HP LaserJet Managed MFPs
and Printers

Uncompromising VISION

Exceptional RE-SULTS

HP LaserJet Managed MFPs and Printers were developed specifically to address essential business printing needs—today and tomorrow.

When we set out to create this line of LaserJet printers, we tasked our engineers and product teams with designing and developing printers that combined—without compromise—extraordinary design and user experience; exceptional print quality and reliability, even under the heaviest workloads; security that's unmatched in the industry; and extensibility features that allow them to adapt to and benefit from new technologies and new capabilities.

As the engineers, designers, and programmers progressed, they continuously validated their decisions against the most important metrics: real-world user expectations and business demands.

The result is an extraordinary portfolio that delivers brilliant, professional-quality prints at a remarkable price.

From ideas to output

Performance tells the story. Whether you're printing five pages or fifty, colour or black and white, HP LaserJet Managed MFPs and Printers deliver the professional performance you'd expect from an enterprise machine.

- **Virtually eliminate warm-up time**
  These devices feature fusers that warm rapidly and cool quickly, so they start printing sooner, complete jobs faster, and help you conserve more energy.[1]

- **Spend less time on maintenance**
  These devices require significantly fewer replacement parts, and no manual cleaning of printer components is required to maintain print quality.[2] With HP Smart Device Services, proactive alerts ensure technicians know the right parts and exact procedures before service calls.

- **Get the best print quality automatically, right out of the box**
  There's no need to change driver settings or the control panel. HP LaserJets employ built-in proprietary image enhancement technologies that consistently render vibrant and sharp colour prints, page after page.

- **Minimise downtime**
  HP Smart Device Services remote diagnostics and remediation can help reduce delays in servicing. Original HP LaserJet High-Yield Cartridges can help you print more pages, more affordably.

DESIGN

Purposeful and professional

Design is about more than aesthetics. Done with purpose, it connects form to function—promising performance and conveying confidence. In HP LaserJet Managed MFPs and Printers, simple, intelligent design delivers functionality for today and adaptability for the future.

- Cutting-edge technologies minimise paper jams and faulty inputs.

- Modular feed and finishing accessories offer customisable configuration options.

- User-facing design expedites workflows and print services at the device.

- Efficient scanning, copying, and document digitisation at the device save time and resources.

- Touchscreen controls and a pull-out keyboard allow for seamless monitoring, editing, and updating of works in progress.
WORKFLOW

Effortless integration

HP LaserJet Flow MFPs offer advanced workflow capabilities at the device that optimise your productivity through quick alignment with current workflows and demands. Flow solutions help you capture the right content, organise, and distribute it quickly, easily, and accurately—helping you save time and effort on complex scanning and printing projects.[3]

Auto-orientation, auto-page crop, and auto-tone
Advanced document management features simplify production and perfect the contrast, brightness, and background removal of each page.

Built-in optical character recognition (OCR)
The OCR simplifies editable and searchable scans.

Fast two-sided, single-pass scanning
Scan faster and more reliably with speeds up to 200 ipm[4] and an extended-life ADF that supports higher recommended monthly scan volumes.[5]

Large 8.1-inch touchscreen control panel
Advanced imaging and processing options, including send to Microsoft® SharePoint®, built-in OCR, auto-orientation, auto-page-crop, and auto-tone.[6]

Embedded HP EveryPage technology
Scan every page and detect potential errors or missed pages on the spot—even when the weight, size, or condition of pages vary.

Large pull-out keyboard for simplified data entry
Make scanned documents easier to organise and find by adding information to files and context to your email.

HP Quick Sets
Find the right document workflow every time, and run it correctly at the touch of a button. HP Quick Sets automates all the steps of a complicated workflow, on a full-colour touchscreen that's easy to use.

HP's most secure printing[7]

Today, hackers have their eyes on businesses. The most destructive exploits are attacking networks through endpoint devices—and not just PCs, tablets, and smartphones. Networked printers are a new front line, vulnerable to attacks and security breaches. Hackers can intercept printing and imaging jobs traveling over the network from devices to printers, manipulate printer settings and functions from unsecured control panels, and access privileged data via unsecured USB or network ports.

The good news? HP saw it coming. We developed LaserJet Enterprise Managed MFPs and Printers with embedded security features covering device, data, and document risks. These solutions change the equation—transforming networked printers from vulnerabilities to strongpoints.

