## SMASHING PUMPKINS "ADORE," VIRGIN

The pulsating backbeat of "Ava Adore" is pounding on 125 Rocks and 105 Moderns, as Billy Corgan and crew bully past the competition to 6\* Active, 5\* Modern. Top 5 phones ensue at 15, including WBZX, KATT, KPNT, and KFMA. The Grammy-winning Pumpkins once again prove they're versatile Rock changelings, never satisfied with status quo, pushing their singular sound ahead. While the volume and tone are dialed down on *Adore*, there's no shortage of strong radio futures. The "1979"-ish "Perfect" is just that, hence its designation as single No. 2. "Daphne Descends" haunts with a classic Pumpkins chorus, "Pug" has a sound tailor-made for Alternative, high drama prevails on "Tear," and the airy melody of "The Tale Of Dusty & Pistol Pete" still floats in your head long after the song ends. Also get into the futuristic "Apples And Oranges" and the Rock epic "For Martha."

## RANCID "BLOODCLOT," EPITAPH

For those of you who don't know who Rancid is, here's the *Cliff Notes* version of the band: Rancid, who formed in California in 1991, first get the attention of radio with their second album, 1994's *Let's Go*, which features "Salvation." After turning down huge deals from major labels, they release their third album, *...And Out Come The Wolves*, a year later. The album, which features their hugely infectious hybrid of Punk, Ska and Reggae, ships over 850,000 copies and spawns the hits "Roots Radicals," "Time Bomb" and "Ruby Soho." Which brings us to 1998, and "Bloodclot", the first single from their highly anticipated new album, *Life Won't Wait*. A raucous rocker reminiscent of the Who's "I Can't Explain," this song will bring the band their first mainstream Rock hit in addition to the massive Modern airplay it's bound to get. They'll also be on the Warped tour this summer, so crank this summer anthem up pronto!

## STORYVILLE "BORN WITHOUT YOU," ATLANTIC/AG

Nothing epitomizes the sound of Austin better than Storyville. Featuring the rhythm section from Stevie Ray Vaughan's Double Trouble (Chris Layton and Tommy Shannon) along with ex-members of The Mavericks and John Mellencamp's band, Storyville's is a sound

steeped in that fabled Texas city, bridging the gap between down-home Rock & Roll and R&B. "Born Without You," the lead track from their forthcoming *Dog Years* set, is a great reminder to radio of the magic this band crafted on their two previous albums, *The Bluest Eyes* and *A Piece Of Your Soul*. Anchored by Layton and Shannon's sturdy playing and the just-rough-enough vocals of Malford Milligan, "Born Without You" is sure to take this worthy Rock act to the next level. Getting the story early are KLBj, KRZZ, WDHA, WWCT.

## LITTLE FEAT "LOCO MOTIVES," CMC INTERNATIONAL

Though Lowell George may be long gone, his spirit still resonates through Little Feat's work in a big way. Their new track, "Loco Motives" is southern-fried, sonic proof. Chugging along like a freight train out of control, "Loco Motives" cooks like a mother, and certainly doesn't skimp on the trademark Dixie boogie this legendary outfit is famous for. As they proved in the late '80s with hits like "Let It Roll" and "Hate to Lose Your Love," a little time out of the spotlight won't hurt your audience's appetite for new music from Little Feat. They should be all over "Loco Motives" in a hurry. From the forthcoming album, *Under The Radar*.

## ANTHRAX "INSIDE OUT," IGNITION

Put aside your preconceived notions of Anthrax and listen to "Inside Out," the first single from their upcoming album, *Volume 8: The Threat Is Real*. Sure, Anthrax (who has six gold records) is looked upon as a "Metal" band, but so were Megadeth and Metallica at one time, and today those two bands fit Active Rock stations like a glove (or a studded wristband, if you will). Featuring a thick guitar riff that dares you not to nod your head, an acoustic guitar verse fleshed out by percussion, and the catchiest chorus the band's written, "Inside Out" has "Active Rock Smash" written all over it. Already on WAZU.

## ROY ROGERS "YOU CAN'T STOP NOW," POINTBLANK/VIRGIN

*Rolling Stone* has called him "One of the rare guitar heroes who values feeling over flash." American Roots Rocker Roy Rogers is feeling pretty good about himself these days. He claims

to have finally put together an album that has truly inspired him, mainly because of the experience of co-writing a number of the songs with different people on his new album, *Pleasure And Pain*, in addition to getting friends like Sammy Hagar to lend vocals as is the case on this ultra smooth rocker. If you like the combination of acoustic and electric guitars, you'll fall in love with "You Can't Stop Now." We did.

## THE PISTOLEROS "THE HARDEST PART," HOLLYWOOD

Co-written by the late Douglas Hopkins (of Gin Blossoms fame), "My Guardian Angel" helped put The Pistoleros of the radar screen. Led by brothers Lawrence and Mark Zubia, whose childhood in Phoenix was rich in Chicano culture and filled with music, The Pistoleros upbeat Rock N' Roll is mostly inspired by tragedy and heartache. But to be honest with you, "The Hardest Part" is just a flat-out Pop/Rock one-listen hit song. KDKB is already convinced.

## BIG HATE "SUGAR GLIDER," A&M

"There's a lot of tension in the world," Big Hate bassist Adam Stanger remarked. "But you can take tension and turn it into a positive." That positive turn has resulted in a fine debut for this New York based quartet. Big Hate blends heavy Rock agitation with an inviting, evocative melodicism. In a musical era saturated with the sweet strains of Brit Pop and whimsical quirkiness of Modern Rock, it's about time that some '90's-style guitar-based aggression came bursting through. "Sugar Glider" will do the trick.

## FAR TOO JONES "AS GOOD AS YOU," MAMMOTH

Whatever happened to the Tommy Petty & The Heartbreakers-Gin Blossoms-Byrds-early REM sound? Has classic American guitar jangle n' harmony walked quietly into the sunset? Not if Raleigh's Far Too Jones have anything to say about it. This track has proven its programming value at WDCG, Raleigh's top-rated radio station: No. 1 phones and top 5 callout for two months. The band sold 4,000 CDs before Mammoth signed them and have played numerous sold-out shows throughout the Carolinas. They have a base, a compelling proven sound, and label support. The only missing element is you.

## DEPTH TRAX

### CREED "WHAT'S THIS LIFE FOR," WIND UP/DMG

Following up not one, but two, Number 1 singles is not an easy task. But, then again, Creed is not an ordinary band. The story has been told before but is worth repeating. Their debut, *My Own Prison*, was recorded for less than \$6,000 and the album has since gone platinum. Not bad for a bunch of kids from Florida. "What's This Life For" is a no-brainer for the entire Rock panel. Already getting a jump start on WIYY, WNOR, KEGL, KILO, WTPT and many others.

### RICHEL SAMBORA "UNDISCOVERED SOUL," MERCURY

On this, the title track from his new album, Richie Sambo: a tells the story of hope. "An undiscovered soul in the great unknown..." Once a name always a threat, Sambora is a high profile yet low key Rocker. On his sophomore effort he eases away from the Blues and works on perfecting his songwriting. With the next Bon Jovi album still a year away, let's enjoy the fruits of Richie's labor. Early action on KSHE.

# CD Aircheck Vol. 35: Absolutely Raging Production

You slave hour after hour over a blistering hot digital work station, cranking out an endless stream of production pieces so visceral they make *Natural Born Killers* look like baby cereal. Your work airs, the PD smiles, then it ends up in that great digital archive in the sky, never to be heard from again. Unless you send it to fmqb and breathe new life into your cranium-blasting production. Now your best studio wizardry can be reborn and live forever on *Absolutely Raging Production*, Volume 35 in fmqb's lauded CD Aircheck series.

Here's how: Comb the archives, raid the studio and bring back the pieces that howl, thunder, roar, fume, boil, bubble, churn, seethe, steam and froth. (Vapid pabulum not allowed.) Make sure each piece submitted fits one of the SEVEN categories to the left. Include no more than TWELVE pieces total. Dump 'em on DAT. Follow the guidelines at the bottom/left of the page. Throw in a station logo and a cue sheet listing each cut, its length, category, and who wrote, voiced and produced it.

Send your package to fmqb

The Tracking Report is weekly national call-out research of 45 Active, Alternative, and Mainstream Rock Radio currents. Titles tested are compiled from submitted client playlists. Results in The Tracking Report are based on interviews conducted with over 400 rock radio listeners across the United States in rated markets. The research is conducted using random digit dialing and music is tested via "song hook" methodology. Respondents must be Active, Alternative, or Mainstream Rock Radio listeners between the ages of 18 and 44. Cluster Groups are determined using music montages to isolate each listener's music preference type. **Grade:** An index based upon combined MRI, Burn and Unfamiliarity Scores. **Music Response Index (MRI):** Appeal of each song within the indicated sample group on a 0 to 110 scale. **Burn:** Percent of the indicated sample that claims to be "tired of the song." **Unfamiliarity:** Percent of the indicated sample reporting "don't know it." ### Modern Rock Shakeup In San Francisco Stern & KOMÉ Management Replace Live 105 Vets CBS And Jacor Swap Stations

KOMÉ's programming and management team are migrating north to Live 105, and Howard Stern's making the move with them. Out in the shakedown are 15-year KITS programmer **Richard Sands**, APD/mid-day man **Roland West** (a 10-year station vet), and the relatively new morning team of **Johnny Steele & Laurie Thompson**.

Here's the new KITS braintrust, effective May 27:

- KOMÉ VP/GM **Jim Hardy** takes the same title at Live 105, replacing **Pat McNally**, who exited in

early March after eight-and-a-half years with the station.

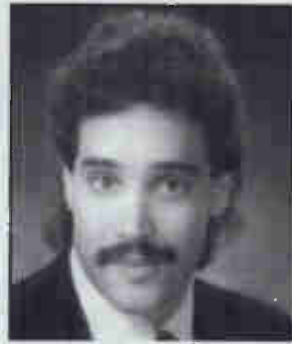

- KOMÉ OM **Ron Nenni** and PD **Jay Taylor** inherit the same positions at KITS.

- **Aaron Axelson** remains as KITS MD.

Howard Stern will start on Live 105 on Monday, June 1. *Loveline*, featuring **Dr. Drew** and **Adam Carolla**, will also be heard on Live 105 at a later date. Afternoon talent, **Big Rick Stuart**, will remain as part of the new line-up on Live 105.

Unclear is the formatic future of KOMÉ, one of **Mel Karmazin's** original Infinity properties. (CBS may choose to hang on to the KOMÉ call letters.)

At *fmqb's* deadline, CBS and Jacor orchestrated a swap of stations. Under the terms of the swap, Jacor will receive

Ron Nenni

from CBS: WOCT-FM and WCAO-AM/Baltimore; KSD-FM and KLOU-FM/St. Louis; and KUFX-FM and KOMÉ-FM/San Jose. CBS will receive from Jacor: KMJZ-FM and KSGS-AM/Minneapolis; and WHOK-FM, WLVQ-FM and WAZU-FM/Columbus.

### Stern Stalker Subdued

The story first broke in *The New York Daily News* on Tuesday (5/26), and later that same morning **Howard Stern** confirmed on his nationally syndicated morning show that he was indeed the target of numerous death threats recently by **Michael Lance Carvin**, 43, of Las Vegas, a deranged "fan" who was indicted in Manhattan Federal Court earlier this month on eight counts of using the U.S. Mail to make death threats against the "King Of All Media" and his wife, **Alison**.

Carvin, currently being held for psychiatric evaluation, allegedly sent a number of threatening postcards, letters and packages to Stern's New York offices. The first letter was received in March, and according to court papers, referred to Stern as a "Dead Man Walking" and warned "I will absolutely, without a doubt, kill you. And this is 100% guaranteed." A postcard Carvin sent to Stern said, "I've been thinking about the various ways in which to kill you. How do you feel about a bullet to the brain? I also have other methods to kill you, which I'd rather not detail to you for obvious reasons. See you soon Dead Man." In April, Stern also received a letter containing a fuse and a flammable material with a note that read, "You can get your head blown off opening the mail."

The indictment against Carvin also claims he targeted Stern's wife, **Alison**, by threatening to "slit her throat." Carvin also allegedly sent a postcard with the words "Alison is dead" written six times over. The final letter from Carvin contained a picture of Alison with a knife piercing through it.

Carvin was arrested April 29 at his brother's home in South Carolina, where a federal magistrate ordered him held pending a 60-day psychiatric evaluation. He was indicted in Manhattan on May 4.

This is not the first time Carvin has been arrested for threatening a public figure. In 1975, he was held for pulling a gun on then-presidential candidate **Ronald Reagan**. He was

### Picozzi PD, Arnold VP/GM At WCCC

WCCC/Hartford afternoon driver **Michael Picozzi** has been named PD of the Active Rock AM/FM simulcast. Picozzi replaces **Ron Dresner**, who left the station last Friday (5/22). Meanwhile, Dame Media Group GM **Boyd Arnold** assumes the position of VP/GM at WCCC.

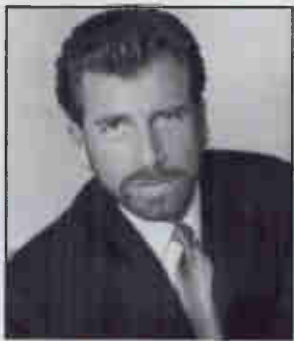

"I don't want to sound like I'm sucking up, but, boy do I love Marlin Broadcasting!" Picozzi told *fmqb*. "We consider ourselves the only Rock station in Hartford. There's lots of Oldies stations and lots of Top 40, Dance stations and there's only one Rock station and we're gonna hammer that home."

Picozzi and Arnold gain their new titles as new owners, Marlin Broadcasting, take over ownership and move the station into the old WHCN studios (*fmqb* 5/22), where Arnold and Picozzi worked together in the past.

Picozzi joined WCCC after an eleven-year stint anchoring the

### After The Block Rocking Deal, What's Next For Music's New Superpower?

Edgar Bronfman, Jr.

One week after the \$10.6 billion deal for Seagram to acquire PolyGram was announced (*fmqb* May 22), employees at the labels involved - especially those within PolyGram Music Group - wonder what the future will hold. Seagram topper **Edgar Bronfman, Jr.** indicated that the combined company's new music hierarchy will be determined before the end of June, in an interview with the *Los Angeles Times*. Universal Music Group Chairman/CEO **Doug Morris** would seem to be the hands-on favorite to head the new music empire, having overseen the successful launch of Universal Records, the rebuilding of MCA

Records, and the acquisition of Interscope. Bronfman declined comment on the future of PolyGram Chief Executive **Alain Levy** at last week's news conference, saying, "We're not going to comment on any individual, no matter how senior or how impressive." Noting that not all top executives would survive the merger, Seagram's 43-year-old president added, "Our hope is that we're going to be able to bring the best of both organizations together."

Whatever the outcome, massive restructuring is expected at the world's new music superpower. "They'll throw out as many bodies as they possibly can," an unidentified former executive at Universal told *Reuters*. "You're going to see entire labels being closed or folded... they're going to have to extract maximum cost synergies out of this, and that means cut, cut, cut." Bronfman has said he can cut \$275 million to \$300 million in operating costs annually

## Davis Upped To National Director At MCA

Jeff Davis

MCA Southeast Regional rep **Jeff Davis** has been promoted to the position of National Director/East Coast at the label. In his new capacity, Davis will oversee the label's radio promotion activities at Rock and Alternative stations along the east coast. He will continue to be based in Atlanta.

"Jeff's my Kordell Stewart," MCA Sr. VP **Nancy Levin** commented. "He can quarterback or he can run the ball in himself... and he never gets injured at his desk."

"I want to thank Nancy Levin, [VP/Rock Promotion] **John Sigler**, and [VP/Alternative Promotion] **Lisa Cristiano** for their support and confidence in me all along," Davis added. "The label has incredible leadership right now, as well as the best promotion staff on the planet. I think we're moving in a positive direction. I'm especially excited about the new music coming up from Gandharvas, the Murmurs, Five Easy Pieces, Lyle Lovett, and Live."

Davis began his music career in radio, serving in various capacities over a 12-year period, including on-air positions at WPFM/Panama City and WGLF/Tallahassee. In 1988 he accepted a promotion position with Elektra Records. Davis later worked for Impact Records, joining MCA Records in 1992.

also convicted of issuing threats to former President **Gerald Ford** and Vice President **Nelson Rockefeller**. Carvin served six years of a ten-year sentence and was paroled in 1982.

