THE HIGH PERFORMANCE WATERCRAFT SPECIALIST

2010
CATALOG

Dear Hot Products Customers,

We are pleased to present to you the Hot Products High Performance Racing and Repair Parts catalog for 2010.

With the new and rapidly growing Four Stroke Parts and Accessories market we have developed three new sections that feature the most up to date information and parts available on the first 55 pages of the 2010 catalog. To support this expanding market we have organized the new parts and information by the newest and most popular Sea Doo, Yamaha and Kawasaki models available. Due to the complexity and unique performance benefits of the four stroke parts available compared to the two stroke performance parts of the past, the four stroke parts and accessories sections of the catalog offers the most current parts detail and explanations as possible at the time of publication.

We know racers are always striving to make their PWC faster and looking for newest ways to improve their PWC. The aftermarket parts manufacturers are following this trend by introducing new and improved performance products to support this growing market. These new Four Stroke Parts and Accessories will be introduced and released in to the market through out the the entire 2010 season. To support the new items we will be producing new product catalog supplements throughout the entire 2010 season as the parts become available.

The Hot Products goal is to be your #1 information source and supplier for every part and accessory available for the PWC Performance and Repair Industry.

26 years is long time... Hot Products has always strived to contribute and grow the Personal Watercraft Industry and we will always be incorporate this as part of our business plan.

The Hot Products staff, Racers and I would like to send our appreciation to all of our customers and vendors that have been part of the our great business for last 26 years.

Scott Saito • Hot Products Founder and President

ORDERS AND CUSTOMER SERVICE

Stock orders are processed and shipped within 24 hours.

Most orders placed by 2:00pm PST Monday-Friday are shipped via ground service by United Parcel Service "UPS". Upon your request we will upgrade your shipment to Next Day Air, Second Day Air, or Three Day Select, additional shipping fees will apply.

We are ready to help you. Hot Products is committed to becoming your #1 Watercraft Industry parts and information source. Please call us, we are here waiting to help.

Order minimum/COD Fees. Hot Products minimum parts order is \$50.00. Also any order under \$200.00 that is shipped COD will incur a \$10.50 COD service charge (the actual UPS COD fee.)

PAYMENT METHODS

C.O.D. All orders will be shipped COD unless previously arranged.

Charge. We accept payments via Visa & Mastercard.

EXPORT SERVICES

The parent company of Hot Products, Exceed International Inc. has over 30 years of export experience and the ability to purchase from all aftermarket watercraft industry manufacturers for export. All export orders are processed and packaged for one easy and convenient shipment to expedite the shipment and save on shipping/export fees.

www.HotProductsUSA.com

Hot Products is a proud sponsor and supporting member of these 2010 - 2011 racing events.

Hot Products has signed on as the title sponsor of the APBA Junior (JR) Star Program for the 2010 season. The Juniors are the future of our sport and Hot Products is pleased to be able to support the APBA JR Star Program. The support of the JR Star program and the APBA gives the APBA an opportunity to support the industry and the network of dealers across the United States.

Hot Products has signed to be the title sponsor for the 2011 APBA Mark Hahn Memorial Havasu 300. Hot Products would like to invite all of the customers and racers to participate in the great event next year.

R&D RXT, GTX155/185/215 FILTER KIT

The R&D RXT high performance "supercharger" air intake/filter kit will eliminate power robbing air intake restriction caused by a long intake tube design and promote

a noticeable bolt of low and mid range acceleration and boost top end performance 1 - 1.5 mph! The kit features are the short intake tube design and the huge (largest in the industry) filter element. The "supercharger" power plenum filter is coupled up to a rubber mounted, precision CNC formed 60/61 aluminum constructed short intake track runner tube. The new R&D "supercharger" filter kit will allow your 1500 cc Sea Doo 4Tec "supercharged" rev up an additional 100 plus RPM's. The filter kit installs very easily in 10-20 minutes, and has provisions in the filter to install the OEM crankcase ventilator.

Sea Doo	Part No.
RXT (For 185 & 215 HP Engine), GTX Supercharged	203-95003
GTX 4-TEC N.A. (155 HP Engine)	203-95002

R&D SEA DOO RXP 215 POWER PLENUM FILTER KIT

A hot rod should run and sound like a hot rod! The new

R&D RXP Power Plenum Air Filter Kit will get the job done with definite noticeable increase in throttle response and acceleration, as well as increase RPM's between 50 and 100! R&D Power Plenum Filter Kits have been dyno tested and race proven to add 3 to 5 horsepower on stock four stroke 1500 cc engines! High performance four stroke guru's have dyno tested the R&D Power Plenum Air Filters to over 280 horsepower! The R&D RXP Power Plenum Filter Kit gives the RXP 215's engine a high performance racing look, sound, and performance without sacrificing an ounce of reliability!

Sea Doo	Part No.
Sea Doo RXP (215 HP Engine)	203-00215

R&D RXP-X/RXT-X 255 POWER PLENUM FILTER KIT

The R&D RXP-X and RXT-X High Performance Power Plenum Air Filter Kit was designed and developed exclusively for the new Sea Doo RXP-X and RXT-X 255 H.P. 4Tecs new high

flow intake system design. The R&D filter kit will unleash restricted low-end, mid-range and peak horsepower trapped in the O.E.M. air filtration system and intake ducting by relieving the air intakes main restriction. The new R&D Filter Kit installs in place of the O.E.M. main air box plenums restrictive air intake cover. Replacing the O.E.M. air box intake cover with the R&D Filter offers a very economical way to improve airflow CFM at a fraction of the cost compared to other aftermarket kits. Sounds good, looks great, saves cash and will install in minutes. The R&D Filter Kit is easy to remove for dealer maintenance visits.

Sea Doo	Part No.
R&D RXP-X/RXT-X 255 Power Plenum Filter Kit	203-00255

RIVA RXP/RXP-X RXT/RXT-X/GTX-SC POWER FILTER KIT

Delivers greatly improved acceleration and a 1-2 mph (150-200 rpm) top speed

increase by replacing the restrictive stock intake system. The Power Filter feeds your supercharger with a steady diet of cool air via a 3" diameter intake duct and oversized K&N filter element. Ducting is precision formed from a race proven composite that will not conduct heat to incoming air. Installs securely via a silicone coupler and sturdy bracket. Includes pre-filter element.

NOTE: It will be necessary to upgrade your stock pump impeller to a steeper pitch when using our Power Filter Kit. Sea Doo and RIVA both strongly recommend the use of premium octane (91+) pump fuel in your Supercharged watercraft.

Sea Doo	Part No.
Power Filter Kit, SD RXP/RXT (04-07), RXP-X/RXT-X 255, GTX-SC,	RS13050-06
Power Filter Kit, SD (03) GTX-SC only	RS13050-03

RIVA RXP PRO-SERIES POWER FILTER KIT

The Pro-Series Power Filter is

a race-bred air intake system that draws cool air from outside your engine compartment delivering incredible performance and eliminating power-robbing heat intake. Air enters the system under seat through a billet aluminum intake flange equipped with a water-repellent pre-filter. Precision formed ducting attaches to supercharger via a large 4" adapter. Kit includes a complete oil catch can/breather system that keeps hot oil vapor and crankcase fumes from entering your engine's air intake. Also contains two Flow-Rite® water-repellent vents for improved ventilation of engine compartment through engine cowling.

NOTE: This product is not designed for heavy surf use due to possibility of water ingestion. We recommend RIVA Power Filter part#RS13050-YEAR for this application.

RIVA HEAVY-DUTY 04-07 RXP/RXT/GTX SC SUPERCHARGER CLUTCH WASHERS

These are direct replacements for the original clutch washers that are prone to fail on modified engines. Precision machined from tool grade steel to increase durability. Will not break up and damage engine at end of service life.

Description	Part No.
Riva Clutch Washers '04-05 RXP/RXT/GTX SC	RS1751-HDW-945
Riva Clutch Washers '06-07 RXP/RXT/GTX SC	RS1751-HDW-946*

**Note: RS1751-HDW-946 must be used with 2006 style Sea Doo OEM Supercharger shaft Part #420881946*

RIVA HEAVY-DUTY 08 RXP-X/RXT-X 255HP 08 RXP/RXT/GTX-SC 215HP SUPERCHARGER CLUTCH WASHERS

These are direct replacements for the original clutch washers that are prone to fail on modified engines. Precision machined from tool grade steel to increase durability. Will not break up and damage engine at end of service life.

NOTE: BRP recommends that you replace the Supercharger shaft/clutch assembly when servicing your supercharger. Order part# 420881100 ('08 spec). Requires '08 spec Heavy-duty Clutch Washers (part# RS1751-HDW-948).

Description	Part No.
Riva Clutch Washers '08 255hp RXP-X/RXT-X & 215hp RXP/RXT/GTX-SC	RS1751-HDW-948

R&D SUPERCHARGER HIGH PERFORMANCE CLUTCH WASHER KIT

The R&D High Performance Supercharger Clutch Washer Kit is a direct replacement upgrade for the very fragile factory BRP O.E.M. ceramic clutch washers that are and prone to fracture and disintegrate, which can result in costly engine damages. The R&D High Performance Clutch Kit is manufactured from a high strength, wear resistant bronze alloy material that has a yield strength of 32,000 psi plus, and a Rockwell hardness of B95. The R&D Superclutch was designed to improve reliability without disintegrating under the Sea Doo superchargers high rpms, heat and is designed to not only but also increase boost by decreasing clutch slippage.

Description	Part No.
R&D Clutch Washer Kit 06-07 RXP/RXT 215*	613-95001

**NOTE: (or any supercharger rebuilt or warranted with a BRP rebuild kit part #420881946 or #420881947) NOTE: BRP#420881946 is for 215 engines, and #420881947 is for 185 engines.*

R&D Clutch Washer Kit 03-04 GTX 185 S/C	613-95002
04-05 RXP 215, 05 RXT 215	

**NOTE: BRP supercharger rebuild kit installed, upgraded, or warranty updated with the BRP rebuild kits #420881947 (for 185) or #420881946 (for 215), these upgraded superchargers will require R&D PART # 613-95001*

R&D Clutch Washer Kit 08 RXP/RXT 215HP & RXP-X/RXT-X 255HP	613-95006

RIVA GEN-2 SUPERCHARGER IMPELLER 215HP

Presenting the ultimate (drop-in) performance supercharger impeller for the Sea Doo 215hp engine! Working closely with Vortech

Engineers, we developed the next generation high-performance replacement impeller that delivers 9lbs of boost @ 8,100rpm in RIVA Stage II applications. Produces more horsepower and torque throughout the RPM range resulting in excellent acceleration & top speed. Investment cast from an extremely strong, lightweight proprietary aluminum and CNC machined to ensure exact tolerances. All new blade design is optimized aerodynamically and precision balanced to deliver smooth operation. Installs easily into stock supercharger housing with no additional modifications required. Includes replacement mounting nut and detailed installation instructions.

Description	Part No.
SC Impeller, all RXP 215/RXT 215/GTX-SC	RS1750-001B
Nut, Supercharger Impeller, RIVA	RS1750-001A-N

RXP-X/RXT-X 255HP MONSTER POWER SUPERCHARGER IMPELLER WHEEL

The R&D engineering staff has developed a complete line of supercharger

impeller wheels. Each Monster Impeller wheel will come complete with a statistical data sheet graphing the RPM/boost pressures that the wheel produces, eliminating the mystery behind the supercharger.

BALANCING INFORMATION

R&D Monster Compressor Wheels for 255 H.P. 4 Tec engines have been precision mass center balanced in the preliminary casting/machining operations process, and precision two plane balanced after the final machining processes. The balance tolerances on the R&D Monster Wheels are held to a much stricter and tighter tolerance over O.E.M. or aftermarket wheels. The R&D precision two plane balanced compressor wheels will perform perfectly and smoothly at 180,000-200,000 rpm's as the wheels have been blueprinted and balanced to stringent turbocharger specifications, even though the wheel will only spin at 46-48,000 rpm's in the Rotax engine at 8,000 crankshaft rpm's. R&D's higher balancing standards will add significantly to the service life and performance of Rotax's vulnerable and temperamental clutch system and will significantly increase bearing life, promote better clutch performance, extend clutch life through decreased clutch slippage, and increase horsepower performance.

Description	Part No.
R&D C1 Monster Charger Wheel	613-94012
R&D C2 Monster Charger Wheel (Available 2011)	613-94014

RIVA PRO-SERIES SD SUPERCHARGER HOUSING & IMPELLER 215HP

Our high performance impeller & housing combo deliver a significant increase in boost pressure and horsepower due through increased impeller blade surface area and larger interior housing volume. Produces 10.5 lbs of boost at 8,400 RPM when run with our recommended Stage III components. Impeller features a sophisticated Vortech blade design that is precision balanced to deliver smooth operation. Housing and impeller install easily onto stock supercharger base plate with no additional modifications required.

Description	Part No.
Supercharger Housing & Impeller	RS1750-2M011
SD RXP 215/RXT 215/05-07 GTX-SC Ltd.	

RIVA X-CHARGER PRO-SERIES IMPELLER AND HOUSING 255HP

Our X-Charger Impeller & Housing delivers a 20% increase in boost pressure at 8,000rpm producing arm

wrenching acceleration and increased top speed. High performance impeller & housing combo increase horsepower through superior impeller blade design and larger interior housing volume. Impeller features a sophisticated Vortech® blade design that is precision balanced to deliver smooth operation. Housing and impeller install easily onto stock supercharger base plate with no additional modifications required. Includes installation instructions.

**NOTE: Requires use of RIVA 50lb Fuel Injector Kit (part# RS12050-I-KIT-50 • page 3) with stock ECU or RIVA Racing ECU (page 11) FOR COMPETITION USE ONLY.*

Gasoline	91 Octane Pump Gas	91 Octane Pump Gas

*** For both the Stage C4 and Stage C5 kits:**

R&D suggests that the "X" or aftermarket intercooler kits be used as high boost pressures and high air volumes can dead head into the O.E.M. intercooler causing compressor surge. For closed course or endurance racing use using the rotax racing E.C.U. where rpms are between 8250 and 8500, R&D recommends the use of the X model or aftermarket intercooler system. Tests have proven the O.E.M. intercooler to have restrictions at 23.5 pounds of air, or 9.5 pounds of boost at sea level and 60-80 degrees.

SEA DOO RXP RXP-X RXT RXT-X • SUPERCHARGER

RACE TECH RXP-X/RXT-X 255HP 137MM BILLET SC IMPELLER WITH 3MM SPACER

Engine-Tech supercharger impeller with spacer for the Sea Doo 255 hp X models. This CNC machined impeller makes 12.5+ lbs of boost at 8100 rpm and an incredible 13.5+ lbs at 8500 rpm! No other drop in impeller even comes close. It is made from heat treated 7075 aluminum and hard anodized for strength and corrosion resistance.

Description	Part No.
137MM+3drop in SC Impeller with Spacer	ET137+3SCI

RACE TECH 68/140 EXTREME SUPERCHARGER

E-Tec 68/140 Supercharger. This is the most powerful supercharger available today. 15.5 to 16 lbs of boost @ 8700 rpm. This is a ready to use complete charger for all SeaDoo 4 tec supercharged watercraft. Includes billet 140mm E-Tec impeller with spacer, CNC machined housings, 2008 shaft kit with BT Tech 86000 rpm bearings and titanium carbonite coated clutch washers. Assembled with preset clutch slippage.

Description	Part No.
Race Tech 68/140 Extreme Supercharger	ET68/140SC

RACE TECH 4" AIR INTAKE BILLET VELOCITY STACK

Race Tech's new billet velocity stack for the SeaDoo superchargers that allows the user to adapt a larger 4" air intake.

Description	Part No.
Race Tech 4" Air Intake Billet Velocity Stack	ET-VSS

R&D RXP/RXP-X/RXT/RXT-X GTX-SC SUPERCHARGER SURGE PROTECTOR KIT

The R&D Surge Protector Kit will significantly improve supercharger clutch and compressor wheel performance and reliability by eliminating compressor surge. Compressor surge is defined as the negative charge of pressure that causes turbulence in the supercharger that occurs during aggressive of off-throttle operations. When the throttle valve is abruptly closed at high rpms, the engine decelerates quickly down from 8,000 rpms, however the supercharger is compressing air (creating boost) as the supercharger has to decelerate from 42,000 rpms. This turbulence is the primary cause of undue stress on the supercharger clutch system and its components. The R&D surge protection kit utilizes an automotive vacuum assisted Bosch pressure blow off valve that automatically releases the unwanted intake pressure between the closed throttle valve and the supercharger. As soon as the throttle valve is opened, the blow off valve immediately closes and the compressor can supply its full boost potentials to the engine.

Manufactured from high-temperature silicone hose with an integrated molded riser for the blow off valve to function without hindering intake flow or velocity. The R&D kit installs easily in place of the OEM rubber intake elbow joint. This kit is a very necessary and cost effective up-grade for all Sea Doo supercharged watercraft. Kit comes completely assembled with silicone elbow, blow off valve, R&D B.O.V. filter, mounting hardware and instructions.

Description	Part No.
A. R&D RXP 215, RXT 215, GTX-SC SC Surge Protector Kit	613-95003
B. R&D RXP-X 255, RXT-X 255 SC Surge Protector Kit	613-95255

R&D RXP-X/RXT-X 255 SILICONE INTAKE HOSE KIT

The R&D Supercharger High Performance Hose Kit was developed while testing the R&D Monster Compressor Wheel Kits. Higher boost pressures create higher intake air temperatures of up to 235 degrees. The O.E.M. standard black rubber hose and standard hose clamps just do not hold up to the pressures and heat like high quality, high temperature silicone hose and high strength stainless steel style hose clamps. The R&D "Blue Hose" is manufactured from high performance, turbo charger quality high-temperature silicone.

Sea Doo	Part No.
R&D RXP-X/RXT-X 255 Silicone Intake Hose Kit	613-95256

R&D RXP-X/RXT-X BILLET SURGE PROTECTOR VALVE & FILTER KIT

The R&D Billet Surge Protector Valve and Filter Kit is now available. The billet aluminum CNC machined valve is an optional bolt-on replacement for the plastic Bosch valve used in the R&D and other aftermarket surge protection systems. The o-ring sealed billet design offers improved consistency and performance in higher boost pressure applications.

RIVA POWER COOLER KIT 215HP

Presenting the ultimate aftermarket intercooler system for the Sea Doo 215hp engine! The RIVA 'GEN-2' Power Cooler is our next generation intercooler system featuring a new "double wide" cooler element for maximum efficiency. Delivers an increase of 18 peak horse-

power over original intercooler providing arm-wrenching results on the water. The 'GEN-2' Power Cooler features a large, unrestricted core that exhibits minimal pressure loss. The cooling element is dramatically more efficient than the stock unit with exit temperatures averaging 50°F cooler than stock. This delivers cooler, denser air for increased performance throughout the RPM range. Includes integrated blow-off valve mount that will accept RIVA Blow-Off Valve kits (sold separately) for improved supercharger reliability and performance. Use of Blow-Off Valve also reduces supercharger clutch wear and eliminates heat soak in discharge tube or the buyer has the choice to purchase the RIVA Blow-Off Valve Block-off kit. Power Cooler Kit contains all necessary mounting hardware and installation instructions.

Requires use of RIVA Rear Exhaust Kit (RS15050-ET, RS15050-1) and RIVA O.P.A.S. Block-off Kit (Performance or Pro-Series • RS29950, RS29985, RS29050-1).

RIVA Blow-off Valve Kit Application Chart:

- 215hp Sea Doo Stage I & II: RIVA Performance Blow-Off Valve Kit (RS17080-BV-PF)
- 215hp Sea Doo Stage III & above: RIVA Pro-Series Blow-Off Valve Kit (RS17080-BV-PS)
- RIVA Blow-Off Valve Block-off Kit (RS1750-BVBO)

RIVA OEM INTERCOOLER UPGRADE KIT (255HP)

Riva intercooler Upgrade Kit for the new RXP-X & RXT-X relocates the original intercooler and

significantly improves efficiency of the system with upgraded components.

Key benefits include:

- Relocation of original intercooler: By strategically moving original intercooler, we have greatly improved access to engine compartment. **Relocation also allows installation of key performance parts including RIVA Rear Exhaust Kit (RS15050-1) & RIVA Pro-Series Power Filter Kit (RS13056).**
- Precision formed aluminum tubing: Our high strength aluminum tubes are shorter than original to minimize boost loss. Also, the rigid aluminum will not swell under pressure like original soft rubber hoses providing improved throttle response.
- Integrated blow-off valve mount: **Intercooler tubing includes mount for RIVA Pro-Series Blow-Off Valve Kit (RS17080-BV-PS) or RIVA Blow-Off Valve Block-off Kit (RS17050-BVBO); both sold separately.** Kit includes sturdy aluminum intercooler mounting bracket, high strength mandrel bent aluminum tubing and all necessary mounting hardware & installation instructions. **Requires installation of RIVA Rear Exhaust Kit (RS15050-1) and RIVA Performance OPAS Block-off Kit (RS29050-1).**

RIVA RXP / RXT REAR EXHAUST KIT WITH STOCK INTERCOOLER SYSTEM

Kit allows removal of restrictive suppression system located between waterbox and hull exit. Improves engine performance by reducing back pressure and restriction. Strategically placed fitting injects water just before exhaust exit to suppress sound level. Includes custom molded exhaust tube, billet through-hull exhaust outlet and OE exhaust block-off along with all necessary mounting hardware and installation instructions. Removal of O.P.A.S. and installation of RIVA Performance O.P.A.S. Block-off Kit (part # RS29050-1) is necessary to accommodate installation of RIVA Rear Exhaust Kit for all models (page 12).

Description	Part No.
Rear Exhaust Kit RXP/RXT 215, GTX-SC (04-07), RXP-X/RXT-X 255*	RS15050-1

RACE TECH BILLET EXHAUST TIP AND BILLET EXHAUST BLOCKOFF

Race Tech released a new billet exhaust tip. It is available individually for universal tip, or with a billet block-off for the Sea Doo's to block off the stock exit location. Both come with stainless mounting hardware.

Description	Part No.
Race Tech Universal Billet Exhaust Outlet	EXOUT
Race Tech Billet exhaust Outlet with SD Blockoff	EXOUTSD

RIVA PRO-SERIES SEA DOO 215/255 HP WATER BOX

Riva's Pro-Series Sea Doo Water Boxes deliver increased horsepower and performance by reducing exhaust restriction and back pressure. Developed on a flow bench, our water boxes feature radiused exhaust tubes and end caps for optimum exhaust flow. Innovative short design allows easy servicing of supercharger without removal of exhaust system. High strength aluminum construction & precision welds will survive backfires & overheating. Powder coated to prevent corrosion. Includes detailed installation instructions.

Note: Requires use of RIVA O.P.A.S. Block-off Kit (Performance RS209050-1 • page 12 or Pro-Series RS29950/RS29985 • page 12) as well as RIVA Rear Exhaust Outlet Kit (part# RS15050-ET). Will directly replace and upgrade RIVA Rear Exhaust Kit (part# RS15050-1) utilizing existing rear exhaust outlet installation.

R&D EXHAUST MANIFOLD X-TENDER KIT

The R&D Exhaust X-Tender Kit allows the exhaust to be extended 1.5 inches which will move the water muffler back 1.5 inches creating enough room to be able to change out a supercharger (Hot) in 5 minutes. No more hassling with extremely hot exhaust pipes, water mufflers and V-band clamps! The X-TENDER kit installs easily using an additional V-band clamp. Install the R&D Exhaust X-TENDER kit in place and never hassle a supercharger change out again. Once installed and used you will wonder why the factory didn't build it this way! The R&D kit will install directly to all RXT/RXP/GTX supercharged model Sea Doo's using O.E.M. BRP hardware.

Description	Part No.
Exhaust Manifold X-Tender Kit RXP, RXT 215HP	613-95004

R&D RXP-X EXHAUST MANIFOLD X-TENDER / O2 SENSOR MOUNT KIT

The R&D High Performance Exhaust Manifold X-Tender with O2 Sensor Mount Kit is a creative and unique product that was designed and developed while testing the R&D Superclutch and new R&D High Performance Compressor Wheels. The Sea Doo supercharger and exhaust systems parts and "J" pipe are extremely difficult to get to and handle when they are extremely hot, and the exhaust systems "J" pipe that must be removed can be tricky on a cold engine. R&D needed to be able to remove and replace the supercharger in five minutes to be able to test products back to back in a timely manner, as well as the same day for accurate testing data. The R&D Exhaust X-Tender Kit allows the exhaust to be extended 2 inches which will move the water muffler back 2 inches creating enough room to be able to change out a supercharger (Hot) in 5 minutes. No more hassling with extremely hot exhaust pipes, water mufflers and V-band clamps! An additional bonus is the oxygen sensor mount incorporated into the X-Tender, allowing quick and easy installation of an AFR Gauge (Air/Fuel Ratio) for properly tuning the X power plant. The X-Tender kit installs easily using an additional OEM V-band clamp. Install the R&D Exhaust X-Tender kit in place and never hassle a supercharger change out again. Once installed and used you will wonder why the factory didn't build it this way! The R&D X-Tender is manufactured from the highest grade stainless steel exhaust material available. The R&D kit will install directly to all Sea Doo X supercharged models using O.E.M. BRP hardware. You will need to purchase an extra OEM V band clamp. One is not provided.

SEA DOO RXP RXP-X RXT RXT-X • FUEL

RXT-X RRFPR FUEL PRESSURE REGULATOR

Universal bypass rising rate fuel pressure regulator for EFI fuel systems applications. Base fuel pressure is adjustable from 20 to 60 PSI with high pressure spring (installed). Ideal for EFI bypass applications where more flow and superior pressure control are desired. R&D offers

high performance Coast Guard approved fuel hose that can be purchased by the foot (PT#611-27502), as well as the Otekier style clamps (Pt#611-27518).

The universal type bypass style regulator is capable of handling any fuel pump up to 250 GPH. Replace "Deadhead" regulator performance and experience the full flow volume and rock steady fuel pressure that only a dynamic R&D fuel pressure regulator kit can produce. Available for Sea-Doo, Yamaha, and Kawasaki watercraft.

Sea Doo	Part No.
RXT-X RRFPR Fuel Pressure Regulator	803-81000

RIVA RISING RATE FUEL PRESSURE REGULATOR KIT

Riva's Fuel Pressure Regulator Kits provide the precision pressure control necessary to compliment a variety of performance applications. Kits are fully assembled & mount securely via sturdy stainless steel bracket. High quality billet pressure regulator can adjust base pressure from 25 to 80 PSI. Unit can also be set up as rising rate fuel pressure regulator at a 1 to 1 ratio providing one additional pound of fuel pressure for every pound of boost gain. Plugs directly into original fuel system with OEM connectors and features a large 3/8" fuel return line. Includes integrated liquid-filled pressure gauge and billet Fuel Pressure Regulator Block-off necessary for removal of stock fuel pressure regulator. Key Features Include:

- Precision fuel pressure control with optional rising rate function.
- High quality stainless steel liquid-filled pressure gauge.
- Large 3/8 fuel return line.
- Billet Fuel Pressure Regulator Block-off.
- Easy bolt-on installation with OEM fuel connectors.
- Complete installation instructions & tuning guide.

Description	Part No.
RIVA Fuel Regulator Kit - 07 & Older 215	RS12050RRFPR07
RIVA Fuel Regulator Kit 08 & Newer 215/255 (except i-Control)	RS12050RRFPR08

RIVA PRO-SERIES SEA DOO FUEL INJECTORS

Riva's high performance fuel injectors supply modified Sea Doo engines with additional fuel. 50lb injectors are for use with RIVA Racing ECU

for correct calibration. Available in three piece kit or sold individually.

Description	Part No.
RIVA Pro-Series SD Fuel Injectors (3-pc kit) 215HP RXP/RXT/05-08 GTX-SC Ltd., RXP-X/RXT-X 255HP	RS12050-I-KIT-5

RIVA SEA DOO PRO-SERIES ECU

Our Pro-Series Racing ECU delivers a huge performance advantage to the Sea Doo 255 & 215 Supercharged Intercooled engines. ECU is calibrated for Stage II & III applications and must be used with RIVA Pro-Series 50lb Fuel Injector Kit, RIVA Valve Train Upgrade Kit and 91+ octane pump fuel. Plugs directly into factory

wiring harness in place of stock ECU. Key benefits include:

* **Performance Fuel Mapping:** Delivers optimal fuel required for your specific level of modification (Stage II or III) based on boost pressure.

* **Performance Timing Curves:** Special racing curves produce more power throughout the RPM range. Timing is automatically adjusted based on sensor input.

* **Rev Limiter Increase:** Stock rev limit has been increased from 8,300 to 8,650 RPM. With our recommended pump combination, engine RPM can be run higher producing more boost pressure and horsepower.

* **Practice Key:** In addition to normal "full power" key, a 60 MPH "practice" key can be programmed by BRP dealer BUDS system to limit speed for race-course practice. ECU does not support original "learning" key mode.

* **Retains Engine Diagnostic & Primary Safety Functions:**

- 1) Provides diagnostic information displayed on dash instrumentation along with more detailed data through BRP dealer B.U.D.S. system.
- 2) Sensor input is monitored for abnormal readings and will react by triggering warnings and/or limp mode.

**NOTE: This product is for competition use only. Must be used with RIVA Pro-Series 50lb Fuel Injector Kit (part #RS12050-I-KIT-50 • page 3), RIVA Valve Train Upgrade Kit and 91+ octane pump fuel. Unit must be activated in watercraft by an authorized BRP dealer using BUDS system. Activation by RIVA Racing available with customer supplied throttle body. Installation of this racing product will void BRP factory warranty.*

RIVA PRO-SERIES SEA DOO I-CONTROL ECU

Riva has developed new ECU's for the new Sea Doo i-Control watercraft. Both units

plug directly into factory wiring harness in place of the stock ECU.

i-Control RACE ECU: Delivers huge performance advantage to modified craft. Programmed with new fuel, timing & rev limit to accept high boost engine modifications. Requires use of Riva Valve Train Upgrade Kit & replacement fuel injectors. **FOR COMPETITION USE ONLY.**

i-Control PERFORMANCE ECU: Eliminates the OEM GPS controlled speed limiter function opening the door to increased speed & performance. Increases top speed by 3+ mph (US models) with no additional modifications. Absolutely essential for all i-Control performance upgrades.

Riva i-Control 260/255 ECU Performance Series	RS11890-01-B

SEA DOO RXP RXP-X RXT RXT-X • FUEL • ENGINE

SEA DOO POWERSHOT ADJUSTABLE FUEL TUNER

The R&D Powershot fuel injection tuner will deliver increased horsepower, acceleration, and stronger mid-range performance by delivering a higher performing air to fuel ratio (A.F.R.) to the engine. Many of today's

high performance fuel injected four stroke muscle craft have a lean A.F.R. R&D Performance has tested, documented, and analyzed the O.E.M. fuel maps on every current fuel injected four stroke watercraft, and pre-programmed and coded the new R&D Powershot fuel injection control module to safely alter the O.E.M. fuel map to a higher performing and safer A.F.R. (richer). More horsepower, greater acceleration and stronger mid-range are the result when the proper A.F.R. is achieved and is tuned for optimum performance.

The R&D Powershot is fully adjustable on the fly (with the engine running, observed and tuned while riding), and will accommodate a wide range of adjustability to properly performance tune the A.F.R. for any combination of aftermarket parts. The R&D Powershot will add horsepower, reliability, and adjustability to any electronic fuel injected two or four stroke watercraft engine.

Description	Part No.
R&D RXP/RXT 215HP Powershot Adj. Fuel Tuner	803-95002
R&D RXP-X/RXT-X 255HP Powershot Adj. Fuel Tuner	803-95003

INNOVATE LC-1 WIDEBAND AIR/FUEL RATIO KIT

Professionally tune your engine with complete confidence. The LC-1 is more accurate than

conventional designs costing many times as much, and its self-calibrating circuitry can compensate for changes in temperature, altitude and sensor condition. The LC-1 is ideal for applications such as Dynos, Data Acquisition, Standalone ECUs, piggyback fuel controllers, OBD-II software or chip programmers and gauges. This Innovate kit comes complete with the patented award-winning LC-1 Wideband Controller with a sealed cable, DB-Blue digital Gauge, Bosch 5-wire Wideband O2 Sensor, Bung/Plug Kit, Software CD, and quick start guide. Take the guess work out of tuning, recommend by R&D to tune all high performance 4-stroke watercraft.

