IN JUST 6 WORKING DAYS**

SAVE TIME & MONEY

When you're buying Eurocell roofline products from your local branch, make sure you pick up your windows too! Whether you're looking for traditional casement windows, fully-engineered vertical sliding sash windows or our advanced tilt and turn windows, they're all in one place – saving you time and money!

MARKET LEADING WINDOWS – IN-BRANCH NOW!

You'll find outstanding performance right across the range. With a choice of styles, colours and finishes to suit building, our innovative windows boast A++ energy ratings and U-values as low as 0.8. In other words, they exceed the latest energy-efficiency standards.

FULLY GUARANTEED

Windows bought from your local branch are covered by a 10-year guarantee.

**FIND YOUR LOCAL BRANCH AT
eurocell.co.uk/branchfinder**

A breakthrough in design, engineering & performance

At a glance:

- ✓ Clean and contemporary looks with slimmer sight lines – different to traditional PVC-U windows.
- ✓ Advanced engineering technology – achieves the new A++ Window Energy Rating and a 0.7 U-value.
- ✓ Sustainability as standard – manufactured using 50% recycled material.
- ✓ Cost-effective alternative to aluminium.

ROOFLINE

High quality fascias, soffits, cladding and accessories help to add the essential finishing touches to any roofline project

All together better

3-IN-1 VENTILATION

This 3-in-1 solution combines an in-built felt tray, eaves comb filler and over fascia ventilator - for the ultimate time saving roofing product.

Find out more on page 21

HOLLOW SOFFIT

Our decorative hollow soffit board features in-built ventilation, helping to maintain airflow throughout your loft space.

Find out more on page 25

COMPOSITE ROOF TILES

Introducing a modern alternative to slate roof tiles - this versatile synthetic roofing slate will not shatter, crack, curl or fade. PLUS! It carries a limited lifetime warranty.

ROOFLINE ANATOMY

A FASCIA

For our range of direct replacement fascia and capping boards, [go to page 18](#)

B DRY VERGE

Neaten up ragged roof edges with our dry verge range [on page 30](#)

C TRIMS

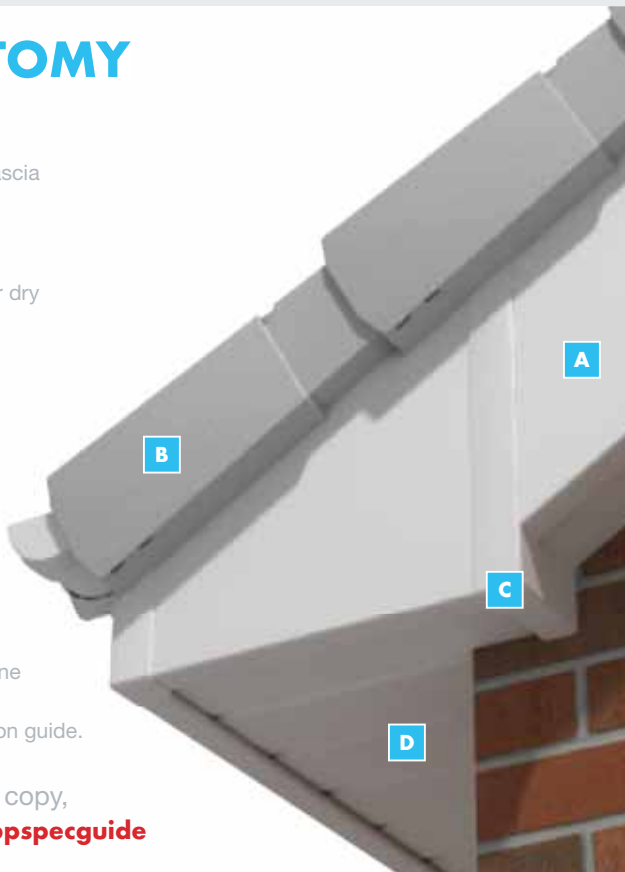

From corner trims to joint trims, find all you need to complete your roofline job [on page 28](#)

D SOFFITS

Choose from our range of plain and ventilated soffit boards [on page 24](#)

For more detailed information on our roofline range, including measurements and fitting instructions, please refer to our specification guide.

