responsibilities under this Agreement and without the prior written consent of City, which shall not be unreasonably withheld.
- 7. <u>Attorney Fees</u>. In the event this Agreement or any of the exhibits hereto are breached, the party at fault agrees to pay the attorney fees and all costs of enforcement of the non-breaching party.
- 8. <u>Severability</u>. Should any portion or paragraph of this Agreement be declared invalid or unenforceable, the remaining portions or paragraphs of the Agreement shall remain valid and enforceable.
- 9. <u>Modification</u>. Modification of this Agreement shall only be effective if agreed upon, in writing, and approved by the City Council and Developer.

IN WITNESS WHEREOF, the parties have caused this Agreement to be executed by their duly authorized officers.

Mr. John Penrod, Esq. City of Springville 110 South Main Street Springville, Utah 84663

Dear Mr. Penrod:

Mr. Jamie Evans [Evans Companies] has asked Kagel Environmental, LLC (KE) to opine on the presence or absence of wetland qualities of a property located at 816 W Raymond Klauck Way, Springville, UT 84663. We understand that the City of Springville has concerns about potential wetland impacts of Mr. Evans' proposed development, more specifically the approximate ½-acre portion of historic river channel located at an elevation of about 4,498 feet, which is about 3 to 4 feet below the surrounding grade.

It is also KE's understanding the Mr. Evans has previously endeavored to resolve concerns regarding both the <u>physical</u> and <u>regulatory</u> status of the subject area in terms of the identification and jurisdiction of potential "wetlands". It is appropriate that we first provide you a brief introduction and background of KE, and why our firm is exceptionally qualified to determine if a land parcel satisfies the federal definition, i.e. legal identification, of a "wetland", as well as whether an identified wetland is subject to federal protection pursuant to Section 404 of the Clean Water Act (CWA).

Prior to establishing our professional wetland consulting firm, KE founder and principal (Ray Kagel, Jr.), enjoyed a 12 year career with the U.S. Army Corps of Engineers with primary duties as a senior regulatory project manager, wetlands enforcement officer, permit processor, and instructor of wetland identification and delineation. In his last duty station, Idaho Falls, ID Regulatory Field Office, Walla Walla, WA [Corps] District, Ray Kagel was the designated point-of-contact (POC) appeal officer responsible for making final wetland jurisdictional determinations on behalf of the Corps of Engineers and the Environmental Protection Agency throughout the state of Idaho. Ray Kagel is a Certified Professional Wetland Scientist (#2234), and has been approved as an expert witness in federal district courts(s) in Idaho, Utah, Pennsylvania, New York, and Mississippi. KE has had two clients (wetland violation cases) that have had their cases heard at the U.S. Supreme Court; both of which won their cases. Currently, KE has been hired by and is working for the City of Farmington, UT to identify and delineate jurisdictional wetlands. We are also assisting the City of Payson, UT specific to wetland identification and permitting for stormwater utilities.

It may be helpful to elaborate on what qualities determine a piece of property as a legal "wetland", as well as what is required for such a wetland to be subject to Section 404 of the Clean Water Act (CWA). As of today's, date [4-16-2020] the Corps, EPA, as well as the federal

Kagel Environmental, LLC

Wetlands, Wildlife and Permitting Specialists

judiciary, recognize and apply the 1987 Corps of Engineers Manual for identifying and delineating wetlands ('87 Manual). The '87 Manual uses a three (3) parameter approach to determine if a parcel of land is a wetland; the parameters or factors, are the presence of wetland vegetation (hydrophytes), wetland (hydric) soils, and wetland hydrology (surface water). Under normal circumstances all three of these factors must be present for a land parcel to be legally determined as a wetland. In the years from 2008 to 2010, the Corps developed regional supplements to the '87 Manual. The most significant alteration proposed in the regional supplements was regarding wetland hydrology. Although the '87 Manual still prevails as the primary authority, the Supplements nonetheless suggests that wetland hydrology may be "assumed" in cases where a land parcel exhibits a water table within 12" of the ground surface for at least 14 consecutive days during a normal growing season, i.e. average 5 out of 10 years with normal climatological conditions.

