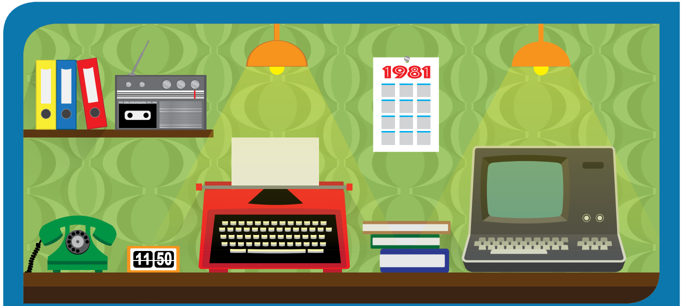
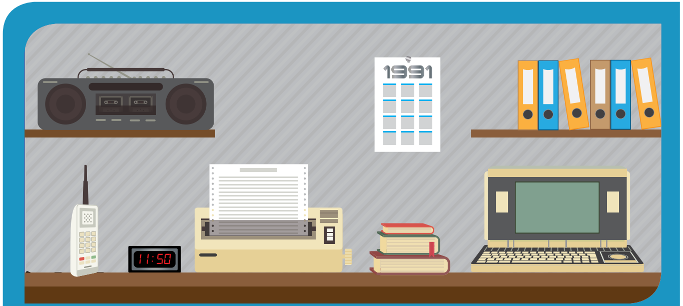
A History of Providing...

Year	Product
1981	System Saver for Apple II
1986	Turbo Mouse
1990	MasterPiece
1992	MicroSaver® and Security Slot
1996	 Mouse In A Box
1997	Game Pad
2000	ComboSaver®
2003	PocketMouse™ Wireless
2005	FM Transmitter
2007	Laptop Power with USB



Providing some privacy and quiet, cubicles began to appear in the 1970s. Typewriters were replaced by desktop computers in the 1980s



Computers became a much more common sight throughout the 1990s, together with new technologies such as fax machines. Laptop machines become more affordable and more capable.

Throughout the 2000s faster Internet connections made working remotely much easier in tandem with vastly more capable laptop, mobile and smartphone connectivity.

Today's workplace is dominated by technology. Workers often have a multitude of hardware to choose from, all syncing to Cloud services. Employees travel more, use shared workspaces and securing data has never been a higher concern.

SECURITY

The No.1 brand in laptop locks with a legacy of trust and innovation for more than 36 years, Kensington offers an extensive lineup of locks and solutions to secure mobile and desktop devices from theft.

- Push-button design for one-hand operation to easily install lock
- Keyless four-wheel combination easily resettable

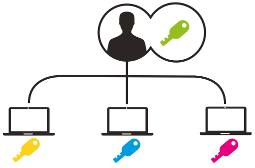
mm 3.5 mm 1800 1234

Custom Keyed Solutions

Kensington®

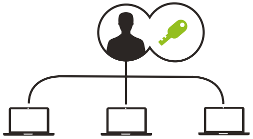
Custom Keyed Solutions are the most popular option for any business or institution. They give you more control over equipment while safeguarding employees from laptop and data theft. Choose from one of the distinct options for the kind of access and control that is right for you:

Master Keyed



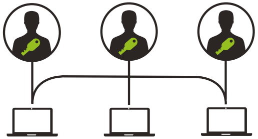
Unique, individual keys and locks for computers; master key opens all locks. Allows individuals access to own equipment while IT manager has control of all the equipment and data.

Single Keyed



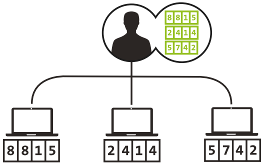
All locks are alike; only one master key will open locks. No individual keys provided. Designed to reduce risk in classroom, lab, or library environments. Computer can be locked in place with IT manager access only.