Call **08000 77 88 88** to request a copy, or download at eurocell.co.uk/ebpspecguide

SIZE GUIDE

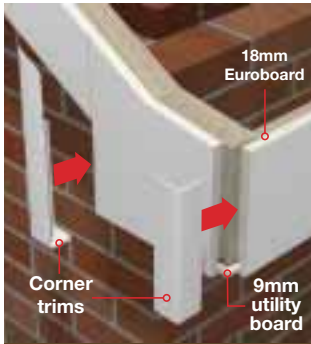

Our roofline products are available in various widths and thicknesses.

When we refer to **18mm** fascia board, we are talking about the **thickness** of the board.

The **width** of our fascia boards vary. In the example opposite, we show a **150mm** width board, but this particular product is available in widths up to 450mm – so you choose a size to best suit your project.

INSTALLATION EXAMPLES

FASCIA BOARD

18mm fascia board installed on a gable box end, finished with corner (**DCBCT**) and joint trims (**DCBJT**).

SOFFIT BOARD

300mm vented hollow soffit board (**SB 300**) allows air to flow freely in the roof space. This decorative board is complemented by sculpted 18mm ogee fascia boards (**OGE 225**).

CAPPING BOARD

9mm capping board (**CB 250**) with 9mm utility board (**UB 300**) fitted to a new 6mm plywood substrate*.

*Our capping boards can be fitted over existing fascia boards, providing that they are sound

FITTING TIPS

FOILED AND LAMINATED BOARDS

All foiled and laminated boards should be fitted in lengths of 2.5m maximum, to accommodate the expansion requirements – particularly on south facing elevations. Lift protective tape for inspection before installation.

CAPPING BOARD

Capping board should only be affixed to existing timber fascias if they are sound. Where the integrity of existing fascia is compromised, replace with a timber backboard and use timber fillets for additional support.

WHICH SEALANT?

Eurocell recommends SilverSil neutral cure silicone sealants for all PVC-U roofline applications, for safe high-performance adhesion to PVC-U and masonry.

See page 112 to see the full range we stock.

FASCIA BOARDS

ATTRACTIVE DIRECT REPLACEMENT BOARDS TO SUIT EVERY PROPERTY

- ▶ Standard or decorative ogee fascia board for direct fixing to rafters
- ▶ Designed for ease of fitting and is low-maintenance, with no painting required
- ▶ Perfect for new homes and for replacing old fascias

**20-YR
GUARANTEE**

See page 222
for full details

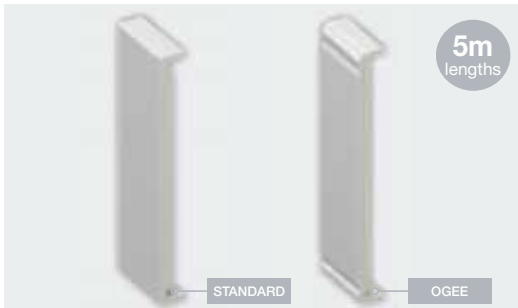

EUROBOARD

As the flagship Eurocell fascia board, Euroboard is the perfect direct replacement board to make an attractive improvement to any home. Also ideal for new builds. Choose Ogee style for a more decorative finish.

COMPOSITE ROOF SLATE

RECYCLABLE

INTRODUCING THE PERFECT MODERN ALTERNATIVE TO NATURAL SLATE

- ▶ Great aesthetics to rival natural slate
- ▶ Will not shatter, crack, curl or fade
- ▶ Pre-marked for pitch and space allowing fast and accurate installation
- ▶ Easy-to-cut with hand tools or power saws
- ▶ Half the weight of natural slate - easier to carry and install, requires lighter roof support system
- ▶ Excellent impact strength - can be walked-on after installation

40-YR WARRANTY*

HINTS & TIPS

APPLICATIONS

This lightweight, versatile product is not only ideal for traditional roofing applications, but for a multitude of other uses too. Why not refurbish tired porches, garage or shed roofs to give them a new lease of life? Composite roof tiles are also perfect for canopies, car ports, gazebos and more.

To see examples of this product in use, go to eurocell.co.uk/roofslate

Easytrim Pro Breather Membrane

- ▶ Pro delivers performance and strength whilst still having a relevant price for most budgets. A 3 layer spun bond based membrane that provides excellent strength and nail tear resistance whilst being flexible. BBA certified for Warm and Cold roof application.