2005 & Older Models

RXP/RXT CATCH CAN/OIL BREATHER SYSTEM

Easy to install catch can/oil breather eliminates power-robbing crankcase fumes and oil vapor from your engine's air intake. Increases horsepower by removing the engine's requirement to burn relatively non-combustible oil. Also improves intercooler efficiency by preventing the oil sludge coating that lowers thermal efficiency. Excess oil vapor is routed to our translucent catch can where it condenses and collects for occasional draining via integrated petcock valve. Kit includes K&N breather, Sea Doo mounting bracket, hardware & instructions.

RIVA PRO-SERIES 4-STROKE CYLINDER HEAD STUD KITS

Riva's ultra high strength cylinder head stud kit is essential equipment when upgrading internal components on your high boost Yamaha engine. Precision machined from premium grade 8740 alloy and heat treated to exacting tolerances, these studs dramatically increase reliability & ease of maintenance. Key Benefits Include:

- Superior material & heat treat process provides 10X better strength than OEM
- Studs provide improved alignment of cylinder head and gasket
- More accurate & consistent torque loading provides a more uniform clamping force on head gasket.
- Helps prevent blown head gaskets and assures optimum engine sealing.

VALVE COMPRESSION, TOOL SD 4-TEC

Our overhead Valve Compression Tool allows easy removal of valve springs and keepers without removing cylinder head. Includes compression adapter to pressurize cylinder keeping valves in place during removal of stock springs and keepers.

Description Tool, Valve Compression, SD 4-TEC **Part No.** RS19050-VCT

NGK SPARK PLUG

Since 1936 NGK has lead the industry in technology, innovation and world class design of its entire product line. You can depend on NGK for quality and reliability.

- Triple-Gasket Sealing Process
- Consistent Performance
- Plug of Choice in Millions of Vehicles

Description NGK Plug for Sea Doo GTX 4-TEC (10 plugs per box) **Part No.** DCPR-8E

THROTTLE CONVERSION KIT, ALL 4-TEC 4-STROKE RXP - RXT - GTX - GTI

Quickly and easily transform your Sea Doo thumb throttle into a more natural finger throttle with our Throttle Conversion Kit. Aluminum extensions insert directly into bar ends adding 1-3/4" to each side providing more turning leverage and a more natural riding position. Molded steering pad end cap mates to finger throttle for a clean factory look. No modifications to existing handlebars necessary and minimal downtime.

Description For stock grips. All 4-TEC 4 stroke 02-07 RXP/RXT/GTX/All GTI 4-TEC **Part No.** RS2455

RIVA RACING BILLET FINGER THROTTLE FOR SEADOO

Specifically designed to match throttle travel of SeaDoo 4-Stroke PWC. Direct replacement for bulky OEM throttle on X-Models and can be used with aftermarket bars on other 4-tec applications. Adjustable throttle angle & unique trigger design keeps the trigger at the tip of your finger throughout the throttle range for reduced arm pump & superb throttle control. Delrin bushings eliminate play common in OEM throttles and provide smooth actuation. All stainless hardware at hinge point eliminates

corrosion and play. No "C" clips used. Use with OEM adapter on X-Models or use aftermarket adapter (sold separately) for other 4-Tec applications.

Description Riva Racing Billet Finger Throttle for SeaDoo **Part No.** RS24010P
*Available in clear polished finish only

HANDLEBAR COVER CAP FOR SEA DOO 4-TEC - RXP RXT - GTX - GTI

Description Handlebar Cvr Cap **Part No.** FB001-SD

NGK Iridium IX SPARK PLUGS

Iridium is significantly stronger than any metal used in spark plugs today. The ignitability and durability is better than platinum. Sold in packs of four.

Description NGK Iridium Spark Plugs for Sea Doo 4-Tec **Part No.** DCPR8EIX

UMI TOP STOP BILLET STEERING

Top stop steering for positive control and extraordinary strength. Improved handling by shifting weight to correct point on watercraft. Available for most sport and runabout models.

Description	Part No.
GSX/GTX/GTI/GTS/GSI/GS 96+, RX, RXP, RXP-X, RXT, RXT-X	58-6321

HOT PRODUCTS HANDLE BARS

Models	Surface	Pad Size	Part No.
Sea Doo GTS/GTX, XP97-98, RXP, RXT	Silver	Large	HJR-02

Handle Bar Specs: 30.5 width • 3" Rise • 1.5" Pull Back

RUNABOUT FAT BARS

Handlebar Type	Part No.
Fat Runabout Bars	HJFT-01

UMI RXP TRIM/SWITCH HOUSING

U.M.I.'s trim/switch housing is machined from 6061-T6 billet aluminum, replacing the stock plastic housing. Trim/switch housing uses the factory variable trim switch and start/stop switch. This housing must be used with the U.M.I. GSX/RXP (P/#58-6321) steering system, aftermarket bars and finger throttle.

Sea Doo	Part No.
RXP Silver	SD-01600-CLR

SPEED MAGIC "X MOUNT" STEERING HEAD

The Speed Magic "X-Mount" for the RXP-X and RXT-X improves handling by lowering the steering head 85mm lower than the stock position and moves the rider forward for a more aggressive position. Regular and Fat Bar applications.

Description	Part No.
Speed Magic Steering Head (<i>Standard Handlebars</i>)	SE-027015
Speed Magic Steering Head (<i>Fat Bars</i>)	SE-027015F

DO SPEED SPACER AND MOUNTING KIT FOR UMI RXP-X/RXT-X STEERING SYSTEMS

Do Speed has developed this spacer and mounting bracket specifically to be used in combination with a UMI steering system on a RXP-X or RXT-X. The spacer prevents water from entering the engine compartment and the bracket creates a clean and safe installation of the OEM Sea Doo warning system signal.

Description	Part No.

R&D SEA DOO AQUAVEIN SCOOP GRATE

R&D's new Aquavein Scoop Grate kit that is now available for Sea

Doo's new supercharged model is an absolute necessity to tame the cavitation that is created by Sea Doo's new supercharged 1500cc 185hp beast of an engine! Zero cavitation and quicker acceleration from 0-30mph is what you can expect from R&D's new 2 bar, full winged design. Improved low and high speed cornering, greater straight line stability, and an increase of .50mph in the speed department! The new R&D 4TEC Aquavein Grate installs easily in minutes and has been tested extensively with both the OEM impeller and the new R&D/Skat-Trak 16/21 3 blade impeller. The R&D/Skat-Trak impeller and Aquavein combination nets a bolt on performance boost of a full 1.5mph gain in top speed!

Description	Part No.
Sea Doo RXT Aquavein Scoop Grate	113-95000
RXP 215	113-95001
RXP 215 Pro Aquavein & Girdle Kit	113-95002

R&D SEA DOO RXP AQUAVEIN GIRDLE KIT

The R&D RXP Aquavein Girdle Kit was designed and developed to add two extra 6mm bolts to the back end of either an R&D Aquavein or OEM grate for a much higher degree of security against pulling inserts out of the OEM PVC plastic pump shoe! A must for competition use!

Description	Part No.
Sea Doo RXP Aquavein Girdle Kit	123-10010

R&D RXP-X, RXT-X AQUAVEIN INTAKE GRATE

R&D's exclusive dual patented technology that's incorporated

into the revolutionary Aquavein will enhance the X beast. Blow through low and high-speed turns with confidence and chew up rough water conditions with a new found 3 mph top speed gain. Quicker acceleration and straight-line stability are also maximized. The new X Sea Doo, equipped with an R&D Aquavein cracks the glass on the fun meter!

Description	Part No.
R&D RXP-X/RXT-X Aquavein Stock/Recreation	113-95004
R&D RXP-X/RXT-X Aquavein Off-Shore/Closed Course	113-95007

WORX MAXILOADER INTAKE GRATE

The WORX Maxiloader is the first mod anyone should do to

their PWC. Among the benefits you'll receive are; reduced porpoising, no or minimal top speed loss (up to 3mph gain in choppy conditions!) and greater control & turning capability.

Description	Part No.
GTX 4Tec 02-05/GTX SC 03-04, RXT 215 (05-08) Intake Grate	WR221
Worx RXP 215 (04-08) Intake Grate	WR223
Worx RXP-X/RXT-X 255HP Intake Grate	WR229

RIVA TOP-LOADER INTAKE GRATES

The Riva top-loader intake grate features a unique tapered wing design that eliminates prop spin and cavitation while delivering enhanced acceleration and 2mph additional top-speed. Deep side rails improve stability and handling. Durable black race coating protects from corrosion. Race Legal.

Description	Part No.
RXP 215 (04-08)	RS22050
RXT 215 (05-08)/GTX-SC (03-04)	RS22055

RIVA SEA DOO 215/255HP 4-TEC PERFORMANCE RIDE PLATE

The RIVA Sea-Doo Performance Ride Plate delivers the perfect balance of top speed and improved handling. Top speed is increased by 2-3 mph along with straight line stability. Deep channeled design provides improved traction in turns and faster lap times. This ride plate requires the use of RIVA Open Loop Cooling Kit (part# RS1013-50).

Key Benefits Include:

- 2-3 mph top speed increase.
- Improved straight line stability.
- Improved cornering.

Description	Part No.
SD 215/155 4-Tec Ride Plate	RS21050
SD 255 4-Tec Ride Plate (except i-Control)	RS21080

RIVA SEA DOO 4-TEC OPEN LOOP COOLING KIT

RIVA Open Loop Cooling Kit dramatically reduces engine operating temperatures for improved performance & reliability. Also allows installation of RIVA Performance Ride Plate by eliminating need for heat exchanger. Original closed loop system becomes quickly heat soaked in high performance applications. Open loop system increases cooling efficiency via steady supply of cool external water.

Key Features Include:

- * Improved performance & reliability.
- * Allows installation of aftermarket rideplate.
- * Replaceable sacrificial zinc anode protects cooling system from corrosion.
- * Quick release flushing system flushes engine & exhaust cooling passages.
- * Billet aluminum pump cover with anodized finish.
- * Includes complete installation instructions.

FITS ALL SEA-DOO 4-STROKE PWC except i-Control

Description	Part No.
Riva 4-Tec Open Loop Cooling Kit (except i-Control)	RS1013-50

R&D RXP/RXP-X RXT/RXT-X/GTX PRO SERIES SPONSON KIT

The new R&D Sea Doo Pro Series Sponson Kit was designed and developed to deliver lots of handling performance with adjustability options, which allows you to setup your Sea Doo "your way" with 2-position backing plate and 3-position sponson blade adjustability. The R&D Sponson Kit will deliver a much smoother ride and low speed and high-speed turns are a breeze with new found control! There is also a higher end recreational/race setting with enough grip for the best of pro's!

Description	Part No.
RXP/RXP-X/RXT/RXT-X/GTX Pro Series Sponson Kit	123-95101

RIVA RACING RXP/RXP-X RXT/RXT-X/GTX PRO-SERIES SPONSON KIT

Riva's race proven Pro-Series Sponsons will dramatically improve the handling of your craft with their superior blade & backing plate design. Includes a bulletproof mounting system that features a solid backing plate and five anchor points with billet inserts in sponson fins. Sponson depth is adjustable to control the amount of influence they have on the craft.

Description	Part No.
Sponson Kit, Pro-Series, SD RXP/RXP-X/RXT/RXT-X/GTX	RS26050

WORX RACING SEA DOO SPONSONS

Unbelievable cornering, better control in the rough and predictable inline tracking while towing wakeboards or waterskiers. WORX sponsons are easy to fit, look great and bolt right into stock mounting holes.

Description	Part No.
05 onwards all GTX/RXP/RXT, 06 on GTI	WR534
02 thru 04 all GTX, 04 only RXP	WR526
RXP-X/RXT-X	WR540

RIVA COMPETITION O.P.A.S. KIT

Provides more predictable handling characteristics while retaining the benefits of the off-throttle O.P.A.S. system. Precision-machined composite collars prevent the O.P.A.S. fins from dropping when pump is out of the water in choppy conditions. Installs quickly and easily without tools.

Description	Part No.

RXT-X 255/GTX Competition O.P.A.S. Kit	

SEA DOO RXP RXP-X RXT RXT-X • CONTROL

R&D SEA DOO RXP/RXT 215/255 AUTO TRIM KIT

Developed to override the OEM VTS System with a fully adjustable and fully automatic trim system. The R&D Auto Trim automatically drops a rider preferred adjustable 2-8 degrees. For long straight rides install the R&D VTS/Holeshot Driver Rod (Pt. #163-

21503), which works in conjunction with the R&D Auto Trim to electronically override the Auto Trim back to the OEM VTS Nozzle angle trim settings! The combination allows the best for recreational and closed course riding!

Description	Part No.
Sea Doo RXP 215 Auto Trim Kit	163-21502
Sea Doo RXT 215/GTX 4-TEC Auto Trim Kit	163-95003
Sea Doo RXP-X 255/RXT-X 255 Auto Trim Kit	163-25500

R&D RXP/RXT 215/255 HOLESHOT ROD

The R&D Holeshot Rod is designed to work in conjunction with the R&D Auto-Trim Kit. The Holeshot Rod mounts to the VTS system and allows maximum nozzle drop when the nozzle is straight for improved holeshots.

Description	Part No.
R&D RXP/RXT/RXP-X/RXT-X Holeshot Rod	163-21503

RXP PRO STEERING NOZZLE

The R&D RXP 215/255 Pro Series Steering Nozzle was developed to replace the OEM steering nozzles oval and stepped inner design shape with a race proven high performance

round Venturi design. The new R&D RXP 215/255 Nozzle also incorporates a cast in boss for the R&D Auto Trim Kit Option.

Description	Part No.
Sea Doo RXP 215/RXP-X 255/RXT 215/RXP-X 255 Pro Steering Nozzle (+15mm)	163-21500

R&D RXP-X/RXT-X 84MM REDUCTION NOZZLE KIT

The R&D RXP-X/RXT-X 84mm Pump Reduction cone will reduce the venturi size from a short O.E.M. 87mm large bore design to a plus .750 over stock venturi length with a final venturi size of 84mm. Increased hook

up, stronger acceleration and mid range, improved top speed performance.

Description	Part No.
R&D RXP-X/RXT-X 84mm Reduction Nozzle Kit	173-25584

RXP/RXT PRO-SERIES REDUCTION NOZZLE

Ideal for tuning your Sea Doo pump combination for maximize performance. The nozzle features a interchangeable ring

system. Nozzle includes three stainless steel rings in 81, 82 and 83mm. Additional ring sizes available (RS23050-NR-SIZE) 80, 81.5, 82.5 and 84mm.

Description	Part No.
Venturi Nozzle w/3 Rings, SD RXP 215/RXP-X 255	RS23050-N
Venturi Nozzle w/3 Rings, SD RXT/05-07 GTX-SC	RS23051-N

GTX 4-TEC

SEA DOO RXT 2.5 DEGREE NOZZLE WEDGE KIT

The R&D 2.5 degree reduction nozzle wedge kit for the new Sea Doo 4-TEC was designed, developed and tested extensively in all types of flat and rough water conditions to ensure that there would be no handling performance compromises. Most brands of watercraft have some form of V.T.S. (variable trim system) including other model Sea Doo's. Why the

4-TEC doesn't have a trim system is a mystery. Extensive testing has led our development team to wedge the reduction nozzle up 2.5 degrees which will inexpensively give your 4-TEC better handling everywhere and provide a boost of 1 to 2 mph in top speed performance. The billet aluminum CNC machined 2.5 degree reduction nozzle wedge kit was designed to work with the OEM O.P.A.S. system and installs easily in 15 to 20 minutes with R&D's "easy install" directions.

Description	Part No.
02-03 GTX 4-TEC SC / 03-05 GTX 4-TEC NA	143-95002

PERFORMANCE PRODUCTS

SKAT TRAK IMPELLERS FOR SEA DOO PWC

Increased acceleration and top speed gains are only a few of the advantages of upgrading to a Skat-Trak impeller.

On the New 3-Blade Swirl Super Pro Impeller

Skat Trak recommends:

- 13/17 for a Stock RXT application
- 13/17 for a RXT Stock Stage 1 application
- 13/18 for a RXT-X Stock Stage 1 application
- 13/18 for a RXT Stage 2 application
- 13/18 for a RXP Stock Stage 1 application
- 14/19 for a RXP-X Stock Stage 1 application
- 14/19 for a RXP Stage 2 application
- 14/20 for a RXP Stage 3 application
- 15/20 for a RXP 300hp and up application
- 15.5/21.5 for a RXP 315hp and up application

Skat Trak Impellers do not include a seal, Hot Products recommends SLA012 sold separately.

RIVA PERFORMANCE YAMAHA FX-SHO/FZR/FZS POWER FILTER KIT

The Riva Power Filter feeds your SHO or FZR a steady diet of cool air delivering greatly improved acceleration and rpm. Replaces restrictive stock air box with a high-volume, precision-formed intake duct that attaches to the supercharger via a large 4" adapter. Cool air enters the system via an oversized K&N filter element. Includes water-repellent pre-filter.

Description Part No.
Riva FX-SHO/FZR/FZS Performance Power Filter Kit RY13040

R&D PERFORMANCE POWER PLENUM AIR FILTER KIT

The R&D High Performance Power Plenum Air Filter Kit was designed, developed and dyno tested exclusively for the new Yamaha SHO/FZR supercharged intake system to unleash low-end, mid-range, and peak horsepower trapped in the restrictive stock air box. The exclusive lightweight filter design couples to the OEM supercharger hose and is engineered with a large 6"x10"x6" plenum to deliver massive cubic air volume and improved air speed to the supercharger. Replacing the O.E.M. air box with the R&D Filter kit offers an economical way

to improve performance, looks, and sound at a fraction of the cost of other aftermarket kits. Kit comes complete with all necessary hardware and installs in minutes.

Description Part No.
R&D FX-SHO/FZR/FZS Performance Power Plenum Air Filter Kit 200-01801

R&D FX-SHO/FZR/FZS POWER PLENUM FLAME ARRESTER FOR STOCK AIR BOX

The R&D High Flow Filter design replaces the restrictive stock filter inside the stock air box, allowing improved air flow. Why? Because more air flow means more power and improved performance. The washable and reusable design means this will be the last filter you will ever have to buy.

Description Part No.
R&D FX-SHO/FZR/FZS Power Plenum Flame Arrester 200-01800

FOR INTAKE MANIFOLD

FOR INTERCOOLER

R&D SHO POWER CORE INTAKE MANIFOLD/INTERCOOLER CFM KIT

The R&D FX-SHO/FZR/FZS Power Intake Manifold and Intercooler CFM Kit was developed to increase airflow into and through the intake system by relieving restrictions. The R&D FX-SHO/FZR/FZS intake manifold ribbon remover sleeve will unlock a 40 CFM (cubic feet per minute) air flow restriction by replacing the intake manifold ribbon with the R&D billet venturi sleeve. The R&D Intercooler Spacer will unlock a 30-35 CFM restriction in the intercooler. The R&D FX-SHO/FZR/FZS Intake Kit will add low end and mid range throttle response, and a full 100 plus rpms to top end performance to a stock FX-SHO/FZR/FZS. The R&D FX-SHO/FZR/FZS Intake Kit is an absolute must have parts kit to remove intake restrictions before contemplating power adding compressor booster wheels or turbo charger kits to the FX-SHO/FZR/FZS engine. True horsepower gains on the FX-SHO/FZR/FZS start right here with the R&D Intake Kit. More airflow will equal more power, and there is no other way around the fact that restricted is restricted power.

Description Part No.
R&D FX-SHO/FZR/FZS Power Core Billet Intake Manifold Sleeve & Intercooler Spacer CFM Kit 612-18000
R&D Power Core Intake Manifold Sleeve Only 612-17998
R&D FX-SHO/FZR/FZS Intercooler CFM Spacer Only 612-17999

RIVA FX-SHO/FZR/FZS INTAKE MANIFOLD UPGRADE KIT

Our Intake Manifold Upgrade Kit enables your SHO engine to produce more horsepower by delivering increased air flow and boost pressure (+1lb). Precision tapered billet sleeve directly replaces restrictive mesh element in intake manifold. Provides improved low end punch and mid range pull through quick & easy installation. Includes detailed installation instructions. *NOTE: Testing has determined the stock ECU will compensate for the increased boost provided by our Intake Manifold Upgrade Kit.*

R&D FX-SHO/FZR/FZS C1 MONSTER CHARGER WHEEL

R&D's new C1 11 Blade Series Monster Compressor Wheel Kit for Yamaha SHO/FZS/FZR engines is new and improved to deliver "horsepower you can feel" with instant throttle response, improved mid range acceleration, and increased top end performance. The R&D Monster Wheel replaces the stock wheels inefficient 5 blade design with an all new modern low profile, high flow, 11 blade high tech design. Fits directly into the O.E.M. stock compressor housing with no modifications. The C1-11 Monster works with the OEM intercooler, OEM fuel injectors, OEM ignition system and the R&D Intake CFM Kit. Kit performs well on 91 octane pump gasoline. Boost rated 7/8.5 P.S.I. (7 @ 7500 and 8.5 @ 7700) Horsepower increases were professionally documented by MOTEC AUSTRALIA.

- Increased boost pressure (3-3.5 over stock @ 7700 rpm)
- Increased airflow (1.5-2 pound per minute gain)
- 25-30 Horsepower increase and 2 MPH Gain (with OEM ignition)
- 70 Horsepower increase (with Motec ECU, CFM kit, 91 pump gas)
- Precision balanced (turbo specs .012-.027 gram inches)
- Better throttle response, increased horsepower • Ultra easy installation
- 91 octane pump gas friendly • Inexpensive horsepower upgrade

The C1 Wheel Kit works excellent for recreational use applications retaining the OEM ignition, fuel system, injectors, and intercooler. R&D has data logged and documented the A.F.R. (air to fuel ratio) to be a conservative and safe 11.8-12.0 with the C1 wheel kit. R&D recommends that the R&D Power Core Intake Manifold and intercooler CFM kit or the R&D Stage 1 Intercooler Kit be used with the C1 wheel.

Description	Part No.
R&D FX-SHO/FZR/FZS C1 Monster Charger Wheel	612-25001

R&D FX-SHO/FZR/FZS C3 MONSTER CHARGER WHEEL

R&D's new C3-11 Blade Series Racing Monster Compressor Wheel Kit for Yamaha SHO/FZS/FZR engines is an exciting new racing product that will deliver "horsepower you can feel" with instant throttle response, aggressively improved low and mid range acceleration, and increased top end performance. The

R&D Monster Wheel replaces the stock wheels low performing 5 blade design with a modern low profile, high flow 11 blade high tech design with a larger exducer diameter to move more air flow at lower rpm's producing better holeshot horsepower. The R&D C3 Monster Wheel and R&D Exducer Seal Plate Kit will install directly into the O.E.M. stock compressor housing with no modifications. The C3 Racing Monster will require the R&D High Performance Intercooler Kit, and an R&D Impellor upgrade. The C3-11 performs well on 91 octane pump gasoline. Boost rated 10/13 P.S.I. (10 @ 7700 and 13@8300) The new R&D 11 blade series compressor wheels offer the highest levels of airflow and horsepower gains available for the 1.8 Yamaha engine using the stock E.C.U.

- Increased boost pressure (5 P.S.I. over stock @ 7700 rpm)
- Increased airflow (2.5-3 pound per minute gain)
- 35+ Horsepower increase and 2 MPH Gain (with stock ECU)
- 300+ Horsepower using aftermarket ECU (MOTEC)
- Precision balanced (turbo specs .012-.027 gram inches)
- Utilizes O.E.M. ignition system with R&D Impellor Upgrade
- Utilizes O.E.M. fuel injectors • 91 octane pump gas friendly

NOTE: The C3 Monster Wheel Kit will require impellor upgrades over the C1 impellor suggestions. Contact R&D for intercooler suggestions, and impellor pitch/nozzle combination that will be best for your performance level or application. R&D stocks the largest selection of custom impellors for the SHO/FZ/FZR.

Description	Part No.
R&D FX-SHO/FZR/FZS C3 Monster Charger Wheel	612-25003

R&D FZR/SHO C5 MONSTER CHARGER WHEEL KIT

R&D's new C5-11 Blade Series Racing Monster Compressor Wheel Kit for Yamaha SHO/FZ/FZR engines is a new "ALL OUT" racing product. The C5 will deliver the highest horsepower upgrade available for the HKS supercharger housing. The R&D C5-11 Monster

Wheels modern low profile, high flow 11 blade design incorporates larger inducer and exducer diameters create more air flow at all rpm's. Producing significantly increased horsepower over a drop in style impeller wheel. The R&D Monster Wheel Kit delivers 15 solid pounds of boost pressure at 8300 rpm's and 17 pounds of boost at 8500 rpm's. **The R&D C5-11 Monster Wheel Kit includes a shop service upgrade that is performed at R&D (IN HOUSE) to your HKS supercharger. R&D will disassemble your supercharger completely, bore out and re-contour the housing to accept the larger C5-11 compressor wheel. R&D installs the new billet Exducer Seal Plate Kit necessary for larger exducer diameter.** The C5-11 Racing Monster Wheel Upgrade Kit requires high grade racing gasoline, R&D High Performance Intercooler Kit, an after-market E.C.U. such as an R&D/VI-PEC, MOTEC, AUTRONIC, HALTECH, ETC. and some serious pump assembly and Impeller upgrades.

Contact R&D for intercooler suggestions, and impellor pitch/nozzle combination that will be best for your performance level or application. R&D stocks the largest selection of custom impellors for the SHO/FZ/FZR.

Description	Part No.
R&D FX-SHO/FZR/FZS C5 Monster Charger Wheel	612-25005

RIVA FX-SHO/FZR SUPERCHARGER IMPELLERS

Riva Racing released the ultimate (drop-in) performance supercharger impellers for the Yamaha 1.8 liter SHO Engine! Working closely with Vortech Engineers, Riva designed these impellers to deliver more horsepower and torque throughout the RPM range resulting in excellent acceleration and top speed. Investment cast from an extremely strong, lightweight proprietary aluminum and CNC machined to ensure exact tolerances. All new blade design is optimized aerodynamically and precision balanced to deliver smooth operation. Installs easily into stock supercharger housing with no modifications required. Includes detailed installation instructions. B1 produces 11.5psi @ 7,700rpm • E1 produces 16psi @ 8,000rpm

NOTE: Both impellers require use of aftermarket engine management system for proper calibration

Description	Part No.
Riva FX-SHO/FZR S/C Impeller - 11.5 psi	RY17040-SCI-B1
Riva FX-SHO/FZR S/C Impeller - 16 psi	RY17040-SCI-E1

YAMAHA FX-SHO & FZ • INTAKE • SUPERCHARGER

ENGINE-TECH FX-SHO/FZ XTREME SERIES SC IMPELLER

Engine-Tech Xtreme series supercharger impeller from Race Tech for Yamaha 1.8 liter supercharged engines. This billet aluminum impeller was computer designed for maximum efficiency and produced on a

5 axis CNC center. It then gets computer balanced and anodized for corrosion resistance. Every gram of excess weight was shaved from this impeller to make it the lightest impeller on the market without sacrificing strength. It is a full 17% lighter than the stock impeller for better clutch and shaft life. This impeller can produce up to an astonishing 16+ lbs of boost!

Must be used with adjustable fuel regulator, high flow intercooler and ECU (Motec or equiv, Motec map available upon request)

Description

Engine-Tech Xtreme Supercharger Impeller (16+ lbs) **ETYAMHO**

Part No.

ETYAMHO

ENGINE-TECH YAMAHA FZR SUPERCHARGER IMPELLER

This is a drop in impeller so no modifications to the housings are necessary. Weighing a mere 106 grams this is the lightest impeller on the market

reducing wear and tear on the clutch/shaft assembly. Output is 15+ psi @7700 rpm and an amazing 18+psi @8500 rpm.

Must be used with adjustable fuel regulator, high flow intercooler and ECU (Motec or equiv, Motec map available upon request)

ETYAMSHO

R&D FX-SHO/FZR/FZS SILICONE INTAKE HOSE KIT

The R&D Yamaha FX-SHO/FZR/FZS Supercharger

High Performance Hose Kit was developed while testing the R&D Monster Compressor Wheel Kits. Higher boost pressures create higher intake air temperatures of up to 235 degrees. The O.E.M. standard black rubber hose and standard hose clamps just do not hold up to the pressures and heat like high quality, high temperature silicone hose and high strength stainless steel T-bolt style hose clamps. The R&D "Blue Hose" is manufactured from high performance, turbo charger quality high-temperature silicone. The R&D silicone hose installs easily in place of the OEM rubber elbow hose, and T-bolt clamps will keep the hose secure for the longest of endurance races.

Description

R&D FX-SHO/FZR/FZS Silicone Intake Hose Kit **612-18007**

Part No.

612-18007

RIVA YAM FX-SHO/FZ HEAVY DUTY SHAFT UPGRADE KIT

Riva Heavy-duty Supercharger Shaft Upgrade Kit delivers increased strength & reliability to your Yamaha SC System. Upgraded shaft & bearings directly replace OEM parts for maximum durability in performance applications. Manufactured exclusively for RIVA by HKS, these components feature superior materials & finishing treatments for reduced friction and abrasion resistance. Key benefits include:

- Reduced friction between moving parts
 - Increased fatigue strength in parts
 - Higher resistance to surface abrasion
 - Improved seize resistance
- Kit includes supercharger shaft, 2 bearings, shaft nut and instructions.

Description

Riva Heavy-Duty SC Shaft Upgrade Kit **RY17040-UK-6S5**

Part No.

RY17040-UK-6S5

R&D YAMAHA SHO/FZR BILLET SUPERCHARGER SHAFT KIT

R&D's new High Performance Billet

Supercharger Shaft eliminates the weak design features of the OEM and after-market HKS supercharger shafts. After analyzing the OEM HKS shaft design and sorting through the various failures we had with it while testing our popular Monster S/C Wheels, we developed a superior shaft design. The new R&D shaft is not a copy of the fragile HKS design. Rather, it is a completely new design, superior in material strength and improved in every way. The new R&D Shaft is precision CNC machined, heat treated, and precision ground from billet steel alloy. Featuring a uni-structure design that incorporates the shaft and gear as one billet piece, much like a transmission shaft. This eliminates the fracture point on the OEM design where the gear shears off the end of the shaft. The billet design will not allow the gear to slip under high boost loads like the pressed on OEM gear.

Next R&D increased the inadequate 6mm thread diameter on the OEM shaft to utilize a well proven "Turbo spec" LARGER 5/16-24 left handed thread that will not break under extreme conditions. The larger thread diameter will also allow wheel torque specs to be increased safely.

Lastly, R&D reduced the weight of the R&D Supercharger shaft by eliminating the hex nut on rear the gear and lightened the end of the shaft/gear inside diameter to significantly reduce reciprocating weight. We all know what that will do to add to clutch performance. Kit comes complete with larger nut and installation instructions. All in all, the new R&D High Performance Billet Racing Shaft is not just a replacement shaft, but a solution to end all supercharger shaft problems.

Description

R&D FX-SHO/FZR Billet Supercharger Shaft Kit **612-25020**

Part No.

612-25020

R&D SHO/FZR HIGH PERFORMANCE SUPERCHARGER REPLACEMENT THRUST BEARING/SEAL KITS & DUPLEX BEARING KIT

R&D offers an answer to both repairing & upgrading the O.E.M. superchargers vulnerable thrust bearing and main shaft bearing assemblies. Engines with superchargers running higher boost pressures and higher rpm frequencies will eventually need bearing servicing. Servicing the supercharger main bearings periodically or upgrading to R&D's new "Duplex Bearing System" will extend the life of the superchargers thrust bearing significantly. R&D offers both standard replacement bearing kits, and the new "Duplex Bearing Kit" that will work in any Yamaha supercharger. R&D also offers complete rebuild kits for stock superchargers running C1 Monster Wheel Kits and all supercharger wheel kits using the stock exducer size. R&D also offers rebuild kits for all C3, C5, C7 Monster Wheel Kits with larger exducers.

