Family

“While others take care of their investors, we take care of our customers.” Family owned and operated since 1972, Architectural Products by Outwater, LLC began as a brick and mortar company serving those in the architectural and interior design industries. Having 300,000 square feet of distribution and warehousing facilities in New Jersey and Arizona enables Outwater to provide reasonable shipping costs and lead times for customers throughout the country. Outwater strives to provide innovative and exciting products for our clients. This desire led to our partnership with ORAC Décor®, another family owned business with an enthusiasm for all things beautiful and elegant. For over 50 years, ORAC Décor® has developed and manufactured traditional, modern and unique high quality 3D ornaments resulting in a complete collection for the design professional.

Award Winning Designs

ORAC Décor’s breathtaking line of architectural mouldings brings new meaning to interior design and features many award-winning products. In 2014, ORAC Décor’s Wave Profile for Indirect Lighting won the internationally acclaimed Red Dot Award for Product Design, and in 2016 the new SX171 Baseboard Moulding was the winner of the Smart Design on Intirio. ORAC Décor® remains Europe’s #1 choice for interior design and this award-winning, designer collection is available in North America exclusively through Architectural Products by Outwater, LLC.

Our Designers

Ulf Moritz

Xavier Donck

Orio Tonini

Pierre Daems

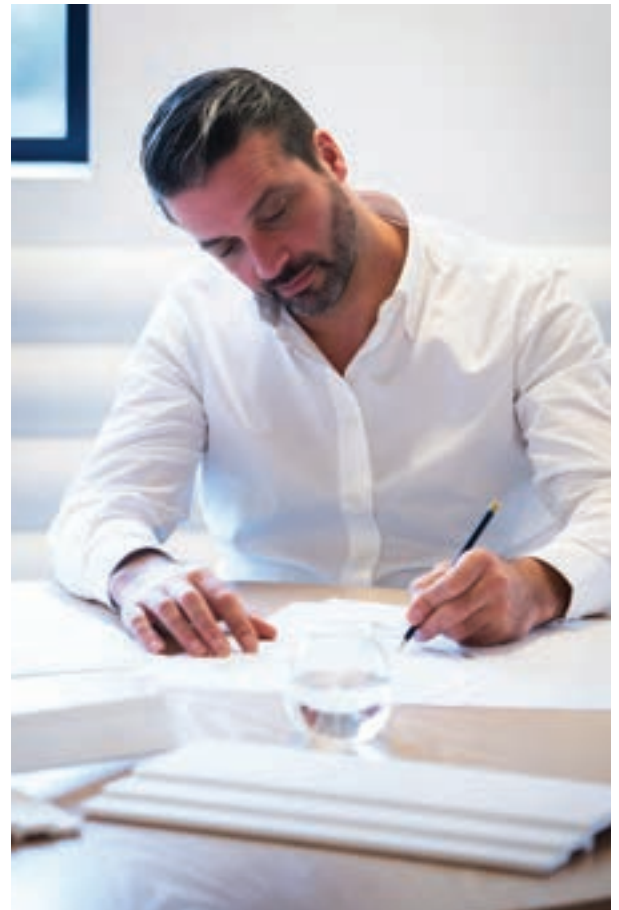

Jacques Vergracht

ORAC Décor® has teamed up with many of the industry's top European designers and architects to develop new and innovative profiles. Working with these designers allows ORAC Décor® to stay up to date on the latest design trends and create truly inspired profiles that fit an array of different styles.

Collaborating with these world-renowned designers and architects resulted in a collection of unique profiles and 3D wall decor that the industry has never seen before. ORAC Décor's new MODERN Collection of profiles and high-quality 3D ornaments breaks away from traditional style mouldings and features a "less is more" theme employed by designers and architects like Ulf Moritz, Xavier Donck, Orio Tonini, Pierre Daems and Jacques Vergracht.

Incorporating their ideas into the clean-cut lines and styles of this collection has enabled ORAC Décor® to open up a whole new era of architectural mouldings and designs that will continue to grow.

Technical

ORAC Décor® strives to produce the highest quality products for its customers and provides any information needed for a smooth installation. Technical drawings can be downloaded by visiting www.oracdecorusa.com, where you can also find videos that show various methods of installation for the complete ORAC Décor® line of products.

