HARRY E. EATON,

Secretary-Treasurer.

BIENNIAL REPORT OF PHARMACY EXAMINERS

This report covers the period from July 1, 1924, to June 30, 1926.

We have to date 4,177 licensed pharmacists in good standing with their names and addresses on the following pages.

We have had very little complaint over the state of pharmacists violating the laws, except in the larger cities where drug stores are being operated by unlicensed pharmacists. Our law now states that drug stores shall be under the "supervision" of a licensed pharmacist, but we feel that in many instances the proprietor is giving too much latitude to the word *supervision*.

It was certainly not the intent of the legislature to allow a drug store to be operated one half of the time, or a full afternoon, by an unlicensed person, and we wish to emphasize this violation to the druggists of the state.

We believe the legislative committee of our state association might clarify the supervision clause of our present law with benefit to the profession and safety to the public. We would also recommend that the penalty for vending drugs without a state license be changed to one hundred dollars, where it was before the last session of our legislature, which placed the fine from ten to one hundred dollars. We find the vendor will in many instances take the chance of being picked up for several months as he assumes he would not likely be fined more than the minimum, and thus he would save several months' license fee. As an example, we filed against a vendor who had been selling for almost a year, and he went before the court, pleaded guilty and was given a fine of ten dollars and costs, whereas had the fine been one hundred dollars he would not likely have taken the chance.

Another stumbling block we find in our way of prosecution against the vendor without a license is the indifference of some county attorneys who seem to act as though the vendor needed protection. A vendor in the northern part of the state wrote a letter to a member of our board admitting that he had been vending drugs without a state license, and with this evidence presented to the grand jury, they refused to indict. And a Polk county grand jury this year refused to indict a drug store proprietor who was operating without a licensed pharmacist in his place of business,

this being a direct violation of Section 2528 of the 1924 Code, to which the attention of the grand jury was called. The board hereafter expect to operate under Sec. 2527 of the Code through the attorney general in cases where local authorities refuse to function.