As you know, the Corps of Engineers is responsible for regulating any dredged or fill that is placed in regulated, i.e. jurisdictional, wetlands. They are also responsible for determining if a particular site meets the three parameters/factors. It is Corps policy, <u>not</u> to perform actual field data collection, identifying and delineating wetlands due to time and personnel constraints. Consequently, the Corps directs landowners to hire a qualified wetlands consultant (such as Kagel Environmental). Once the consultant has collected the appropriate data and examined the site, they will present their findings to the Corps to have them verified. Virtually all of KE's approximate 800-900 submitted wetland delineations have been verified (approved) by the Corps throughout the United States without a single significant change over the last 21 years. The Corps is the entity with the authority to say if a parcel is or is not a wetland, but typically they rely heavily, and very often exclusively, on data and information determined and presented by a qualified consultant.

KE examined the site on April 15, 2020, which is early in the growing season and typically the period of time when wetland hydrology is at its peak. The site has the geo-morphology of an abandoned river or stream channel, although now it is a closed basin, i.e. no outlets for drainage.

Vegetation primarily had FAC indicators, which means there is an equal chance that a plant species will be found in a wetland or an upland. Extant soils are actually meaningless here due to remnant slag (which has a high iron content and rusts with any water exposure, including rain). Additionally, due to the historical presence of the river channel, hydric soils would be expected at this site due to long term anaerobic conditions while the river was present. Hydric characteristics (redoximorphic features) persist for centuries, and in this, or any case, where either fluvial or lacustrine source of water is removed, hydric soils are considered "relict". In other words, all hydric soils are not wetland soils.

Hydrology is foundational to wetlands. If there is not wetland hydrology, the most important parameter is missing and there is nothing to support a wetland. As stated earlier, to qualify as wetland hydrology ('87 Manual), the soil surface must be ponded, flooded or at least saturated for 14 consecutive days during the growing season (approximately April 10 through October 25) for an average of five out of ten years (50% or more of the time). If ground water monitoring wells are utilized to monitor hydrology, the current technical standard (Regional supplements) is that the water table must be within 12 inches of the ground surface for 14 consecutive days during the growing season for five out of ten years (50% or more of the time). Mr. Evans has

Wetlands, Wildlife and Permitting Specialists

collected empirical hydrology data from correctly installed piezometers for approximately 20 years. In all those years of growing season monitoring, he has only had the water table appear within 12 inches of the surface a single day, in just one of his piezometers located throughout the subject site. The water table was inarguably <u>not</u> within the required distance from the soil surface for 14 consecutive days for at least five out of ten years. His parcel simply and definitively does not even approach meeting the minimum wetland hydrology parameter. In the absence of wetland hydrology, a wetland cannot exist; the subject area of concern is clearly *not* a wetland.

It is just as important to emphasize, that even if this area on the Evans' site was an actual wetland (which it is clearly not), it would <u>not</u> be jurisdictional, i.e. subject to regulations or protections pursuant to Section 404 of the CWA. This site is a closed basin (no drainage outlets), and 100% surrounded by uplands with no inlet or outlet for water to flow. To be a jurisdictional or regulated "wetland", there must be "a continuous surface hydrological connection between a wetland and the nearest traditionally navigable water of the United States" (Justice Scalia for the plurality-2006 Rapanos v United States).

Ideally, KE would compile and present all of Mr. Evans' data, as well as our recent on-site observations/findings to submit to the Corps and request a determination of "No Permit Required" to fill this *non-wetland and jurisdictionally isolated* depression. However, the Corps regulators in the Bountiful, UT field offices are all working from home due to the Covid-19 pandemic, and they have been indefinitely prohibited by the Corps' Sacramento District from conducting field inspections until the virus situation has been safely resolved. We understand that Mr. Evans' project is very time sensitive, and thus we respectfully hope the city of Springville will find our professional observations, findings, and conclusions sufficiently definitive and reliably accurate that the subject (approximate ½-acre depressional swale) is not a wetland, is jurisdictionally isolated from the nearest TNW (Utah Lake) and clearly not a concern whatsoever on the subject parcel.

Please feel free to contact us with any questions or need for more information. We would be eager to assist the City in resolving this issue for Mr. Evans.

Sincerely,

STAFF REPORT

DATE: April 29, 2020

TO: Honorable Mayor and City Council

FROM: Bruce Riddle, Finance Director

SUBJECT: SPRINGVILLE CITY FY 2021 TENTATIVE BUDGET

RECOMMENDED MOTION

The Finance Department recommends that the City Council approve a RESOLUTION BY THE SPRINGVILLE CITY COUNCIL TO ADOPT THE CITY OF SPRINGVILLE TENTATIVE BUDGET FOR FISCAL YEAR 2020-2021 AND SET A PUBLIC HEARING FOR ADOPTION OF THE FINAL BUDGET ON JUNE 16, 2020, AT 7:00 P.M.