R&D FX-SHO/FZR STAGE 1 INTERCOOLER CORE KIT

The R&D Yamaha FX SHO/FZR Stage 1 Intercooler Core Kit was developed to replace the over restrictive OEM intercooler with an inexpensive direct replacement core that will bolt in to the OEM stock location with all stock hardware. The R&D Intercooler Core reduces the deadhead air restriction (similar to the R&D Intake Core Kit) that is created when installing a C1 Monster compressor wheel with a 3-4 pound boost pressure gain. The R&D Intercooler offers

better cooling efficiency with an aluminum 8 core design.

- Flows 40 CFM more than stock
- 3 pounds lighter than stock
- Improves cooling efficiency
- Bolts directly into stock location
- Increases horsepower by reducing restrictions
- Works great with C1 compressor wheel
- Retains O.E.M. flushing system for maintenance

Description

Part No.

R&D FX-SHO/FZR/FZS Stage 1 Intercooler Core Kit **612-18001**

R&D FX-SHO/FZR INTERCOOLER KITS

The new R&D Intercooler System will efficiently decrease superheated air temperatures produced by high performance Superchargers. Designed for 300+ horsepower applications and recommended for the R&D

C3 Monster compressor wheel. Kit comes complete with Bosch surge protection blow-off valve.

R&D Stage 4 Kit designed for 300+ HP applications.

R&D Stage 5 Kit designed for 400+ HP applications.

**Both kits are custom made to order. **Also available with an Adjustable Surge Protection Blow-off Valve. Call for price upgrade.*

Description

Part No.

R&D FX-SHO/FZR R4 Intercooler Core Kit **612-18002**

R&D FX-SHO/FZR R5 Intercooler Core Kit **612-18003**

RIVA FX-SHO/FZR POWER COOLER KIT

The RIVA Power Cooler intercooler system features a huge cooler element that is rated for up to 450hp. Delivers an increase of 20 peak horsepower over original intercooler. Quality manufacturing of cooler core ensures the highest boost pressure capacities, minimal pressure drops and

excellent thermal efficiency. The cooling element is dramatically reduces exit temperatures averaging 60°F cooler than stock. Innovative design allows easy disassembly of cooler element & ducting for maintenance and cleaning.

Features integrated blow-off valve mount that will accept RIVA/HKS Blow-Off Valve kit (sold separately) for improved supercharger reliability and performance. Power cooler installs securely with shock absorbing rubber mounting system and stainless steel hardware.

Note: Power Cooler requires use of one of the following components:

RIVA FX-SHO/FZ Power Cooler Blow-off Valve Kit (part# RY17040-BOV-SSQV) or RIVA Blow-off Valve Block-off Kit (part# RY17040-BVBO-SSQV)

Description

Part No.

RIVA FX-SHO/FZR Power Cooler Kit **RY17040-PC**

R&D YAMAHA SHO/FZR PRO LIMITED INTERCOOLER KIT

The R&D Yamaha SHO/FZ/FZR Pro Limited Intercooler Kit was developed to directly replace the restrictive O.E.M. intercooler. The new R&D design offers high performance affordable intercooling that will bolt into the OEM stock location utilizing the OEM inlet cover, and all stock hoses and hardware.

The new R&D design is IJSBA & APBA Limited Class legal, complying with rule book regulating aftermarket intercooler size. The R&D Intercooler has been specifically designed, sized, and routed to also comply with the I.J.S.B.A.'s 25% rule. The Intercooler Kit is constructed from aircraft aluminum and is extremely easy to install, removes quick for cleaning and winter storage, is ultra strong, and rubber mounted so vibration will not compromise the long term performance. The R&D intercooler offers better cooling efficiency through a aluminum core design that easily out performs cheaper inefficient intercooler cores known to crack, leak and cause extreme detonation. The R&D intercooler core will flow more air, deliver better cooling efficiency, and allow C1 and C3 Monster Wheel to live up to their airflow volume and power potential. The new R&D design drastically reduces deadhead air restriction producing ultra responsive "POWER NOW" acceleration all the way through the RPM range.

The R&D Pro Limited Intercooler Kit has also incorporated an integral flange which will allow the easy bolt on addition of a Greddy RZ Blow-off valve which can be adjusted to regulate boost, and compressor surge blow-off under deceleration.

- * Significantly improves cooling efficiency
- * Flows 40 CFM more than stock
- * Bolts directly into stock location w/oem hardware
- * Increases overall horsepower
- * Aggressive holeshot and mid range acceleration
- * Works great with C1 or C3 Monster compressor wheels
- * Retains O.E.M. flushing system for maintenance
- * I.J.S.B.A. and A.P.B.A. Limited Class Legal (Rule 7.8.3.)

*7.8.3 AIR/FUEL DELIVERY — FOUR-STROKE (RUNABOUTS ONLY)
Turbocharger impeller or supercharger impeller may be modified or aftermarket. The impeller housing must remain stock as supplied by the manufacturer. Intercoolers may be modified or aftermarket. Intercooler heat exchange surface area may not be increased by more than 25%.

R&D Yamaha SHO/FZ/FZR Pro Limited Intercooler Kit **612-18004**

R&D SUPERCHARGER BLOCK-OFF PLATE

The R&D Supercharger Block-off Plate is designed to seal the case on the front of the engine that is exposed when the supercharger is removed for a Turbo.

Description

Part No.

R&D Supercharger Block-off Plate **612-19100**

YAMAHA FX-SHO & FZ • INTAKE • SUPERCHARGER

R&D FX-SHO/FZR SURGE PROTECTOR KIT

The R&D Yamaha FX-SHO/FZR Surge Protector Kit will significantly improve supercharger clutch and compressor wheel performance and reliability by eliminating damaging compressor surge. The R&D Surge Protection Kit

utilizes an automotive vacuum assisted Bosch pressure blow off valve that releases the unwanted intake pressure between the throttle valve and the supercharger thus keeping the pressures in P1 and P2 equal. As soon as the throttle valve is opened, the blow off valve immediately closes and the compressor can supply its full boost potentials to the engine. The R&D surge hose is manufactured from high performance, high-temperature silicone with an integrated molded riser for the blow off valve to function without hindering intake flow or velocity. The R&D kit installs easily in place of the OEM rubber elbow joint with no modifications. The R&D Pressure Port installs between the MAP sensor and the MAP sensor bracket with a "bolt on" part. The R&D Surge Protection Kit is a necessary and cost effective upgrade for the Yamaha SHO/FZR supercharged engine. The R&D kit comes completely assembled with silicone elbow, blow off valve, R&D B.O.V. filter, mounting hardware and instructions.

Description

R&D Surge Protector Kit

Part No.

612-18008

R&D FX-SHO/FZR BILLET SURGE PROTECTOR VALVE & FILTER KIT

The R&D Billet Surge Protector Valve and Filter Kit is now available. The billet aluminum CNC machined valve is an optional

bolt-on replacement for the plastic Bosch valve used in the R&D and other aftermarket surge protection systems. The o-ring sealed billet design offers improved consistency and performance in higher boost pressure applications.

Description

R&D Billet Surge Protector Valve & Filter Kit

Part No.

613-95260

R&D GREDDY BLOW OFF VALVE & 1" HOSE ADAPTOR

R&D GRReddy Blow Off Valve GRReddy Blow Off Valves are easily adjustable to eliminate

compressor surge and preventing premature boost leakage, while increasing boost response. Each valve is made of durable cast and billet aluminum frame and the valve to diaphragm ratio provides performance that cheap piston types cannot offer. The spring stiffness adjustment screw and the three different sizes give the GRReddy user the option to match vehicles with mild upgrades to heavily tuned engines. There are many factors in matching a blow-off valve to an application, valve location, turbocharger/supercharger size and pressure, but as a general rule of thumb, we recommend the Type RZ for 100-400hp. 1" Hose adaptor sold separately.

Description

R&D Greddy Blow Off Valve & 1" Hose Adaptor

Part No.

613-95261

RIVA FX-SHO/FZ PERFORMANCE BLOW-OFF VALVE KIT

Our Performance Blow-off Valve Kit improves supercharger reliability and performance by relieving unwanted pressure during off-throttle operation. Reduces supercharger clutch & gear wear and eliminates heat soak in discharge tube. High-strength silicone hose with integrated

HKS valve installs easily in place of OEM elbow joint. Includes high quality HKS Super SQV (Super Sequential Blow Off Valve) that features unique sequential valve structure and a differential pressure control system, allowing for a broad operation boost range. Also includes vacuum line and fittings necessary for installation on SHO engine. A simple and cost effective upgrade for both stock and modified engines.

Description

RIVA FX-SHO/FZ Performance Blow-off Valve Kit

Part No.

RY17040-BV

RIVA FX-SHO/FZR BLOW-OFF VALVE KIT

High quality HKS Blow-off Valve reduces wear and tear on clutch & drive gears of supercharger and eliminates heat soak in discharge tube. For use with RIVA FX-SHO/FZ

Power Cooler (part# RY17040-PC). HKS Super SQV (Super Sequential Blow Off Valve) features unique sequential valve structure and a differential pressure control system, allowing for a broad operation boost range. Includes vacuum line and specific fittings necessary for installation.

R&D YAMAHA FX-SHO/FZR ENGINE INTERCOOLER COOLING KIT

The R&D Yamaha SHO/FZR Engine/Intercooler Cooling Kit was developed

R&D FX-SHO/FZR/FZS INTERCOOLER COOLING KIT

The R&D Yamaha FX-SHO/FZR/FZS Intercooler Temperature Control system was developed to offer an inexpensive complete bolt on kit that will allow the full

performance and cooling potential the O.E.M. intercooler has to offer for recreational applications. Intercooler core water temperatures have a range of affect on the supercharged air temperatures that enter into the engine. The Yamaha SHO Intercooler operates on a single low pressure (10 P.S.I.) line of lake temperature water to cool the intercooler. R&D has found that by adding an additional intercooler water in line, and adding an additional water out line and bypass fitting, there will be double the water flow volume at 20 P.S.I. Reduced intercooler core temperatures can add a noticeable increase in low end and midrange power along with reduced detonation. R&D offers a range of machined flow control fittings to allow water volume control tuning for intercooler temperature adjustments for warm lake water and extreme hot air conditions. R&D also offers a pressure relief blowoff valve kit for high water volume flow rates on higher boost Stage 1 and up engine kits. The R&D Kit will allow temperature tuning that will deliver surprising results. Unlock hidden performance and power potential in the OEM stock intercooler or aftermarket intercooler system by reducing intercooler core temperatures.

- More horsepower with cooler intake air temperatures
- Increased acceleration and mid range performance
- Reduces detonation in hot weather conditions
- Temperature control tuneability
- An inexpensive recreational performance addition
- Pressure relief valve options
- Easy installation instruction

Description	Part No.
R&D FX-SHO/FZR/FZS Intercooler Cooling Kit	660-18000

oped for high performance recreational and racing use. Extensive engine cooling and inlet air temperature testing using both MoTeC I2 and Innovate digital logging systems has proven the R&D High Performance Cooling Kit to offer double the water volume flow through the engine, oil cooler, and intercooler as well as increase water pressure. The O.E.M. cooling system has a very low water pressure (10 P.S.I. at 7600 rpm's) and a low water volume flow. The new R&D kit will double the water volume which will lower intake air temperature by 15-20 degrees as well as lower engine block and head temperatures by 40-50 degrees. The additional oil cooler water line will lower engine oil temperatures by 15-20 degrees promoting better lubrication and increased engine cooling. The R&D Cooling Kit arrives 100 percent complete with pre-cut hoses, "T" connectors, dual line pump block, through hull bulk-head fittings, hose clamps, water by-pass fittings, the thermostat removal sealing washer, and detailed instructions with pictures. R&D recommends the cooling system to be upgraded as a stand alone performance upgrade and a must have kit addition when installing power adders such as R&D Supercharger Wheels, Engine Performance Parts, and Engine Management Kit parts. Cooler engine, inlet air, and oil temperatures produce higher horsepower with decrease detonation

- *Better throttle response, increased horsepower
- *Cooler header and under seat temperatures
- *Increased power with cooler air inlet temperatures
- *Cooler cylinder and cylinder head will reduce knock
- *Cooler oil will lubricate better and last longer
- *Increased engine protection
- *Improved clutch performance with cooler oil

R&D SHO/FZR Engine/Intercooler Cooling Kit	660-18001

R&D FX-SHO/FZR/FZS INTERCOOLER TEMPERATURE CONTROL PRESSURE RELIEF VALVE KIT

R&D also offers a pressure relief blowoff valve kit for high water

volume flow rates on higher boost Stage 1 and up engine kits. The R&D kit will allow temperature tuning that will deliver surprising results. Unlock hidden performance and power potential in the OEM stock intercooler or aftermarket intercooler system by reducing intercooler core temperatures.

Description	Part No.
R&D FX-SHO/FZR/FZS Intercooler Temperature Control Pressure Relief Valve Kit	660-82511

RIVA STOCK INTERCOOLER UPGRADE KIT

The RIVA Intercooler Upgrade Kit delivers a huge performance gain to your stock intercooler system. The cost efficient upgrade kit fea-

tures billet aluminum spacers that increase the end tank capacity and water flow in and out of the OEM intercooler.

Key Benefits Include:

- Intercooler exit temps average 30-degrees cooler than stock.
- Increased horsepower with cooler, denser air temps.
- No drilling or machining required to OEM intercooler.
- Includes billet "high-flow" pump strainer providing a second dedicated water-line to intercooler.
- Replaceable sacrificial zinc anode protects cooling system from corrosion.

RIVA FZR/FZS REAR EXHAUST KIT

RIVA Racing Rear Exhaust Kit for the FZR & FZS delivers performance and cutting-edge style. Allows for removal of restrictive sound suppression system located between waterbox and hull exit. Improves engine performance by reducing back pressure and restriction. Includes mandrel bent aluminum exhaust tube that is powder coated to prevent corrosion, large billet through-hull exhaust outlet, billet OEM exhaust outlet block-off and high-temp silicone couplers along with all necessary mounting hardware & installation.

Description	Part No.
RIVA Racing FZR/FZS Rear Exhaust Kit	RY15050

RIVA FX SHO/FZR FREE FLOW EXHAUST KIT

Replaces the restrictive sound suppression system located between the water box and hull exit on your watercraft. Improves engine performance by reducing back pressure and harmful detonation. Includes mandrel bent aluminum tubing that is powder coated to prevent corrosion, high-temp silicone replacement coupler and installation instructions.

Description	Part No.
Riva FX-SHO/FZR/FZS Free Flow Exhaust Kit	RY16040

R&D FX-SHO/FZR/FZS HIGH FLOW EXHAUST KIT

The R&D SHO High Flow Exhaust Kit will add a noticeable low end and mid range power feel as well as add top end performance! The R&D High Flow Exhaust Kit will add

a great performance sound to the SHO while maintaining a safe and under IJSBA and Coast Guard approved 86 db!

R&D FX-SHO/FZR/FZS FUEL PRESSURE REGULATOR KIT

R&D offers a Yamaha FX-SHO/FZR/FZS model specific fuel pressure regulator system allowing custom fuel pressure tuning to the EFI fuel systems fuel pressures. The R&D Fuel Pressure Regulator System offers a wide range of setup possibilities. Base fuel pressure is adjustable from 5 to 60 PSI. The R&D fuel pressure regulator can also be set up to allow "rising rate" fuel pressure at a 1 to 1 ratio (One pound of fuel pressure gain over base for every pound of boost gain). R&D offers two types of fuel pressure regulator set ups. Part #802-00080 will come completely assembled and ready to install. The R&D Pro System is 100 percent complete, installs directly to the top of the fuel tank, and connects directly to the fuel rail with OEM security lock connectors with no modifications. For the R&D Fuel Pressure Regulator only use part #801-25010, which comes complete with 90 degree barbed brass fittings for use with push on type hose and Oetiker style clamps for security. R&D offers high performance fuel hose that can be purchased by the foot, as well as the Oetiker style clamps. The R&D bypass style regulator system is capable of handling any fuel pump up to 250 GPH. Replace "Deadhead" regulator performance and experience the full flow volume and rock steady fuel pressure that only a dynamic R&D fuel pressure regulator kit can produce.

- Fuel pressure will rise on a 1:1 ratio when boost referenced
- All ports are 3/8" NPT, with one inlet, 3 outlets, and one return port on the bottom
- Beautiful type II bright dip anodized finish
- Bypass design produces the ultimate, dynamic fuel delivery system
- 3/8 pipe tapped for standard or AN fitting ready
- R&D offers pre-assembled #4 AN hose to finish off a return system
- R&D offers fuel hose by the foot for custom routing

Description	Part No.
R&D FX-SHO/FZR/FZS Fuel Pressure Regulator Kit	802-00080

RIVA FX-SHO/FZ RISING RATE FUEL PRESSURE REGULATOR KIT

Riva Fuel Pressure Regulator Kit provides the precision pressure control necessary to compliment aftermarket ECU applications on the 'SHO' engine. Kit is fully assembled & mounts securely on top of fuel tank via sturdy aluminum bracket. High quality billet pressure regulator can adjust base pressure from 25 to 80 PSI. Unit can also

be set up as rising rate fuel pressure regulator at a 1 to 1 ratio providing one additional pound of fuel pressure for every pound of boost gain. Plugs directly into original fuel system with OEM connectors and features a large 3/8" fuel return line that is routed through supplied rubber fuel tank cap. Includes integrated liquid-filled pressure gauge and billet Fuel Pressure Regulator Block-Off necessary for removal of stock fuel pressure regulator in fuel tank.

Key Features Include:

- * Precision fuel pressure control with optional rising rate function.
 - * High quality stainless steel liquid-filled pressure gage.
 - * Large 3/8 fuel return line.
 - * Includes billet Fuel Pressure Regulator Block-Off.
 - * Easy bolt-on installation with OEM fuel connectors.
 - * Includes complete installation instructions & tuning guide.
- Fits Yamaha FX-SHO, FZR & FZS models.

Description	Part No.
Riva Fuel Pressure Regulator Kit	RY12040-RRFPR-6S5

R&D INLINE FUEL PRESSURE GAUGE ADAPTOR

The R&D Fuel Pressure Gauge Adaptor Tool is designed to be a plug in fuel pressure gauge that needs no modifications to install and

use. Simply disconnect the OEM locking fuel connector from the fuel rail and plug the gauge tool directly into the connector. Plug the locking connector supplied on the R&D tool onto the fuel rail and lock. Use the tool to verify fuel pressure and fuel pump condition. Use the tool to set and verify base fuel pressure settings on the R&D Rising Rate Fuel Pressure Regulator (RRFPR). When finished, disconnect the tool and reconnect the stock fuel line. The adaptor installs inline between the OEM fuel rail and the R&D RRFPR via the OEM connectors for easy connect and disconnect. The R&D Tool works on both Yamaha and Kawasaki fuel systems. Installation time is only 2 minutes. Liquid filled fuel pressure gauge sold separately.

Description	Part No.
R&D Inline Fuel Pressure Gauge Adaptor	612-00081
Liquid Filled Fuel Pressure Gauge	900-02180

R&D FX SHO/FZR IN-TANK FUEL PRESSURE REGULATOR BLOCK OFF KIT

R&D offers a Fuel Pressure Regulator Block off Kit which will allow the OEM stock in tank fuel pressure regulator to be removed, blocked off, and replaced with a billet part which is mandatory when installing an aftermarket externally adjustable fuel pressure regulator system. The OEM in tank fuel pressure regulator is fixed to maintain 40-43 pounds of fuel pressure at all times. For high performance applications where horsepower is boosted, it is necessary to install larger flowing fuel injectors and be able to tune the fuel pressure up or down as needed. Most factory race teams are running 65 plus pounds of fuel pressure along with higher flowing fuel injectors and externally adjustable pressure regulators. The R&D has a complete line up of fuel pumps, fuel injectors, fuel pressure regulators, fuel gauge, and fuel hose accessories all designed specifically for the Yamaha SHO. All R&D fuel injection parts and products meet Coast Guard, I.J.S.B.A., and APBA approval.

YAMAHA FX-SHO & FZ • FUEL SYSTEM

R&D FX-SHO/FZR/FZS HIGH PERFORMANCE FUEL INJECTOR KIT

When boosting the horsepower on the FX-SHO/FZR/FZS four stroke fuel injected engine, whether using high compression pistons, cams, or higher ratio supercharger compressor wheels, it will be necessary to increase the fuel flow delivery. The OEM Yamaha SHO injectors have been precision flow rate tested to be 80 percent peaked on stock units at sea level without modifications. R&D offers high performance fuel injectors with a higher atomization spray pattern that are easily capable of delivering fuel flow specifications to accommodate up to 400 horsepower! R&D has flow rate tested the O.E.M. Yamaha SHO injectors and verified them to flow 396 cc at 43 PSI of fuel pressure, which rates them to flow 30 pounds of fuel per hour. The R&D High Performance Fuel Injectors have precision flow rate tested to 525 cc at 43 PSI of fuel pressure, and 625 cc at 70 PSI of fuel pressure, which rates them to flow as much as 62 pounds of fuel per hour. R&D High Performance Injectors have been flow rate tested to perform excellent, delivering precise fuel at fuel pressure ratings ranging from 40 to 80 PSI. Each R&D High Performance Fuel Injector Kit will come packaged with vital flow test rating information that will be broken down specifically in five pound increments in fuel pressure to give the fuel flow delivery information that will help in tuning fuel pressure to match the engines fuel flow needs based on horsepower gains over stock. R&D offers only the highest quality fuel injectors, fuel pressure regulators, and fuel management accessories, for all your engine management needs.

RIVA FX SHO/FZR PRO-SERIES FUEL INJECTOR KIT

Riva's high performance fuel injector kit supplies modified Yamaha 1.8 liter Supercharged engines with additional fuel for RIVA Stage II & III applications. These 95lb injectors are designed for use with RIVA Pro-Series ECU (RY11840-01-C, page 7) for correct calibration. Injector sets are flow-matched for optimum idle quality and peak performance.

Description	Part No.
Riva FX-SHO/FZR/FZS Pro-Series Fuel Injector Kit	RY12040-I-KIT

R&D #4 & #6 FUEL RETURN LINE KIT

R&D has developed a two larger fuel return line kits for the FX-SHO/FZR/FZS. Increasing the diameter of the fuel return line to #4 or #6, decreases line pressure and increases fuel volume, yielding increased tuning ability in high heat and higher performance applications.

Description	Part No.
R&D #4 Fuel Return Line	612-00082
R&D #6 Fuel Return Line	612-00083

R&D FX-SHO/FZR/FZS MULTI-PRESSURE PORT BOOST GAUGE/SURGE/RRFPS ADAPTOR KIT

The R&D Yamaha FX-SHO/FZR/FZS Multi-Pressure Port Adaptor Kit will allow quick and easy hook up of digital or manual boost gauges with the R&D Multi-port billet adaptor. The R&D Pressure Port Adaptor installs between the MAP sensor and the MAP sensor bracket as a "bolt on" part with no modifications. Operate a vacuum/boost gauge, check plenum air temperatures, and operate a surge protection valve at the same time, or run a boost gauge, surge protection device, and operate a boost referenced fuel pressure regulator (RRFPR) at the same time with one simple part. The R&D Pressure Port Adaptor Kit comes complete with longer MAP sensor mounting screws, o-ring seals, nylon cable ties, all mounting hardware and instruction.

Description	Part No.
R&D FX-SHO/FZR/FZS Multi-Pressure Port Boost Gauge/Surge/RRFPS Adaptor Kit	612-92005

R&D FX-SHO/FZR/FZS HIGH PERFORMANCE HIGH VOLUME FUEL PUMP KITS

R&D Performance carries a complete line up of high performance replacement fuel pumps that are machined specifically to fit the Yamaha FX-SHO/FZR/FZS fuel pump housing and are offered in a variety of flow ratings to facilitate from basic low cost replacement to an all out 500 H.P. race machine. All R&D FX-SHO/FZR/FZS fuel pumps have been precision flow rate tested and charted in (LPH) liters per hour. R&D FX-SHO/FZR/FZS fuel pumps arrive complete with Yamaha FX-SHO/FZR/FZS model specific installation instructions complete with detailed photos that will help make the fuel pump installation quick and easy.

NOTE: There are no modifications necessary to install the R&D fuel pump therefore switching back to the O.E.M. fuel pump assembly is quick and easy as well.

RIVA/VIPEC PRO-SERIES ECU

The Pro-Series ECU provides a huge performance advantage to the Yamaha 1.8L Supercharged Engine delivering over 50hp to the stock engine. ECU is fully programmable with either RIVA supplied mapping or user defined parameters. Most calibrations require use of RIVA Fuel

Pressure Regulator Kit and 91+ octane pump fuel. Plugs directly into factory wiring harness via waterproof connectors. Key benefits include:

- 1) Easy loading of supplied calibrations/maps for various performance applications.
- * Performance Fuel Mapping: Delivers optimal fuel required for your specific level of modification based on boost pressure.
- * Performance Timing Curves: Special racing curves produce more power throughout the RPM range.
- * Rev Limiter Increase: Stock rev limit can be increased so engine RPM can be run higher producing more boost pressure and horsepower.
- 2) Retains OEM Dash Display, Engine Diagnostic & Engine Safety Functions:
- * All original dash functions are retained.
- * Provides diagnostic information that can be displayed via computer interface.
- 3) Includes input for optional lambda sensor kit (part# RY11540-LC1-6S5) for data logging air/fuel ratios & tuning functions.
- 4) Individual Cylinder Knock Control function. Identifies which cylinder is detonating by tracking firing order utilizing OEM knock sensor.
- 5) Traction Control function. Can be calibrated to match specific applications.
- 6) Antilag function (for turbo applications).

NOTE: RIVA Pro-Series ECU is for competition use only.

Description	Part No.
Riva/Vipec FX-SHO/FZR Pro-Series ECU	RY11840-01-C

FZR HIGH PERFORMANCE ECU REPROGRAMMING SERVICES

R&D is now offering Yamaha FZR and SHO ECU reprogramming services. The R&D team have been testing and developing ECU programs to allow a range of performance levels to be reached for the recreational enthusiasts who are not interested in a full standalone aftermarket ECU. Entry-level programs will provide the enjoyment of a raised RPM limit setting as well as the internal boost limiter being either removed or raised. Ignition timing will be altered to safe performance levels that will allow the use of 91 octane pump gasoline. There will be several initial performance levels to choose from that will work with stock or R&D C1 & C3 Monster Wheels. Programs offered will be recreational performance tuned to safe AFR values, and can be further custom tuned with the R&D Powershot (Richened) to accommodate additional boost levels. With the purchase of the R&D ECU Reprogramming Service, customers who have previously purchased an R&D Powershot Fuel Control Unit can send it in along with their ECU to R&D for free re-programming, to allow custom fuel tuning to work with the new ECU Programs. For best results, we recommend upgrading and using the Powershot for custom fuel fine-tuning. Fuel tuning or AFR conditions should always be checked and verified, as values can be slightly different from one craft to another. R&D strongly suggests that AFR tuning be periodically verified using an Innovate LM1 or LC1 logging kit also available from R&D.

Pt. # 802-01801 R&D ECU R1; Reprogrammed ECU to allow 8200 RPM's, Raised Boost limiter to 12 pounds, Standard Ignition Timing. For use with stock or C1 Monster Wheel Kit and 91 octane pump fuel.

Pt. # 802-01802 R&D ECU R2; Reprogrammed ECU to allow 8400 RPM's, Raised Boost limiter to 15 pounds, Slightly advanced Ignition Timing. For use with stock or C1 Monster Wheel Kit and 91 octane pump fuel.

Pt. # 802-01803 R&D ECU R3; Reprogrammed ECU to allow 8500 RPM's, Raised Boost limiter to 15 pounds, Advanced Ignition Timing. For use with C3 Monster Wheel Kit and **Race Fuel (for closed course)**. Available summer 2010.

R&D YAMAHA 2008/2009 SHO/FZ/FZR POWERSHOT FUEL INJECTION/ENGINE TUNER ENGINES

The new R&D Powershot Fuel Injection/Engine Tuning module for the YAMAHA SHO/FZR will deliver increased acceleration, stronger mid-range, and increased top speed performance by delivering a higher performing air to fuel ratio (A.F.R.) and allowing higher mass air/boost pressure levels to be utilized. R&D Performance has data logged and analyzed the O.E.M. fuel map and Fly By Wire functions on the new YAMAHA SHO/ FZR four stroke engine and has determined that one of the main horsepower and performance holdbacks in Yamaha's Fly by Wire E.C.U. system is the mass air or boost limitation that is controlled by the Fly by Wire Throttle System. The Yamaha E.C.U. manipulates and controls the mass air or boost pressure levels by closing the throttle plate which limits peak horsepower performance. The R&D Powershot interfaces with the E.C.U., fuel injectors, and sensors to unlock, take over, and control mass air or boost limitations. The R&D Powershot will allow the R&D C1 and C3 Monster Supercharger Wheels to perform to their full potential by defending against unwanted codes and internal E.C.U. limitations. The R&D Powershot comes pre-programmed and coded to safely alter the fuel map, intercept and recondition sensor voltage signals allowing up to 10 P.S.I. of boost pressure without throttle limitation or regulation. The R&D Powershot allows custom fuel tuning to cruise, acceleration, and top end zones. Top end fuel mixtures can be custom tuned from 13.5:1 (lean) to 11.5:1 (rich) on the fly. Quicker acceleration, stronger mid-range, and increased top speed performance is the result when the A.F.R. is tuned for optimum performance. The R&D Powershot is fully adjustable to accommodate and properly performance tune the A.F.R. for any combination of aftermarket parts. **No more Boost Limiter!**

Description	Part No.
08/09 SHO/FZ/FZR Powershot Fuel Injection/Engine Tuner	802-18000

RIVA LC1 WIDEBAND LAMBDA CONTROLLER

The LC-1 is a complete wideband Lambda controller built into a sealed cable and wired specifically to connect to the RIVA/VIPEC FX-SHO/FZ Pro-Series ECU via a waterproof factory connector. O2 sensor installs into stock exhaust pipe using our precision machined Exhaust A/F Sensor Mount. The LC-1 is more accurate than conventional designs costing many times as much, and its self-calibrating circuitry can compensate for changes in temperature, altitude and sensor condition.

Key Benefits Include:

- * Fully digital wideband controller.
- * Auto calibration capability to compensate for changes in temperature, altitude, and sensor condition.
- * Plugs directly into RIVA/VIPEC ECU harness.
- * Includes Bosch LSU 4.2 O2 sensor.

Description	Part No.

Exhaust Air/Fuel Ratio Sensor Mount	RY15-AFSB

RIVA PRO-SERIES 4-STROKE RACING PISTONS

Riva's forged racing pistons deliver maximum reliability and performance in high boost & turbo applications. High strength piston kits include premium ring package, tool steel wrist pin & carbon steel wire locks.

Key Features Include:

- CNC machined from high strength/lightweight forgings.
- Optimized dome design for efficient combustion.
- Improved lubrication hole placement for reduced friction.
- Premium low friction ring package.
- High-strength tool steel wrist pins machined from special tool steel bar stock & heat treated.
- Carbon steel wire locks.
- Direct replacement diameter plus 2 oversizes available.

8.6 to 1 Compression

FX SHO/FZR/FZS (8.6:1/STD)

Part No.

RY1000-6S5-86

**Sold individually - this is not a set.*

R&D FZR HIGH PERFORMANCE FORGED PISTON KITS

R&D Yamaha SHO/FZR Forged Racing Piston Kits have been developed for the hard core race enthusiasts or precision engine builders who are looking to gain maximum horsepower and reliability

from their racing engines. R&D offers high quality forged aluminum, heat treated, and CNC machined racing pistons in stock 8.6-1 or 9.5-1 compression ratios to replace O.E.M. cast aluminum pistons known to break, crack, or shatter in high performance, high heat conditions. High horsepower marine engines with high boost pressures are more prone to have detonation over conventional racing engines due to sustained loads. Forged pistons in marine applications are a must. What ever performance platform you are planning to build, trust the pros at R&D with all your compression ratio, boost, and engine management needs or questions.