---	---

Materials

As a pioneer, ORAC Decor® has introduced synthetic technology for the production of their decorative elements. Synthetic materials have more advantages than traditional plaster, wood or MDF solutions.

ORAC's synthetic materials are not only lightweight, easy to handle, sturdy and durable but also completely recyclable.

Boasting product quality that is second-to-none, ORAC's decorative mouldings and ornaments are primed and ready for painting/finishing.

PUROTOUCH®

A high-quality, high-density polyurethane that allows fine details.

DUROPOLYMER®

An extruded and impact-resistant polymer based on a high-density polystyrene.

DUROFOAM®

An extruded lightweight polymer based on a medium-density polystyrene blend.

FLEX

A wide range of cornice mouldings, panel mouldings and baseboards are also available in a flexible version.

Steel Molds

the benefits of

ORAC Décor® has become a leader in the industry through innovation and creative design. Part of what makes ORAC Décor® so unique is the use of steel molds to produce the high level of defined, rich detail that ORAC Décor® is known for. The use of steel molds also enhances all of ORAC Décor's exclusive materials, formulated specifically to create long lasting, beautiful products.

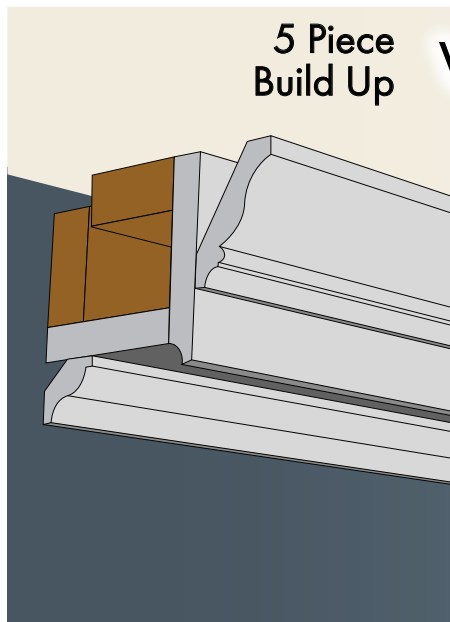

This process provides crisp, sharp details and unlike rubber molds, steel molds do not warp or degrade during production ensuring that each and every ORAC Décor® moulding is identical.

Build Up

ORAC Décor's standard mouldings and new MODERN Collection feature large, one-piece profiles that provide an effortless installation. These mouldings feature one-piece construction, and eliminate the need for build-up and the possibility of post construction separation or cracks. ORAC Décor's mouldings are incredibly lightweight, easy to work with, and can be installed with everyday woodworking tools.

The large profiles are more cost effective than traditional build-ups, saving time and labor during installation and will enhance any pre-existing architecture with ease.

50
YEARS
CREATIVITY &
INNOVATION

50 Years of Passion

ORAC celebrates 50 years of passion, creativity, and innovation. Drawing inspiration from historical architecture, we have recreated the stately profiles of the 17th century using modern day technology. Our 2021 collection consists of baseboards, crown mouldings, crown mouldings for LED lighting, and a ready-made paneling system to transform to your décor effortlessly.

The past comes to life

Manor

Baroque

Introducing The Heritage Collection

History with a modern twist

Imagine yourself in an nineteenth century manor home, living in a space full of large intricate cornice mouldings that emphasize the height of your rooms. A space where rich hues and ornate wainscoting come together in perfect harmony.

1 FP4025 pg. 76

2 W109 pg. 95

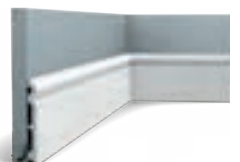

3 C324 pg. 46

4 W120 pg. 95

5 W121 pg. 95

6 SX138 pg. 86

Prefabricated Wall Panels

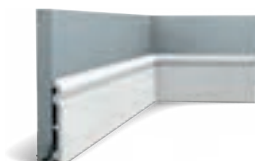

Do you like tall wainscoting and want to get going fast? These prefabricated panels can be mounted directly to the wall without any prep work.