SUMMARY OF ISSUES/FOCUS OF ACTION

The Uniform Fiscal Procedures Act for Utah Cities (Utah Code 10-6-111) requires that Springville City adopt a tentative budget in the first regular council meeting in May for the ensuing year. Additionally, state statute (Utah Code 10-6-118) requires the city to adopt a final budget on or before June 22 of each fiscal period.

BACKGROUND

The City Council held a budget retreat on April 28, 2020, where budget materials previously distributed were presented and discussed. The tentative budget will be made available for public review for at least 10 days before the adoption of the Final Budget, which is scheduled during a public hearing on June 16, 2020.

DISCUSSION

The Tentative Budget document is attached for reference to this report. The document includes a budget message from Administrator Fitzgerald as well as budget summaries and detail.

ALTERNATIVES

The Council can provide additional direction on items in the Tentative Budget; however, the Council is required by State statute to adopt a Final Budget no later than June 22, 2020.

FISCAL IMPACT

Details of the estimated revenues and expenditures are included in the documents distributed to the Council.

RESOLUTION #2020-XX

A RESOLUTION BY THE SPRINGVILLE CITY COUNCIL TO ADOPT THE CITY OF SPRINGVILLE TENTATIVE BUDGET FOR FISCAL YEAR 2020-2021 AND SET A PUBLIC HEARING FOR ADOPTION OF THE FINAL BUDGET ON JUNE 16, 2020, AT 7:00 P.M.

WHEREAS on May 5, 2020, the Budget Officer submitted a tentative budget to the City Council; and

WHEREAS the City Council desires to adopt the tentative budget as required by State law; and

WHEREAS the City Council desires to make the tentative budget available for public review and comment at least ten days prior to the public hearing; and

WHEREAS the City Council desires to set a public hearing for June 16, 2020, at 7:00 p.m. to receive additional public input on the budget.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF SPRINGVILLE. UTAH. as follows:

- 1. The City Council hereby adopts the tentative budget attached as Exhibit "A."
- 2. The City Council will conduct a public hearing to accept comments and consider adoption of the final budget for Fiscal Year 2020-2021 on June 16, 2020, at 7:00 p.m.

PASSED AND APPROVED this 5th day of May 2020.

	Richard J. Child, Mayor	
ATTEST:		
Kim Crane, City Recorder		

Mayor Child and Members of the City Council,

Enclosed, please find a complete copy of the proposed budget for fiscal year 2021. The information in this memorandum utilizes a budget draft completed on April 17, 2020.

As you all know we are living in unprecedented times. While the future is always unknown, the sheer number of conflicting opinions on the state of the economy and what the future may hold approach disabling. The attached Tentative Budget was created with guidance from the Mayor and City Council with primary work on the document by Bruce Riddle and Troy Fitzgerald. Support was also received from John Penrod and Jack Urquhart. Directors and Superintendents were responsible to provide recommendations for revenues, operation expenses and capital projects. Significant detail underlies their submissions. Most of these submissions were made in early March—just as impacts of the Coronavirus began to be felt.

In considering the budget, it is important to consider the context of the situation we are in and the foundation upon which this version of the budget is built.

COVID-19 Pandemic and Economic Impacts

An April 13, 2020 Kem C. Gardner Policy Institute Economic Indicator Report shows that the month over month and year over year initial claims of unemployment insurance are up 3,000%. Year over year oil costs are down 56.4%.¹ The *New York Times* estimated unemployment at 13% - almost certainly higher than at any point since the Great Depression. It is also rising faster than at any time in our history.² Utah estimates that in the first weeks of social distancing unemployment in the state jumped to 5.1%³ One week later 20,000 more Utah residents filed for unemployment – an increase in total filings of almost 20%.⁴

³ Utah Leads Together Version 2

⁴ https://www.ksl.com/article/46744469/nearly-20k-more-utahns-filed-for-unemployment-benefits-last-week

Retail sales dropped a record amount of 8.7% in March, 2020.⁵ Most states did not order significant restrictions until late in this month meaning that April reports are likely to be worse. Tourism accounts for over \$8 Billion in taxable sales for the State of Utah.⁶ Currently travel is down over 95%.⁷ During the few days it has taken to write this memorandum, oil prices actually went negative. This means producers were PAYING buyers to take their product from them.⁸

Locally, we will not receive any guiding data. March sales tax numbers will come after the final budget of the City must be passed according to state law. We will have a few weeks of unemployment filings to review, but many people are not seeking work now because they have been instructed to stay home. Most businesses are not hiring as the future is so unclear. Therefore, the uncertainty in forming a budget is greater than it has ever been.

