

InFocus

Touchscreen Solutions

Mondopad | BigTouch | JTouch

The Right Tool for the Right Application

Mondopad, BigTouch and JTouch are complementary products that address different requirements and specific applications.

Mondopad

An integrated collaboration platform that enables:

- Video calling
- Interactive whiteboarding
- Document annotation
- Viewing, editing and sharing
- Microsoft Office files

BigTouch

A large touch-enabled Windows Pro computer

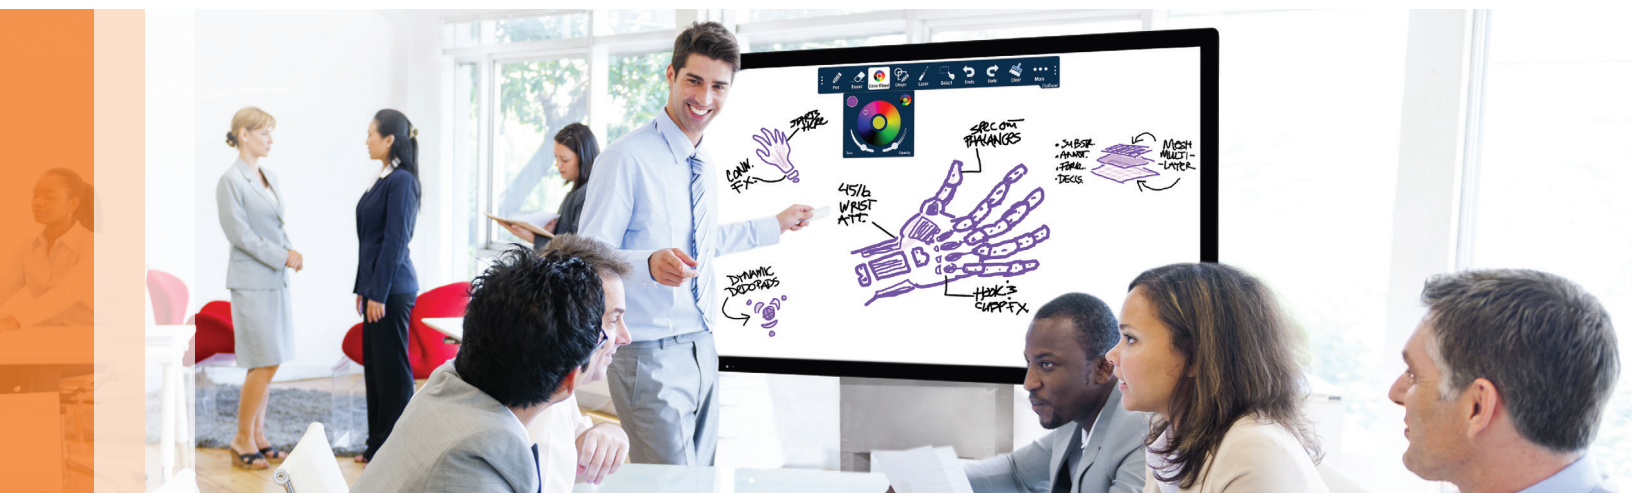

- Enables installation of any PC software
- Powered by Windows 8 Pro or Windows 10 Pro
- Whiteboard with optional BigNote software

JTouch Interactive Display

A large touch-enabled display; upgrade options include:

- Interactive digital whiteboarding
- Wireless device presentation
- Web browsing
- Capacitive touch on select models
- Dual landscape or portrait orientation

Mondopad

In-room and remote visual collaboration made easy

Mondopad elegantly blends video calling, whiteboarding and more into one giant touchscreen PC for efficient face-to-face collaboration with people in any location. Bridge communication gaps, strengthen teams, capture and share information, and save time and money. You'll never want to meet without it.

Key Features

- Big, bright, high-resolution touch display everyone in the room can see
- Native HD video calling and data sharing that's crystal clear
- Interactive whiteboard and on-screen annotation
- Built on a fast and flexible i7-based Windows PC
- Ultra-responsive projected capacitive touch available on 65-inch model

Whiteboard and Annotation

Whiteboard & annotation apps make it easy to brainstorm, capture & share ideas.

- Create a whiteboard on a canvas of up to 100 display screens in size
- Quickly and easily take notes on presentations, web pages, videos and more
- Save and email your drawings to meeting participants from the Mondopad

Bring Your Own Device

Securely connect and share content with Mondopad from PCs, Macs, Chromebooks, tablets or smartphones and make meetings more collaborative, productive and sustainable.

