Smarter ways to secure every level of your business

HP Care Pack

At HP we realise not every business can afford an in-house IT Manager. That's why with an addition of an HP Care Pack to a hardware purchase, you'll always be able to rely on a single point of contact for IT service and support – without the expense of maintaining technical staff.

For ultimate peace of mind buy any of the HP Care Packs featured in this catalogue. Call HP or talk to your HP Partner for details.

A small investment for greater security

In 2005, the most common IT security breaches experienced were caused by virus and unwanted intrusion through the Internet and email**.

Designed especially for small and mid-sized businesses like yours, the HP Smart Desktop Management Service offers:

- **Automatic remote backup**, easy retrieval of critical data via secure offsite storage.
- **Best-in-class security protection** with integrated anti-virus, firewall, spyware, and intrusion detection from Symantec®, the recognised global leader in security software, plus worm and trojan horse protection from HP which protect you while on email and on your Internet browser.
- **Proactive heath check** and diagnostic tools provided by HP Deep Scan to detect PC vulnerabilities and recommend solutions.
- **Expert professional support** that includes online chat with a HP support specialist 24/7.
- **Easy to install and maintain**

Protect your notebook or desktop PC and your business today with HP Smart Desktop.

All from just $159.50
