LETTER OF TRANSMITTAL

Iowa City, Iowa, September 15, 1926.

Hon. John Hammill, Governor of Iowa:

In accordance with Section 246 of the Code of Iowa, 1924, the Board of Curators of The State Historical Society of Iowa submit herewith their thirty-sixth biennial report for the period ending June 30, 1926.

MARVIN H. DEY,
President.

STATE HISTORICAL SOCIETY OF IOWA

ESTABLISHMENT AND LEGAL STATUS

The State Historical Society of Iowa was established pursuant to an act of the Sixth General Assembly entitled "An Act to provide for an annual appropriation for the benefit of a State Historical Society" and approved on January 28, 1857. On February 7, 1857, organization of the Society was fully effected by the adoption of a constitution. In 1872 the Society was brought into closer relations with the State by "An Act to Reorganize the State Historical Society", which was passed by the Fourteenth General Assembly and approved on April 23rd. The Society was first incorporated in December, 1867. Its present incorporation dates from the year 1892.

The present organization of The State Historical Society of Iowa is based upon the provisions of the Code of 1924, Title XII, Chapter 235, Sections 4542-4548, inclusive, which read as follows:

4542. The state historical society shall be maintained in connection with and under the auspices of the state university, for carrying out the work of collecting and preserving materials relating to the history of Iowa and illustrative of the progress and development of the state; for maintaining a library and collections, and conducting historical studies and researches; for issuing publications, and for providing public lectures of historical character, and otherwise disseminating a knowledge of the history of Iowa among the people of the state. [R., '60, § 1959; C., '73, § 1900; C., '97, § 2882; S., '13, § 2882-a; 40 Ex. G. A., ch. 4, § 120.]

4543. The board of curators of the society shall consist of eighteen persons, nine of whom shall be appointed by the governor, and nine elected by members of the society. Their term of office shall be two years, and they shall receive no compensation. The governor shall make his appointments on or before the last Wednesday in June in each even-numbered year, and the terms of the persons appointed shall commence on that day; and, at the annual meeting of the society in each odd-numbered year, the others shall be elected by ballot from the members of the society, for the term next ensuing, which annual meeting shall be held at Iowa City on the Monday preceding the last Wednesday in June. [C., '73, §§ 1901, 1903; C., '97, § 2883.]

4544. Members may be admitted to the society at any time under such rules as may be adopted by the board of curators. [C., '73, § 1902; C., '97, § 2884.]

4545. The board shall appoint annually, or oftener if need be, a corresponding secretary, recording secretary, treasurer, and librarian from the members of the society outside of their own number, who shall hold office for one year, unless sooner removed by a majority vote of the board. Said officers shall hold the same position in the society as upon the board of curators, and their respective duties shall be determined by said board. No officer of the society or board shall receive any compensation from the state appropriation thereto. [C., '73, § 1904; C., '97, § 2885.]

4546. It shall also appoint from its members a president, who shall be the executive head of the board, and hold office for one year and until his successor is elected. [C., '73, § 1904; C., '97, § 2886.]

4547. The curators, a majority of whom shall reside in the vicinity of the university, and five of whom shall constitute a quorum, shall be the executive board of the society, and have full power to manage its affairs. It shall keep a full and complete account of all of its doings, and of the receipt and expenditure of all funds collected or granted for the purposes of the society, and shall biennially report the same to the governor on or before the fifteenth day of September. [R., '60, § 1960; C., '73, § 1906; C., '97, § 2887.]

4548. Five copies of the reports of the supreme court and twenty copies of all other books and documents published by the state or upon its order shall be delivered to the society for the purpose of effecting exchanges with similar societies in other states and countries, and for preservation in its library, or other purposes of the society. [R., '60, § 1961; C., '73, § 1907; C., '97, § 2888; 40 Ex. G. A., ch. 3, § 24.]

PUBLIC SUPPORT

For a period of sixty-seven years the public support of The State Historical Society of Iowa took the form chiefly of permanent annual appropriations. In 1857 the sum of \$250 was voted by the General Assembly as a permanent annual allowance for the use of the Society. This permanent annual support was increased to \$500 in 1860; to \$1,000 in 1880; to \$2,500 in 1902; to \$7,500 in 1904; to \$12,000 in 1907; to \$16,000 in 1911; to \$20,000 in 1913; to \$24,000 in 1917; and to \$44,500 in 1921.

In addition to the permanent annual support the following special appropriations have been voted by the General Assembly: \$6,000 in 1868; \$1,000 in 1892; \$2,000 in 1900; \$9,500 in 1902; and \$750 in 1906.

The present support of The State Historical Society of Iowa is provided for in Chapter 218, Section 26, of the Laws of the Forty-first General Assembly.

FINANCIAL STATEMENT

The following is a summary of the finances of The State Historical Society of Iowa from July 1, 1924, to June 30, 1926:

RECEIPTS

General Support Fund of 1924, including balance on hand July 1, 1924	\$ 46,675.17

Expenditures and balance equal total receipts.....\$100,224.81

CURATORS AND OFFICERS

The Board of Curators as now constituted consists of the following persons:

Appointed by the Governor—Mrs. H. H. Carter, Corydon; Mrs. Lillian Clark Cary, Dubuque; C. F. Clark, Cedar Rapids; Mrs. Frank Cook, Marengo; Mrs. H. C. Houghton, Jr., Red Oak; Mrs. Wendell Huston, Eldora; William G. Kerr, Grundy Center; Miss Merta Mitchell, Keokuk; and Mrs. Edna Paschal, Bedford.

Elected by the Society—Arthur J. Cox, Marvin H. Dey, Henry G. Walker, S. A. Swisher, Charles M. Dutcher, Morton C. Mumma, W. O. Coast, W. L. Bywater, Thomas Farrell, all of Iowa City.

The officers of The State Historical Society of Iowa as elected by the Board of Curators in 1926 are as follows:

Marvin H. Dey, President; R. L. Parsons, Treasurer.

SALARIED STAFF

The following constituted the salaried staff of the Society, as provided for by action of the Board of Curators, from July 1, 1924, to June 30, 1925: Superintendent and Editor, Associate Editor, Executive Secretary, two Stenographers, Library Research Associate, Research Associate, two Library Assistants, and General Assistant.

The following constituted the salaried staff of the Society, as provided for by action of the Board of Curators, from July 1, 1925,

to June 30, 1926: Superintendent and Editor, Associate Editor, Executive Clerk and Secretary to Superintendent, two Stenographers, Library Research Associate, Research Associate, and two Library Assistants.

MEMBERSHIP

Persons are admitted to membership in The State Historical Society of Iowa upon election by the Board of Curators and the payment of an initial fee of \$3.00. Membership in the Society may be retained upon the payment of \$3.00 annually. Members of the Society are entitled to receive all the publications issued by the Society during the period of their membership.

Persons are admitted to life membership in the Society upon election by the Board of Curators and the payment of \$50.00; members having paid \$50.00 in annual dues are enrolled as life members. Life members are entitled to all the privileges of members without the payment of annual dues.

On July 1, 1926, there were on the rolls of the Society the names of 1,405 active members, of whom 142 were life members.

AUXILIARY MEMBERS

Local historical societies (such as county historical societies, city or town historical societies, and old settlers' associations) may be enrolled as auxiliary members of The State Historical Society of Iowa upon application by such local historical societies and the approval of the Board of Curators.

Patriotic organizations within the State of Iowa (such as the Iowa Society of the Sons of the American Revolution, the Iowa Society of the Daughters of the American Revolution, and the Iowa Society of Colonial Wars) may be enrolled as auxiliary members of the State Historical Society upon application of such organizations and upon approval by the Board of Curators.

Auxiliary societies or organizations receive all of the publications of The State Historical Society of Iowa issued during the period of their affiliation without the payment of any fees or dues. Each auxiliary society or organization is entitled to one vote at the business meetings of the Society.

On July 1, 1926, the auxiliary members of the Society numbered 26.

OFFICIAL DEPOSITORIES

In accordance with a resolution of the Board of Curators, certain public and college libraries within the State have been desig-

nated as official depositories. These official depositories receive all the publications of the Society as issued without the payment of any fees or dues whatsoever. Thus the Historical Society aims to make its publications accessible to the greatest possible number of citizens of the commonwealth. Within the State there are now 179 official depositories, which may be regarded as branch libraries of the Society.