- Wirelessly cast your device's screen to the Mondopad
- Control the Mondopad with your device, such as advancing slides or annotating
- People can video-call your Mondopad from a computer, tablet or smartphone

Video Connect to the World

Bring people together to collaborate anytime without expensive travel, while still achieving the benefits of face-to-face interaction.

- Make and receive video calls right away with free InFocus 121 Basic video calling service for the first year
- Conduct instant 4-way conversations when you upgrade to InFocus 121 Premium video calling service
- If you have a video conference server or service, add Mondopad as a SIP endpoint or install the desktop client onto Mondopad

BigTouch

The touch PC that demands an audience

BigTouch combines the fun of a tablet with the productivity of a PC in a giant, fast, and fluid touch experience for your classroom or other shared work space.

Key Features

- Run all your Windows apps in touch mode
- Highly customizable for your needs and your PC applications
- Intel Core i7 processor with fast solid state hard drive
- Wireless mouse and keyboard included
- Ultra-responsive projected capacitive touch available on 65-inch model

The Power of a PC at Your Fingertips

Maximize the touch experience on a large scale by adding the power of a PC.

- Personalize the Start screen with tiles that connect to a person, app, website, folder or whatever else is important to you
- Use your apps, get more apps in the Windows Store, and arrange them any way you want
- Enhanced features to easily connect to your networks, access files in the cloud, encrypt data, and more

The Tablet Experience...Magnified

Tablets are fun. Touch is intuitive. The InFocus BigTouch employs a beautiful 57-inch, 65-inch, 70-inch or 80-inch display that allows that enjoyable experience, and your content, to be seen and shared.

- Brilliant 4K (80" model) or 1080p HD (70", 65", and 57" models) displays show off your content with incredible brightness, color and clarity
- Multiple point touchscreen delivers exceptionally accurate touches & swipes
- Windows gestures such as tap, slide, swipe, pinch, and rotate can be used to get a global view of everything on the screen

Upgrade and Whiteboard Like a Pro

Add our BigNote whiteboarding software to turn your BigTouch into a full-featured digital whiteboard with document annotation.

- Wide assortment of digital pens, colors and shapes
- Whiteboard on up to 10 square feet of space
- Annotate on screen and save the changes
- Cross-compatible with Mondopad's whiteboard app

JTouch

Large touchscreen displays to engage your audience and fit your budget

Engage audiences in classrooms, boardrooms, and beyond with a big, colorful touchscreen display. Upgrade with wireless collaboration and an interactive whiteboard to easily connect, share, and present content.

Key Features

- Run all your apps, even the older ones, with touch
- Multiple ways to quickly display and control your notebook
- Ultra-responsive projected capacitive touch available (select models only)
- Multiple-point touch interactivity
- Incredibly sharp 4K resolution (select models only)
- On-board USB hub for added notebook versatility
- Built-in, full-featured digital whiteboard (select models only)
- Display a mobile device or notebook wirelessly (Wireless Collaboration models only)
- Access the Internet with the built-in web browser (Wireless Collaboration models only)
- Portrait or landscape orientation (40-inch models only)

Upgrade with Interactive Whiteboard

Draw, write, and capture notes.

- Capture and save whiteboard notes electronically
- Write or draw with complete collection of pens, highlighters, shapes, lines and colors
- Paste backgrounds and images onto a whiteboard or wallpaper the entire canvas
- Email information directly from the JTouch (Wireless Collaboration models only)

Bring Your Display to Life with 4K

Our 80" Mondopad, BigTouch, and JTouch displays, and our INF7002WB JTouch display, now feature 4K resolution for an incredibly sharp, vivid picture. Boost the impact of your content and make every meeting or presentation more engaging, informative, and memorable with 4K.

- More pixels mean more detail and depth for amazingly life-like images
- Enhanced color rendering
- Presenters benefit from crisp, clear images up close
- Audiences enjoy vibrant, detailed images, even from the back of a conference room

Enhance with Wireless Collaboration

Make meetings and lessons more efficient and engaging.

- Robust and reliable connection via special apps with extra features:
 - Annotation from your smartphone or tablet mobile device
 - Built-in support for cloud drive services
 - Use your device's camera as a document camera
- See content from four devices at once with QuadView
- The Moderator feature empowers teachers to control a classroom full of student devices and choose who presents
- The Follow feature lets the audience follow along with the presented content from their own device
- Connect natively with AirPlay or Miracast, or via Chrome extension
- On-board video decoding displays HD video seamlessly, even at high resolutions
- Connect to your network to create a new, secure wireless access point
