Loughman Upped To CEO Of Shamrock Radio Group

Succession complete; Clark still Chairman

Shamrock Broadcasting President/ COO Marty Loughman has been promoted to CEO. He succeeds Bill Clark, who continues in his role as Shamrock Chairman.

"I look forward to working together with Marty as we have in the past," said Clark, who had been the group's CEO since 1988. "The only major difference will be that he now has the full capacity of being CEO, and I will focus more on acquisitions, policies, mergers, etc."

"Although my position and responsibilities won't change dramatically, I am proud of the new title and responsibilities," Loughman told R&R. "It is now my task to move the company forward. We have always been known as a good company to work for, and I will continue to make it more financially sound."

Loughman's elevation to CEO comes as part of a succession plan put into place when he was appointed COO

Calling Sigerson "extremely creative and talented," EMI Group Chairman/CEO Charles Koppelman praised his "tremendous focus and leadership abilities." He added, "Having grown up in this business as both an executive and a musician, Davitt has a keen understanding of what it takes to find great music, work with artists, and get their music heard by a lot of people."

Recently, A&R people have taken over the stewardship of a number of record labels: Lenny Waronker at Warner Bros., Bob Pfeifer at Hollywood, and Gary Gersh at Capitol, for example. Asked if he feels like part of a trend. Sigerson told R&R, "What's always been im-

portant in this business is artists, and clearly, people who are thinking about the music from an artist's perspective are best able to market it in these times - and to attract it. Everyone is coming to the conclusion that if that's what's important, you need people whose interests lie in those areas to get the job done."

Though he wasn't specific about how he plans to get this job done, Sigerson said, "I'm a pretty idealistic guy, and I have a lot of plans and specific ideas that come from a career of observing

RIAA Testifies Against Pennsylvania Lyrics Law

RIAA presented testimony Monday (9/12) against a Pennsylvania lawmaker's bill which would make it a crime to sell records carrying "explicit lyrics" warnings to minors.

State Rep. T. J. Rooney (D-Bethlehem) introduced the bill in June after an incident in which a white student gave a black student a note that included a phrase containing the word "nigger." The phrase, according to a staffer in Rooney's district office, 20/20 LIMIT/See Page 21 came from a popular rap song.

Rooney, a 29-year-old father of two, told R&R that RIAA's current labeling system isn't enough of a deterrent. "To their credit, they created this labeling system. The problem is, in the last 10 years, it's gone from bad to worse. Today, you've got the most crass messages aimed along racial lines and at women."

EARNINGS

Slight Declines For Heftel, Katz Media

eftel Broadcasting Corp.
(Nasdaq: HBCCA) reported net income of \$1.3 million (23 cents per share) for its fiscal third quarter ended June 30, down from \$1.4 million (23 cents) a year ago. Revenues increased to \$6.1 million, from last year's \$6 million.

Heftel owned two radio stations and had interests in two others during the quarter. It completed an IPO in July and has subsequently closed purchases on five stations and a Spanishlanguage radio network.

atz Media Corp. (publicly traded bonds, many employees are shareholders) reported second-quarter net income of \$1.1 million (78 cents per

share), a decrease from last year's \$1.3 million (89 cents). Net operating revenues rose from \$42.1 million to \$46.9 million.

KMC recently called off a public stock offering and sold majority control to Donaldson, Lufkin & Jenrette (see story, Page 6). KMC, the nation's largest rep firm, owns five radio rep firms along with TV and cable rep interests.

Washington Minorities Get Boost From Infinity Deal

Infinity Broadcasting is making good on its bargain to fund marketing and broadcast training for minorities in Washington under a settlement with the African American Business Association that cleared the way for Infinity's purchase of WPGC-AM & FM.

Infinity agreed to the \$2.75 million settlement after AABA petitioned the FCC to deny Infinity's \$60 million purchase of the combo. In the petition, AABA maintained that Infinity shouldn't be permitted to acquire the stations because Howard Stern, who is syndicated by Infinity and heard on its WJFK-FM/Washington, is racist. While Infinity denied the allegations, it agreed to the settlement. The FCC approved the sale and settlement in May.

'Media Incubator'

WPGC-AM & FM and Infinity are still in the planning stages of the program, dubbed the "African American Media Incubator." So far, Infinity has set aside \$300,000 to outfit a studio, lease office space and furniture, and pay salaries for three employees. Another \$25,000 will fund a broadcast training program for African-Americans.

Infinity also plans to offer free training to AABA members and

others in the Washington business community. The one-day minicourses will explore effective media planning, target marketing, public relations, and media campaign development. The idea is for minority-owned businesses to be comfortable with radio advertising.

Ad Discounts Available

Those who attend may also purchase low-cost ads on WPGC-AM & FM. Infinity had agreed to set aside \$2 million in airtime over the next four years for purchase at deep discounts by those who attend the seminars.

"Small and minority businesses represent an untapped vein of potential revenue for radio stations," said AABA President Ed Murphy. "Infinity's initial contribution should more than pay for itself in increased revenues generated from successful African-American businesses using radio."

We Build Franchises

With great broadcasters like... David Ross

"Stratford Research has played a key role in the demographic repositioning and continued success of Y-100. I believe in branding and I believe in Stratford. They are an invaluable part of our management team."

David Ross President & General Manager, Y-100 & BIG 106 Miami-Ft. Lauderdale

David Ross relies on Stratford Research to help build his South Florida duopoly into a branded franchise. He uses Stratford because we're the only firm that provides the Fortune 500 research and brand marketing techniques that were previously reserved for the world's top consumer marketers. That's the same reason why the NAB asked Stratford to write *The Franchise*, the industry's definitive book on radio branding.

Stratford's branding discipline represents a true source of competitive advantage for radio stations. That's why David Ross wants it in *his* arsenal. He looks to Stratford for strategic research, music testing, focus groups and brand marketing.

Tsunami Denies Jacor Control

sunami Communications owner Tony Galluzzo has told the FCC that he alone will control KIIX-AM & KTCL-FM/Wellington-Fort Collins (Denver), CO - not Jacor Communications, as alleged by competitor Noble Broadcast Group.

Tsunami told the Commission that nothing about Jacor's involvement in the deal to buy the combo for \$3.95 million will give Jacor de facto control of the stations neither Jacor's loan of the purchase price nor a joint sales agreement to have KIIX and KTCL advertising sold by the

same staff as Jacor's KOA-AM, KTLK-AM, KBPI-FM, & KRFX-FM/Denver.

Tsunami's response to Noble's petition to deny the sale noted that the agreement with Jacor's four Denver stations covers only advertising, not programming. "All KIIX/KTCL programming decisions will be made by Mr. Gailuzzo," Tsunami told the FCC.

Galluzzo is COO of Cincinnati-based Critical Mass Media, a consulting company jointly owned by Jacor President/co-COO Randy Michaels and Jacor itself. But Galluzzo told R&R he will resign and move to Denver to run his stations once the purchase wins FCC approval.

Katz Sale Details Divulged

EC filings reveal that partnerships managed by Donaldson, Lufkin & Jenrette paid \$99.6 million to acquire a 71% stake in Katz Media Corp.

According to the documents, KMC Chairman Emeritus Jim Greenwald was paid over \$8.5 million for his shares and ex-CEO Peter Goulazian over \$3.7 million. Both have announced plans to retire.

Sandler Media and 61K Associates were paid nearly \$50 million for their stock interests. The remainder of the purchase price went to redeem stock options held by many KMC employees and to buy shares held by several current and former employees.

FCC Defends EEO License Renewal Hearing Policy

he FCC defended its policy on when to hold license renewal hearings for EEO violations before a three-judge federal appeals court panel last week (9/9) in Washington.

FCC attorney David Silberman argued that there was no evidence of intentional discrimination by the Chapman Root group, which was fined \$5000 and ordered to make special reports on EEO compliance when licenses were renewed for its four Florida radio stations, WLKF-AM & WEZY-FM/Lakeland and WNDB-AM & WCFB-FM/ Daytona Beach. According to Silberman, the penalty "was

very consistent with the way we've treated other licensees in similar circumstances.

NAACP attorney David Hoenig didn't accuse the Root group of intentional discrimination, but argued that the FCC didn't ask enough questions to determine whether or not the stations" inadequate efforts to recruit minority applicants were deliberate.

The judges, however, appeared skeptical of the NAACP's efforts to second-guess the FCC and repeatedly questioned Hoenig about his case's reliance on statistical evidence of hiring discrimination.

"Suppose [the licensee is] lazy or suppose they didn't care — would that qualify as intentional discrimination?" asked Judge Patricia Waid.

"That's a tough one," conceded Hoenig.

There was no indication how soon the appeals court might rule.

KidStar To Go National

hildren's Media Network announced plans Tuesday (9/13) to create a national radio network from the KidStar format it's been airing since May 1993 on KKDZ-AM/Seattle.

"We have discussions under way with a number of major broadcasters," said CMN President Bill Koenig, who plans to debut KidStar on stations in all Top 10 markets next April. He said the simultaneous start-up is designed to provide critical mass for national advertisers.

Koenig described KidStar as an interactive multimedia venture targeting pre-teens that involves a magazine, online computer service, and on-air phone participation.

Valentine Named PD At KISF/KC

KISF/Kansas City has promoted acting PD/afternoon personality Alex Valentine to PD. He replaces Mark Feather, who left the U.S. Radio-operated CHR last month.

KCTE & KISF VP/GM Steve Dinkel told R&R, "Alex has been with us for quite a while, and during that time, he has proven himself as a team player. He's got good people skills, a knowledgeable ear for what the market expects in terms of music and presentation, and will be a good leader for the airstaff. Most importantly, he and I are in sync as far as the direction of the station. Valentine added, "This is my first

Levin New Sr. VP/ **Promo At Priority**

Nancy Levin has been appointed Sr. VP/Promotion at Priority Records. She joins Reprise from Records, where she most recently held the post of National Promotion Director/Pop

& Crossover "As we grew, we realized radio was another part of the puzzle we needed to have to effectively compete in the '90s," said President/ CEO Bryan Turner. "Nancy is the last piece of the puzzle. She has now made us a major label.

Levin commented, "This has truly been my dream - to build a great staff where we break the rules, redefine, laugh, and stay eight blocks ahead in thought and execution."

Prior to joining Reprise as a local promotion manager in Denver, Levin served as PD at KFMU/ Steamboat Springs, CO and MD/ morning personality at KKBR/ Albuquerque.

Registrations, Budgets Rise For NAB L.A. Radio Program

NAB officials say registrations for next month's NAB Radio Show in Los Angeles (10/12-15) are running ahead of last year's and that a profit is expected despite an increased

budget.
"It's important that this be a 'hands-on' convention," event chairman and Apollo Radio President Bill Stakelin declared at a news conference Monday (9/12). He said there will be a strong emphasis on programming and noted that programming consultants had to compete for spots on the schedule.

Although the Radio Show will be sharing the L.A. Convention Center for the first time with the RTNDA, SBE, and SMPTE conventions, only the exhibit hall will be merged uner the name World Media Expo. Even there, a special Radio/Audio Pavilion will allow Radio Show delegates to bypass TV exhibitors.

NAB Exec. VP John Abel said more than 450 exhibitors are expected - including 221 in the Radio/Audio Pavilion, up from 195 at last year's Radio Show. The increased revenue from exhibitors allowed NAB to budget an additional \$900,000 for the Radio Show. And NAB is still expecting to net \$900,000, up slightly from last year.