Like Keyed

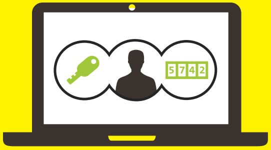


All locks are alike; all users can open all locks. The ideal solution for companies where the risk of internal theft of data and devices is low. All employees have access to all devices.

Master Coded



Combination locks are ideal for field based staff or remote locations where keyed locks aren't practical. ClickSafe® Master Coded locks allow users to set their own unique combination code. Administrators can overcome the users code using a ClickSafe® ComboGenie.



Register & Retrieve

Kensington Lock Registration Suite empowers administrators to manage their lock programs and ensure staff benefit from Kensington support services without needing to contact their administrator.

Administrators can register locks individually or en-mass to individuals or groups, manage Master Keyed, Like Keyed or Single Keyed programs, create user accounts for their end users where replacement keys can be ordered or combination codes saved, record lock ownership and download reports, find the owners of lost keys and reassign locks to new users.

Individuals can order replacement keys, retrieve stored combination codes and access Kensington Register and Retrieve Lock Management Portal from **www.kensington.com** and under My Account section.

- Premium construction so your laptop and display remain safe
- Future-proof online firmware upgrade available for Windows updates
- Compatible with Windows® 10, 8.1, Mac OS® 10.10 or later, Chrome OS™

Windows 10 Windows 8.1 Mac

USB 3.1

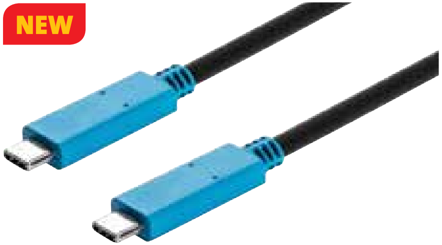
Docking Station Accessories

Kensington®

USB-C The Latest USB Connector Standard

- The USB-C connector has been adopted by all OEM manufacturers
- It is a small , symmetric reversible connector & uses the USB 3.1 standard
- The USB-C connector consolidates data, video and power in a single connection
- The USB-C connector features:
  - 10Gbps data transfer (via USB 3.1 Gen 2)
  - Up to 100W power delivery
  - 4K Video via DisplayPort Alt Mode
  - § Compatible with adapters that support existing DisplayPort, HDMI, DVI and VGA enabled displays
- Compatible with Windows® 10, 8.1; Mac OS® 10.10 or later; Chrome OS®
- USB-C is not backwards compatible with Windows 7 devices
- USB-C devices are compatible with Thunderbolt 3 PCs

NEW



USB-C 1m Cable

K38235WW

- 1m USB-C cable capable of carrying 4K video and data transfer
- Cable also supports up to 60W Power Delivery
- Ideal for connecting a USB-C device to the Kensington SD4600P or SD4500 USB-C docking stations
- The USB-C device much support DisplayPort Alt Mode over USB-C – for video output
- Only compatible with USB-C devices running Windows 10, 8.1, Mac OS 10.10 & later, or Chrome OS

Windows 10 Windows 8.1 Mac

USB 3.1

Docking Station VESA® Mounting Plate

K33959WW

- Allows you to mount a docking station, like the SD3600, on the back of your monitor
- Compatible with monitors featuring either 75mm or 100mm VESA® layout
- Adjustable during installation to place the dock at your desired height setting

Compatible with:

K33991WW - SD3600 USB 3.0 Dock
K33997WW - SD3650 USB 3.0 Dock
K38230WW - SD4500 USB-C Dock
K38231WW - SD4600P USB-C Dock
K38232WW - SD5000T Thunderbolt™ 3 Dock

What Makes Kensington “The Professionals’ Choice”?

- Phone/online technical support geared toward businesses
- Quality testing that goes beyond industry standards
- Industrial design that is catered to the business user
- High-volume manufacturer with experience in large deployments
- Emphasis on details that culminates in a better user experience

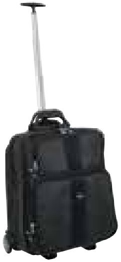
Contour™ Bags

Our **Contour™** bags feature proprietary, contoured panels and a weight-distribution system that shift weight closer to your stronger, load-bearing muscles. This decreases shoulder fatigue for an extremely comfortable carry experience.