It is the policy of the State Historical Society to maintain exchange relations with certain libraries and institutions throughout the United States—an arrangement which results in the acquisition of valuable materials for the library of the Society. Sixty-five libraries and institutions have been designated as official exchange depositories outside the State.

HISTORICAL RESEARCH

In most states the principal function of the State Historical Society has been that of collection and exhibition, historical research having been left for the most part to individual initiative. But with The State Historical Society of Iowa historical research and publication have become the dominant activity. Through its organization and institutional activities the materials of State and local history are discovered, critically studied by specialists, compiled, edited, and published. Thus, instead of attempting to make the largest possible collection of historical materials in one place, the Society endeavors to compile, publish, and distribute the greatest amount of accurate, scientific historical information. Instead of hoarding books and manuscripts for the use of a few, the Society aims to make the history of the State accessible to the many.

The work of historical research and investigation is done largely by trained specialists under the direction of the Superintendent. Neither partisan bias nor personal prejudice is knowingly allowed to enter into the work of those who are engaged in research for the Society.

The scope of the researches is indicated by the series of historical publications listed below.

THE RESEARCH WORKERS

During the period under review the following persons, outside the regular salaried staff of the Society, have been engaged in research work for the Society: H. Arnold Bennett, John E. Briggs, Thomas P. Christensen, Myrtle A. Cline, Carl H. Erbe, E. M.

Eriksson, Evelyn Handyside, Charles R. Keyes, Agnes McBeath, N. D. Mereness, Ivan L. Pollock, Allen Walker Read, Geo. F. Roberson, Dorothy Schaffter, Jay J. Sherman, Roy V. Sherman, Earl G. Swem, and Jacob Van Ek.

HISTORICAL PUBLICATIONS

Publication is an essential feature of the activities of The State Historical Society of Iowa, since its purpose is not alone to investigate, to discover, to collect, and to preserve, but also to make accessible the materials of Iowa history. The established series of publications of the Society are:

- The Iowa Journal of History—a quarterly magazine
- The Palimpsest—a monthly magazine
- The Public Archives Series
- The Iowa Biographical Series
- The Iowa Economic History Series
- The Iowa Social History Series
- The Iowa Applied History Series
- The Iowa Chronicles of the World War
- The Miscellaneous Publications
- The Bulletins of Information

THE QUARTERLY

During the period under review *The Iowa Journal of History and Politics*, the quarterly publication of the Society, has been continued. With the close of the year 1926, twenty-four volumes of this publication will have been completed. The principal contributions to the *Iowa Journal* during the period from July 1, 1924, to June 30, 1926, are as follows:

- The Location of County Seats in Iowa. By Jacob A. Swisher.
- Constitutional Limitations on Indebtedness in Iowa. By Carl H. Erbe.
- Traveling on the Underground Railroad in Iowa. By O. A. Garretson.
- The Beginnings of Dutch Immigration to Iowa, 1845-1847. By Henry Stephen Lucas.
- Some Early Educational Leaders in Iowa. By Clarence R. Aurner.
- The Omaha Pool. By Robert E. Riegel.
- Historical Background of the County in Iowa. By Ivan L. Pollock.

- The Code of 1924. By Jacob A. Swisher.
- The Legislation of the Extra Session of the Fortieth General Assembly of Iowa. By Jacob Van Ek.
- Amendment of the Iowa Constitution. By Carl H. Erbe.
- The Beginnings of Education in Iowa. By C. J. Fulton.
- Father De Smet and the Pottawattamie Indian Mission. By Frank Anthony Mullin.
- The Legislative Department as Provided by the Constitution of Iowa. By Carl H. Erbe.
- Progress of the Archeological Survey of Iowa. By Charles Reuben Keyes.
- The Pronunciation of the Word Iowa. By Frank Luther Mott.
- The Executive Department of Government as Provided by the Constitution of Iowa. By Carl H. Erbe.
- The Judicial Department of Government as Provided by the Constitution of Iowa. By Carl H. Erbe.
- The Legislation of the Forty-first General Assembly of Iowa. By Jacob A. Swisher.
- The Populist Movement in Iowa. By Herman Clarence Nixon.
- Denmark—An Early Stronghold of Congregationalism. By Thomas P. Christensen.
- The Iowa State Bar Association and Law Reform. By James R. McVicker.
- The Militia Under the Constitution of Iowa. By Carl H. Erbe.
- The Wittemberg Manual Labor College. By Robert Y. Kerr.

THE MONTHLY

In July, 1920, the Society began the publication of a monthly magazine entitled *The Palimpsest* for the more widespread dissemination of Iowa history. Supplementing the other publications of the Society, this monthly magazine aims to present the materials of Iowa history in a form that is attractive and a style that is popular in the best sense. The scope and character of *The Palimpsest* are indicated by the articles which have appeared in the twenty-four numbers issued between July, 1924, and July, 1926:

VOLUME V

- No. 7, July, 1924
- George W. Matsell. By B. L. Wick.
- In Quest of a Prairie Home. By Katharine Horack.

- No. 6, June, 1926
 Rantchewaime. By Ruth A. Gallaher.
 The Pomeroy Cyclone. By Jay J. Sherman.
 A Missionary Enterprise. By M. M. Hoffman.

IOWA APPLIED HISTORY SERIES

During the period under review there was published the fourth volume of the *Iowa Applied History Series*. A book of 716 pages, this volume was the product of cooperative research. The conception of the work and the preliminary outlines came from the editor of the Society, under whose direction the researches were carried on. The volume is made up of a series of studies or monographs which taken together present a comprehensive survey of county government and administration in Iowa.

MISCELLANEOUS PUBLICATIONS

To the miscellaneous publications there have been added a two-volume work of 818 pages entitled *The Story of the 168th Infantry*, by John H. Taber; and a volume on *Old Fort Crawford and the Frontier*, containing 349 pages, by Bruce E. Mahan.

BULLETINS OF INFORMATION

Bulletin of Information No. 12, entitled *State and Local History in the High School*, was issued during the biennium.

LIBRARY

Since its establishment in 1857, The State Historical Society of Iowa has maintained a library of books, pamphlets, and manuscripts for the use of those interested in the study of Iowa history as well as for the benefit of those who either upon their own initiative or under the direction of the Society are engaged in scientific historical research. It was not, however, until the removal of the Library to the Hall of Liberal Arts in 1901 that the entire collection was completely classified, accessioned, and shelf-listed according to modern library methods. The inventory of the library taken in July, 1926, records the following statistics:

Number of accessioned titles.....	62,093
Number of unaccessioned pamphlets.....	8,006
Number of bound newspapers.....	4,153
Total number of titles in the library.....	74,252

Besides the large collection of miscellaneous titles bearing upon the general and local history of Iowa, the Mississippi Valley, and the United States, the Library contains the various official and scientific publications of the United States Government, publications issued under the authority of the State of Iowa, the laws of the Territories and States of the Mississippi Valley, and the publications of the various historical, scientific, and learned institutions of the country. In recent years an effort has been made to collect the writings of Iowa authors and to compile a card index of such authors and their writings.

ACTIVITIES AND POLICIES TO BE CONTINUED

It is the purpose of The State Historical Society of Iowa to continue its activities in (1) discovering, (2) collecting, (3) preserving, (4) investigating, and (5) publishing the materials of Iowa history along lines already laid down and policies already established—to the end that the heritage of the pioneers and the achievements of succeeding generations may not perish.

REPORT OF THE BOARD OF CONTROL
OF STATE INSTITUTIONS

GENERAL STATEMENT

The personnel of the board remains the same, A. M. McColl having been reappointed for the term of six years beginning July 1, 1925.

APPOINTMENTS BY THE BOARD

During the biennial period ending June 30, 1926, there were no changes in the executive heads of the institutions under the control of this board. There were, however, three reappointments.

Eleanor Hutchinson, superintendent of the Women's Reformatory at Rockwell City, reappointed for a term of four years beginning May 1, 1926.

A. E. Kepford, superintendent of the Juvenile Home at Toledo, reappointed for a term of four years beginning September 1, 1924.

R. A. Stewart, superintendent of the Independence State Hospital at Independence, reappointed for a term of four years beginning July 1, 1926.

