Wireless performance is dependent upon physical environment and distance from the access point. AirPrint Loop, iPad, iPhone, and iPod touch are trademarks of Apple Pinc, registered in the U.S. and total countries. 3 First Copy Out and Copy Speed measured using ISO/IEC 29183, excludes first set of test documents. For more information see hp.com/go/printerclaims. Exact speed varies depending on the system configuration, software application, driver, and document complexity. 9 Duty cycle is defined as the maximum number of pages per month of imaged output. This value provides a comparison of product robustness in relation to other devices, and enables appropriate deployment of printers and MFPs to satisfy the demands of connected individuals or groups. 5 HP recommends that the number of pages per month of imaged output to within the stated range for optimum device performance, based on factors including supplies replacement intervals and device life over an extended warranty period. 5 Average color composite (I/MIY) and black declared yields based on ISO/IEC 19798 and continuous printing. Actual yields vary considerably based on images printed and other factors.