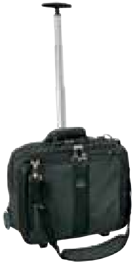
Each bag is constructed of highly durable 1680D material to resist punctures, tears and abrasions.



Contour™ 17” Laptop Overnight Roller

62903

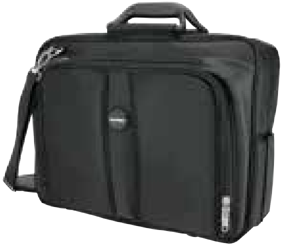
- 1680 Denier Ballistic nylon protects against abrasions, punctures, and tears
- Zippered interior compartment holds enough clothes for overnight and stores toiletries in a water-resistant pocket
- Zippered exterior compartment holds multiple files and can be expanded into the interior compartment for more room
- 3-stage telescopic handle and stable wheel design provide smooth rolling and wheeled comfort



Contour™ 17” Laptop Roller

62348

- Roller case with ergonomic design delivers go-anywhere comfort and protection
- 1680 Denier Ballistic nylon protects against abrasions, punctures and tears
- Telescopic handle and stable wheel design provide smooth rolling and wheeled comfort
- When the case needs to be carried, the Contour™ system helps reduce shoulder and neck fatigue by up to 35%

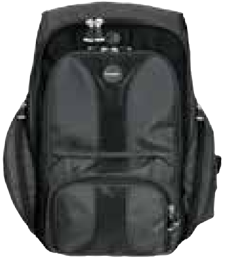


Contour™ 17” Topload Laptop Case

62340

- Contour™ Pro offers premium protection and exceptional comfort in one outstanding case
- Contour panel weight distribution system reduces shoulder, back and neck muscle fatigue
- SnugFit laptop protection compartment suspends and snugly envelops your laptop
- Detachable padded shoulder strap

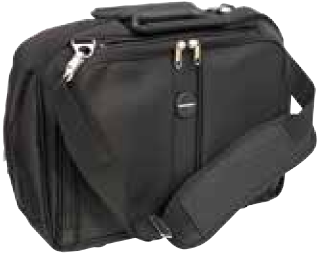
Contour™ Bags



Contour™ 15.6” Laptop Backpack

1500234

- Padded device compartments hold up to 17” laptop and 10” tablet
- Contour™ panel weight distribution system reduces shoulder, back and neck muscle fatigue
- The contour panel is engineered to bring weight closer to the body to reduce shoulder and back fatigue by up to 35%.
- SnugFit laptop protection compartment suspends and snugly envelops your laptop
- Multiple storage compartments to help stay organised



Contour™ 15.6” Topload Laptop Case

62220

- Padded device compartments hold up to 17” laptop and 10” tablet
- Designed with certified ergonomists, it offers unique, ergonomic comfort without sacrificing the robust padding needed for your laptop
- Body-hugging contour panel helps reduce shoulder and neck muscle fatigue by 35%
- 1680 Denier Ballistic nylon protects against abrasions, punctures, and tears
- SnugFit laptop protection compartment suspends and snugly envelops your laptop

SecureTrek™ Bags

Protect your commuter / travel bag with the **SecureTrek™** Lock Base to keep your mobile devices and other valuables completely safe.

This provides the ability to anchor the bag in areas where theft is a concern, such as airports, hotels, and trade shows.

The Kensington Security Slot accommodates ClickSafe® and MicroSaver® locks.

The Profession

ERGONOMICS

There's no denying the importance of Employee Wellbeing in the workplace. Being able to work comfortably at a workstation reduces aches and pains. Let Kensington take the stress out of every work day.