"We are putting a lot more money into the Marconi Awards," said NAB President Eddie Fritts. Huey Lewis & The News have been booked as entertainment for this year's blacktie gala, with a return MC appearance by Rick Dees.

Abel said as many as 15,000 people will attend the four conventions and their combined exhibit hall, with about half of those coming for the Radio Show. Abel said "only a handful" are expected to register for more than one convention.

WKLR-FM/Indy Now '70s WNAP

Emmis Gold outlet WKLR-FM/ Indianapolis last Friday (9/9) switched to all-'70s oldies WNAP under the banner of the "Greatest Hits of the '70s." The station retained its entire airstaff, with the exception of morning talent Mike McCay.

Recently appointed WENS & WNAP PD Greg Dunkin told R&R, "WNAP was the big station in the market in the '70s. WKLR was doing well, but the future is doing something from the '70s. This is the next generation of Oldies station. This may be the first time an Oldies station has flipped to a '70s format when the market has no other Oldies station."

Dunkin described the station as being "more pop-oriented" than the CBS "Arrow" format, adding, "It definitely will be unique to Indianapolis."

Concurrently, AC duopoly partner WENS-FM dropped its reference to playing hits of the '70s, '80s, and 90s. It now refers only to the latter two decades.

Reba Hits 'The Road'

After performing on "The Road" TV series, Reba McEntire took time for a quick pic with "The Road" radio companion program producer Winslow Stillman (r) and "Dr. Quinn, Medicine Woman" star William Shockley, who also hosts the two-hour weekly radio show

Kelley Promoted To WYMJ/Dayton PD

WYMJ/Dayton acting PD/MD/ morning personality Jim Kelley has been promoted to PD at the Country outlet. He succeeds Joe Demma, who remains with the station as Promotion Director.

WYMJ President/GM Alan Gray told R&R, "Jim did a good job with the music from the beginning. With a Class A, we're approaching this battle from a TSL strategy, and Jim has a good feel for what we're trying to do."

Kelley commented, "This is the ideal situation for me. Country has always been my first love, and I get to work closely again with Alan, who I worked with when the station was Gold. Country is the most exciting format around right now, and there's tremendous opportunity in Dayton for WYMJ to do extremely well."

Kelley programmed WYMJ for four years when it was a Gold outlet. He was named MD when it switched to Country last March and became acting PD two months ago. He previously programmed Country WKJN/Baton Rouge from 1988-90.

A COMMITMENT TO PEOPLE. A RESPONSIBILITY TO THE ENVIRONMENT

It's no secret that radio stations can achieve greatness when their people are properly nurtured, challenged and rewarded. What's remarkable is how many radio companies merely pay lip service to this simple, fundamental truth.

At Entercom, we've made a major commitment to ongoing training, development and support. We've created a comprehensive, state-of-the-art Sales Training System to give our people a strong foundation for success. Our Program Directors keep their edge through ongoing support from extensive research, off-site conferences, industry-leading consultants and Entercom's Programming Development Seminars.

Every Entercom employee reaps the rewards of one of the best benefits packages in the industry. Fully-paid medical. Fully-paid dental. Fully-paid long-term disability. 401-K retirement plan with matching company contributions. A comprehensive employee package designed to meet or exceed the coverage of the industry's

But our commitment to people extends beyond the walls of our stations and into our communities and the environment.

Entercom is proud to be the #1 corporate contributor to the Wilderness Society, one of America's largest environmental organizations, dedicated to the preservation and protection of America's wilderness and wildlife. And starting this fall, Entercom's "Make a Difference Days" will empower each of our stations to devote their team's time and energies to hands-on projects that will make a real difference in their communities -- on our time clock.

An investment in our people. A responsibility to the environment. Two rock-solid commitments that make Entercom more than just another radio company.

Keep Company Politics From Wasting Your Time

xecutives say they spend an estimated 20% of their time on company politics. To ensure that this time isn't spent in wasted effort. Menlo Park, CA-based Accountemps founder Robert Half recommends you:

- Correct any misconceptions regarding the availability of promotions or rewards.
- Develop a system that rewards teamwork.
- Clarify that one person's ascension doesn't eliminate the opportunity for others to advance.
- Confront anyone who starts a conflict.

FOUR TIPS

Respond To Criticism More Effectively

rguing with criticism from a superior or co-worker is a no-win situation, point out *Understanding One Another* authors **Thomas** and **Diane Mader**.

Rethink your approach and, instead of trying to win an argument, look for a solution. Thinking "I'm right, you're wrong" or "I'm being sensible, you're being unreasonable" will lead nowhere. Instead, the Maders offer the following four suggestions:

Don't rush to defend your ideas. First, ask your critics to explain their criticism. Try responding with, "Why do you think my approach was arbitrary?"

Allow critics to say their piece — don't just disagree. Once you make differences clear, you'll be one step closer to a resolution.

Show respect for critics' ideas by repeating them. This tells them you are taking their opinions seriously.

Agree that you both could be right. However, acknowledge you

can't have it both ways. Then ask, "What can we do?" This will pave the way for the discussion of a solution.

Are You A Productive Decision-Maker?

oes the thought of making a decision bring a thousand tiny beads of sweat to your furrowed brow? Writing in Rodale's Healthy Woman, Maureen Boland says people who have trouble making decisions generally fall prey to one — or all — of the following decision-making styles:

The Perfection Section

These obsessors hem and haw over details — forgetting the big picture. In reality, they're afraid to fail. *Cure*: Pick a date to make the de-

cision. Keep in mind that you aren't in control of the outcome, regardless of how many facts you have at your command.

Waffles For Every Meal

These people gather a multitude of opinions and still do nothing — probably because they never learned how to make an informed decision.

Cure: Make a list of the pros, cons, and consequences to sharpen your focus.

Avoid Reverse Delegation!

Beware of subordinates who approach you regarding a tough decision they have to make — especially if they ask you to make the final call.

This sort of "reverse delegation" is a leading cause of managerial work overload.

Instead of taking on your subor-

dinate's job, Old Tappan, NJ-based management consultant **Ted Pollock** suggests you counter with, "Yes, that's a problem. What are *you* going to do about it?"

This will clearly establish that it's your subordinate's responsibility to come up with a solution — not yours.

The After The Fact Pack

Members of this group inevitably wait until the problem explodes to make their decisions — because their constant fear of the possible results leaves them paralyzed.

Cure: Come up with a worst-case scenario and your subsequent plan of action. This will help assure you that you'll survive no matter what you decide.

Worry Warts And All

These people-pleasers agonize over how their decision may affect others — and blame themselves if the decision leads to a disaster.

Cure: Make sure the decision meets your needs and those of the job at hand. Never blame yourself if a decision goes sour.

The Quick Pick Clique

This cocky bunch rushes through the decision-making process without any concert for the consequences.

Cure: Maintain a diary of your decisions and admit to the ones that den't work.

QUESTION THE ANSWER.

Yesterday's answers won't solve today's problems. Many once legendary radio stations have been dethroned by today's finely-tuned hybrid formats.

We know. We helped lead the charge.

For eight years now, San Francisco's "LIVE 105"-KITS-has charted new ground as one of the innovators of New Rock radio. And despite repeated attacks by a half-dozen competitors, LIVE 105 has consistently remained the #1 rated rock station in San Francisco.

In Seattle, "The Mountain" - KMTT - has become one of America's preeminent Adult Album Alternative stations. Its eclectic mix of rock classics, alternative artists and adventurous album cuts has made "The Mountain" a major force in the Pacific Northwest.

But challenging the status quo and creating new opportunities extends beyond the cutting edge of programming. At Entercom, all of our stations are encouraged and empowered to develop line extensions into other profitable ventures. This entrepreneurial brand building leads our ambitious marketing teams into the concert business, event marketing, CD/cassette projects, merchandising and even on-line computer bulletin boards.

This progressive and aggressive approach perfectly positions Entercom for the dynamic changes ahead in our industry. We're inspired by the new technologies that will enable our people-and our company-to grow and prosper in the next century.

Challenge. Innovate. Excel.

Selling Radio On The Information Superhighway

magine a voice-activated radio that responds to your requests . . . A radio with a slot that dispenses product information, money-saving coupons, and tickets to the hottest events in town . . . A radio with a display screen that provides additional information about commercials or programming. Now you have an idea of what radio will be like in the 21st century. 66 4.00 00 4.00

We've heard a lot about the Information Superhighway, but we haven't heard much about how radio fits into it. Nevertheless, radio will be a strong player as a broadcast medium and as part of the Information Superhighway going into the 21st century.

Proven Strength

With each new media development, people speak of the "demise" of radio. In 1967, only a handful of American households had cable TV. As cable began to grow in the late '70s and early '80s, the talk was, "Just wait until cable breaks the 50% penetration barrier." The implication was that the vastly expanded TV options would cripple the radio industry.

People tune in to radio for longer periods of time than they did 25 years ago — 30 minutes more per day.

Nevertheless, Arbitron data shows that radio reaches more listeners today than ever before. In addition, people tune in to radio for longer periods of time than they did 25 years ago — 30 minutes more per day. And all of this growth comes even though cable penetration now

By Stewart Yaguda stands at more than 60% (see

"Cable Can't Stop Radio Growth"). Throughout the past decade, much has been said about the "MTV Generation." MTV's first song was the Buggles' "Video Killed The Radio Star," implying that the new music-video network surely would kill radio. But that didn't happen - teen radio listening jumped nearly 30 minutes per person from 1992 to 1993, largely because radio programmed music formats such as Churban, Alternative, and Metal.

Within Reach

What's more, the splintering of TV - caused by the explosion of station choices — is helping make radio a more important advertising medium. As TV audiences become more and more splintered by the addition of more and more programming services, radio will become the only reach medium.

To a large extent, this is happening already, as evidenced by the rise in radio's share of national advertisRadio Listenership (Hours/Week) 21.0 17.5

Cable Can't Stop Radio Growth

adio continues to expand its listenership despite the proliferation of cable TV, according to the RAB/RADAR & Brand Rating Index (Monday-Sunday, 6am-midnight) and the National Cable Television

ing budgets. From 1992 to 1993, radio ad revenue climbed 9%. In 1994, spot revenue to date is running about 15% ahead of 1993.

Radio On The Road

The reasons for radio's durability are quite simple and prove how radio will fit into the Information Superhighway. Radio is mobile, and Americans spend less time at home than ever before because of society's quicker pace. We take vacations, we chauffeur the kids, we exercise, we shop . . . the American way seems to be on the go.

And it's radio that travels with Americans — in their cars, in their offices, and on the beach. While people explore the Information Superhighway, radio continues to be right there with Americans on the highway they travel most often: the interstate highway.

Solid 'Relationship'

Another reason radio's position will continue to become more important in the 21st century is that our medium will continue to be the "relationship medium." Radio listeners are loyal to personalities and stations, more so than consumers of any other medium. Radio listeners often tell us they feel as if their favorite air talent talks to them personally.

If you have any doubt that radio builds personalities in a crowded media environment, just consider the phenomenal success of Howard Stern and Rush Limbaugh. And remember that every market has its own radio personalities who command similar regional recognition.