Following the resignation of Henrietta Webber, Hattie M. Aldridge was appointed state agent for the Soldiers' Orphans' Home May 16, 1926.

Edwin H. Sands was appointed superintendent of the Bureau of Child Welfare, for a term of three years beginning July 1, 1925.

POPULATION OF INSTITUTIONS

There are fifteen institutions under the control and management of the board, and the population has very greatly increased during the period just ended.

The average daily population of the several institutions under

the control of the board, since June 30, 1924, is shown by the following table:

Institutions	Male	Female	Total
Soldiers' Home	286	256	542
Soldiers' Orphans' Home	290	202	501
Juvenile Home	125	86	211
Institution for Feeble-minded Children	742	788	1,530
State Sanatorium	128	155	283
Training School for Boys	410		410
Training School for Girls		185	185
Mount Pleasant State Hospital (Insane)	673	583	1,256
Mount Pleasant State Hospital (Inebriate)		8	8
Independence State Hospital (Insane)	720	629	1,349
Independence State Hospital (Inebriate)	37		37
Clarinda State Hospital (Insane)	727	589	1,316
Cherokee State Hospital (Insane)	706	537	1,243
Hospital for Epileptics and School for Feeble-minded (Epileptic)	168	174	342
Hospital for Epileptics and School for Feeble-minded (Feeble-minded)	121	111	232
State Penitentiary	994		994
Men's Reformatory	1,005		1,005
Women's Reformatory		71	71
Totals	7,127	4,861	11,698

The population in residence at each institution on June 30, 1926, was as follows:

Institutions	Male	Female	Total
Soldiers' Home	257	187	444
Soldiers' Orphans' Home	309	212	521
Juvenile Home	147	108	255
Institution for Feeble-minded Children	787	820	1,617
State Sanatorium	119	147	266
Training School for Boys	483		483

INSTITUTION EXECUTIVE OFFICERS

Names	Titles	Institutions	Terms Expire
B. C. Whitehill	Commandant	Soldiers' Home	Mar. 31, 1928
F. S. Treat	Superintendent	Soldiers' Orphans' Home	Mar. 31, 1928
George Mogridge	Superintendent	Institution for Feeble-minded Children	June 30, 1927
O. S. Von Krog	Superintendent	Training School for Boys	Aug. 31, 1927
Ray M. Hanchett	Superintendent	Training School for Girls	Mar. 31, 1927
H. V. Scarborough	Superintendent	State Sanatorium	Jan. 31, 1928
M. C. Mackin	Superintendent	Mount Pleasant State Hospital	Mar. 31, 1928
R. A. Stewart	Superintendent	Independence State Hospital	June 30, 1926
Max E. Witte	Superintendent	Clarinda State Hospital	Sept. 30, 1926
George Donohoe	Superintendent	Cherokee State Hospital	Feb. 28, 1927
M. N. Voldeing	Superintendent	Hospital for Epileptics and School for Feeble-minded	Feb. 28, 1927
T. P. Hollowell	Warden	State Penitentiary	April 30, 1928
J. N. Basmel	Warden	Men's Reformatory	Dec. 31, 1927
Eleanor Hutchinson	Superintendent	Women's Reformatory	April 30, 1930
A. E. Kepford	Superintendent	Juvenile Home	Aug. 31, 1928
The other officers are:			
Elwin H. Sands	Superintendent	Bureau of Child Welfare	July 1, 1928
Charlotta Goff	State Agent	Soldiers' Orphans' Home	Term indefinite
Belle Deming	State Agent	Soldiers' Orphans' Home	Term indefinite
Hattie M. Aldridge	State Agent	Soldiers' Orphans' Home	Term indefinite
Genevieve Henderson	State Agent	Juvenile Home	Term indefinite
Greece Padback	State Agent	Training School for Girls	Term indefinite
T. H. Stone	State Agent	Training School for Boys	Term indefinite
F. M. Hoeye	State Agent	Training School for Boys	Term indefinite
C. E. Ramsey	Inspector	County homes, etc.	Term indefinite

SOLDIERS' HOME, MARSHALLTOWN

The population of the Home at Marshalltown remained practically the same as shown in the report for the period ending June 30, 1924, the average number cared for daily being 542.

No new buildings were erected at this institution except an addition to the power house to be used as a storage room, which was built by institution employes at an expense of approximately \$150.

Some new equipment was necessary, however, in connection with this institution. A new engine and generator were purchased for the power house at a cost of \$10,000.

A number of repairs were made to buildings and equipment which consisted principally of painting and remodeling wards and rooms in the various buildings, tearing out of all wooden board boards, chair rails, casings, etc., and replacing them with plaster and cement. The expense in connection with the work was not very great and makes the buildings much more sanitary in every way.

The total amount expended for new equipment and repairs mentioned above total approximately \$30,000. This amount,

however, did not complete the work necessary along this line and much more will have to be done during the next period.

Our askings for the support of the Home have been reduced somewhat under what was asked for the last period. Our askings for the support and maintenance of the Home during the period beginning July 1, 1927, total \$495,200. In addition to this we have requested an appropriation of \$20,000 to be used in making repairs to buildings, replacement of machinery and equipment and other miscellaneous items.

SOLDIERS' ORPHANS' HOME, DAVENPORT

The population at the home during the period just ended remained about the same as for the period ending June 30, 1924. A number of additional children were received; likewise a number of placements were made, which kept the average in residence about five hundred children.

Appropriations for the home during the period total \$343,792.80. Of this amount \$312,492.80 was for support and maintenance and \$31,300 for repairs to buildings, machinery and equipment, transportation of children and other miscellaneous items.

In addition to this amount the state received under the will of the late Mary Groth the sum of \$10,775.57 which amount was used at the home in repairing the present buildings and replacement of equipment. The members of the board appreciate very greatly the fact that the home at Davenport was made one of the beneficiaries of the will of this philanthropic woman.

Repairs in a general way were carried on at the institution during the entire period and we feel that the buildings and equipment used in connection with the institution are now in first-class shape, except for the needs asked for during the next biennial period, which are more fully set out in the report of the Director of the Budget for your consideration.

We have requested a total appropriation of \$357,096 for this institution during the next biennial period. Of this amount \$354,096 is for support and maintenance and \$3,000 for new buildings in connection with the farms.

JUVENILE HOME, TOLEDO

The population at the Juvenile Home has increased greatly during the biennial period just ended. At the close of the

period ending June 30, 1924, the population was 162. At the close of this period it had increased to 255.

For use during the period there was appropriated by the Forty-first General Assembly a total sum of \$169,100. Of this amount \$7,500 was to be used for general repairs and the remainder for the support and maintenance of the home. The \$7,500 has been used in a general way in the repair and upkeep of the buildings and grounds. Some new equipment has also been added.

The askings of the superintendent for the next biennial period were quite extensive in view of the fact that he recommended a building program extending over a period of years. The members of the board felt, however, that it was not the proper time to ask for appropriations to carry out the superintendent's requests and have asked for only what they feel is necessary for the proper operation and maintenance of this institution. With the increased population, of course, our support askings must be increased accordingly. For general repairs we have asked for \$8,000 to be used during the period. We believe that this is not in excess of the amount that will be actually needed for these purposes.

INSTITUTION FOR FEEBLE-MINDED CHILDREN, GLENWOOD

The population of this institution has been, during the period just ended, about the largest at any time in its history. At the close of the period there was an average population of 1,617 persons.

The new building mentioned in our last report as under construction was completed during the period and occupied during the summer of 1925. The old buildings that this structure replaced have been razed and the material salvaged. From this salvage the institution built a new cottage at the pumping station to be occupied by the engineer in charge of that plant which is some three miles distant from the institution.

The new cottage for fifty farm boys was also completed during the period and occupied during the autumn of 1925. Both of the above buildings are of fireproof construction and aid greatly in relieving the crowded conditions that existed prior to the time they were occupied.

The only appropriation made by the Forty-first General Assembly aside from the amount for support and maintenance was

the sum of \$35,000 for general repairs. This fund has been used for the purpose of repairing many buildings in connection with the institution. Cement floors have been laid in the basement of the main building and under a part of the Girls' Custodial Building. A garage was erected to house the cars of the employes of the institution. The employes pay a reasonable sum for storage monthly which is returned to the fund used for this purpose.