1 C324 pg. 46

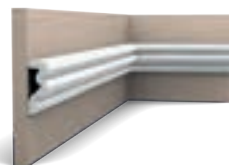

2 W120 pg. 95

3 SX138 pg. 86

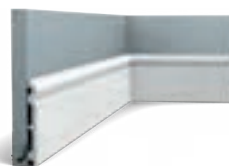

❶ FP4025 pg. 76

❷ W120 pg. 95

❸ W121 pg. 95

❹ SX138 pg. 86

Mix & Match

Create your own unique designs as renowned designers did for country manors 200 years ago. Insert panels can be mix-and-matched, offering endless possibilities.

2 W123 pg. 95

3 W122 pg. 95

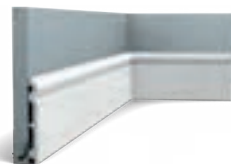

4 W120 pg. 95

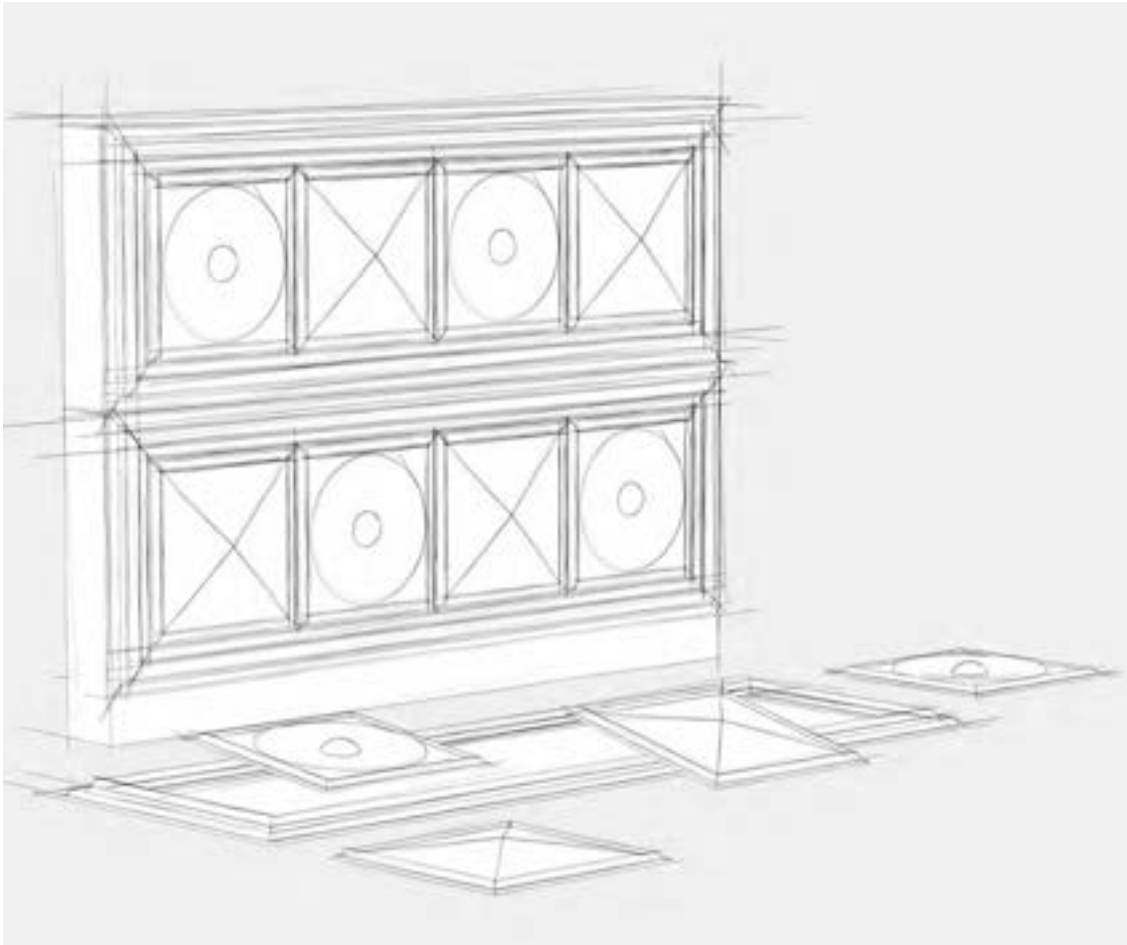

5 P4025 pg. 76

6 W121 pg. 95

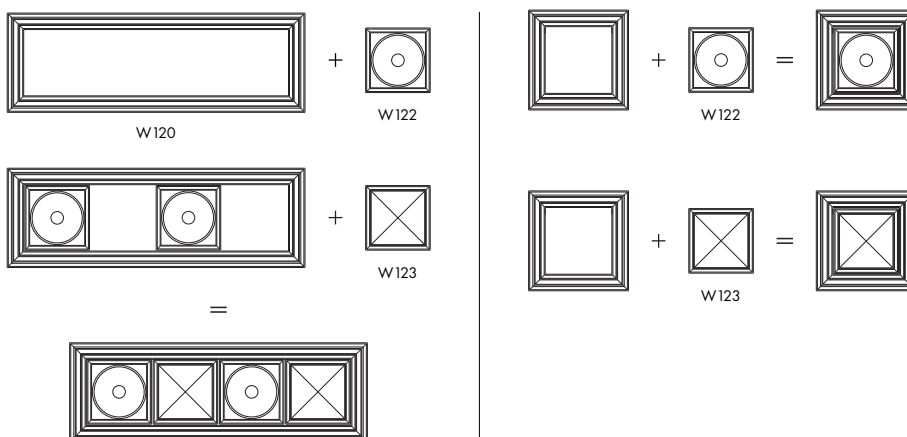

7 SX138 pg. 86

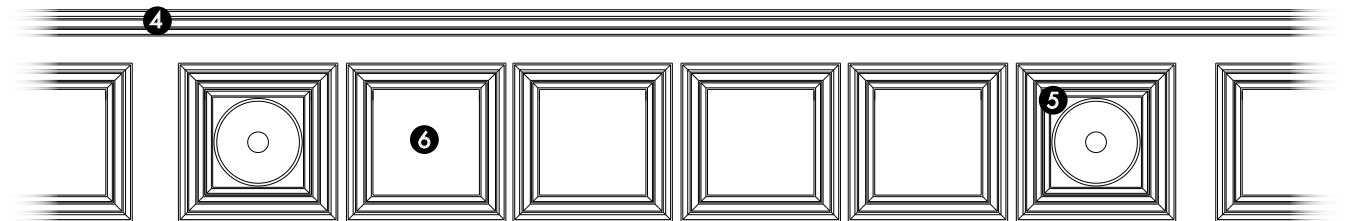

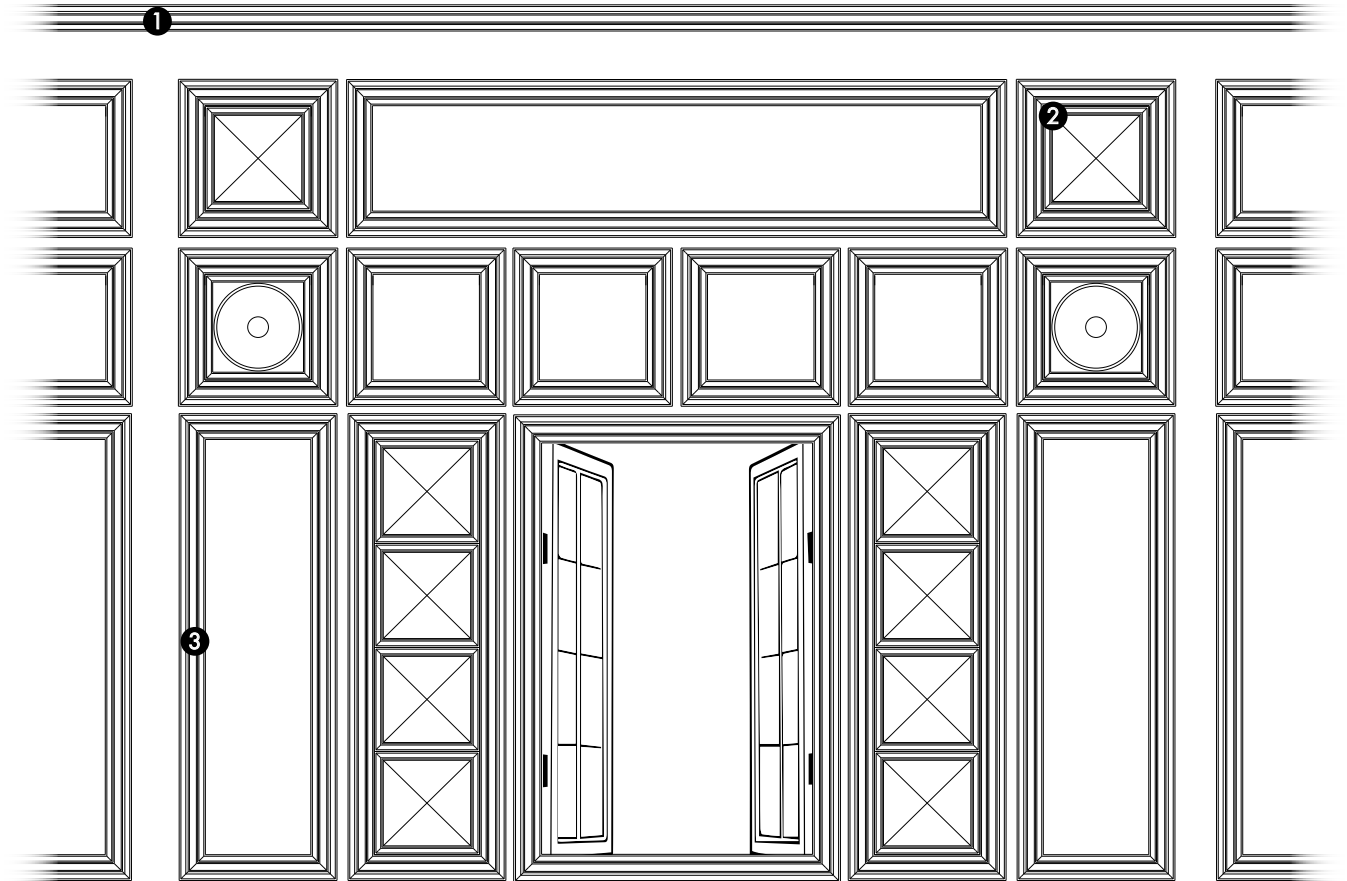

Reign over your wall decoration. These authentic designs with precise details immediately conjure up depth and structure for your wall.

