REFRIGERATION SYSTEMS

RDI 120

The 120 High Side System is a high efficiency air-cooled refrigeration condensing unit designed specifically to operate on Walk-ins over a wide range of ambient temperatures.

Features and benefits of the 120 System:

Operates effectively from -20°F to +120°F without exceeding the design and safety criteria of components.

Ease of service with all components conveniently arranged on a heavy duty base to be accessible for adjustments and repairs when necessary.

Provides an efficient balance between compressor, condenser surface, air movement and controls. The units are equipped with extra condensing surface, oversized fan blades and PSC fan motors. The oversized fan blade powered by the PSC motor moves air more efficiently to use less electricity.

High accuracy pressure switches are used in place of capillary tubes to eliminate possible leakage points.

PC PRE-CHARGED REMOTE SYSTEMS

The RDI PC" system offers you many advantages. By providing a full charge of refrigerant* in the units up through 6 hp the installer only has to provide refrigerant lines between the evaporator assembly and the condensing unit assembly. Once the evaporator and lines are evacuated and leak checked, the base valves, provided on the PC condensing unit, can be opened to supply refrigerant to the system. The electrician must bring power to both the condensing unit assembly and evaporator assembly. A time clock is provided on both medium and low temp PC systems. They are mounted and wired on Premium models and shipped loose on Economy models.

"PC" System Consists of:

- Condensing Unit (high side assembly) ETL Listed to UL Standard 1995 (priced separately).
- Evaporator Assembly (low side assembly, priced separately).
- All necessary controls for proper operation of condensing unit and evaporator assembly.
- Time Clock (low & medium temp application) shipped loose.
- Energy efficient PSC fan motors.

Standard Installed Components Include:

Condensing Unit Assembly

- Drier
- Sight Glass
- Pressure Control
- Weatherproof Housing
- Low Ambient Controls (outdoor)
- Crankcase Heater (outdoor)
- Base Valve
- Full Charge of Refrigerant
- Valve at Receiver

Evaporator Assembly

- Thermostatic Expansion Valve
- Solenoid Valve
- Temperature Control

**A refrigerant charge is provided and is typically adequate for temperatures down to 35°F and line runs up to 50 ft. For longer line runs, or areas where temperatures are lower, more refrigerant may be required.*

Weatherproof
housing included

PR PRE-ASSEMBLED REMOTE SYSTEMS

The RDI "PR" system is designed to allow for remote location of the condensing unit in applications where pre-charged lines would be difficult to run or the distance between the evaporator and the condensing unit is too great for pre-charged lines. All components are installed and wired, but the system contains only a holding charge of dry nitrogen. Installation involves securing the evaporator assembly on the interior of the walk-in and the condensing unit in a suitable location. Refrigerant lines must be run between the evaporator assembly and the condensing unit assembly. The system must be leak checked, evacuated and charged with refrigerant. The electrician must bring power to both the condensing unit assembly and the evaporator assembly. On low temperature systems the time clock is shipped loose and is to be field installed in a convenient location outside the walk-in.

Weatherproof housing included

"PR" System Consists Of:

- Condensing Unit (high side assembly) ETL Listed to UL Standard 1995 (price separately).
- Evaporators (low side assembly, priced separately).
- All necessary controls for proper operation of condensing unit and evaporators.
- Time Clock (low temperature application) shipped loose.
- Energy efficient PSC fan motors.

Standard Installed Components Include:

Condensing Unit Assembly

- Drier
- Sight Glass
- Pressure Control
- Weatherproof Housing
- Low Ambient controls (outdoor)
- Crankcase Heater (outdoor)
- Base Valves
- Valve at Receiver

Evaporator Assembly:

- Thermostatic Expansion Valve
- Solenoid Valve
- Temperature Control

Note #1: Condensing units are all supplied with an outdoor housing and are suitable for use indoors or outdoors without modification

Note #2: Evaporators may be supplied with either EC motors for new construction or PSC motors for replacement applications..

Note #3: All new construction walk-ins are required by the US Energy Independence Act to have EC motor on evaporators.

WARRANTY GUIDE

Warranty is issued to the original purchaser/user at the original installation location and is in lieu of all other warranties expressed or implied. Completion of the Manitowoc Foodservice Walk-In & Refrigeration Claim Form is required for consideration of claims to be processed under part and/or labor warranty. The claim form must be received within (60) sixty days of the date of service. Reimbursement for local parts purchase must include a copy of the wholesale invoice. Manitowoc Foodservice Walk-In Division does not pay both travel time & mileage. Manitowoc Foodservice Walk-In Division reserves the right to pay no more than the average commercial hourly rates and part prices within the particular state or region of the country.