R&D recommends upgrading to our High Performance Pistons and Rods in applications producing over 300 H.P. @ sustained RPM's 8,000+.

- Direct replacement piston kits for High H.P. applications
- High quality forged materials replace low performance cast
- Improved ring seal with Nascar Style ring sets
- Increased RPM's and horsepower by reducing weight
- Works great with high boost compressor wheels and turbo kits
- Retains O.E.M. wrist pins

FZR HIGH PERFORMANCE RACING CYLINDER SLEEVES

R&D High Performance Racing Sleeves are made to precise specifications specific for the Yamaha FZR/SHO Supercharged engine. R&D Racing Sleeves install easily and

properly using the flanged "top hang" register design. The "top hang" design when installed and seated properly will not drop or slip which will allow 100 percent head gasket contact for a positive head gasket seal. R&D Racing Sleeves are manufactured from the highest grades of centrifugally cast "Molly 2000" Chrome Molly Iron Alloy to provide superior strength and hardness. Trouble free installation, boring, and honing using kit supplied installation instructions and tips on final hone specifications for O.E.M. cast and R&D Forged Racing Piston Kits are included. When the time comes to repair way, scored, seized, or worn cylinders trust the pros at R&D. We have been re-sleeving race engines for over 40 years. *Sleeves are sold individually.*

432-18000

R&D/CARRILLO HIGH PERFORMANCE RODS

Carrillo is recognized as one of the finest manufactures of connecting rods for high performance engines. Carrillo connecting rods are a precision, high

strength, quality product that reflects the optimum balance between light-weight and durability. The Light weight forged design is substantially stronger and lighter than the OEM rod and will deliver the strength needed to perform reliably under high horsepower supercharged and turbo applications. R&D recommends upgrading to performance rods when using the R&D Monster C3-11 & C5-11 Supercharger Wheel or R&D Turbo Kit. Rod kit comes complete with Silicone Bronze wrist pin bushing and high strength fasteners.

R&D recommends upgrading to our High Performance Pistons and Rods in applications producing over 300 H.P. @ sustained RPM's 8,000+.

Description

R&D/Carrillo High Performance Rods (4 Rod Set)

672-18000

RIVA PRO-SERIES 4-STROKE CYLINDER HEAD STUD KITS

Riva's ultra high strength cylinder head stud kit is essential equipment

when upgrading internal components on your high boost Yamaha engine. Precision machined from premium grade 8740 alloy and heat treated to exacting tolerances, these studs dramatically increase reliability & ease of maintenance. Key Benefits Include:

- Superior material & heat treat process provide 10X better fatigue strength than OEM bolts.
- Studs provide improved alignment of cylinder head and gasket for increased reliability and ease of maintenance.
- More accurate & consistent torque loading provides a more uniform clamping force on head gasket.
- Helps prevent blown head gaskets and assures optimum engine sealing.

RIVA VALVE TRAIN UPGRADE KIT

Riva's Valve Train Upgrade Kits increase the reliability of your modified engine by reducing the possibility of valve float at high rpm. Includes lightweight, precision-machined titanium valve retainers, racing valve springs, and base washers.

Description RIVA FX-SHO/FZR/FZS Valve Train Upgrade Kit **Part No.** RY19040-VTU

R&D HIGH PERFORMANCE DUAL VALVE SPRING KIT

R&D has developed an economical solution for upgrading the valve train by offering a series of upgrade parts that will work great with the O.E.M. retainer and valve seals. R&D has documented

that the seat tension or pressure on the stock springs is a low 52-55 pounds, and coil bind on the stock springs occurs .050" after full lift on the stock cams. As an industry rule or standard, as boost levels are increased to the engine, the valve spring seat pressure should be increased 1-2 pounds per pound of boost. As an industry rule, as RPM's are increased, the spring pressure at full lift should be increased as well to reduce or eliminate valve float at high rpm frequencies. With the stock springs "short lift travel" shimming is NOT an option. Valve Springs MUST be upgraded. Also to consider is valve spring travel at full cam lift, and to have enough spring clearance freedom to run high performance camshafts or add additional spring tension pressures without coil bind issues. The R&D spring kit parts were developed and used with stock retainers during the 2009 season and have proven their performance with an APBA/JJSBA Pro Open National Championship. R&D dual springs are a "lightweight design" and manufactured from ultra clean, high tensile material with multi step surface treatments to improve fatigue strength and reliability. NOTE: R&D Spring Kits must use the R&D Bottom Spring Retainer Cups kit Pt. # 612-93006 for proper assembly and seat pressures! Engine Tuning Features

- 70-75 pounds at seat, 140-150 pounds at full lift (standard spec.)
- Shim friendly, add R&D spring collar base shims to add 2 pounds per .010 shim
- Allows the use of higher lift cams (up to +.080)
- Linear spring pressure curve allows smooth precision valve control
- High performance materials and surface finishes add to reliability

Description R&D High Perf Dual Valve Spring Kit (16 per kit) **Part No.** 612-93001

R&D HIGH PERFORMANCE VALVE SHIM KIT

The R&D spring base collar "shims" offer precision valve spring tension shimming to fine tune spring seat pressures based on boost pressures the engine will run at. The R&D shim kits are offered in the thicknesses of .010", .020", and .030".

Description R&D .010" Thick Shim Kit (set of 16) **Part No.** 612-93003
R&D .020" Thick Shim Kit (set of 16) **Part No.** 612-93004
R&D .030" Thick Shim Kit (set of 16) **Part No.** 612-93005

R&D HIGH PERFORMANCE BOTTOM SPRING RETAINER CUPS

R&D spring retainer cups will install under the R&D valve spring and support and house the bottom of the spring securely. The R&D Spring Retainer Cups must be used with the R&D spring kits for proper assembly. Use R&D Valve Spring Shim Kits to fine tune valve spring seat pressure.

Description R&D High Perf Bottom Spring Retainer Cups (set of 16) **Part No.** 612-93006

R&D HIGH PERFORMANCE VALVE STEM SEAL KIT

R&D offers High Performance Valve Stem Seal Kits manufactured from only the best high quality Viton rubber materials that will resist high valve guide and oil temperatures to maintain a good valve seal in all high rpm, high performance applications. When valve springs are changed out or periodic head service work is being performed, trust R&D Valve Stem Seal Kits at any performance level.

Description R&D High Performance Valve Stem Seal Kit **Part No.** 612-93007

R&D VALVE STEM CONCENTRICITY GAUGE

The R&D Valve Stem Concentricity Gauge is a testing tool to check the roundness and trueness of valves. Small valves can distort or bend from heat produced in high performance supercharged or turbo charged engines. To achieve a perfect seal on the seat the valve needs to be concentric and true in every dimension. Gauge is fully adjustable to accommodate a variety of valve sizes and features a rigid, positive stop that can be set once and the trueness for an entire set of valves can be measured. Kit comes complete with dial indicator accurate to .001". This is a must have tool for any engine builder to get the most out of your high performance 4 stroke engine.

Description R&D Valve Stem Concentricity Gauge **Part No.** 612-80010

RIVA VALVE COMPRESSION TOOL

Riva's overhead Valve Compression Tool allows easy removal of valve springs and keepers without removing cylinder head. Includes compression adapter to pressurize cylinder keeping valves in place during removal of stock springs and keepers. Fits both Yamaha 1.8L & Kawasaki 1.5L 4-stroke engines.

Description RIVA Valve Compression Tool **Part No.** RY19040-VCT
Fits Yamaha 1.8L & Kawasaki 1.5L 4-stroke

FZR VALVE SPRING COMPRESSION TOOL KIT

The R&D Valve Spring Compression Tool Kit allows easy removal of the intake or exhaust valve springs and keepers without removing the cylinder head. R&D recommends using the compression adapter from a compression gauge kit to pressurize cylinder keeping valves in place during removal of springs and keepers.

Description FZR Valve Spring Compression Tool Kit **Part No.** 612-92013

YAMAHA FX-SHO & FZ • ENGINE

RIVA PRO-SERIES 4-STROKE CYLINDER HEAD GASKETS

Our Pro-Series Cylinder Head

Gaskets were developed to withstand severe heat & pressure generated by high-boost and high horsepower applications delivering maximum reliability to your racing engine.

Key Benefits Include:

- Three layer stainless construction for durability & corrosion resistance.
- Viton coated & embossed surfaces for maximum sealing between head and cylinder block.
- Unique design promotes even torque load across sealing surface & requires no re-torque.

Description

RIVA ENGINE BREATHER UPGRADE KIT

Easy to install Engine Breather Upgrade Kit eliminates power-robbing

crankcase emissions from your engine's air intake. Increases horsepower by removing the engine's requirement to burn relatively non-combustible oil. Also improves intercooler efficiency by preventing the oil sludge coating that lowers thermal efficiency. Easy installation retains highly efficient OEM air/oil separator system. Kit includes pre-formed hose with attached K&N filter along with all necessary hardware & instructions.

RIVA ENGINE COOLING UPGRADE KIT YAMAHA FX-SHO/FZR/FZS

The RIVA Engine Cooling Upgrade Kit delivers dramatically improved cooling efficiency to engine and oil cooler for increased reliability & performance. Greatly enhances water flow & pressure by eliminating restrictive OEM water fittings and replacing with high-flow billet distribution fittings & superior routing. Features easily tunable temperature disc system that replaces restrictive OEM thermostat. Allows the addition of aftermarket ECU's, high-boost compressor wheels and other performance modifications that can increase heat & detonation. Includes all necessary waterlines, hardware, fittings and detailed complete installation instructions. Designed for use with RIVA Power Cooler (RY17040-PC) or RIVA OEM Intercooler Upgrade Kit (RY17040-ICUK). If used with other intercooler systems, requires use of RIVA High Flow Pump Strainer (RY1013-WS-40).

Key Benefits Include:

- Increased power & reliability through lower engine and oil temperatures.
- Eliminates cooling limitations of OEM thermostat.
- Tunable temperature disc system to match water temp & modification level.
- Includes all parts required to upgrade engine & oil cooling system.

R&D FZR AQUAVEIN INTAKE GRATE

R&D performance is proud to announce the release of the new FZR/FZS Aquavein top loader intake grate. The new R&D Aquavein is a race bred design that is already a proven winner in both

offshore and closed course competition. Winning handily the APBA sprint offshore nationals, and dominating the 2009 APBA National Tour in PRO STOCK Runabout. The huge FZR pump intake demands strength and an extra large wing for maximum hook up. The new R&D FZR grate utilizes an all new ultra strong 3 bar front mount strut design to support a new "extra wide" forward mounted wing that is guaranteed to top load the FZ pump with enough water to stay hooked up and moving forward in the roughest water conditions. The new "SUPER DEEP" race legal bars are the biggest and strongest we have ever built to deliver unmatched strength. The new 3 bar concept and "Flat Faced" wide wing proved out to provide superior cornering over previous single bar designs. Big pump inlets need big grates, and that's what we have built. It's super strong, it's fast, and it's a proven class winner. Trust your FZ to the race proven, race winning, patented Aquavein technology only R&D can deliver. Anything less is second best. Order yours today and get hooked up.

* For proper installation R&D recommends the use of the R&D Pump Shoe Seal Kit (Pt. # 162-00007)

RIVA YAMAHA FX-SHO PERFORMANCE RIDE PLATE

Our Performance Ride Plate for the new SHO improves top speed and reduces porpoising. Unique design provides quicker planing and

improved handling. Compatible with OEM speedo sender. Power coated to prevent corrosion.

Description	Part No.
Riva Yamaha FX-SHO Performance Ride Plate	RY21040

R&D FZR PRO SERIES RIDE PLATE

The new R&D FZR Adjustable Ride Plate delivers a perfect balance of increased top speed performance, improved cornering capabilities, and superb straight line stability. The new adjustable design utilizes kit supplied shims to fine tune the performance for a perfect balance of speed/handling for rider weight or water conditions from drag to surf. Increased top speed performance up to 3 MPH over stock and compromises nothing when turned loose in rough water conditions. The design utilizes the vital OEM hull protection stainless steel pads, which safely disperse the pressure loads from the ride plate over a larger area on the hull. The new R&D FZR Adjustable Pro Series Ride Plate will meet the demands in performance whether being used for weekend recreational riding, closed course racing, surf, or offshore competition. Made in the USA from cast aluminum and powder coated for corrosion resistance.

- +3 MPH top speed improvement
- Adjustable design
- Unique multi-step concept
- Improved straight line stability
- Significantly improved cornering
- Reduced chine walking on high speed sweepers
- Drives through chop with superior stability
- Retains reverse gate operation

R&D FX SHO High Performance Ride Plate	122-18000

R&D YAMAHA FX-SHO/FZR/FZS SPONSON KIT

The new R&D Yamaha SHO Pro Series Sponson Kit was designed and developed with all new generation performance concepts

in mind to deliver a whole new level of handling and speed performance with offshore and closed course race proven adjustability options. The R&D Pro Series Sponson Kits have been extensively offshore, race track, and 1 and 2 up recreational tested to guarantee a comfortable setting for any riding style or condition! The R&D Sponson Kit will deliver higher top speed performance and a much smoother and more predictable ride over O.E.M. sponsons. Low speed and high-speed turns are a breeze with new found control. The secret to R&D's new generation concept is in the backing plate design with an aftermarket first, low pressure, low friction concept that breaks up and relieves speed robbing drag within the sponson's backing plate channel. The new R&D design staggers the sponson blades fins water trapping area to pick up less water in the front and more in the back. The stagger/step-up concept greatly reduces chine walk in high speed corners, while allowing more rear end grip. There is also a higher end recreational/race setting with enough grip for the best of pro's! Finally there is an aftermarket sponson kit that really does it all! More top speed due to less drag, less chine walking, racer preferred rear end grip, and unmatched straight line stability.

Description	Part No.

R&D FX-SHO/FZR/FZS AUTO TRIM NOZZLE KIT

The R&D FX-SHO/FZR/FZS Auto Trim Kit was developed to accommodate the O.E.M. VTS Quick Shift System with a fully adjustable and fully automatic trim system! The R&D Auto Trim automatically

drops a rider preferred and adjustable 2-8 degrees. Drive from turn to turn never worrying whether the trim is in the best position for perfect turn negotiation! The R&D Auto Trim allows you to set the trim up your way to carve perfect turn every time! For long straight rides the R&D Auto Trim System works in conjunction with O.E.M VTS, so stock trim settings are retained, while the R&D Auto Trim takes over in the turns. The combination allows the best of both worlds for recreational and closed course riding!

Description	Part No.
R&D FX-SHO/FZR/FZS Auto Trim Nozzle Kit	162-18020

R&D FX-SHO/FZR/FZS HYDRO FORCE STEERING NOZZLE

R&D's new Hydro Force Steering Nozzle for the FX-SHO/FZR/FZS is a direct replacement nozzle. The new lengthened design delivers a full 1 MPH speed gain over

stock. The adjustable pivot position improves the turning radius allowing you to carve tighter turns with a more positive feel. Improved performance through speed, acceleration and handling.

Description	Part No.
R&D FX-SHO/FZR/FZS Hydro Force Steering Nozzle	162-14000

R&D FX-SHO/FZR/FZS VTS QUICK SHIFT CAM KIT

The R&D FX-SHO/FZR/FZS VTS Trim Driver Cam is a cam device that installs directly in

place of the O.E.M. plastic VTS trim driver cam. The R&D cam is designed to recalibrate the trim position amount from an O.E.M. 7 to 8 degree per shift to a finer and speed friendly 4 degree per shift. The O.E.M. SHO neutral position setting is 85 degree or 5 degree up from horizontal zero. The new recalibrated position with the new R&D Trim Cam is 87.5 degrees or 2.5 degree up from horizontal zero. The R&D Trim Cam will deliver a more positive group of adjustments that will allow much better turning capabilities, as well as finer adjustments for rough water conditions. The R&D Trim Cam will work with the O.E.M. trim nozzle assembly, or the R&D Auto Trim Kit.

Description	Part No.
R&D FX-SHO/FZR/FZS VTS Trim Driver Cam Kit	162-18010

R&D FZR PERFORMANCE EXIT NOZZLE

The new R&D cast aluminum exit nozzle is designed to fine tune the pump and prop to maximize performance and rpm. The new R&D exit nozzle is available in 2.5 and 5 degree up

sweep angles. The 5 degree positive angle lightens the nose of the craft and adds top speed; this is great for recreational use. The 2.5 degree delivers improved performance in rough water conditions by producing more nose pressure to drive the hull through the bumps; this design is perfect for closed course and offshore competition. Both types are available in bore sizes of 80, 80.5, 81, and 81.5. *Custom bore sizes from 80 to 90 available at no extra charge, specify size when ordering. The maintenance free R&D cast aluminum and powder coated one piece construction exit nozzle is the better alternative to a removable ring design. With the new R&D nozzle the OEM reliability and safety is retained, because there is not a removable ring sleeve to vibrate loose, falls out and gets wedged in the steering nozzle creating a whole new definition to the term BUCKING.

** Custom bore sizes available at no extra charge, specify size when ordering**

Description	Part No.
R&D FZR Perf. Exit Nozzle 2.5 degree 80mm	162-82800
R&D FZR Perf. Exit Nozzle 2.5 degree 80.5mm	162-82805

RIVA FX-SHO/FZ PRO-SERIES REDUCTION NOZZLE

Our Pro-Series Reduction Nozzle is ideal for tuning your Yamaha pump combination to maximize performance. Nozzle exit diameter can be easily changed via interchangeable ring system. Looking for more RPM or acceleration power? Insert a larger diameter ring. Want more top speed or less RPM? Install a smaller

diameter ring. Nozzle includes three precision-machined stainless steel rings in graduated sizes (81, 82 & 83mm). Additional ring sizes available.

Note: Nozzle eliminates water spout function to maximize performance and conform to racing safety rules.

Description	Part No.
RIVA FX-SHO/FZ Pro-Series Reduction Nozzle	RY23040-N

R&D FZR BILLET STEERING SYSTEM KITS

The new R&D Billet Steering System was developed and tested during the 2009 APBA/IJSBA National and World Championships and is

a proven winner in design and performance. R&D's Billet design offers superior strength and lighter weight over the OEM steering system. Utilizing a 7/8" MX handlebar, allows the rider to personalize the bar setup to their liking. R&D chose the 7/8" diameter bar type over the Fat bar, because of the space watercraft bars need for start/stop switches, VTS switches, and custom trim lever systems. When using fat or taper bars, the bar widths are forced wider than comfortable in a watercraft application.

R&D offers two types of Handlebars for the new billet steering system, MX Low for short to average height pilots and MX high for taller pilots. Handlebars sold separately. The R&D Steering System is the way to go when setting up the ergonomic steering comfort "your way". Available for FZR/FZS and SHO models. Specify whether your craft is an FZR/FZS or SHO when ordering.

- 3 pounds lighter than stock system
- Easy installation (1hour) includes all hardware and instructions
- Increases overall comfort and handling performance
- Allows custom bar setups (set up your way)
- Utilizes 7/8" diameter handlebars of our choice
- Adds a true "Factory Racing" look to your watercraft

Description	Part No.
FZR / FZS Billet Steering System	512-18000
FX-SHO Billet Steering System	512-18001
R&D MX Low Bar	512-18010
R&D MX High Bar	512-18012

SATO ENGINEERING FZR/FZS STEERING SYSTEM

This billet steering system is the ultimate upgrade for the new Yamaha FZ watercraft. The system is extremely

strong and allows the rider to change to handlebars of their choice.

Description	Part No.
Sato Engineering FZR/FZS Steering System	SE-027020

RIVA FX-SHO PUMP SEAL KIT

Dramatically reduce cavitation and prop spin with our easy to install Pump Seal Kit. Location specific, molded inserts fill the voids in intake grate that can bleed air into pump causing cavitation. Specifically designed for craft using RIVA FX-SHO intake grate (part# RY22040). Includes detailed installation instructions.

Description	Part No.
Riva FX-SHO Pump Seal Kit for Riva Intake Grate	RY25040
Riva FZR/FZS Pump Seal Kit for Riva Intake Grate	RY25050

Skat-Trak^{USA} PERFORMANCE PRODUCTS

SKAT-TRAK FX-SHO/FZR 155-75-25 SWIRL IMPELLERS

RIVA Racing carries the complete line of Skat-Trak stainless steel Swirl impellers for Yamaha FX-SHO & FZ models. Let our performance

experts assist you with matching the correct impeller with your performance application. Includes a billet nose boot and impeller wrench.

Description	Part No.
Skat-Trak FX-SHO/FZR/FZS 11/19	SY557525SW1119
Skat-Trak FX-SHO/FZR/FZS 12/19	SY557525SW1219

RIVA SOLAS DYNAPLY R-SERIES IMPELLER

This all new impeller delivers unmatched acceleration & top speed in Yamaha FX-SHO/FZ applications. The "R" Series impeller is precision tuned to

RIVA specifications using a pitch block fixture. This offers a higher level of consistency when matched with RIVA Performance Kits. Includes billet impeller cone that locks solidly into place with 3 stainless set screws. Ideal for Riva Stage 1 applications or higher levels of modification when matched with RIVA Pro-Series FX-SHO/FZ Reduction Nozzle (part# RY23040-N).

Description	Part No.
Riva Solas Dynafly Impeller 13/22R	YS-DF-13/22R

Solas Recommends:

FX-SHO/FZ Stock Replacement Impeller	YS-DF-14/21
FX-SHO/FZ Limited Boat Replacement Impeller	YS-DF-15/22

FX-SHO/FZR/FZS IMPELLER SHAFT HOLDER TOOL

Developed specifically for the FX-SHO/FZR/FZS watercraft, this tool is required to change the impeller. 20mm splined.

YAMAHA FX-SHO & FZ • PERFORMANCE KITS

R&D FZR/SHO STAGE 1 ENGINE KIT PARTS RECOMMENDATION

Stock 67 mph @ 7600rpm

R&D Stage 1 Engine Kit 70-71 mph @ 7700 rpm / 8.5lbs boost @ 7700

R&D FZR/SHO Stage 1 Engine Kit Includes:

R&D Power Plenum Filter Pt# 200-01801
 R&D C1 Monster Wheel Pt# 612-25001
 R&D Intercooler CFM Kit Pt# 612-17999
 R&D Intercooler Cooling Kit Pt# 660-18000
 13/24 Pitch Prop Pt# SY557525SW1324 for FZR* or 13/23 Pitch Prop
 Pt#SY557525SW1323 for the SHO

The R&D FZR/SHO Stage 1 Engine Kit was specifically developed to produce low end horsepower and increase top speed performance while maintaining 100% reliability using 91 octane pump gas and the stock ECU and fuel system. This kit delivers power and speed you are looking for, without difficult and expensive aftermarket ECU and valve train up-grades. The results are impressive, the increased boost pressure added by the popular R&D C1-11 Monster Compressor Wheel delivers improved acceleration and top speed performance. The Power Plenum Air filter ensures that a massive amount of unrestricted filtered air is delivered to the C1-11 Compressor Wheel. The R&D Power Core intake sleeve and Intercooler CFM Kit will allow the increased air flow and boost into the intake system with less restriction. The R&D Intercooler Cooling Kit adds cooling capability through more water flow to the OEM intercooler. Decreasing intake air temperature improves horsepower. * The 13/24 Pitch prop is specifically designed to deliver maximum hook up while keeping increased RPM's at safe and reliable levels for FZR applications. At R&D, reliability is always important. At our test center we have been developing and testing this kit for about 1 year. We felt it was time to prove the Performer Kits reliability. So we entered it in the 2009 Mark Hahn 300 Mile Endurance Race. The race conditions were grueling and continuous for 6 straight hours. We are proud to announce that not only did the Performer Kit finish the race, it also took first in class. If pump gas performance at an economic price is what you are in the market for, look no further. Dollar for dollar no other kit compares to the R&D Performer Engine kit.

- 3-4 mph Speed Gain
- 8.5 lbs boost @ 7700rpm
- Endurance Race Tested
- 30 Horsepower Gain
- Dollar for Dollar Best Performance

NOTE: The R&D Performer Kit data, and speed information posted was data logged on the water after an initial warm-up to stabilize engine temperatures. All testing was performed exclusively with Chevron 91 octane pump gasoline at 500 feet above sea level. Ambient air temperature during testing was 90-100 degrees, with under seat temp. of 150 degrees.

Optional Performance parts:

Powershot - Enables fuel tuning and overrides boost limiter Pt# 802-18050
 Performance Intercooler Power Core Kit - Increases intercooler cooling capability Pt# 612-18001
 R&D Aquavein Intake Grate Pt# 112-18000 for SHO - Pt# 112-18001 for FZR
 R&D Pump Shoe Seal Kit Pt# 162-00004 for SHO - Pt# 162-00007 for FZR
 R&D Ride Plate Pt# 122-18000 for SHO - Pt# 122-18001 for FZR
 R&D Anti-cavitation Cone Pt# 162-18000
 R&D Auto Trim Nozzle Pt# 162-18010
 R&D Sponsons Pt# 122-01800 for SHO - Pt# 122-01801 for FZR

R&D FZR/SHO STAGE 2 ENGINE KIT PARTS RECOMMENDATION

Stock 67 mph @ 7600rpm

R&D Stage 2 Engine Kit 71-72 mph @ 7700rpm / 10lbs boost @ 7700

R&D FZR/SHO Stage 2 Engine Kit Includes:

R&D Power Plenum Filter Pt# 200-01801
 R&D C3 Monster Wheel Pt# 612-25003
 R&D High Performance R4 Intercooler kit with Surge BOV Pt# 612-18002
 R&D Powershot Fuel tuner & Boost Override Pt# 802-18000
 13/25 Pitch Prop Pt# SY557525SW1325
 R&D Multi- pressure Port Boost Gauge Adaptor Pt#612-92005

The R&D FZR/SHO Stage 2 Engine Kit was specifically developed to produce low end horsepower and increase top speed performance while maintaining 100% reliability using 91 octane pump gas and the stock ECU and fuel system. This kit delivers the maximum power and speed that the OEM ECU will allow, without difficult and expensive aftermarket ECU and valve train up-grades. The results are extremely impressive for a bolt-on kit. The increased boost pressure added by the R&D C3-11 Monster Compressor Wheel delivers massive acceleration and top speed performance. The R&D Power Plenum Air Filter was designed and developed exclusively for the new Yamaha supercharged intake system. Engineered with an oversized 6"x10"x6" plenum to deliver the cubic air volume needed to the R&D C3-11 Monster Compressor Wheel. The R&D High Performance R4 Intercooler Cooling Kit delivers the cooling and CFM capability to produce maximum horsepower with the C3-11 Compressor Wheel Kit. Decreasing intake air temperature and removing intake air restrictions improves horsepower. The R&D Powershot Fuel tuner will enable precise fuel tuning while interfacing with the ECU to allow the C3 Monster Supercharger Wheel to perform to full boost potential by defending against unwanted codes and internal E.C.U. limitations. The R&D 13/25 Pro Pitch prop is specifically designed to deliver maximum hook up while keeping increased RPM's at safe and reliable levels. The R&D Multi-pressure Port Boost Adaptor will enable bolt-on installation of a boost gauge and also provide an easy install to operate the surge blow off valve on the R4 Intercooler.

- 8-9 mph Speed Gain
- 10 lbs boost @ 7700rpm
- Endurance Race Tested (Mark Hahn 300)
- 100 Horsepower Gain

NOTE: The R&D Performer Kit data, and speed information posted was data logged on the water after an initial warm-up to stabilize engine temperatures. RIVA FZR/FZS STAGE I KIT PARTS RECOMMENDATION

Stock 67 mph @ 7500rpm
R&D Stage 1 Engine Kit 70-71 mph @ 7600rpm

RIVA FZR/FZS Stage 1 Kit Includes:

- RIVA FZR/FZS Performance Power Filter Kit Pt# RY13040
- RIVA FZR/FZS Intake Manifold Upgrade Kit Pt# RY12040-IMUK
- RIVA FZR/FZS Free Flow Exhaust Kit Pt# RY16040
- RIVA FZR/FZS Pump Seal Kit Pt# RY25050
- RIVA FZR/FZS Top-Loader Intake Grate Pt# 612-92005
- RIVA/Solas 'R'-series DynaFly Impeller Pt# YS-DF-13/22R
- RIVA FZR/FZS Performance Ride Plate Pt# RY21050

This modification delivers the maximum level of performance (+3-4mph) through easily installed air intake, exhaust, and pump enhancements. No internal engine modifications are required.

ADDITIONAL PERFORMANCE UPGRADES:

- RIVA Performance Blow-off Valve Kit Pt# RY17040-BV
- RIVA Engine Breather Upgrade Kit Pt# RY19040-EBUK
- RIVA FZ Rear Exhaust Kit Pt# RY15050
- RIVA Pro-Series Reduction Nozzle Pt# RY23040-N
- RIVA FZR Seat Cover Pt# RY5-FZR/S-COLOR
- RIVA FZ Mirror Block-off Kit Pt# RY5-FZ-MB

RIVA CARBON FIBER MIRROR BLOCK-OFF KIT

Transform your SHO into a sleek looking race craft with our custom fit Mirror Block-off Kit. Lightweight carbon fiber block-off's cover the openings left when original bulky mirrors are removed for competition. Designed to perfectly match the hood profile and constructed with genuine carbon fiber that is clear coated and polished. Mounts easily with supplied hardware. FX-SHO (09) & FX (all)

Description	Part No.
Riva Carbon Fiber Mirror Block-Off Kit	RY5-FXSHO-MB

RIVA FZ BILLET MIRROR BLOCK-OFF KIT

Our billet Block-off Kit covers the opening left in the hood when mirrors are removed for competition. Enhances craft's sleek lines and aerodynamics. Easy installation requires no special tools. Precision machined from billet aluminum and anodized to prevent corrosion. Includes installation hardware.

ULTRA 250X/260X • AIR INTAKE SYSTEMS

R&D KAWASAKI ULTRA 250/260X HIGH PERFORMANCE AIR INTAKE SYSTEMS

The R&D high performance Air Filter Kit will improve acceleration and top speed performance by increasing air flow and reducing air temperatures that enter directly into the Ultra 250X's air plenum box area. The O.E.M. air plenum box on the Ultra 250X is a great design that will flow plenty of air. However, the air that feeds the plenum box is heated by the engine. R&D has created an easy to install "flat filter" that installs directly in place of the large center access inspection cover located directly under the main glove box. The R&D Flat Air Filter insert will allow unrestricted fresh and cool air to enter the air plenum box area which will add power you can feel and a nice high performance tone. The R&D Performance Filter Kit also features two filters, one for each of the surge and blowoff protections valves. The O.E.M. surge valve recycles compressed hot air back into the air box plenum at idle and under deceleration conditions. The R&D surge and blowoff valve filter kit removes the air recycling hoses which will keep the hot air from entering the air plenum box reducing the engines intake air temperatures. The R&D Ultra 250X Air Filter Kit offers great performance tips on how to remove the restrictive air vent hoses which will further reduce the under seat ambient air temperatures. The R&D Filter system does not remove or alter the O.E.M. plenum box in any way, therefore there are no questions to be answered regarding water ingestion!

The R&D Filter Kit is easy to install with no modifications required to the O.E.M. parts. IJSBA legal for all classes.