SmartFit® Explained

Kensington®

The Kensington SmartFit® system enables you to customise your work environment to get maximum comfort from your desktop accessories. All that you need is the SmartFit® hand chart to quickly and accurately set up and adjust a product to your personal comfort setting. If you share a workspace with other users, SmartFit® allows easy and accurate adjustment for each individual, saving both time and money.

Determine your personal fit in 3 easy steps:

STEP 1 - **MEASURE**

With every SmartFit® product, you will receive a hand chart in the box. This hand chart will assist you in finding your specific SmartFit® comfort colour to customise your fit.

How do you measure?

With your right wrist on the baseline of the hand chart, lay your entire hand over the diagram. The tip of your middle finger will point to your SmartFit® colour.

STEP 2 - **ADJUST**

The next step is to adjust the colour wheel on your SmartFit® product to your specific colour, and you're ready to go.

Not all SmartFit® products have a colour wheel, please make sure you read the instructions to understand how to adjust each SmartFit® product.

STEP 3 - **FIT**

The final step is to validate the fit of your SmartFit® product at your workstation. As we make many different SmartFit® products, please refer to the user guide in each product package for specific instructions.

SmartFit®

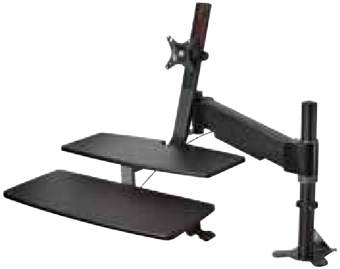
1. Total height adjustment of monitor bracket
2. Total height adjustment from sit to stand

Sit/Stand Workstations

In an ergonomic, well-designed workspace, adjustability is necessary so that the worker has the opportunity to choose from a variety of working positions and to change them frequently, allowing for freedom and flexibility to move around and rest working muscles.

Best Practice in Setting the Height of your Sit/Stand Desk:

- Top of monitor at or just below eye level
- Monitor at arm's length away
- Upper arms close to body
- Keyboard and mouse on same surface
- Wrists straight and hands at or below elbow level
- Table height should be at or slightly below elbow height
- Head, neck, torso and legs are in line

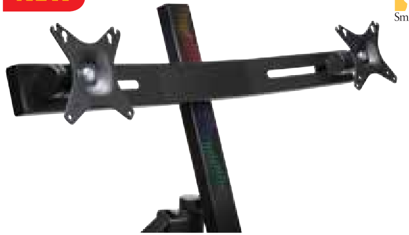


SmartFit® Sit/Stand Workstation

K55792WW

- SmartFit® System allows you to measure, adjust and fit the workstation's articulating arm to your ideal comfort colour setting
- Pneumatic lift lets you quickly and easily transition from sitting to standing
- Articulating arm has four pivot points so you can easily move the workstation up and down and side to side
- Height adjustable so you can set the monitor and the keyboard platform independently for the ideal viewing and typing settings
- Cable management channel routes accessory cords to keep workstation uncluttered
- Reinforced mounting clamp attaches quickly to the desktop
- Secondary platform provides a space-saving area for additional accessories

NEW



Dual Monitor Arm for SmartFit® Sit/Stand Workstation

K55759WW

- Designed for use with SmartFit® Sit/Stand Workstation (K55792WW)
- Easy installation that takes only a few minutes
- Ideal for monitors featuring either the 75mm or 100mm VESA® configuration
- Adjustable mounts allow you to slide the monitors left and right along both sides of the arm for a better fit
- Compatible with monitors up to 24" (max. weight of 10kg for monitors and items on platforms)
- SmartFit® System allows you to measure, adjust and fit the workstation's arm to your ideal comfort colour setting

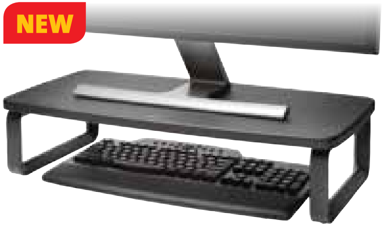
Monitor Stands

Having your screen at eye level is a better way to work. Our monitor stands help you avoid hunching over while you work at your desk. You also reduce twisting your spine and overextending your neck, which can lead to back and neck problems.