Code	Weight	Size
MEMBPRO20M	122gsm	1 x 20m
MEMBPRO50M	122gsm	1 x 50m

Easytrim Non Breathe Membrane

- ▶ Non-Breathe is a 2 layer, non-breathable roof membrane. This lightweight but clean and durable product provides major benefits over traditional 1F bitumen based underlays and plastic under slating membranes. It is completely waterproof and has excellent nail tear resistance. Non Breathe roofing membrane is more commonly used on re-roofing projects, garages and porches.

UNIVERSAL PLUS RAINWATER SYSTEM 128 x 88mm

DESIGNED TO AESTHETICALLY
COMPLEMENT ANY PROPERTY

UNIVERSAL PLUS

This system is ideal for use on larger residential buildings, smaller commercial premises and conservatory roof applications, as the system is sturdier due to the thick gutter extrusion.

COMMERCIAL PLUS

The Commercial Plus system is suited to commercial or large domestic housing projects

ELEGANCE CAST IRON EFFECT GUTTERING

**10-YR
COLOUR
FASTNESS**

Conditions apply

**A STYLISH RANGE
OF GUTTERING AND
DOWNPIPE PRODUCTS**

**A DECORATIVE EFFECT THAT
COMBINES THE LOOK OF A
TRADITIONAL CAST IRON SYSTEM**

- ▶ Quick to install and ready to fit without the need for painting or protective coatings
- ▶ Reduced total installation cost. (No metal primer, spanners, paint, or disc cutters required)
- ▶ Durable and long-lasting finish without the need to apply corrosion control traditionally used with cast iron systems
- ▶ UV stabilised to protect against colour fade
- ▶ Lightweight construction for easy handling, assembly and installation
- ▶ Stylish and functional, making the range suitable for new build and residential projects

ELEGANCE CAST IRON EFFECT POLYFLOW 117 x 75mm

- ▶ The Elegance Polyflow system offers a high capacity rainwater solution while still benefiting from the timeless appearance of a Cast Iron Effect rainwater system
- ▶ Its deep semi-elliptical profile means it can be used on most domestic applications

HINTS & TIPS

The Elegance range has all of the product & installation benefits of using PVC-U as the manufacturing material

- ▶ Have you seen our roofline consumer brochure? Pop in branch to find out more

ELEGANCE CAST IRON EFFECT DOWNPIPE SYSTEMS 68.5mm

► The Elegance range is designed in such a way that each profile system in the range utilises a common downpipe

EXAMPLES OF USE

CORNER TRIMS

Internal and external corner trims connect skirting lengths – removing the need for mitring. They simply slot together for a perfect finish every time (adhesive required)

DOOR SURROUNDS

Our architraves perfectly frame doorways. The single door kit requires only one mitre cut, then it all fits cleverly into place. Cover trims are available if required.

LEARN MORE

Our Roomline brochure contains all the features, benefits of Roomline, plus example installations and much more.

Call **08000 77 88 88** to order your **FREE** copy, or download from our website today at eurocell.co.uk/roomlinebrochure

WHAT IS A CAVITY CLOSER?

A cavity closer is an energy-efficient aperture former which enables brick courses to be completed and creates an Air-tight receiver for windows and doors

BENEFITS

- ▶ Provides a damp proof course
- ▶ Simplifies brickwork
 - no return bricks needed
- ▶ Provides thermal break
- ▶ Stops cold bridging which can cause condensation to form inside the opening damaging internal decoration and plasterwork
- ▶ Improves heat loss at the window junction, reducing CO₂ emissions
- ▶ Meets Accredited Construction Details regulation designed to improve the heat loss at junctions
- ▶ Meets needs of Part L of the Building Regulations

Cavalok products are made from **100% recycled PVC-U**

NEED MORE INFORMATION?

Our comprehensive **Specification Guide** includes dimensions and examples of use, along with detailed information on the rest of Eurocell's product offering.

Call **08000 77 88 88** to request a copy, or download from our website today at **eurocell.co.uk/ebpspecguide**

WHICH PRODUCT IS RIGHT FOR YOU?

