## *Fellow Cattlemen,*

We are bringing you what we think is our most useful set of bulls to date. All three breeds are represented with fleshing ability and structural soundness. We breed balance and don't use single trait selection. These bulls are fed and bred to last.

Last year we sold 140 bulls to one ranch in big country and of that count, only two bulls did not make it to the end of the season. One bull broke his penis and the other just up and died. Most of these bulls were yearlings. In tougher markets, there is no room for error and having bulls last will increase your bottom line in several different ways.

We breed balance and don't let science dictate our decisions. As long as feeder cattle are sold by the pound, we will hustle to give you the most bull we can that has the traits bred into him to last! I don't want to sound redundant, but it seems like the more information we seek the further we get away from the basics. It always seems like after every sale when we look at the results it's obvious to us that our customer buy off phenotype first. I am proud to say that our customer base can sort quality. Thank you and I wish you our best.

# *Performing at all levels!*

Preparing and showing a carload of bulls at the National Western Stock Show is no small feat. It is a huge commitment physically and financially, but it has been a constant goal of our operation to raise bulls that can compete on a national level – 10 at a time. Out of all the banners and trophies we have won, these carload champions make every ounce of work worth it.

# 1 Hereford Bulls

This set of Hereford bulls we are extremely excited to put in front of our valued customers. My dad has put a lifetime into the Hereford breed and feels that our cattle are the best and most useful they have ever been. We have worked hard to make this a balanced set of bulls, and what I mean by balance is that these bulls can work in any environment, in any region of the United States. At the same time, their sisters bring the fleshing ability and maternal traits to survive in the future of our program. We have put true muscle into this breed and have always made phenotype, structure and doing ability into these cattle. Many commercial ranches have used full brothers to our nationally competitive bulls that have had large success in places like Denver. The longevity of these bulls makes it extremely hard to have repeat customers needing Hereford bulls every year. Not just here at Hoffman Ranch, but the Hereford breed will outlast any other in true range environments. Longevity and disposition are two things that will never be bred out of Herefords. Hoffman Ranch does show on a limited bases, but have never tried to breed show cattle. We show the cattle we breed and are proud of the fact that they hold their own against the nations best.

We have mass bred our heifers to Perfecto for two years and he PLUGS A LOT OF HOLES! He is so much more than just our heifer bull. He's out of the same cow as lot 1 and 2 and produces power, huge testicles and is sound. His daughters in production should be the icing on the cake. Selling 20 sons!

A definite sale highlight. He is a smooth, polled flush mate to Bellringer. Bellringer has already sold well over \$100,000 worth of semen. This calf is upheaded, long necked, smooth shouldered, bold sprung and lays a tremendous amount of muscle over his top through his hip. Along with this he is a big nutted bull that moves around like a cat. Carload bull. Top 5% WW, Top 10% SC, Top 15% YW, Top 20% \$BII

# Angus Bulls

It didn't take us long to be in this breed to make us realize what our priorities were going to be. We absolutely will not chase fads or use single trait selection. We feel as a whole there are plenty of cattle in this breed that have exceptional EPD profile,s so it is time to make them good, especially the feet and legs of these cattle. We have been able to identify leading herd sires that are as sound as our Herefords. While most of the breed will marble, we are making a goal to add real muscle to our Angus. We are now two to three generations deep in this breed with our breeding and are proud to offer this outstanding set of true power bulls with balanced numbers. We must all remember that we get paid by the pound and keep some true performance in these bulls, but first of all they have to travel the range. In moving forward, we all need to focus on the basics and fault free, eye appealing cattle that offer longevity.

Cowboy Up is simply the cowboys kind! His sons are highly functional, very sound, rugged and have extra muscle. We can not wait to have daughters in production. He comes from a highly maternal cow family. Thirty sons sell out of this SUPERIOR range bull maker!

Sky High is very fault free and sound structured. He puts a very level and practical outline to his progeny. His sire has been a big part of our building blocks in the Angus breed. Maternal brothers sell as lot 284 and 285.

Prime Cut is unique in the fact his sons are so rugged and useful. His daughters are so functional and good uddered in production. We own and turn out three different sons of Prime Cut. The big selling point to us was seeing his two-year-old daughters wet. He will play a big role in our future.

This is an outstanding heifer bull with so much more! He produces true beef bulls with a lot of substance and thickness. His offspring is very mobile on their feet and legs. They just keep getting better. Fourteen sons sell!

Customer Appreciation Custom Saddle Giveaway!

At the end of the bull sale and before we sell the females, we will be drawing for a custom built Hoffman Ranch saddle made by Britt Ellerman. For every bull you buy, your name gets entered into the drawing. 10 bulls = 10 entries! Must be present to win. Other prizes will also be drawn after the saddle!

This herd sire is finally catching the attention he deserves! Many of the nations top bull producers have inquired about using him this fall. This is the smallest offering of sons we will have for years to come. HE DOES IT ALL! Maternal brother sells as lot 294.

# Sim Angus Bulls

We started producing SimAngus bulls for a couple of reasons. The first reason is that we had customers asking for them. The second reason is this is a second breed to Herefords that PAP well at elevation. With that being said, if we're going to own them, we are going to try and make them as good as possible. Our goal is to improve the breed in places that we feel needed help, which is mostly structure and longevity. We have been extremely impressed with the true red meat yield that these cattle possess and the milk flow on the maternal side.

Moving forward, we will continue to improve these cattle from a balanced trait selection.

Brazos is as impressive of a beef bull as you will find. He's stayed so sound and holds his condition well for a bull that SO aggressive in the pasture. He works extremely well on Angus cows. His daughters are ideal in production.