This innovative paneling system consists of primed, prefabricated wall panels W120 and W121 and insert options W122 and W123. It is an economical solution for wall depth creation and allows for fast, effortless installation. Unlike traditional wood millwork, there is no mitering necessary, which eliminates cracks and cuts down on labor costs, too.

Design tips & tricks

Keep it classic or make it creative. Combine the seven design elements for walls and ceilings exactly as you desire.

1 C324 pg. 46

2 W123 pg. 95

3 W120 pg. 95

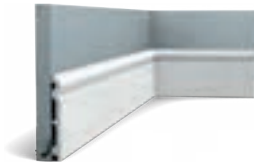

4 P4025 pg. 76

5 W122 pg. 95

A repeating pattern immediately makes a plain wall look more interesting and put-together.

6 W121 pg. 95

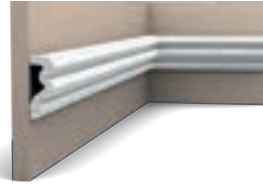

7 SX138 pg. 86

8 C344 pg. 65

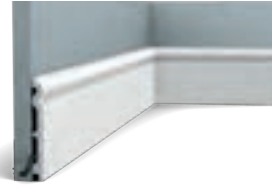

Specially Created Profiles for the Heritage Collection

Create a special space with character. Use a separate frame with an identical design to create your own made-to-measure panels.

P4025

Our P4025 customizable framing profile allows you to create any sized panel to complete your design. This panel profile is also available in flexible form (FP4025) which is ideal for vaulted ceilings or curved walls.

SX138

SX138 baseboard is the perfect foundation for building the Heritage wall system and elegantly ties the room together. Like all ORAC baseboards, the SX138 is impact resistant and impervious to moisture.

C324

C324 is designed to house LED lighting strips to illuminate recessed bookcases, bars, and niches.