Best Practice:

- Ensure that when the monitor is placed on a stand it is an arm's length away from you
- Choose a height-adjustable stand to allow optimum screen position for your personal comfort
- If you use two screens, position them side-by-side, and at equal space in front of you

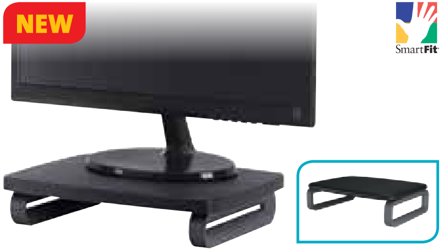
Kensington



SmartFit® Height Adjustable Monitor Stand Plus Wide

K52797WW

- Wide design allows you to store your keyboard or laptop underneath for a clutter free environment
- Height adjusts to 1 of 3 vertical settings without tools
- SmartFit® system lets you adjust monitor height to your personal requirements
- Determine your SmartFit® comfort colour, then set monitor height to match by snapping 1 or 2 risers into place
- Stand positions monitor in-line with your eyes to help reduce eye and neck strain



SmartFit® Height Adjustable Monitor Stand Plus

K52786WW | 60089

- **Black - K52786WW**
- **Grey - 60089**
- Height adjusts to 1 of 3 vertical settings without tools
- SmartFit® system lets you adjust monitor height to your personal requirements
- Determine your SmartFit® comfort colour, then set monitor height to match by snapping 1 or 2 risers into place
- Stand positions monitor in-line with your eyes to help reduce eye and neck strain
- Universal platform design fits any monitor up to 36kg

Monitor Stands

Kensington®

NEW

SmartFit® Height Adjustable Monitor Stand

K52785WW

- SmartFit® System lets you adjust monitor height to your personal comfort colour, by snapping risers into place
- 3 height settings
- Stand positions monitor in line with your eyes to help reduce eye and neck strain
- Universal platform design fits any monitor up to 18kg
- Accessories and papers can be stored under the stand to save desk space

NEW

SmartFit® Height Adjustable Spin Station Monitor Stand

K52787WW | 60049EU

- **Black - K52787WW**
- **Grey - 60049EU**
- Patented multi-compartment carousel organises desktop tools for easy access
- Sturdy design holds monitors up to 18kg
- Small footprint conserves space and looks elegant on any desk
- Adjusts to match your personal comfort colour, according to SmartFit® guidelines
- Adjusts from 57-83mm (2.25-3.25") tall
- Places monitor at comfortable eye level to ease neck strain

Flat Panel Monitor Stand with SmartFit® System

60039

- Strong enough to support flat panel monitors up to 15.9kg
- Height and twin side shelves adjust to customise workspace
- SmartFit® system lets you easily adjust monitor height to your personal requirement

Monitor Arms - Range at a Glance

Monitor Arms and Privacy Screens

SmartFit® monitor arms are lightweight, require little or no assembly and can be set up by just one person. The SmartFit® colour bar re-adjusts in seconds, meaning that multiple users of the same workspace can adjust for their own perfect fit - without the help of the IT manager.

Best Practice:

- The optimum viewing distance between your face and the monitor is about an arm's length (25-75cm / 12-30")
- The top of the viewable area of the display should be at your eye level and the screen should be angled upward towards you
- Ensure that your monitor is able to tilt and swivel
- The image on screen should be flicker-free and free from glare and reflections

SmartFit® Monitor Arms

K60903US | K60904US | K60900US

- **K60903US - Single Short (73mm)**
- **K60904US - Single Long (400mm)**
- **K60900US - Single with Laptop Tray**
- Maximises your desk space and positions monitor at correct height
- SmartFit® System lets the user adjust for their ergonomic comfort in seconds without specialist support
- VESA® 75 & 100 compatible mounting pattern for monitors 15-24", max. 11kg/25lbs per arm
- Assembles in minutes with grommet and clamp fixing options
- Cable management system reduces desktop clutter

NEW
SmartFit

Mouse Pads and Wrist Rests

Whether a wrist rest or mouse pad, Kensington comfort products relieve pressure while also helping to put the body in the proper ergonomic position. Like all Kensington products, many of our mouse pads and wrist rests are user adjustable, so that multiple users can adjust the height and comfortably share a workspace in a hot-desk environment.

