### GENERAL INFORMATION

This Parts Catalog is designed to help insure your ordering the correct replacement parts for servicing 1983 thru 1984 Renault Alliance vehicles. **IT IS NOT MEANT AS AN ASSEMBLY GUIDE.** Please refer to the appropriate Technical Service publication for disassembly, repair and reassembly procedures.

The governing factor in determining whether a part is left or right hand is the driver's side of the vehicle. A "left hand drive" vehicle is operated from the left hand side; a "right hand drive" vehicle from the right hand side.

Parts not listed for the specific vehicles included in this catalog are to be considered as not supplied for service by the American Motors Parts And Service Division.

Conventional accessories, such as radios, antennas and outside rear view mirrors are listed in a separate Accessory Reference Catalog. Serviceable components for these accessories **ARE** listed in this Parts Catalog.

Suggested prices for all parts listed in this Parts Catalog can be found in a separate Dealer Parts and Accessories Price List.

The Dealer Parts and Accessories Price List will list substitution information when stock has been depleted at both the Milwaukee National Parts Distribution Center and **ALL** Zone warehouses.

Substituting parts will automatically be supplied when the original part number is ordered even though the Parts and Accessories Price List may not show the substitution.

Ornamentation changes and other modifications, deletions or additions to original equipment made by owners or dealers to satisfy individual owner preference are not listed in this Parts Catalog. The owner or dealer assumes the responsibility for these items.

Bulk paint is not available from the factory. However, aerosol or brush top touchup paint is listed in the Accessory Reference Catalog, I.S. Notes or Technical Service Bulletins. All colors shown are available from your local Ditzler or Dupont paint jobber by requesting the intermix formula.

**CHILD PROTECTOR**

This door will not open from the inside when the child protector is in the lock position (see rear edge of door). To open, release inside lock and use outside handle.

**ALLIANCE Systems Sentry**

To use Systems Sentry, follow this procedure:  
1. Drive your vehicle until the engine is at normal operating temperature.  
2. Park your vehicle on level surface.  
3. Turn the ignition switch to OFF.  
4. Observe the Systems Sentry display. The amber checking light indicates that the systems are being checked. A green light indicates that the fluid levels or brake pads are OK. A red light indicates that systems should be checked. Refer to the service and Maintenance section of the owners manual.

**WARNING**  
Systems Sentry readings are accurate only when both engine and instruments are fully warm. When cold red lights may appear when no problem actually exists. Check your owners manual for complete information.

**UNLEADED FUEL ONLY**

WHEN LEVER IS DOWN AND BIHGE BUTTON IS NOT ENGAGED DOOR CAN ONLY BE OPENED FROM THE OUTSIDE LOCK