In his 1970 book "Future Shock," Alvin Toffler predicted Americans would be faced with "overchoice" we would become overwhelmed by choices as changes in technology outpaced our ability to cope with

With so many people owning VCRs that blink "12:00," who can doubt the wisdom of Toffler's prediction? In a technologically complex environment, the need for a familiar face - that air talent who seems to know us - will become more important than ever as we seek communications comfort zones.

Technologically Active

Radio isn't just a sideline spectator in the communications revolution, it's active and successful in the development of new technologies, bringing us - and our advertisers closer to our listeners.

Stations have become quite sophisticated in developing listener databases to make audiences, in effect, station "members." Stations know who's listening and can follow up radio campaigns with direct mail to the same people who heard the radio advertising.

Radio knows what lifestyles its listeners lead. And we use this information to get closer to listeners by sending station-specific magazines with targeted articles, sponsor information, and discounts. We also have the technology to provide listeners with magnetic cards used to get music information and coupons for local retailers.

Digital Broadcasting

Stations do a great job utilizing special toll-free numbers, enabling listeners to access information about what they hear on the station; sponsor tie-ins are a major component of the lines. Meanwhile, the advent of digital broadcasting has enabled stations to transmit CD-quality signals.

The notion of the Information Superhighway is exciting, and there's no doubt it's coming. However, radio's proven record of endurance, its continually growing strength as a relationship medium, its ability to deliver excellent reach, and its aggressive move into new technologies will help it carve out a wide lane of its own.

PLAYING TO WIN.

wo years ago, Entercom's WDSY -- "Y-108" -- was Pittsburgh's number one and only Country station. So Entercom raised more than a few eyebrows by announcing plans to buy a second FM and reformat it as a sister Country station.

Apparently undaunted by this move, a major competitor took its FM station Country and launched an aggressive marketing blitz to challenge Entercom's franchise. Entercom responded with a relentless, multi-level marketing campaign and street attack that outmaneuvered, outspent and outhustled every move made by our competitor. In fact, the rival station's GSM, PD, Research Director and two top Account Executives left to join the Entercom team. Today, Entercom's Y-108 and WXRB - "The Rebel" -- rank a dominating #1 and #2 on the Country charts (Arbitron and AccuRatings).

That's just one example of Entercom's commitment to providing the backing our stations need to succeed. You'll find this same aggressive support system in place in our other markets, as well, under a variety of competitive circumstances.

We've attacked and defeated heritage market leaders to capture market-leading positions (KLDE/Houston & WKTK/Gainesville/Ocala). We've developed innovative programming to establish competitive franchises in crowded markets (KMTT/Seattle). We've seized opportunities to capture key market franchises (WYUU/Tampa). And we've aggressively defended format leaders (KITS/San Francisco).

We take pride in our stations' abilities to challenge the marketplace, innovate creative solutions and excel in their execution. And as one of America's few "radio only" groups with minimal debt, we have the management focus and financial resources necessary to support these

Oprah & Elvis — Missin' Cousins?

Salt Lake City genealogist working for the Globe has discovered that Elvis Preslev's ancestors owned Oprah Winfrey's slave forebears - and the stars may have even been blood relatives! Rod Stucker of American Research notes that her great-grandfather, Nelson Presley, may have been illegitimately sired by one of Elvis's distant relatives.

That would make Oprah and Elvis and Lisa Marie - and now even Michael Jackson - cousins! Who says there's no such thing as an American royal family?

Mailroom To Mogul

"It is still possible to be a Vanderbilt, an Astor, a Rockefeller. You can still do that - you can be Bill Gates, you can be Rupert Murdoch," says David Geffen in Vanity Fair's "special report" on "The New Establishment." He cites these moguls to illustrate the volatile nature of power in the waning days of the 20th century. Geffen is among the honchos singled out, as are Barbra Streisand, Time Warner topper Gerald Levin, and Viacom nabob Sumner Redstone.

Geffen also says he likes "to read about what's happening, to meet people who are doing things, to know what people are reading, what they're seeing ... I can't wait for my newspapers to be delivered. I can't wait for my new magazines to come."

Clothez Make The Boyz

Howard Stem and Prince make People's "Worst-Dressed List." while Barbra Streisand and Boyz Il Men are among the "Best-Dressed."

"People call us nerds and stuff," says Boyz II Men's Nathan Morris in Entertainment Weekly. "The good thing about that is, they're knocking us for what we are, not for a facade."

Sex Tot Things

tone Temple Pilots singer Scott Weiland tells Us, "I was obsessed with sex from the time of birth ... I used to have these girlfriends in the second or third grade, and we'd get naked and lie in bed and do just about anything you possibly could do having a three-quarter-inch penis. I mean, our options were kind of limited."

While listening to the new Carpenters tribute record, Richard Carpenter recalls his concerns about covering "Superstar" in 1971. "I was thinking, 'My Lord, here we are, the young, wellscrubbed duo. Should we be singing, 'I can hardly wait to sleep with you again'? So we made it be" (entertainment Weekly).

Platinum Ingrate

"We entertain people - what's wrong with that?" asks Green Day drummer Tre' Cool, bugged by the backlash to his platinum "punk rock" band. "It's not my fault that

you see me on MTV. You turned that shit on, didn't you?" (Us)

"Every story needs to be told," says Public Enemy frontman Chuck D, railing in Time against the proliferation of gangsta rap. "I just think the record companies would rather have that [negative] story told, and they're not accountable to our community. Personally, I'd like to go to the record-company presidents and challenge them to a fistfight."

The Most Spiteful Dad In The World

Prince's nearly destitute father, John Nelson, blasts his son for ignoring him and fumes, "I'm sure the whole world has noticed that he hasn't had a hit since I stopped writing the music for him" (Giobe).

Prince is reportedly negotiating to write the music for "Showgirls," a film from the "Basic Instinct" team of writer Joe Ezsterhas and director Paul Verhoeven (Time).

TECHNOLOGY*

Music Reference And Quotations Software Debut

oraga, CA-based Great Bear Software has introduced two Windows software products that might be of interest to R&R readers. With the "All Music Guide," a compendium of more than 34,000 album, tape, and CD titles from more than 6000 artists, users can search for artists or album titles or look up music by genre.

For example, a consumer seeking "greatest hits" packages from the 1960s can search by "196?" and "Greatest" to pull up a list. You can also search for collaborative efforts, albums from a specific label, or artists by instrument played. The extensive list of available search genres

includes reggae, blues, folk, Cajun-Zydeco, rap, and world beat, as well as more mainstream choices.

Critically Unclaimed

Searches can also be based on reviews from *Spin*, *Pulse*, *Stereo Review*, *Down Beat*, *Goldmine*, and other publications. A search can even be based on *how* an album was reviewed — the program can exclude material that received unfavorable notices, for example. Most artist entries sport a brief bio.

Yet the "All Music Guide" may find more users among consumer audiophiles than in radio. It doesn't contain complete track listings, and the only tracks mentioned are those in the reviews. That means a curious MD won't be able to determine where to find a needed song. Also missing: any quantitative tracking of songs or albums — thus, no chart positions for albums or tracks.

CompuServe customers might recognize the "All Music Guide" as an online service offering, but a Great Bear rep says the retail version contains more titles and a more powerful search engine. The \$59 software requires 9 MB of hard disk space, 2 MB of RAM, a mouse, and Windows 3.1

Who Said That?

Perhaps more useful to radio pros is Great Bear's "New American Library Of Quotes." Great for a talk show host, production director, copywriter, or exec needing a closing bon mot for a community luncheon, this software contains more than 10,000 quotes culled from "The New International Dictionary Of Quotations," Shakespeare's works, and the Bible.

Quotes can be accessed by author, source, keyword, or an extensive topic list. Once in a quote, a user can jump to a new topic by clicking on a cross-referenced work. The "New American Library Of Quotes" requires 7 MB of hard disk space, 2 MB of RAM, a mouse, and Windows 3.1. For more info, contact Great Bear toll-free at (800) 795-4325, ext. 400.

SOUND ENVISIONED

High Design In High-End Speakers

ith a trio of new products, **B&W Loudspeakers** and the related **Blue Room Loudspeakers** appear intent on altering the usual relationship between form and function. Their unique speakers, designed for audiophile use in either home or professional settings, actually use their shapes to improve their sound.

The fiberglass enclosures of Blue Room's two models, for example, resemble the Michelin man from the front and a seashell from the side. But the curved designs almost completely eliminate the diffraction effects commonly found in conventional speakers, while their geometrical rigidity delivers nearly resonance-free sound quality. These items use custom-designed B & W drive units.

The two-way "House Pod" carries a list price of \$1900 per pair, while the three-way "Techno Pod" goes for \$2500 a pair. The speakers, which are already in use in clubs and as studio monitors in Europe, are available in the U.S. on a direct basis from **Equity International**; (508) 664-2712.

B & W Nautilus

And now for something completely different ... B&W's \$35,000 per pair "Nautilus." Each snail-shaped speaker consists of 264 pounds of glass-reinforced plastic, copper, silver, wool, carbon fibers, and rareearth metals. The Nautilus's four dynamic drivers are housed in independent enclosures that use their curves, cones, and "antennae" to completely eliminate cabinet resonance and deliver virtually distortion-free sound.

For information on B&W speakers, call the UK company's U.S. headquarters in North Reading, MA toll-free at (800) 370-3740.

Time-Shift Your Listening

ired of the night engineer forgetting to tape the crosstown overnight shift? Want to tape a live radio broadcast when you're out to dinner? You may be interested in Reel-Talk, a "Radio Program Timer-Recorder" from Irvine, CA-based Reel-Talk Inc. that allows you to "time-shift" your radio listening.

The self-contained radio/recorder/tape player/alarm clock offers the timed recording convenience we've come to associate with VCRs. It allows for up to four hours of preprogrammed recording, using a standard C-120 cassette. Only one time/station can be programmed at a time.

In addition to 10 AM and 10 FM presets, the device offers a condenser microphone, auto-stop tape drive, and automatic line control for level recording.

It's self-contained, portable, and moderately sized: The base is 6.5 inches square, and the unit stands about a foot high. The liquid crystal clock and presets are

protected by battery backup, and the entire setup works off batteries or AC.

The only way to buy the item at present is to call (800) 766-8255. Cost is \$99 plus \$15 shipping & handling.

New Computer Program Provides Detailed Ad Traffic Reports

he new "Power Base 2000 For Windows" from Indianapolis-based Media Monitors Inc. gives radio sales departments a powerful competitive tool. The software can display detailed advertising information for your market from its database of more than 45,000 local, regional, and national radio clients — all in a matter of seconds.

Advertisers' schedules — generated from actual on-air spot moni-

toring — can be reviewed in precise detail for any chosen time period, including weekly, monthly, quarterly, or yearly reports. The information can also be configured to provide competitive market summaries by business categories or by stations. "Power Base" will also perform spot load and inventory analysis for any station, as well as detect advertisers who use a single station exclusively within a market.

Information is currently available for 17 top markets (with expansion

into about 15 additional markets on the company's agenda). The database is updated weekly, and customers can choose to receive floppy-disk updates weekly, monthly, or quarterly. The software requires a 486 or better processor and, of course, Windows. The software itself is available for sale, while database information is leased on a subscription basis, with pricing dependent upon the size of the market and frequency of updates. For more information, call Media Monitors at (317) 547-1362.

resident Clinton was expected to sign legislation this week to cut back the amount of on-air legal mumbo-jumbo required in auto-leasing ads. However, the bill had not yet made its way to the White House before ST made its way to the printer. NAB and RAB were backing the measure, saving it would mean \$50 million in additional radio advertising.

