Subject: Playground Surface – Charlotte Lappla and Don Gill Elementary Schools

To follow up the discussions from the March 2, 2021, Work Session regarding the playground surface proposal for Charlotte Lappla and Don Gill Elementary Schools, please find updated information obtained from the proposed vendor, Commercial Recreation Products, ("Little Tikes") below:

Questions and Answers:

- What is the warranty of the newest PIP on the market today? Typical factory warranty for PIP is 5 years. However, you may purchase the extended warranty for up to a 10-year period. Please note the warranty is not recommended to purchase, because the warranty does not cover the top, "Wear Surfacing", which is the only thing that typically goes wrong. This would need a patch-pour repair. It has been proven more cost effective to just keep up with the repair patches as needed, than to purchase the extended warranty that basically only covers areas that typically would not go bad in the normal life expectancy of PIP.
- Is the PIP repairable in sections with the new technology today? Yes. PIP is now installed with a "wear course" on the top. This will wear faster in the high traffic areas such as slide, exits, and other areas. Areas that would need repaired are simply cut out and a patch of PIP is poured in its place. It's a relatively fast process. It is suggested to cut repaired area into a star or moon shape, so it looks less like a patch. You can even do the patch repair in another color.
- -What is the estimated life expectancy of PIP? As with anything else, the life expectancy depends upon the use and maintenance of the product, including patching as needed. Most playgrounds with PIP installed are lasting 12-15+ years.

-ls it an option to do a playground surfacing of half PIP and half Certified wood chips? If so. what would be the estimated cost difference?

Yes. This is referred to as a hybrid surface since the PIP is more accessible. A lot goes into the cost difference. When installing PIP there needs to be a suitable substrate (CR-6 stone). Compacted stone is the cheapest and most popular. Four inches of compacted CR-6 stone is installed and typically costs around \$3.50/sq. foot.

The PIP surfacing price depends upon quantity, color, thickness, and graphics, if any. A typical 50-50 color/black mix with no graphics would be about \$13/sq. foot. Material costs are extremely crazy right now with the pandemic still going on. Every quote is job by job. EWF is typically around \$50/sq. foot installed and does not require any type of substrate.

Pro's:

(EWF) Engineered Wood Fiber

- -Less expensive
- -Meets ADA Basic Guidelines
- -Meets ASTM and CPSC safety guidelines
- -Natural look
- -Easy to install

Poured in Place

- -Unitary surfacing (no tripping points)
- -Exceeds ADA guidelines
- -Becomes more cost effective in long term.
- -Meets ASTM and CPSC safety guidelines
- -Minimal annual maintenance
- -Total playground wheelchair accessibility
- -No need to replenish every year
- -Cleaner- kids won't track it into the school and throw it all around the play area.
- -Becomes part of the play value.

Poured in Place

- -No splinters
- -Hypoallergenic
- Only needs 4.5" of PIP for ASTM shock absorbency

Con's:

(EWF) Engineered Wood Fiber

- -High maintenance
- -Displaced chips around school
- -Need annual budget for replenishment.
- Initial cost is higher than EWF.
- Don't last forever. Typically, 12-15 years
- Must be professionally installed
- -Needs to be compressed for wheelchair accessibility
- -Can cause splinters
- -Shock absorbency decreases over time
- -9" is needed to meet fall code
- -If topping off annually you would need to replace entirely within 8 years
- -weeds growing
- -NON-hypoallergenic
- -Needs a perimeter edging to hold EWF in place

The school district is responsible to remove and haul any existing EWF. This would not be necessary at Charlotte Lappla if going to use EWF there again. If the district wants to have someone else remove existing playground equipment, those costs about could be removed from above.

There are currently two parties that have expressed interest in the existing playground equipment.

I am available for any further questions at your convenience. Please feel free to contact me at 570-724-0316.