CAVALOK UNIVERSAL CAVITY CLOSER

- ▶ For cavity sizes 50-100mm
- ▶ Use for new build projects
- ▶ Cavity closer is assembled into a window template
- ▶ Ensures window manufacturer can produce to correct sizes without repeated surveying - saving time and money by reducing rework or snagging
- ▶ Easy to install, use with standard plastic ties to fix into coursework as you build

CAVALOK BIG BLOCK CAVITY CLOSER

- ▶ For cavity sizes 125-300mm
- ▶ Use for new build projects
- ▶ Cavity closer is assembled into a window template
- ▶ Super-insulating, specially designed to meet the Code for Sustainable Homes
- ▶ Easy to install, use with standard plastic ties to fix into coursework as you build

CAVITY CLOSER

IDEAL FOR REFURBISHMENT PROJECTS

- ▶ Slotted design allows you to cut down the product to fit your cavity width
- ▶ Just one product to hold in stock or in the van, no assembly required
- ▶ Punched flange for easy fixing
- ▶ Easy way to improve the damp proof course when replacing a window

NEW COLOURS

EXPANDED TRIMS COLOUR RANGE

To enhance the current range of colours, our window trims* will be available in four new foiled finishes. These are: **Chartwell Green**, **Slate Grey**, **Moondust Grey** and **Anteak**

*Colour availability varies by product

EXAMPLES OF USE

PENCIL ROUND ARCHITRAVE

This flatback pencil-round architrave hides minimal plaster damage, whilst providing an attractive finish. Available in 3 sizes.

25MM D MOULDING

Conceal window joins with a 25mm D-moulding trim to improve sightlines and create a clean, colour-matched finish.

FOAM QUADRANT

Neaten joins with attractive foam quadrants, available in a variety of colours. Suitable for use around windows, floors and more.

SILICONES & SEALANTS

Eurocell stocks a variety of high-performance silicones, adhesives, expanding foams and fillers.

- ▶ Suitable for a variety of applications
- ▶ Ready to use
- ▶ Provides thermal break
- ▶ Mould-resistant
- ▶ Improved adhesion
- ▶ Tested to the highest standard
- ▶ Available in a range of colours

MAINTENANCE EXAMPLES

SILICONE SEALANTS

Our silicone sealants are ideal for window installations. Available in a variety of colours to match the window profile.

See the full range on [page 116](#)

SOLVENT-FREE CLEANERS

Revive PVC-U surfaces with solvent-free cleaners.

See [page 121](#) for more information, and to see the full cleaner range.

SILICONE SPRAY

This multi-use silicone spray spray is ideally suited for light lubrication of plastics and rubbers such as sliding doors and rubber seals.

Find out more [page 118](#).

FIXINGS

Get the right fixing for the job with permanent and secure fastening solutions in a wide range of materials, for a range of applications, including:

- ▶ Roofline installations
- ▶ Window installations
- ▶ Door installations
- ▶ DIY applications
 - shelving
 - hanging pictures
 - installing
 - blinds
 - PLUS much more

INSTALLATION EXAMPLES

CLADDING PINS

Cladding pins are available in 2 sizes, allowing you to complete your cladding installation with ease.

Find this product on [page 124](#).

FIXING PINS

Complete your roofline installation to the highest standards with 30mm and 40mm fixing pins. Available in a choice of colours to match your fascia boards.

Find this product on [page 124](#).

TRIM MOUNTING TAPE

Affix lightweight PVC-U trims with instant-adhesion trim mounting tape.

For more info, see [page 131](#).

DETER'S THE MOST DETERMINED ATTACK!

It's a fact that more insurance companies are now specifying that high performance locks such as **Schlosser Anti-Snap Cylinder** are fitted before paying out claims. Just look at the great built-in security features opposite:

1 SNAP-OFF FRONT SECTION

If attacked, the cylinder will come away, giving the intruder less of the cylinder to grip.

2 HARDENED GRIP DEFLECTORS

Make gripping the rest of the cylinder difficult

3 HARDENED REINFORCED BAR

This is designed not to snap, but to flex in a way that will defeat the majority of intruders

LOCKS

REPLACEMENT CYLINDER LOCKS

For budget-conscious customers, there is the Euro Profile Cylinder. Available with single cylinder, double cylinder and turn cylinder

- ▶ 6-pin Euro profile cylinder
- ▶ Quick and easy replacement for existing cylinder
- ▶ Tested to BS EN 1303:2005
- ▶ Available in polished brass and nickel

CONTEMPORARY CONSERVATORY DESIGN

CONSERVATORIES DON'T NEED TO BE CONSERVATIVE

Need something different to standard out-of-the-box solutions like the Edwardian or Victorian styles? Give your customers a contemporary alternative – we can help you design a solution that really has the wow factor.