Don't jump the gun, though. Even after Clinton signs on the bottom line, the Federal Reserve and Federal Trade Commission will have to write new regulations before stations can begin airing simplified leasing spots.

Former WHFS/DC vet Damian Einstein — who took an abrupt leave of absence recently — joins as Local Music Dir. and midday host three days a week, Diane "Divola" Shank - likewise a former WHFS'er — joins for middays the other two days, and former WQCM/Hagerstown APD Sean O'Mealy takes on nights. 'XZL is owned by Jake Einstein, father of Damian and onetime owner of 'HFS.

When Rock WGCX/Mobile was purchased and flipped to Country WDWG early this week, crosstown WZEW immediately snatched the opportunity to own the album rock niche by dumping its Progressive format, applying for 'GCX's calls, and hiring its staff. On Monday (9/12), listeners who tuned to WGCX at 104 heard the message, "Rock 104 has moved to 92.1," which ran for 19 hours. 'GCX PD Andy Holt exits, as do 'ZEW PD Catt

'Shock' A Con?

Among the prospects Playboy Home Video is inviting to try out for its forthcoming "The Girls Of Shock Radio" are "radio's sexiest air personalities." However, a clue to the probable winners might be found in the list of other occupational groups the company's eyeing: "promotional models," "regular and occasional program guests," and that staple of all winning radio programs, "dancers." Any curious airstaffers - or radio dancers - might want to call PHV at (310) 246-4000 for more info.

Don Wasley was known by many as a longtime promo exec for MCA, Casablanca, and EMI before he left showbiz for highprofile gigs in shoe biz a few years back. Turns out he's remembered as favorite eighth-grade heartthrob by none other than Hillary Rodham Clinton, as chronicled in stories in Chicago magazine and the Chicago Sun-Times. Provincially enough, the articles insist Wasley has "dropped out of sight."

these things [labels] and thinking, 'Gee, wouldn't it be great if this was the way you could get things done?"

"I'm in the process of trying to put all those things in place. It's not by any means a rapid process." He noted, however, "There are a lot of really great people who work here, and there's a very underappreciated roster."

Prior to helming Polydor, the 37year-old Sigerson produced records by the Bangles, Tori Amos, David & David, and Olivia Newton-John. He's also been a solo artist. most recently as a member of the ad hoc group the Royal Macadamians, whose album was released on Island in 1990.

Glass, also 37, whose recent ascent at EMI paralleled Koppelman's own, told R&R, "I'm going to take a few weeks off to let the dust settle. I've already received a few calls offering some interesting opportunities.'

wide, while leading the charge into film and other forms of entertainment on this continent. He's been working with Dornemann and other BMG execs for some time as a consultant in many areas, especially the firm's entrance into new forms of entertainment.

"Strauss Zelnick is the type of creative and entrepreneurial executive we have been looking for," said Dornemann. "He has an extraordinary track record in the entertainment business. We are all very excited that this dynamic young executive will lead BMG to the top of the entertainment industry in the 21st century."

"The first challenge is to find a head for RCA Records and to reenergize and revitalize that label, which has many good things going on," Zelnick told R&R.

"Job No. 1 is making sure BMG's current assets are as strong and wellpositioned as they can be, and job No. 2 is to look beyond those assets at other areas of media and entertainment, and to consider prudent and judicious expansion."

'A Lot To Learn'

"I have a lot to learn about the record business," he admitted, noting nonetheless that while at 20th Century Fox, he was responsible for Fox Records. "My ability to manage and lead large and complex media organizations and to manage and motivate creative talent - those are the assets and skills I hope to bring to bear. BMG has an extraordinary collection of assets and executives, and I'm looking forward to working with the organization and management to improve and expand the roster."

Currently President/CEO of Crystal Dynamics, a producer/ distributor of interactive entertainment software, Zelnick will remain a Director of the firm (which BMG distributes in 37 countries). Before joining Crystal Dynamics, Zelnick, 37, held a series of senior posts at Columbia Pictures (1983-86). Vestron ('86-'88), and 20th Century Fox ('89-'92), where he spent his last two years as President/COO.

award-winning producer who is at the same time a highly respected music executive and industry leader," stated MCA Music Entertainment Group Chairman/CEO Al Teller. "Through numerous projects, he has helped to expand the audience for jazz around the world. Tommy's creative and management styles are perfectly suited to expanding GRP's legacy of excellence."

Rosen stated, "Tommy's past experience and great success with talents such as George Benson, Miles Davis, David Sanborn, Natalie Cole, Anita Baker, and others make him the ideal candidate to take GRP to the next plateau."

Calling GRP "one of the industry's greatest success stories,' LiPuma noted, "Its winning combination of top-quality artistry, stateof-the-art technology, and innovative marketing and business strategies has put it in a class by itself. I look forward to meeting the challenge of building upon this tremendous foundation and leading GRP into an exciting new future."

LiPuma has earned 18 gold and platinum records, three Grammys, and 30 Grammy nominations. He began his career as a Cleveland promo rep for M.S. Distributors. A year later he moved to Liberty, where he segued into publishing and demo recording. He became A&M's first staff A&R man in 1966. In 1970, he formed Blue Thumb Records with future Elektra Chairman Bob Krasnow, and in 1974 joined Warner Bros. as a staff producer. He returned to A&M in '78 to head Horizon Records, then went back to WB a year later as VP/Jazz & Progressive Music. Krasnow hired him at Elektra in 1990 as Sr. VP/A&R.

of explicit lyrics from songs by artists including Above The Law, 2 Live Crew, Ic: Cube, Snoop Doggy Dogg, and Geto Boys.

RIAA

A committee vote on the Pennsylvania proposal is scheduled for September 27. If the law is passed, retailers selling a stickered album to a minor would be fined \$25 for the first offense and \$100 for each additional infract on. The minor would serve up to 100 hours of community service at a domestic violence or rape crisis center.

"Passage of [Rooney's bill] would not only threaten the labeling program, but it would also hurt consumers," RIAA Director/State Relations Paul Russinoff testified in Monday's hearing before the Pennsylvania House Judiciary Committee in Harrisburg, PA.

'Half A Loaf'

RIAA members began voluntarily labeling recordings with explicit lyrics in 1985. The standardized warning sticker, which reads "Parental Advisory Explicit Lyrics," was

adopted in 1990. Rep. Rooney isn't satisfied, however. "That's half a loaf . . . they have the label, but then they turn around and sell the albums to kids," he charged.

Rep. Rooney "wants to use the label as an '18-to-buy' policy," said RIAA spokesman Tim Sites. That, he said, would be a "disincentive" for record companies to label recordings.

Other states have attempted to pass similar laws with no success, according to RIAA. Most recently, a proposal was defeated in April in Missouri.

stantial number of women and older men have found alternatives to play-by-play that don't include listening to radio.

Had the games resumed, the survey found, baseball stations could have counted on most of their listeners tuning back to the likes of Vin Scully, Jon Miller, and Harry Caray. But now that the season has been all but scuttled, stations airing play-by-play might not see their typical summer bumps, while music stations that appeal to young men might benefit as a result.

Stern Sabotage

Continued from Page 3 Alford acted on his own and is confident that any further investigation of this matter would reach the same conclusion."

WNCX VP/GM Walt Tiburski, noting that WMMS initially accused his station of staging the Stern sabotage as a publicity stunt, said he and his staff have washed their hands of the incident. "I have a great deal of respect for Bill [Alford] . . . I ap-

preciate and respect his decision to be honest. I hope he learns from this and won't be taken advantage of again. I feel vindicated because we clearly knew this was done by someone else.'

Tiburski added, "Dean Thacker stands with egg on his face based on the fact that they tried to put a spin on it. It was clearly them from the beginning.'

Thacker had not returned R&R's phone calls by deadline.

De Latte

The reconfigured department also welcomes George Silva as National Pop Promotion Director. Prior to his appointment, Silva was Elektra Entertainment's National CHR Promotion Director.

Meanwhile, Jim Davenport and Mel De Latte have been named Associate Directors/Pop Promotion for the Southeast and Southwest, respectively. Davenport previously served as Southeast Regional Pop Representative at Zoo Entertainment; De Latte was President of his own promotion and management company.

Commenting on Kargol's appointment, label, Exec. VP/GM Oscar Fields said, "I'm extremely pleased to have Mark join the Motown team. His strong relationships at pop radio will enable Motown to continue as a force at pop radio in addition to our strong R&B base."

"I grew up with the Motown sound, and to be a part of this legacy is a dream come true," Kargol remarked. "In the current marketplace, you must have the right players performing in areas best suited to their talents. By adding key personnel and repositioning others, we've put together one of the strongest pop promotion staffs in the business."

Kargol began his career in 1979 at United Artists Records. By 1980, he was handling local promotion for UA/EMI Records. Following a stint as Manhattan Records' National Promotion Director/West Coast, he became EMI's VP/Pop Promotion, West Coast in 1989.

Visotcky

Continued from Page 1

Visotcky told R&R, "Each station I've managed has done so well that nearly every one was sold out from under me. Since I left my heart and furniture in San Francisco, I know this is finally the place. There are a lot of talented, energetic people at the station. I guess we'll see how they can keep up with a manager as wild as they are."

Visotcky was most recently VP/ GM at crosstown KSFO-AM & KYA-FM. Previously, he held GM posts at KHIH/Denver, KRMX/ San Diego, and WMJI/Cleveland, and was GSM at KRFX/Denver.

The FCC also allows owners to maintain interests (up to 49%) in three additional stations per band if those facilities are controlled by minorities or small business entities. So far, that provision has been little used by group owners.

Chairman Reed Hundt asked the Commission staff to launch an annual study of ownership policies last year, but the first report is apparently still in the works at the Commission's Policy and Rules Division. Hundt said he wanted to explore whether ownership restrictions advance competition and access and whether the Commission was headed in the right direction with its ownership policies.

Ratings Rise: Format Is Alive & Kicking

Overall growth 9.25% this book; off 1.3% against Spring '93

CHR -- the format everyone said was dead a couple years ago — is far from it, according to the Spring '94 Arbitron results in the Top 100 markets. In total AQH shares, Pop CHRs were up 9.5% from the Winter '94 book, Rhythmic CHRs bounced up 8.2%, and overall CHR grew 9.2% for the book.

The Spring '93 to Spring '94 comparison was off slightly, with Pop down 2.1%, Rhythmic up 0.1%, and the format in the minus column by 1.3%. And while there were more CHRs down (59) this book than up (43), the downs were generally slight and the ups more dramatic.

No. 1 Club Members

Nine of the 117 CHRs (7.6%) in the Top 100 markets scored No. 1 12+ ratings. Those stations — with rankings in parentheses - were: WPGC/Washington (1-1), WNCI/ Columbus, OH (4-1), WKRZ/ Wilkes Barre (1-1), KBFM/McAllen-Brownsville (1-1), KQKQ/Omaha (1-1), WNNK/Harrisburg (1-1), WVKS/Toledo (2-1), KPRR/El Paso (1-1), and WSTW/Wilmington, DE (1-1). A total of 71 stations (60.6%) grabbed Top 5 rankings in their markets this book.