## SEAGRAM *continued from page 10*

by merging the two companies. It's speculated that at least 1,200 staffers around the world could lose their jobs. PolyGram currently has 12,000 worldwide employees while Universal employs around 3,500 people. "You're going to have fewer labels, and just as much product, which means less time to focus on new artists," artist manager **Allen Kovac** told the *New York Daily News*.

Bronfman's interest in expanding Seagram's stake in the international marketplace was at the essence of the deal, the largest in record industry history. Three-fourths of PolyGram's business is generated outside of North America. The combined entity will give Seagram a 23% share of the worldwide marketplace, with revenue in excess of \$6.1 billion. The deal also finds Seagram with two distribution arms: PolyGram Group Distribution (PGD) and UNI Distribution. Sources close to the situation indicate that the first series of cost-cutting could come from PGD.

In the week following the blockbuster announcement, Seagram sold its remaining stake in Time-Warner, 11.76 million shares at 77-1/2, less commission. Bronfman said the net proceeds of more than \$725 million would be used for "general corporate purposes." Earlier, Bronfman said he plans to shed PolyGram's film division to help fund the PolyGram acquisition. The fledgling film division could fetch up to \$750 million, according to analysts.

Other items of interest from the *Times* interview: Bronfman initiated discussions with Philips regarding a PolyGram buyout a little over a year ago by placing a phone call to Philips President/CEO **Cor Boonstra** (who will join Seagram's board). The Seagram and Universal staffs conducted an extensive study of PolyGram and EMI, as well as a study of the recording industry as a whole. Bronfman sees the music business as a "tremendous economic business. It provides high cash flows with little capital. You've got a great creative business, and you've got what I think is the exponential upside of the digitization of the world." Universal Chairman **Frank Biondi**, to whom the merged music entity is likely to report, said "The big question for us underlying the obvious benefits of foreign distribution, globalization, and the inherent good economics of the music business were two things: What does digital mean and what is theft?" To which Bronfman added, "Music is digital information, and a business which is now in a couple of hundred thousand retail outlets around the world is going to ultimately be in hundreds of millions of outlets around the world when people download directly into the home. And that's going to happen... There is only a moment in time when assets like these are available."

Wall Street has been bullish on the deal, with Seagram shares rising to record highs on the New York Stock Exchange. Investors believe that Seagram got PolyGram at a good price at a time when the music industry is ready for an upswing.

"This is the emergence of Seagram as a bonafide entertainment company that can now trade at the same kind of multiples as Time Warner or Disney, which can be highly advantageous to Seagram shareholders," Paine Webber analyst **Chris Dixon** told the *Times*. "This gives Edgar a for-real seat at the big boys' table."

## T.J. Martell Raises Record Funds

Over the past 23 years, The T.J. Martell Foundation has raised over \$120 million for leukemia, cancer and AIDS research. However, this year, the foundation raised over \$8.6 million, the largest one-year tally in its history. This year's fundraising efforts culminated with the annual gala, in which PolyGram Group Distribution President/CEO Jim Caparro received the 1998 Humanitarian of the Year Award.

"I am truly moved and humbled by the outpouring of support and generosity that I have experienced through this fundraising campaign," commented Caparro. "My deepest thanks to all those who have worked so hard to make both the campaign and the event a huge success. Our collective energies stand to prove the good we can do when we stand strong as one, dedicated to such a worthwhile cause."

PGD helped coordinate the event, which featured performances by Bryan Adams, Andrea Bocelli, Jon Bon Jovi, and Melissa Etheridge, among others. PGD also plans on putting out a Top 40 CD compilation that will be available through the Columbia House and BMG music clubs this fall to further benefit the foundation. An additional part of the funds raised this year was due to Celebrity Auctionline, an online auction sponsored by N2K's Music Boulevard in conjunction with US Web. Between the online auction and the auction held at the annual dinner, another \$300,000 was raised.

Meanwhile, Chancellor's five New York FM stations banded together to raise \$40,000 for the foundation. WAXQ, WLTW, WBIX, WHTZ and WKTU all presented live on-air auctions with special celebrity items. WAXQ auctioned off an Aerosmith package in which the highest bidder went home with an autographed Les Paul presented to the recipient by Steven Tyler and Joe Perry, who appeared on the air with 'AXQ afternoon driver Mark Parentau. The highest bidder also received ten tickets to an upcoming Aerosmith show. Items the other stations auctioned off included a guitar autographed by Melissa Etheridge, an all expense paid trip for two to Los Angeles to appear on an episode of Fox's *Ally McBeal*, an evening with Elton John, a Celine Dion package including tickets to a shows and a replica of the 'heart of the sea' from *Titanic* and an autographed suit worn by Will Smith in *Men In Black*.

Chancellor Sr. VP, Regional Operations John V. Madison commented, "On behalf of my colleagues and all of our New York stations, and particularly the celebrities who have donated their services to our auctions, I am delighted to support the excellent work of the T.J. Martell Foundation. We are proud to be associated with such a worthy cause and to lead the radio industry in creating an innovative program which may stimulate other such events."

## KOME/KITS continued from page 10

The swap satisfies the divestiture requirements which the DOJ and the FCC had previously established in the pending acquisition by CBS of ARS operations in Baltimore, St. Louis and San Jose.

Market watchers have been predicting Stern's move to KITS ever since its longtime morning man Alex Bennett exited last July, but station members were unprepared for the scope of changes that went down Wednesday morning. The morning show was cut-off at 9:15, when staffers were told about the changes. Live 105 immediately went into a music and sweepers mode. CBS radio head Dan Mason was on-site.

The move gives Stern a bigger Bay Area megaphone and strengthens Live 105, which has been floundering in the high ones after years of performing in the two-three share range. It also allows CBS to distance the Euro-flavored Live 105 from Modern AC sister KLLC (Alice). *fmqb* expects Nenni and Taylor to put a male spin on the station, to complement female-leaning Alice.

"Live 105 is a legendary radio station in the Bay Area," Jim Hardy told *fmqb*. "It's just huge. Putting Howard on the station and taking advantage of its position and branding in the No. 4 market in the country makes for a perfect marriage. We'll be able to get into areas that we weren't able to get into with KOME. It will make a lot of people happy."

# ALL THE DIRT

THAT FITS

**EMI MAY STAY SOLO** EMI have released their annual results and the label could be thinking about not selling. EMI posted an operating profit of \$668.7 million on sales of \$5.87 billion in the year that ended March 31. These represent jumps of 2.3% and 5.8%, respectively, over last year. However, pre-tax profits fell 10% to \$560.5 million. Actual exchange rates fell 19.3% to \$502.7 million on sales of \$5.4 billion. These declines could be the reason why Seagram opted to purchase PolyGram rather than EMI. The figures exclude an exceptional charge of \$70.8 million attributed to the closure of EMI's New York offices, former EMI President Jim Fifield's \$20 million payoff, the disposal of the HMV record store chain and integration costs for businesses acquired in 1997, according to a report in *Variety*. When prodded about the possible takeover of EMI, Chairman Colin Southgate said, "EMI has the right management team, the right strategy and the financial strength to be a vigorous and successful competitor in the music industry. We look forward to a great future as an independent force in music."

**SFX SALE APPROVED** The FCC gave Hicks, Muse the go-ahead to close on its acquisition of SFX Broadcasting, and SFX set a closing date of May 29. In order for the August '97 deal can go through, Hicks, Muse must divest ten stations in Hartford, New Haven, Houston, Orlando, and Greenville, SC. Capstar has placed the stations in a trust. Clear Channel is picking up WGNE/Orlando and the four stations in Greenville, while KKPX/Houston will be sent to Hefstel. Hicks, Muse must also divest four stations on Long Island, WTAE/Pittsburgh, and WJDX/Jackson, MS for the deal to be completed. Two days before the scheduled closing, Capstar announced details of its IPO: 31,000,000 shares of Class A common stock at \$19 a share. The sale would give Capstar a market capitalization of around \$2.1 billion, with proceeds used to help foot the bill for the SFX purchase. Meanwhile Tom Hicks is planning a separate \$1 billion IPO for his pro sports teams and entertainment holdings, which may grow to include an entertainment complex in Dallas partnered with Disney.

**RADIO SPIN-OFFS FROM PULITZER SALE?** Hearst-Argyle is buying the assets of Pulitzer Broadcasting, including 9 TV stations, and 3 radio stations in Phoenix, for \$1.85 billion. The deal surprised many observers, who assumed that Hicks, Muse was in line to pick up the properties. Those same observers are now wondering what will happen to the radio stations. Hearst has sold its radio stations in Pittsburgh and Milwaukee, retaining only News/Talk WBAL-AM and Rocker WIYY-FM in the Baltimore market, where there is also a Hearst TV station. Jacor had reportedly been trying to buy the Pulitzer stations in Phoenix prior to this transaction. *fmqb* wonders... will Randy Michaels and company now pick up those stations, plus the Baltimore combo, from Hearst? They'd make a nice fit with stations in those markets that Jacor is buying from Nationwide. In Phoenix, Pulitzer/Hearst's KTAR-AM, KMVP-AM and KKLK-AM would be teamed with Nationwide's KGLQ-FM and KZZP-FM. In Baltimore, the WBAL/WIYY combo would make a nice accompaniment to Nationwide Country powerhouse WPOC-FM. (From *Grapevine*.)

**CHANCELLOR-JACOR TALKS CONFIRMED** A few months ago the rumors were flying about a proposed Chancellor-Jacor merger, but no confirmation of such talks were ever acknowledged by the parties involved. Well, according to a story in the European edition of the *Wall Street Journal*, the talks weren't totally unfounded. Jacor's Randy Michaels told the paper that he was approached, but was not presented with a definite plan. It was during this time that tensions apparently surfaced between Hicks, Muse chairman Thomas Hicks, and Chancellor President/CEO Scott Ginsburg, leading to the latter's resignation. Meanwhile, Jacor has sold San Diego stations, KKLQ and KJQY to Hefstel for \$65.15 million. However, Jacor has decided to retain the intellectual property rights to the AC "K-Joy" format. Look for K-Joy to wind up on another Jacor-owned signal in the market. This transaction was widely anticipated, and was necessary to close Jacor's pending purchase of the Nationwide Communications stations. Look for Hefstel to flip both sta-

tions to Spanish programming by July.

**PUVOGEL TEAMS WITH HAGAR**

As first reported on these pages on 5/15, former 24-year Warner Bros. Records executive **Kenny Puvogel** has taken on the role as manager for **Sammy Hagar** and his band the Waboritas, exclusively under his newly formed KP Management. Puvogel told *fmqb*, "I always knew there would be more exciting challenges and new growth for me in this industry. I am thrilled beyond belief to be working with Sammy. There's always been a spiritual aspect to our friendship and I thank him for this opportunity. Hagar added, "For over 20 years, Kenny has taken my music Top 10 both as a solo artist and with Van Halen. He has always been a great friend. He loves Cabo, what more can I say?" Puvogel's first tour of duty was to accompany Hagar and the Waboritas on their recent and highly successful first Australian tour. They are now back in the studio and hope to have a new album released in the very near future.

Sammy Hagar (L) and Kenny Puvogel seal the deal.

**WCKG DEBUTS "RADIO FOR MEN"**

After only three weeks as a late-night host at WCKG/Chicago, Pete McMurray has been tapped to host "Sex, Sports, Rock N' Roll and Other Guy Stuff — Radio For Men," a new nightly show to air 7-11 p.m. weeknights, beginning June 1. "Most guys won't admit it, but the universal hot topics of conversation among men consist of four things," PD Reid Reker commented. "Sex, sports, business, and more sex." McMurray will be joined by co-host and longtime Chicago sports figure **Harry Teinotz**. "After considering hundreds of candidates we went with Pete and Harry because they are poster children for slightly twisted, out of control, walking, talking human hormones," Reker added. Former producer of the *Danny Bonaduce Show* **Kelly Mohr** has been named producer of the new show. Playboy Enterprises is the show's official title sponsor and will provide guests and other editorial resources. "It's going to be a fun show with no-holds barred. We'll take occasional looks into the more serious problems affecting men during these socially confused times and in the never ending war of the sexes," Reker said. **Patti Haze** and **Mary Pat LaRue** have been displaced by the new program.

**CHANCELLOR TAKES OVER DC101**

Chancellor Media will take control of WWDC-AM/FM on Monday June 1. Crosstown WGAY/Washington D.C. GM **Rick Mack** has been named acting GM at the station.

**BRETT FAVRE MAY SUE KQRS**

Remember the prank KQRS/Minneapolis' **Cabe** aired in December claiming that he was at a woman's hotel room that Green Bay Packer quarterback **Brett Favre** was visiting (*fmqb* 12/12/97)? **Cabe** went on to "interview" the woman who

claimed that she didn't know that Favre was married. KQRS went on to trump up their "scoop," issuing press releases and repeatedly airing the "interview" on the station. It was later learned that the whole story was a hoax created by **Cabe**, who was subsequently fired. According to a *Bloomberg News* report, Favre's agent has asked attorney **Gerald Boyle** to weigh a lawsuit against KQRS. "There's some aggravation every time you file a suit," Boyle said. "But ultimately, it's up to Brett and his attorney." Favre's agent, **Bus Cook**, said his client hasn't decided to whether to sue the station. Cook said the report from Boyle indicates that the case is winnable.

**PAPALE INTERSCOPE EXIT CONFIRMED**

*fmqb* has learned that **Michael Papale**, a founding member of Interscope since the company's 1990 inception, will be leaving the label in September to launch a new venture.

**DAYS OF THE NEUMAN**

Chancellor has named **Eric Neuman Sr.** VP/Strategic Development, a new position. Neuman will report to new Chancellor President/CEO **Jeff Marcus**. Neuman was most recently Senior Vice President of Chancellor parent company Hicks, Muse, Tate & Furst.

**KATZ HIRES ALEXANDER & ASSOC.**

Following the firestorm of negative professional and public reaction after the leak of a Katz internal memo, Katz Media has issued yet another statement, this time a formal apology, and has retained the services of diversity workforce consultants **Alexander & Associates**, headed by former Secretary of the Army **Clifford Alexander**, who also served as Chairman of the EEOC and as a special consultant on civil rights to **Lyndon Johnson**. Katz' action was prompted by the outrage expressed by industry leaders who were appalled at the insensitive language in the

Katz President **Stu Olds** said that the company recognized the need for concrete action and change within the organization. In related news, the NAB and the Broadcast Executive Directors Association have announced an "EEO Ideas Exchange" scheduled for June 8 at NAB headquarters, where effective recruitment of qualified women and minorities will be a major part of the agenda. Another topic for discussion will include a "Job Openings" Web site link between the NAB's Internet homepage and the Web sites of state broadcast associations, enabling thousands of local broadcasters to review job applicants from diverse backgrounds.

### ARBITRON INFO PACK ALERT

Radio stations have until Monday, June 1 to return their Station Information Form and Programming Schedules contained in the Summer 1998 Station Information Packet mailed to them earlier this month. Be advised, though, that approximately 800 stations received packets that contain incorrect info pre-printed on the form. Arbitron claims that affected stations, by now, should have received a new, corrected info pack with a "green" form. When completed, the Form and Schedules provide Arbitron with the station's current facilities, including call letters, frequency, broadcast times, station name, on-air personalities and programming. Arbitron uses the information for the editing of returned diaries and the processing of the Radio Local Market Report.

# QUESTION OF THE WEEK

What's the most outrageous request for a promotion you've received from your sales department?

**DAVE WELLINGTON, WRIF/DETROIT:**

Our promotion department is one of the best I've ever worked with. They don't come to us with outrageous ideas because they know better. The only outrageous thing they've ever come to us with was a promotion with no talent fee.

**ADDISON WAKEFORD, WORK/PANAMA CITY BEACH:**

I don't ever receive any requests because our sales department is a bunch of losers.

**DONNA RODGER, WRCN/LONG ISLAND:**

They want me to wrestle one of the top wrestling guys in August in front of a huge crowd.

**BRIAN ILLES, WRXL/RICHMOND:**

Before I started at WKFM in Syracuse they gave away a screen door.