Description	Part No.
R&D Ultra 250/260X Cool Air Intake Kit (A & B)	215-25000
<i>This kit consists of one of each 215-25001 & 215-24999</i>

ROGUE POWER SPORTS ULTRA 250/260X INTAKE HEAT BARRIER

This intake spacer will help reduce the heat transfer from the engine to the intake manifold therefore not heating up the air that is going into the cylinder head. This product has been tested and proven to drop the intake temp by 20 degrees adding 2 Horse Power, Cool air makes more power. Will benefit stock or modified engines

Description	Part No.
Rogue Power Sports Ultra 250/260X Intake Heat Barrier	HEATSP-ULTRA

① Replacement Glove Tray ② Power Filter Cover

RIVA ULTRA 250/260X PRO-SERIES POWER FILTER KIT

Ultra 250X Pro-Series Power Filter Kit is a race-bred air intake system that draws cool air from outside your engine compartment delivering awesome performance and eliminating power-robbing heat intake. Air enters the system under the glove box area through an oversized K&N air filter that is protected by a composite cover to prevent water intrusion. Air is fed to the supercharger via a large 4" diameter intake duct. Ducting is precision formed from a race proven composite that will not conduct heat into incoming air. Includes replacement glove box tray & water-repellent pre-filter. Not stock legal with IJSBA or APBA.

Description	Part No.
Riva Racing Ultra 250/260X Pro-service Power Filter Kit	RK13096

RIVA ULTRA 250/260X PERFORMANCE POWER FILTER KIT

ULTRA 250X Performance Power Filter Kit: Delivers greatly improved acceleration and increased top speed by replacing the restrictive stock intake system. The Power Filter feeds your supercharger with an increased volume of air via a large 4" diameter intake duct and oversized K&N filter element. Ducting is precision formed from a race proven composite that will not conduct heat to incoming air. Includes water-repellent pre-filter. IJSBA legal for all classes.

Description	Part No.
Riva Racing Ultra 250/260X Performance Power Filter Kit	RK13090

RIVA ULTRA 250/260X BYPASS UPGRADE KIT

Easy to install Bypass Upgrade Kit contains all parts necessary to redirect hot air from the engine's bypass valves and crankcase vent; eliminating power-robbing engine emissions from entering your air intake system. Kit includes fitted K&N filters for bypass & blow-off valves and crankcase vent. Designed to work with both RIVA Pro-Series & Performance Power Filter Kits for Ultra 250X.

Description	Part No.

R&D ULTRA 250/260X ENGINE PERFORMER KIT PART #611-24349

STOCK ULTRA 250X AVG. SPEED • 65.5-66 MPH @ 7600-7700 RPM
STAGE 1 PERFORMANCE KIT • 72-72.5 MPH @ 8050-8100 RPM

The R&D Performer Engine Kit Option will add a great boost in overall power. Increased low end and mid range response and acceleration, as well as a solid 2 MPH gain in top speed performance. The R&D Performer Engine Kit will deliver more horsepower reliably with the properly matched fuel control component parts only available through R&D. The R&D Performer Engine Kit will perform excellent in all recreational riding conditions using 91 octane pump gasoline.

The R&D Performer Engine Kit consists of:

Description	Part No.
R&D Tensioner Wheel	611-25000
R&D 1 to 1 Supercharger Wheel	611-25011
R&D Powershot	801-25000
R&D 255 Low Pressure Fuel Pump	811-25255
R&D Fuel Pump Installation Tool	811-25257

R&D ULTRA 250/260X POWERSHOT ADJUSTABLE FUEL TUNER

Ultra 250 PowerShot Adjustable Fuel Tuner: The R&D Powershot

fuel injection tuner will deliver increased horsepower, acceleration, and stronger mid-range performance by delivering a higher performing Air to Fuel Ratio (A.F.R.) to engine. Many of today's high performance fuel injected four stroke muscle craft have a lean A.F.R. R&D Performance has tested, documented, and analyzed the O.E.M fuel maps on every current fuel injected four stroke watercraft, and pre-programmed and coded the new R&D Powershot fuel injection control module to safely alter the O.E.M. fuel map to a higher performing and safer A.F.R. (richer). More horsepower, greater acceleration and stronger mid-range are the result when the proper A.F.R. is achieved and is tuned for optimum performance.

The R&D Powershot is fully adjustable on the fly (with the engine running, observed and tuned while riding), and will accommodate a wide range of adjustability to properly performance tune the A.F.R. for any combination of aftermarket parts. The R&D Powershot will add horsepower, reliability, and adjustability to any electronic fuel injected two or four stroke personal watercraft engine.

Description	Part No.
R&D Ultra 250/260X Powershot Adj. Fuel Tuner	801-25000

R&D ULTRA 250/260X ENGINE STAGE 1 PERFORMANCE KIT PART #611-24350

STOCK ULTRA 250X AVG. SPEED • 65.5-66 mph @ 7600-7700 RPM
STAGE 1 PERFORMANCE KIT • 73 mph @ 8100-8150 RPM

The R&D Stage 1 Engine Kit will massively increase low end, mid range response and acceleration with a top speed performance of 73 mph (combined with a R&D Performer kit). The R&D Stage 1 Engine Kit will deliver more horsepower reliably with the properly matched fuel control component parts only available through R&D. The R&D Stage 1 Engine Kit will perform excellent in all recreational riding conditions using 91 octane pump gasoline.

The R&D Performer Engine Kit consists of:

Description	Part No.
R&D Tensioner Wheel	611-25000
R&D 1 to 1 Supercharger Wheel*	611-25011
<i>*Recommend to use with 611-25001 Billet Hub Kit</i>	
R&D Fuel Rail Fitting	611-27500
R&D Bulkhead Fitting	611-27501
R&D Fuel Line Rail to Regulator	611-27513
R&D Fuel Line Regulator to Tank	611-27514
R&D Fuel Pressure Gauge Adapter	611-27517
R&D Powershot	801-25000
R&D Fuel Pressure Regulator	801-25010
R&D Fuel Pressure Regulator	801-25011
Mounting Bracket	
R&D 625cc High Flow Fuel Injector Kit *Use with the stock OEM fuel pump	811-25000**

**The R&D 625cc High Flow Fuel Pump #811-25000 is not sold separately - it is only available in Performance Kit #611-24350

ULTRA 250X/260X • AIR INTAKE SYSTEMS

R&D UNIVERSAL FUEL PRESSURE REGULATOR

Universal bypass fuel pressure regulator for carbureted or EFI fuel systems applications. Base fuel pressure is adjustable from 20 to 60 PSI with high pressure spring

(installed). Ideal for carbureted and EFI bypass applications where more flow and superior pressure control are desired. R&D offers two types of fuel pressure regulator set ups. Part #801-25010 will come completely assembled with #4 fittings ready for R&D custom hoses with #4 AN fittings for a nice high performance hot rod look. Part #801-25009 will have brass 3/8" to 1/4" barb 90 degree fittings installed for use with push on type hose and Otekiei style clamps for security. R&D offers a high performance Coast Guard approved fuel hose that can be purchased by the foot (Part #611-27502), as well as the Otekiei style clamps (Part #611-27518).

The universal type bypass style regulator is capable of handling any fuel pump up to 250 GPH. Replace "Deadhead" regulator performance and experience full flow volume and steady fuel pressure.

R&D offers a mounting bracket (Part #801-25011) that specifically mounts the fuel pressure regulator on top of the inner cooler. This location allows the R&D custom fuel lines to route perfectly.

Description	Part No.
R&D Fuel Pressure Regulator AN Style (pictured above)	801-25010
R&D Ultra 250X Mounting Bracket for Fuel Pressure Regulator	801-25011

R&D ULTRA 250X FUEL LINE KITS

R&D fuel lines are produced using high performance billet anodized AN fittings coupled to Type A SAE J 1527 US Coast Guard Approved fuel line. All Ultra 250 fuel lines are cut to specific length and pre-assembled to

ensure a perfect seal, custom fit, and that awesome hot rod look.

Description	Part No.
Rail to Regulator	611-27513
Regulator to Tank w/Standard Tank Bulkhead Fitting Kit	611-27514
Regulator to Tank w/ Standard Tank Vent Fitting	611-27515
Regulator to Fuel Gauge	611-27516
Type A SAE J 1527 US Coast Guard Approved 1/4" Fuel Line - Sold per foot.	611-27502
1/2" Otekiei Style Clamps	611-27518

R&D ULTRA 250/260X FUEL GAUGE ADAPTER FOR TESTING AND TUNING

R&D Fuel Gauge Adapter allows you to mount the fuel pressure gauge directly to the fuel pressure regulator.

Description	Part No.
R&D Ultra 250/260X Fuel Gauge Adapter	611-27517

***Sold by the set only**

BARB STYLE

611-27499

AN STYLE

611-27500

R&D ULTRA 250X FUEL RAIL RETURN LINE ADAPTER FITTING

R&D offers a unique Fuel Rail Return Line Adapter fitting which will allow quick and easy connections of high performance fuel pressure regulators or fuel pressure gauges. The R&D Fuel Rail Fitting has the O.E.M. tapered metric thread pitch for easy bolt on assembly (no tapping required) installation. The R&D Fitting is available in two types: barb type push on hose connections and #4 AN type connections.

Description	Part No.
Barb Style (Fuel rail fitting)	611-27499
AN Style (Fuel rail fitting)	611-27500

R&D UNIVERSAL #4 AN FUEL RETURN LINE FITTING ADAPTER KIT

The R&D Universal Fuel Return Line Adapter Fitting can be installed into the top of any fuel tap assembly by finding a clear area on top of the fuel tap system large enough to install the fitting. Drill a 15/32 or #56 (.468) drill size hole and install the fitting using the kit supplied aluminum seal washer on each side of the fitting. The R&D universal fuel return fitting kit is the safest and cleanest way to properly install a fuel return to the top of any make or model fuel tap assembly. Kit comes with one #4 AN bulkhead fitting, one #4 AN bulkhead nut, and two #4 AN 7/16" Aluminum washers.

Description	Part No.
R&D Universal #4 AN Style Fuel Return Line Adapter Kit	611-27501

R&D ULTRA 250X DEEP FUEL PICKUP

The R&D Deep Fuel Pickup is designed to maximize fuel volume. The stock fuel pickup is located horizontally in the gas tank three inches above the bottom of the tank. This leaves approximately 5 gallons of unusable fuel in the bottom of the tank. The R&D Deep Fuel Pickup relocates the stock fuel pickup to the bottom of the tank in a vertical position. The new positioning allows for 24 percent more riding time per tank of gas.

Description	Part No.
R&D Ultra 250X/LX Deep Fuel Pick Up	801-25100

ULTRA 250/260X FUEL PUMP PRESSURE REGULATOR BLOCKOFF FITTING

R&D offers a Fuel Pump Pressure Regulator Blockoff Fitting Kit which will allow the O.E.M. stock in tank fuel pressure regulator to be removed completely and replaced with a billet part which is necessary when installing an aftermarket externally adjustable fuel pressure regulator. The R&D fitting is manufactured to "Deadhead" or block the port solid, however, the fitting is pre-machined and tapped and can be relief drilled to be able to install a Mikuni Super BN Series jet directly into the fitting for a small in tank restrictor jet which for fine tuning fuel pressures. **Mikuni Jet not included.*

Description	Part No.
250/260X Fuel Pump Pressure Reg. Blockoff Fitting	811-25100

ULTRA 250X/260X • FUEL PUMP

R&D UNIVERSAL HIGH PERFORMANCE HIGH VOLUME FUEL PUMP KITS FOR ULTRA 250X

All R&D fuel pumps have been precision flow rate tested and charted in (LPH) liters per hour. R&D fuel pumps

arrive complete with terminal connectors for both the new high performance pumps quick connect installation, as well as extra terminal connector parts for the O.E.M. pump for use when converting back to stock. The R&D quick connect terminals help make fuel pump testing easy when switching from a low pressure to a high pressure fuel pump.

Description	Part No.
R&D 190 LPH (Liter Per Hour) Low Pressure Fuel Pump Kit (O.E.M. Replacement)	811-25190
R&D 255 LPH (Liter Per Hour) Low Pressure Fuel Pump Kit (Performer Kit)	811-25255
R&D 255 LPH (Liter Per Hour) High Pressure Fuel Pump Kit (400hp aftermarket supercharger)	811-25256
R&D Fuel Pump Swedge Tool*	811-25257

*NOTE: R&D High Performance fuel pumps are .040 larger than O.E.M. Mitsubishi fuel pumps on Yamaha's and Kawasaki's, therefore it may be necessary to use the R&D Fuel Pump swedge tool to enlarge the fuel pump housing for easy installation.

R&D ULTRA 250/260X AIR/FUEL RATIO KIT

Professionally tune your engine with complete confidence. The LC-1 is more accurate than conventional

designs, and its self-calibrating circuitry can compensate for changes in temperature, altitude and sensor condition. The LC-1 is ideal for applications such as Dynos, Data Acquisition, Standalone ECUs, piggyback fuel controllers, OBD-II software or chip programmers, and gauges. This Innovate kit comes complete with the patented award-winning LC-1 Wideband Controller with a sealed cable, DB-Blue digital Gauge, Bosch 5-wire Wideband O2 Sensor, Bung/Plug Kit, Software CD, and quick start guide.

Description	Part No.
R&D Ultra 250/260X Air/Fuel Ratio Kit	900-04378

R&D ULTRA 250/260X FUEL PRESSURE GAUGE

R&D offers the Autogage fuel pressure gauge gives the best reference in verifying and monitoring fuel pressure precisely on any supercharged or boosted engine. 0 to 100 psi.

Description	Part No.
R&D Ultra 250/260X Fuel Pressure Gauge	900-02180

R&D AUTOMETER 0-35 PSI UNIVERSAL BOOST GAUGE

R&D offers the Autometer Ultra-Lite Series 2" mechanical boost gauge to give the best reference in verifying and monitoring boost levels precisely.

Installing a precision boost gauge is the only way to know exactly what boost level the compressor is producing. Check and verify constant boost conditions and verify Sea-Doo clutch conditions and true boost level gains when installing aftermarket compressors, compressor wheels, and overdrive compressor drive wheels. The Autometer Gauge kit comes complete with all the necessary hardware, and 10 feet of nylon tubing to install on any watercraft.

Description	Part No.
R&D Autometer Universal Boost Gauge	900-04304

*NOTE: It will be necessary to order an R&D Boost Gauge Adaptor Kit for the specific make and model of engine. See Ultra 250 Boost Gauge Adapter part #611-26002

R&D AUTOMETER DASH BEZEL FOR FUEL PRESSURE GAUGE

The R&D Autometer Fuel Pressure Gauge Bezel is necessary for adapting and installing the small

Autometer fuel pressure gauge into an instrument panel. R&D has created a unique and clean method to install a small fuel rail gauge in a dash or console. By using a small fuel pressure gauge and creating a barrel bezel for the perimeter of the gauge, it is possible to have 3 gauges in a small compact area.

Description	Part No.
R&D Autometer Dash Bezel for Fuel Pressure Gauge	900-04379

ULTRA 250X/260X • SUPERCHARGER COMPONENTS

R&D ULTRA 250/260X CRANKCASE VENTILATION/OIL & VAPOR SEPARATOR KIT

The R&D Ultra 250X Crankcase ventilation system was developed to offer a complete bolt on breather expansion kit which will substantially reduce crankcase pressures on Kawasaki Ultra 250X's supercharged engines. High performance engines (especially supercharged) need as much crankcase ventilation as possible. The R&D system doubles the volume of the O.E.M. crankcase breather and triple baffles the oil and vapor pressures within the O.E.M. breather case. The R&D system relieves excess crankcase pressures in the oil breather case and vents high pressures and fuel vapors into a piggyback vapor/oil catch can reservoir. The R&D vapor/oil reservoir mounts and connects directly to the O.E.M. oil separator system puts an end to oil blow by messes in the engine compartment by relieving excess crankcase pressures and trapping excess fuel vapors, condensation and blow by oil into the R&D oil/vapor separator.

Description	Part No.
R&D Ultra 250/260X Crankcase Ventilation/Oil and Vapor Separator Kit	215-25002

R&D ULTRA 250X BILLET BLOW OFF VALVE KIT

The R&D Billet Blow Off Valve Kit replaces the OEM plastic valve that is prone to leaking and is unreliable. The R&D Billet Blow Off Valve allows for precise pressure

adjustments and has an operating range from 5lbs to 21lbs of boost.

Description	Part No.
R&D Billet Blow Off Valve Kit	611-25210

ROGUE RACING ULTRA 250X/260X SC PULLEYS

Rogue Racing Pulleys are designed with bearing and belt life as one of the main upgrades from the OEM pulley. Rogue Racing engineered these pulleys to decrease and dissipate heat to reduce the wear on the pulley and belt from the heat generated while riding. The pulleys also have belt guides manufactured into them to prevent the belt from possibly jump off of the pulley. The pulleys are anodized to prevent corrosion.

Description	Part No.
Offshore/Endurance (.95 to 1 • Stock)	PR-LARGE
Closed Course (1.00 to 1 • +2.5lbs)	PR-MEDIUM
Closed Course/Slalom (1.05 to 1 • +3.5lbs)	PR-SMALL
Rogue Racing Tensioner Wheel	PR-IDLER

**The OEM stock size pulley is ok to use on a stock engine setup. For the smaller pulleys that increase boost a high volume fuel pump should be used with a regulator to govern the proper fuel pressure. To adjust the fuel pressure to the proper pressure an AFR kit is required to monitor the exhaust gases to read the air/fuel mixture.*

R&D ULTRA 250/260X SUPERCHARGER PULLEYS

The new R&D Racing Supercharger Pulley Wheel will deliver a noticeable and impressive boost in torque and overall horsepower. Designed and manufactured from high quality billet aluminum and precision hard anodized for superior belt wear resistance. The R&D Pulley is 3/4 lb lighter than the O.E.M. steel pulley, and delivers 2.5 to 3.5 lbs of additional boost pressure along with 30 horsepower. The holeshot acceleration is a solid 1.5-2 boat lengths over stock with a top speed gain of 1 to 2 mph over stock. The R&D Pulley comes completely assembled with a new high performance bearing, all necessary hardware and installation instructions.

R&D strongly recommends the use of the R&D Powershot Fuel Tuner, R&D High Output Fuel Injectors and High Volume Fuel Pump Kit to increase fuel flow delivery when using the R&D Supercharger Wheel. Not using these recommended parts can result in engine damage due to a lean air fuel ratio.

Description	Part No.
R&D Supercharger Pulley Wheel 1 to 1 (entry level)	611-25011
R&D Supercharger Pulley Wheel 1.05 to 1	611-25105
R&D Supercharger Pulley Wheel 1.1 to 1	611-25110
OEM Replacement Supercharger Pulley	611-25010

R&D ULTRA 250/260X SUPERCHARGER BELT TENSIONER WHEEL

R&D has significantly improved the Ultra 250X's serpentine belt tensioning wheel system by redesigning and precision machining a new tensioner wheel with a larger O.D. The new R&D Tensioner Wheel offers a wider adjustment range and helps to reduce belt slippage via more surface area for belt contact. Wheel comes complete with precision bearing installed.

Description	Part No.
R&D Ultra 250/260X Supercharger Belt Tensioner Wheel	611-25000

R&D ULTRA 250/260X BEARING REBUILD KIT

R&D recommends the inspection of the R&D Supercharger and Tensioner wheel bearings after 15 hours and replacing them after 20 hours.

Description	Part No.
R&D Ultra 250/260X Bearing Rebuild Kit	611-25009

ULTRA 250X/260X 150/12F/15F BILLET DRIVE COUPLERS

Billet aluminum drive coupler set for the Kawasaki 250X & 260X. The crank side coupler with the pulley is 1.24lbs lighter than the stock steel coupler. The pulley diameter is the same as stock. Uses the stock rubber dampener. Clear anodized for protection against saltwater corrosion.

Description	Part No.
Ultra 250X/260X Billet Drive Coupler Set	31-700590
Ultra 150/12F/15F Billet Drive Coupler Set	31-700490

ULTRA 250X/260X • SUPERCHARGER COMPONENTS & TOOLS

R&D ULTRA 250/260X SUPERCHARGER GEAR OIL

R&D's new Supercharger Gear Oil is specifically formulated to perform in ultra high temperatures and provide maximum gear lubrication with minimum drag. Sold by the quart.

Description	Part No.
R&D Ultra 250/260X Supercharger Gear Oil	611-27000

R&D ULTRA 250/260X SUPERCHARGER WHEEL PULLER TOOL

The R&D wheel puller tool makes it fast and easy to remove a supercharger wheel without the removal of the inter-cooler system or the water muffler assembly. The R&D Supercharger drive

wheel puller will save at least an hour on a pulley removal and replacement. A must have tool.

Description	Part No.
R&D Ultra 250/260X SC Wheel Puller Tool	611-26004

R&D ULTRA 250/260X DRIVER WHEEL HOLDER TOOL

The R&D Holding Tool makes it fast and easy to remove and re-install a supercharger wheel without damaging or breaking the wheel hub. Use the holding tool to properly torque the drive bolts and main spline drive bolt. A must have tool.

Description	Part No.
Ultra 250/260X Driver Wheel Holder Tool	611-26003

R&D ULTRA 250X WASTE GATE BLOCK-OFF KIT

The new R&D Waste Gate Block-Off kit is designed to block-off the inconsistent OEM waste gate. The CNC machined part allows the supercharger to deliver its boost without premature pressure loss from a leaking waste gate. Kit comes complete with gaskets and hardware.

Description	Part No.
R&D Ultra 250X Waste Gate Block-Off Kit	611-26001

R&D ULTRA 250/260X BOOSTGAUGE ADAPTER

The R&D Boost Adapter installs between the supercharger and the waste gate and allows the ability to mount a boost gauge to it via 1/8" fitting. This will enable an accurate measurement of boost the supercharger is delivering. Kit comes with gaskets and hardware.

Description	Part No.
R&D Ultra 250/260X Boost Gauge Adapter	611-26002

R&D ULTRA 250/260X SUPERCHARGER WHEEL BILLET HUB KIT

The R&D Supercharger Hub Kit will replace the O.E.M.'s vulnerable part with a redesigned and beefed up precision CNC Machined 6061 billet aluminum part that is much stronger than stock. The new R&D design also offers pulley wheel alignment adjustments with a CNC machined Shim Kit that allows for precision serpentine belt cog alignment. The R&D kit comes complete with a special tool that will indicate the perfect alignment of the crank drive and compressor pulleys. At 8,000 RPM, horsepower and belt life can be greatly sacrificed through misaligned pulleys! The R&D kit offers superior strength, precision pulley alignment, and extended serpentine belt life. The all adds up to a powerful gain.

Description	Part No.
A & B. R&D Ultra 250/260X Supercharger Wheel Hub Kit	611-25001
B. Pulley Alignment Tool Only	611-26000

R&D ULTRA 250/260X BELT HOLDER KIT

The R&D Ultra 250X Belt Holder Kit was developed to make repairs and performance upgrades easier and faster.

Description	Part No.
Ultra 250/260X Belt Holder Kit	611-25200

R&D TEMP. SENSOR INTERFACER

R&D Performance offers a unique supercharger air temp sensor interfacer which may be necessary on some Ultra 250X units. There have been some Ultra 250X models that will default into "limp home mode" if the charger temperature sensor is peaked prematurely. Any Ultra 250 which as this default occur on long rides on hot (115 degree) days should install the R&D Supercharger Temp Interfacer Kit. The Interfacer is an inexpensive fix for this randomly occurring problem on random boats.

Description	Part No.
R&D Temp. Sensor Interfacer	801-25008

R&D ULTRA 250/260X INTERCOOLER TEMPERATURE CONTROL UPGRADE KIT

The R&D Ultra 250X Intercooler Temperature Control system was developed to offer an inexpensive complete bolt on kit that will allow the full performance and cooling potential the O.E.M. intercooler has to offer for recreational applications.

Description	Part No.
250/260X Intercooler Temp. Control Upgrade Kit	660-82500

ULTRA 250X/260X • EXHAUST

RIVA RACING BLOCK-OFF VALVE COVER KAW 4-STROKE ENGINE ULTRA 250X/LX; STX-15F/12F

The Ultra 250X Valve Cover Block-off Kit is designed to seal off the ports on the valve cover when removing the emission control system for racing applications. There are two major benefits to removing the factory emissions system:

- 1) For racing applications it is recommended to remove all necessary equipment from your craft for increased reliability and reduced maintenance. This also cleans up plumbing in the engine compartment providing a clean look.
- 2) To accurately monitor air/fuel ratio for tuning purposes you must remove the emissions system. The OEM system pumps fresh air into the exhaust stream throwing off air/fuel ratio.

Plates are precision machined from billet aluminum and anodized to prevent corrosion. Includes two block-off plates and installation instructions.

Description	Part No.
Riva Racing Ultra 250X (07)/LX (07), STX-15F, STX-12F Exhaust Emissions Block-off Kit	RK19090-VCB
R&D Ultra 250X (07)/LX (07), STX-15F, STX-12F Exhaust Emission Block-off Kit	331-25000

RIVA EXHAUST KIT, FREE FLOW ULTRA 250X

Enables you to bypass or remove secondary muffler (weight savings of +10lbs) improving engine performance by reducing backpressure and harmful detonation. Formed aluminum exhaust tube is lightweight and powder coated to resist corrosion. Included billet exhaust tip (also sold separately) with laser-etched graphics is anodized to prevent corrosion. High temperature silicone couplers included with detailed installation instructions.

Description	Part No.
Riva Racing Free Flow Exhaust Kit Ultra 250X (07)/LX (07)	RK16090
Riva Racing Free Flow Exhaust Kit Ultra 250X (08)/260X	RK16090-08*

*Note: Must use with Part # RS16091 Riva Racing Waterbox

RIVA RACING BILLET EXHAUST TIP FOR ULTRA 250X/LX, 260X, STX-15F/12F

Quickly and easily add style to your craft with this direct replacement for the stock, plastic exhaust tip. Made from billet aluminum with laser etched graphics. Anodized to prevent corrosion.

Description	Part No.
Riva Racing Billet Aluminum Exhaust Tip Ultra 250X/LX, 260X, STX-15F, STX-12F	RK16086
Riva Racing Billet Aluminum Exhaust Outlet Ultra 250X/LX, 260X, STX-15F, STX-12F	RK16090-EO

R&D BILLET EXHAUST OUTLET

The new R&D Billet Exhaust Outlet. The exhaust outlet has four holes for the Kawasaki Ultra 250 and 260.

Description	Part No.
3" Diameter R&D Billet Exhaust Outlet	331-25300
2.75" Diameter R&D Billet Exhaust Outlet	331-25275

R&D HIGH TEMPERATURE SILICON COUPLINGS

Description	Part No.
3"-3" High Temp Silicon Couplings	061-30030
3"-2" Reducer High Temp Silicon Couplings	061-32500
2.75"-2.5" Reducer High Temp Silicon Couplings	061-32501
3"-2.75" Reducer High Temp Silicon Couplings	061-32750

RIVA RACING PRO-SERIES ULTRA 250/260X WATER BOX

The Riva Racing Pro-Series Water Box delivers increased horsepower and performance by reducing exhaust restriction and back pressure. Feature lightweight aluminum construction and precise fit.

07 Models: Direct replacement for original water box. Use with RIVA Free Flow Exhaust Kit RK16090.

08 Models: Direct replacement for original water box. Features larger outlet (2-1/4") compared to stock water box (1-3/4"). Must be used with RIVA Free Flow Exhaust Kit RK16090-08.

Description	Part No.

RIVA/CARRILLO CONNECTING RODS

Riva's lightweight connecting rods improve the reliability and performance of turbocharged and supercharged watercraft engines. Manufactured to our specifications by Carrillo Industries, these rods are forged from an ultra high-strength alloy and rated to 500+ horsepower. Unique H-beam design is

substantially stronger and lighter than OEM equipment, allowing your engine to rev quicker and hold up to the punishing demands of high boost applications. Includes high-strength silicon-bronze wrist pin bushing & race spec fasteners.

Description	Part No.
Riva/Carrillo Connecting Rod Set ULTRA 260/250/LX & STX-15F/12F (set of 4)	RK19090-9M4449S

RIVA PRO-SERIES 4-STROKE CYLINDER HEAD GASKETS

Riva's Pro-Series Cylinder Head Gaskets were developed to withstand severe heat & pressure generated by high-boost and high horsepower applications delivering maximum reliability to your racing engine. Key Benefits Include:

- Three layer stainless construction for durability & corrosion resistance.
- Viton coated & embossed surfaces for maximum sealing.
- Unique design promotes even torque load & requires no re-torque.

Description	Part No.
Riva Pro-Series Head Gasket Standard Ultra 250/260	RK10090-CHG

RIVA PRO-SERIES 4-STROKE RACING PISTONS

Riva's forged racing pistons deliver maximum reliability and performance in high boost & turbo applications. High strength piston kits include premium ring package, tool steel wrist pin & carbon steel wire locks.

Key Features Include:

- CNC machined from high strength/lightweight forgings.
- Optimized dome design for efficient combustion.
- Improved lubrication hole placement for reduced friction.
- Premium low friction ring package.
- High-strength tool steel wrist pins machined from special tool steel bar stock & heat treated.
- Carbon steel wire locks.
- Direct replacement diameter plus 2 oversizes available.

9.5 to 1 Compression	Part No.

10.5 to 1 Compression	Part No.
Ultra 260/250 (10.5:1/STD)	RK1000-150010.5

R&D ULTRA 250 9.5-1 COMPRESSION RATIO PISTON KIT

R&D Ultra Forged Racing Piston Kits have been developed for the hard core race enthusiasts or precision engine builders who are looking to gain maximum horsepower and

reliability from their racing engines. R&D offers high quality forged aluminum, heat treated, and CNC machined racing pistons in 9.5-1 compression ratios to replace O.E.M. cast aluminum pistons known to break, crack, or shatter in high performance, high heat conditions. High horsepower marine engines with high boost pressures are more prone to have detonation over conventional racing engines due to sustained loads. Forged pistons in marine applications are a must.

- Direct replacement piston kits for High H.P. applications
- High quality forged materials replace low performance cast
- Improved ring seal with Nascar Style ring sets
- Increased RPM's and horsepower by reducing weight
- Works great with high boost compressor wheels and turbo kits

Description	Part No.
R&D Ultra 250 9.5-1 Compression Ratio Piston Kit	431-25095

RIVA PRO-SERIES 4-STROKE CYLINDER HEAD STUD KITS

Riva's ultra high strength cylinder head stud kit is essential equipment when upgrading internal components on your high boost Yamaha engine. Precision machined from premium grade 8740 alloy and heat treated to exacting tolerances, these studs dramatically increase reliability & ease of maintenance.

Key Benefits Include:

- Superior material & heat treat process provide 10X better than OEM bolts.
- Studs provide improved alignment of cylinder head and gasket.
- More accurate & consistent torque loading.
- Helps prevent blown head gaskets and assures optimum engine sealing.

Description	Part No.
RIVA Pro-Series Cylinder Head Stud Kits Ultra (All), STX-15F	RK10085-HSK

2007 KAWASAKI ULTRA 250X ENGINE DIAGRAM

MACC RACING KAWASAKI ULTRA 250X TIMING ADVANCE COVER

Macc Racing and Speed Magic have developed this billet timing advance cover to allow the timing to be advanced up to 6 degrees on the Kawasaki Ultra 250X.

Description	Part No.
Macc Racing Ultra 250X Timing Advance Cover	MR-0085

NGK SPECIAL SPARK PLUGS FOR 4 STROKE ENGINES

NGK Spark Plugs offer excellent ignitability and durability. NGK is the OEM plug on the Kawasaki Ultra 250X and LX.

Spark Plug Size	Part No.
Ultra 250/260X - Platinum Plug *Sold in Pk/4	PMR9B
STX 12F/15F - Standard Metal Plug *Sold in Pk/10	CR9EK

NGK IRIDIUM IX SPARK PLUGS

Iridium is significantly stronger than any metal used in spark plugs today. The ignitability and durability is better than platinum. Sold in packs of four.

Spark Plug Size	Reach	Part No.
10mm	3/4"	CR9EIX

DCR ULTRA 250/260 OIL CAP

The DCR Oil Cap features a clear window to allow you to see the internal parts of your engine. The oil cap comes in three color options and is anodized to prevent corrosion and wear.

Description	Part No.
DCR Red with Silver Ring Billet Oil Cap	DCR-OIL-01
DCR Green with Silver Ring Billet Oil Cap	DCR-OIL-02
DCR Black with Silver Ring Billet Oil Cap	DCR-OIL-03

ULTRA 250X/260X BLOW OFF SOUND CIRCULATOR

The blow off circulator is installed into the air hose located back of the seat. This small piece fits in the blow off return line hose. When you let off the throttle and the blow off valve opens the part will create a racing performance sound from the part.