In the key 18-34 female demo category the format looked strong, with 31.4% of the stations attaining top honors and an impressive 78.3% ranking Top 5 in the demo. That's up from the Winter '94 showing of 74.7%. CHR's general refocus on 18-34s vs. 25+ demos, and a slight broadening of variety in music thanks to the influx of Pop Alternative crossovers, seems to have increased its overall appeal for young-adult demos.

18-29 Demo Growth

There's good sales news coming out of a just-released Interep Radio Store study (8/4/94), which shows the 18-29 demo poised to grow from 45 million to 47 million by the year

The survey also indicates that CHR/Rock is the No. 2 overall format preference for 18-29 adults, just

behind NAC and just ahead of AOR/ Progressive. Moreover, CHR ranks No. 1 with 18-29 women and fourth among men.

Programmers hearing about their "unsalable young adult demos" from sales departments can retort with these 18-29 facts:

•More than one of every three 18-29 adults has an annual household income of \$40,000+

•More than 43% of 18-29 adults own their own home

•Radio reaches an estimated 97%-98% of all 18-29 adults during a

•Radio has 11 million "heavy" users, compared to 11.9 million for magazines and only 6.7 million for cable on a weekly basis.

As the format continues to reinvent itself, as so many stations did this past year by refocusing on the tastes in music and lifestyle of the 18-34s vs. the 25+ audience, we can all look for even better ratings books and revenues in the months ahead. Good luck to all!

WDAS Fills Philly With 'Unity Week'

After 15 years of growth and service, WDAS-AM & FM/Philadelphia's annual "Unity Day" has expanded to become "Unity Week," an extended version of the Beasley stations' successful community affair. Here's my annual tribute.

Since its inception in 1978, Unity Day has always focused on family—the values, morals, and social interaction inherent in that unit. With time, attendance has grown from 50,000 to last year's record-setting 800,000. This year, attendance at the final concert Sunday (8/21) is believed to have exceeded even that number.

WDAS-AM & FM VP/GM Kernie Anderson explains the event's humble origins: "All this was started 16 years ago by Eugene Jackson and Sid Small, who owned 'DAS and Unity Broadcasting Corporation. The concept was to have a day when all people — African-Americans in particular — could come together for a day of fellowship, entertainment, and celebration — and I think we played a softball game. At that time it was held in a park.

"Over the years, the one-day event evolved into a 'Unity Weekend' and now a 'Unity Week.' The most important day of all was Unity Sunday — the day we set up shop on the Benjamin Franklin Parkway in Center City Philadelphia.

"We shut down the traffic in that 10-block area and set up six entertainment stages, nine pavilions, 200 vendors in 200 10-by-10-foot vending spaces, and 100 civic and community groups in their own vending spaces. We also had amusement rides for the kids and so on in that area. This year, Unity Sunday culminated a 12-day period of events."

tions, each supported by corporate sponsorship. Participating companies included Aetna, Bell Atlantic, CVS Drugs, Health Partners, Mercy Health Plan, Nissan, Oak Tree, the *Philadelphia Tribune*, Quaker Oats, and Rite Aid.

Here's a run-down of the main events. Monday (8/15) at City Hall, Philadelphia Mayor Edward Rendell officially proclaimed Unity Week '94 in Philadelphia.

This is no longer just the black radio

station doing something — this is a major

event to the people of the city

of Philadelphia.

—Kernie Anderson

Anderson concludes, "Something very special happened here. We got major newspaper and television coverage and participation from political leaders. People from all walks of life and different races came together — all in the name of Unity. Corporate sponsorship got involved to a very large degree. What this says to me is that this is no longer just the Black radio station doing something — this is a major event to the people of the city of Philadelphia, and we're extremely

proud of that accomplishment." Week In Review

And there's good reason for that pride: 14 different Unity Week func-

On Tuesday, station ND Dave Jennings led a multi-ethnic dialogue on the socio-economic issues surrounding racism at the Family Focus Forum. This year's event, themed "Claim Your Culture," was meant to reach out to all of the city's ethnic populations.

Friday's sold-out African-American Unity '94 Festival featured WAR, Me'Shell Ndegeocello, Chuck D of Public Enemy fame, and several local acts.

Saturday marked the fifth annual Unity IOK Run & 1-Mile Fun Run/Walk. Proceeds from registration and sponsors went to the William Penn Scholarship Fund.

Musical Madness

The event reached critical mass Sunday, when traffic stopped on the Benjamin Franklin Parkway to accommodate Unity Week's finale. The Jazz & Reggae Music Stage, the first of three music stages, featured Roberta Flack, Shabba Ranks, Supercat, Gil Scott-Heron, Lalah Hathaway, Gerald Albright, Bobby Caldwell, Beres Hammond, J. Spencer, and Tom Scott.

At noon, the gospel stage featured stars like the Rev. Daryl Coley, Vicki Winans, and Rev. Ernest Davis Jr.'s Wilmington-Chester Mass Choir, as well as local artists.

At 4pm, the main stage opened for business, featuring CeCe Peniston, Atlantic Starr, Tony Toni Tone, Aaron Hall, and Jamie Foxx. Awards were also given to local leaders in business, entertainment, sports, and community service.

Still More Stages

Also on Sunday, WDAS-FM overnighter Mimi Brown hosted the Cultural Stage, where entertainers from around the world performed. Once again, Vince and Yolanda Faust, hosts of the station's "Tips To Be Fit" program, captained a Fitness & Entertainment Stage featuring an array of bodybuilders, gymnasts, and other athletes.

A children's stage provided diversions for the younger set, and an Arts & Literary Pavilion featured a panel discussion among authors, a spoken word segment by Gil Scott-Heron, and a poetry contest.

'Pavilions Galore'

"Pavilions Galore" featured areas devoted to health, African tours the station has organized, senior citizen services, black inventors, non-profit community organizations, and antidrug efforts. At the latter pavilion, presented in memory of former WDAS AE Carlos Muniz for his anti-drug efforts, 60 anti-drug groups and law enforcement agencies distributed brochures and pamphlets about drug-related issues.

A business pavilion planned by the Minority Business & Enterprise Council and the Philadelphia Commercial Development Corp. showcased several organizations.

Home Run

A softball game closed the week, pitting WDAS-AM & FM's staff and family against Mayor Rendell and a variety of political, religious, and civic leaders, including U.S. Sen. Lucien Blackwell and State Rep. David Richardson. The final score? WDAS wrapped it all up, 9-8.

The Unity Week crowd was estimated at more than 800,000.

KJEE Debuts No. 1 18-34

Unprecedented start for Santa Barbara outlet run by three 'rookies'

What would you say about a station run by four people - three of them lacking any radio experience and the fourth a hands-on owner? Okay — what would you say if I told you it debuted in the Spring '94 Arbitron with a 5.6 12+ and finished No. 1 18-34? Meet KJEE/Santa Barbara, the format's newest success story.

This small-time, locally owned station has been banking on word of mouth and its own unpredictability since its sign-on six months ago. At first it played a different artist every day, ranging from James Brown and Bob Dylan to Christian music and reggae. But when listener response increased 300% after a day of popular alternative bands, the format decision was easy.

The owner had some capital, and with the overhead so low, he wanted to be almost commercial-free for the summer to help build our listening audience.

--- Eddie Gutierrez

KJEE owner James Evans has a degree in engineering, and he used technology to its fullest in building the station from scratch. Thanks to modern technology, he's had to hire just three people: GM Eddie Gutierrez, PD/MD Heather Luke, and APD/AMD Deanne Saffran.

Eddie Gutierrez Heather Luke

Gutierrez handles sales and promotions, Luke does all the station announcements, and Saffran directs traffic, answers phones, and voices commercials. Evans also puts in several hours on production and engineering. In addition, everybody does an airshift. The station is presently dark from lam-7am — the staffers have to get some sleep! — but Evans plans to add another employee soon and go to 24 hours.

Unique Automation

Since KJEE runs on a skeleton crew, it relies heavily on a unique automation setup. "Instead of broadcasting live off our automation system, we record everything," explains Gutierrez. "We bought Super Hi-Fi tape recorders and tape the music from the automation system onto blank nine-hour S-VHS tapes, which are DAT quality. We usually get a couple uses out of one tape. We use the same tape in different dayparts for about two weeks.

"We have a video camera taping the computer screen, which scrolls through the artist and songs from each hour. The IDs are recorded on the tape. We pause the VHS tape to run our spots on a mini-disc player or to do live input."

Incidentally, the staff just began doing airshifts a couple weeks ago. Prior to that, KJEE only ran ID announcements. Although the airshifts are prerecorded, most songs are front- and back-announced at the top and bottom of the hour. Luke notes, "We don't have many commercials, so we don't want too many interruptions."

The station began running two spots an hour this month. "The owner had some capital, and with the overhead so low, he wanted to be almost commercial-free for the summer to help build our listening audience," says Gutierrez. "We'll increase to four spots maximum per hour until next year."

'We'll Never Conform'

How did this low-profile start-up build its library? "We went to Morninglory [a local store] and picked out CDs we wanted. Instead of paying, we ran commercials for them," explains Gutierrez. "They were our only sponsor in the begin-

Luke explains, "We began with only 40 CDs and played a lot of Btracks, so we were able to educate a lot of people. What made us was the Smashing Pumpkins, Stone Temple Pilots, Ministry, and Nine Inch Nails. Whenever we got something new I'd put it on, because I

WDST Covers Woodstock

The station had its "magic bus" (I) painted for the event and kept it visible at events during the three months leading up to Woodstock. 'DST not only broadcast live from the psychedelic bus, it used the RV (r) as a production studio and place for station personnel to hang out.

s Woodstock '94's official radio station, Alternative WDST/Woodstock, NY was the only station doing continuous reports for the entire event. 'DST didn't miss a beat.

The station was visible at the festival from Tuesday-Monday, providing the local angle for the community and even broadcasting live from the 'DST "magic bus" (see photo).

"It was really cool doing the moming show and seeing everything go down," comments moming host Nic Harcourt. "We saw them put everything together. On Thursday, people started to arrive and we were surrounded by tents. By Monday, we were surrounded by trash."

Beginning Thursday, WDST

broadcast every airshift live from Woodstock. The station carried Media America's four-hour taped segment on Saturday and Sunday from 9pm-1am, "It was two events - culture for the area and music," notes PD Jimmy Buff.

"We wanted to tell people what was going on about the music. We had access from some of the areas backstage, and we phoned in reports. We got a lot of things backstage that weren't seen or heard about on pay-per-view. We grabbed a lot of the concertgoers and put them on the air."

66 hala adamin'i dia amin'i dia a

People here were tired of the same old stations, and there was a tremendous hole for this music.

- Heather Luke

Chrane abayeray was 99 wanted to play new music. As we've

gotten more CDs, we've focused on particular songs.

"We're all learning as we go along, but we'll never conform to what everybody says is right. Our most-played songs air two to three times per day. We play a wider variety because we don't repeat songs much. We don't want the listeners to hear the same song over and over. People keep tuning in because they don't know what song is next. We don't want to be predictable - we keep them guessing.

The sound of the station is up and down, up and down, so people won't channel-surf. If you don't like the song that's playing, you'll probably like the next one. That's how we keep listeners all day. We begin playing the heavier sound around 3pm, but not every day. Some days it might sound mellow, similar to mornings. Not having a steady flow of music has attracted people of all ages to listen."

