Printed in Italy

Introduction

The catalogue of documents, which contains the COM Documents of the Commission of the European Communities, the Reports of the European Parliament and the Opinions of the Economic and Social Committee prepared by the Office for Official Publications of the European Communities for distribution to the public.

The COM Documents and the Opinions of the ESC are available on paper and microfiche, whereas the Reports of the European Parliament are available only on microfiche.

This version of the catalogue takes account only of documents of which English language texts have been prepared. There are parallel catalogues covering documents in each of the other official languages of the European Community.

Presentation

The catalogue is divided into three parts.

Part I — **The classified index** provides a classification by subject, of the titles, under 17 headings (see 'List of headings' on page 8).

Each complete entry is preceded by a sequence number, which appears only once for each document title. The title of a document, however, may sometimes appear under more than one heading by virtue of the subject matter, and in this case the sequence number is given on the right-hand side of these secondary entries but without a bibliographic reference (see detailed explanation on page 7).

Part II — **The alphabetical index** comprises all the keywords which characterize the contents of the documents and are permuted by as many times as there are keywords.

The indexation is based on analysis and subsequent redefinition of the document using keywords contained in the Eurovoc thesaurus (multilingual documentary language).

Each document is indexed with one to five keywords. Every keyword constitutes an entry in bold characters in the index, followed by any other relevant keywords and a sequence number pertaining to the document in the catalogue (see detailed explanation on page 7).

Part III — **The numerical index** comprises all the documents in ascending numerical order.

Frequency and cumulation

Cumulative annual catalogues are published yearly. These catalogue complement the monthly lists that contain only the classified index.

Subscription system

An attractive system of selective subscriptions is on offer for the paper versions of the COM Documents and the Opinions of the ESC covered by this catalogue either individually or in combination.

Microfiche subscriptions are also available, but only for entire series, either individually or in combination.

More information can be obtained from the sales offices whose addresses are given on the inside back cover.

Other publications

Other European Community monographs — whether classed as publications or documents — as well as periodicals are listed in the catalogue '*Publications of the European Communities*'.