Description	Part No.
Blow Off Sound Circulator Ultra 250/260 (All)	DC-BSS

K&N PERFORMANCE GOLD OIL FILTER

- 1-inch nut easy-on/easy wrench-off
- Drilled safety wire holes for racing
- Heavy-duty construction
- Premium filter media provides outstanding filtration at high-flow rates.

Description	OEM#	Part No.
All Kawasaki Four Stroke PWC	16099-004	KN204

ROGUE RACING ULTRA 250/260 BILLET OIL CAP

Complete the dress up of your engine compartment with a Rogue Racing billet aluminum oil filler cap.

Description	Part No.
Rogue Racing Ultra 250/260 Billet Oil Cap	KAWOIL-CAP

UMI RACING BILLET STEERING SYSTEM ULTRA 250X/LX/260

Complete precision machined steering systems feature a watertight o-ring bearing box and adjustable quick-turn steering. These systems are significantly stronger than the stock units. Includes off-throttle steering sensor bracket.

Description	Part No.
UMI Ultra 250X/LX/260 Steering System	KA-04608-250X

MACC RACING ULTRA 250/260X STEERING MOUNT 1/2 STYLE

The Macc Racing Ultra 250x steering wheel mount is a stronger and more aggressive alternative to the OEM Kawasaki steering system, made with the highest quality material improve the handling and overall feel of your 250x.

Description	Part No.
Macc Racing Ultra 250X/LX/260 Steering Mount	MR-0087

RIVA ULTRA 250X/LX/260 STEERING COLUMN COVER

This lightweight cover fills the large void left when the stock steering system is removed. Designed for use with UMI Steering System and highly recommend when using RIVA Pro-Series Power Filter Kit (part# RK13096).

Description	Part No.
RIVA Ultra 250X/LX/260 Steering Column Cvr	RK5-SCC-090

SKAT TRAK HEAVY ARMOR ULTRA 250/260X STEERING CABLE

The Skat-Trak "Heavy-Armor" steering cable directly replaces the stock steering cable that is prone to failure on modified Kawasaki Ultra 250X's. At twice the thickness, this heavy-duty steering cable is more durable and reliable when compared to the stock steering cable. Comes complete with stainless steel ball joint cable ends for easy installation and adjustment.

Description	Part No.
Skat Trak Heavy Armor Ultra 250/260X Steering Cable	PRSTKAWU250A

DCR ULTRA 250X/260X AFTERMARKET BILLET HANDLEBAR ADAPTER

DCR has developed this billet aluminum handlebar adapter to allow a rider the ability to install aftermarket handlebars on the Kawasaki Ultra 250X and 260X. This simple conversion will greatly improve steering and control.

Description	Part No.
DCR Billet Handlebar Adapter	DC-HA-KU

RIVA RACING ULTRA 250X/LX/260 PRO-SERIES SPONSON KIT

Delivers a significant improvement over the stock sponsons with superior blade design and backing plate. Includes a bulletproof mounting system that features three anchor points with billet inserts in sponson fins. Backing plate is precision machined from high strength billet aluminum that is anodized to prevent corrosion. Sponson depth is adjustable to control the amount of influence they have on the craft. Easy installation requires no drilling.

Description	Part No.
RIVA Ultra 250X/LX/260 Pro-Series Sponson Kit	RK26090

R&D ULTRA 250X/LX/260 SPONSON KIT

The R&D Ultra 250 Sponson Kit will deliver higher top speed performance and a much smoother and more predictable ride over O.E.M. sponsons. Low speed and high-speed turns are a breeze with new found control. The secret to R&D's new generation concept is in the backing plate design with an aftermarket first, low pressure, low friction concept that breaks up and relieves speed robbing drag within the sponson's backing plate channel. The new R&D design staggers the sponson blades fins water trapping area to pick up less water in the front and more in the back. The stagger/step-up concept greatly reduces chine walk in high speed corners, while allowing more rear end grip. There is also a higher end recreational/race setting with enough grip for the best of pro's! More top speed due to less drag, less chine walking, racer preferred rear end grip, and unmatched straight line stability.

Description	Part No.
R&D Ultra 250X/LX/260 Sponson Kit	121-25001

R&D ULTRA 250X/LX/260 AQUAVEIN SCOOP GRATE

The new R&D Kawasaki Ultra 250 Aquavein Intake Grate Kit has been

designed and developed with all new performance concepts in mind to deliver the ultimate handling and speed performance in recreational, offshore, and closed course race conditions. The new R&D Ultra 250 Aquavein has been extensively offshore, race track, and 1 and 2 up recreational tested to guarantee reduced cavitation and maximum pump hook up in any condition. The R&D Ultra 250 Aquavein will deliver quicker acceleration, higher top speed performance and a much smoother and more predictable ride over the O.E.M. intake grate in rough water conditions. Low speed and high-speed turns are a breeze with new found control.

Description **Part No.**
R&D Ultra 250X/LX/260 Aquavein Scoop Grate **111-25000**

RIVA RACING ULTRA 250X/LX/260 TOP-LOADER INTAKE GRATE

Our top-loader intake grate features a unique tapered wing design that eliminates prop spin and cavitation while

delivering enhanced acceleration and top-speed. Deep side rails improve stability and handling. Durable black race coating protects from corrosion. Race Legal. *Fits all Ultra Models.*

Description **Part No.**
RIVA Racing Top-Loader Intake Grate **RK22090**

R&D ULTRA 250X/LX/260 ALUMINUM PERFORMANCE OFFSHORE RIDE PLATE

The R&D Kawasaki Ultra 250X Ride Plate has been fashioned after our GP-1200R & Kawasaki 15-F plate designs with a few new tricks. The Ultra 250X ride plate is extended 30mm and re-angled over stock to reduce porposing while the new R&D stepper concept will add top speed. R&D's Ride Plate concepts are the only aftermarket designs to dominate in Offshore, National, and World Championships, and to be used and endorsed by Factory Yamaha and Kawasaki racing teams! The new Ultra 250X ride plate from R&D is "The Perfect Ride plate" with a great balance of speed and handling with no compromises.

Description **Part No.**
R&D Ultra 250X/LX/260 Cast Alum. Ride Plate **121-25000**

RIVA RACING ULTRA 250X/LX PERFORMANCE RIDE PLATE

The new Riva Racing Ultra 250X/LX

Performance Ride Plate design allows craft to plane faster increasing acceleration & top-speed as well as improving handling in all types of water conditions.

Description **Part No.**
RIVA Racing Ultra 250X/LX Performance Ride Plate **RK21090**

R&D ULTRA 250X/LX/260 PUMP SHOE SEAL KIT

The R&D Pump Shoe Seal kit for the Ultra 250 is now available. The three piece Seal Kit stuffs up the unwanted cavities in the pump shoe and the oem intake grate that aid in producing cavitation. This kit allows you to seal up the area between the

intake grate and pump shoe, which will reduce cavitation and increase pump efficiency and performance.

Description **Part No.**
R&D Ultra 250X/LX/260 Pump Shoe Seal Kit **161-25000**

R&D ULTRA 250X/LX/260 1 DEGREE NOZZLE WEDGE KIT

The R&D 1 Degree Reduction Nozzle Wedge Kit for the Ultra 250X/LX will add quicker acceleration and top speed performance as well as allow the bow to ride slightly higher which will significantly reduce annoying bow spray promoting a much dryer ride.

Extensive testing has led our development team to wedge the reduction nozzle up 1 full degree which will inexpensively give better handling everywhere and provide a boost of up to 1 mph in top speed performance. The billet aluminum CNC machined 1 degree reduction nozzle wedge kit was specifically designed to work without compromising or removing the O.E.M. reverse gate. The R&D Pump Wedge Kit comes complete with all the necessary hardware and instructions for easy installation.

Description **Part No.**
R&D 250X/LX/260 One Degree Nozzle Wedge Kit **141-25001**

R&D ULTRA 250X/LX/260 DRIVESHAFT SHIM KIT

The R&D driveshaft shims install into the prop snout and removes the unwanted play or float in the driveshaft in the prop/pump assembly. Properly shimming the driveshaft will keep the driveshaft couplers fully engaged eliminating premature rubber dampener wear and failure.

Description **Part No.**
R&D Ultra 250X/LX/260 Driveshaft Shim Kit **161-00810**

R&D ULTRA 250X/LX/260 ANTI-CAVITATION PUMP CONE KIT

The R&D Anti-Cavitation Pump Cone Kit was developed to reduce overall internal pump cavitation within the Ultra 250's offset reduction/compression nozzle design. The O.E.M. Reduction/Compression nozzle is

offset 5 degrees, while the pump cone/bearing cap remains straight which causes uneven pressures within the pump and reduction nozzle. The R&D Anti-Cavitation Pump Cone is offset 5 degrees and reshaped to match the O.E.M. reduction nozzle offset promoting even pressures, which will substantially reduce cavitation, increase pump hook up, boost acceleration, and increase top speed performance.

Description **Part No.**
R&D Ultra 250X/LX/260 Anti-Cavitation Pump Cone Kit **161-25010**

Kawasaki	Carb	Flame Arrestor	Part No.
750	Mikuni 44mm	K&N	53-0830
750	Mikuni 46mm	K&N	53-0840

All carburetor kits are assembled with the above listed K&N Filters or Tau Ceti Pro Series II Flame Arrestors, the filter size and shape is the best fit based on the watercraft model.

HOT PRODUCTS KAWASAKI SINGLE MIKUNI CARBURETOR KITS

Kawasaki	Carb	Flame Arrestor	Part No.
750 All	Mikuni 44mm	K&N	53-0820
750 All	Mikuni 46mm	K&N	53-0825

All carburetor kits are assembled with the above listed K&N Filters or Tau Ceti Pro Series II Flame Arrestors, the filter size and shape is the best fit based on the watercraft model.

RIVA YAMAHA RACING CARBURETOR WITH POWER BOMB FUEL ATOMIZER

Riva Yamaha new racing carburetors feature a short threaded air bell that tapers from a massive 70mm to a true 48mm throttle plate. Starting with proven Mikuni Super-BN carburetors, each one is hand assembled with top shelf components. At the heart of carburetor is Riva's exclusive "Power Bomb" fuel atomizer, providing peak performance under all conditions. Hesitation and bogging are eliminated while delivering explosive acceleration and extreme top speed. Available individually with flange mounting applications..

Description	Part No.
48mm Flange Mount	RY1200R-48-IF
Butterfly Rebuild Kit	RY12-TSRK

MIKUNI HIGH VOLUME FUEL PUMP

16 gallons/61 Liters per hour

Description	Part No.
Fuel Pump	53-3328
Fuel Pump Repair Kit	53-3328RP

**Fuel pump is not included

CARBON REMOTE FUEL PUMP BRACKET

Use this ultra sano 100% carbon fuel pump bracket when adding remote fuel pumps. Lightweight and burly, this is the key to your mounting problems without adding weight or stress to the engine compartment.

Description	Part No.
Fuel Pump Bracket	01-02-556

MIKUNI FUEL PUMP BLOCK OFF

Block off plates sold individually, one block off plate only, no bolts are included with the block off plate.

Description	Part No.
Mikuni Fuel Pump Block Off	53-3330

#48 GOLD BAND

#53 BLACK BAND

SPIGOT MOUNT FLANGE FOR MIKUNI CARBURETOR

For easier removal and installation of carburetor for jetting and maintenance. Recommended to use with side draft manifold only.

FUEL TANK FILTER

Description	Part No.
A. Universal Fuel Tank Filter (Replaces Sea Doo #275-500-005)	53-9946
B. Universal Fuel Tank Filter (Replaces Yamaha #8H5-224560-00)	006-516
C. Sea Doo Fuel Filter Tank Filter (Replaces Sea Doo #275-500-089)	006-510

R&D ULTRA 250X DEEP FUEL PICKUP

The R&D Deep Fuel Pickup is designed to maximize fuel volume. The stock fuel pickup is located horizontally in the gas tank three inches above the bottom of the tank. This leaves approximately 5 gallons of unusable fuel in the bottom of the tank. The R&D Deep Fuel Pickup relocates the stock fuel pickup to the bottom of the tank in a vertical position. The new positioning allows for 24 percent more riding time per tank of gas. The deep fuel pickup is an absolute must for offshore racing.

Description	Part No.
R&D Ultra 250X/LX Deep Fuel Pick Up	801-25100

RIVA HIGH VOLUME FILTER

3/8" Fuel Line.

Description	Part No.
3/8" Riva High Volume Filter	RY-0503

2" SLIMLINE WITH BRONZE ELEMENT

Clear nylon housing and bronze 75 Micron Element. 2" length. 1/4" Fuel Line.

Description	Part No.
2" Slimline with bronze	53-9952
Retail sales display card with 20 filters	53-9952D

3" SLIMLINE WITH POLYESTER ELEMENT

Lightweight high flow 90 Micron Polyester Element. 3" length. 1/4" Fuel Line.

Description	Part No.
3" Slimline with polyester	53-9953
Retail sales display card with 20 filters	53-9953D

IN-LINE OIL FILTER

75 Micron Stainless Steel Element. 1.3" diameter, 1/4" Fuel Line. This filter works with fuel and oils. Perfect protection for oil pumps and oil injection engines.

Description	Part No.
Stainless Steel filter	53-9943
Retail sales display card with 20 filters	53-9943D

HIGH-CAPACITY HIGH FLOW FILTER

80 Micron Paper Element. 1.6" diameter, 1/4" Fuel Line.

Description	Part No.
High Flow Paper Filter	53-9945
Retail sales display card with 20 filters	53-9945D

RIVA FUEL FILTERS

OE replacements fit stock mounting bracket in all Yamaha watercraft these fuel filters also serve as a water separator protecting the motor from water damage

Description	Part No.
OE Replacement filter (all except 66V/E)	RY-0501
OE Replacement filter 66V/E	RY-0502

QUICK DISCONNECT RESTRICTOR

Mikuni main jets thread into the billet part of the restrictor. This kit is used on the return lines of carburetors to fine tune fuel pump pressures.

Description	Part No.
Quick Disconnect Restrictor 1/4"	QD-14

Recommended Main Jets:

Stock Carbs for 1200 (66V) 105
 Novi Carbs for 1200 (66V) 100-120
 Novi Carbs for 701 (61X) 100-120

FUEL RETURN LINE RESTRICTOR 1/4" LINE

Designed to improve throttle response and reduce lean conditions in power band, our new Fuel Return Line Restrictor installs into fuel return line between carburetors and fuel tank, restricting fuel return rate, increasing pressure to carburetors. Precision-machined billet restrictor is threaded to accept a Mikuni Main Jet (not included) to match your application. For use with OEM and aftermarket carburetors.

Description	Part No.
Fuel Return Line Restrictor	RY12-RLR-14

1/4" FUEL LINE & 1/8" PRIMER LINE

Our fuel and primer line is made from a thick walled polyurethane tubing. Both the fuel and primer line is clear blue. Sold per foot or 25 feet packages.

Description	Part No.
Fuel (1/4") per foot	53-9970
Fuel (1/4") - 25 foot package	53-9970-25
Primer Line (1/8") per foot	53-9980
Primer Line (1/8") per foot - 25 foot package	53-9980-25

HOSE PINCHERS

Quick, easy way to pinch off fuel lines, etc, without damaging the fuel line. Sold two per set.

Description	Part No.
Hose Pinchers	LS22850

HOSE SHEARS

Simply Scissor-action cutter for hose. Cuts clean, straight and no damaged hose ends. A must have tool for every toolbox.

Description	Part No.
Hose Shears	59-4020

HOSE REMOVAL PLIERS

For easy removal of 5/32" to 1/2" (4mm to 14mm) hoses. Engage the tube (line) with the black jaw. This sharpened jaw actually "digs" into the tube to grip it! Squeeze, and the hose is easily pushed off by the silver jaw.

Description	Part No.
Hose Removal Pliers	LS47900

FUEL LINE Q/D W/SHUT-OFF VALVE for 1/4" fuel line

Description	Part No.
Fuel Line Q/D w/Shut-off Valve	53-9951

HOSE PINCHER

Clamps and holds hoses up to 3/4" inside diameter. Angled jaws close to create a complete seal every time. Jaws are offset for hard-to-reach areas. The handles lock firmly to hold the jaws in closed position.

Description	Part No.
Hose Pinchers	LS23000

Pincer Tool Part # 59-4015

Fast, Easy, Strong and Secure Installation

Fast & Easy Removal

SQUEEZE ON STAINLESS STEEL LOW PROFILE CLAMPS

Oetiker Stepless Ear Clamps, due to the reinforcing 'dimple' in the ear, hold against pressure and vibration or hose shrinkage due to temperature changes. A built-in spring action permits the clamp to "breathe" without loosening, the need to retighten is eliminated. Once installed, any tampering is easily visible, making

this an excellent clamp for service or security applications.

Description	Clamp Size	Part No.
Pincer Tool	-	59-4015
Clamp for 1/4" Hose (10 pcs/pk)	9/16	59-4016
Clamp for 3/8" Water Line (10 pcs/pk)	11/16	59-4017
Clamp for 1/2" Water Line (10 pcs/pk)	13/16	59-4018

100 Clamp Packs	Clamp Size	Part No.
Clamp for 1/4" Hose (100 pcs/pk)	9/16	59-4016-100
Clamp for 3/8" Water Line (100 pcs/pk)	11/16	59-4017-100
Clamp for 1/2" Water Line (100 pcs/pk)	13/16	59-4018-100

PRIMER KITS

A cure for hard-starting motors. Draws fuel from the fuel line to give the carburetor a blast of fuel for easy starting. Eliminates chokes and adds to battery life. A must on high-performance modified carburetors with eliminated chokes. Hot Products primers are assembled with top-quality materials and include 9 feet of 1/8" blue primer hose to fit sit down craft. USA made top-quality plunger, brass "T" fittings, spigot, caps and zip ties.

BOYESEN PRO SERIES REEDS

- Quicker acceleration for that all important holeshot.
- Crisper mid-range allowing you to pull that extra boat length.
- Carries RPMs further past peak allowing you to run that steeper pitched impeller for increased top end.
- Easy starting and smoother idling for those dreaded no-wake zones.
- Increased life over traditional carbon fiber reeds.

MOTO TASSINARI V-FORCE3 THE FEATURES AND BENEFITS OF VFORCE TECHNOLOGY

The VForce3 Reed Valve System incorporates features you won't find with other system on the market. With such features as twice the reed tip surface, radius cage surface, snap-together construction, proprietary carbon fiber recipes and more. By doubling the reed tip surface the petals now only need to open half as far to have the same flow as a stock style cage. This is a significant advantage when you factor in that a reed petal opens and closes 133 times per second at 8,000 rpm. The petals are only traveling half the distance of a stock style cage, so now fatigue to the petal has been greatly reduced, increasing petal life. This design also enables the valve to drastically improve the entire powerband with a significant boost in the bottom and mid. Instant throttle response is an understatement! The petals now sit on a radius surface to create a "pre-loading" effect that improves an already snappy acceleration. Our new cage design now allows the reed petal tips to be recessed into the cage itself. This allows for a cushioning of the reed tips and also discourages the possibility of any back-flow.

SYMMETRICAL REED PETALS:

The VForce3 now uses symmetrical reed petals for both the inner and outer reed petals. No longer will you need to be concerned with having both "inner" and "outer" reed petals.

SNAP-TOGETHER CONSTRUCTION:

The VForce3 Reed Valve System incorporates the industry's first and only patented snap together reed valve design. The entire assembly is completely screw free, meaning that when reed petals need changing the job is now literally a "SNAP".

CUSTOM AIR-GUIDES:

Custom air guides specific to each individual application ensure the maximum airflow and performance benefits of the VForce3 reed valve system in your pwc.

PROPRIETARY CARBON LAY-UP:

Moto Tassinari continues to test and develop new "recipes" for our carbon fiber used in the VForce3 Reed Valve system. In fact Moto Tassinari specs our own exclusive recipes for all the carbon

fiber we use, you can be assured you'll never get "generic" carbon fiber designed for somebody and something else, when you buy VForce.

TWICE THE REED TIP SURFACE:

The unique and proven design of the VForce3 Reed Valve System doubles the available reed tip surface over a conventional reed valve design. By doubling the effective reed tip surface it enables the engine to get more air with less effort. The number one rule in two-stroke motor modification is More Air = More Horsepower.

AIRFOIL TECHNOLOGY:

The new reed cage design on the VForce3 Reed Valve system incorporates airfoil shaped (flat on bottom/curved on top) reed tip surfaces which in turn increases the velocity of the fuel/air mixture as it passes through and over, creating the optimum fuel atomization.

REED VALVE STUFFERS

- Improves Airflow • Quicker Throttle Response
- Easy Installation

R&D Reed Valve Stuffers significantly increase low-speed air velocity. This dramatically improves low/mid range throttle response and also top end performance. Exclusive internal wing design increases overall velocity through reed assembly.

RACING FLAME ARRESTORS (without Cotton Media)

Experience increased horsepower and engine protection with K&N Personal Watercraft flame arrestors for both normal and race applications. K&N "RACING ONLY" flame arrestors have an epoxied screen filter that does not have the cotton media.

K&N flame arrestors replace the restrictive factory airbox. In most cases an adapter is required (for adapters see pages 30 & 31) to mount the flame arrestor onto the carburetor. Some watercraft may require a slight adjustment to the carburetor's fuel circuits to allow for optimum performance.

Outerwears Racing Accessories

The Outerwears Pre-filter is an excellent solution to prevent water from entering into the engine without restricting air flow or causing a loss in performance. An Outerwears Pre-Filter is designed to be water repellent and will reduce the risk of water entering through an air intake system. Outerwears offers water repellent pre-filters for K&N, Tau Ceti, ProK and R&D performance air filters and flame arrestors.

HOT PRODUCTS RACING POWER FILTERS

by Tau Ceti

Tau Ceti's new Pro Series II Flame Arrestors are constructed from top quality materials such as aircraft grade aluminum, stainless steel, and a superior quality rubber base. This Flame Arrestor is designed with both duration and superior performance in mind. Using an extremely light anodized aluminum top in Silver, Black, Blue, Green and Red and a stainless steel mesh, this product is 100% corrosion resistant. With our free flowing, **stainless steel mesh**, we achieved an increase in acceleration and a much better throttle response. The universal rubber mount will fit any personal watercraft with a stock carburetor using the appropriate adapter (for adapters see pages 82 & 83). No re-jetting is necessary on stock boats.

HOT PRODUCTS TORNADO SERIES FILTERS

by Tau Ceti

The all new Hot Products Tornado Series Filters by Tau Ceti is the newest performance filter available for the pwc performance industry. The new Tornado Series Filters feature a velocity cone with proprietary designed air channels to increase the air flow into the induction system. These filters are made using the same top quality materials as the Tau Ceti Pro Series Filters. The new filter is a cone design and is .500" taller than the current 2" Tau Ceti Pro Series Filter allowing for use many engine applications. The velocity cone is clear/smoke color and the filter top features an aluminum filter top ring. The universal rubber mount will fit any personal watercraft with a stock carburetor using the appropriate adapter (for adapters see pages 82 & 83). No re-jetting is necessary on stock boats. The filter tops are currently available in silver and black. Each filter includes a filter clamp for installation.

GP 1300R POWER STACK AIR FILTER KIT

The R&D GP 1300R Power Stack Air Filter Kit is designed to assemble on to the front of the OEM air plenum box. The R&D Power stack adds bottom and mid range power performance while increasing engine RPM's.

Yamaha **Part No.**
GP 1300R for Stock Box **200-13100**

RIVA POWER FILTER FOR GP1300R

Power filter fits directly onto OEM air box assembly. Kit comes with water repellent filter.

Yamaha **Part No.**
Flame Arrestor, Power Filter Kit GP1300R (60T) **RY1312**

PERFORMANCE FILTER KITS FOR FOUR STROKE MOTORS

FOR ADDITIONAL 4-STROKE PRODUCTS SEE THE FOUR STROKE SECTION

R&D 12F/15F FLAME ARRESTOR

The R&D filter kit will unleash horsepower trapped in the restrictive stock air box. The exclusive lightweight filter design couples to the OEM throttle body, and is engineered with a large plenum to deliver massive cubic air volume and improved air speed. Kit comes complete with all necessary hardware.

Kawasaki **Part No.**
R&D 12F/15F Flame **215-15011**
Arrestor (Replacement for R&D #215-15010)

R&D REPLACEMENT PERFORMANCE FILTER

The new R&D Replacement Performance Filter replaces the stock restrictive perforated filter plate and allows for improved airflow. Amounts directly into the stock filter box and retains the OEM look. The improved airflow increases throttle response, RPM, and top speed.

Kawasaki **Part No.**
STX-12F/15F **215-15000**

RIVA ULTRA LX/STX-F PERF. POWER FILTER KIT

- Increases airflow and power.
- Installs easily.
- Mounts directly onto stock throttle body.
- Built to our specifications by K&N.
- Includes two smaller K&N filters for engine breather hoses and water repellent pre-filter cover for primary filter.

Kawasaki **Part No.**
Performance Power Filter **RK13085**

R&D POWER PLENUM FLAME ARRESTER

The R&D High Flow Power Plenum replaces the restrictive stock flame arrester allowing more improved airflow, why? Because more air flow with less restriction means more power!

Yamaha **Part No.**
FX 140/Cruiser **200-00144**
FX HO/Cruiser

R&D HIGH FLOW POWER PLENUM AIR BREATHER

The R&D High flow breather is a direct replacement for the stock breather in the OEM air box. Water tested to deliver improved throttle response, acceleration and top speed with 50-100 RPM increase.

Yamaha **Part No.**
FX 140/Cruiser **200-00143**
FX HO/Cruiser

VELOCITY STACK KIT

The R&D Velocity Stack Kit is a direct bolt-on kit that replaces the restrictive OEM stacks. Designed to increase air velocity into the throttle bodies producing improved throttle response and top end speed. Easily installs with OEM hardware.

Yamaha **Part No.**
FX 140/Cruiser **206-00140**
FX HO/Cruiser

VX110 PERFORMANCE AIR FILTER KIT

The new R&D Performance Air Filter for the VX 110 is now available. The R&D High Flow Filter design replaces the restrictive stock filter inside the stock air box, allowing improved air flow. Why? Because more air flow means more power and improved performance.

Yamaha **Part No.**
VX110 for Stock Carb Air Box **200-00110**

VX110 POWER FILTER KIT

Screen-type filter element replaces restrictive stock air filter. Extended intake tube draws cooler air into engine significantly improving performance. Includes pre-filter.

Yamaha **Part No.**
VX110 Power Filter Kit **RY13030**

A complete line of motor mounts designed specifically for heavy duty watercraft applications. Monkey Grip Motor Mounts are designed to be stronger than OEM mounts, yet able to dampen and isolate vibration far better than performance mounts currently available. This combination of durability and performance make Monkey Grip the right choice. Monkey Grip Motor Mounts are available for all popular watercraft.

**BLOWSION ENGINE KEEPERS
JOE KENNEY DESIGN**

Kenney Keepers are a must have for any hardcore surf or flat-water invert artist. Each set contains a left and right side front mount retainer and extended stainless hardware for install. Our unique close tolerance design retains the front, "top heavy" weight of the engine block from being flexed or thrown forward during flat out and invert maneuvers. Since this is a common occurrence (even in flat water racing action), we have also found them to be excellent insurance against ever having to replace expensive engine mounts again.

R&D Pro Series Cast CNC Machined heads are an economical alternative to the remachining of the Stock OEM Head, which many times crack and don't seal or cool properly after being modified. Pro Series Heads incorporate larger water volumes, improved circulation for superb cooling and O-Ring design for maximum sealing.

ADA KAWASAKI 750/800 BIG BORE GIRDLE KIT - SPECIAL ORDER ONLY

The ADA new Billet big bore head is available in both a Non-Girdle Big Bore Head Shell and a Girdle Big Bore Head Shell. Domes will fit up to an 85mm bore size and they are notched to fit around the head studs to allow for a larger compression sealing o-ring than the standard domes.

Big bore domes for the Kawasaki 750/800. Squish relief is .010" @ 85mm with a 4 degree angle. These are a larger diameter than the ADA standard 750/800 domes and are machined to fit around the head studs.

PERSONAL WATERCRAFT KITS

All pistons are high quality forged alloy and include rings, taper wall wrist pins and circlips.

L.A. Sleeve produces a complete watercraft line of two stroke centrifugally spun iron cylinder sleeves. LASCO sleeves with exact port specifications, chrome-moly iron alloy, high tensile strength material provide the rebuilder with ease of installation, trouble free boring and a lasting long life engine.

The ★ column, next to the sleeve part number, will help the rebuilder identify the cylinder that is to be sleeved. The ★ column designation will also help the rebuilder to determine the proper installation procedure.

★ Column Code Explanations:

- AC** – Original cylinder bore is alloy-chrome plated, Nikasil, or electrofused. The cylinder must be bored to accept the new cylinder sleeve.
- CS** – Original block has a cast-in sleeve liner in the cylinder. The cylinder must be bored out to accept the new cylinder sleeve. The cast-in liner will be bored completely out of the cylinder. Do not try to push out the cast-in liner, cylinder damage may be the result.
- CI** – Original block has a cast-in liner in the cylinder. The cylinder must be bored to accept the new cylinder sleeve. When using a CI style sleeve the cast-in liner will not be completely removed. The sleeve is designed to insert into the iron lined cylinder.
- RS** – Original block has a replacement sleeve. Heat the cylinder to remove the sleeve. Reheat the cylinder to install the new cylinder sleeve.
- CC** – Original barrel is cast-iron. The cylinder must be bored to accept the new cylinder sleeve.

General Rules for Sleeve Installation:

These tips are intended to be a guide for installing sleeves into cylinders. There are always exceptions to the rule and care must be taken on special applications.

ALWAYS WAIT UNTIL THE SLEEVE ARRIVES BEFORE BEGINNING ANY MACHINE WORK. NEVER ASSUME THAT THE STATED MODEL AND YEAR OF THE CYLINDER IS CORRECT. ALWAYS CHECK TO SEE IF THE SLEEVE PORTS MATCH THE CYLINDER PORTS.

1. Interference fit for cylinder sleeve to aluminum bore is .004.
2. Interference fit for cylinder sleeve to a cast iron bore is .002 to .003.
3. Installation of flanged type sleeves follow the same rules, but the top of the cylinder must have a countersink to the correct depth to accept the flanged sleeve. .000 to .001 interference fit on the flange diameter is recommended.
4. Heating the cylinder for 45 minutes to one hour at 350 degrees to 450 degrees is preferable.
5. The sleeve should slide in very easily when the cylinder is properly heated. Freeze shrinking the sleeve is not necessary. (Some machinists believe this assists installation of the sleeve.)
6. **REMEMBER:** Rap or press the sleeve down while the cylinder is cooling down. Use a hydraulic press for this procedure.
7. Milling the top deck of the cylinder always adds a quality touch. A caution here, some cylinders may not be able to have the top surface decked.
8. For two-stroke cylinders, blending or matching the aluminum cylinder to the sleeve ports is recommended for proper fuel flow.

PRO-X

PRO-X PISTON KITS

Pro-X Piston Kits are manufactured in Japan and are designed to be an O.E.M. replacement. The aluminum alloy used in the manufacturing of Pro-X pistons maintains or exceeds the factory specifications. Additional oversizes are available in .010 increments up to .080 (2.00 mm).

* - Rings are available for all pistons. For Rings Part Number, put "R" after piston part number.

RACETEMP® SAVING MOTORS EVERYWHERE!

Detect overheating and monitor engine components with the Racetemps® temperature monitoring device. Racetemps® is a small visible strip that enables machine operators to quickly and accurately determine the temperature of vital components such as: radiator, cylinder, rear shock body, clutch housings and more. This product aids in vehicle maintenance, monitoring and troubleshooting.

Temperature ranges of 107-217 & 138-248 degrees fahrenheit

Accurate within 1-2 degrees

Reversible thermometer with long lasting adhesive

Aids in maintenance and diagnosis

Know it before you blow it!