Luke says the station is about 50% current and 50% recurrent. "We

don't play anything that's more than a couple years old. We tried throwing in the Go-Go's and early Eurythmics, and people called and complained, because they didn't want to hear things they could hear elsewhere. Every once in a while we'll throw in a greatest hits artist, like the Smiths, Sex Pistols, Red Hot Chili Peppers, Replacements, Psychedelic Furs, or Fishbone."

Word Of Mouth

So far, KJEE has done no marketing and very few promotions. The station handed out 700 bumper stickers at UCSB's Extravaganza Concert, and it's done a few nightclub appearances at two new alternative clubs that have opened since the station signed on. That's about it, other than a few shows.

'It's really been word of mouth," Luke says. "Santa Barbara is a small town that was dry. Anytime there's something new here, everyone's going to find out. All the newspapers wrote about us. People in Santa Barbara were tired of the same old stations, and there was a tremendous hole for this music. Alternative is really big now - not just stations, but the whole industry is growing. We couldn't have come on at a better time.'

DIRECT MARKETING

Clients, Listeners Can Read All About It In Station-Published Newsletters

Many radio outlets use direct marketing to target both retailers and listeners. And with today's desktop publishing software, it's easier and more cost-efficient than ever to issue a quality publication right out of the station.

WCMF/Rochester, NY GSM Tish Robinson says the station has produced a client-based newsletter for a year and a half. "Some of our AEs decided it would be a good idea to send a newsletter to their

Tish Robinson

clients, and they used desktop publishing software to put it together. It's been a good way to update clients on special station events. It also has served to high light clients involved with special features and programs as well as to show off successful results.

"We recent y put the newsletter under the marketing department's wing. Though much of it has been standardized, every AE can use the computer to make their own customized version of the newsletter. If AEs don't want to customize, they can just insert their name and extension number into the generic one."

Market Presence

Robinson continues, "Primarily, the updates position us as the market leader and source of information; they show we nave our act together. The united front is good — the same message goes to all our clients, so they hear about our promotions and events at the same time. It also lets clients see the positive results of our

events and helps spawn ideas. We can't always do the same promotion or event for everyone, but it gets people thinking and leads to other ideas."

WCMF's updates are mailed to clients, but Robinson says the subject of distribution has been widely discussed. "We debated doing a mass mailing, but our AEs like to tailor the newsletters with their individual names and client highlights. So we continue to have each AE send them out personally.

Every AE can use the computer to make their own customized version of the newsletter. If AEs don't want to customize, they can just insert their name and extension number into the generic one.

"The majority of newsletter topics are programming-related. We'll review our recent big promotions, followed by some sales-related columns—promotions or client updates. It's

a one-page piece, so it's quick and easy to read. Even though we do it all the time and we're used to it, it really is special. It's been a great tool to help keep clients involved with the station."

One-On-One Wizard

WIZN/Burlington, VT's motivation for a station newsletter was linked to its Wizard Card program (the Wizard is the station's mascot), GM Arty LaVigne says, "We've had the Wizard Card program for about nine years and have a database of 23,000 people. the Wizard Card involves both retailers and listeners: Retailers provide discounts or incentives for our listeners who have Wizard Cards.

"We believe in one-on-one marketing, so the Wizard World newsletter was an outgrowth of that. When listeners sign up for the Wizard Card, they're put on the mailing list for Wizard World, which gives information about the station, personalities, special programs, and music news. We run some on-air listening contests just for the Wizard Card holders and newsletter recipients. Once a year, we take listeners who sign up through Wizard World on a vacation. Afterward, it's a great vehicle for all the pictures from the trip.

"We even did some valuable research through it—the information from Wizard Card holders helped us with both the station and tailoring Wizard World. As we learned more about our listeners lifestyles, it also helped us decide which different events throughout the city to become

involved with. We always had thought our audience was very active — with high levels of skiing and outdoor activity — but the research really confirmed it."

There's a high demand for this type of marketing . . . I think it's the best way for a station like this — with a strong, loyal listener base — to communicate with its audience.

- Arty LaVigne

Enterprising Medium

LaVigne says Wizard World provides another selling tool for WIZN. "We get sponsors through the Wizard Card program who can buy into the newsletter and go from there. Through our database information, we know how to target our audience most efficiently for different adver-

tisers. We don't sell our database — that's our bond with the audience. We told them upfront that we'd never sell their information and that it was strictly between us and them."

Wizard World's eight pages reserve two places for ads: a half-page on the back cover and in the centerfold. The latter takes up the bottom quarter of the pages and consists of 18 rectangular boxes — just under $2\frac{1}{2}$ " × 1" — for ads. "The ad space is kept to a minimum to prevent reader turnoff, but advertisers still feel a positive impact from inclusion. Client response has been good. They like the unique vehicle it provides for their message as well as the association with a very high-quality newsletter.

"From what we've seen, there's a high demand for this type of marketing. Our last issue was published for Fall '93; we felt we needed to take a break to determine the newsletter's next level. But our readers have missed it and always ask when it's coming back, which will be early next year. The demand is there, and I think it's the best way for a station like this — with a strong, loyal listener base — to communicate with its audience."

"SUMMER' GOES BELLY UP — Nowhere is "Endless Summer" more apropos than in San Diego. So it's only fitting that Gary Hoey help celebrate the 20th anniversary of the Belly Up Tavern in Solana Beach. KIKK-FM Shifts From Gold To '90s Hit Music Format

■ New VP/GM Bob Moore explains the station's strategies

Ten months ago, KIKK-FM/Houston underwent dramatic programming changes following its acquisition by Westinghouse, owner of the city's top Country outlet, KILT-FM. Last week, KIKK-FM metamorphosed once again, shifting from an older-skewing, traditional Country station to "Houston's New Hit Country For The '90s."

Bob Moore

Last November (R&R 11/19/93), KILT-AM & FM & KIKK-AM & FM OM Rick Candea outlined a new duopoly strategy for the two FM stations. The plan was for KILT-FM to skew younger and, be-

cause of its tradition and heritage, for KIKK-FM to lean older. Candea felt that in its battle with KILT-FM, KIKK-FM had given up much of its heritage. Among the plans he detailed for KIKK-FM's repositioning:

- It was to be rebuilt with strong personalities
- The slogan "Sounds Like Texas" was jettisoned for an identifier the station had previously used for years "Proud To Be A KIKKEr"
- Jingles and other highly produced elements were removed from the
- Older records were added to the gold library, and the percentage of older music as part of the mix increased.

Since those changes went into effect, KIKK-FM has had two ratings sweeps. In the Winter '94 book it rose 4.7-5.5 12+, and its 25-54 numbers were up 1.2 shares. But its Spring '94 12+ share fell 5.5-4.7, and its 25-54 figures were off one point. Both figures dipped to Fall '93 levels, which themselves were one or two points below KIKK-FM's average shares of the last few years.

The Research Says . . .

The reasoning behind KIKK-FM's changes last fall seemed sound. So why is it changing again? First, KILT & KIKK VP/GM Bob Moore sees KIKK-FM's changes as an evolution of the format. "What we're doing is repositioning the brand based on the results of a massive research project conducted from February to July of this year. We saw a natural swing in the preferences of KIKK-FM listeners during that time which was very noticeable. There's à huge body of people who prefer KIKK-FM; they liked the station but wanted to hear more hits from the '90s. We were giving it to them 30% of the time, but they wanted it all of the time.

66

What separates us from other stations that play '90s hit country music is that our jocks won't have CHR or 'outlaw' attitudes.

99

"KIKK-FM's cume has never been a problem — it's consistently over 500,000. But our quarter-hour maintenance has suffered. KIKK-FM listeners told us they were going to KILT-FM or [crosstown competitor] KKBQ-AM & FM to get the songs they weren't hearing on KIKK-FM."

As a result, KIKK-FM's new music mix is 60% current, 30% recurrent, and 10% gold (from '87 on). It's also playing a lot of album cuts, some back to back.

Four-Pronged Attack

Moore says KIKK-FM is in the first phase of a four-pronged strategic plan to be unveiled over the next two months. The present phase is music-intensive and low-personality, with two stopsets an hour. Mornings are the only hosted shows for now; Country Jones remains in place. The rest of the day the music is separated by produced positioning sweepers voiced by Candea.

Phase two, expected to be complete by October 1, will feature the introduction of new personalities and revised music clocks. As part of its changeover, three KIKK-FM jocks are no longer on the air: middayer Joe Ladd, afternoon driver Jim Lago, and evening jock J.T. Spees.

Negotiations are under way with Ladd, who had been on the air at KIKK-FM for 27 years. Moore told the *Houston Chronicle*, "I don't think the audience would have accepted Joe doing the new hits [format]. He's a well-known country personality associated with KIKK in its former life. But he may remain with us in some other capacity."

Ladd told the *Chronicle*, "They've made me an offer I can live with, if I want it."

Describing the kind of personalities he wants for KIKK-FM, Moore says, "We want adult communicators— people who can very much be part of the community and understand the country lifestyle. KIKK-FM is an adult radio station targeting 25-44s.

"What separates us from other stations that play '90s hit country music is that our jocks won't have CHR or 'outlaw' attitudes. They'll relate to the listeners and their lifestyles in a complimentary fashion, as opposed to the 'putdown' style of the CHR format. The music and the people who listen to it are compassionate. The personalities on the station will have that same compassion.

"We want our personalities to reflect the passion today's country artists put into their music. It's hard to come out of that music and into a 22-year-old, cocky, arrogant CHR jock."

The third phase will begin with a concentrated marketing campaign, while KIKK-FM's promotional effort will be rolled out in phase four. Says Moore, "The plan is for KIKK to be the most marketed and promotionally active station in Houston."

Polishing The Boots

The new KIKK-FM appears to be aimed directly at KKBQ listeners. KIKK-FM's new liners include references to "Fresh Country," a phrase KKBQ has used on bill-boards around Houston for two years. Another of KIKK-FM's new positioners is "Houston's New Hit Country Station For The '90s," which is remarkably close to KKBQ's two-year slogan, "Houston's Hit Country Station For The '90s." And while KKBQ calls itself "93Q Country," KIKK-FM has become "The New KIKK Country."

The View From KKBQ

s you might expect, always-outspoken KKBQ-AM & FM/Houston PD Dene Hallam had a few thoughts on competitor KIKK-FM's changes.

"If imitation is indeed the sincerest form of flattery, we're very flattered. They've shamelessly copied word for word what we're doing on the air. It sounds as if somebody taped us, transcribed our liners, and inserted KIKK for KKBQ. But some of what they're doing sounds more like a parody than a competitive shift; it sounds like a 'Saturday Night Live' spoof of what we're doing."

Hallam does feel vindicated on a couple of levels, however. "Our on-air liners from day one have said that KKBQ was changing Houston Country radio forever. And now a Country mainstay since 1957 has made dramatic changes to come right

Dene Hallam

at us. Based on Mr. [KILT-AM & FM & KIKK-AM & FM VP/GM Bob] Moore's comments regarding their research, it validates what we've been doing the last two years."

66

I think they're shooting themselves in the foot. This move will hurt KILT-FM more than KKBQ.