**GREG STEVENS, KEGD/DALLAS:**

A long time ago, a sales person wanted a bar party and we didn't have room for any more promotions. We told him that unless there was a special occasion, we couldn't do it. A week later, he came back with the same proposal for a club night, only this time it was to celebrate Ringo Starr's birthday. We didn't even play Ringo at the time.

**TIM STEPHENS, WRKT/ERIE:**

I would tell you, but then I'd have to kill you.

**DORSIE FYFFE, WOXY/OXFORD:**

We turn down stupid shit all the time, but I can't think of anything that stands out.

**TERRIE CARR, WDHA/NORTH JERSEY:**

They wanted me to wear a bikini at a car dealership remote...which I DID NOT do!

**KNEALE MANN, CFNY/TORONTO:**

To run 50 minutes of commercials instead of eight.

**PAT MARTIN, KRXQ/SACRAMENTO:**

We had a sales guy who wanted to tie-in with the local bait shop to give away live worms on the air over the weekend. It was a page right out of Herb Tarlick's notebook.

**KYM MCKAY, WWWV/CHARLOTTEVILLE:**

I guess the weirdest one would have to be having a weight-loss center sponsor our big spring promotion, which was immediately turned down & sent back!

**NATALIE DIPIETRO, WRXC/CHICAGO:**

We've been asked to promote numerous client promotions/ sweepstakes that would jeopardize our FCC license. And we do enough of that on our own, we don't need help from our clients.

**KEVIN VARGAS, KISS/SAN ANTONIO:**

Nothing like that here. But as Promotion Director in Las Vegas, the all-time stupidest request was to do a parking lot promotion for a casino. What made it really stupid is that parking is free everywhere in Las Vegas.

**JEFF JAGGER, WEGW/WHEELING:**

All kinds o' stupid sh\*t!

**LYNN BARSTOW, KMYZ/TULSA:**

Thirty-one Coca Cola remotes in nine days during the College World Series in Omaha.

**TROY HANSON, KAZR/DES MOINES:**

My biggest gripe is when a salesperson tries to do too much, intertwining all their clients together for one specific promotion. Sometimes it's healthy, sometimes it's a cluster\*\*\*\*, like when Jeeps, Hooters, hot tubs, Budweiser and the US Army all come together. Wait a second, wasn't that our last two-hour remote?

**KATHY CORO, WZXL/ATLANTIC CITY:**

We've given away both a divorce and a vasectomy on Valentines' Day... but both of them were OUR ideas. By the way, this was two separate years... not the same one! Also, having naked people come on our shows is entirely our idea as well.

**JAVE PATTERSON, KFMW/WATERLOO:**

To give away three liters of a soft drink on the air or to promote an REO Speedwagon concert.

**PAUL KELLY, WEZX/SCRANTON-WILKES BARRE:**

It wasn't here, but at a station I worked at once we did a point of purchase Xmas promotion called "The Santa Bear Giveaway." We were giving away stuffed teddy bears.

**CHILI WALKER, WBN/FLINT:**

Our sales department doesn't think about promotions until the day of the event, and then they want everything in 15 minutes. We prefer they just sell.

**JOE BONADONNA, WMMR/PHILADELPHIA:**

Outrageous requests are the norm. Clients want total exposure, and don't want to give anything for it.

**PAT LYNCH, WJRR/ORLANDO:**

I don't know if I want to open that can of worms.

**SEAN DEMERY, 99X/ATLANTA:**

Hookerfest '93.

**KEVIN CONRAD, WJXQ/LANSING:**

We did a promotion for a client of ours at one of the local bars. It was a leather and fetish show. There were whips, chains nipple clips, etc. everywhere.

**TIM PARKER, WNOR/NORFOLK:**

They wanted someone to host a boat ride to Busch Gardens with NO talent fee. The promotion started at 9:00 a.m. and ran to 7:00 p.m.

**CHRIS JAMES, WTPA/HARRISBURG:**

Nothing outrageous here, we have a tame sales department.

**PAUL MARSHALL, WMFS/MEMPHIS:**

We were asked to give away flower baskets on the air for Mothers Day. Our sales staff would be better informed if they listened to the station.

**JOHN ALLEN, WZBH/OCEAN CITY:**

Any time a company wants to do a "trivia contest" where they want listeners to call up and do something like list their top ten reasons to drink Coke, for example.

**DEBBIE WYLDE, WAMX/HUNTINGTON:**

I was once asked to give away live animals for Easter, and they wanted it on the air in five minutes.

**ROXANNE McVAY, WBVR/FT. WAYNE:**

Go out and sell YOURSELF.

**CARL CRAFT, WRAT/POINT PLEASANT:**

See last week's Question of the Week answer!

**MIKE RAPPAPORT, WKLC/CHARLESTOWN:**

Recently, I was kind of put off because our Promotion Director came to us with an Eveready Energized Rabbit promotion, and our chief competitor's mascot is a rabbit. It didn't help that the billboards are showing rabbits all over town.

**JACK LAWSON, WKQZ/SAGINAW:**

Those cheesy fast food promotions where you build a sandwich and for a prize, we'll give you a sandwich, a soft drink and a fry. That actually comes from agencies, not even my sales people are stupid enough to pitch that to me.

**MICHAEL LEE, WTFX/WQMF LOUISVILLE:**

It was a Bud Lite promotion where the entire air staff had to dress up like the Bud Lite girls at a pool hall/Friday night remote.

**TOM BASS, WRKI/DANBURY:**

The annual "Wedding Extravaganza" at WWVW takes the cake. My airstaff had to dress in tuxedos and escort models down the runway. We had to be totally straight with it and could not joke about it on-air.

**ZACK TYLER, WPTI/GREENSVILLE-SPARTANBURG:**

That would be any number of promotions that were passed-up by our sister Country station because they weren't controversial enough for them.

**HELEN POWERS, KBER/SALT LAKE CITY:**

We had a remote at a bar where the sales staff wanted us to fly in our former afternoon jock who hasn't been with us for four months.

**ROBIN LEE, WZZO/ALLENTOWN:**

I can't go there!

**SUMMER, WKZQ/MYRTLE BEACH:**

This wasn't the most outrageous promotion that we did, but the best was when I had to interview over 100 lifeguards within the 60 miles of the Grand Strand. Reckless Eric once dressed up like a dog for the animal shelter.

**SUSAN GROVES, WARQ/COLUMBIA:**

A local bar thought it would be neat if they could do a contest for "win a chance to be a DJ for a day," but no one asked me. Then there was the time they wanted me to give away a boob job at a bar. For a station that plays Sarah McLachlan in heavy, it's not our bag.

**ROB HECKMAN, WIYY/BALTIMORE:**

Any promotion that a sales rep comes to me with where the client doesn't intend to spend any money, but we still have to give mentions on the air. It's when they come to you with new clients, where they're trying to generate new business with no spot buy commitment. Let them buy time, that's how they get on the station. If they buy time, then we can attach a promotional package.

**NEXT WEEK'S QUESTION:**

If I wasn't in radio, I'd be \_\_\_\_\_.

## ROCK REPORT

Less than a month after signing on as violinist for the **Smashing Pumpkins** upcoming tour, **Lisa Germano** has parted ways with the band. According to reports, Germano - an acclaimed solo artist and former member of **John Mellencamp's** band - left the Pumpkins fold after rehearsals for their pending European tour moved from Chicago to London. The band have also received another setback, as their free hometown show at Chicago's Grant Park, slated for July 7, has been axed by city officials. Those in charge feared the show would draw a crowd in upwards of 100,000, much too large for the 60,000 capacity Petrillo Band Shell in Grant Park. "There was just not enough room to accommodate the size crowd they would attract," said Margaret Denard of the Mayor's Office of Special Events. The 100,000-seat Soldier Field was out of the question, because a stage would have to be built "at a very high cost. It would take time to figure out the sponsorship," according to Denard. Lead Pumpkin **Billy Corgan** told the *Chicago Tribune* on Tuesday (5/26), "It's one of the biggest heartbreaks I've ever had in my life." Corgan went on to tell the *Tribune* that the free show was designed as a gift to mark the band's 10th anniversary.

The first new **R.E.M.** track since drummer **Bill Berry** left the band last year will be available shortly. The track, entitled "Why Not Smile," will be featured on a compilation CD that culls 50 years worth of Southern music, that will be included with the next issue of the Mississippi-based magazine *Oxford American*. There are no drums on the track, although **Screaming Trees** drummer **Barrett Martin** has been drumming on tracks for R.E.M.'s forthcoming album, and will join the band for their set at the Tibetan Freedom Concert on June 13 in Washington, D.C. There is no word whether "Why Not Smile" will be featured on the new R.E.M. album, due this fall. Look for the new issue of *Oxford American* in selected bookstores stores on June 5, or order it direct at (800) 269-6926.

In other R.E.M.-related haps, **David Bowie** has declined to contribute music to the **Michael Stipe**-produced film, *Velvet Goldmine*, which is set in London's '70s Glam Rock scene. According to *The London Times*, Bowie had been approached about using six tracks from his *Ziggy Stardust And The Spiders From Mars* album for the film, but refused. The *Velvet Goldmine* soundtrack will include music from the likes of **Shudder To Think**, **Grant Lee Buffalo**, **Pulp**, **Teenage Fanclub**, **Placebo**, and members of **Radiohead** and **Sonic Youth**. As for Bowie, the *L.A. Times* reports that a new track, "Fun," will be included on his pending live set, which is expected out this fall.

**Jimmy Page & Robert Plant** kicked-off the U.S. leg of their *Walking Into Clarksdale* tour to rave reviews last week in Pensacola, Florida. *The Pensacola News Journal* reported: "One of the most impressive arsenals in Rock history, former **Led Zeppelin** vocalist **Robert Plant** and guitarist **Jimmy Page** reached back effortlessly into the Zeppelin catalog, as well as debuted live performances from the duo's new album, *Walking Into Clarksdale*." From Pensacola, the band moved on to Tampa, where the set list read like this: "Wanted Song," "Bring It On Home," "Heartbreaker," "Ramble On," "Walking Into Clarksdale," "No Quarter," "When I Was A Child," "Going To California," "Tangerine," "Gallows Pole," "Burning Up," "Babe I'm Gonna Leave You," "How Many More Times," "Most High," "Whole Lotta Love," "Thank You," "Rock & Roll."

Yet another glitch has popped up to keep the original incarnation of **Black Sabbath** from touring, as drummer **Bill Ward** has been hospitalized for undisclosed health reasons. Sabbath's original line-up - **Ozzy Osbourne**, **Tony Iommi**, **Geezer Butler**, and **Ward** - had been rehearsing in Wales for an upcoming world tour when Ward fell ill. The band's upcoming European tour - kicking-off next week in Germany - will go on, with veteran Rock drummer **Vinny Appice** filling in for Ward. Ward hopes to be back in the fold when the band tour the States later this year.

While **Beck** is currently at work on an album for the independent Bong

Load label (original home of the "Loser" single), plans are underway for a concert film, which could hit screens and shelves by year's end. Footage for the film was shot during Beck's *Odelay* tour, by Steve Hanft, who directed the videos for "Loser," "Where It's At," and "Jack-Ass." The as-yet-untitled film is also expected to incorporate unreleased videos, along with performance art and comedic sketches.

Opening act duty for **Pearl Jam's** upcoming U.S. tour shapes up like this: **Goodness**- 6/20 & 6/21; **Frank Black**- 6/23-6/30; **Murder City Devils**- 7/2-7/5; **Spacehog**- 7/7-7/10; **Iggy Pop**- 8/17-8/20 and 8/25-29; **Cheap Trick**- 8/22 & 8/23; **Mudhoney**- 8/31-9/7. Openers for other dates are TBA.

With their "Closing Time" single impacting at just about every format known to man, **Semisonic** carry on with their current U.S. tour in support of their *Feeling Strangely Fine* LP. Catch the Minneapolis-based trio in the following cities: 5/31, Mansfield; 6/2, Toronto; 6/3, Detroit; 6/4, Chicago; 6/5-7, Minneapolis; 6/9, Kansas City; 6/11, Denver; 6/13, Dallas; 6/17, Atlanta; 6/18, Nashville; 6/19, Birmingham; 6/20, Cincinnati; 6/28, Milwaukee.

**The Cranberries** have begun work on their fourth album, their first since '96's *To The Faithful Departed*. The band, along with co-producer **Benedict Fenner** (**Brian Eno**, **Elvis Costello**, **Laurie Anderson**), began pre-production on the album last December in Toronto. Recording in earnest for the as-yet-untitled album, began earlier this month in the south of France. No release date is set.

Look for *The Genesis Archives Volume 1: 1967-1975*, in stores from Atlantic on June 16. The four-CD set was to be released in 1996, but was held up by legal problems. Comprising *The Genesis Archives* is unreleased live material (including a live performance of *The Lamb Lies Down On Broadway* album in its entirety), singles, demos, rough mixes, and previously unreleased BBC recordings. Among the rarities is an unreleased song from *The Lamb* sessions. Long out of action, a recent report in Memphis' newspaper *The Commercial Appeal* leads to speculation that

**The Traveling Wilburys** are up and running once again. It seems **George Harrison** has contacted **Stan Perkins**, the son of the late Rockabilly pioneer **Carl Perkins**, with an interest in using some unreleased Perkins songs for a new Wilburys project. While still in the tentative stages, reports indicate that if all goes according to plans, Perkins will be a new posthumous Wilbury with his music fleshed out by the rest of the band (a la the **Beatles'** "Free As A Bird" and "Real Love") which includes Harrison, **Bob Dylan** and **Jeff Lynne**. According to the newspaper, Perkins' son has offered the group the use of four Perkins compositions including "You Can't Run Away From The Blues" and "One Of These Days."

A seminal influence on such Modern Rockers as **Oasis**, **Blur** and **Pulp** to name a few, **The Kinks** 30-years plus career typified by **Ray Davies'** astute social observation have endeared them to legions of fans around the world. Their back catalog has been anthologized and reissued to death, never once given the respect it deserves until now. The fine folks

**TELLIN' STORIES:** Here's a shot of **Kinks** frontman **Ray Davies** during a recent in-store in New York, in support of his new CD, *Storyteller*, and his new book, *Waterloo Sunset*. Davies signed autographs for fans and performed acoustic renditions of **Kinks** classics like "You Really Got Me," "Victoria" and "Misfits." Photo Credit: **James Rinaldi**

at Castle Communications have begun a massive reissue campaign of the band's '60s and early '70s back catalog kicked off by the re-release of the group's first five albums: *Kinks*, *Kinda Kinks*, *The Kink Kontroversy*, *Face To Face* and *Something Else*. Compiled with the complete cooperation of Ray Davies, each CD features pristine remastered sound

ROCK REPORT *continued...*

making these tracks come alive, expert liner notes by noted British Rock scribe **Peter Doggett**, plus a bounty of rare photographs and assorted Kinks ephemera. Most exciting is the inclusion of rarities and outtakes on each package. Davies' beautifully haunting demo of "I Go To Sleep" (later covered by **The Pretenders**), the unreleased press diatribe "Mr. Reporter" are among the standouts. While *Kinks*, *Kinda Kinks* and *The Kink Kontroversy* mine a raw and ragged British beat sound, it wasn't until *Face To Face* and *Something Else* when Ray Davies truly found his voice as one of the most creative and innovative songwriters. Alongside such Kinks' "classics" as "Sunny Afternoon," "Waterloo Sunset," "David Watts," "Dead End Street" and "Autumn Almanac," sits a glorious and often unexplored body of work, only known to hard-core Kinks' fans. For starters, dig into the hazy psychedelic wonder of "Lazy Old Sun," the dreamy "Too Much On My Mind," and vaudevillian charmer "Harry Rag," a song occasionally performed by Davies on his recent *Storyteller* jaunt. Next in line comes

such essential Kinks album as *The Village Green Preservation Society*, *Arthur (Or The Decline And Fall Of the British Empire)*, *The Kinks Live At The Kelvin Hall*, *Lola Versus Powerman And The Moneygoround Part One*, and *Percy*. Albeit they are import titles, these are readily available in America.

Although **Squeeze's Glenn Tilbrook** did a short one-man band tour of America last summer, it's been years since the group have performed in the States. Thankfully, that's all changed with the announcement of a short U.S. tour kicking off on June 7 in Northampton, MA. Other dates include 6/9, Washington; 6/10, Baltimore; 6/11, Boston; 6/12, The Fleadh Festival, NYC; 6/14, Atlantic City; 6/16, Philadelphia; 6/17, Pittsburgh; 6/18, Buffalo; 6/19, Toronto; 6/20, Chicago.