Reconstruction of one of the porches at the Boys' Custodial Infirmary, making it into a solarium, has greatly added to the appearance and usefulness of this particular building.

A number of sidewalks have been replaced and a retaining wall constructed in connection with the coal sheds and farm implement building. New fences have been built and many repairs made in a general way that will practically deplete the fund set aside for this purpose.

The institution maintains a summer camp on the Missouri river about eight miles distant from the institution. Some of the male inmates enjoy an outing at this camp during the summer months. About four hundred of the boys enjoyed this privilege during the past year.

Our askings for the institution at Glenwood for the next period total \$840,000. Of this amount \$40,000 is to be used for general repairs, \$20,000 for the purchase of land and \$20,000 for remodeling the present storeroom. The remainder of the total amount to be used for support and maintenance. The land asked for joins the state land at or near the front entrance to the administration building and could be used to very good advantage if the appropriation is granted.

STATE SANATORIUM, OAKDALE

Expenditures authorized by the Fortieth and Forty-first General Assemblies for the State Sanatorium have been used in part. The remaining balances will be expended by the board for the purposes for which they were intended.

A number of repairs were made to buildings and sidewalks from the contingent and repair fund. The new cow barn and silo authorized by the Forty-first General Assembly have been completed and are a great help in caring for the large dairy herd at this institution.

The population at Oakdale during the period was not as large

as the board anticipated. This is due to the fact, we believe, that a number of counties of the state have erected hospitals to care for this class of patients which would naturally reduce the number received at Oakdale.

The appropriation for new equipment of \$22,600 will be used for laundry machinery and other equipment needed.

Our askings for the Sanatorium for the next biennial period total \$488,000 for the support of the institution. We have also asked for \$25,000 to drill a new deep well and install pumping equipment. The water supply at this institution has been quite low at several times during the past period and we feel that a new well is absolutely necessary to insure an adequate supply of water at all times. The boiler house in connection with the Sanatorium is too small for the equipment in use. We have asked for \$6,000 for an addition to the present boiler house. A cold storage plant installed sometime ago is in need of remodeling. For this purpose we will need at least \$5,000.

TRAINING SCHOOL FOR BOYS, ELDORA

Of the amounts appropriated for the Training School for Boys approximately \$18,164 was used in the repair of buildings, also repairs and replacement of machinery and equipment. Other funds appropriated for specific purposes were used as intended. We have a number of balances remaining in funds for which appropriations were made that will be used for various purposes before the close of the period.

The new boilers authorized by the Fortieth General Assembly have been installed. A portion of the equipment authorized by the Forty-first General Assembly for additional carpenter and machine shops and industries in connection with the school have been used for the purposes authorized.

Our askings for the support of the school during the next biennial period total \$200,000 after deducting receipts. In addition to this amount we have asked for special purposes the sum of \$1,000 to be used for elevator and equipment in the store building; \$9,000 for new stokers and equipment for two boilers; also \$1,200 for new machinery for the shoe shop.

The appropriation for the support of the school during the biennium just closed was insufficient. We have increased our askings somewhat for the support of the school at Eldora which shows quite an increase in population and we trust that our re-

quest for funds for the operation of this institution will be allowed as asked.

TRAINING SCHOOL FOR GIRLS, MITCHELLVILLE

The population at the Training School for Girls remained about the same during this period as last. The appropriations made by the Fortieth and Forty-first General Assemblies have been used for the purposes specified. No special askings were made except for equipment, musical instruments and repairs to building. The contingent and repair fund has been used in the repair of buildings, painting and the laying of new cement walks.

Our askings for the next period total approximately \$195,000. We have also asked for a special appropriation of \$80,000 for a sewage disposal plant. The plant in use at the present time was installed a number of years ago and is inadequate for an institution of this size.

MOUNT PLEASANT STATE HOSPITAL, MOUNT PLEASANT

During the period numerous repairs were made to buildings and some new equipment installed. The old laundry building which was converted into quarters for employes and is now in use provides for twenty rooms, besides halls, bathrooms, closets, etc., and permits the use of a like number of rooms for patients in the main building formerly occupied by attendants.

A new air compressor to operate the air lift for the deep well was installed and is now in operation.

Two new 300 horsepower boilers were purchased during the period to replace the smaller ones, increasing the capacity of the boiler house to 1,350 horsepower, which is amply sufficient for the institution needs with the present population.

Chain grate stokers have been installed in connection with all boilers, which enables the institution to use successfully a less expensive grade of coal, considerably reducing the fuel cost, also the labor power handling same.

A frame garage with thirty stalls for employes' cars was erected during the period. This institution also has an arrangement whereby the employes pay a monthly rental for the stalls, which reimburses the institution for the expense incurred in the construction of this building.

Quite extensive repairs of the dairy barns were made by the

installation of metal stanchions and other necessary equipment for the care of calves and young stock.

Eleven wards in the main building were rewired and repainted.

A number of needed repairs to the outside of the main building were made during the period. The work was done by the institution mechanics. This necessitated the purchase of a considerable amount of new materials.

During the year 1925 a severe hailstorm passed to the north of Mount Pleasant destroying a large acreage of crops. The storm also damaged a number of buildings on the institution farm. A sufficient amount of money to repair the buildings was procured from the Providential Contingent Fund appropriated for this purpose.

The new bakery building and the equipment necessary, for which the Forty-first General Assembly made an appropriation of \$18,000 was completed and is now in use.

Our askings for the Mount Pleasant Hospital during the next period total \$748,400. Of the above amount \$638,400 is to be used for the support of the patients and \$110,000 for special purposes.

An additional deep well or some other arrangement is necessary for an adequate water supply at this institution.

The power house, which has been in use for a number of years, is in need of necessary repairs.

It will be necessary also to enlarge the present sewage disposal plant to take care of the needs of the institution.

The sum of \$40,000 has been asked for to be used in making general repairs to buildings and equipment.

INDEPENDENCE STATE HOSPITAL, INDEPENDENCE

The population at this institution increased greatly during the biennium and at the close of the period the institution was filled to capacity.

Quite extensive repairs were made to a number of the buildings and new equipment installed to meet the needs of the institution.

The old smoke stack in connection with the boiler plant that had been in use for a number of years became damaged to such an extent it was necessary to dismantle it and erect a new stack in its place.

A new air compressor was installed to be used in connection with pumping water from the deep wells.

Extensive repairs were made to the large engine which was placed in first-class condition.

Needed repairs have been made to the fire station and equipment.

A number of the farm buildings were repainted; also a number of the institution buildings and interior of a number of wards.

A new machine shed, wagon shed and stock pens were built during the period by the institution carpenters, as well as many of the outbuildings being remodeled.

A new silo was erected to replace the one which collapsed during the fall of 1925. Several other silos have been razed and repaired.

The tiling of all the land in connection with this institution, for which an appropriation was made several years ago, has been completed.

Our total askings in appropriations for the next period amount to \$816,360. Of this amount \$703,560 is for the support of the institution and this is based on a per capita of \$20.50 per patient. Our special askings total \$32,800, to be used for a new hog house, new roof for laundry building, contingent and repair fund and several small appropriations for dental work and amusements for the patients.

CLARINDA STATE HOSPITAL, CLARINDA

The new hospital building for this institution and necessary equipment, authorized by the Fortieth General Assembly was completed and is now ready for occupancy; also the addition to the dairy barn, for which an appropriation of \$7,000 was made.

The Thirty-eighth and Thirty-ninth General Assemblies made several appropriations for the construction of a cottage for the tuberculosis patients in this institution. With the appropriations made at that time we were unable to erect this building. During the last period, however, we were able to secure bids within the appropriation. The building has been completed and is ready for use.

The contingent and repair funds appropriated by the Fortieth and Forty-first General Assemblies were used in the repairing and remodeling of buildings. A number of the wards have been repainted and repaired. A considerable amount of this fund was expended in the purchase of pipe and fittings to carry heat and water to the new building mentioned above, for which no ap-

propriation was made. This work, however, was practically all done by institution employes and patients.

Our askings for the institution at Clarinda during the next period total \$765,160. Of this amount \$638,400 is for support and maintenance and \$126,760 for special purposes.