Yet, the State still requires the City Council to adopt a balanced, Tentative Budget by May 5.

Budget Foundation

City administrators commenced budget planning in late 2019. For reference, Springville City held its first COVID-19-related meeting on early January, 2020. The City Council was first briefed on January 31, 2020. The CDC announced the first person-to-person spreads in the United States on January 30, 2020. Earlier that week and into the following week, the City Council had given guidance for the budget through two budget meetings.

At that time, it was hard to imaging better economic indicators. Growth was significant. Unemployment was at record lows. During February and March an initial budget was created using the guidance from January. A revenue projection was created with impacts of the Coronavirus starting to hit locally. This version of the budget revealed an increase in revenues projected of about \$850,000 over the FY2020 budget. This became our best case scenario as conditions deteriorated.

The dramatic changes of the following weeks caused us to create a best/worst case scenario for revenues. The worst case scenario indicated potential revenue could be \$4,250,000 LOWER than the FY2020 budget. This would be an overall decrease of an amount approaching 20% of the General Fund. Since close to 70% of our budget is personnel costs, significant service reductions would necessarily occur if this scenario occurs.

⁸ https://www.forbes.com/sites/salgilbertie/2020/04/23/will-oil-prices-go-negative-again/#24d8ac27e9c1

⁹ https://www.cdc.gov/media/releases/2020/p0130-coronavirus-spread.html

These projections were presented to the City Council and focused interaction ensued through an electronic meeting. The result was the following general guidance:

- Continue to budget revenues and expenses as accurately as possible which means the budget will not reflect the best or worst case scenarios presented
- Raises not budgeting
- Look for effective ways to stimulate the local economy through appropriate projects and expenditures
- Use reserves if needed, but proceed cautiously
- Maintain service levels and make reasonable efforts to save jobs, but budget appropriately for social distancing and other likely stabilization and recovery requirements
- Delay all fee increases (including impact fees) in the current budget. Consider implementation of fee analysis project in January 2021, if economy allows

Over the next few days, the budget was completely rebuilt to accommodate this guidance.

The State has provided guidance about Economic Recovery through the Governor's *Utah Leads Together Version 2* plan. This plan provides for a three phase process to recovery. The phases are Urgent, Stabilization and Recovery. According to the most recent plan dated April 17, 2020, Stabilization will continue until approximately September 30, 2020. Recovery will last into 2021.

With this in mind, the budget was built with the following Foundation:

Fiscal Year 2021 Quarter 1 Stabilization Phase
Fiscal Year 2021 Quarter 2 Recovery Phase
Fiscal Year 2021 Quarter 3 and 4 New Normal

For budget purposes, this means that full social distancing restrictions are presumed to be in place for most or all of Quarter 1. This has implications for all departments, but it impacts our community services (CRC, Library, Museum, Recreation and Grounds) most heavily. Facilities and programs will be closed for most or all of this period. These services and programs will return slowly and with possibly increased costs through Quarter 2. The budget assumption is that operations are mostly normalized by January 1. Significant deviation from this approach will make large differences to the payroll and operation portions of the budget. It will also possibly adjust the revenue portion of the budget as well.

Using the color-coded phased guidelines produced by the state gives similar concerns. Social distancing requirements relax only slightly between red and orange levels. For example, group sizes can go from 10 to 20, but school remain closed and social distancing rules remain in effect. Again, the current budget assumes a three-month period where we are at least at an orange level of the guidelines.

Reserves

With the extraordinary events unfolding in the world, it is a good time to look at the City's reserve status. For reference, the City Council has targeted a 25% reserve in the General Fund and a 30% reserve in our Enterprise Funds. The numbers shown below *are the total amount of unrestricted reserves in each area,* not the amount that the City has above the requested reserves. As another reminder, General Fund reserves cannot exceed 25% and cannot drop below 5% without getting in trouble with the auditor.