TBM 800 SXR COPPERBASE GASKETS

Boost your stock SX-R 800 compression between 10psi to 20psi over stock with these copper base gaskets without sacrificing reliability. Test results confirm an increase in acceleration and midrange power without losing peak RPM.

2006 Stock Class legal.

Kawasaki 800 SX-R	Part No.
Copper Base Gasket .005	TBM125-005

TBM 800 SXR POLY BASE GASKETS

.010" poly base gasket gives you an alternative to the TBM .005" copper base gasket if you would like to run higher port timing. Some tuners will prefer this gasket over the copper depending on the variations in port heights in the stock cylinders.

2006 Stock Class legal.

HYDRO-TURF OIL EXTRACTOR

The unit uses a small vacuum system, which pumps fluid through a hose to the 6-liter reservoir. It also includes a pour spout to aid in emptying the reservoir. Pump is removable for easy storage.

Description	Part No.
Hydro-Turf Oil Extractor	OIL01

SCEPTER FLEXIBLE FUNNEL

Scepter's flexible funnel is perfect for all your PWC uses and really helps perform those difficult maintenance and repair applications. Manufactured from quality, high density polymers: the funnel won't rust, dent, or crack. This means no drips and leaks for you to clean up after your done. The funnel length is 18".

Description	Part No.
Scepter 18" Flexible Funnel	MR03603

RULE FLAT TANK ELECTRIC OIL EXTRACTOR

Eliminate those costly yard service fees with the new quick, clean, compact electric oil extractor. Includes a 3-1/2 gallon compact self-priming diaphragm pump for extraction and an easy pour spout for oil transfer.

- 3.5 gallon (13 liter) leak proof container
- Designed for ease of carrying
- Complete with dipstick, suction tube & battery clamps
- Empties and stows easily
- Self-priming, dry running, 12 or 24 volt diaphragm pump

Description	Part No.
Electric Oil Extractor	17860-0012

MOELLER MARINE PRODUCTS FLUID EXTRACTOR

- Empties oil in 15 pumps or less
- Extracts warm or cold oil
- Pressure relief valve allows easy transportation and storage
- Single-hand-ease effortless operation
- Feathered cap
- Delivers gulp-free, mess-free performance
- Complete adapter kit is included featuring three extraction tubes

Description	Part No.
Moeller Oil Extractor (6.5 Liter Fluid Extractor)	MR07398
Moeller Fluid Extractor Tube Replacement Kit	MR08032

*Note: Not for use with gasoline.

JP ENGINEERING HEADPIPE SCREW KIT AND REPAIR KIT FOR FACTORY PIPE EXHAUST SYSTEMS

This kit is designed to replace the water adjustment set screws supplied with Factory Pipe products exhaust systems utilizing their tunable headpipe. The Stainless Steel set screws are machined to the same dimensions as the screws available from Factory Pipe.. This kit will directly replace all three #10-32 set screws in the headpipe. This kit will fit exhaust systems: Yamaha B Pipe for Super Jets and Blasters, Kawasaki 750SX, 650SX, and X2.

RIVA FREE FLOW EXHAUST KITS

Replaces the restrictive sound suppression system on GPR and XLT models. Provides reduced back-pressure that improves engine's performance and reduces harmful detonation. Easy installation with noticeable results. IJSBA Superstock legal.

Yamaha	Part No.
Free-Flow Exhaust Kit, GP800R/1200R	RY1620
Free-Flow Exhaust Kit GP1300R	RY1613
Free-Flow Exhaust Kit FX/FXHO (All Models)	RY1625

R&D SOUND SUPPRESSION REMOVAL TUBE

R&D is now producing the new Sound Suppression Removal Tube for the GPR. This modification allows the

exhaust to free flow out of the water box adding bottom end punch and overall performance. Replacing of the stock plastic sound box with the R&D Sound Tube will eliminate potential melting failures in limited and superstock modified applications. Easily installs, no cutting of hoses necessary.

Description	Part No.
GP1200R/1300R Sound Suppression Removal Tube	332-12001

R&D FX-SHO/FZR/FZS O2 SENSOR MOUNT KIT

The new R&D O2 sensor mount kit makes installing an AFR gauge a breeze on the Yamaha FX-SHO, FZR, FZS, FX140, HO,

GPR, and VX110. It simply replaces the OEM plug and installs directly into the OEM pipe without any modifications. Kit comes complete with installation tool. AFR gauge sold separately.

Description	Part No.
FX-SHO/FZR/FZS/FX140/HO/GPR/VX110 O2 Sensor Mount Kit	332-18010

RIVA CAT TEMP SENSOR CHIP FOR YAMAHA GPR 1200 & 1300

RIVA Cat Temp Sensor Chip is a must when removing the OEM catalytic converter on Yamaha 1200 & 1300 Powervalve engines. The circuit is designed to mimic the signal sent to the OEM CDI by the catalytic converter's temperature probe preventing CDI, flutters, warning devices and engine shut downs due to cat removal. Can be used with stock or modified OEM CDI's. Plugs directly into factory wire harness.

Description	Part No.
Cat Temp Sensor Chip	RY115-20
Yamaha 1200/1300 Powervalve (66V/66T)	

R&D D-PLATE FOR YAMAHA GP1200R/GP1300R, XLL/XLT1200

The new R&D D-Plate takes the place of the stock catalytic converter and delivers the best overall low, mid, peak and overall horsepower. The benefits include reducing engine compartment temperatures created by the catalytic converter and reliability of the complete stock exhaust assembly.

Description	Part No.
R&D D-Plate	332-12000

CATALYTIC CONVERTER REMOVAL PLATE FOR YAMAHA GP1200R/GP1300R, XLL/XLT1200

This plate allows you to remove the catalytic converter easily and fills the gap where the catalytic converter mounts on the OEM exhaust system. Benefits include a cooler running exhaust system and ability to run any kinds of two-stroke oil. The plate features a centrally located outlet designed to give some beneficial back pressure but with much better exhaust gas flow compared to an offset or cutout plate. This gives better response and acceleration throughout the power band.

FOR COMPETITION USE ONLY.

Description	Part No.
JetWorks Catalytic Converter Removal Plate	YE-155P

A. Yamaha Exhaust Splitter Only	01-01-555
B. Yamaha Side Exhaust Outlet	01-01-554

MT-DUAL-2

MICRO TOUCH DUAL OUTPUT WATER CONTROLLER FOR 2-CYLINDER WATERCRAFT

For injecting water into pipe and waterbox (or stinger) independently. Improve acceleration. Additional exhaust back pressure can increase top end power without sacrificing bottom end. Features Include:

- Adjustable Output for 2 Water Injection Solenoid —
 - #1: 4 ON Settings from 1,500 to 3,000 RPM; 16 OFF settings from 4,000 to 7,000 RPM.
 - #2: 4 ON Settings from 5,000 to 7,000 RPM, OFF at 10,000.
- Senses Engine RPM from Spark Plug Wire

Description	Part No.
Dual Output Water Controller	MT-DUAL-2

R&D KAWASAKI 800 SXR EXHAUST POWER SLEEVE

The new R&D billet aluminum Exhaust power Sleeve is designed to insert into the stinger of the stock exhaust to reduce the stinger size thereby increasing back pressure. This is a simple installation that will increase top speed and add 100 RPM.

Description	Part No.
Kawasaki 800 SXR	331-80000

YAMAHA GP 1300R EXHAUST POWER SLEEVE

The R&D GP 1300R Exhaust Power Sleeve will add a serious boost to low end and mid range horsepower and performance! The R&D Exhaust Power Sleeve installs between the exhaust chamber and the catalytic housing to increase sonic wave energy! The R&D

Exhaust power Sleeve will add the Y.P.V.S. (power valve) feel to the 2005 Yamaha's non-power valve engine!

Description	Part No.
Yamaha GP 1300R Exhaust Power Sleeve	332-13001

SEA DOO 951 EXHAUST END STINGER

Simple exhaust end modification provides power gain.

Description	Part No.
Sea Doo 951 Exhaust End Stinger	52-3089

FUEL TANK BRACKET FOR SJ96+

This bracket attached on Super Jet Fuel Tanks utilizing OEM Fuel Tank Rubber Strap. Bracket holds MSD Water Control system (pre-drilled), Micro Touch Water Injection System and etc.

Yamaha	Part No.
Yamaha Superjet Fuel Tank Bracket	115849

WATER SOLENOIDS

Water fittings not included.

Description	Part No.
Poded Sealed Solenoids (Waterproof)	PSOL-10

JETWORKS FLOW CONTROL VALVE

The Flow Control Valve provides improved throttle response and much quicker starts by drying out your waterbox at low rpm and idle speeds. Tests have shown an average acceleration improvement of 10 feet over a non-equipped model in the first 50 feet. The Flow Control Valve allows unrestricted water flow to the Stinger for better top speed. Yet it controls the amount of water at low speeds for better response. It also allows for an easier tuning of the Carburetors. It does not interfere with normal engine or exhaust pipe cooling and is compatible with all electronic water injection systems. Race Legal for All Classes. Two Models are available. Both are adjustable. The Standard Flow Control Valve is preset at 3.5 p.s.i. and is adjusted by adding the supplied stainless steel shims to increase the spring tension. The Pro-Series is externally adjustable by turning the outer housing by hand. Pressure can be tested with pop off gauge. All PWC w/OEM or aftermarket exhaust systems (except Yamaha's w/OEM exhaust)

Description		Part No.
Standard Flow Control Valve	3/8"	52-3118
Pro Flow Control Valve	3/8"	52-3119
Pro Flow Control Valve	1/4"	52-3122

JETWORKS QUICK DISCONNECT WATER RESTRICTOR

QD-38 comes with 4/3/2mm restrictor inserts used for controlling water flow through exit passes, stinger, head pipes, etc. QD-14 is for use with Mikuni Jets (not included), and allows quick change in small increments of water flow.

Description	Part No.
Quick Disconnect Water Restrictor 3/8"	QD-38
Quick Disconnect Water Restrictor 1/4"	QD-14

RIVA EXHAUST STINGER WATER FILTER/RESTRICTOR

Features fine mesh stainless filter screen that is threaded to accept Mikuni main jet (not included) for water restriction. Allows removal of restrictive filter screen in water distribution manifold of single, twin and triple exhaust systems, providing increased cooling water to motor.

Description	Part No.
Exhaust Stinger Water Filter/Restrictor 3/8"	RY15-SF38

JETWORKS GP1200R/XL1200LTD FLOW CONTROL ADAPTER KIT

Our adapter kit is designed to improve bottom end response and get the craft into high speed quickly and gives more acceleration out of turns.

By allowing the craft to get up on a plane quicker, less time is spent pushing or plowing the craft through the water. This is especially true on the XL models. The quicker you get the craft up and on the water, the quicker the boat will accelerate because you can use or free up the horsepower that is being used up to displace or push aside the water. The water drag - frictional loss of the wetted surface - is reduced and this is when the craft actually starts to really accelerate.

One of the main reasons the GPR and XL are sluggish or experience a lag on acceleration is due to the large amounts of water that enter the water box. This water backs up in the water box to be purged or blown out upon acceleration. The water box can hold a considerable amount of water. This can not be purged or blown out since the hoses and resonators are located at a higher level than the water box. The water must be pushed upwards and through the resonators. Since the water box is fairly large it can hold a good amount of water. It is not until all this water is blown out that the exhaust can be free flowing. During all this time the craft is trying to get on a plane which causes more load on the engine and further lengthens the process.

What we do is to block the water reaching the original spray orifices and use a water pressure sensitive flow control valve to control when water is injected through the OEM stinger outlet. By using this kit, you can reset the RPM when you want the water to start flowing. By setting the RPM point to 3400 RPM, you have eliminated the water flow at idle and in a sense have a dry water box upon acceleration. The craft can now get on a plane quicker and accelerate much much quicker. We don't need water flow below these RPM's mostly because the firing pulsations are too weak and too far apart to create any considerable heat at this location (too far away). This also increases acceleration in the mid-range to upper mid-range and greatly improves acceleration coming out of turns. This is accomplished primarily because we also have completely shut down the water flow through the orifices in the OEM stinger outlet at the moment of deceleration.

(NOTE: This kit is designed to be used on watercraft that have a catalytic converter removed and also using a straight tube in place of the plastic sound suppression resonators.)

There are two kits available: The 155-SPK kit requires the removal of the cooling system overheat sensor. The 155-SPK-TS kit retains the overheat sensor but requires you to drill and tap the water jacket of the exhaust system and install a calibrated bypass fitting on the craft. This kit comes complete with all the bypass fittings, hoses, tees and clamps.

R&D BILLET EXHAUST VALVES FOR GPR

The new R&D Billet Exhaust Valves reduce the clearance between the valve and piston. this reduced clearance improves the seal which boosts the valve down compressions ratio delivering greater bottom and mid-range power. Directly replace OEM YPVS valve units.

Yamaha	Part No.
GP800/GP1200R Exhaust Valve Kit (each)	332-12002
Exhaust Valve Arm Only	332-12003
GP1300R Exhaust Valve Kit (each)	332-13000

BILLET EXHAUST NOZZLE FOR 800SXR

This is one ultra sano nozzle. Function and fit are Blowsion perfect. Vanity rules on these beauties. Blowsion logo engraved into the extruded design. Available in clear, green, red or black.

Kawasaki	Part No.
Clear	04-03-208
Green	04-03-204
Red	04-03-207
Black	04-03-201

REPLACEMENT EXHAUST VALVE PARTS FOR SEA DOO

Sea Doo	OEM No.	Part No.
C. Exhaust Valve Piston	420-253-255	010-495-15
D. Exhaust Valve Piston	420-854-449	010-495-10
E. Exhaust Valve Bellow	290-260-723	010-495-05

BILLET EXHAUST NOZZLE FOR SUPERJET 96+

This is one ultra sano nozzle. Function and fit are Blowsion perfect. Vanity rules on these beauties. Blowsion logo engraved into the extruded design. Available in clear, blue, black or 2004 Superjet red.

Yamaha	Part No.
Clear	04-03-258
Blue	04-03-252
Red	04-03-257
Black	04-03-251

HOOD BAFFLE INSERT FOR FACTORY PIPE 800 SX-R

Use this composite drop in baffle insert to cover the area removed during installation of the factory pipe dry pipe for Kawasaki 800SX-R.

Description	Part No.
Hood Insert 800 SX-R	05-02-108

R&D SPACE MAKER HOOD INSERT FOR YAMAHA SUPERJET

This insert allows you to remove a portion of the stock hood inner liner and foam, replacing it with the Space Maker Hood Insert creating the extra clearance needed to run the Super Jet Dry Pipe.

Description	Part No.
Yamaha Super Jet	652-70110

RIVA STX-F BILLET EXHAUST TIP

Replaces plastic exhaust outlet cover. Made from billet aluminum. Anodized to prevent corrosion.

Kawasaki	Part No.
STX-12F/15F	RK16086

DYNAFLY

All Around Performance Impellers for High Power Applications. A new blade geometry is specially designed for high compression ratio jet pump system to achieve excellent holeshot acceleration, and top end performance. Impellers for Sea-doo 951cc pump and Kawasaki Ultra 150.

XPROP

High Speed, High Performance Impeller Series Solas Xprop gets you the most powerful drive in the water from advanced designs that incorporate a high compression hub design and cambered blades. Every novice, expert or Pro looking for speed and acceleration will use the Xprop.

CONCORD

The Power Torque Series. In 1998, Solas introduced Concord series of impellers featuring new radial leading edge with Solas innovative blade design. In choppy water this unique impeller series will enhance your all-range maneuverability without slippage. On the other side of the water sport activity, for the customers looking for family fun, the Solas Concord series offers excellent weight carrying performance for those high power, heavy load, 4-seaters.

SUPER CAMBER S-I-J-K-H

Benchmark of the Impeller Evolution. The patented Super Camber S-I-J-K-H series makes the hub and rubber seal more streamlined. Obviously, the form drag of an impeller will be reduced and flow volume of a jet pump will be increased at the same time. Hence, Solas Super Camber series S-I-J-K-H is still one of the best values in PWC market.

RIVA R-SERIES PUMP IMPELLERS

R-Series Pump Impellers are precision tuned to Riva's specifications using a fixture called a Pitch Block. This delivers a higher level of consistency and performance when matched with Riva Performance Kits. Includes a Billet Impeller Nose Cone for increased durability and performance.

Description	Part No.
13/19 R-Series Solas Concord Impeller	SRX-CD-13/19R
14/17 R-Series Solas Concord Impeller	SRX-CD-14/17R
14/19 R-Series Solas Concord Impeller	SRX-CD-14/19R
15/20 R-Series Solas Concord Impeller	SRX-CD-15/20R
15/22 R-Series Solas Concord Impeller	SRX-CD-15/22R

NOTE: R-Series Impellers must be used with Riva's Pro-Series Reduction Nozzle (Part# RS23050-N for RXP/RXP-X) or (Part# RS23051-N for RXT) page 14.

RIVA SOLAS DYNAPLY R-SERIES IMPELLER

This all new impeller delivers unmatched acceleration & top speed in Yamaha FX-SHO/FZ applications. The "R" Series impeller is precision tuned to RIVA specifications using a pitch block fixture. This offers a higher level of consistency when matched with RIVA Performance Kits. Includes billet impeller cone that locks solidly into place with 3 stainless set screws. Ideal

for Riva Stage 1 applications or higher levels of modification when matched with RIVA Pro-Series FX-SHO/FZ Reduction Nozzle (part# RY23040-N).

IMPROS CUSTOM MODIFIED SOLAS IMPELLERS

Impros is a qualified, full service impeller modification facility with more than 20 years in the PWC impeller business. Providing custom performance impellers to reputable engine builders, world class racers, and companies seeking to maximize the pump performance for their customers. Impros is recognized as the "Only" Factory Authorized Solas Service Center. Now available to you from Hot Products.

KAWASAKI 800 SXR IMPROS CUSTOM SOLAS SET BACK IMPELLERS

Hot Products Set Back impellers are custom pitched to maximize performance & engine rpm for specific applications. These Solas Dynafly impellers are machined -5mm to set them closer to the pump vanes, which maximizes pump hook up. The impellers fit right into stock SXR pump, with & without the TBM Super Pump Cone.

Race Class	Description	Part No.

WATCON IMPELLER PITCH GAUGES

It's a known fact; not all impellers are created equal. Sometimes when impellers are mass produced, there are subtle differences that can affect performance. Use this simple tool to measure the pitch angle and blade length of each blade throughout its circumference. This enables you to make adjustments to the pitch where needed. Great for fine tuning, making minor changes or verifying pitch when sending impellers off for repair.

Description	Part No.
140-142mm Impeller	IMP-142
144-148mm Impellers	IMP-148
155-160mm Impellers	IMP-160

YAMAHA HOOKER IMPELLERS

Impros Hooker impellers have specifically developed to offer the maximum performance gains from the Yamaha 701 engine platform in conjunction with the 144mm pump.

Part No. IMY144915

9/15 Impros Yamaha 144 SB Hooker impeller for anything from a stock 701 to a strong limited setup. This is the most popular for people who want to maximize bottom end.

Part No. IMY1441016

10/16 Impros Yamaha 144 SB Hooker impeller for the more healthy version of a limited with porting, big carbs, etc. This pitch will transfer a bit more to the top end.

Part No. IMY1441117

11/17 Impros Yamaha 144 SB Hooker impeller for the maximum hookup and added HP. This is used by closed course racers. Very popular and an excellent upgrade on the 2008-09 Superjet with a pipe.

IMPROS PRO-CONE

*Improve pump efficiency
and increase performance!*

The durable new Pro-Cone is a must-have with the new high horsepower watercraft creating extreme pump pressures. Rubber impeller cones tear off creating an inefficient pump and performance loss.

Solas Yamaha YB/YD models (GP1200, Raider, Blaster, GP 800)	PC-YB

R&D AFTERBURNER PUMP CORE SLEEVE/ADJUSTABLE CONE KIT

Transform the O.E.M Kawasaki SXR 800 Pump or O.E.M. Superjet Pump into a high performing large hub, high pressure axial flow design inexpensively with the exclusive R&D Large Hub Afterburner Pump Core sleeve and adjustable Anti-cavitation Pump Cone Kit design. Experience much better hole shots and 1 mph plus gains in top speed performance with the added pump efficiency and thrust. The Afterburner Pump Core will drastically increase pump hook up and rear end traction. The innovative and superior R&D design allows impeller changes to be made easily in minutes. The Afterburner Anti-cavitation rear cone length is tunable with kit supplied spacer shims which allows custom peak RPM tuning for any brand or pitch of impeller. Better holeshots, hook up, top speed, tunability.

ADJUST-A-THRUST

The only Automatic Transmission for PWC Jet Pumps Maximize Your Performance

In low gear the shuttle lets a large volume of water be moved to accelerate the craft.

As speed and pump pressure increase, the shuttle is forced out into the exit nozzle, reducing its size and increasing water velocity. This increases top speed.

R&D FZR PERFORMANCE EXIT NOZZLE

The new R&D cast aluminum exit nozzle is designed to fine tune the pump and prop to maximize performance and rpm. The new R&D exit nozzle is available in 2.5 and 5 degree

up sweep angles. The 5 degree positive angle lightens the nose of the craft and adds top speed; this is great for recreational use. The 2.5 degree delivers improved performance in rough water conditions by producing more nose pressure to drive the hull through the bumps; this design is perfect for closed course and offshore competition. Both types are available in bore sizes of 80, 80.5, 81, and 81.5. *Custom bore sizes from 80 to 90 available at no extra charge, specify size when ordering. The maintenance free R&D cast aluminum and powder coated one piece construction exit nozzle is the better alternative to a removable ring design. With the new R&D nozzle the OEM reliability and safety is retained, because there is not a removable ring sleeve to vibrate loose, falls out and gets wedged in the steering nozzle creating a whole new definition to the term BUCKING.

** Custom bore sizes available at no extra charge, specify size when ordering**

Description	Part No.

WORX RACING INTAKE GRATES

WR223
Sea Doo RXP 04-06

These boats hook up pretty well in the calm but really benefit from our intake grate in choppy to rough water. The worx grate will not cost you any top speed in the calm but will give you heaps better hook-up and drive in the rough and around the track for closed course racing. Similar to the WR221, this grate also has two bars running the full length of the boat that hang down and stop the back of the boat from sliding out, the centre blade of the grate does most of the work in the straights and the side wings come into play in the corners to keep the pump fully loaded and driving.

Sea Doo	Part No.

RXP-X, RXT-X	WR229

WR201
Yamaha 701

Improves hook-up and turning dramatically, it is a great rough water and surf riding intake grate because the pick-up area is wide and deep. It not only loads the pump, but it also allows you to ride hard up to a turn buoy. When you come off the throttle, the grate acts like a brake to slow you into a turn.

R&D O.P.A.S. BLOCK OFF KIT

Designed for closed course competition to cover the openings left when O.P.A.S. is removed preventing water from entering the hull. Made from billet aluminum and anodized to prevent corrosion.

Description **Part No.**
 RXP/RXT 215, RXP-X/RXT-X 255 **123-95002**
 O.P.A.S. Block Off Kit

R&D O.P.A.S. RECREATIONAL OFFSHORE KIT

The R&D O.P.A.S. offshore kit was designed and developed for those who ride in extreme rough water or ocean conditions and want to stop the Sea-Doo O.P.A.S. system from dropping down while the hull or pump is out of the water! The R&D O.P.A.S. offshore kit is designed to hold the

O.P.A.S. system open or constantly in the up position to improve safety and handling in rough water conditions! When the O.P.A.S. system is held in the up position, the O.P.A.S. directional fins function exactly as stock (i.e. the fins still function to steer the craft)! The R&D O.P.A.S. kit is a must have part for offshore racing use! Also, if your O.P.A.S. system's water lines or passages are clogged with debris or sand, the O.P.A.S. system will not work properly and will stay in the down position until repairs are made. The R&D O.P.A.S. kit can be installed or removed very easily in minutes. Install the R&D O.P.A.S. kit today and never worry about a clogged, disfunctioning O.P.A.S. system again!

BLOWSION

BLOWSION TUBBIE SPONSONS

This Race Model Tubbie Two (Part # AWC0213) grips better in turning and is more stable in straight line high speed riding. The Rec/Freeride model (Part#AWC0212) is very stable, but has some nose wandering at mid throttle due to the curved chine riding back and forth on the bow wave. This is very beneficial in freeriding as the ski is able to be more forgiving and reacts better to a variety of directions and water flow angles.

Description	Part No.
A. Tubbie 1 – Rec-Surf-Freeride-Freestyle	02-01-002
B. Tubbie 2 – Race/Rec Model Only, All models	02-01-003

MSDTM POWERSPORTS

*Part # 42351
Multi Channel
Ignition Unit
Only

MULTI-CHANNEL RACING IGNITION SYSTEMS

Precise ignition timing is essential to produce maximum horsepower. However, one timing setting is not ideal for an engine's entire rpm range. The dynamics of air and fuel flow into the engine as well as the speed that the piston travels through the combustion stroke all affect the ideal timing setting. Fortunately, the Programmable MSD Ignition lets you tune in a custom timing curve to match your engine's requirements.

There are three settings that you program to create a timing curve. First you set where you want the initial timing, or idle timing. Next you set the rpm

point to begin the curve, followed by the amount you want it to retard (up to 30°) through the high rpm limit. All the adjustments are made with dip switches built into the ignition.

This Ignition delivers a powerful capacitive discharge spark from idle to top end. This improved output results in complete combustion for performance through the entire rpm range of your engine.

Kit Part No.	Description	Ignition Unit	Trigger Plates	Trigger(s)	Coil (w/Bracket)	Wire Set	Flywheel/Magnet Wheels
42380	Yamaha 650/701/760 Total Loss	42351	4311	(2) 4316	(2) 42921	31009	43032
*42351 Multi Channel Ignition Unit only (Replacement Ignition Kit)							

1-REV CONTROL

The MSD's adjustable rev limiter allows you to program an rpm limit that the engine will not rev past. This is a great feature that will save your engine from over rev damage caused by parts failure or if the craft's drive mechanism comes out of the water. When your limit is reached, the ignitions adjusts the spark output quickly to stay below the rpm. This produces a smooth rev limiting action.

2-HOLESHOT

Thanks to the rev limiting circuit of the Ignition, MSD engineers developed a feature that will give you great holeshots. By installing a handlebar operated switch, you can activate a lower rpm limit that will hold an engine under 3,000 rpm. This way you can hold the throttle wide open and concentrate on the rubberband snapping. When it does, you release the button, the engine revs to full power and you launch out in front! (See page 107. Hole shot control switch)

3-EASY STARTS

When you increase the compression ratio of your engine, it also puts more pressure on your starter to crank the engine over. The MSD Programmable Ignition has two features that can help ease cranking pressure and improve the start up of our watercraft.

Retard: When activated, this feature retards the timing 20° to ease cranking. When the engine starts, the timing returns to the initial setting.

Delay for Electric Starters: When activated, this mode will not produce a spark for the first several rotations of the engine. This helps build momentum in the engine, resulting in easier starting.

MSDTM POWERSPORTS

One of the advantages of the MSD Multi-Channel Ignition system is the individual trigger pickups for each cylinder. This way you can make up for the variations in fuel flow dynamics to each cylinder, exhaust characteristics or carb synchronization by altering the timing of each cylinder,

MSD™ POWERSPORTS

MSD COILS

Description	Part No.
A. Single Tower Pro Coil	42921
B. Stock Improved Coil for start-up	4294

Mini Stripper-Crimper

Designed to be in a vise and with a single-edge razor blade to strip spark plug wires without damaging the core and to crimp a terminal. Inexpensive too!

Description	Part No.
Mini Stripper-Crimper	3503

HOLESHOT CONTROL SWITCH

This is a momentary push-button switch encased in a CNC machined aluminum housing that clamps around the handle bar. It comes with a 6-foot wire harness that should reach almost anywhere on your watercraft. Use this switch to activate any MSD feature.

Description	Part No.
Holeshot Control Switch	4372

8.5MM SUPER CONDUCTOR SPARK PLUG WIRE

Spark plug wires have two main objectives; transfer the spark energy and suppress the Electro Magnetic interference (EMI) that the spark voltage creates. The MSD 8.5mm Super conductor delivers the best of both worlds. MSD uses a special copper conductor keeping resistance under 50 ohms per foot! Even with this low resistance, the wire retains high EMI suppression capabilities. By wrapping the conductor tightly around a ferro-magnetic impregnated center core and EMI choke is created, keeping any interference inside the wire.

Description	Part No.
Two Cylinder Wire Set	31009
One Cylinder Wire Set	31019
Three Cylinder Wire Set	31039
Bulk Wire 25 feet - Red	34019
Bulk Wire 25 feet - Black	34013

MSD SPARK PLUG BOOT RETAINERS

There's no excuse for losing a race due to a plug wire popping off when you run MSD's Boot Retainers. These handy clamps are molded from heat resistant nylon material and will lock the boot to the spark plug.

Description	Part No.
A. Boot Retainer, 90° Spark Plug Boots & Terminal	3340
B. 90° Spark Plug Boots & Terminal Only (2 pcs.)	3311

DUAL WIRE SEPARATORS

These handy separators will secure two wires and keep them away from the exhaust or moving parts. Each wire can be moved easily and clipped right back in! Sold in a pack of 16.

Description	Part No.
Dual Wire Separator (pack of 16)	8841

Each Enhancer is a direct plug in unit and is designed to fit in the stock location. The Enhancer Ignition gives the racer an edge due to the powerful spark energy and adjustable rev-limiter. The Enhancer Ignitions produce a much more powerful spark, as much as four times more spark energy, to insure complete combustion of the fuel mixture. This complete combustion results in improved performance including quick throttle response, improved pulling power and top end, plus will reduce spark plug fouling. Whether your watercraft is stock or if you've added other modifications such as a better flowing intake or exhaust modifications, the Enhance ignitions will improve the performance.

4253

YAMAHA 650/701 ENHANCER

At lower rpm you'll notice incredible acceleration and throttle response due to advancing the timing. Then as the rpm increases, the timing is retarded to the factory setting to prevent detonation and engine damage. For racers, there is also a lower rpm limit that you can activate for quick and consistent holeshots. By activating a switch (Part# 4372 see page 144) mounted on the handle bar the rpm will limit at approximately 3,000 rpm. The instant the button is released, the rpm revs up just as normal and you rocket off. Everything you need to install the Yamaha Enhancer is supplied along with factory connectors for a direct plug-in installation!

Not compatible with Yamaha 760 engine applications.

Description	Part No.
Yamaha 650/701	4253

4251

KAWASAKI 750 ENHANCER

The Kawasaki 750 Enhancer features the increased spark energy you expect from MSD plus they have an adjustable rev limiter and holeshot rpm limit. The rev limit is adjusted with a potential on the back of the ignition housing. The holeshot feature lets you activate a lower rpm limit that is best to use for quick starts at the beginning of a race. Also, these ignitions can be connected to the factory overhear sensor. With this feature, if the water temperature gets too high, the Enhancer will limit the rpm to a safe value to avoid any engine damage.

Note: Enhancer will not work on 1996Zxi.

Description	Part No.
Kawasaki 750 SX/SXi/95ZXI	4251

4255

42551

SEA-DOO 800 ENHANCER

The Enhance Ignition for the Sea Doo® 800 (also the '95, '96, XP and GSX) uses a high speed RISC microprocessor to control all of the timer and rev limiter functions. This opens the door for programming, giving you the ability to set two rev limits and a timing curve through a series of dip switches built into the Enhancer. Being able to control the ignition curve lets you match the timing specifically to your engine and its modifications. The Digital Enhancer produces a series of sparks through 3,000 rpm rather than just a single spark. This feature delivers incredible throttle response, acceleration and keeps the idle clean and smooth. Note: This modification will eliminate the factory DSS security system and the handlebar kill feature.