The present farm in connection with this institution is not acreage enough for the growing of crops and garden supplies necessary for an institution of this size. We have asked for an appropriation of \$69,760 for the purchase of land adjoining the institution property and trust that its purchase will be authorized by the General Assembly.

We have asked for an appropriation of \$4,000 to be used in erecting a new hog house.

During the past period on several occasions the water supply at this institution has been very low. This condition became so serious at one time it became necessary to purchase pipe and connect the institution with the water supply of the city of Clarinda. We recommend that the water mains of this institution be extended to or near the river there and that necessary equipment be purchased for the installation of such a plant. For this purpose we have asked an appropriation of \$15,000.

The electric wiring in this institution has been in use for many years. On account of the dangerous condition of the present system we have asked an appropriation of \$8,000 for repairing same, which is necessary for the safety of the institution.

Our askings for general repairs to buildings, grounds and equipment total \$30,000, which amount we believe will be necessary to meet this expense.

CHEROKEE STATE HOSPITAL, CHEROKEE

The new hospital building to accommodate two hundred patients for which the Fortieth General Assembly made an appropriation of \$150,000 was completed and occupied during this period. A new canning factory and equipment, also a new corn crib and granary were completed, and a new elevated tank for water supply erected.

The only special appropriation made by the Forty-first General Assembly for this institution was the sum of \$20,000 to be used for contingencies that might arise and repairs to buildings and equipment, and it is being expended as needed for these purposes.

During the year 1925 a severe wind and hailstorm visited the locality of this institution, damaging crops and garden supplies to the extent of about \$20,000. This was a severe blow to the institution as the crops raised in connection with our institution farms are considered a part of the support. We were, however, reimbursed from the Providential Contingent Fund by the Executive Council in the sum of \$10,000 which amount was used in the purchase of vegetables, canned fruits and other items that otherwise would have been furnished from the institution gardens.

Our askings for the Cherokee Hospital for the next biennial period total \$690,800. Of this amount \$622,380 is for the support and maintenance of the institution, which is based on a per capita allowance of \$20.50 per month on an estimated population of 1,265. Special askings for this institution call for \$20,000 to be used for new boilers and improvements to the present boiler house and \$5,000 for repairs to railroad switch. This track has been in use for a number of years and is very much in need of repairs which will have to be taken care of by the institution. An addition to the present dairy barn is badly needed in connection with the large dairy herd at this institution. For this improvement we have asked an appropriation of \$10,000. Other special askings total \$33,500 which are to be used in repairs to buildings and machinery; also replacement of equipment when needed.

HOSPITAL FOR EPILEPTICS AND SCHOOL FOR FEEBLE-MINDED, WOODWARD

Two 260 horsepower boilers, for which the Fortieth General Assembly appropriated \$20,000, have been installed and are now in operation.

Two new stokers were installed in connection with these boilers. With this equipment we have been able to reduce materially the quantity of coal consumed at this institution, taking into consideration the heating of the new building.

A new slaughter house has been erected and equipped and provides for the slaughtering of all cattle and hogs used at this institution. A number of the other state institutions are supplied with meat slaughtered at this place.

The new cottage for boys for which the Forty-first General Assembly made an appropriation of \$150,000, for the building and equipment, has been completed and is now occupied.

During the period one unit of a new greenhouse was built.

A portion of the contingent and repair fund was used in repairing the roof of the power house and the Medical Group buildings; also in the purchase of new equipment for the bake-shop and new farm implements.

Our askings for this institution for the next period total \$687,700. Of this amount \$510,000 is for the support and maintenance of the institution and \$177,700 for a new building and equipment.

The new building for boys, completed during the last period, is almost filled to capacity at this time. The members of the board feel that another building similar to this one should be erected to take care of new admissions that are certain to be made during the next period. For this building and equipment we have asked for an appropriation of \$150,000 and sincerely trust that this appropriation will be granted.

We have also asked for a new hog house, granary and corn crib for the farm.

For general repairs we have asked \$20,000, to be used in the repair of buildings and the purchase of new equipment that will be necessary for an institution of this size.

STATE PENITENTIARY, FORT MADISON

The population at the State Penitentiary during the period just ended shows an increase of approximately fifteen per cent over the number cared for during the period ending June 30, 1924. The last appropriation for the support and maintenance of this institution, because of the increase in population, was not sufficient, and it was necessary for this board to ask approval by the Governor and Director of the Budget of our recommendation to use a part of the earnings of the industries to carry the institution through the period.

The new cell house for which appropriations were made for material to be used in its construction has been completed with inmate labor.

The remodeling of the old cell house is about two-thirds completed and when finished it will provide about four hundred additional modern cells.

The contingent and repair fund of \$25,000 provided by act of the Forty-first General Assembly has been expended for repairs to buildings and the replacement of equipment.

Our askings for the next biennium for this institution total \$743,600. Of this amount \$696,600 is for support and main-

tenance, based on a per capita of \$27 per month with an estimated population of 1,075.

Our special askings consist of \$14,000 for extending the north section of the wall around the institution—this is necessary in order to enlarge the prison yard and provide more space for general use; \$9,000 for transportation and gift money, \$4,000 for dental, oculist and aurist treatment and supplies, lectures and amusements and \$20,000 for general repairs, a total of \$47,000.

MEN'S REFORMATORY, ANAMOSA

Balances remaining at the beginning of this period in the funds appropriated by the Fortieth General Assembly were used for the purposes for which appropriated.

Our askings of the Forty-first General Assembly for special purposes at the Reformatory included the sum of \$50,000 for renewing all of the electric wiring in the institution, making generator and engine connections and purchase of new motors and other equipment, \$15,000 for remodeling the engine room, and \$60,000 for purchasing and installing toilets and lavatories in the south cell house. The General Assembly in considering these appropriations authorized the use of \$175,000 from balances in the support fund and the fund for establishing and maintaining industries. These amounts were set aside for that specific purpose and the work, although it has been under way for a year or more, is not yet completed.

Our askings for the next biennial period for this institution total \$712,000. Of this amount \$624,000 is for support and maintenance, based on a per capita basis of \$26 per month, on an estimated population of 1,000 men.

The population at this institution has not increased as much during the past period as at some of the other institutions. We feel that the number to be cared for during the next two-year period will be practically the same as the past period.

Our askings for special purposes total \$88,000, \$10,000 of which is for a new boiler, \$15,000 for new feed water heater for power house, \$5,000 for new canning factory, \$15,000 for new dairy barn, and \$18,000 for the purchase of farm land. The land recommended for purchase joins the institution property on the north and west and could be used to good advantage in connection with the farm and dairy operations at this institution. Other special askings total \$8,500 for transportation and

gift money for the prisoners at the time they are released on parole or discharged, and for lectures, amusements, books and periodicals. Our general repair fund askings total \$22,000. This amount is for repairing buildings and replacement of machinery and equipment.

WOMEN'S REFORMATORY, ROCKWELL CITY

The population at this institution remained about the same as during the period ending June 30, 1924.

The only appropriations made for the Women's Reformatory aside from support and maintenance was \$8,000 for repairs to buildings and equipment and \$600 for dental, oculist and aurist treatment and supplies. From this amount we purchased a Pomona pump for the deep well. Also, on account of the hardness of the water, it was necessary to install a water softener in connection with the power plant.

Iron gates were placed at the entrance to the grounds which add much to the appearance of the institution.

Our askings for this institution for the next biennial period total \$110,000, the larger portion of which is for support and maintenance and the remainder for dental, oculist and aurist treatment and supplies, and lectures and amusements.

Our general repair fund asked for the Reformatory totals \$10,000, which will be needed for repairs to buildings, machinery and equipment.

PRISON INDUSTRIES

We have now in operation at the penal institutions fifteen industrial departments, not including the farms.

Each institution also owns and operates a farm. The farm produce is largely consumed locally except at the Clive Farm near Des Moines where the surplus milk and other products are sold.

Our largest investment is in the Chair and Furniture Industry at the State Penitentiary at Fort Madison. We have a working balance to the credit of this industry of approximately \$200,000. The surplus at the present time is over \$500,000.

The combined profits of the industries and farms at the penal institutions total about \$250,000 for each year of the period.

To establish new industrial departments, a new storeroom and factory building was built at the State Penitentiary and a new factory building at the Men's Reformatory.

A new addition to the Chair and Furniture Industry Building has just been completed which will increase the capacity of the factory twenty per cent.