Best Practice:

- Position your mouse within easy reach to prevent over-extending your arm
- Sit upright and close to the desk so your mouse arm is not stretched
- Support for wrists and forearms reduces the load on the upper limbs and shoulders as well as unnecessary extension and flex of the wrist
- Rest your fingers lightly on the buttons and do not press them hard
- Move the keyboard out of the way if it is not being used
- The mouse should be placed as close to the wrist as possible

SmartFit® Conform Wrist Rest

K55787EU

- SmartFit® colour coding system makes it easy to select the best support for your wrist
- 4 colour-coded interchangeable inserts ensure a neutral angle for the hand and wrist
- Patented design relieves pressure and reduces risk of repetitive stress injuries
- Non-stick pads on base allow wrist rest to glide with your hand movements for more comfortable use and continuous alignment
- Ambidextrous design allows right hand or left hand use
- Rest is compatible with all mice, including both wired and wireless

SmartFit® Height Adjustable Mouse Pad with Wrist Support

K55793EU

- SmartFit® System lets you measure, adjust and fit the mouse pad to find your ideal comfort colour setting
- Height adjustable inserts are set to your colour and help set your wrist at the correct angle for comfortable clicking and scrolling
- Gel wrist pad provides a cool, comfortable surface that conforms to your wrist and relieves pressure points
- Anti-microbial surface resists stains and odours for a worry-free experience
- Non-skid base provides stability and keeps the wrist rest firmly in place

NEW

ErgoSoft™ Wrist Rest for Standard Mouse

K52802WW

- Designed for use with wired or wireless mice
- Ultra-soft feel with a premium exterior that is supported by gel-cushioned padding to provide unmatched quality and comfort
- Ergonomist approved to provide optimal health, comfort and protection through proper alignment, tailored dimensions, and unique curved design
- Professional-level design options provide functional and sophisticated low-profile elegance

Mouse Pads and Wrist Rests

Height Adjustable Gel Mouse Pad

57711 | 22701

- **Mouse pad - 57711**
- **Wrist rest - 22701**
- Mouse pad features dedicated wrist rest
- Height adjustable to match your keyboard for maximum control of your comfort
- Gel pillow matches natural curve of wrist and hand for comfortable computing

Duo Gel Wrist Rests and Mouse Pads

62397 | 62398 | 62401 | 62402 | 62399

- **Wrist rest blue/smoke - 62397**

Back and Seat Rests

Kensington

SmartFit® Conform Back Rest

K60412WW

- SmartFit® System lets you measure, adjust and fit the back rest to your ideal comfort colour setting
- Height adjustable for customised lumbar support
- Independent springs conform to fit your body shape and articulate with your posture
- Ventilated supports keep the back cool and dry
- Easily remove fabric cover to machine wash when needed

Memory Foam Back Rest

82025

- High-density memory foam (viscoelastic) provides maximum support to help relieve back discomfort
- Temperature and pressure-sensitive foam molds to the body´s contours
- Unlike gels and foams, memory foam contains virtually no pressure points
- Easy-to-adjust straps fit almost any chair
- Removable and washable fabric cover stays cleaner longer

Lumbar Back Rest

62823US

- Unique shape supports and aligns your back
- Makes any chair ergonomic and comfortable
- Memory foam softens with body heat to mold to your back
- 50% recycled content in the foam pad to be environmentally friendly

Memory Foam Seat Rest

82024

- Give your body full support with high-density, viscoelastic memory foam
- Temperature and pressure-sensitive foam molds to body shape
- Memory foam dissipates pressure to provide maximum comfort
- Seat rest features leather-like bottom to reduce movement on chair
- Originally developed by NASA to relieve astronauts of G-force during lift-off
- Removable, washable black fabric cover included

Footrests

Kensington foot rests keep legs elevated for improved posture and circulation while you work at a desk and help reduce pressure on the lower back and are easily adjustable for extra comfort.