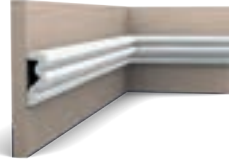

C323

C323 is the top cap for the Heritage paneling system. This creates a seamless connection between the crown moulding and paneling.

Express creativity. Flexible moulding is ideal for vaulted ceilings or curved walls.

STEP 2

STEP 3

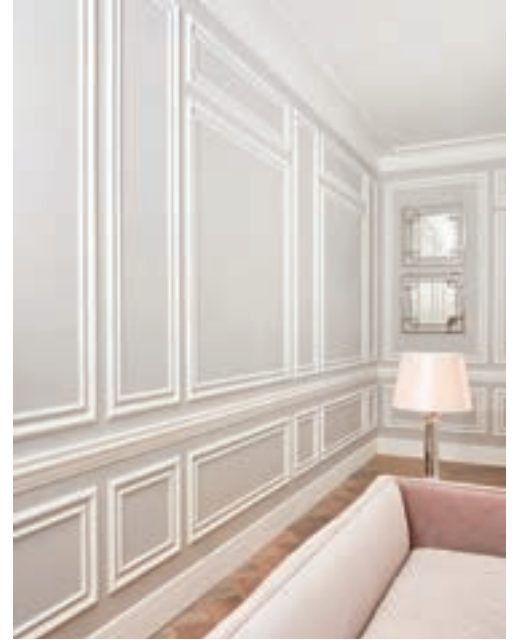

Design tips & tricks

Creative with color

Unicolor:

Continue the wall's color palette for a clean, coordinated effect.

White mouldings:

Paint your photo and chair rails in classic white. For large mouldings, this draws attention to the architectural added value.

Horizontal blocks of color:

Use profiles to define the boundaries when employing multiple colors.

Graphic elements:

Highlight your wallpaper or wall decoration by framing it with one or more wall mouldings.

Indirect Lighting

Indirect lighting creates a warm atmosphere and adds depth to a room by producing subtle lighting effects. Our innovative profiles for indirect lighting are specially designed to incorporate compact LEDs and disperse light evenly. They can direct light upward or downward and are offered in a variety of shapes and sizes to fit seamlessly into any interior.

Curtain Mouldings

Make your curtain hardware disappear

The innovative, new curtain mouldings featured in the MODERN Collection are the perfect addition to your space. These state-of-the-art mouldings were designed to be attached to the ceiling and allows adjustable space for curtain rods and drapes to be hidden behind. It is also possible to use these new curtain mouldings to hide lighting and other hardware. When installed these mouldings also offer an uninterrupted perimeter around the room and are a beautiful transition from wall to ceiling. These mouldings can also be used with other products from the ORAC Décor[®] line for a seamless, modern design.

Baseboard Mouldings

All baseboards are made from Duropolymer®, an impact and water resistant polymer mix that is fully recyclable. Cables can be hidden easily and the flexible versions allow curved walls to be finished elegantly. For your convenience, our baseboards are pre-primed and ready for paint.

Medallions

Ceiling medallions, with or without floral designs, enliven your ceiling and are a great way to break up larger ceiling surfaces. You can choose repetitive decorative elements for playful effects or combine them with mirror lighting to add a modern touch. Rosettes can also be applied to walls. The possibilities are endless, so let your imagination run wild.

Raised Panels & Wainscoting

Door or wall panels create a feeling of depth, which makes the room appear larger and more interesting than it would if all of the surfaces were flat.

Wainscoting can evoke the atmosphere of stately homes, and tastefully protect your walls. They are equally suitable for both modern and classical homes, and can bring texture to any wall.

Door Frames & Pediments

With ORAC Décor's architraves and door panels you can quickly and easily transform your interior. Architraves give your door a stately look while panels add rhythm and relief.

Pediments are commonly featured in hallways or door entries to enhance interior archways. In addition, you can use pediments to make doors or windows the focal point of a room.

Columns & Pilasters

Columns remind us of the ancient world and if you want to add a hint of this to your project, the ORAC Decor® collection offers plenty to choose from: half and full pillars to many pedestals and shafts. Pillars can be crowned by capitals available in different designs. This allows you to put together your pillars à la carte to suit your project.