The sales and profits compare very favorably with the previous period, and considering the chaotic condition of business in general throughout the country, a very satisfactory showing was made.

The average number of inmates in the penal institutions for the biennial period was as follows:

Men's Reformatory	1,001
State Penitentiary	994
Women's Reformatory	71
	2,066
Increase over preceding period	200

The aggregate amount of wages paid to prisoners working in the various industries during the two years was \$190,461.05.

No new appropriations were made by the Forty-first General Assembly for industries, as the surplus created from receipts and earnings was ample for the payment of all operating expenses and the cost of new buildings and equipment for the enlargement and extension of the industries.

The total amounts transferred during this period, from industrial funds for other purposes were:

Men's Reformatory, Anamosa	\$ 82,500.00
State Penitentiary, Ft. Madison	36,631.94
Total Transferred	\$119,131.94

A statement of the balances of the Industrial Funds follows:

MEN'S REFORMATORY, ANAMOSA

Balance July 1, 1924	\$249,476.25
Receipts from sales during the period	569,735.49
Total	\$819,211.74
Disbursements	526,714.44
	\$292,497.30
Transferred by authority of the Forty-first General Assembly for special purposes at Men's Reformatory	82,500.00
Balance, June 30, 1926	\$209,997.30

STATE PENITENTIARY, FORT MADISON

Balance, July 1, 1924	\$ 75,921.30
Receipts from sales during period	984,648.31
Total	\$1,060,569.61
Disbursements	767,043.26
	\$ 293,526.35
Transferred to Support as per authority Forty-first General Assembly	36,631.94
Balance June 30, 1926	\$256,894.41
Total Balances, June 30, 1926	\$466,891.71

PRISON INDUSTRIES LOCATED AT MEN'S REFORMATORY, ANAMOSA, IOWA

Apron Factory—There are four hundred fifty prisoners employed in this factory. The state received for the manufacture of aprons during the biennial period a total of \$274,700.61. The prisoners received in wages \$85,105.39. Net earnings after deducting prisoners' wages and other expense was \$171,906.12.

License Plate Factory—This factory furnishes employment for forty-five prisoners when in operation. The contracts for the 1926 and 1927 automobile license plates were awarded to the Board of Control, and plates for the years 1926 and 1927 were completed and delivered as per specifications and were very satisfactory as to workmanship and quality. Approximately two million nine hundred twenty-seven thousand plates were made for the two years. The total sales for the two years were \$167,860.48. The amount paid to prisoners in wages was \$3,912.16 and the net earnings were \$32,280.64.

Printing and Binding Industry—Thirty-five prisoners are given employment in this industry. The printery is well equipped to do extensive printing, having two linotype machines, two ruling machines and several large presses. The printing, however, has been limited to the needs of the offices and institutions under the jurisdiction of the Board of Control. The sales for the period were \$38,003.71. Prisoners' wages were \$1,823.13 and net earnings were \$11,625.45.

Cheese Factory—This factory has been operated as an industry for eighteen months of the biennial period, or since January 1, 1925. The milk used in the manufacture of the cheese is largely produced by the Reformatory dairy herd, although a con-

siderable quantity of milk is purchased from farmers in the vicinity of the institution. All of the cheese is consumed at the state institutions under the jurisdiction of this Board. The sales for eighteen months were \$33,649.46. Net earnings were \$3,684.04. An experienced and competent cheese maker has charge of the factory and it furnishes regular employment for several prisoners.

Sheet Metal Industry—Aluminum ware, tinware and articles of copper and galvanized iron are made in this shop, for state institution use. Only articles of plain design are manufactured, as the factory is not equipped to make those of more complicated construction. Eight prisoners are regularly employed. The sales for the biennial period were \$10,140.37. Wages paid to the prisoners were \$222.36. The net earnings after deducting all operating expense were \$2,299.36.

Soap Factory—This industry will be housed in the new factory building erected during this period at a cost of approximately \$20,000.00, exclusive of the labor, which was done by prisoners and machinery costing \$4,300.00 is contracted for and is now being installed. It is expected to have the factory in operation by January 1, 1927. We anticipate this industry will furnish employment for fifteen or twenty prisoners.

Shoe Industry—For the biennial period, the sales from this industry total \$13,513.22. Employment was furnished for eighteen prisoners who received in wages \$775.21. All shoes needed for the prisoners are manufactured in this shop and orders are filled for other state institutions. All shoe repair work for the Men's Reformatory is also done in this department.

Tailor Shop—This shop manufactures all the clothing for the convicts, and a part of the supply for other state institutions. Thirty men are regularly employed in this industry. The sales were \$34,088.53. The prisoners received in wages \$1,233.62.

Carpenter and Blacksmith Shops—In these two smaller industries we manufactured during the period a considerable number of very durable park or lawn benches, selling same to the State Board of Conservation, the State Board of Agriculture and State Institutions. These benches are constructed of both iron and wood, and we expect to continue making them for use in state parks, city parks, and at state institutions, county homes and elsewhere.

PRISON INDUSTRIES LOCATED AT STATE PENITENTIARY, FT. MADISON

Shirt Factory—The number of prisoners employed in this department is now two hundred seventy-five. The factory manufactures men's work shirts. The aggregate amount received for manufacturing shirts during the two years was \$133,796.44. The prisoners received in wages \$45,007.37. After paying wages and other expense the state received, as net earnings, \$71,617.14.

Chair and Furniture Industry—This factory furnishes employment for two hundred fifty prisoners and has been in operation continuously during the period. Principally dining room furniture is being manufactured. Some rockers and various types of chairs are made for state institution use. The capacity of the factory is now from twenty to twenty-five dining room suites per day. The net sales for the two year period were \$749,134.61 and the net earnings, after paying \$48,469.66 in wages to prisoners, were \$83,835.54.

Tailoring Industry—Employment for forty-five prisoners is furnished by this industry. Many articles are made for institution use, including discharge suits for the penitentiary prisoners. The sales for the biennial period were \$43,118.19. Wages paid to prisoners were \$2,949.57. The net earnings were \$3,985.15.

Brush Shop—The sales for the period from this industry were \$2,776.52 and the net earnings, after paying all operating expenses, were \$393.71.

Broom Shop—The sales for the period were \$1,873.56. This shop is small, due to the fact that many of the state institutions have broom shops of their own. Several prisoners are furnished employment part time. The net earnings were \$448.71.

Shoe Factory—This factory furnishes employment for eighteen prisoners. Ordinary work shoes and dress shoes are made for the various state institutions, also shoe repair work is done for other institutions and the sales for the period were \$13,349.81. Prisoners' wages were \$962.58.

PRISON INDUSTRIES LOCATED AT WOMEN'S REFORMATORY, ROCKWELL CITY

Sewing Industry—This industry was recently installed at the Women's Reformatory, furnishing employment for about fifteen prisoners. Women's garments of various kinds worn by inmates of the state institutions are being manufactured as required.

STATEMENT OF SALES AND PROFITS FOR THE BIENNIAL PERIOD
ENDING JUNE 30, 1926:

Departments	Prisoners Em- ployed	Sales	Wages Paid to Prisoners	Profit
Men's Reformatory, Anamosa, Iowa:

*Average number employed.

Although the entire prison population is not shown as employed in the manufacturing departments, all prisoners who are able to work are employed in some department of institution work.

Balance sheets and revenue statements showing the operations in detail of the principal industrial departments are shown in the financial section.

INSTITUTION FARMS

The institutions under the board of control own and farm 12,271.5 acres valued at \$2,722,798.20. Approximately 11,000 acres of this land is devoted to pasture, farm crops, orchards and gardens, the balance being used for institution grounds. In addition, there is rented 2,437 acres.

The value of all products from the farm including live stock was \$1,581,794.76 showing a net profit of approximately \$512,000. The value of all live stock on the farm is \$420,524.33, and the value of the milk produced \$412,000 with a net profit of \$256,704.13. The average production of each cow in dairy herds for

each year was 9,980 pounds; and 789 head of thoroughbred Holstein cattle are now owned by our different institutions. Sales from thoroughbred bulls for the period amounted to approximately \$14,000 and sales from live stock of all kinds \$284,000.

The farms as a rule are in a high state of cultivation, much ground limestone having been used to better the lands and enable the growing of greater amount of sweet clover and alfalfa.

In the season of 1925 we suffered from storms and hail, destroying many acres of the state's crops; again in the year of 1926 hail damaged our orchards to a large extent, but on the whole there is little to complain of as the farms and gardens produced in abundance.

Agriculture at our institutions is desirable, not only from the crops raised but for the employment it gives the inmates of our institutions enabling many of them to forget their troubles and at the same time giving them good and wholesome exercise which contributes to the betterment of mind as well as body.

More land is needed at Cherokee, Clarinda, Mitchellville, Rockwell City and Toledo, and we believe that now is a good time to secure it. The acreage has not kept pace with the increase of our population.

STATE FARM AT CLIVE

This farm is located eight miles west of Des Moines near Clive and comprises 781 acres. It is farmed by inmates from the Men's Reformatory and from 14 to 20 prisoners are here employed.

Farm crops and stock are here raised, and the dairy is being enlarged as it is found that with cheap labor and the close proximity to a good market for milk, a greater profit can be obtained through dairying than by farming. From 60 to 80 cows are being milked, the milk check running from \$1,000 to \$1,400 per month in addition to the milk fed to the calves. Most of the herd is now thoroughbred Holsteins and is each year improving in character and production.

About 800 head of pigs are raised each year and fattened for the market.

The net profit from the farm runs approximately \$8,000 to \$10,000 per year.

A good vein of coal with a good roof underlies this land and at some future date may be developed to provide coal for the state's various institutions.

Poultry	21,741	20,640.10
Total		\$420,524.33

COAL

Coal is one of the great expenses of the institutions, nearly half a million dollars being expended each year for this commodity.

It has been the policy of this board to purchase as far as possible coal mined in our own state and when the price and freight rates permit, we have done so, even to the extent of giving the Iowa producers a decided advantage in our purchases. We have given the analysis of the coal, consideration as well as service, with the thought of Iowa operators always in mind, with the result that Iowa coal is being used in larger quantities than ever before.

The purchases have been well scattered throughout the state and every bidder has been given a square deal. It is not to be expected that we can please all—the unsuccessful bidders as well as the successful ones, but let it be borne in mind by those who submit bids that the success in securing the business is largely up to themselves. We want a good product and a good price,

and if that is furnished, they have nothing to fear, but we are the ones who are held responsible for the purchases made and while this is true it is ourselves who are to determine where and with whom the contracts are to be placed. In our future lettings we invite all who wish to do so to submit bids and let them remember that we have no friends to favor nor enemies to punish. All will be treated with fairness and impartially—price, service and quality to govern, but our judgment must finally determine the awards.

The following table shows the quantity and value of coal purchased at the institutions during the biennial period ending June 30, 1926:

	Tons	Value
Iowa coal	191,929	\$784,496.16
Illinois coal	37,130	129,831.64
Kentucky coal	2,426	12,536.41
Miscellaneous coal	300	1,207.04
Total	231,785	\$928,071.25

STATE ROADS

The following is a table showing the total expenditures of funds for state roads at state institutions under the direction of the board of control, for the biennial period ending June 30, 1926:

Location	Miles	Amount
Soldiers' Home65	\$ 17.49
Soldiers' Orphans' Home	2.25	24.76
Juvenile Home	1.70	1,656.72
Institution for Feeble-minded Children ..	3.50	72.67
State Sanatorium	2.00	6,388.14
Training School for Boys	2.50	2,285.78
Training School for Girls	1.35	5.84
Mount Pleasant State Hospital	3.35	670.83
Independence State Hospital	6.75	4,910.44
Clarinda State Hospital	4.50	30.90
Cherokee State Hospital	3.50	4,264.50
Hospital for Epileptics and School for Feeble-minded	6.00	9,830.00
State Penitentiary	3.25	248.34
Men's Reformatory	4.25	1,411.04
Women's Reformatory	1.00	58.68
State Farm, Chive	2.75	5.50
Total	49.30	\$31,881.63

COAL ROYALTIES

The coal royalties collected during the biennial period on coal mined under state lands at the fair grounds were \$11,971.72.

The total amount of royalties collected since the opening of the mine in 1919 is \$23,901.27. This has been turned over to the general revenue fund of the state.

LAND AT STATE INSTITUTIONS

Totals	12,271.5	\$8,722,708.29	80.42	\$ 15,182.20

BUREAU OF CHILD WELFARE

This bureau was authorized by act of the forty-first general assembly and was organized July 1, 1925. The work of the bureau in general, covers the welfare of all children in the state, but very particularly relates to the welfare of the unfortunate or handicapped child. This includes the general supervision of all child-caring institutions, whether child-placing or boarding homes.

During the year 1925, twenty organizations were licensed for child-placing. These organizations received 1,774 children during the year, 451 of whom were returned to their parents, 110 returned to other relatives, 251 placed in foster homes, 19 died and 17 were placed in other state institutions, leaving 926 children in institutions at the beginning of the year. This does not include children in state institutions. At the beginning of the year, the Soldiers' Orphans' Home at Davenport and the Juvenile Home at Toledo, had 675 children in residence; 202 were re-

ceived during the year, and 167 were released, leaving 710 still in care at the end of the year.

The new law requiring the licensing of maternity hospitals became operative July 4, 1925. To June 30, 1926, seven licenses were granted to this type of institution.

During the year the bureau has made a survey of general conditions as related to child welfare in Iowa and makes the following recommendations:

(1) More comprehensive adoption laws needed; (2) amend the maternity hospital law so as to include all hospitals receiving unmarried mother cases; (3) a definite program of aid in rehabilitating the unmarried mother; (4) grouping of all children at Davenport and Toledo according to ability, and the inauguration of a definite training program fitted to each group; (5) amend the mothers' pension law with regard to maximum amount which can be allowed; (6) a definite program of work with, and for, the mental defective groups of the state; (7) more strict marriage laws; (8) amend present divorce laws requiring report to Child Welfare Bureau whenever children are involved; (9) a program of work for, and aid to, crippled children.

STATE AGENTS

The readjustment of the state's juvenile wards, from institution life back into normal home life, is a most important work and for this purpose, the board of control employ seven state agents. Three agents were employed for the work at the Soldiers' Orphans' Home, one at the Juvenile Home, two at the Training School for Boys, and one at the Training School for Girls. During the biennial period, 903 children have gone from the institutions into homes and at the end of the period, the agents had 1,059 children under supervision in homes.

INSPECTOR OF COUNTY HOMES AND PRIVATE INSTITUTIONS

All county and private institutions where insane persons are cared for, and private institutions for neglected, dependent and delinquent children, are subject to inspection semi-annually by the inspector under the board of control. The inspector reports to the board of control any irregularities that exist in connection with the sanitary conditions maintained in county homes and private institutions, and the care and treatment of the patients and children confined therein.

The changes as recommended by the inspector in his reports have in nearly every instance been complied with by the various boards of supervisors throughout the state, and we have found the county officials very willing at all times to comply with our requests in making such changes as would better conditions for the patients and children they have under their care and supervision.

At the present time we have subject to our inspection, sixty-eight county homes and four private institutions where insane persons are kept, and thirty-four homes where friendless girls and children are cared for.

INVESTIGATION OF TUBERCULOSIS

"Please send me 110 copies of The Campaign for November, 1924," writes a county superintendent. "I want to give one to each of my rural teachers to use in class room work in teaching health."

This letter recently received asking for back numbers of The Campaign is just one instance showing the value of this monthly publication which is edited by the Iowa Tuberculosis Association and printed by the Board of Control of State Institutions in the Men's Reformatory print shop at Anamosa.

This magazine has a selected circulation of about 9,000 including health workers, physicians, nurses, teachers, farm bureau members, libraries, civic organizations, club women and others who have a natural interest in public health.

Among the special topics in the issues of the last two years which made it an organ of great value to its readers are the following: diets for the tuberculous patient, syllabus of lectures on tuberculosis, winter health habits, open windows, ventilation, the physical education law, teaching health in the high school, outline of school nursing, vitamin foods, colds, reading courses for adults, health meeting programs for parent-teacher association, etc., selling health to a rural community, gifts for bedridden patients, and how teachers use The Campaign in class work. Entire issues were devoted to chest clinics, dental hygiene, safety, and two issues to heart disease.

