

HP ProBook 4440s, 4540s, 4545s

Your business partner

HP recommends Windows® 7.

Business notebooks you can count on

The HP ProBook 4440s (14.0-inch diagonal display) and HP ProBook 4540s/4545s (15.6-inch diagonal display) notebook PCs combine performance, style, and high mobility at a competitive price. With easy-to-use, robust security features and a durable design, you can count on protection inside and out. And road warriors will appreciate the long battery life¹ and mobility offered by these highly portable notebooks.

Serious features for work, rich multi-media for play

The HP ProBook s-series exudes style and sophistication. But don't let the good looks deceive you.

- **Rely on the durable, yet stylish design**

Durability starts with high-strength precision-formed aluminum that is anodized to create a rich, smudge- and wear-resistant HP DuraFinish. The spill-resistant keyboard helps protect sensitive electronics and key components, and HP 3D DriveGuard² helps safeguard the hard drive against impact, bumps, and drops.

- **Get ready for business**

With the latest 2nd and 3rd generation dual-core and quad-core Intel (HP ProBook 4x40s models)³ and AMD APU (HP ProBook 4545s model) processor technologies, you benefit from excellent performance, responsiveness, and enhanced graphics.

- **Protect your data, device, and identity**

Notebooks can be lost or stolen, and protecting business data and personal information is critical. An independent benchmark of 329 private and public-sector U.S. organizations found that in a 12-month period 86,455 notebook PCs were lost or otherwise went missing.⁴ With HP ProBook s-series notebooks, you get HP ProtectTools, a best-in-class suite of security technologies.⁵ Unlike many security solutions, HP ProtectTools is included at no additional cost, and it is simple to implement.

- **Mix business with leisure**

SRS Premium Sound enhances audio fidelity, whether it's for music, voice, or videos, and the ArcSoft TotalMedia Suite² lets you play, edit, and create video and audio files. Your business can save on travel costs and bring remote meetings to life with the optional HP TrueVision HD webcam^{6,7} and when the workday is over, use the webcam to visually connect with family and friends.

HP Recommended Accessories

Choose accessories that complement your HP ProBook 4440s, 4540s, 4545s Business Notebook

In the office

Get a desktop experience from your HP Business Notebook while you are in the office with the HP Compaq LE2202x 21.5-inch LED Backlit LCD Monitor (LL649AA), HP LCD Monitor Stand (QM196AA), and HP USB 2.0 Universal Docking Station (AY052AA)

1. Battery life will vary depending on the product model, configuration, loaded applications, features, use, wireless functionality and power management settings. The maximum capacity of the battery will naturally decrease with time and usage. See MobileMark07 battery benchmark www.bapco.com/products/mobilemark2007 for additional details.
2. Microsoft Windows required.
3. Multi Core is a new technology designed to improve performance of certain software products. Not all customers or software applications will necessarily benefit from use of this technology. 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64 architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. Intel's numbering is not a measurement of higher performance.
4. Ponemon Institute, "The Billion Dollar Lost Laptop Problem," September 2010.
5. HP ProtectTools functionality requires Microsoft Windows.
6. Sold separately or as an optional feature.
7. Internet access required.
8. Accidental Damage Protection is available in the U.S., Canada, Mexico, Brazil and MCA (Argentina, Chile, Puerto Rico, Central America and Caribbean countries only)