Design options are endless, and with a range of new and special colours like Irish Oak and Chartwell Green, you can offer your customers more choice than ever before.

**20-YR
GUARANTEE**

See previous page
for full details

FEATURES & BENEFITS OF ECO FENCING

CAN BE CUT WITH A HANDSAW

Because composite fencing is so easy to cut, gravel boards can be easily trimmed to suit popular European fence panels which are 1.8m wide.

USE WITH TIMBER PANELS

Composite fencing posts and gravel boards can also be used in conjunction with wooden panels.

LOOKS AND FEELS LIKE WOOD

Composite fencing's unique finish will add beauty and complement gardens for years to come. Unlike most traditional fencing, Wood-Grain's dual face means you can also share the cost with neighbours.

COMPOSITE FENCING HAS STRENGTH

In independent testing, Wood-Grain proved that it has a much greater tensile strength than concrete posts, as the combined weight of 56 stones demonstrates! It will even flex in strong winds.

REPLACE ROTTEN OLD PANELS

Simply remove the old panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance free fence which not only looks good but is easy to install and never needs treating.

INCREDIBLY LIGHT

At around 5 kgs, composite fencing is a pleasure to work with. It is incredibly light and strong, making general handling and transportation easy. The health and safety risks ever present with concrete fence posts are eliminated.

ENVIRONMENTALLY FRIENDLY

Wood-Grain is manufactured from 75% recycled materials. In using Wood-Grain you can be assured that you are protecting the world's natural resources and helping the environment.

USE WITH EXISTING POSTS

Simply remove the old wooden panels from the concrete posts and then slot the composite fencing gravel boards in place. In an instant you have a maintenance-free fence which not only looks good but is easy to install and never needs treating

ACCEPTS SCREWS

Wood-Grain will also accept screws to secure the fence into position.

20-YEAR GUARANTEE

All composite fencing products come with a 20-year manufacturing guarantee against rotting. Variations in colour, shade or pigment are NOT covered under our guarantee. These variations in no way affect the longevity of the product.

*Guarantee terms and conditions

The Company or seller offer a 20-year manufacturing guarantee against rotting. In the event of proven manufacturing defect, the Company or seller's total liability shall under no circumstances exceed the price of the defective item. The company or seller shall not in any way be responsible for additional, consequential costs or losses. The company or seller accepts no responsibility for defects to products caused by incorrect fitting, misuse or abuse. This guarantee does not cover any changes to the colour of the product due to natural weathering, shade or colour variations, storm damage or acts of God.

For more information, call **0800 988 3047** or visit **or visit eurocell.co.uk/fencing**

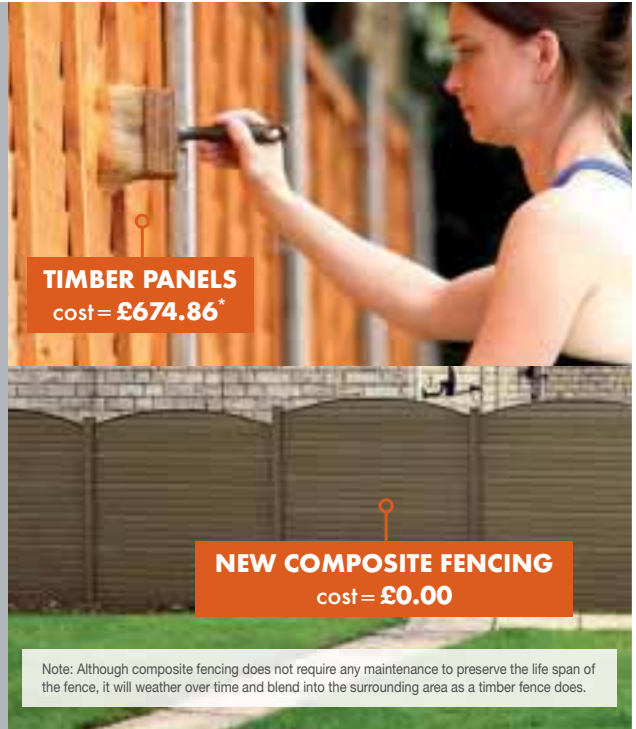

SAVE MONEY

Composite fencing will work out much cheaper over time compared to timber panels, which would need to be maintained every couple of years. **Compare the facts!**

Savings based on 10-year maintenance cost for 10 No 6'x6' timber panels

*Figures based on a timber panel which would need treating a minimum of four times over a 10-year period, using 14 tins of preserver @ £22.49 each, 50 hours of your customers' time at minimum wage of £7.20 (From 01/04/16).