One of the music world's most mercurial characters is undeniably **Prince** or the Artist Formerly Known As. A new book, *Purple Reign* (Birch Lane Press / \$19.95), goes a long way toward penetrating the wall of mystery and

mythology surrounding the Artist. Written by **Liz Jones**, the 288-page tome uncovers the facts from fiction that have often shrouded the true story of this Minnesota wunderkind. Jones expertly chronicles the childhood and musical beginning of Prince Rogers Nelson to his massive breakthrough success of *Purple Rain* to his recent break from Warner Bros. and his independence as a recording artist. Interviews with The Artist plus members of his bands over the years including **Wendy & Lisa**, **Matt Fink**, **Cat** and many others, music executives, former employees at Paisley Park, and managers paint the definitive portrait of this immensely talented artist.

## ALL HAIL THE SPACE LORDS MONSTER MAGNET

There was a time not too long ago, when **Monster Magnet's** nether-worldly blend of hellish riffs, howling vocals and acid-laced imagery would have sent most Rock Radio programmers running for shelter, and praying for the return of **Nelson**.

These days, with bands like **Marilyn Manson** and **KoRn** an integral part of the Rock Radio landscape, the time is right for **Monster Magnet**, and their third A&M effort, *Powertrip*.

Building a solid following through early indie efforts like *Spine Of God* (Caroline) and their first two A&M LP's '93s *Superjudge* and '95s *Dopes To Infinity* - the New Jersey-based band have long been a solid live draw and a fave of many in the underground press. *Powertrip's* first single, "Space Lord," is just the right track to help A&M establish the band as a bona fide force at Rock Radio.

"Space Lord' is a one-listen song," says A&M Sr. Director/Rock Promotion **Diane Gentile**. "**Mark Tindle** (A&M VP/Rock Promotion) and I thought the best strategy for launching this song was to play it for programmers out there that had some familiarity with the band and knew how hard they worked over the years in building a fan base with the real Hard Rock audience. We spent six weeks on the road playing the song for radio and every station we went to wanted to put the track on immediately."

With its Black Sabbath-cum-Bo Diddley Metal-Boogie feel, "Space Lord" is making fast friends at Rock Radio, with stations like WYSP/Philadelphia, WRCX/Chicago, WRIF/Detroit, WLZR/ Milwaukee, and KRXQ/Sacramento leading the charge.

"Right out of the box, "Space Lord" was a number one-requesting record for us," says KRXQ/Sacramento PD **Curtiss Johnson**. "Of the nine bands we have on our *Jamboree* (KRXQ's summer festival), they're one of the bands generating the most excitement."

Adds WLZR/Milwaukee PD, **Keith Hastings**: "We've got history with the band dating back to "Negasonic Teenage Warhead" (from *Dopes To Infinity*), and they just nailed it with this thing. It's a record we could embrace, and it fits the sound of the station right down the middle."

For their part, A&M are equally excited about the early buzz generated by "Space Lord," hoping it translates into big sales figures for *Powertrip* (due June 16). The label has blitzed the marketplace through a variety of promotional means, including a month-long direct-mail campaign (for which the label has purchased target-demo mailing lists from Music Network and Ticketmaster, hitting consumers with samplers and postcards announcing the release of *Powertrip*), along with retail bag-stuffers and the usual lifestyle marketing. A&M realizes that marketing campaigns such as this are instrumental in breaking an act like **Monster Magnet**, who got by on fan loyalty long before radio came into the picture.

"We made a commitment to do a lot of direct marketing on most of our acts," says A&M Sr. VP/Marketing, **Morty Wiggins**. "For **Monster Magnet** we have a very aggressive direct-to-consumer campaign. We're using several tools, the postcards, magnets, stickers, CD and cassette samplers. Through all the various direct to consumer avenues, we'll probably put out close to 100,000 pieces."

With a tour supporting **Megadeth** set to kick-off in late June, this summer is sure to be a hot one for **Monster Magnet**, and the label feels that "Space Lord" is just the beginning.

"The album has so much depth and so many awesome tracks that we've got a long way to go," continued **Gentile**. "Great Rock albums are not a dime a dozen these days and Rock stations, though they have classic hits to fall back on, [they] really need these strong new bands."

## Terry Marshall's DAILY INSIDER

**STABBING WESTWARD:** **Stabbing Westward** have had to postpone their current tour because drummer **Andy Kubiszewski** fractured his collarbone in a rollerblading accident recently before a concert in Madison, Wisconsin. Shows through June 12 in Los Angeles have been postponed. The band plans to resume the tour in July.

**ROD STEWART:** **Rod Stewart** performs on *The Tonight Show with Jay Leno* on June 4.

**LINDA McCARTNEY TRIBUTES ANNOUNCED:** **Paul McCartney** has announced two memorials for **Linda McCartney** and says that he will be taking out newspaper ads to thank fans for their sympathy cards and letters. Close family and friends will gather June 8 at the St. Martin In The Fields Church in London. A simultaneous candlelight vigil will be held in Trafalgar Square for animal welfare activists, vegetarians and others who wish to honor **Linda**. The tributes will be seven weeks after her April 17 death from cancer at age 56.

**PAUL McCARTNEY:** The job of maintaining **Paul McCartney's** childhood home and welcoming visitors has gone to 50-year-old fan **John Halliday**, who got the gig over 45 other applicants. He starts the \$16,000 a year job next month. The house in Liverpool is where some of the Beatles' early hits like "Love Me Do" and "I Saw Her Standing There" were written. The House already attracts thousands of visitors from all over the world. It was purchased by the National Trust in 1995.

**CAMEL COVERED WORMS FOR "LUCY" VIDEO:** **Andy Curran** has discovered the high price of writing a memorable riff like **Camel's** "Lucy." Recently he had 50 worms dropped on his face while cameras rolled as they made the video for the song. The Toronto band released their self-titled debut album on their own indie label, but after "Lucy" started taking off at stations in the U.S., **Geffen Records** quickly signed the band before A&R reps from any of the other major labels got to see them. "Lucy" now appears destined to take her place alongside all the other famous musical Lucys, "I Love Lucy," "Lucy In The Sky With Diamonds," **Kenny Rogers'** "Lucille" and **B.B. King's** famous guitar. The song isn't about the *Peanuts'* character of the same name either, **Curran** says his "Lucy" is a composite of past girlfriends. If the sound of the song is familiar, it could be because **Camel** worked with veterans of recording sessions. **Bob Ezrin** produced for **Pink Floyd**, **Alice Cooper**, and **KISS** in Toronto in the '70s and '80s. With success almost at hand, it hardly seems like **Curran** should have to go eat worms. He explained the worms were cast in the video because he was hoping to do something new — since people keep telling him music videos are burning out. He never fished as a child, so it was a pretty extreme way to get acquainted with worms. "Some of the production girls were screaming," **Curran** said. "They washed all the worms off, and then dripped them on my face. I said I would do it as long as I didn't have to open my mouth or eyes."

**X MARKS THE SPOT:** Searching for the normal (and a really good drum sound), former **Doors** keyboardist **Ray Manzarek** teamed with L.A. Punk legends **X** recently for a new version of **The Doors'** classic "Crystal Ship" featured on the upcoming **X-Files** soundtrack. **Manzarek** played keyboards and produced the track. (L-R, Back): **X's** **Billy Zoom** and **Manzarek**. (L-R, Front): **X's** **Exene Cervenkova**, **John Doe** and **DJ Bonebrake**.

DAILY INSIDER *continued...*

**X:** X is gearing up for their busiest period since they reunited. They'll start a "Lucky" run of concerts July 11 in Las Vegas with Pearl Jam. They're also opening the Los Angeles shows July 13 and 14 at The Forum and a fourth in Sacramento on July 16. Next month, X will be playing the Guinness Fleadh Festivals in New York on June 14, Chicago on June 20 and San Jose, California on June 28. They've also recorded two versions of the Doors' "Crystal Ship" for *The X-Files Soundtrack*. One will be in the film, the other on the disc.

**KoRn:** Ice Cube raps on "Children Of The Korn," from KoRn's new album, *Follow The Leader*, which will be out August 18.

**HERB-RUBBED DAVE MATTHEWS A HIT DISH:** What goes into making a hit record? Opinions vary and it's a topic that has been debated for decades, but few

theories are as unique as something Dave Matthews did while recording *Before These Crowded Streets*. The band worked at the plant in Sausalito, California outside San Francisco where such previous blockbusters as Fleetwood Mac's *Rumors* and Stevie Wonder's *Songs In The Key Of Life* were recorded. Matthews recalled working there when the band returned to San Francisco recently on tour. "Some of us lived on houseboats while we were recording," he explained, "so I walked to work every day. I'd walk by this garden and I'd smear these herbs all over myself. It was really refreshing." Matthews also complimented the chef at the studio, who presumably rubbed similar herbs on his dishes.

**MELISSA ETHERIDGE:** Melissa Etheridge is one of four people being honored by the Los Angeles Chapter of The National Academy of Recording Arts and Sciences at its

1998 Membership Awards Luncheon on June 16. The others are songwriter Diane Warren, film composer Marc Shaiman and Warner Bros. Records President Phil Quartararo.

**PIONEER MUSIC FESTIVAL TO HIT THE ROAD:** To observe its 40th anniversary, the Newport Folk Festival is going on the road this year. Kicking off in July, it will feature a rotating line-up of veteran folkies and newcomers. Thirteen festivals are planned on weekends into September. Nanci Griffith, John Hiatt, Richard Thompson, Marc Cohn and Joan Baez are among the artists confirmed to be participating.

**RON WOOD RELEASES LIVE ALBUM FROM '93 SOLO TOUR:** Rolling Stone Ron Wood has released a live album from his 1993 world tour, which featured Bernard Fowler, Ian McLagan, and Chuck Leavell in his band. *Slide On Live* feature songs from his studio album, *Slide*

*On This*, plus classics by The Stones and Faces and two bonus tracks.

**THE SAMPLES:** The Samples will release their new album, *Here And Somewhere Else*, early this fall. The disc will feature the same line-up that appeared on last year's live CD, *Transmissions From The Sea Of Tranquility*. There will be a national tour to support the new release.

**SAVATAGE:** Savatage kicks off the first of two U.S. summer tours on June 4 in Danbury, Connecticut. The 14-city tour will be followed by another six-week tour starting in August. The band will be playing music from *The Wake Of Magellan*, a concept album about an old sailor who is a direct descendant of the explorer.

Ronnie Montrose, of "Wonderful Remark," a song which eventually surfaced ten years later on the soundtrack of Martin Scorsese's *King Of Comedy*. Also included are alternative versions of "Real Real Gone" and "Bright Side Of The Road" and the unissued "High Spirits" featuring the Chieftains and "Laughing In The Wind" with backing vocals by Jackie De Shannon.

James follow their first-ever #1 album, the retrospective *The Best Of*, by releasing the second new song on it, "Runaround," as a single this week. It'll be available on three CDs featuring a selection of live tracks, remixes and rarities, among them BBC GLR session versions of "Say Something," "Laid" and "Lose Control."

Graham Coxon of Blur has announced plans to release a solo album in the summer. He describes

the still-untitled project as "very minimal, quite unlike Blur" and an August release is planned.

Bauhaus, the British Modern Rock outfit of the early '80s, are back together. Led by Peter Murphy and featuring the members of their subsequent spinoff groups Love and Rockets and Tones On Tail, they'll play two shows at the Palace in Los Angeles on July 10 and 11 and are considering a full U.S. tour. Love and Rockets have a new single, "Resurrection Hex," on U.S. release, from the forthcoming album *Lift*, and Bauhaus will have the double retrospective album *Crackle* released there on July 7.

The Tamperer's "Feel It," based on the Jacksons' "Can You Feel It" and featuring vocals by Maya, finally rose to #1 in the U.K. singles chart this week, its sixth on the survey. The pace of the chart was again more

leisurely this week, with no new entries in the Top Ten and Smashing Pumpkins scoring top debutant honours with "Ava Adore" at 11. The Mavericks took advantage of the lull to rise to a new peak of four with "Dance The Night Away," which now has sales of well over 200,000 copies. NYCC's remake of the Beastie Boys' "Fight For Your Right" entered at 14, Rod Stewart's "Ooh La La" at 16, Collapsed Lung's football-inspired "Eat My Goal" at 18, BBE's "Desire" at 19 and "Do You Really Want Me" by Robyn at 20. Simply Red's *Blue* entered the album chart at #1, and Frank Sinatra's *My Way* compilation soared from 36 to seven.

# ROCK 18-34

## THE INSIDE TRACK

WMFS/Memphis is giving away a date with a stripper to see **Page/Plant** in Nashville! Listeners qualified by finding the location where

Rachel, the sassy, sexy, 'MFS stripper, was standing in a tiny bikini waving a sign that read "Win A Date With Me From 92.9 MFS." From all the qualifiers, 'MFS picked three who will now compete in an in-studio Dating Game with the woman. The grand prize winner scores a date with the stripper, tickets to the show, and passes aboard the 'MFS Party Bus to see Page/Plant. And you don't even have to tip her... **WQXA/Harrisburg** added **Corey Glover** to the lineup for their "Big X Summer Ball" which took place Thursday (5/28). Other acts on the bill included **Green Day**, **The Mighty Mighty Bosstones**, **Samiam** and **Cherry Poppin' Daddies**... **WNCD/Youngstown** have found themselves in trouble with the law. Morning team members **Butcher The Road Dog** and **MTV The Homeless Pervert**

were arrested for setting up a casino on the street corner. Police said the morning team were inviting listeners to stop by and try their luck to win Powerball tickets. Police arrived to find what they called a roulette wheel and dice. The duo were then arrested and taken away in handcuffs and the station van was towed. PD **Chris Patrick** told the *Vindicator* that the roulette wheel in question was actually "a prize wheel and it doesn't look anything like a roulette wheel. It's the same promotion we've been doing for years." It seems that the police were upset at the station for staging the promotion in Campbell, a town that has been targeted with a federal investigation looking into illegal gambling... When that satellite went down last week rendering millions of pagers silent, **WNOR/Norfolk's Tommy & Rumble** took to the streets..literally. Enter the Tommy & Rumble "Human Paging System." Listeners called the request line, Tommy & Rumble recorded their message, and sent morning show member **Fitzwell** to the recipient where he played back the message. Modern technology, what a bitch.

**TOP PERFORMERS**

**STABBING WESTWARD** "Save Yourself"  
These guys have, and always will, do good in Orlando.

**METALLICA** "Fuel"  
Just like every other Metallica track, it takes a little while to test and then zooms right to the top.

**GOO GOO DOLLS** "Iris"  
I know a lot of Active Rock stations aren't playing this, but you guys could be missing something here, because the audience is really into it and we've got Top 5 research.

**GARBAGE** "Push It"  
See "Iris."

**MONSTER MAGNET** "Space Lord"  
These guys are Rock!

**GANDHARVAS** "Downtime"  
A good amount of curiosity calls.

**DRAIN STH** "Crack The Liars Smile"

**DAYS OF THE NEW** "The Down Town"  
It should be a smash hit for these guys. A little more up-tempo.

**RAMMSTEIN** "Du Hast"  
Novelty enough, Ministry enough that we can get away with this for a couple of weeks. Lights up the phones.

**WBYP  
FT. WAYNE  
OM/PD-JOHN ROZZ**

**TOP PERFORMERS**

## ON THE RIGHT TRACK?

### NATALIE IMBRUGLIA "WISHING I WAS THERE," RCA

Natalie Imbruglia quickly dominated multiple formats with "Torn," her first smash single. And while that song's success effortlessly pushed her full-length album, *Left In The Middle*, past the platinum mark, "Torn" was only one of the many potential hit singles on the album. That said, have a listen to "Wishing I Was There" (there are three mixes on the CD-Pro), and put it on-the-air before your competition beats you to it!