A rectangular wall element, such as a pilaster or wall pillar, is perfect for decorating a book case or breaking up a large plain wall surface. Pilasters at specific distances in a long corridor, for example, add rhythm and dynamics.

Purotouch® a proprietary polymer blend formulated to create deep reliefs and crisp details.

Collections

Duropolymex® high impact resin blend. Ideally suited for baseboards and chair rails.

Adhesive

ORAC® adhesives save time and money. Eliminate nails, putty, sanding and refilling. Installation times are significantly reduced.

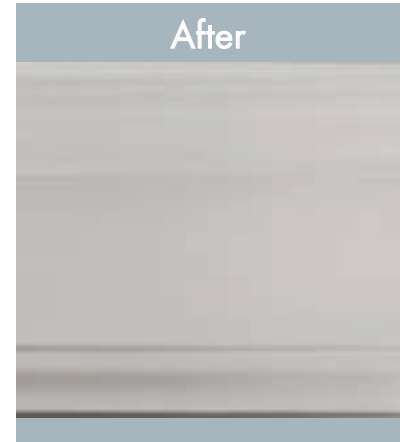

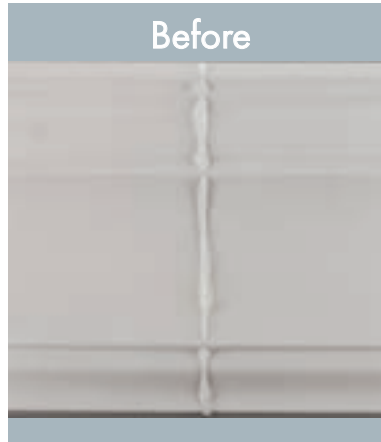

Installation Guarantee: ORAC Decor® products are guaranteed.
Protect your warranty by using genuine ORAC® adhesives

Adhesive

ORAC[®] adhesive & joint compound creates a seamless connection.

Once the moulding is adhered to your surface, you can walk away to prepare the next length. Conventional installation takes days to finish. With ORAC[®] adhesives, you can finish in hours.

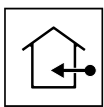

DecoFix Pro

ORAC Décor's DecoFix Pro was engineered for mounting all products from the Duropolymer[®] and Purotouch[®] collections. This adhesive provides a strong bond between the mouldings and mounting surfaces.

For wall and ceiling applications

A strong, water-based acrylic installation adhesive. For interior, porous, and dry surfaces.

- An all-in-one adhesive for all ORAC profiles: cornice, panel and baseboard mouldings.
- Additional Benefits:
DecoFix Pro acts as a filler
- Remove with damp sponge or cloth
- Should be kept frost free
- Paintable after hardening (min. 24 hours)

FDP-500

Adhesive

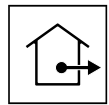

DecoFix Power

ORAC Décor's Decofix Power was manufactured for use with both the Duropolymer[®] and Purotouch[®] lines when installed in particularly damp or humid environments. The Decofix Power can be used in bathrooms, kitchens, outdoor environments, or anywhere else where there is a consistent change in humidity.

For wall and ceiling applications and heavy profiles

A very strong, MS-Polymer-based installation adhesive. For exterior, non-porous, and humid surfaces.

- Use when installing with one point of contact.
- The perfect adhesive for indirect mouldings, bathrooms, and basements.
- Remove with soap solution
- Paintable after hardening (min. 24 hours)

FDP-700

290ml

> 7 - 8m

DecoFix Extra

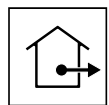

The final adhesive created specifically for ORAC Décor[®] is the Decofix Extra which is used for seaming joints between mouldings. The Decofix Extra provides a tight bond and nearly seamless look that keeps that joints from separating over time.

For joints between mouldings

A polyurethane-based adhesive. For interior, exterior, porous, non-porous, dry and humid surfaces

- Remove excess glue before hardening (max. 1 hour and repeat after 2-3 hours)
- Clean with acetone or Synth Thinner
- Can be painted after 24 hrs.
- The more humidity, the faster the drying time

Caution: DO NOT use DecoFix Extra with Durofoam Mouldings