Nearly **7.9 billion**
records exposed in 2017[8]

59% of organisations reported a
print-related data loss incident in the past year[9]

SECURE THE DEVICE
- HP SureStart monitors and maintains the BIOS
- Whitelisting helps protect the firmware
- Run-time intrusion detection keeps memory safe
- HP Connection Inspector stops suspicious network connections

SECURE THE DATA
- Authentication helps blocks unauthorised access
- Encryption helps keep data safe

SECURE THE DOCUMENT
- Workplace privacy and compliance through secure document workflows
- Anti-counterfeit tools deter tampering and fraud

Easily manage security across the fleet

HP JetAdvantage Security Manager streamlines fleet management with policy-based print security compliance.[10]
HP LaserJet Managed MFPs and Printers can send printer event data to Security Information and Event
Management (SIEM) tools for real-time threat monitoring.

For more information on HP printing security features, visit hp.com/go/printersthatprotect.

EXTENSIBILITY

Forward-thinking adaptability

Technology, capabilities, and user expectations never stop evolving, and HP FutureSmart Firmware and the HP Open Extensibility Platform (OXP) let your printers evolve as well.

FutureSmart firmware
- Extends the life of the printer
- Offers consistency across your entire fleet via an intuitive interface
- Simplifies fleet-wide updates
- Allows your existing HP devices to be equipped with next-generation features[11]

HP OXP
- Creates a unified environment for third-party software companies and enabled imaging and printing devices
- Integrates the third-party solutions you rely on today with your printer fleet tomorrow

Focus on results

Help reduce costs, increase work efficiency, and accelerate business results with HP printing solutions. Help streamline information workflows by optimising your IT infrastructures, managing your imaging and printing environments, and improving document intensive processes.

Management and security
Easily manage and optimise multi-vendor print environments and improve print application management.

HP Web Jetadmin allows you to remotely install, configure, troubleshoot, safeguard, and manage a wide variety of networked and PC-connected devices.[12]

HP JetAdvantage Security Manager offers an effective, policy-based approach to help secure HP printing and imaging devices.[10] Easily set security configuration policies and automatically validate settings for every HP printer and MFP in your fleet—saving you valuable IT time and resources.

HP JetAdvantage Secure Print[13] and **HP Access Control (HPAC)** help secure documents by requiring authentication to release print jobs. In addition, extend capabilities and easily customise with HPAC—integrate job accounting, manage rights, and establish quotas for things such as colour use.[14] Save IT time and make printing easy for the entire enterprise by using a single driver for all HP devices.[15]

Mobility

Simple and secure mobile authentication and print. HP offers customers right-sized solutions for their business.

HP Roam for Business offers secure, cloud-based printing from virtually any location and device. Automatically discover nearby HP-Roam-enabled printers in the office, at a home office, or at a growing number of public print locations.[16]

HP PrinterOn Enterprise helps connect virtually any desktop or mobile device to printers from multiple vendors both on and off the trusted network. The solution can be deployed on-premise or in a private cloud, to meet the needs of your business. This secure enterprise cloud printing solution helps you print simply anywhere.

Workflow

Convert documents to digital and automate business workflows.

HP Capture and Route controls and tracks scanned content once it has been digitised and distributes it to its printing location.

HP Digital Sending Software allows users to route documents to a variety of destinations like email recipients, network folders, fax, FTP, a USB device, or Microsoft® SharePoint®.[17] And HP Quick Sets automate the steps of a complicated workflow and provide easy access to the configurations you use most.

HP JetAdvantage Partner solutions offer simple capture programmes to sophisticated workflow automation. Current partners providing workflow solutions are Ephesoft Transact, Fenestrae Udocx, Genius Bytes GeniusMFP, Kofax AutoStore, and YSoft SafeQ.

Meet the HP LaserJet Managed MFPs and Printers

The smart, secure way to grow your business

Our portfolio is versatile, to say the least. Grow your business with our extensive portfolio of MFPs and printers that offers more device choices from A3 to A4, innovative technologies, industry-leading security features,[7] and an overall improved user experience.

For more information on the latest HP LaserJet Managed MFPs and Printers, visit here.*

14

Our latest LaserJet Managed MFPs and Printers redefine excellence with game-changing LaserJet printing innovations:

Low operating cost per page (OCPP) with long life consumables and field-replaceable parts

Flow options on most models

More robust page volume and engine life (up to 100,000 pages RMPV[18])

Larger and faster; up to 250 sheet ADF

HP FutureSmart printer firmware[11]

Flexible, modular paper handling and finishing for maximum productivity

Device-based sensing capabilities that monitor and diagnose many service needs

Smaller footprint than previous generation
