Pricing - Securities prices may vary from actual liquidation value. Prices shown should only be used as a general guide to portfolio value. Prices are received from various pricing services. However, pricing services are sometimes unable to provide timely information. Where pricing sources are not readily available, particularly on certain debt securities, estimated prices may be generated by a matrix system taking various factors into consideration. The pricing of listed options takes into account the last closing price, as well as the current bid and offer prices. Where securities have not been priced, such securities have not been included in the Asset Allocation Information at the beginning of this statement.

Reinvestment - The dollar amount of Mutual Fund distributions, Money Market Fund dividend income, Bank Deposit interest income, or dividends for other securities shown on your Statement may have

been reinvested. You will not receive confirmation of these reinvestments. However, information pertaining to these transactions which would otherwise appear on confirmations, including the time of execution and the name of the person from whom your security was purchased, will be furnished to you upon written request to your introducing firm. In dividend reinvestment transactions, Pershing acts as your agent and receives payment for order flow, the source and nature of which payment will be furnished to you upon written request to your introducing firm.

Option Disclosure - Information with respect to commissions and other charges incurred in connection with the execution of option transactions has been included in confirmations previously furnished to you. A summary of this information is available to you promptly upon your written request directed to your introducing firm. In order to assist your introducing firm in maintaining current background and financial information concerning your option accounts, please promptly advise them in writing of any material change in your investment objectives or financial situation. Expiring options which are valuable are exercised automatically pursuant to the exercise by exception procedure of the Options Clearing Corporation. Additional information regarding this procedure is available upon written request to your introducing firm.