		<u>Capital</u>				<u>Storm</u>	<u>Solid</u>	<u>Internal</u>
	Gen Fund	Projects	<u>Power</u>	Water	Sewer	<u>Water</u>	<u>Waste</u>	<u>Service</u>
Unassigned								
Funds	5,169,605	608,063	12,436,517	1,659,869	2,461,696	649,688	641,019	5,182,163

A few notes: Golf is not mentioned. The Golf fund has no reserves. The Internal Service reserves are designated for vehicle and equipment replacement and facility maintenance and repair. While all of these reserves are available to the City Council, the proposed budgets leave at least 30% operating reserves in the Enterprise Funds (except Golf) and propose using none of the

Internal Service reserves or Capital Projects reserves already allocated to projects. These reserves total over \$10.2 million.

The City has restricted reserves for specific expenses such as impact fees. These reserves are not reflected here and are being held for their specific purposes.

In the General Fund, the budget proposes the utilization of \$350,000 in capital project fund reserves and \$350,000 in General Fund Reserves. Thus, the budget proposes the utilization of about 6.8% of General Fund reserves for ongoing City operations or about 1.2% of the total unassigned cash of the City. In the Enterprise Funds, More about this later in the memorandum.

With this budget foundation and reserve update, let's take a look at the budget.

<u>I.</u> <u>Revenues</u>

- Revenues are forecast down 5.7% and over \$1,850,000 actual dollars. This is despite
 the healthy growth that Springville is experiencing and is due entirely due to the
 pandemic we are currently experiencing.
- Looking at the budget, the summary sheets show a reduction of 4.4% from fiscal 2020. This is due to the addition of \$350,000 in general fund reserves to the revenues to balance the budget.
- Sales tax is forecast down 7% from fiscal year 2020 estimated actuals. Property tax is forecast down 3% and C Road tax dollars are forecast down 20%.
- \$350,000 General Fund reserves are programmed into the budget making the actual revenue shortfall appear to be \$1,500,000.
- As stated above, revenues were forecast with the assumption that operations will be severely impacted for three months and moderately impacted for an additional three months. This means that a host of revenue sources are projected much lower than the current year. These include recreation programming, pavilion and museum rentals, overdue book fees and many more. With some specific exceptions, programming fees are forecast at 75% of our original forecast.
- Development is always a hard one to predict and this year is no exception. Lots of improved lots are available to develop on both the residential and commercial sides.
 We continue to have building permits submitted. Currently, building and its associated revenues, including impact fees, are predicted at a rate 20% below what the current budget year is projected to receive. Note that we are basically at a 100% of budget revenue already in the current budget year and permits are still being issued.

II. Personnel Changes/Additions

There are a still a number of changes to personnel presented in the proposed budget. Based purely upon growth, we should be adding approximated five full-time employees and five full-time equivalent positions of part-time labor. This is not happening, yet the demand for services will be there as things return to normal. We will cover the nominal recommended changes followed by changes necessitated by the operational foundation set forth above.

A. Budgeted Changes

- A Part-time Office Assistant was added in Buildings and Grounds. An equivalent number
 of seasonal hours were reduced in the department budget.
- An Operations Supervisor in CRC has been included. The intent is to eliminate a lead
 worker position and create a supervisor position. Currently we have two supervisors for
 over 100 employees. This is far too out of balance. Creating another supervisor level
 position will help balance this with a dry side and aquatic side supervisor. (The
 difference here, assuming an internal promotion, is a 5% pay increase.)
- We have changed the title and pay grade of 1,040 hours of Front Desk Attendant to Lead Front Desk Worker at the Clyde Recreation Center. This likewise, gets un in a better supervisory position for our high number of part-time workers in this facility.
- A Civil Attorney/Risk Manager has been added to the budget for half of the year. The
 assumption is that pursuant to our pandemic hiring positions, we will not be able to add
 this position until later in the budget year. In exchange part-time paralegal hours have
 been removed from the Legal Department budget.
- A full-time Court Clerk has been added to the budget to accommodate the addition of Mapleton Justice court cases and to assist in the transition and retirement of our current Court Clerk Supervisor. Ten hours of part-time clerk hours have been removed from the budget.
- While the total employee count does not change, a code enforcement position has been removed from Community Development and the position has been placed into the Police Department. It should be noted that this change has been made as an assignment to our police officers, so the added position is as an Officer I/II position.
- A Ground Worker position in Power has been changed to an Apprentice Lineman position. This allows us to be better prepared for anticipated retirements over the next few years.
- An Officer I/II position has been changed to a Corporal position. This will allow for a modest restructuring in the Police Department to allow for the creation of a new team. The cost of this change will be less than \$2,000.

