- **HIGH IMPACT THERMOPLASTIC HOUSING** – Heavy-duty industrial insulated housings are made from high impact nylon material which is resistant to corrosion and abrasions. Non-conductive material is UV stabilized to protect against warping or discoloration.
- **TERMINAL IDENTIFICATION** - Ground, neutral and phase terminals are clearly identified for easy recognition and ease of wiring.
- **SPRING LOADED GASKETED COVER** – Snaps into place when the plug is removed. Protects against encounter with live contacts while keeping out dirt, dust and moisture.
- **RECESSED CONTACTS** – Contact sleeves are recessed in the narrow contact tubes protecting against any accidental encounter with live contacts.
