Model #: B070-016-19-IP

NetCommander 19" Console w/ 16-Port Cat5 IP KVM Switch

Highlights

- 16-port Cat5 IP KVM Switch with built-in 19" Monitor, Keyboard, and Mouse
- Expandable: Connect and control up to 256 computers
- Support for most Operating Systems

Description

Tripp Lite's B070-016-19-IP, NetCommander Rackmount Console IP KVM switch, is a cost effective and highly flexible system for controlling up to 256 computers from either a single 19" display console, or, from a remote location. This console can be cascaded with Tripp Lites stand-alone B072 NetCommander series KVM switches. Switching between attached servers can be accomplished with On Screen Display menu, or Hot-Key.

Utilizing Tripp Lites B078-101 series server interface units, KVM cabling is kept to a minimum and extremely manageable, with the use of Cat5/Cat6 patch cables. Servers can be located up to 100ft away from the switch.

The B070-016-19-IP Console KVM switch supports a wide variety of software platforms, including: MAC, DOS, Windows 95/98/SE/NT/2000/ME/XP/Server2003/Vista, Linux, Unix, Sun (USB only) and BSD. Password feature provides additional security to prevent unauthorized access to attached computers. All hardware included for 4-post racking, and designed for easy, one person installation. Fits into any rack from 29" to 42" deep. 2-post rackmounting available using Tripp Lite B019-000, 2-post rackmount kit.

System Requirements

- PS/2 or USB computer / server
- (1) B078-101-PS2 (PS/2) or B078-101-USB (USB) Server Interface Unit is required for each connected computer/server

Package Includes