### UMA "FRIDAY MORN'," REFUGE/MCA

Produced by Refuge Records co-founder Don Gehman, Uma's debut album, *Fare Well*, is a solid collection of music that holds much promise. As far as debut albums go, the three musicians that comprise Uma (their name means "the middle way" in Tibetan): vocalist/guitarist Chris Hickey, vocalist/guitarist/keyboardist Sally Dworsky, and drummer Andy Kamman, have created a winner from start to finish. "Friday Morn'" is one of their album's many highlights.

### THE PISTOLEROS "THE HARDEST PART," HOLLYWOOD

Anyone who listens to music for a living has to appreciate those rare times when you pop in a CD by a band you're not that familiar with, and by the end of the album, you're an instant fan. The Pistoleros are easily one of those bands. Their Hollywood Records debut, *Hang On To Nothing*, is refreshing mix of many Pop/Rock styles and their latest single, "The Hardest Part," showcases a firm grasp of memorable melodies that is beyond their young years.

## SINGLES/EPS

### JIMMIE VAUGHAN "LIKE A KING," EPIC

Oh, man is this smooth. Do yourself a favor, quit reading this magazine for a minute and listen to Jimmie Vaughan's "Like A King" **right now!** From his forthcoming album *Out There* (in stores June 9), "Like A King" was produced by Nile Rodgers and is fueled by Vaughan's always tasteful guitar fills and a punchy B-3 organ. Trust us, this cut will have listeners tapping their feet and bouncing their heads well before you get a chance to back-announce it.

### LITTLE FEAT "LOCO MOTIVES," CMC INTERNATIONAL

Well, whodathunkit? A "train" song from Little Feat! A new train song to add to the Little Feat "train" theme set. What you'll find with this first single from the new Little Feat album, *Under The Radar*, is a classic Feat sound that will have fans of the band pricking up their ears and hankering for more. And more they shall have! The album is in stores June 16 and the band is on the road all summer long! For promotional opportunities call Ray Koob at (919) 875-3500.

### STORYVILLE "BORN WITHOUT YOU," ATLANTIC/AG

Produced by Bonnie Raitt guitarist Stephen Bruton, Storyville's third album, titled *Dog Years*, continues the band's standard-setting style of Texas Blues-Rock. A super-group by all definition (hell, these guys have played with everyone from Stevie Ray Vaughan, to the Allman Brothers, to John Mellencamp!), Storyville continue to grow together as a band, displaying their fine musical developments on "Born Without You," the first single from their forthcoming full-length.

While Other Trades May Promise You The Moon & Stars,  
We Can Move Mountains.

### NEIL FINN "SINNER," WORK

As a principal member of three great bands, Crowded House, Split Enz and the Finn Brothers, Neil Finn crafted many memorable songs ("Don't Dream It's Over," "Only Talking Sense" and "Something So Strong" come to mind). "Sinner" is the first track from his inevitable debut solo album, titled *Try Whistling This* (in stores June 16). It is a striking song that is both sophisticated and hip. Mixed by Nigel Goodrich (Radiohead), look for it to dominate playlists swiftly.

### IMOGEN HEAP "COME HERE BOY," ALMO SOUNDS

Remember the first time hearing Tori Amos, Kate Bush, Patti Smith, or Fiona Apple? Remember when you listened to one of the aforementioned artist's debut albums for the first time, and as it played, you knew that they were destined for musical greatness? Well, just wait until you hear *I Megaphone*, the debut album from London-based singer-songwriter Imogen Heap! From start to finish, it is easily one of the strongest debuts of 1998. "Come Here Boy" is the seductive first single.

### LILI HAYDN "STRANGER," ATLANTIC/AG

A veteran of the Los Angeles Philharmonic, violinist Lili Haydn has worked with Tom Petty, No Doubt, Jewel, Porno For Pyros, Victoria Williams, and Hootie & The Blowfish, among many others. "Stranger," the first single from *Lili*, her Atlantic Records debut, finds Haydn striking out as singer, songwriter and bandleader. Oh, and she rocks! Look for her to be the opener on this summer's Page/Plant tour.

## ALBUMS

### SMASHING PUMPKINS ADORE, VIRGIN

Sixteen tracks deep, the newest from the prolific Smashing Pumpkins, *Adore*, is atmospheric and delicate from beginning to end. The most bombastic Rock track on the album is the first single, which has its own sense of balance. "Ava Adore" is already spinning at Rock, Modern and Progressive. The film noir appearance of the CD artwork is reflective of the haunting melodies contained within. We think that programmers will find a lot to play from their latest to please the band's fans. Listen to: "To Sheila," "Ava Adore," "Perfect," "Tear," "Crestfallen," and "Shame."

### ROY ROGERS PLEASURE AND PAIN, POINTBLANK/VIRGIN

The twice Grammy-nominated musician, singer-songwriter, slide guitarist, and producer of such Blues luminaries as John Lee Hooker has another solid release in stores on June 2 for Pointblank. Roy Rogers is a well-traveled, San Francisco Blues musician who has a diverse Blues palette that swings from traditional to contemporary styles without ever ringing false. Programmers that dig the Blues will find a slew of material within the laser etchings on this CD. Try: "Down Here In The Real Big Empty," "Maybe Not," "You Can't Stop Now" (with Sammy Hagar!), "I'm Falling By Degrees," "Down At Josephine's," and "Gertie Ruth."

### SCOTT THOMAS BAND CALIFORNIA, ELEKTRA/EEG

*California*, the Elektra Records debut of the Scott Thomas Band, was produced by Thomas with guitarist Andrew Williams and features an assorted cast of guest musicians, including Chris Stills and The Wallflowers' Rami Jaffe. Running the gamut from delicate and introspective acoustic pieces ("California," "Sad Girl," "Believe," and "Days Of Hours"), to full-blown head-humming Rock (the first single "Black Valentine," "Happy," "Never Coming Home," "Run Baby Run," and "Full Moon Painter"), Thomas' debut is a winner from beginning to end. We challenge you to find one throw-away track.

But make no mistake, the sound you hear on *Lucky Driving Buddha* is distinctly Voss. Highlights include "All Done," the plaintive "Kali In Brevard" and "Josh."

Rhino Records drops three new volumes of their very successful *Blues Masters: The Essential Blues Collection* on July 14, highlighting harmonica - *More Harmonica Classics*, slide guitar - *More Slide Guitar Classics*, and postmodern Blues - *More Postmodern Blues*. *More Harmonica Classics* culls harp-driven Blues staples like **Sonny Boy**

**Williamson's** "Keep It To Yourself," **Little Walter & His Jukes'** "Off The Wall" and **Howlin' Wolf's** "All Night Boogie." *More Slide Guitar Classics* cooks up a lethal concoction of slide-laden classics, including **Elmore James'** "The Sky Is Crying," **Tampa Red's** "Green And Lucky Blues" and an alternate take of **Son House's** "Death Letter." *More Postmodern Blues* proves that the Blues is just as vital today as it was on the back-porches of Mississippi some 50 years ago. Proving this beyond a shadow of a doubt are **Little Milton's** "Walking The Back Streets And Crying," **B.B. King's** "Never Make A Move To Soon" and **The Robert Cray Band's** "Phone Booth." If you call **Jim Neill** for your copies, tell him we need them too!

What a story Rounder Records has built with powerhouse performer **Susan Tedeschi!** We've rarely seen a

debut album from a Blues newcomer keep increasing in spins for more than six months. Tedeschi's *Just Won't Burn* is more than living up to its title by garnering reaction on every station that spins it. Her live shows and the warmth and control she conveys to the audience has converted other programmers that needed a little more convincing. If you haven't considered Tedeschi yet, pop the album into your next music meeting. You won't regret it.

As it heads into its 10th season, *The Simpsons* remains one of the rare TV shows that is both a critical and commercial success. A large part of the show's success can be attributed to their humorous musical interludes and selections. Out September 1 from Rhino is *Go Simpsonic With The Simpsons*, the second volume of original music and dialogue from the show. Featuring more than 60 tracks of songs, themes, underscore music, and hilarious dialogue from the show, *Go Simpsonic* features all your fave *Simpsons* tracks like "We Put The Spring In Springfield," "Cletus The Slack-Jawed Yokel," "Poochie Rap Song," and "Mr. Sparkle Theme" along with a never-before-heard duet between sisters Patty and Selma: "We Love To Smoke."

Look for the following releases from WORK, either on your desk now or coming soon: **Heather Nova**, "London Rain (Nothing Heals Me Like You Do)," **Neil Finn**, "Sinner," **Mary Lou Lord**, "She Had You," and **Eagle-Eye Cherry**, "Save Tonight."

many radio stations think just being different is enough. The difference needs to be something consumers want.

When Arbitron asks listeners to participate in a survey, it is asking them the question, "How many different radio stations can you name?" In the mind of the survey-keeper, it could be perceived as a "radio station-tasting." Some people could feel obligated to try out other stations, just to make sure they are doing the best possible job as a sur-

vey keeper. That's why it's important to be consistent and true to your musical mission. When people become survey keepers, they could sample your product. You want to make a positive first impression.

Keep your station cume-friendly. By keeping the new listener in mind, your station will be intriguing to new people. If you do this with a natural, off-the-cuff approach, it will relate to core listeners as well. Always keep new listeners in mind

when programming your radio station, and you'll keep replenishing the listener base for your station.

**PROGRESSIONS**

Wasting absolutely no time in exercising the musical fruits of their recent deal together (*Dirt Alert*, 5/22), Rhino Records plunges into the rich treasury of Warner Bros. music to compile *Warner Bros.: 75 Years Of Film Music*, a four-CD box set containing seven decades of motion picture scores and songs released between 1927-1997. With 84 songs and a running time of more than five hours, the anthology boasts selections honored with 37 Academy Award nominations, 14 Oscar wins, and 18 Grammy Awards. Nineteen were hit singles, and nine claimed the #1 position on the *Billboard* charts. Programmed chronologically and accompanied by an 84-page booklet, this box-set has dozens of highlights. From Al Jolson's 1927 rendition of "My Mammy" (from *The Jazz Singer*) to Paul McCartney's 1997 track "The World Tonight" (featured in the film *Father's Day*), every possible base has been covered. Easily a winner from start to finish!

Long a well-respected heartland rocker, Cleveland's Michael Stanley

returns with a double-live unplugged CD, showcasing moving renditions of some of his best work, both solo and with the Michael Stanley Band. Dubbed *Live In Tangiers* (Razor & Tie), the CD features Stanley caught live in such Buckeye State ports of call as Akron's Tangier Club, The Rock & Roll Hall Of Fame, Sandusky, Youngstown, along with a show from St. Louis. Intimate and personal, Stanley's songs always strike a chord, and they do so even more in their acoustic versions. Highlights include "My Town," "Falling In Love Again," "In The Heartland," and "Everything."

With a memorable role on Peter Gabriel's *Secret World Live* tour in '93, and the '95 album *Emotion* on his resume, Papa Wemba's new collection of lilting Afro-Pop concoctions, *Molokai* (Real World), is one of the most eagerly-awaited World Music releases of the year. On *Molokai*, Wemba looks back on his 27-

year career, and reworks some of his best loved material. Aided by the deft production work of John Leckie (Radiohead, Stone Roses), Wemba breathes new life into older fare like "Image" and "Epelo," while new material like the a capella "Excuse Me" and the pulsating groove of "Bakwetu" stand out just as strongly. You can catch Wemba touring behind *Molokai* with the Africa Fete tour in the following cities: 6/18, Los Angeles; 6/19, Marysville; 6/20, Portland; 6/21, Saratoga; 6/25, Minneapolis; 6/26, Champaign; 6/28, Boston; 7/1, Chicago; 7/2, Detroit; 7/5, New York; 7/7, Northampton; 7/8, Washington, D.C.; 7/12, Atlanta.

With his new CD/novella *The Riggley Road Stories* (Sweetfish), Rees Shad makes a case for being a '90s Renaissance Man. *The Riggley Road Stories* is the tale of a young boy, hunting with his older brother and two friends, who is accidentally shot and killed, with the repercussions forever changing the lives of all involved. The music accompanying the novella is steeped in the same darkness and imagery, as tracks like

"The Accident," "Incident On Riggley Road" and "Sylvia's Eyes" work well against the backdrop of the story. A special companion comic book will be made available by mail-order only. Look for *The Riggley Road Stories* in stores July 7.

New from Autonomous Records (who

recently inked a joint venture with Roadrunner Records), are releases from two very vital singer/song-

writers: Beth Wood's *New Blood* and Billy Voss' *Lucky Driving Buddha On New Blood*, her second effort. Wood shows the voice and muse of one who has been crafting great songs for a lifetime. On tracks like "String Of Hard Luck," "All Yours" and the moving title track, Wood's angelic voice and moving words shine brightly, resulting in a collection that is just as tuneful and melodic as it is challenging and thought-provoking. Signed by Autonomous shortly before Christmas last year, Billy Voss has

A Problem Solving Forum for Progressive Programmers

## THINK LIKE A LISTENER

by Dennis Constantine

It's busy inside a radio station: Many program directors get so caught up in the daily routine of music, promotions, production, budgets and other station matters that they sometimes lose sight of their radio station from the listener's perspective. Listeners don't know about rotations, sound codes, dayparting, clocks, seg-assists, production values, and any of the myriad of radio terms that have become so intertwined into our vocabulary and our way of thinking.

At least once a day, take a break from the world of radio and immerse yourself in the world of being a listener. *Think like a listener.* Put yourself in front of a radio and listen to your station as if you were tuning in for the first time. What is your initial response? What kind of station is this you've found? What kind of music does this station play?

### Changing Stations

The top two ways people discover a radio station is either by finding it while scanning the radio dial or by personal recommendation. When you are sitting in front of your radio, push the scan button and see what you find. You'll be amazed at how different the radio dial seems when you are pushing a scan button not knowing what to expect at the next stop.

Are you maximizing your chances of picking up a scanning listener? Are your spots playing at a different time than a compatible competitor? Do your clocks schedule a song that will attract a new come listener when your competitor is playing spots? While your station is the center of your world, there are many people in your city who have never heard of it. Your goal is to make a strong impression and wow new listeners when they tune in.

### Make A Clear Impression

One of the challenges for Progressive Adult Radio stations is to have a singular musical identity. Many Progressive stations play so many genres of music that it becomes difficult to pigeonhole the station musically. Today, with so many choices on the radio dial, you really only have two songs to identify your station's music image to a new listener. You have the song they hear when they tune in and the song that follows it. Ideally, you identify your station between those two songs so new listeners will know what station they've tuned to.

To make the clearest impression, decide what music cluster your station can own in the market. Then, make sure that one of those two songs is from your core cluster. If someone tunes in and hears **B.B. King** and **Icehouse**, that's not giving a clear message. On the other hand, if the

listener hears **Talking Heads** and **Pearl Jam**, the message is clearer.

### Balance The Music

Think of every song played on your station as either "horizontal" or "vertical." The horizontal songs are the ones that are played all along the dial in your market. The vertical songs are the ones that give your station its unique identity. To keep your station as relatable as possible to new listeners, divide your categories by the horizontal and vertical criteria. Make sure the horizontal songs that relate to new listeners (and to a larger cume) come up with regularity. Use the vertical songs as spice to give your station a unique flavor. And keep in mind the old adage, "too much spice spoils the stew." Use the spice songs gingerly.

A rule of thumb: If you are going to be musically broad-based by playing many different styles of music, play the best songs from each genre. Keep the songs from each genre as familiar as possible. If you are going to specialize in one style of music, then go deep into that music. A station that plays nothing but Folk music can go deep into the world of Folk music. A station that uses Folk music as spice should only play the very best from the Folk world.

### Explain Everything

When promoting something on your station, promote it for someone who has never listened. For example, if you have a feature called *My Three Songs*, don't assume everyone knows what that is. Insert an explanation every time you promote it: "Coming up next on WAAA, *My Three Songs*, where I'll play three songs and have you guess the theme." Imagine a new listener tuning in and hearing the deejay promote that "*The Ten O'Clock News* is coming right up." If the listener doesn't like news, he or she is gone. However, if the deejay had inserted an explanation, "Coming up, WAAA's *Ten O'Clock News*, our new music feature," the listener would be more likely to stay-tuned out of musical curiosity. Explain every feature and special program you have on your station. It only takes a few extra seconds, and your regular listeners won't be offended by the extra explanation.

### Contests Are Not About Winning

Here's a question that has been talked about for decades: Do on-air giveaways really help your radio station? When a deejay announces that the third person to call will win a copy of a hot new album, is there really a station benefit? In reality, only about one percent of your listeners will ever pick up the phone and call for any reason.

