Cabinet & Rack Accessories

Siemon Interconnect Solutions (SIS) offers a wide variety of cabinet and rack accessories. Featured here is a selection of cable management products designed to fit within HP® Intelligent series and Dell™ PowerEdge™ racks. We invite you to view our complete offering of solutions at www.siemon.com/sis.

VCM-Kit
(includes 10 cable managers)

Quarter Turn Hook & Loop Cable Managers

SIS's tooless hook and loop manager offers a discrete cable management solution for most racks. A tooless attachment method provides the most versatility when securing cable to just about anywhere in the cabinet or within the cable manager trough itself. Our solutions feature several mounting options, ensuring fit not only with Dell PowerEdge racks, but also with HP Intelligent series enclosures.

Part#	Description
SIS . . . . VCM-Kit	¼-turn Hook and Loop Cable Managers, Box of 10.
	Cross Reference Part # DELL: 332-1339, HP: BW963A

HPD-145

Quarter Turn D-Ring Cable Managers

SIS's easy to use tooless D-ring cable managers are compatible with the rectangular cutouts that are unique to Dell PowerEdge and HP Intelligent racks. The managers support proper routing of interconnect cables, copper patch cords or fiber jumpers in many areas and orientations. Our products offer different mounting options ensuring fit within various manufacturer's cabinets

Note: The below part numbers feature the same quarter-turn as Dell's 332-1339 and HP's BW963A

HPD-143

Part#	Description
SIS HPD-145	¼-Turn D-Ring Cable Manager (box of 10) 127.0x88.9mm (5.00 x3.50 in.)

Part#	Description
SIS HPD-143	¼-Turn D-Ring Cable Manager (box of 10), 88.9x44.5mm (3.50x1.75 in.)

HPD-CH

Part#	Description
SIS . . . . HPD-CH	¼-Turn High Capcity Cable Manager (box of 10), 114.3x76.2mm (4.50x3.00 in.)

SnapFIT™ Thermal Blanking Panels

Help to improve thermal efficiency by directing cold air towards equipment and preventing airflow through vacant rack-mount spaces within enclosures. They snap into the standard EIA cage nut holes of 1U cabinet spaces to improve thermal efficiency and reserve space. These panels fit within all Siemon enclosures, Dell PowerEdge racks and HP Intelligent Series.

Part#	Description
SIS. PNL-TBLNK010-1S	Tooless blank filler panel, 1U, square holes, black, pkg of 10
	Cross Reference Part # DELL: 330-8932, HP: BW928A

Brush Guard Panels

Our 1U Brush Guard Blanking Panels are used in place of standard blanking panels to allow pass through of cables between the front and rear of a cabinet, while still providing thermal protection to maintain hot aisle/cold aisle isolation.

Part#	Description
SIS. PNL-BRSH-1	Brush guard panel, 1U, black