B. Pandemic Assumptions

Assuming that we will be functioning at a closed or extremely limited fashion for three months under an orange level or moderate level of infection risk and an additional three months of yellow level of infection risk, the following budgetary adjustments were made to personnel budgets. Please note that if we experience less business interruption, we would potentially need to add in more support hours. However, if we do not see a corresponding increase in revenue, there would be no money to add these hours unless we expended more of our reserves.

- 25% of part-time CRC employee hours have been reduced from the budget.
- 25% of front desk/reception and rental attendant hours have been reduced from the Museum budget.
- 25% of part-time recreation specialists and sports officials have been removed from the Recreation budget.
- Senior Center driver and lunch help hours reduced by 25%.
- 10% of part-time hours have been removed from the Library budget.
- Canyon parks seasonal hours have been reduced 25% and the Camp Host position has been reduced by 75%.
- A part-time position, a web technician, has been removed from the administration budget.

This is a reduction of approximately 16 FTE (FTE stands for full-time equivalent and it is equal to 2,080 work hours) from our fiscal year 2020 budget. Roughly, the cost of these employees approaches \$300,000 to the City personnel budgets. Again, planning to utilize these hours during the year will require revenue, additional reserve utilization or other cuts.

III. Programs

There are a few new programs in the budget this year. Items surviving thus far include:

- Already committed dollars for MAG/UTA/UDOT studies regarding Front Runner.
- An update to the Parks Master Plan.
- Dollars (and corresponding revenue increases) associated with combining with the Mapleton Justice Court.
- Significant dollars to pursue the rapid resolution of our backlog of planning projects.

Programming reductions to make budget include

- Training and travel have been reduced by 50%.
- Employee recognition dollars in individual departments have been reduced by 50%.

- Uniform budgets have been reduced by 33%.
- General Fund facility reserve transfers have been reduced by \$100,000.
- Custodial costs have been reduced by \$55,000. This assumes that facilities are closed for a portion of the coming budget year.
- Vehicle reserve formulas assume no vehicle inflation during the year. This results in about \$75,000 in general fund savings. Enterprise fund formulas were left at 2019 inflation rates as is our normal procedure.
- Several Clyde Recreation Center lines were likewise reduced by about 25% assuming facility closures throughout the year totaling 3 months.
- Fuel costs are anticipated down. The drop in gasoline prices may be temporary, but several of our fleets use significant dollars in fuel. For reference, we actually paid under \$0.70 per gallon this month for unleaded fuel. We are budgeted closer to \$2.40.
- While this is not a change, despite significantly lower revenues projected in C Road funds, we have left the current program the same for the current budget year-subject to funding restrictions.

IV. General Fund Capital

- General Fund capital projects were scored again this year. Points were granted (and in some cases taken away) for about a dozen categories ranging from sustainability, to Council requests to cost savings. Projects were funded in the score order, but the list got much shorter as General Fund dollars disappeared into a failing economy.
- It should be noted that \$450,000 in Capital Improvement Project Reserves have been brought in to help pay for these projects. This is not very unusual. We often bring saving from previous years in to pay for these one-time expenses. However, reserves are being used here.
- Here is a list of funded projects:

PLANNING REVIEW SOFTWARE	20,000
BODY CAMERAS	91,946
800 MHZ RADIO REPLACEMENT	37,000
GPS AND BAIT BUGGING SYSTEM	7,000
POLICE OFFICE FURNITURE	12,530

C ROAD MAINTENANCE	1,076,000
NSD DRIVING RANGE ASPHALT (50/50 SPLIT)	10,000
MUSEUM MAIN FLOOR RESTROOM ADA COMPLIANCE	15,000
CRC CARDIO/WEIGHT EQUIPMENT	50,000
SPA SPLASH GUARD	6,000
CRC SECURITY AND SAFETY EQUIPMENT	22,000
BACKSTOPS	10,000
BLEACHER & DUGOUT SHADE	42,000
CEMETERY ASPHALT MAINTENANCE	55,000
CEMETERY EQUIPMENT	,
CEWIETERT EQUIPMENT	3,000

- Vehicles and equipment were funded for replacement. These purchases will not be made at the start of the budget year. Requests to purchase these vehicles will be delayed in accordance with the direction found later in this document. Money here is being held in reserve for these purchases. Strategies for meeting the budget in the event of even greater than forecasted shortfalls are also found later in this document.
- Here is a list of all projects funded from the Vehicle and Equipment Fund