99

Among Hallam's observations of KIKK-FM's changes:

- "KIKK-FM's heavies had been playing about 35 times a week. Now they're playing 10 or 11 times a day.
- [Midday personality] Joe Ladd is gone after 27 years. People outside of Houston may not understand what a truly major change that is.
- I'm not an engineer, but it sounds to me like the audio processing has changed dramatically. It's noticeably tinny.
- It sounds as if KIKK-FM is speeding up records even faster than either KILT-FM or us."

Asked for his take on KIKK-FM's strategy of coming right at KKBQ, Hallam says, "Bob Moore told the *Houston Chronicle*, '93Q was able to take some of the audience from KIKK. But now that KIKK is coming back to its role as Houston's cutting-edge Country station, I think it will have a major effect on 93Q' I think they're shooting themselves in the foot. This move will hurt KILT-FM more than KKBQ. KIKK-FM will go down in the ratings if they continue this course. They can play our music and steal our liners, but they can't copy our 'stationality."

"They're trying to create confusion in listeners' minds, but you can't fool all the people all the time. Listeners know where to go for the fresh new country hits in Houston — and that's 93Q Country."

Finally, Hallam isn't totally convinced in KIKK-FM's direction. "Personally, I still smell a smokescreen — and I wonder if it won't be 'Rockin' 95.7' before too long."

Referring to the format change, he says a listener recently called in to say, "I love the new KIKK. It just sounds like you're putting a little polish on the boots."

KILT-FM's Future

Moore indicated that KILT-FM would, for the most part, continue in its present direction; he's very happy with it the way it is. "We're very fortunate to own Houston's Country franchise with KILT-FM. It

While the music selection over the last 10 months has remained fairly consistent, there have been changes in rotations. Shortly after KIKK-FM's acquisition, KILT-FM upped its rotations. For instance, the plays per week for the heavies increased from the mid-30s to the mid-50s. The other rotations underwent similar adjustments. In the last few weeks, KILT-FM's heavies are back in the mid-30 range.

Format Footnote

September already has been a busy one for Moore, who arrived in Houston on the fifth to succeed the retiring **Dickie Rosenfeld** as KILT & KIKK's VP/GM. KIKK-FM's change came the next day, and that Thursday (9/8) Moore announced that KILT-AM, which has been "Rodeo Country" — focusing on the Country hits of the '60s. '70s, '80s, and a little of the '90s — was headed for an all-Sports format as an affiliate of the Dallas-based **Prime Sports Radio.**

If you haven't yet gotten the sense the Houston battle is escalating dramatically, take a peek at the adjacent story featuring a chat with KKBQ PD Dene Hallam.

250 A (CC 476)

There's a huge body of people who prefer KIKK-FM; they liked the station, but wanted to hear more hits from the '90s.

Moore says KIKK-FM is aimed at more than just KKBQ. "KIKK-FM's targeted at anybody between us and KILT-FM. This isn't just a situation of three Country stations — there are a lot of strong ACs here. My goal is to take every 25-44-year-old away from everybody else."

Although some of the slogans may be changing, Moore says KIKK-FM's legendary cowboy boot logo will remain: "It just says so much." owns many of the benchmarks—like the market's No. 1 morning shown with **Hudson & Harrigan** and 'Today's Country Hits, 12 In A Row'—that neither KIKK-FM nor KKBQ can knock off. KILT-FM is pristine in its imaging and is No. 1. KIKK-FM vacillates between fourth and fifth. So rather than give up KILT-FM's benchmarks to go after a younger audience, it made more sense to change KIKK-FM."

Decca Celebrates 60th With Series

In celebration of Decca Records' 60th anniversary, MCA has launched a series of pop, jazz, country, and rock releases from its sister label's extensive catalog, including a special box set retrospective of the late Conway Twitty's career.

The series kicked off on the Nashville side with the four-CD/cassette collection "The Music Of Bill Monroe From 1936 To 1994," released earlier this summer. That was followed by a comprehensive overview of Loretta Lynn's expansive career, "Honky Tonk Girl: The Loretta Lynn Collection," which hit stores earlier this week. It includes Lynn's early hits as well as some of her duets with longtime partner Twitty, such as "After The Fire Is Gone," "Lead Me On," and "As Soon As I Hang Up The Phone." Several of

those tunes also appear on "The Conway Twitty Collection," a four-CD retrospective containing 89 selections, including some rare, unreleased demos.

Twitty and Lynn also appear on "From The Vaults: Decca Country Classics 1934-1973," a three-CD box set featuring the musical legacies of the Carter Family, Jimmie Davis, Ernest Tubb, Red Foley, Kitty Wells, Patsy Cline, and many others. Also available among the new series of releases are expansive collections on Duke Ellington, Louis

Armstrong, Andres Segovia, and the Andrews Sisters.

Up And 'Running'

Radney Foster's cover of the Merle Haggard tune "The Running Kind" will be the first single from Arista/Nashville's Haggard tribute, "Mama's Hungry Eyes," due out October 11. The project benefits the Second Harvest Food Bank program, the largest charitable relief organization in America, which is coordinating food banks at Foster's forthcoming Albuquerque, Amarillo, Duluth, Rochester, and St. Paul concerts. Foster's second LP, "Labor Of Love," will be released during the first quarter of '95.

Chiseled In Stone

Randy Travis was immortalized in stone last week (at least part of him was, anyway) during his appearance on "The Tonight Show With Jay Leno." Leno, who is changing studios, had several guests - including Travis and "Beverly Hills 90210"'s Jason Priestly - stick their rear ends in cement for posterity. Travis, who is currently on tour, will appear in the film "Frank And Jesse" this fall. Incidentally, look for "Tonight Show" appearances this week by Trisha Yearwood (9/16) and Vince Gill (9/20).

Music Memo

George Strait's 21st release on MCA/Nashville, "Lead On," is set for release November 8. The new project includes songs penned by Terry McBride and Jim Lauderdale ("Nobody Has To Get Hurt"), Dean Dillon and Alabama's Teddy Gentry ("Lead On"), and WSIX/ Nashville morning team members Gerry House and Devon O'Day ("The Big One").

Ex-Bread member David Gates collaborated with Billy Dean on several songs on his new Discovery

LP, "Love Is Always Seventeen." "I Will Wait For You," "No Secrets In A Small Town," and "I Can't Find The Words To Say Goodbye" were penned by Dean and Gates, and Dean and Victoria Shaw contribute background vocals to several tracks. Lee Roy Parnell also adds slide guitar licks to "No Secrets In A Small Town."

Songwriter Jon Vezner has a new album on Liberty, "Who's Gonna Know," due out next month. The title track appears on Vezner's wife Kathy Mattea's latest CD, "Walking Away A Winner." The album also contains Vezner's version of John & Audrey Wiggins's current single, "Has Anybody Seen Amy" (which he co-wrote with Don Henry), as well as the sentimental hit "Where've You Been." Vezner also penned one of the songs, "Something Still," with Mary Chapin Carpenter.

Bits & Pieces

Congrats to Suzy Bogguss and husband Doug Crider, who are expecting their first child in March. Bogguss and buddy Chet Atkins will be touring the country in support of their new collaboration. 'Simpatico,' until December . . . Rhonda Vincent recorded a duet with Dolly Parton last week for Vincent's sophomore Giant/Nashville project. Parton reportedly is a fan of Vincent . . . Wylie & The Wild West Show are currently in Paris on a six-week headlining engagement at EuroDisney. The group will perform through October 30 during one of Disney's special events, "The Far West Festival."

PARTYING ONCE IN A WHILE - Blackhawk recently celebrated their first No. 1 record, "Every Once In A While," with industry friends at a party at Nashville's Sunset Grill. Enjoying the day are (I-r) Arista/Nashville President Tim DuBois, Blackhawk's Dave Robbins, Henry Paul, and Van Stephenson, and the label's Bobby Kraig and VP Jack Weston.

Background

Lisa Brokop has packed a lot of experience into her 21 years, considering she's already released half a dozen singles, garnered a major record label deal, and starred in a Hollywood film.

 The eager young Canadian has been singing for most of those years ("My mom says I was singing before I could even talk"). Her fervor for music began at age 7, when she joined her family's band. "Playing with my mom and brother gave me the start I needed, learning songs and knowing what it's like to perform in front of people. That gave me the idea that I liked it and it was what I wanted to do."

· When the family hung up its instruments, Brokop ventured out into the Vancouver community, learning guitar and playing whenever she could with local bands around town. At 15, she got her first break as a backup singer for a band that was going on the road. She stayed with them for over a year before forming her own band and exploring the possibilities of radio airplay. With her family's help, she released her first independent single; it remained on the Canadian charts for 25 weeks, setting a new record for a debut artist.

Nashville Connection

Brokop entered a radio songwriting contest and won the chance to collaborate with Nashville writer Peter McCann. They did, and McCann even produced an independent aibum for Brokop. Now the door to Nashville was open. Her manager later moved there and began circulating copies of the album she'd released.

Lisa Brokop

After performing for a group of industry execs at a 1992 showcase, Brokop walked away with a deal with Patriot a week later.

Curtain Calls

Although she'd never acted before, Brokop auditioned for the part of a backup singer in the movie "Harmony Cats." "That was really something different for me. I didn't have any acting experience, and the part came up through my agents, so I figured what the heck — maybe nothing will come of it, but it'll be good experience. So I went home, never expecting to hear anything, and then I got called back for a second audition. By that time I was thinking, 'Oh, no! What if I actually get the part?' And I did. It was probably one of the best experiences I've ever had."

 Brokop's album contains a song written by Conway Twitty | and Troy Seals, "One Of Those Nights." The LP's title cut is a Dave Loggins/Kenny Mimms composition. Although she didn't write any of the songs on her debut, Brokop recently signed a publishing deal with Warner-Chappell.

Danbury's G-LAD All Over

There's at least one classic Full-Service AC registering strong Arbitron numbers — without the benefit of Rush Limbaugh. Sixty miles from New York City, WLAD/Danbury, CT combines news, information, personalities, talk, Red Sox baseball (when applicable), and music.

Blocked By Gotham

Even if 'LAD were interested in carrying Limbaugh, it couldn't, since the show already airs in the ADI on WABC/ New York. "We don't have access to many quality talk programs that

Irv Goldstein

would bring us numbers," explains VP/GM Irv Goldstein. "If we could get a show like Rush, we might have a real shot at being number one 12+. If we weren't so close to New York, the chances are very good that we might have switched to all-Talk five years

The great thing about having a market-dominant station is there's lots of station value beyond sports.

"WLAD skews women. Many syndicated talk programs like Pat Buchanan and G. Gordon Liddy [target] men."

Being bombarded by New York and Hartford signals can be both a blessing and a curse. "It keeps some people who might have gone to FM on the AM band," Goldstein notes. "From a cume path standpoint, [NY Sports] WFAN is at 660, [NY Talk] WOR at 710, [NY Talk] WABC at 770, we're at 800, and [NY News] WCBS-AM is at 880. It's not a bad neighborhood to be living in.

'On the other hand, if we didn't have WCBS-AM in the market, we might be able to pick up another two shares of news and information listeners. These other stations, however, sell in a much bigger market at considerably higher rates. [WFAN's Don Imus] is selling at \$1000 a spot in morning drive. We try to offer a good local package at a much lower cost."

WLAD's sister FM, WDAQ, is Danbury's other AC and it tops the market among 25-54s and 35-64s. For national purposes, the duo is sold in combo, but, as Goldstein points out, "We have the same sales staff and separate rates. We don't force the combo, but about 70% of our business comes as combo buys."