Parts:

Component parts and assemblies found to be defective in material or workmanship are warranted for a period of (1) one year from original start-up.* First year compressor failures shall be exchanged over the counter by the compressor manufacturer's wholesaler. If the optional four year compressor warranty is purchased and the original compressor fails after expiration of the one year parts warranty, Manitowoc Foodservice Walk-In Division will provide a direct replacement or authorize local purchase of a replacement compressor. If local purchase is authorized, the wholesale invoice along with the serial tag from the original defective compressor shall be sent to Manitowoc Foodservice Walk-In Division for reimbursement. Labor, freight, travel, and additional parts/supplies are not covered under the extended compressor warranty. Replacement parts purchased from Manitowoc Foodservice Walk-In & Refrigeration will be warranted for a period of (90) ninety days from factory ship date.

Labor:

Refrigeration systems that are not factory refrigerant charged (PR, Multi-Pak, Rack, Large Room systems, etc) are covered by a (30) thirty day labor warranty for the replacement of component parts

that are defective in material or workmanship.*

Refrigeration systems that are factory refrigerant charged (PC, Drop-Ins, etc.) are covered by a (1) one year labor warranty for the replacement of component parts that are defective in material or workmanship.*

*The warranty period will begin at original start-up date, validated by a legal document (certificate of occupancy, bill of sale, etc.), or (90) ninety days from factory ship date.

Exclusions from Warranty Coverage:

1. Normal maintenance, adjustments, and cleaning.
2. Repairs due to unauthorized modifications.
3. Damage from improper installation.
4. Damage or delays occurring in transit.
5. Damage from misuse, abuse, neglect, or accidents.
6. Damage or loss of product, property, income, or profit.

Limitations of Liability:

The preceding paragraphs set forth the exclusive remedy for all claims based on failure of, or defect in, Walk-in refrigeration systems sold hereunder, whether the failure or defect arises before or during the warranty period, and whether a claim, however instituted, is based on contract, indemnity, warranty, tort (including negligence), strict liability, implied by statute, common-law or otherwise, and RDI Systems and agents shall not be liable for any claims for personal injuries or consequential damages or loss, howsoever caused. Upon the expiration of the warranty period, all such liability shall terminate. THE FOREGOING WARRANTIES ARE EXCLUSIVE AND IN LIEU OF ALL OTHER WARRANTIES, WHETHER WRITTEN, ORAL, IMPLIED OR STATUTORY NO IMPLIED WARRANTY OF MERCHANTABILITY OR FITNESS FOR PARTICULAR PURPOSE SHALL APPLY, RDI SYSTEMS DOES NOT WARRANT ANY PRODUCTS OR SERVICES OF OTHERS.

Remedies:

The liability of RDI Systems for breach of any warranty obligation hereunder is limited to: (i) the repair or replacement of the Walk-

in on which the liability is based, or with respect to services, re-performance of the services; or (ii) at RDI System's option, the refund of the amount paid for said equipment or services. Any breach by RDI Systems with respect to any item or unit of equipment or services shall be deemed a breach with respect to that item or unit or service only.

Labor:

Refrigeration systems that are not factory refrigerant charged (PR, Multi-Pak, Rack, Large Room systems, etc) are covered by a (30) thirty day labor warranty for the replacement of component parts that are defective in material or workmanship.* Refrigeration systems that are fact

RMA – Returned Product Policy:

The following is the policy for Returns from the customer.

1. All returned product must have an RMA number from Customer Service prior to sending the product back.
2. The product must be standard product, still crated and within 90 days from date invoiced. Standard products are defined as product configurations that are saleable to the general market. Custom Products are product configurations that are unique to a specific customer and cannot be sold to other customers. Obsolete/discontinued products cannot be returned.
3. If return is approved for standard product, the standard restock charge is 30% or 20% if a replacement order is made.
4. Custom product is non-returnable.
5. Applicable freight charges and re-crating will be the customer's responsibility.
6. RMA number must be clearly written on all shipping paperwork to factory/warehouse.
7. RMA will be valid for 45 days from date of issue.