0	Server, Printer and Switch Replacements	\$114,950
0	Police Vehicles	\$202,000
0	Fire defibrillator and Hydraulic Extraction Tools	\$97,000
0	Various Streets vehicles and equipment	\$236,000
0	Cemetery mower	\$11,600
0	Water Compressor	\$25,000
0	Sewer Mobile Pump	\$25,000
0	Power Bucket Truck	\$225,000
0	Garbage Truck	\$260,000

- These purchases are LESS than the amount of money transferred into the reserve in the proposed budget.
- The following projects have been scheduled to properly maintain our facilities from the facility reserve:

All Buildings	All Buildings Emergency Fund	50,000
All Buildings	All Buildings FFE Replacement Fund	4,000
Art Museum	Skylight Repair/Improvement	25,000
Central Shop	Replace Swamp Cooler	3,000
Central Shop	Paint Exterior	6,500
Civic Center	Restroom Floor Maintenance	8,000
Civic Center	Police Server Room AC Split Units Replacement	8,500
Community Services	North Storage Shop Heater Replacement	7,000
Fieldhouse	Roof Maintenance	15,000
Senior Center	Bathroom Remodel	24,000
Streets Dept	Paint Exterior	6,500
Waste Water Treatment	Replace Office A/C Split Units Replace Exterior Capstones Balcony, Chiller & Dumpster	18,000
Civic Center	Enclosure	24,000

Central Shop is budgeted to replace our gas and diesel tanks.

V. Utility Enterprise Funds

- Revenues were originally projected through a number of sources. These sources include a model that has been built by Bruce Riddle, revenue forecasts from Departments, growth forecasts from Community Development and debate among all involved. These projections were finalized in mid-March. Following the growth in virus-related problems, the matter was a point discussion with the City Council. From this conversation, revenues were again adjusted. In the case of utility enterprise funds, most revenue lines were reduced by 5%. Every line was reviewed and where appropriate, deviations from this approach were made. The primary deviation was with regard to our industrial rate classification. Here, revenues were not reduced. In most cases, the industrial rate line deals with a single rate payer Nestle/Stouffers. These changes result in our enterprise funds having to deal with significantly lower revenues in the coming year. For our larger funds, these reductions exceed \$2,000,000.
- All funds have been balanced primarily through delaying capital projects without the need to utilize reserves of any department.
- Utilities continue to provide a 5% operating transfer to the benefit of the General Fund.

- Utility funds are participating in some of the saving required of General Fund Departments. This means we have reduced employee recognition, uniforms and travel budgets in all departments of the City.
- Power is anticipating an increased margin refund from UAMPS based upon the current year's operations.
- Bad debt lines have generally been increased in anticipating in a growth in this expense over the coming year.
- Storm Drain and Solid Waste cannot absorb much additional revenue loss before we will
 need to consider the utilization of reserves. Both of these funds are in need of rate
 increases primarily due to increased outside costs and regulatory requirements, however,
 no rate increases are included in the budget as discussed below.

VI. Utility Fee Changes

- Our policy on utility rate changes has been to make small, inflationary adjustments as necessary to avoid the need to make large rate changes. This year, after discussion with the Council, no rate changes are being made. There are two reasons for this.
 - Pandemic
 - Low inflation is assumed for at least the bulk of the budget year.
- It should be noted that the one fund that is struggling as a result of this decision is Solid Waste. There have been significant increases in dumping fees for Recycling material. We will need to revisit this, when possible.

VII. Golf

- Golf continues to be one of the harder funds to predict and there are currently no reserves within the fund to call on in the event that we are off on our forecasts.
- In conjunction with all other departments, Golf has planned for operations with some restrictions in place. The budget is built with cart rentals only going to a single rider for all of the 2020 playing year.
- The budget is balanced, but it is balanced with \$50,000 coming into the fund from the General Fund. To my knowledge, this is the first time the City has supported operations through a payment from the General Fund. In the past, the Golf Fund has received money for capital projects, but not operations. For reference, this is highly unusual. Most cities either put their golf course in the General Fund or provide support from the General Fund.

VIII. Wages and Benefits for all Departments

- The budget includes no merit increases.
- Benefit Increases were funded.
- Medical Insurance went up by about 7%. This is a good result.
- Dental, Life, Short-Term Disability and Long-Term Disability plans did not change in cost or benefit.
- Worker's Compensation Benefits are still pending but anticipated increases have been funded.
- The city payroll system has 30 defined grades with a low and high point. Grades are recommended to not be adjusted this year.
- The City has a large number of pension plans. All of them are mandated by law and are through the Utah Retirement System. With one large exception pension costs did not increase this year.
- On the Public Safety side both fire and police pensions increased by 2% on the tier 2 side. Last year the legislature increased the tier 2 pension plan but they also charged some this cost to the *employee*. On July 1, our tier 2 police officers and fire personnel will be charged 2.27% of their salary for pension. We propose to pay for this on the City-side of the budget. The change was made to balance the pension amounts and we pay 100% of all other plans. We will discuss this more at our budget meetings.