Sticking To Music

True classic Full-Service stations are disappearing dramatically. Many have completed the evolution to Talk or, in some cases, to News/Talk. Such, however, isn't the case in Dan-

While 'LAD isn't based around it, music still has a place on the station. "We might play three or four songs an hour in morning drive," Goldstein says. "Midday, we can play as many as 10 an hour and about seven [per hour] in afternoon drive. Music's hardly the hook to the station. It's more like the glue that gets us from feature to feature.

Although 'LAD maintains a tight nine-song list, some current music picks could hardly be considered conservative. "We added 'Come To My Window' [by Melissa Etheridge] two weeks ago and have been playing [John Mellencamp's] 'Wild Night' and [Huey Lewis's] 'But It's Alright.' We beat most FM ACs on these songs."

Twice a year, Goldstein takes to the air in an "Ask The Manager" segment in which music is often discussed. "Strangely enough, people want to talk about it. We have an Otis Conner jingle package on the air and our presentation is very upbeat and contemporary. Only 25% of our audience is 65+. We're AC during the week and Classic Hits on the weekend."

baseball clients have been understanding during the work stoppage and 'LAD hasn't lost any revenue. "The great thing about having a market-dominant station is there's lots of station value beyond sports. We've put Red Sox clients into other

In addition to the Bosox, WLAD carries the NFL's New England Patriots and New York Giants, as well as the NHL's Hartford Whalers. Warm Winter Sales Ahead

Format execs predict business boom during last three months of '94

As summer yields to fall, Talk sales managers are turning their attention to the fourth quarter. So far, they like what they see — each manager I contacted was optimistic that the final three months of '94 will be a time of plenty.

"For us, business is booming," says WJFK-FM/Washington GSM Alan Leinwand. "I think our fourth quarter will be very strong. Right now, in fact, it's pacing to be one of the strongest in recent times. We're doing more upfront selling than I've ever seen in my career. We're booking spots into late October and early November."

Cashing In On Loyalty

Leinwand attributes the good times to WJFK's strong appeal to all segments of the 25-54 demo. The Infinity station features Howard Stern, G. Gordon Liddy, Don & Mike, and the Greaseman. Reports Leinwand, "We play well with advertisers seeking the younger demos and with those targeting the full 25-54 demo."

According to Leinwand, 'JFK also benefits from one of Talk's greatest attributes: the power of personality. "We have a lot of advertisers who are getting great results from their association with our air personalities—and the loyalty of the audience."

Among the station's hot categories: banking, automotive, beer (thanks, in part, to the new "ice" products), and soft drinks (also driven by new product introductions).

'Bullish' Outlook

WOR/New York VP/GSM Vincent Gardino is also high on his station's prospects. "I'm pretty bullish on fourth quarter. We've had a good

Vincent Gardino George Green

year and a good summer, which is unusual in Talk. September also looks very strong."

Gardino expects food and financial to be major categories in the fourth quarter. Automotive, he notes, will be less important than at other stations because WOR skews female.

Although its too early to gauge whether any categories will disappoint in the coming months, says Gardino, the political category is underperforming.

Politics Pay

That's not the case at WWDB/Philadelphia. GSM Dan Sullivan says a plethora of hot political races are helping drive the station towards double-digit growth over 1993's fourth quarter.

According to Sullivan, the station is riding high on radio's comeback wave and seeing nice increases in virtually every consumer category. Health care and health services, he says, are especially robust.

Recession Recovery

KABC-AM & KMPC-AM/Los Angeles President/GM George Green says both stations will fare well in the final quarter of '94. "We're in good shape, running well ahead of last year."

He attributes the growth to the fact that Los Angeles is "slowly coming out of the recession." What's more, he adds, L.A. TV is oversold — and radio is catching the overflow dollars.

Green says airlines, banking, and retail are doing particularly well; retail benefits immensely from the addition of a co-op advertising specialist to the sales staff.

TV also is part of the reason WFLA/Tampa LSM Chuck Deskins believes his station will do well in the coming months. According to Deskins, a recent spate of network affiliation changes has prompted a significant surge in radio spend-

ing by local TV stations. "We expect that to continue through November. December, and into the first quarter of '95."

Deskins says political advertising also is helping push the station towards what he hopes will be doubledigit growth over the same period last year.

'Cautiously Optimistic'

WTAE/Pittsburgh Sales Manager Kathy Wallace was somewhat more subdued in assessing her station's short-term future. "I'm cautiously optimistic for the fourth quarter. We're currently pacing ahead of last year. We have Steelers football and Penguins hockey, which tends to spur things." She expects automotive and beer to be among WTAE's most active categories.

Wallace's skittishness is prompted by the station's comparatively weak summer, which she's tempted to blame on a lack of hot talk topics. "There weren't many hot issues this

summer beyond the O.J. [Simpson] case. True, you had the Haiti and Cuba situations, but those aren't issues that spur a lot of passion in Pittsburgh."

THE FORMAT GOES GLOBAL

Tropical Moon-FM: Cool Jazz In Hot Climate

Like other aspects of U.S. pop culture that are exported to the rest of the world, the scope of NAC radio and music is spreading. It can now be heard in Japan, Southeast Asia, and Europe. And thanks to Panama's **Tropical Moon-FM**, it's also growing in Latin America.

Luis Endara Jr. is responsible for putting the fulltime NAC station on the air nearly three years ago. Endara's inspiration for signing on Tropical Moon-FM came from his 16 years working for a broadcast engineering firm based in Miami, where he became an enthusiastic NAC fan while listening to that market's WLVE (Love 94). "I liked the music and the mood it created. Some thought the decision to go NAC was crazy, but not our attorney and banker, who both supported the concept and continue to participate in station activities and operations."

Salsa Alternative

The decision to install an NAC format was a courageous one in a tropical country where 90% of all radio stations broadcast salsa music. "We contacted internationally rated advertising agencies that operate in Panama, such as Lintas:BBM and Ogilvy & Mather, to sample their interest. They liked the NAC idea and were willing to be supportive. We also found that many people in other professions, like lawyers and PR executives, had vast personal record and CD collections even though there was only a one-hour jazz block on the local Salsa/Rock station and a weekend AFRTS show that featured the music.

"With most of the basic elements in place, we launched Tropical Moon-FM in November 1992. Our assigned call letters are **HOUO**, but stations in Latin America traditionally identify themselves by a commercial name.

"We operate 99% by a Desk Jockey automation system tied to Results Plus by [consultant] **Donna Halper**

If radio is 50% creativity and 50% emulation, we've used up a lot of our emulation allotment during our start-up.

to select from among 1750 titles in four different databases. We broadcast from our 3100-foot ASL transmission station with a 2kw transmitter, which covers at least 40% of the national territory. We are planning a second leg of STL in the next month."

And The Kitchen Sink

"Being automated allows us to work with a very small staff," Endara explains. And small facilities as well. "Our station is installed in a two-bedroom apartment. The heart of the station — the automation computer and CD players - is in the maid's room. The production studio and sound chamber used to be the laundry room. The backup transmitters, STL, and RF switching are conveniently and compactly installed in the maid's bathroom. The kitchen is the operations room for Power 104, an automated CHR FM administrated under contract by our

"The rest of the facility is used for administration. Because we are on the second floor, when artists, personalities, or political figures come up for a visit, we have to throw a key over the balcony so they can get in."

Program Potpourri

While a majority of the station's weekday programming is automated by computer, Endara notes that the station runs a fair amount of specialized live programming. "We break for 'Truth In The Stars,' a show that mixes NAC and astrology and has a large female audience. In middays, we offer an hour of traditional jazz with 'Jazz and Culture.' On weeknights, when Tropical Moon-FM competes most heavily with television, we present an array of programming designed to capture the variety our NAC and jazz fans want.

"Twice a week, we run a two-hour version of Art Good's 'Jazz-Trax.' On Tuesdays, we broadcast 'Planeta Tierra' [Planet Earth], which combines NAC music with ecological news and topics. Wednesdays we begin to break the week in half with 'Temple of Latin Jazz.' We continue the jazz party feel with 'New Music Thursday', hosted by MD Lou Kay. He plays new releases, has a CD contest in conjunction with Allegro Music store, does a countdown of the R&R NAC Top 10, and more.

"On weekends, everything changes in Panama. People head to their beach houses or other resorts outside of the capitol. Since their habits change, Tropical Moon-FM changes. We run 10 hours of Latin jazz, four hours of Sinatra — who is beloved by our audience — and on Sundays, five hours of Brazilian jazz."

Who's Listening

Endara says his station attracts very desirable demographics. "Our audience is mainly composed of 25-50-year-old educated professionals who occupy high positions in their industries. In Panama, there is a vast immigrant population and a large group of U.S. citizens related to the more than 40,000 Armed Forces in the Canal Zone. We also have a large middle class that actively participates in our contests.

"Since we do not have ratings services like **Arbitron**, clients sample customers directly about their listening habits. Customers might be approached in a retail business, in a restaurant, or by phone. Ad agencies will sometimes seek out members of a demo to sample on behalf of a potential radio advertising client."

NAC Music Sells

"We are having a significant effect on the music sales in this country. [Music stores] Allegro and

Local record stores now stock NAC music based on our airplay. Our listeners no longer have to rely on joining U.S. record clubs or wait until friends travel to the States with an NAC shopping list.

Multimusic now have sections devoted to NAC/Brazilian Jazz and Latin Jazz, which they stock based on our playlist and R&R's NAC chart. Our listeners no longer have to rely on joining U.S. record clubs to order the CDs they want or wait until friends travel to the States with an NAC shopping list. We keep our computerized music logs for 30 days so listeners can learn all the song information they need to buy a title, along with the catalog number and label. We acknowledge CDs sent by U.S. labels and inform them of rotations

country, featuring great names like Special EFX, Spyro Gyra, Roberto Perera, Chick Corea, and Tito Puente. Tropical Moon has also been influential in presenting Wednesday night jazz concerts at one of our leading nightclubs, Zaguan. Several other clubs are also booking NAC and jazz artists now.

"There is still so much for us to learn. We travel as much as we can and have been fortunate to make contact with people like WLVE PD Rich McMillan, who spent a great deal of time teaching us the basics, and WOTB/Newport, RI PD Bill Gray, who was referred to us by Donna Halper and gave us pointers on blending music and working with the music categories.

"We listened to WNUA/Chicago for many hours during training sessions for our automation system, and we heard KOAI (The Oasis)/Dallas during the 1993 NAB meeting. If radio is 50% creativity and 50% emulation, we've used up a lot of our emulation allotment during our start-up.

"We have sought out program producers, like American Public Radio, BBC, Alfredo Cruz's 'Latin Jazz Cruise, the 'Ramsey Lewis Show,' and others, because we always want to improve the quality of our product. But we have found it difficult to close deals because of contractual reasons, copyright matters, or high program fees. Some of our contacts send us recorded IDs or holiday greetings inviting our listeners to tune to their stations when visiting the U.S. We also name other NAC stations - not only in the U.S., but in Mexico, Guatemala, and Venezuela. We hope to continue opening new contacts to strengthen our format and offer our audience a first class NAC station."

Editor's note: Tropical Moon-FM would be grateful to receive NAC and jazz service from U.S. record labels. Product can be sent to:
