

## Request for Bids

**Applicant Name: Sidney Central School District**

**Billed Entity Number: 124740**

All correspondence, questions and bids must be submitted in writing to Jessica Nilsen at [jessica.nilsen@eratepartners.com](mailto:jessica.nilsen@eratepartners.com).

You may also copy Jalene Allen at [jallen@btbooces.org](mailto:jallen@btbooces.org)

### Project Description

Sidney CSD is seeking bids on a network infrastructure upgrade. They are seeking bids for the installation and wiring of 11 outdoor Aps with mount kit. The wiring must be CAST6A and the mounts must extend past the edge of each building to propagate the signal along the wall. A map of locations for the outdoor APs is attached. They are also seeking to re-wire all existing AP drops with CAT6A. Wiring will need to be run to the existing AP and back to a closet. The wiring will not need to be terminated. Maps of each building and floor are attached depicting the location of the existing APs. They are also seeking 55 replacement APs that will not require installation. Walk throughs (recommended) of the project are available upon request.

### Service Provider Identification Number (SPIN)

Please provide your SPIN (also known as your Form 498 ID).

### Reimbursement Method

Please indicate whether or not you offer discounted billing (Service Provider Invoice option).

### New Equipment List

We are seeking the following equipment (or equivalent) and maintenance of equipment.

Please note that, when possible, we have indicated a preferred manufacturer and a preferred part number to allow bidders to provide the most accurate bid possible. However, per FCC rules, all equivalent bids/solutions will be evaluated. If you submit an alternate solution please be sure to fully describe the products, configuration, etc. proposed.

If any of the items in your proposal are ineligible or partially ineligible for E-rate, please indicate the cost allocation in your response.

**Building: Sidney ES/MS**

**Address: 13-15 Pearl St E. Sidney NY**

Function	Preferred Manufacturer	Preferred Part Number (If Known)	Description	Quantity	Installation Y/N
WAP	Aruba	JX967A	AP-365	7	Y