IX. Managing in a Recession

This memorandum thus far has established the delicate balancing act between moving the city forward while accepting the reality of the ongoing pandemic. The budget seeks to incorporate both the general and specific guidance the Council has provided throughout the process. But, what if it gets worse? What if revenues do not meet expectations? What if the demand on public safety or other services is substantially more than forecast?

In some respects, the pandemic has been slowly rolling at us. In other respects, the changes have been abrupt and brutal. It would be hard to conceive of many scenarios where the City would lose \$1.5 million in revenue in just a few months, yet, that is what happened here at the end of fiscal year 2020. Here are some of the actions that are or will be implemented for fiscal year 2021 that will provide safeguards for the City. These buffers will give the City Council and Administration more time to react and analyze as we move through very, very uncertain times.

In conjunction with State guidance, many of the safeguards set forth below will be adjusted with economic and health restrictions associated with the color-coded health system the State has established. The City will be more cautious when the restrictions are higher.

A. Revenue Reviews

Bluntly, revenue reviews are not often on the mind of our supervisors. That will change this year. Most of our revenue sources are traditionally fairly solid and predictable. This means supervisors worry more about executing operation plans. Finance and Administration keep regular tabs on large revenue sources and are generally the source of any alarms. This year all supervisors will be directed to make specific revenue reviews. They will also be required to provide notice of even nominal deviations from the budget. This will apply whether the revenues are ahead of or behind schedule. We need to move quickly on revenues moving in either direction and more eyes will help us spot anomalies.

B. Purchasing, Capital and Hiring Restrictions

Strict hiring and purchasing restrictions have been in place for about a month now. While these restrictions will relax as our dial turns from red towards green, policies will remain in place restricting purchasing, capital construction starts and hiring based upon where the dial is at. Specific guidance for settings other than red are being drafted. The idea will be to minimize spending when the uncertainty is the greatest. Significant flexibility has and will be built into the system to ensure that critical and urgent spending continues. We will also build in opportunities to take advantage of changing markets for the City.

C. Pursuing Grant Opportunities

Springville City has already entered the FEMA portal for emergency grant dollars. The City is also closely monitoring other funding sources for the City including dollars allocated to the State for CARES Act money. These sources will be reviewed and only presented to the Council if the attached strings make the receipt of any money effective for the City.

D. Transfer Reviews

Perhaps the largest safeguard for the City is the long-standing commitment to forward planning. Since we have and still are planning for the future, the budget continues to anticipate the need for facility, vehicle and equipment repairs and replacement. Approximately \$1,000,000 is proposed in the fiscal 2021 budget for facility, vehicle and equipment reserve. It is important to remember that these budget dollars are for real needs of the City.

Our fleet is not yet optimized. As an example, the City's ladder truck is purchased in 1990. It was due to be replaced five years ago. It has significant mechanical issues.

Other, higher priority choices have been made as we have deliberately worked our way into full funding of vehicles and equipment. Failing to fund these reserves will result in needed equipment being replaced ever later.

With this in mind, it is comforting to know that we have dollars reserved for such expenses—just not enough. We can choose not to make the transfer into those reserves and that gives the City a massive shock absorber of a million dollars in the General Fund.

X. Conclusion

For more than a decade, the City Council and City Administration have worked in close coordination on the budget. Significant trust has been established within the organization. We will need to work closer than ever before as we move into the coming budget year. The current situation is fluid and changing rapidly. We anticipate that as the picture becomes more clear we will quickly make adjustments to the budget to adapt to a plethora of 'new normal' procedures and circumstances.

This is a tentative budget for presentation to the public for comment. Usually there are few changes between tentative and final adoption of the budget. This is unlikely to be the case this year. At this stage, we normally present a polished and well-reasoned budget. To me, the budget has gashes and holes, torn edges and question marks. Changes from our traditional budget approach were made quickly and bluntly, not with a reasoned and scalpel-like approach. Please challenge our assumptions. Please find our mistakes and we will get through the coming year together.