And of course, only one person will win. So what have you accomplished? Yes, everyone who was listening knows that your radio station gives away cool prizes, but how many people think they have any chance of being the winner? Does this attract new listeners or serve your core?

Make sure contests are for listeners, not for winners. If you're going to hold a contest, make it interesting for all the people who are *not* calling in. Ask an interesting trivia question, or make the contest fun to listen to. Giving things away can be a good thing. It's the attitude you project that matters. Bringing it to a more personal level, when you give a gift to a friend, it's not some sort of bribe. It's given because you care — it comes from the heart. Giving in such a positive, genuine way enhances your rapport with your listeners, and can only help your station.

### Minimize Special Programming

Consistency wins! Make sure your radio station has a consistent musical format. To maximize potential and minimize listener confusion, specialty programs need to be in tune with the regular programming on your station. If people tune in one day, and your station is playing nothing but Blues, and then tune in another day and hear a Jazz show, and another time hear an eclectic mix, the station has not created a strong image. By being as consistent as possible, your station will make an impact on a new listener. You'll be reliable, and can therefore become part of a listening pattern or habit.

Special programming does have its purpose. Its main goal is the image it creates for your station. That image is built more in talking about it than actually doing it. For example, if you want to give the image you are connected to the local music scene, you'll get a stronger image by playing one song and promoting it than you will by having a two-hour show devoted to local music. More people will hear the one song than stick around for two hours of songs they don't know. If you do run long-form music shows, make sure they run at low-listening times like weekend nights when they won't be a liability to the station's consistency.

### Create A Brand Name

Radio is a product. Think about the products you have around your house: toothpaste, deodorant, shampoo. How do you choose what brand of a product you use? How does a new product brand convince you to change? Most consumers are brand loyal, that is to say, they find a brand they like and they stick with it. A new product has to come along with a very compelling reason for someone to change their product usage. Too

# SINGLES/EPs

## NEIL FINN "SINNER," WORK

As a principal member of three great bands, Crowded House, Split Enz and the Finn Brothers, Neil Finn crafted many memorable songs ("Don't Dream It's Over," "Only Talking Sense" and "Something So Strong" come to mind). "Sinner" is the first track from his inevitable debut solo album, titled *Try Whistling This* (in stores June 16). It is a striking song that is both sophisticated and hip. Mixed by Nigel Goodrich (Radiohead), look for it to dominate playlists swiftly.

## IMOGEN HEAP "COME HERE BOY," ALMO SOUNDS

Remember the first time hearing Tori Amos, Kate Bush, Patti Smith, or Fiona Apple? Remember when you listened to one of the aforementioned artist's debut albums for the first time, and as it played, you knew that they were destined for musical greatness? Well, just wait until you hear *I Megaphone*, the debut album from London-based singer-songwriter Imogen Heap! From start to finish, it is easily one of the strongest debuts of 1998. "Come Here Boy" is the seductive first single.

## LILI HAYDN "STRANGER," ATLANTIC/AG

A veteran of the Los Angeles Philharmonic, violinist Lili Haydn has worked with Tom Petty, No Doubt, Jewel, Porno For Pyros, Victoria Williams, and Hootie & The Blowfish, among many others. "Stranger," the first single from *Lili*, her Atlantic Records debut, finds Haydn striking out as singer, songwriter and bandleader. Oh, and she rocks! Look for her to be the opener on this summer's Page/Plant tour.

# ALBUMS

## SMASHING PUMPKINS ADORE, VIRGIN

Sixteen tracks deep, the newest from the prolific Smashing Pumpkins, *Adore*, is atmospheric and delicate from beginning to end. The most bombastic Rock track on the album is the first single, which has its own sense of balance. "Ava Adore" is already spinning at Rock, Modern and Progressive. The film noir appearance of the CD artwork is reflective of the haunting melodies contained within. We think that programmers will find a lot to play from their latest to please the band's fans. Listen to: "To Sheila," "Ava Adore," "Perfect," "Tear," "Crestfallen," and "Shame."

## ROY ROGERS PLEASURE AND PAIN, POINTBLANK/VIRGIN

The twice Grammy-nominated musician, singer-songwriter, slide guitarist, and producer of such Blues luminaries as John Lee Hooker has another solid release in stores on June 2 for Pointblank. Roy Rogers is a well-traveled, San Francisco Blues musician who has a diverse Blues palette that swings from traditional to contemporary styles without ever ringing false. Programmers that dig the Blues will find a slew of material within the laser etchings on this CD. Try: "Down Here In The Real Big Empty," "Maybe Not," "You Can't Stop Now" (with Sammy Hagar!), "I'm Falling By Degrees," "Down At Josephine's," and "Gertie Ruth."

## SCOTT THOMAS BAND CALIFORNIA, ELEKTRA/EEG

*California*, the Elektra Records debut of the Scott Thomas Band, was produced by Thomas with guitarist Andrew Williams and features an assorted cast of guest musicians, including Chris Stills and The Wallflowers Rami Jaffe. Running the gamut from delicate and introspective acoustic pieces ("California," "Sad Girl," "Believe," and "Days Of Hours"), to full-blown head-humming Rock (the first single "Black Valentine," "Happy," "Never Coming Home," "Run Baby Run," and "Full Moon Painter"), Thomas' debut is a winner from beginning to end. We challenge you to find one throw-away track.

# METAL MONSTERS

## MADBALL LOOK MY WAY, ROADRUNNER

NYHC's favorite sons should sure as hell have you looking their way as they storm forth with their latest pit stirring effort, a cornucopia of "Watch your back and don't be a victim" lyrics slammed against chunky, moshy breakdowns. Freddie, kin to AGNOSTIC FRONT'S Roger Miret, has undeniably assumed his best vocal posturing to date, adopting a gruffer yet clearer tone to his oral emissions. Classic MADBALL riffs come to a head on the title cut, "Moment Of Truth," "Cut Off," "Wastin' Time," and "Pushin' Me." Also in the mix for the global and gutsy Hardcore community and audience is "One Family," which is sung entirely in Spanish! Madball retains their sound while growing and progressing at the same time!

## MERCYFUL FATE DEAD AGAIN, METAL BLADE

The buzz around town stakes the claim that MERCYFUL FATE's best record manifests itself in the form of *Dead Again*. King Diamond continues to do double duty, fronting both his solo band and MF. If James Brown's the hardest-working man in show business, King's the hardest working man in Metal, or at least the hardest working Satanist in show business. His patented theatrical high-pitched Metal vocals and the excellent guitar pyrotechnics of Hank Sherman continue to be the focus of Mercyful. Plus, with conceptual song structures and titles like "The Lady Who Cries," "Sucking Your Blood," and "Fear," you Metal maniacs know what you are in for. Another sure-fire hit for King Diamond's coven of fans. Eight stations (Music Choice, WWSP, WKLL, KFMX, KMSA, WECS, WFCS, and WXCI) go early.

## SAMEAL EXODUS, CENTURY MEDIA

Those who've followed SAMEAL since the beginning of their career were no doubt shocked by their last album, *Passage*, in which the European Death Metal band found both melody and technology. Their most accessible and best work, it brought the band to a new audience and unleashed their new sound. While the band's new full length album won't be out until later this year, they've released *Exodus* to tide us over in the meantime. Consisting of three new songs and three remixes of older tunes (plus an ambient instrumental seventh track), this completes the band's evolution of their sound from Death to diversity. While elements of their old sound remain (witness the vocals and some of the instrumental passages), the use of sequencers and keyboards brings them up-to-date for the new millennium and makes them stand apart from the rest of the scene. Check out "Exodus," "Tribes Of Cain" and "Winter Solstice."

## VOIVOD PHOBOS, SLIPDISC

Since they first started releasing records almost 15 years ago, VOIVOD has long been considered one of the most experimental and technical bands that Metal has to offer. Key proponents of the technical genre known as "Math Metal," the band's released another concept album in line with some of their earlier classics like *Killing Technology*. *Phobos*, which was released last year as an import, was

recorded virtually live, and the result is the most analog record the band's ever recorded. In addition to the eleven songs that follow the band's ongoing concepts of conspiracy theories and the future of mankind, there's also two bonus tracks. The first of those, "M-Body," was co-written by METALLICA's Jason Newsted, and the second is a cover of KING CRIMSON's "21st Century Schizoid Man." Go for "Mercury," and "The Tower," to start with.

## THUMB EXPOSURE, VICTORY

Germany's THUMB is no stranger to America. They are imported stateside courtesy of Victory Records, have worked with People for the Ethical Treatment of Animals on an anti-fur campaign, plus Claus Grabke was a pro skater in the '80's. His skating background will come in handy this summer, because the band's success in Europe (they've sold over 70,000 there) had landed them on the Warped tour stateside. Musically, the band lands on its feet in the post-Hardcore category. Thumb is richly melodic yet their sound is infused with crunchy axework and stellar percussion, mixing the best elements of Hardcore, Punk, and Emo. "Thank You For Hating Me," "Remember," and "This Life" are drenched in raw, cutting rhythms while being crafted in structure. Give Thumb the exposure they deserve and your American listeners need. Warped tour, and has sold 70,000 in Europe.

**ALSO GOING FOR ADDS:** FURY OF FIVE, *At War With The World*, Victory INCANTATION, *Diabolical Conquest*, Relapse NILE, *Amongst The Catacombs Of Nephren-Ka*, Relapse

\* **BLACK SABBATH** drummer Bill Ward won't be appearing on the European Ozzfest shows as reported. He was hospitalized last week after taking ill following a rehearsal. While it has been reported that the drummer suffered a heart attack, that's not confirmed at press time. Vinnie Appice, who's played in Sabbath twice before, will replace Ward on the drum throne, and began rehearsals this week. It's expected that once Ward recovers, he'll rejoin the reunion.

\* **METALLICA** bassist Jason Newsted is keeping himself busy outside of the band. He'll be appearing on a "Hatred Inside," a song on the upcoming SEPULTURA album, *Against*. As you've found out by reading the VOIVOD review on the other page, Newsted also co-wrote "M-Body," a song on their latest album, *Phobos*.

\* From our *Straight Outta KoRn* dept.: Add Ice Cube and the PHARCYDE's Tre Hardson to the ever-growing list of guests on the new KoRn album, *Follow The Leader*. Ice will demonstrate his style on a song called "Children Of The Korn," and Tre will pop-up on a song tentatively called "Cameltoesis." This announcement comes following reports that KoRn has teamed up with Ice and Mack 10 for a version of "Should I Stay Or Should I Go," for the CLASH tribute album.

\* **MONSTER MAGNET's** upcoming video for "Space Lord" will feature frontman Dave Wyndorf tooling around Las Vegas in a Trans Am with MARILYN

# STUFF YOU SHOULD KNOW...

**MANSON's** Twiggy Ramirez, who turns-up in a cameo appearance. The video is a send-up of Hip-Hop videos, and will feature Vegas, cars, women, and elaborate costumes. "I looked at what was on MTV and said, 'Those Rap guys are having fun. I want to make a video like those guys,'" Wyndorf told *Allstar*. "I thought it was hilarious. It's like they let these guys out of a trailer park somewhere in Florida and they got into a Rap video and took over, not realizing what all that stuff means, just thinking, 'Hey man, I want cars and girls, too.' It was pure jealousy of the Rap scene. Plus, I got to go to Las Vegas and hang out with dancers." We'll be looking forward to seeing that one...

\* Here's some song titles for the upcoming **Bruce Dickinson** album *Chemical Wedding*: "Chemical Wedding," "The Book of Thell," "The Gates of Urizen," "The King Crimson," "Jerusalem," and "The Alchemist."

\* With Tommy Lee currently in the slammer for spousal abuse, **MÖTLEY CRÜE** might want to think about re-releasing the version of "Jailhouse Rock" that closed out the *Girls, Girls, Girls* album. However, the band is supposedly finishing up two new Bob Rock-produced songs for an upcoming

greatest hits album. The two songs are titled "Bitter Pill" and "Slave." While there are rumors that Mötley Records is close to finding a distributor, that hasn't happened yet.

\* **MINDROT** drummer Evan Killbourne is currently taking a hiatus from the band as he takes to the road as the touring drummer in chick-fronted Ska band **SAVE FERRIS(!)**.

\* From our *For Those About To Mail, We Salute You* Dept.: **AC/DC** have been honored in their native Australia with a stamp. While the stamp won't actually bear their likenesses, it was "inspired by" their classic song "It's A Long Way To The Top." Apparently, royalty are the only living people that appear on stamps in Australia. Still there's no reason why they couldn't have honored **Bon Scott**...

\* **WSTB/Streetsboro** joins our list of Metal Detector reporters this week. **Donny McVicker** is the Metal Director at the station and you can reach him at 330-626-4906. 330-626-5640 is his fax number.

\* On the other side of things, it's been confirmed that the following stations are off-the-air for the summer due to, well, them being off-the-air for the summer: **WXVU**, **WVCS** and **WSUP**. Thanks for telling us, guys.

\* **WONC**, **WBGU** and **WWVU** join the ranks of stations that have missed reporting for two weeks in-a-row. They would be strongly advised to report to us next week...

# Modern picks

**Barenaked Ladies, "One Week," (Reprise)**

The first single from the new album, *Stunt*, has arrived and is everything you hoped it would be: witty, fast-paced, full of energy and undeniably infectious. Their superior live show once again transcends expertly to the airwaves, offering the format a deliciously-paced, hilarious Pop gem that should work real well with your audience. Look for Canada's finest to expand their success here in the States with this single, and be sure to look for them on this year's *H.O.R.D.E.* tour.

**Beastie Boys, "Intergalactic," (Grand Royal/Capitol)**

After a special preview of this track by Mike D. at this year's SXSW Music Conference, we knew that this song would have a lasting impact on the format in a big way. Our second listen confirms our belief that the Beasties have done it again. "Intergalactic" is a funky Hip-Hop Rap trade-off in the finest Beastie tradition. Powered by spaced-out effects and hard-driving beats, "Intergalactic" succeeds on many levels. We dare you to not like this song. From the long-awaited and much anticipated new album, *Hello Nasty*, in stores July 14.

**Rancid, "Bloodclot," (Epitaph)**

The first single from their highly anticipated new album, *Life Won't Wait*, is a raucous rocker that is sure to be a no-brainer in most (if not all) of the Modern universe. Tim, Lars, Matt, and Brett are at it again, pumping out an unrestrained Ska/Punk fury that has no equal. Lars' lyrical nods to Lee "Scratch" Perry and the Ramones (not to mention a bass break evoking the best of Entwistle and Foxton), alone are worth the listen. They'll also be on the *Warped* tour this summer. The summer may very well belong to Rancid, so why wait? GO!

**Natalie Imbruglia, "Wishing I Was There," (RCA)**

Following up the rousing success of "Torn," Australian-born Imbruglia should equal or possibly even surpass the prosperity she enjoyed with her first smash hit. This love-lost story plays out in a very upbeat, hooky and rhythmic way, complete with acoustic and electric guitar licks and bouncy backbeats. Her angelic/devilish voice will captivate you all over again, and her smart lyricism will do much more than entice you. Pencil this one in as a no-brainer.

**Catatonia, "Mulder And Scully" (Vapour)**

Yes, that Mulder and Scully. In a timely release, Catatonia comes your way with this *X-Files* tip-of-the-hat. Packing an incredible hook, "Mulder And Scully" have already torn up the charts in Europe (proving that *The X-Files* isn't just an American thing, apparently). Catatonia looks to spread the success of this song, and several others from *International Velvet* that have fared well abroad. The angelic voice of Cerys Matthews will leave a lasting impression. Look for Catatonia to hit the road in the U.S. in late July (including some *H.O.R.D.E.* dates).

**K's Choice, "Everything For Free," (550 Music/Sony)**

K's Choice has many things on tap this summer. Aside from releasing their new album, *Cocoon Crash*, (produced by Gil Norton of Foo Fighters, Counting Crows, Pixies fame, and which also sold 100,000 copies in Europe in just three weeks), K's Choice will be headlining a U.S. tour which will be followed by a series of *Lilith*

*Fair* dates in June (headlining the 2nd stage for nine of those dates). Sarah and Gert will be featured prominently in the upcoming *Lilith Fair Vogue Magazine* photo spread, and Sarah also recently lent her background vocals to the score written by George S. Clinton for the movie *Wild Things* starring Kevin Bacon, Matt Dillon, Bill Murray and Neve Campbell (the movie also features 1 1/2 minutes of "Not An Addict"). Oh, did we also mention that this song is fantastic, possibly a Top 5 (or higher) charting record? ...just making sure.