Best Practice:

- Keep the area under your desk free from clutter at all times
- Ensure that there is space under your desk to move your feet and legs freely
- Place your feet on a foot rest to relieve the pull on your lower back
- When a foot rest is properly positioned, you should feel light pressure under the front of the thighs
- Foot rests should be movable, but heavy enough to stay in place when feet are resting on it
- Ensure that the foot rest is wide and long enough to allow you to change the position of your feet from time to time

SoleMate Range

56145 | 56146 | 56153

- **SoleMate - 56145**
- **SoleMate Plus - 56146**
- **Comfort* - 56153**
- Tilts up to 20 degrees for additional comfort (SoleMate Plus with convenient lockable tilt control)
- Textured foot grip panel helps prevent slipping
- Sturdy durable construction (450 x 350mm)

* Luxurious memory foam eases tired and aching feet

SoleMassage

56155EU

- Easy tilt mechanism (0 to 30”)
- Gentle rocking mechanism allows you to exercise your ankles while you sit
- Height adjusts from 3” to 5”
- Max height 16cm

SoleRest

56148

- Multiple tilt options for personalised comfort
- Contoured foot grip panel helps prevent slipping
- Generous platform 450 x 350mm (WxD)
- Elevates legs to improve posture and circulation and reduce lower back pressure
- Max. height 18cm
- 12 height and angle positions to support your feet
- Cool graphite grey platform in tough, scratch resistant and easy to clean plastic

Copyholders

A computer display isn't the only thing that needs to be properly positioned. Printed materials need to be in the proper line of sight as well. Kensington copyholders attach to the monitor, keyboard or desk to position material at the correct height and angle to reduce fatiguing head and eye movement and increase employee comfort and productivity.

Best Practice:

- Document holders should be height adjustable
- They should be stable when loaded
- They should allow the user to place documents at or about the same height and distance as the monitor, or be directly beneath the monitor

Flex Clip Copyholder

62081

- Easily attaches to laptops, TFT or CRT monitors
- Flexible gooseneck helps ensure comfortable document positioning
- Compact and portable design
- Small size slips into laptop cases for improved portability
- Sturdy clip securely holds documents in portrait or landscape position

Insight Plus Copyholders

62405 | 62411

- **Grey - 62405**
- **Charcoal - 62411**
- Designed to hold documents and comfortably reduce neck and eyestrain as you read or type
- Four settings for optimum angle
- Holds up to 50 A4 sheets
- Magnified line guide helps keep eyes on track
- Fully collapsible for compact storage

Benefits of using a car mount

- Prevent distractions on the road[1]
- Hear conversations better
- Access music without difficulty
- Play music for passengers
- Use the smartphone as SatNav

1. US National Highway Traffic Safety Administration (NHTSA) report 2010

Car Mount, Stylus/Pen and Key to Symbols

Car Mount for Smartphones

K39217EU

- Universal car mount for most smartphones
- Flexible arms let you insert and remove your Smartphone with one hand
- Windscreen mount cradle lets you use your Smartphone like a SatNav (suitable SatNav app required)
- Cradle pivots for both landscape and portrait modes

Virtuoso™ Stylus and Pen

K97044WW | K97031WW

- **Black stylus and pen - K97044WW**
- **Black stylus - K97031WW**
- Allows you to create and annotate
- Soft tip provides comfort and control and won't scratch your screen
- Stylus and pen for a convenient 2-in-1 solution
- Includes Chrome pocket clip