TIMBER PANELS
cost = **£674.86***

NEW COMPOSITE FENCING
cost = **£0.00**

Note: Although composite fencing does not require any maintenance to preserve the life span of the fence, it will weather over time and blend into the surrounding area as a timber fence does.

Composite fencing is quick & easy

TOUGH AND HARD-WEARING – MUCH GREATER TENSILE STRENGTH THAN CONCRETE POSTS

LOOKS AND FEELS LIKE WOOD – THE FENCING'S UNIQUE FINISH WILL ADD BEAUTY AND COMPLEMENT GARDENS FOR YEARS TO COME

SAVES TIME AND MONEY – COMPOSITE FENCING WILL WORK OUT MUCH CHEAPER OVER TIME COMPARED TO TIMBER PANELS, WHICH WILL NEED TO BE MAINTAINED

MAINTENANCE-FREE – NO MORE PAINTING AND REGULAR MAINTENANCE TO KEEP FENCES LOOKING LIKE NEW

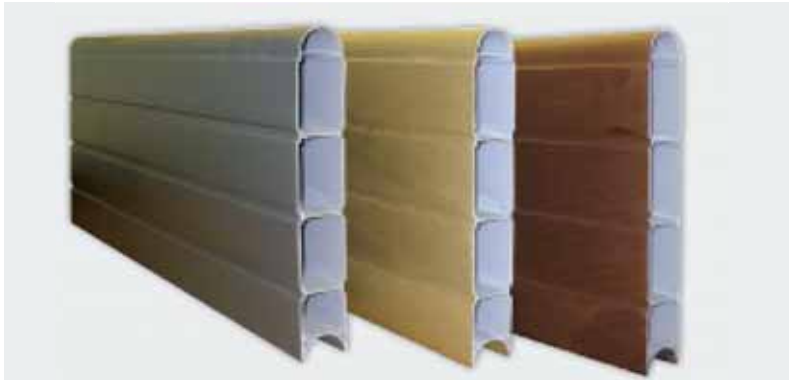

UK MANUFACTURED – ALL COMPOSITE FENCING PRODUCTS ARE MANUFACTURED IN OUR UK FACTORIES

WHY CHOOSE COMPOSITE FENCING?

The unique finish of composite fencing will add beauty and complement a gardens' natural surroundings. These incredibly light fencing panels are incredibly strong, making general handling and transportation easy.

[†]Acorn & Globe, require a flat cap also to sit on

**Fencing posts are designed to flex and from our experience over the years, we would advise that for fences over 6ft tall a cement grout is poured down the inside of the posts to reduce excess flex. When fitting a gate, a timber post will need to be fixed to the eco posts to provide a square edge for the hinges and catch.

3-Way Utility Strip

Description	Length
Corner/End Attachment	2.1m

The unique finish of composite fencing will add beauty and complement a gardens' natural surroundings. These incredibly light fencing panels are extremely strong, making general handling and transportation easy.

Supaspike and bolt down

- ▶ The Supaspike is incredibly easy to install, just drive it into the ground and place the post over the top of the spike. For solid surfaces such as driveways and pavements, use the Supaspike Bolt Down.

COMPOSITE FENCING – HOLLOW RANGE

FENCING

Composite fencing is low maintenance with no need for painting, staining or sealing. The UV stabiliser in the fencing means that the colour won't fade in the sunlight. The fencing range is tough and can withstand all weather conditions.

Composite Fencing Boards – Hollow

ACCREDITATIONS

Our products are manufactured to the highest standard in both foam and rigid composition.

Our foam profiles are co-extruded and this superior production process offers the advantages of a sealed cellular structure, durability and better surface quality with no pitting.

Rigid profiles are manufactured using high quality window grade rigid PVC-U material.

Assessment report number 01/3783. The Eurocell roofline system

Assessment report number 01/3784. The Eurocell cladding system

Assessment report number 13/5043. The Eurocell Aspect bi-fold door system

BSI Registered