**Cowboy Junkies "Miles From Our Home," (Geffen)**

The Cowboy Junkies' new album of the same name finds the band broadening their beautifully ethereal style with added layers of instrumentation and experimenting with tempo, texture and dynamics. This lush, skillfully crafted collection features ten new songs from the consistently rewarding group fronted by sibling team Margo and Michael Timmons. *Miles From Our Home* is Cowboy Junkies' seventh album, produced by John Leckie (The Verve, Radiohead, Kula Shaker, Stone Roses). This first single is a lusciously arranged and performed record that deserves instant airplay (even in the midst of the recent surge of new releases).

**Creed, "What's This Life For?," (Wind-Up/BMG)**

It's been quite a year for Tallahassee natives, Creed. Certified platinum in March, *My Own Prison* has taken the country by storm, spawning the smashes "My Own Prison" and "Torn." Now comes "What's This Life For?," a heavy-handed emotional track, switching back-and-forth between bittersweet verses and a furious chorus. Singer Scott Stapp's vocals shine yet again, powered by another blistering performance by guitarist Mark Tremonti, bassist Brian Marshall, and drummer Scott Phillips. This soul-searching look at suicide and it's effect on others is a stirring statement on an unfortunately all-too-common occurrence. On at WXSJ, WBCN, WPLA, Q101, WEND, KTOZ, WEJE, and WGRD.

**Far Too Jones, "As Good As You," (Mammoth)**

With hundreds of club and college shows under their belt and several self-released CD's in the market, this five-piece band from Raleigh, North Carolina has built a loyal following with their gritty Pop tunes and soaring harmonies. Their acoustic/electric guitar mix works like a charm, delivering a Rootsy feel, rich in Pop smarts. Check this record out, it has SERIOUS potential to become very big. Taken from their Mammoth debut, *Picture Postcard Walls*, produced by Gavin MacKillop (Toad The Wet Sprocket), is due in stores June 30.

**David Garza, "Discoball World," (Atlantic/AG)**

Compared to everyone from Lindsay Buckingham and Matthew Sweet, to the late Jeff Buckley and Elvis Costello, David Garza finds himself in remarkable company. Garza lives up to those comparisons, churning out exceptionally unique and magnetic melodies. His talents are something to be very excited about. His debut, *This Euphoria*, is a 12-track walk through Pop mastery, executed with the brashness of a seasoned veteran. Begin your introduction to this great talent with this first single, a blistering Pop ride that'll sweep you on board after the first listen.

**Outcry, "On & On," (Eureka)**

New Jersey's own, Outcry, hit your add table this week full of promise, strong hooks and energetic, melodic songmanship. They've been compared to R.E.M. and Crowded House stylistically, but have an uncanny knack of being able to be tied down to one particular sound or niche. Their varied influences and emotional articulation make them stand out. Don't get caught napping on this one. Be sure to give it an honest listen.

**Chumbawamba, "Drip, Drip, Drip," (Universal/UMG)**

England's Chumbawamba return with another insanely catchy, anthemic track from *Tubthumper*. This is a slick record that utilizes amazing vocal harmonies, pulsating backbeats, and marvelous production. Bravely stealing from almost every musical genre and surpassing it's influences, Chumbawamba lands another knock-out punch that is sure to draw phones. Oh yeah, that "guy" from "Tubthumping" rears his head again, so be certain to check this new track out!

**Stanford Prison Experiment, "Compete," (Island)**

Building upon a series of critically acclaimed releases on

World Domination Records and tours with artists such as Rage Against The Machine, Quicksand and Primus, Stanford Prison Experiment are poised to take their unique brand of politically charged, angst-driven Rock to the next level with their debut Island Records release, *Wrecreation*. Songs such as this first single showcase the band's ability to mesh their socio-political convictions with Rock-Pop sensibilities. The band is also ready to hit the road again this summer with Jesus Lizard and Girls Against Boys in support of their new release. Look for them live, and definitely check out this track!

**Tricky, "Broken Homes," (Island)**

Long acknowledged as one of the most innovative, creative and original musicians of his time since the release of his critically acclaimed debut album *Maxinquaye* (1995), Tricky continues to blaze a musical trail of his own. He weaves his own voice with the sublime vocals of Polly Jean Harvey through the gospel-tinged "Broken Homes." Add to that the rolling fury of "Money Greedy" (the CDPro's second track) versus the mellow 360% and you have a glimpse of the many voices and moods of Tricky. Give Tricky his long-overdue mainstream break.

**L inEr notes**

Live will be playing some new material on several east coast club dates centered around their *Tibetan Freedom Concert* performance. The Chameleon Club in Lancaster on June 9, 10, 11, the Stone Pony in Asbury Park on June 16, Bottle & Cork in Dewey Beach, DE on June 17, Trax in Charlottesville on June 19, Summer Sounds in Charlotte on June 20 are the locations that Live will bring their mini-tour to. More info on show dates can be found on the group's official Web site at <http://www.friendsoflive.com>. The band is also currently writing more new songs for their fourth album, which

probably won't be released until late spring or early summer in 1999.

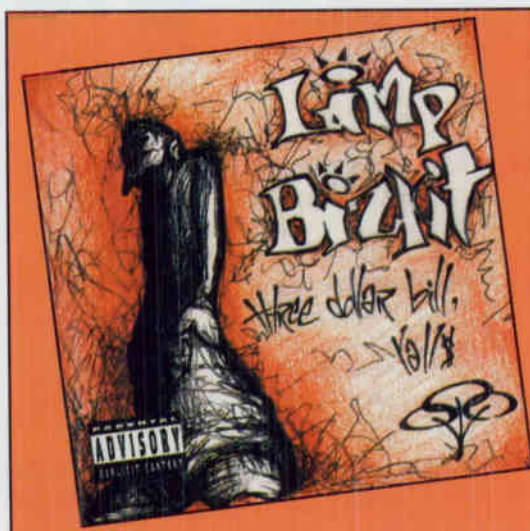

Fifteen years after their final performance, British Gothic Rockers Bauhaus are going to reunite for two shows on July 10 and 11 at the Palladium Theater in Los Angeles. Bauhaus released five albums between 1979 and 1983 before its members splintered off into other musical pursuits. Peter Murphy opted for a solo career, while Daniel

Ash, David J and Kevin Haskins formed Love And Rockets. Several other off-shoot projects, Tones on Tail,

The Jazx Butcher, and solo albums by David J and Daniel Ash, also came from the original Bauhaus members. The exclusive L.A. performances, which will be recorded, are being dubbed *Resurrection* in homage to the last word uttered during their farewell concert at London's famed Hammersmith Palais on July 5, 1983. The four original members of Bauhaus were inspired to get together at this time because, according to Ash, "We feel that it is very relevant today. We are artistically motivated and all extremely excited and looking forward to having a lot of fun with these shows."

Ice Cube and the Pharcyde's Tre Hardson will be guesting on the upcoming KoRn album, *Follow the Leader*,

which is due out on August 18 on Immortal/Epic Records. Ice Cube laid down his vocals for the song "Children of the Korn" on Tuesday, May 19 in a North Hollywood studio. In the past he has stated that he was interested in working with the group on their album after collaborating with them on The Clash song "Should I Stay or Should I Go" for the upcoming Clash tribute album. Also appearing on the KoRn release is Cheech Marin for a cover of Cheech & Chong's "Earache My Eye," and Limp Bizkit singer Fred Durst will be guesting on "All In The Family." Steve Thompson (Blues Traveler, Butthole Surfers, Guns N' Roses) is producing the record.

**RAPIDLY APPROACHING GOLD!**

**-Files...** The festival season is in full swing, with the latest shin-digs happening in Chicago (5.23), St. Louis (5.24), and Pittsburgh (5.25). Q101's *Jamboree '98* kicked off Chicago's New World Music Theatre season by selling out the 28,000 seat venue. Highlights were **Creed**, **Scott Weiland**, **Barenaked Ladies**, **Foo Fighters**, **Ben Folds Five**, and **Soul Asylum**. Barenaked Ladies continue to dazzle crowds with their wit and humor, while Weiland

and his band are starting to gel into a cohesive unit that is winning over skeptical audiences. Foo Fighters put forth their usual energetic performance, while **Minnie Driver's** presence with the band is becoming the talk around water coolers the day after Foo performances. During Q101's show, Ms. Driver could be seen on stage snapping photos of her new flame, **Taylor Hawkins**. We guess it is only a matter of time before the public figures out who Minnie was reluctant to reveal to **Barbara Walters** when asked about the new man in her life... KPNT/St. Louis' *Pointfest 9* was a spectacular success, highlighted by **Green Day's** subsequent trashing of the stage, their dressing room and hotel room (and they only said "fuck" on the air twice). To the delight of the crowd, Green Day proceeded to set the stage on fire after destroying all their instruments. The quote of the night came from *Pointfest* host **Matt Pinfield**, who stated that "Green Day's too big to trash hotel rooms, they have people for that." In other *Pointfest* moments, the station had a plane fly over the event with a "I Need Pointfest Tickets!!" sign with a contact phone number to see how many responses they would receive. APD **Marty Linck's** incognito voicemail greeting collected 98 responses, ranging from helpful listeners offering extra tickets, to irate listeners telling him "Too bad!" and that "they have great seats!" and if he can afford a plane, he "should've bought tickets himself!" Other performance highlights at *Pointfest 9* included another stellar performance turned in by **Foo Fighters**, **Deftones** (who drew 6,000 attendees to the side stage to watch their ravaging set), and hometown heroes **Gravity Kills** closing the show and bringing the house down. *Pointfest 9* sold 22,000 tickets in a record 36 minutes. It was the fastest sell-out in the history of the Riverport Amphitheatre. *Pointfest 10* is scheduled for early September... Over 20,000 people jammed Star Lake Amphitheater for **WXDX/Pittsburgh's X-Fest**. Festival bad boys **Green Day** once again brought their drum-igniting pyro-antics with them. After a couple comments about **Jimmie's Chicken Shack**, Jimmie's bass player, **Che Lemon**, wandered on stage during **Green Day's** performance, dropped his pants, and made a few comments into **Billie Joe's** ear. More than a few people noted that **Lemon** made **Tommy Lee** look small. Other noteworthy performances were put in by **Weiland**, a well received **Black Lab**, and **killer sets** by **Deftones** and **Fuel**...

### MODERN ROCK REVENUE RANKINGS

The 1998 *Duncan's Radio Market Guide*, **Jim Duncan's** annual breakdown of radio revenue, was recently released. From that book, *fmqb* has provided a look at the revenue **Modern Rock** outlets are pulling in, each individual station's market rank and percentage of revenue they own within their market. Revenue totals provided are gross with no trade. Network compensation is included, if known. Estimates are based upon input from managers in each market, surveys sent to group CEOs, and **Duncan's** own judgements and formulas.

# Programming to WIN

## “Don’t Blame Me, It’s The Processing!”

By Steve Stone

Does this sound familiar? You’ve spent the better part of an afternoon slaving over a hot mixing board. You invite your program director into your Fortress Of Sound-a-tude to listen to your latest creation. After listening to it, you hear this... “I don’t know, I can’t tell what’s being said!” or “Can you boost the voice tracks up a bit, and lower the music?” What?! It’s a hard pill to swallow, when you’ve over-produced. Who me? It’s that DAMN processing!

The message is being lost. After all, the message is why you made a promo in the first place! Show off your production skills, keeping in mind the bosses rant. “I can’t hear the voices!”

“Yeah... okay! Whatever.” (under your breath)

Don’t lose it, it’s not the end of the world! Here are some ways to check if you’ve put a little too much into a promo.

First, before it goes on the air, grab someone (anyone) from the office. The best person is someone that listens to the radio in the office and is not likely to know every little detail of your station. (Dare I suggest a sales person?) Without telling them what it’s about, play the promo. If they can’t make sense of it from one listen, you’ll need to re-think the way you’ve produced it. It could be the copy, but ninety-nine percent of the time, it’s going to be the mix.

If there is no one around (most of us finish work when everyone else has gone home), play the promo through a cue speaker at low volume. This usually simulates what it’ll sound like on most people’s clock radios... (which, by the way, is how my PD busts me... argh!) If the vocals are hard to hear and certain sounds disappear, you’ll want to re-think your mix.

Panning is a great effect, but a deadly one if you’re not careful. Things get lost, and you don’t want the nightmare of hearing a promo on the air and not hearing parts you panned to “go to the left

doh-see doh, and to the right doh-see doh!” (It’s a song, sing along!)

Realize that the typical listener doesn’t listen as close to your production as *you* might, so the message needs to be clear. I’m not saying that you strip your promo down to the bare bones, just realize that distorting your voice and adding a thumping music bed is going to make it harder for things to be heard. (Not that there’s anything wrong with that!) Just put your mind into that of the listeners. They want to know what you have to say! Try listening to your mix at a lower volume, as if it was background noise. You’d be surprised at the amount of times you’ll go back and re-touch a fader.

Even when you’re done, your promo ends up sounding different when it hits the air. That DAMN processing! The final fight! Spend time with your engineer and get to know what crazy sound processing your production goes through when it goes on the air! It helps, since it’s a variable you might not think of all the time.

It’s frustrating when you’ve worked hard on something and it just doesn’t sound right. The last thing you want to do is dwell on it! Your job is to create a unique package for the “message,” whatever it may be. You gotta go full throttle with the production, but remember that each promo has it’s own gauge. Full throttle could mean turbo-charged, or a manual four speed stick shift!

Over-produced (*adj.*) Something a PD says when he wants you to work until two in the morning.

You need to learn to police yourself. It may feel awkward the first time you produce a promo with a lot less music and effects, but I’ve had great success with promotional campaigns using very little production value. Accentuate the copy and don’t bury it.

Before your next promo hits the air, ask yourself this: 1) Does it suck? 2) Is the message getting through? 3) Does it have direction? 4) If I were my PD (Ooh Fah!), would I approve this for on-air usage?

I’m hoping for one no, and three yes’.

After that you can start wondering if you can get a six pack across the street this late at night. Probably not...that DAMN processing!

## Talk Of The Revolution

Many *NMS Revolution* pundits wasted no time in pinning on Drugstore's contribution with Radiohead's Thom Yorke, the naming "El Presidente," infusing the band to crush our hearts at 13 last week. But an anyone who has spent quality time with the fun-loved band's new full-length, *White Magic For Lovers*, Smaltrunner, could tell you the range doesn't end with "El Presidente." This record is stacked with heavy songwriting, aggressive melodic lines, and a pulsating wall of instrumentation that ranges from cellie to brash, from the pillbox to the street. With tracks ranging from the disarming "Ray Billa" (rich with *Dr. Hook*-style harmonies) to the chb and flow of "Sister," *White Magic For Lovers* proves that Drugstore isn't your average BritPop outfit. Rising from the land of Iggy and Bigman and The Cadillac, Sweden's Komeda and their recent U.S. release, *What Makes It Go?* (Minty Fresh), Komeda's Pop realization comes around the midrange tones of lead singer Lena Karlson, and the band's quirky mix of vintage New Wave and classic keyboard.

Imagine a hybrid of *Shonen Knife* and the Go-Gos' new sound that in a good way, and you've got a good idea of what the band is all about. "It's Alright Baby" already a fan of *NMS Revolution*, is a lily, three-minute glimpse into the band's lounge Pop animal. "NMI De Sun," "Lippement" and "Bizarro" are excellent tracks to follow next. Until all the clutter in your mailbox, you should find a record from a new Ignition act: JoyDrop, entitled *Minimal*. As short, put it on. We'll wait. If you're like us, you're immediately taken with the band's two-faced approach to creating music (has certainly like the "Modern Rock" category, but displays the kind of depth and dynamism that have been heralded with by many in search of the quiet).

So hit. Couple that with the vocal presence of Tara Stone and you've got the makings of a band that should rock up every *NMS Revolution* spin over the summer. Plus, with the lead track, "Beautiful," and wish your way to *Brain Drive*.

