Physical Security Locks for All Dell Systems

2017 Catalogue

www.lock-selector.com

The Professionals' Choice™

As the leader in IT hardware security, Kensington is The Professionals' Choice™ for securing their business devices.

The Leader in Laptop Security

Information is a valuable commodity. The cost of a replacement laptop can be insignificant compared to the cost of your data in the wrong hands. Kensington has always recognised the role of physical security in protecting and deterring laptop and device theft. Simple to implement and cost-effective, Kensington's security solutions are entrusted by a multitude of different industries such as finance, legal, medicine and education where security is of paramount importance.

MORE THAN

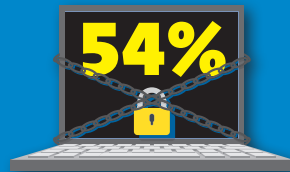

1/3

do not have a physical
security policy in place
to protect laptops,
mobile devices and
other electronic assets

MORE THAN

HALF

fail to use a
physical lock
for IT
equipment

80%

do not use locks to
prevent theft of **non-**
computing equipment
such as projectors, hard
drives, monitors or
speaker phones

WHEN
DEPLOYING
LAPTOP LOCKS

key management is an
important consideration
for nearly

65%

of IT personnel

10 Reasons Why IT Managers Invest in Physical Security

1. **It's easy to do.** IT hardware incorporates Kensington Security Slots.
2. **67%** of laptops are stolen from the **office**.¹
3. **89%** of companies have **experienced laptop theft**.²
4. Only **3%** of stolen laptops are **recovered**.³
5. **85%** of IT Managers suspect internal laptop theft.²
6. IT Managers attribute 80% of the cost of a stolen laptop to **network breaches**.⁴
7. Organisations underestimate the cost of **down time** by **31%**.³
8. **49%** of SME's take **2 to 4 days** to replace a lost or stolen laptop.³
9. IT Managers state that **52%** of laptop theft would be **prevented** by a **lock**.²
10. **75%** of IT Managers believe that believe Physical Security represents **better value** than software security.²

General Data Protection Regulations (GDPR) coming into effect in 2018 could see organisations fined up to 4% of Global Revenue or up to €20m for significant data breaches

What Lock Types Do We Offer?

Kensington®

Custom Keyed Solutions are the most popular option for any business or institution. They give you more control over equipment while safeguarding employees from laptop and data theft. Choose from one of the distinct options for the kind of access and control that is right for you:

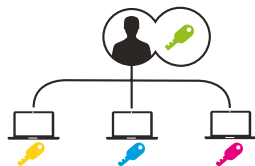

Individual Keyed

Unique Individual keys and locks for computers. Users can register their own key code for safe keeping on Register and Retrieve.

Individual keyed	
461-10054	MicroSaver® keyed lock
461-AADC	Combination lock
461-10169	ClickSafe® Lock for All Dell Slots
461-AAES	Twin ClickSafe® Lock for All Dell Slots
461-AAEU	Combination ClickSafe® Lock for All Dell Slots
461-10053	Twin MicroSaver®
461-10185	Desktop & Peripheral Locking kit
461-10220	Dell Premium Lock

Master Keyed

Unique, individual keys and locks for computers; master key opens all locks. Allows individuals access to own equipment while IT manager has control of all the equipment and data.

Master keyed	
461-10072	MicroSaver® keyed lock
A8748976	Combination lock
461-10209	ClickSafe® Lock for All Dell Slots
461-AAET	Twin ClickSafe® Lock for All Dell Slots
461-10214	Twin MicroSaver® Lock

All products contain 25 locks + 2 Master Keys

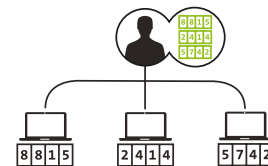

Like Keyed

All locks are alike; all users can open all locks. The ideal solution for companies where the risk of internal theft of data and devices is low. All employees have access to all devices.

Like Keyed	
461-10154	MicroSaver® Chassis Lock

Master Coded

Combination locks are ideal for field based staff or remote locations where keyed locks aren't practical. ClickSafe® Master Coded locks allow users to set their own unique combination code. Administrators can overcome the users code using a ClickSafe® ComboGenie.

Master Coded	
A8748976	Combination lock
On request	Combination ClickSafe® Lock for All Dell Slots

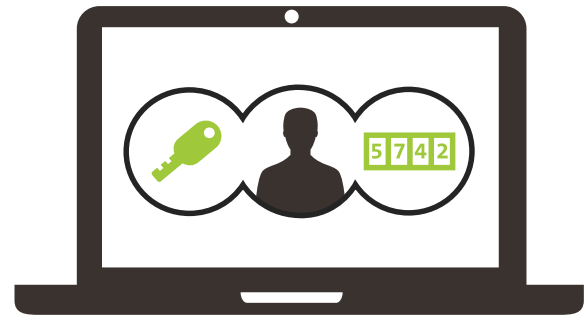

ClickSafe® Master coded available upon request

Kensington Lock Registration Suite empowers administrators to manage their lock programs and ensure staff benefit from Kensington support services without needing to contact their administrator.

Administrators can register locks individually or en-mass to individuals or groups, manage Master Keyed, Like Keyed or Single Keyed programs, create user accounts for their end users where replacement keys can be ordered or combination codes saved, record lock ownership and download reports, find the owners of lost keys and reassign locks to new users.

Individuals can order replacement keys, retrieve stored combination codes and access Kensington Register and Retrieve Lock Management Portal from www.kensington.com and under My Account section.