In addition to The Campaign other health literature has been printed and distributed including 50,000 six-page illustrated pamphlets containing statistical facts about tuberculosis and general health information presented in concise and readable fashion.

Moving picture films relative to both human and bovine tuberculosis have been loaned to farm bureaus, county health associations and other organizations. There has been a great demand on the part of the farm bureaus for the film, "Out of the Shadows."

The various newspaper associations and individual local papers have quoted frequently from articles appearing in current issues of The Campaign.

During the last biennial period, tuberculosis clinics were held in approximately three-fourths of the counties in the state. Heart disease examinations have been an additional feature in the clinics held within the last sixteen months. The clinics have a general educational value and very materially aid in discovering incipient cases and securing treatment in time. The clinics are preceded by public nursing service furnished by the Iowa Tuberculosis Association, and are financed from several sources, including the fund of the Board of Control of State Institutions for the investigation of tuberculosis, the Christmas seal funds of local health associations, and the Iowa Tuberculosis Associations.

Since the Board of Control of State Institutions inaugurated its tuberculosis work, the death rate from that disease in Iowa has been reduced fifty-one per cent. Iowa now has the third lowest death rate. Utah and Nebraska are lower. Iowa's rate is less than half of that prevailing in the country at large.

The educational work of the board makes possible a system of co-operation with the Iowa Tuberculosis Association not only in the field of tuberculosis but in the general field of public health, and places at the disposal of the board in various ways the services of the field workers of the state association and the co-operation of local and county voluntary health organizations.

The Iowa Tuberculosis Association added a new service in connection with this work by the employment on its staff of an instructor of occupational therapy, Miss Margaret Biggerstaff. The instructor is employed part time in the State Sanatorium at Oakdale, Sunny Slope at Ottumwa, Broadlawns at Des Moines, also with the State Board for Vocational Education, and her salary and expenses are financed jointly by these institutions and the state association.

Mr. J. H. Strief of the board of control is also a member of the board of directors of the state association.

In October, 1925 the National Tuberculosis Association sent to Iowa, at its own expense, its medical field director, Dr. H. R. Edwards. He made a survey of tuberculosis in the state and a careful study of the State Sanatorium and other state institution hospitals where tuberculous patients are cared for and offered some valuable suggestions. He complimented Iowa on the fact that the number of hospital beds for such patients exceeds the annual number of deaths, which is a high standard and meets the requirements recommended by national authorities. It is not generally known that many of these institution beds are in state institutions other than Oakdale, particularly in the hospitals for the insane and feeble-minded.

Dr. Edwards' report also speaks highly of the clinic system in the state, of the services rendered both by the board of control and the Iowa Tuberculosis Association to the county and medical societies, and of the educational program for the prevention of tuberculosis.

STATE INSTITUTIONS UNDER THE CONTROL AND MANAGEMENT
OF THE BOARD OF CONTROL OF STATE INSTITUTIONS,
THE EXECUTIVE OFFICER OF EACH AND THE PRO-
CEDURE WITH REFERENCE TO ADMISSIONS,
PAROLES AND DISCHARGES

Soldiers' Home, Marshalltown, B. C. Whitehill, Commandant.

This home is for the care of soldiers and their wives. For admission apply directly to the commandant for application blanks. The applicant (unless he enlisted from Iowa) must have resided in the state three years continuously previous to the date of making application.

Soldiers' Orphans' Home, Davenport, F. S. Treat, Superintendent.

Children may be admitted by court commitment or by order of the board of supervisors of the county where the children have residence. This home is intended particularly for the care of soldiers' orphans, although other orphaned and destitute children are received and cared for. All children are subject to placement and those who are not returned to their homes or the homes of relatives or friends are placed as soon as suitable homes can be found for them by the state agents, where they remain under the agent's supervision until they are twenty-one years of age. All applications for admission are subject to the approval of the board of control before a child can be admitted.

State Juvenile Home, Toledo, A. E. Keford, Superintendent.

This institution is for dependent, neglected, delinquent, or destitute children, and admission is by court commitment or upon application to the board of supervisors of the county where the child resides. All applications must be approved by the board of control. Children are received between the ages of four and fifteen years and are subject to placement when suitable homes are found for them by the state agents, under whose supervision the children remain until they are discharged or are adopted by persons with whom they have been placed.

Institution for Feeble-minded Children, Glenwood, George Mogridge, M. D., Superintendent.

Admission to this institution may be either voluntary, by parents, guardian, or county attorney, or by petition presented to the district or juvenile court in the county where such persons reside. Releases or paroles are granted upon application to the board of control, when such releases or paroles are recommended by the superintendent in charge of the institution. There are no restrictions as to the age of persons admitted to this institution.

State Sanatorium for the Treatment of Tuberculosis, Oakdale, H. V. Scarborough, M. D., Superintendent.

Application for admission should be made to the superintendent of the sanatorium, who will furnish proper blanks. When the blanks are received the applicant should carefully fill them in, especially the blank calling for the report of the family or attending physician, and return the blanks to the superintendent. Upon receipt of the application blanks, if approved for admission, the superintendent will advise the applicant when he can be received.

Training School for Boys, Eldora, O. S. Von Krog, Superintendent.

Training School for Girls, Mitchellville, Roy M. Hanchett, Superintendent.

Commitments to the training schools are made by the juvenile or district courts. Boys and girls are received between the ages of ten and eighteen years. When they have completed their training they are placed in homes on parole, where they remain under the supervision of state agents until they are discharged or returned to the school. A recent change in the law provides

for notice to the county attorney in the county where commitment was made thirty days prior to the date of final discharge.

Mount Pleasant State Hospital, Mount Pleasant, M. C. Mackin, M. D., Superintendent.

Independence State Hospital, Independence, R. A. Stewart, M. D., Superintendent.

Clarinda State Hospital, Clarinda, Max E. Witte, M. D., Superintendent.

Cherokee State Hospital, Cherokee, George Donohoe, M. D., Superintendent.

Commitments to the hospitals for the insane are made by the commissioners of insanity of the county where the patient resides. The commission has three members. The law requires that the clerk of the district court of the county be one member, the other two members being appointed by the district judge, one of whom must be a practicing attorney and the other a physician.

Paroles are granted by the board of control upon recommendation of the superintendent of the hospital with the consent of the commissioners of insanity, and are for a period of one year, at which time if the patient has not been returned to the hospital, he is discharged or the parole is extended for a longer period.

When application is made for the discharge of a patient while on parole the patient must return to the hospital to be examined or may be examined by the commissioners of insanity or by any reputable physician. If examined by the commissioners of insanity, or physician, a statement of their findings must be sent to the superintendent of the hospital, and upon receipt of same by the superintendent, if favorable, he discharges the patient as cured or not cured, as the case may be.

Hospital for Epileptics and School for Feeble-minded, Woodward, M. N. Voldeng, M. D., Superintendent.

Procedure with reference to commitment and release of feeble-minded in this institution is the same as at Glenwood. All persons wishing to be admitted for treatment of epilepsy must have resided in this state at least one year preceding the date of application for admission. Admission may be either through court commitment or voluntary. If voluntary, application blanks should be obtained from the superintendent by the party who desires to make application.

Applications for paroles are granted by the board of control upon recommendation of the superintendent, and with the consent of the commissioners of insanity of the county from which such person was committed. Patients are discharged from this institution the same as from hospitals for the insane.

State Penitentiary, Fort Madison, T. P. Hollowell, Warden.

Men's Reformatory, Anamosa, J. N. Baumel, Warden.

Women's Reformatory, Rockwell City, Eleanor Hutchinson, M. D., Superintendent.

When persons convicted of crime are sentenced by judges of the various courts, men between the ages of eighteen and thirty are usually sent to the Men's Reformatory. At this institution, there is also a building for criminal insane. Persons sentenced to death or to life imprisonment, and the older class of criminals are committed to the State Penitentiary.

All females over eighteen years of age, and married females under eighteen years of age, who are convicted in the district court of offenses punishable by imprisonment in excess of thirty days, shall, if imprisonment be imposed, be committed to the Women's Reformatory. Any unmarried female over ten and under eighteen years of age convicted of an offense punishable by life imprisonment may be committed either to the Training School for Girls or to the Women's Reformatory.