### FJ Flax, WARNOCK-CRIES, WHIT/ The Afternoon

Van Fighters "Walking After You" is a no-brainer — it's gonna be huge... Bad Religion has been accused of reaching the same song, and sure, but that's quality you can count on. *Resque Of Truth* rocks... Institutional record in the city (and the song) *Puddle Enemy's* "He Got Game" of Modern Rock radio. The record is no different than that *Fan Loving Criminals* time that you played, and the message is far less angry (and threatening) than any of those *Bad Religion* songs you slipped. Chuck D is one of America's best lyricists. Finally, the second single from *Illink 101*, "Zoo's" is fast and fun.

**Immy at fmqb:** Funny, after performing her single "Come Here, Boy", Almo Sounds recording artist Imogen Heap had all the boys at fmqb following her around the office. We're sure it had nothing to do with her admitting she had split her pants earlier...a jacket tied around her waist conveniently concealed the rip in the back. **In WAQY/Springfield, you have a very successful Classic Rocker that is one of the market's top revenue-generators. What's the competitive situation?**

That's a very competitive market. There are a lot of signals coming in from Hartford—WCCC, WMRQ and WHCN—along with WAAF from Worcester and WRNX from Amherst, Mass. So, you have a tremendous influx of Rock listening coming from nearby markets. WAQY is also on top 25-54, and has a big morning show with **Bax & O'Brien**.

**In Des Moines, you've got to be impressed with the job that Lazer Junior [KAZR] has done. It's also Mancow's biggest syndication success.**

Absolutely. **Troy Hanson** is our Program Director and he has done a magnificent job of integrating **Mancow** into the radio station. We have marketed **Mancow** heavily and that's paid off. This is a market where **KGGO** had a 16 share three years ago and was considered invulnerable. Along comes **98-ROCK**, which took off the top-end of **KGGO** and **Troy** surgically removed the bottom-end. **KGGO's** down to a 5 share, or below, now. We have the No. 2 morning show 12+, and lead the market in Men 18-34. We are going to have to stop calling it "Junior"!

**Amazing, especially when you consider that it was done in what, two books?**

**Mancow** signed on in June and became dominant in two rating books. Then our third book was an absolute homerun. In our target of Men 18-34, **Lazer** went overall from a 16.2 to a 25.2.

**Mancow's doing extraordinary in Des Moines and continues to be one of the dominant players in Chicago, holding off Howard Stern 12+. But Stern has moved to #1 25-54 in Chicago.**

**Mancow** is an 18-34-based program. **Stern** has a different demographic profile and a different appeal. **Mancow's** program is faster-paced and more exciting and more in sync with what we're doing on **Lazer**.

**According to Jeff Pollack, the message from industry leaders at his conference was that ratings and product don't matter anymore, it's all about the revenue. Is that Saga's position?**

We're probably the wrong company to ask that question. We're the most under-levered of all the public companies, and there's a reason for that. In many cases, we think it's going to be real tough to wring 10% and 20% increases each year off of mature properties. We have our own pressures, but we have less pressure than a lot of the highly-levered companies. I know of one company where you

have to call the revenue numbers in daily. I hope we never have to be in a position like that. Someone recently read me an unbelievable memo from a company chief about tactics for raising revenue; not a word about solving client problems. It was all about how to get the revenue today. I think **Jeff** is right, some of the companies are focused on revenue. But I don't think at the end of the day the business has changed. Sales dollars chase ratings points and I don't see that changing any time soon. By the way, every other entertainment business (movies, TV networks, cable, etc.) is investing more in product today than ever before. Radio is investing less? That's short-term thinking. The first stations which see significant rating losses because of failure to spend on product will then take the inevitable revenue hit. Those stations will pave the way for us to return to a cycle in which product comes first. **Ed Christian** and I talk about the importance of product all the time. He is a true broadcaster and knows the importance of putting the listener first.

**Companies are working to get more out of their stations, even if they can't improve the ratings. Non-traditional revenue is the big buzz word. People are looking at Pay-For-Play options. Do you see any concerns?**

There are certain economies of scale that come with consolidation. We're starting to see that in the revenue increases in many of the public companies. That comes from companies smartly consolidating operations, using people more creatively, and offering better packages to advertisers. Conversely, I think that there is a limit to how high trees will grow. They don't grow to the sky. To take a property that has been billing amount X and get a memo on Tuesday saying, "Forget the budget that you submitted, you must deliver an extra 20% this year," is going to be unrealistic in a lot of situations. That means we must do more in areas such as non-traditional revenue. **WSNY**, our AC in Columbus, does a vendor program called "Listener Lunch," which occurs a couple of times a year downtown and feeds 10,000 people lunch. It's all vendor money. It's a free lunch. It's an outstanding promotion because it marries all the best characteristics of a station promotion with all the best characteristics of product sampling.

**Station festivals seem to be growing as a source of non-traditional revenue. Milwaukee has a spectacular city-sponsored**

event called "Summerfest," which draws a million and a half people a year. You will probably see a separate Milwaukee-based event this year. In Norfolk, we did our first big scale event, called the "Lunatic Luau." It was really quite successful, drawing a capacity crowd of 20,000. But we did not budget it to make money in Year One. We hope to make some money in Year Two, and eventually, have it grow to become successful like some of the other [festivals] that we've seen. "Point Fest" in St. Louis is a model for us of how to do it right.

**What are your feelings on Pay-For-Play?**

In one sense, Pay-For-Play has been around for a long time; it's called promotion. It's the slight-of-hand where the record company gives a promotion for influence in a particular area. We're trying to figure out if there is room to formalize something like this without losing our integrity. Our music is our product and I am reticent to let anything get in the way of our product or our integrity. On the other hand, **Eric Clapton** is brought to you by **Lexus**, and that's the way the world is going. Pay-For-Play is complicated. Here's the essence: Our stations are going to play the best new music, regardless of whether the record companies pay us or not. So what we are really talking about is accepting money for secondary and tertiary music. Playing

Our stations are going to play the best new music, regardless of whether the record companies pay us or not.

weak music just doesn't seem like a success formula. We have to figure out what can be done to make sense on the record side that can provide substantial revenue on the radio

side. If it's not going to be substantial, we're probably not going to get involved.

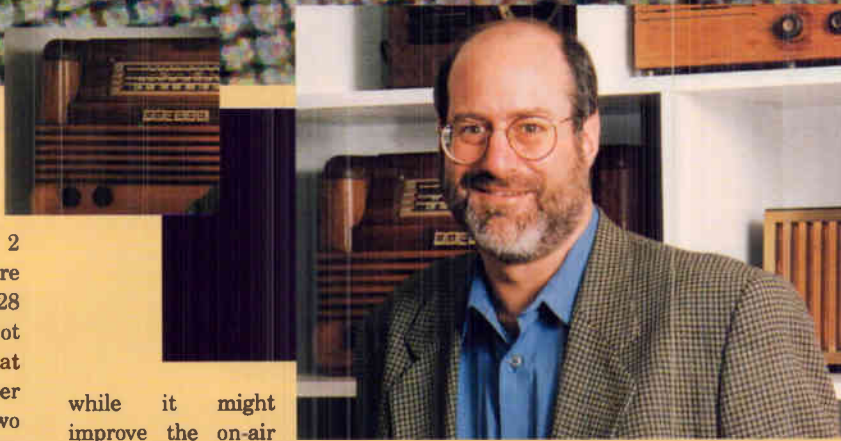

**Harvey Kojan..What were you thinking?**

He sent me a song on cassette about five years ago why he was the right guy, and everyone else sent me their boring programming philosophy. You know, [mockingly], 'research should be used as a guideline.' **Harvey** has been a creative force and a wonderful program director.

**You oppose Arbitron's redefinition of the Boston metro because you feel it will unfairly harm Manchester station revenues. But with six of Arbitron's client companies in Boston supporting the redrawn map, do you have a chance?**

The questionable piece of real estate is called **The Hillsborough REM**, which is short for remainder, and it's the remainder of the

[WLZR PD]  
**Keith Hastings**  
and [WKLH PD]

Manchester metro. The No. 1 and the No. 2 radio stations in that Hillsborough REM are from Manchester. Together we have a 28 share of listening, but there aren't a whole lot more radio stations located in that area that can contribute to the needed average quarter hour level of 55%, so it's hard to stack two radio stations up against Boston's twenty-two radio stations. The new rules that were put in by Arbitron favor the large market broadcaster and put us at a severe disadvantage. They are using old geography with new rules. It is unfair and discriminatory. I spent time as Chairman of the Arbitron Advisory Counsel, and rarely have been this disappointed in their process and actions.

**Will you take them to court if they don't rescind?**

We have contacted them through our attorneys and we'll see where it goes.

**Everybody talks about consolidation, but the other big revolution that's happening in our business is the one that has to do with how products are delivered and the way stations can interconnect and share programming. Is this something that you are getting involved in?**

I'm very excited about the possibility of the cross-use of talent. We have the need for that in some of our smaller markets. We are in the midst of trying to figure out how to do this without taxing our bigger stations unfairly, because ostensibly, that's what we're talking about: Using our larger market talent in our smaller markets. If the byproduct is that we become inefficient in the larger market, that's not a great solution. We have to figure out what the economies are and the best way to do it, but I do think it is part of the future of the business on a selected, as-needed basis. I am not a fan of the notion of turning over all the dayparts to some company in Seattle. We may do [certain] dayparts. I can see our Oldies station in Portland, Maine, having a jock from another market in 7-midnight, but I don't see turning it over from 10 a.m. on to an outside service as a turnkey operation.

**Yet other companies are making plans to do just that. Do you see ramifications from that?**

The technology is clever but the notion of a generic unresponsive station has never been appealing. The other interesting element is we need people on the station level. We do remotes, we have client things, we have contesting, we have production that needs to be done. Someone's got to do all of that. On the station-side they're worried about having their station staff stripped down to the point where they can't get the job done locally. So,

while it might improve the on-air sound, internally it becomes an obstacle. We will get there.

**Is what we're seeing now with larger stations feeding programming to smaller stations only the tip of the iceberg?**

The advantage here is using talented people in more places. This question came up a couple of years ago with syndication: Was morning radio going to be all nationalized? And, the answer to that is local radio is very alive and healthy, but the demand for strong morning shows that work right away has outstripped the supply. Most broadcasters are no longer in a position to feed and develop a morning show. They want fast results. Syndication is a great short-term solution to a long-term problem. We need fresh talent. I don't know if it's the tip of the iceberg, but it sure is a solution in some situations.

Syndication is a great short-term solution to a long-term problem.

**How is the role of the Program Director evolving?**

The Program Director is becoming a lot more of a brand manager: Managing people, managing systems, managing budgets, managing strategy. In our company we have three different types: Program Coordinators, Program Directors, and Program Managers. A Program Coordinator is the person who is generally in the position for the first time and needs a lot of help. We talk often, we're exchanging a lot of e-mail, we may put him on a buddy system with one of our larger market PDs, which by the way, is a great way to empower our larger market Program Directors. The next level is the Program Director, who is, indeed, running the operation. And then we have the Program Manager, who has just grown to become much more vital and involved in the budget, and more strategically important. I read a couple of items in your magazine, *R&R*, and others about keeping products distinct. One of the great resources that I have found with multipoly is bringing in all the Program Directors when we do a strategic meeting for one of the radio stations. You get so much more brainpower concentrating on one property. Why wouldn't you take advantage of your greatest natural resources, which are your programming people, to analyze and discuss scenarios? We have been blessed with some really bright people, and they think about this stuff a lot.

Bob Belini in a room together is a powerful combination. [WAFX PD] Mike Beck and Harvey Kojan in Norfolk together, thinking about each other's problems is a great resource. On a recent weekend in Springfield, Massachusetts, we had fifteen Promotion/Marketing Directors in for a conference. It's the second time we've done that, and that speaks to the whole notion of investing and training people, too. It was an excellent idea exchange

**You frequently hear about companies getting all the sales managers together, or even programmers, but rarely the marketing people.**

And they may have the toughest job in the radio station. They deal with sales people, programming people, clients and try to make it all come together. The marketing people are being called upon to do so much more. I don't know how it works in other companies, but my sense is that there's still a lot of fill-up-the-van and get-the-bumper-sticker kind of Promotion Directors. Our people are in the strategic sessions when we are doing research, and they're in budget meetings. We are definitely trying to invest in them and make them into a lot more than the van gasser-upper.

**What other radio companies do you own stock in?**

Jacor, Clear Channel, CBS, ARS, Emmis. Gotta get those annual reports. My father is a money manager and he says that fortunes have been made by people investing in industries that they know well, and I'd like to think that I know our industry well enough to be investing my money wisely.

**In closing, summarize the keys that have made Saga the most efficient radio group in the country.**

At the end of the day, we put product first. That's what has worked for us. At the same time, I am the second largest internal shareholder and want to maximize the dollars we are able to keep. We are living in an era in which great and stand out product is in short supply. We'll keep focusing on the listeners and be quick to act and react.

## Steve Goldstein

The Product Guy Behind Radio's Most Efficient Company

By Paul Hains

You won't find Saga Communications at the top of Who Owns What or dominating trade press headlines the way CBS, Chancellor and Jacor do. Yet analyst Alex Brown rated Saga the top performing radio company in the country last Fall, based on their "Audience Share Index" analysis. In other words, Saga places a higher percentage of its stations first, second or third in their target demographics than any other publicly-traded group. Other companies may be buying more stations, but Saga is doing a better job of operating them.

The 30-station group focuses on medium and small markets, primarily in the Midwest and New England. Among its rockers are WLZR & WKLH in Milwaukee; WNOR & WAFX in Norfolk; WAQY in Springfield, MA; KAZR in Des Moines; and WYMG in Springfield, IL.

Overseeing the day-to-day operations, programming, promotion, and research activities of each of the Saga stations is Executive VP Steve Goldstein. Steve's the guy who, in 1979, coined "The Source" handle for NBC's youth network when working for the net as West Coast Manager of Affiliate Relations. Crossing the street to ABC, he became the youngest news anchor in the net's history. His major market programming career began at WABC New York, where he worked as APD in the waning days of the station's legendary Top 40 era. He also programmed Top 40 powerhouse WTIC-FM/Hartford, before making the move to the Motor City and PD stints at Cap Cities' WHYT and Metromedia's WOMC.

The path that would lead to the corporate chambers began in the mid-eighties, when Goldstein was appointed VP/Group PD for Josephson Communications and PD for its flagship Detroit property, WNIC-AM/FM. In '86, Goldstein, President/CEO Ed Christian, and other management staged a leveraged buyout of Josephson, forming Saga Communications with approximately 10 stations in Columbus, Milwaukee, Norfolk, and Springfield, IL. Saga went public in '92.

Through a five year membership in the Arbitron Advisory Council, Goldstein has been at the forefront of key Arbitron issues like boosting sample size and improving male 18-24 diary returns. In April of this year, Saga, through its attorneys, disputed Arbitron's redefinition of the Boston metro, accusing it of an "unlawful civil conspiracy" that favors large market stations at the expense of smaller ones, like its three Manchester, NH properties. Steve is also known for his commitment to providing management training for broadcasters.

### Tell me about Saga's employee and management training programs that you've put in place.

We operate in medium and smaller markets, which means we have people at different points in their career. Ed Christian and I have backgrounds in major market radio. When we started the company, we told our investors that our strategy was to bring major market sophistication to the medium and smaller markets. It's not like the top markets where you simply buy the services of great programmers. To make it work requires a

great deal of mentoring and training. On the programming side we have to develop talent in a variety of ways. When a PD joins Saga, the first thing they get from me is a "Day-Timer" organizer. Fred Jacobs gave me that idea years ago, and it's my way of saying to the new programmer that we put a premium on organization. The next thing they get is a Saga Program Director Notebook with a slew of forms—aircheck and policy memos and all sorts of how-to stuff. Like many companies, we have group meetings, but we further that with format-specific summit meetings. We

flew all our Rock programmers to a company house we have in Florida in November, for example, and spent two days just working on issues that affect Active Rock and Classic Rock. It's a wonderful opportunity for the mentoring to go from our larger stations to our smaller ones. We send monthly reports to the entire group, summarizing the activity at each station. "Best-of" notebooks, loaded with sales and programming ideas (and commercials) go out a couple of times a year. We have a monthly promo competition which awards \$100 for the best promo of the month. We also run an