Description	Part No.
Sea Doo 800 '95-96	4255
Sea Doo 800 '97-98 SPX, GTX Harness Only	42551

MSD EXTERNAL STARTER RELAY

This 12 volt relay is a heavy duty unit designed to mount outside the electrical box. It's made with material that locks out moisture and chemicals. The large copper terminals assure good solid contact with your wiring. The stainless steel base plate allows the relay to be mounted in any position. Rated at 65 amps.

Description	Part No.
MSD External Starter Relay	M4390

TIMING ADVANCE PLATE

The timing advance plate is recommended for all Kawasaki 750 engines running the Enhancer Ignition. This plate advances the timing 7° for a boost in low to mid range performance. Note: If you are running excessive compression or low octane fuel it is recommended that you run the retard module listed. Must be used with PN 4251 on SXi, XiR, and ZXi.

Description	Part No.
Timing Advance Plate for Kawasaki	4332

PERMA-SEAL CONNECTION KIT

Maximum ignition reliability can only be obtained by using high quality connectors and the Perma-Seal Connector Kit fits the bill! The tin coated copper terminals prevent corrosion and increase the connector's strength. To seal the connection, each connector has a special heat shrinkable outer sleeve that bonds and seals to the wire when heat is applied to it.

Description	Part No.
MSD Perma-Seal Connector Kit	4377

PRO-CRIMP TOOL

To do a job right, it is important to have the right tools. If you custom build a lot of plug wires, the Pro-Crimp is the right tool for you! The Pro-Crimp features a hardened steel frame, molded hand grips and built-in ratchet action that is also adjustable. The tool is supplied with jaws to fit MSD's Super Conductor Spark Plug wires and can be removed to use additional jaws (not supplied) for crimping common wiring terminals.

Description	Part No.

F. Cavity Seals Only 100 pcs.	55-2072

TERMINAL DETENT TOOL

The hollow barrel allows you to depress the tab on the terminal end and to remove the wire from the connector without damaging its ends.

Description	Part No.
Terminal Detent Tool	59-0254
Terminal Removal Tool	LS14900

MSD TIMING LIGHT

MSD offers a heavy duty top quality timing light. This timing light is supplied in a heavy duty metal housing and features a high output Linear Xenon strobe with a focused fresnel lens that produces a light that's bright enough to use outdoors. It is equipped with a 6 foot lead and uses a metal inductive pickup that clamps to the spark plug wire.

Description	Part No.
MSD Timing Light	8990

MT-DUAL-2

MICRO TOUCH DUAL OUTPUT WATER CONTROLLER FOR 2-CYLINDER WATERCRAFT

For injecting water into **pipe** and **waterbox** (or **stinger**) independently. Improve acceleration. Additional exhaust back pressure can increase top end power without sacrificing bottom end.

Features Include:

- Adjustable Output for 2 Water Injection Solenoid —
 - #1: 4 **ON** Settings from 1,500 to 3,000 RPM;
 - 16 **OFF** settings from 4,000 to 7,000 RPM.
 - #2: 4 **ON** Settings from 5,000 to 7,000 RPM, **OFF** at 10,000.
- Senses Engine RPM from Spark Plug Wire

POWERSHOT ADJUSTABLE FUEL TUNER

The all new R&D Powershot fuel injection tuner will deliver increased horsepower, acceleration, and stronger mid-range performance by delivering a higher performing air to fuel ratio (A.F.R.) to the engine. Many of today's high performance fuel injected four stroke muscle craft have a conservative A.R.R., which allows manufacturers to meet C.A.R.B.'s O.E.M emission standards and regulations. R&D Performance has tested, documented, and analyzed the O.E.M. fuel map or curve, on every current fuel injected four stroke watercraft. The pre-programmed and coded R&D Powershot fuel injection control module safely alters the O.E.M. fuel map to a higher performing and safer A.F.R. (richer). More horsepower, greater acceleration and stronger mid-range are the result when the proper A.F.R. is achieved and is tuned for optimum performance. The R&D Powershot is pre-coded, pre-tuned, preset and ready to install easily in minutes with R&D's comprehensive installation and tuning instruction.

The R&D Powershot is fully adjustable on the fly (with the engine running, observed and tuned while riding), and will accommodate a wide range of adjustability to properly performance tune the A.F.R. for any combination of aftermarket parts, i.e. aftermarket supercharger modifications, camshafts or valve train modifications, head modifications, exhaust system modifications, and high compression piston kits. The R&D Powershot will add horsepower, reliability, and adjustability to any electronic fuel injected two or four stroke watercraft engine.

R&D has a Powershot unit for virtually every watercraft application! Available for all two and four stroke fuel injected Sea-Doo, Yamaha, Kawasaki and Honda Watercraft. The R&D Powershot is a must have part on supercharged Sea-Doo's using Vortech high boost compressor wheels, and Kawasaki 15Fs with offshore kits!

IGNI-PRO PROGRAMMABLE IGNITION 800 SX-R

Igni-Pro Programmable Ignition 800 SX-R (all years) - Best is getting better! NEW UPDATED, ignition does not require power when the engine is not running eliminating the battery draw down in the past units. 2008 Igni-Pro is a high power ignition only for racing, which can be adjusted fully online with your PC at home or with Laptop directly on the water. (USB). This allows you to react at changes at your Kawasaki SX-R 800 configuration. The conversion from the OEM ignition system to Igni-Pro is very simple. Programming software is supplied for Windows 2000 and XP. Operates as a total loss system on all Superstock and GP engines. The unit fits perfectly in the OEM Kawasaki sealed ignition box protecting the unit from possible water damage!

RIVA PRO-SERIES E.F.I. CONTROL UNIT

If you plan to modify your Yamaha GP1300R our Pro-Series EFI Control Unit is a must. This easy-to-use control unit plugs directly into the OEM wiring harness between the ignition and fuel injection system providing control of the engines fuel management system. Key benefits include:

- Allows addition of fuel required with engine modifications without upsetting stock fuel map.
- Integrated dials provide easy adjustment and fine-tuning of fuel delivery curve without external programming devices.
- LED lights indicate fuel delivery settings while tuning.
- Won't interfere with craft's stock sensors and inputs.

JETINETICS

The Science of Racing

J305

J315 - Outside of Flywheel

J315 - Inside of Flywheel

JETINETICS CHARGING FLYWHEEL

Jetinetics is the originator of the charging aluminum flywheel, and proudly retains the manufacturing right to its patented design. The patented Jetinetics Charging Flywheel is significantly lighter, 50% in some cases, which greatly reduces the energy used to overcome flywheel mass and allow the engine to increase rpms rapidly. A significant benefit is the fact that the engine will produce horsepower only after it has reached its powerband, which usually begins about 3800 rpm. By using a Jetinetics Charging Flywheel, the engine is able to reach its powerband much more quickly and create usable power much sooner. Further, during rapid cornering such as course racing or slalom runs, this becomes a significant factor for acceleration.

- CAD/CAM Designed and Dyno Tested • All Billet Aluminum Construction • 40% to 60% Lighter than Stock
- Manufactured by Jetinetics on our Own CNC Machinery • Deep Purple Anodized Finish All Over
- Precision Dynamically Balanced • Sealed/Invisible Embedded Magnets (Can Never Come Loose or Rust)
- Tuff Heat Treated Alloy Ring Gear, Heat Treated to 65 Rockwell C • Accepts Factory Puller for Removal
- Ring Gear Teeth Chamfered for Better Starter Bendix Engagement • Each Flywheel is Coded and Serialized
- 400 Times More Corrosion Resistant than Double Hard Chrome • Most Models Can be Repaired or Rebuilt if Necessary
- Some Models Utilize Steel Center Hubs to Prevent Bore Failures/Extend Flywheel and Crankshaft Life
- No Modifications Needed to Install (Just Standard Tools Needed)

MSD TIMING ADVANCE PLATE

The timing advance plate is recommended for all Kawasaki 750 engines running the Enhancer Ignition. This plate advances the timing 7° for a boost in low to mid range performance. Note: If you are running excessive compression or low octane fuel it is recommended that you run the retard module listed. Must be used with PN 4251 on SXi, XiR, and ZXi.

R&D KAWASAKI 750 & 800 SX-R TIMING ADVANCE KIT

The R&D SX-R 800 Timing kit produces a substantial performance gain with the OEM ignition system. By relocating the pickup trigger on the ignition cover a full six degrees of ignition timing is available. Initial ignition timing from 0-2000 rpm boosted from 14 to 20 degrees, mid 3000-5000 rpm from 20 to 26 degrees and overall 6500 rpm + from 12 to 18 degrees.

Manufacturer's Warranty Policy: All MES products (excluding MES Economy Starters), when properly installed, are warranted by MES against defects in materials and workmanship for a period of one year from the date of sale to the original purchaser. For MES to accurately inspect defective items for warranty consideration, we ask that all returns reach our facility within the warranty period with an RA#, along with a copy of the original invoice and a brief explanation of the product's alleged malfunction.

Non-Covered Warranty Issues: Our warranty is limited to the replacement of defective units only and does not cover labor or any other expenses. This warranty extends to the application under normal use, and does not apply to any of the following: submersion, deliberate abuse, broken drive-gears, that are broken or tampered with during installation, or involved in attempted improper installations. Any tampering or dismantling, grinding, drilling, removing or addition of parts, or any action that alters the original design of the unit, will immediately render this warranty null and void.

**All Tachometers featured are for Two Stroke Engine applications only.*

PET-2100DX TACHOMETERS

This measures engine rpm, maximum rpm, total cumulative operating time, resetable cumulative operating time. This has a dual display system for either current rpm alone or current & maximum rpm, and also has two maximum rpm memories for comparison. 2 stroke 1-4 cylinder. Made in Japan.

WATERPROOF DELUXE TACHOMETER

Features include: Tachometer with RPM memory, Hour meter, Stopwatch with 10-data memory, clock, Power save off switch, and over-run (red line) alarm, For 2 or 3 cylinder. Made in Japan.

Description	Part No.
PET-2100DX Tachometer	PET-2100DX

Description	Part No.
PET-2500 Deluxe Tachometer	PET-2500

TINY TACH

Hourmeter and Tachometer powered by internal battery. Sealed for moisture resistance.

HOUR/TACH METER

Has same features as hour meter plus tachometer feature. Works on any gas engine up to 2 cylinders and 9000 RPM.

- Firing pattern 1 spark = 1 RPM
- Resolution 10 RPMs
- Maximum RPMs 9000
- Suitable for all single and twin, two or four cycle gasoline engines operating within specified tachometer firing pattern.

Description	Part No.
Digital Tiny Tach (2-Cylinder)	59-0550
Digital Tiny Tach (3-Cylinder)*	59-0552

Description	Part No.
Hour/Tach Meter	HR-8061

*Resetable hourmeter

BATTERY QUICK DISCONNECT

Racers will appreciate this Quick Disconnect Battery Connector because it allows for easy removal of the battery. The connectors grip together to form a vibration proof connection but can easily be disconnected for quick removal for charging of the battery.

Description	Part No.
Battery Quick Disconnect	4376

JUMPER CABLES

8 feet long heavy duty 8 gauge copper jumper cables are big on charging power, yet stow conveniently in the 9 x 9 inch nylon bag.

Description	Part No.
Jumper Cables	59-0530

EPOXY LINED ON THE INSIDE OF THE TUBING

EPOXY LINED HEAT SHRINK TUBING

High performance epoxy lined 1/2" id heat shrink. Just splice your wires, heat until the epoxy liquifies and your worries of possible water damage/corrosion are over! Heat shrink tubing color is Black.

Description	Part No.
Epoxy Lined Heat Shrink Tubing (4' length, 1/2" ID)	55-2032

QUICK SNAPS

Battery cable Quick Snaps remove your battery in 10 seconds. Quick snaps are easy to install in any style watercraft or motorcycle battery. Once installed no tools are required for battery removal. Made of stainless steel.

Descriptions	Part No.
Quick Snap (2 pcs/set)	59-0527

QUALITY BATTERY CONNECTION

Broken cable end, no problem. High quality replacement cable end, crimp on.

Descriptions	Part No.
Battery Cable Ends (2pcs/set)	55-2031

CORROSION BLOCK MULTI-PURPOSE GREASE

Liquid grease is ideal for use in electrical applications requiring grease.

MSD HOLESHOT CONTROL SWITCH

This is a momentary push-button switch encased in a CNC machined aluminum housing that clamps around the handle bar. It comes with a 6-foot wire harness that should reach almost anywhere on your watercraft. Use this switch to activate any MSD feature.

Description	Part No.
Holeshot Control Switch	4372

CPI WATERPROOF SWITCH ONLY

This replacement safety switch fits Sea Doo's and other manufacturers.

Description	Part No.
Replacement Safety Switch (Sea Doo & other manufacturers)	57-3011

ROTARY SWITCH COVER

Protect your ultra sano BULLETPROOF Blowison rotary bilge switch with this sanitary powder coated black aluminum switch shield. No more broken off knobs between your toes during aerials. All mounting hardware included. (Rotary Switch is sold separately)

Description	Part No.
Rotary Switch Cover	06-01-310

WATERPROOF SWITCHES AND BRACKETS

- Features waterproof on/off switch that is available with machined aluminum clamp-on or switch mounted bracket. Allows totally reliable and easy control of bilge pump operation.
- Mounting bracket is machined from billet alloy and is anodized black to prevent corrosion. Available for clamp-on bar mounting or bolts to the bottom of the OEM on/off switch assembly.
- All of the switches have a 9 ft. high grade wire lead.

UMI RXP TRIM/SWITCH HOUSING

U.M.I.'s trim/switch housing is machined from 6061-T6 billet aluminum, replacing the stock plastic housing. Trim/switch housing uses the factory variable trim switch and start/stop switch. This housing must be used with the U.M.I. GSX/RXP (P/#58-6321) steering system, aftermarket bars and finger throttle.

Sea Doo	Part No.
RXP Silver	SD-01600-CLR

WATCON WATERPROOF ELECTRIC SWITCH WITH BILLET ALUMINUM BRACKET

The Multi-switch is perfect for many applications; many racers use it as a "starter" button to eliminate the bulky OEM start-stop assembly. It has also become popular with Freestyle competitors as its compact, lightweight and extremely durable. The Billet Aluminum switch is 100% waterproof and is rated for scuba use, so surf riding won't be a problem! The switch offers (2) possible wiring configurations of "normally open" & "normally closed". This allows you to wire it as a start / stop function, or as a "momentary switch". A perfect example of a momentary switch is if you were using a data acquisition program, and you wanted to "reset" the system without shutting down the power supply. Comes complete with wiring instructions, and 36" of marine rated wire.

Description	Part No.
Watcon Waterproof Electric Switch	MU-1

NGK IRIDIUM IX SPARK PLUGS

Iridium is significantly stronger than any metal used in spark plugs today. The ignitability and durability is better than platinum. Sold pk/4.

Part No.

BR8EIX	BKR7EIX-11
BR9EIX	BPR8EIX
BR8HIX	BPR9EIX
CR9EIX	DCPR8EIX

**All Iridium plugs are 4 per package.
*Iridium plugs are gapped at NGK,
if you try to gap the plugs you
will damage the center electrode.*

NGK RACING CABLE

High performance red silicon outer shell for maximum heat resistance and durability. Ceramic resistor (50hm) enhances protection against RFI.

Description	Part No.
90° Resistor cover 100cm, solid	CR6

SPARK PLUG WIRE TESTER

Now you can check spark plug wires without piercing the wires. Light flashes indicating sound wire.

Description	Part No.
Spark Plug Wire Tester	LS26900

BLOWSION

BLOWSION ENGINE FLUSH KITS

A must for salt water riders! All metal construction - easy to use - just push into aftermarket water bypass. No tools, clamps or extra hoses necessary. Back flushes entire cooling system instead of forcing salt and sand into cooling jackets. Use in conjunction with our salt terminator kit. Simple and effective.

Description	Part No.
A. Standard Flush Tool	06-04-001
B. SX-R Flush Tool-Triple	06-04-002

*Salt Terminator: See Chemical Section

Fits the rear drain on Sea Doo and Kawasaki 4 stroke engines.

FLUSH KIT ADAPTER

Flush Kit Adapter for adapting overseas special size hose to connect flush kit. This adapter is a direct to fit to the rear drain line on Sea Doo and Kawasaki 4 stroke watercraft.

Description	Part No.
Flush Kit Adapter	SC-2905

QUICK CONNECT

The ultimate in waterline connections, the fittings are fool proof. These fittings are safe for high temperatures and high pressure.

Description	Part No.
Female Fitting	
A. 1/4" Pipe Thread	64-0100
B. 3/8" In Line	64-0103
C. 3/8" Panel Mount	64-0106

WATER LINE HOSE

Goodyear hose has been replacing rubber hose or metal tubing designs. Goodyear hose and tubing offers customers a number of benefits, including flexibility, durability, abrasion resistance, lighter weight materials, superior chemical resistance, high pressure capability, and extended product performance. Waterline is sold per foot.

Description	Part No.
3/8" Blue	56-8000
1/2" Blue	56-8004
3/8" Clear Vinyl*	56-8007

*Clear vinyl hose is not manufactured by Goodyear.

500 foot reel 3/8" blue hose available and
400 foot reel 1/2" blue hose available

Call for special pricing on reel purchases.

WATER LINE HOSE

Flex-Tech multi purpose hose is more flexible and bendable for those complicated water routing requirements. This waterline is highly recommended for Factory and TBM Dry Pipe installations. Waterline is sold per foot.

Description	Part No.
3/8" Light Blue	56-8010

STAINLESS STEEL HOSE CLAMPS

Description	Part No.
#5 Clamps (for waterline)	64-0030

90° BYPASS FITTING

Water bypass fittings increase engine performance by diverting water from the cylinder head to the bypass fitting, rather than forcing all of the water thru the exhaust system, thus drying out the exhaust. These machined bypass fittings are angled at 90 degrees.

Description	Hose	Part No.
Silver	3/8"	56-2010
Black	3/8"	56-2012
Purple	3/8"	56-2019
Silver	1/2"	5085-POL
Black	1/2"	5085-BLK
Silver	1/2"	COMFTG0115

45° BYPASS FITTING

Water bypass fittings increase engine performance by diverting water from the cylinder head to the bypass fitting, rather than forcing all of the water thru the exhaust system, thus drying out the exhaust. These machined bypass fittings are angled at 45 degrees.

Description	Hose	Part No.

GP1300R/GP1200R 1/2" INLINE WATER FILTER

The R&D Billet Inline Water Filter utilizes a screw in stainless steel mesh screen to stop small particles of sand from entering the water way of the engine.

Description	Part No.
1/2" Inline Water Filter	660-00013

RIVA EXHAUST STINGER WATER FILTER/RESTRICTOR

Features fine mesh stainless filter screen that is threaded to accept Mikuni main jet (not included) for water restriction. Allows removal of restrictive filter screen in water distribution manifold of single, twin and triple exhaust systems, providing increased cooling water to motor.

Description	Part No.
Exhaust Stinger Water Filter/Restrictor 3/8"	RY15-SF38

Fast, Easy, Strong and Secure Installation

SQUEEZE ON STAINLESS STEEL LOW PROFILE CLAMPS

Oetiker Stepless Ear Clamps, due to the reinforcing 'dimple' in the ear, hold against pressure and vibration or hose shrinkage due to temperature changes. A built-in spring action permits the clamp to "breathe" without loosening, the need to retighten is eliminated. Once installed, any tampering is easily visible, making this an excellent clamp for service or security applications.

Description	Clamp Size	Part No.
Pincer Tool	-	59-4015
Clamp for 1/4" Hose (10 pcs/pk)	9/16	59-4016
Clamp for 3/8" Water Line (10 pcs/pk)	11/16	59-4017
Clamp for 1/2" Water Line (10 pcs/pk)	13/16	59-4018

100 Clamp Packs	Clamp Size	Part No.
Clamp for 1/4" Hose (100 pcs/pk)	9/16	59-4016-100
Clamp for 3/8" Water Line (100 pcs/pk)	11/16	59-4017-100
Clamp for 1/2" Water Line (100 pcs/pk)	13/16	59-4018-100

WATER STRAINER

The **Water Strainer** is a must to trap all sand, shell, and vegetation particles.
No more clogged water lines!!
 Height=2" (51mm)
 Footprint= 2-1/2" (64mm) - Round

Description	Part No.
3/4" Water Line Strainer for Sea Doo 4-Stroke	56-9004
1/2" Water Line Strainer	56-9005
3/8" Water Line Strainer	56-9006
#20 Mesh Replacement	20420020
#40 Mesh Replacement	20420040

(#40 Mesh is finer than #20 Mesh)

JET WORKS QUICK DISCONNECT WATER RESTRICTOR

QD-38 comes with 4/32mm restrictor inserts used for controlling water flow through exit passes, stinger, head pipes, etc. QD-14 is for use with Mikuni Jets (not included), and allows quick change in small increments of water flow.

Description	Part No.
Quick Disconnect Water Restrictor 3/8"	QD-38
Quick Disconnect Water Restrictor 1/4"	QD-14

JET WORKS ADJUSTABLE WATER RESTRICTOR

Allows user to adjust flow on any 3/8" ID waterline. A great product for fine tuning engine/exhaust temperature for maximum power.

Description	Part No.
Adjustable Water Restrictor	JWR-01

LOW PROFILE WATER STRAINERS

Smaller water strainers. Ideal for using with water injection or tight space.
 Height: 2-3/8" (60mm)
 Footprint: 1-3/8" (35mm) - Round

Description	Part No.
1/2" Water Line Strainer	56-9010
#40 Mesh Replacement	10485

(#40 is finer than #20)

JET WORKS FLOW CONTROL VALVE

The Flow Control Valve provides improved throttle response and much quicker starts by drying out your waterbox at low rpm and idle speeds. Tests have shown an average acceleration improvement of 10 feet over a non-equipped model in the first 50 feet. The Flow Control Valve allows unrestricted water flow to the Stinger for better top speed. Yet it controls the amount of water at low speeds for better response. It also allows for an easier tuning of the Carburetors. It does not interfere with normal engine or exhaust pipe cooling and is compatible with all electronic water injection systems. Race Legal for All Classes. Two Models are available. Both are adjustable. The Standard Flow Control Valve is preset at 3.5 p.s.i. and is adjusted by adding the supplied stainless steel shims to increase the spring tension. The Pro-Series is externally adjustable by turning the outer housing by hand. Pressure can be tested with pop off gauge. All PWC w/OEM or aftermarket exhaust systems (except Yamaha's w/OEM exhaust)

Description	Part No.
Standard Flow Control Valve 3/8"	52-3118
Pro Flow Control Valve 3/8"	52-3119
Pro Flow Control Valve 1/4"	52-3122

FOR FACTORY PIPE CHAMBER WATERLINE

Description	Part No.

VERSIPLUG DRAIN SYSTEM

The reliable self-bailing drain plug made specifically for the PWC industry.

With Versiplug you will never have to put the plugs in or take the plugs out... Because the Versiplug is the automatic drain solution.

Versiplugins are simple to install and once you install them you will never have to think about the drain plug again.

Versiplug is available in three options:

- 1. Versiplug** (The original) fits Yamaha, Kawasaki, Sea Doo, Honda and polaris.
- 2. Versiplug-R** - Developed for the serious PWC enthusiast and racers
Higher flowing and lighter weight than the original Versiplug
- 3. Versiplug Max** - The rugged solution for leaky flap scuppers
Created for freestyle to create a reliable fix to scupper setups that had leaking issues when not moving.

BLOWSION CAS BILLET ALUMINUM ONE WAY VALVE SCUPPER

The new 2009 CAS flow valve design prevents water getting in during tail stands, wave jumping, or all out buoy shredding. The new billet flange assembly is the premium design setup and allows use of the Blowision billet exhaust outlet so vain riders can sanitize both sides of the rear of their watercraft. The aluminum, rubber, and injection molded construction of the Blowision one-way valve assembly along w/ the recessed internal mounting results in a bulletproof set-up. Fits all years Super Jet, Kawasaki 650, 750 and SXR 800 and Polaris Octane. Each pre-assembled kit includes explicitly detailed instructions, two Blowision molded glue able urethane bulkhead and ski flanges for leak less sealing, recessed one-way flow valve, special flex tubing (allows for off center mounting unlike straight PVC tube scupper systems) mounting epoxy and stainless fasteners.

Description	Part No.
Blowision CAS Aluminum One Way Valve Scupper	06-01-022

SCUPPER VALVE ASSEMBLY

Ski Clinic drain valve has an aluminum flap, that does not bend or warp,

greatly improving the seal. *For Freestyle use only.*

Description	Part No.
Scupper Valve Assembly (Silver)	SCVL
Scupper Valve Assembly (Black)	SCVL-B

BLOWSION

ONE WAY VALVE

Unlike scupper valves that mount on the exposed exterior of your ski, our one way valve kits install "into" the rear 1/4 of your PWC end caps. This keeps continual water pressure on the inside of the tube, keeping the valve shut when the ski is floating.

RRP Yamaha Pole Spring Stiffner	SP-BL-YAM
RRP Kawasaki Pole Spring Stiffner	SP-BL-KAW

System Installed

RRP AST STEERING SYSTEM FOR 28.6MM FAT BARS

This RRP AST (Advanced Steering Technology) steering system has been designed for all types of riding from Freestyle to racing and from freeride to the recreational rider. Each rider will find benefits in this new concept.

The concept behind this steering system has many features:

- To bring the rider closer to the pivot point
- Less movement to turn the bars (quicker steering)
- Lowers the center of gravity
- Multiple bar position allowing the rider to perfect his riding style
- Fits all stand up watercraft due to the moveable steering cable arm
- Slotted mounting for the steering cable ball for maximum adjustment.
- Utilizes the fat bar 28.6 mm technology for better clamping surface
- The system uses bearings and is o-rings sealed
- Grease Zerk fitting to grease the bearing system for easy maintenance
- 100% Compatible with RRP carbon pole pads (both models)

Description	Part No.
RRP AST "Fat" Bar Steering System	STR-SYS-UNIV-F

**Note: This system will work with other chin pads but will require fit modification to clear the steering when riding. Riders using the straight 28.6 bars will need to use the extended base clamp if not the controls will hit the pad before the turn plate hits the steering stopper.*

RRP "FAT" PERFORMANCE HANDLEBARS

Brand new for 2008, RRP has developed these "Fat" bars to be extremely strong for freestyle and racing. All RRP handlebars are "Fat" bars and are 28.6mm at the clamping area.

Description	Part No.
1. Straight Freestyle Bars	ST-B-F*
2. Closed Course Bars - 50mm Bend	50-B-F
3. Closed Course Bars - 75mm Bend	75-B-F

**Note: Riders using the straight 28.6 bars will need to use the extended base clamp if not the controls will hit the pad before the turn plate hits the steering stopper. Extended Base Clamps Part# EXT-BS-PLT*

Straight Bars

22.2mm Clamping Area

RRP PRECISION TURN PLATE

The RRP Turn Plate is one inch shorter than the OEM turn plate moving the rider up in the tray. Fits Kawasaki, Yamaha, Polaris and Hydro-Space. The steering arm can be mounted either side, allowing this turn plate to fit any ski. The steering arm is slotted to allow for extremely precise steering ratio adjustments. RRP has also integrated a grease fitting on the turn plate that allows the rider to fully grease your steering system in only few seconds. The turn plate will accept V bars and straight bars and fits most after market steering systems.

Description	Part No.
RRP -1" Precision Turn Plate	TRN-PLT-UNIV
RRP Straight Standup Bars 22.2mm	ST-B*

**Note: Big advantage of using the straight bars it brings the rider closer to the pivot point, less movement going left and right with the bars more stability in the turn because the bars are staying closer to the rider.*

RRP UNIVERSAL STEERING SYSTEM

Designed to match and compliment the RRP Turn Plate, this steering system improves the steering feel, eliminates steering slop and is much stronger than the OEM steering systems on standup watercraft. This kit will fit most aftermarket turn plates.

Description	Part No.
RRP Bearing Steering System	STR-SYST-UNIV

RRP CARBON CHIN PAD

The most innovative pad design. The only chin pad that really matches the lines of the RRP Handlepole. Comes with number plate. (Numbers are not included)

Description	Part No.
RRP Chin Pad with White Stripping	RRP-PAD-WHITE
RRP Chin Pad with Green Stripping	RRP-PAD-GREEN
RRP Chin Pad with Orange Stripping	RRP-PAD-ORANGE
RRP Chin Pad with Blue Stripping	RRP-PAD-BLUE

*Note: You must use with ST-STOP-BL-10 or ST-STOP-RD-10

RRP CARBON "AIR FORCED" CHIN PAD

The New RRP "Air Forced" chin pad is designed to increase air flow by forcing air thru the handle pole tubes into the engine compartment. The fresh air pressurized engine compartment will improve the overall performance of the engine.

Description	Part No.
RRP "Air Forced" Chin Pad with Blue Striping	RRP-SCOOP-BU
RRP "Air Forced" Chin Pad with Red Striping	RRP-SCOOP-RED
RRP "Air Forced" Chin Pad with Green Striping	RRP-SCOOP-GREEN

*Note: Works in conjunction with RRP Handle pole bracket with breathing tube or also with the stock Hydro-space bracket.

RRP CHIN PAD SUPPORT & STEERING STOP

This steering stopper will also prevent the pole pad from crushing or getting ripped out from the handel pole. Comes in red or black.

Yamaha OEM Chin Pad	Part No.
RRP Chin Pad Support and Steering Stop - Black	ST-STOP-BL
RRP Chin Pad Support and Steering Stop - Red	ST-STOP-RD

RRP Chin Pad (10mm Shorter Unit for RRP Chin Pad)	Part No.
RRP Chin Pad Support and Steering Stop - Black	ST-STOP-BL-10
RRP Chin Pad Support and Steering Stop - Red	ST-STOP-RD-10

RRP ADJUSTABLE BINDING SYSTEM

This is a revolutionary product, the AB (Adjustable Binding) System was developed from the same system that is used on the RICKTER FS-1.

This system allows you install the RRP Adjustable Binding System on any Super-Jet with a limited amount of modifications to fit the custom binding system box to your watercraft.

This system is a must for any freestyle or free rider.

Description	Part No.
RRP Adjustable Binding System	RRP-AB-SYST

CARBON CHIN PAD

MACC RACING ULTRA 250/260X STEERING MOUNT 1/2 STYLE

The Macc Racing Ultra 250x steering wheel mount is a stronger and more aggressive alternative to the OEM Kawasaki steering system, made with the highest quality material improve the handling and overall feel of your 250x.

Description	Part No.
Macc Racing Ultra 250X/LX/260 Steering Mount	MR-0087

REPLACEMENT BEARING KIT FOR UMI STEERING SYSTEMS

Description	Part No.
Replacement Bearing Kit For all Steering Systems except XP97+ (requires 2 kits)	58-6300

R&D FZR BILLET STEERING SYSTEM KITS

The new R&D Billet Steering

System was developed and tested during the 2009 APBA/JSBA National and World Championships and is a proven winner in design and performance. R&D's Billet design offers superior strength and lighter weight over the OEM steering system. Utilizing a 7/8" MX handlebar, allows the rider to personalize the bar setup to their liking. R&D chose the 7/8" diameter bar type over the Fat bar, because of the space watercraft bars need for start/stop switches, VTS switches, and custom trim lever systems. When using fat or taper bars, the bar widths are forced wider than comfortable in a watercraft application. R&D offers two types of Handlebars for the new billet steering system, MX Low for short to average height pilots and MX high for taller pilots. Handlebars sold separately. The R&D Steering System is the way to go when setting up the ergonomic steering comfort "your way". Available for FZR/FZS and SHO models. Specify whether your craft is an FZR/FZS or SHO when ordering.

- 3 pounds lighter than stock system
- Easy installation (1hour) includes all hardware and instructions
- Increases overall comfort and handling performance
- Allows custom bar setups (set up your way)
- Utilizes 7/8" diameter handlebars of our choice
- Adds a true "Factory Racing" look to your watercraft

Description	Part No.
FZR / FZS Billet Steering System	512-18000
<i>*Specify whether your craft is an FZR/FZS or SHO when ordering.</i>	
R&D MX Low Bar	512-18010
R&D MX High Bar	512-18012

RIVA ULTRA 250X/LX STEERING COLUMN COVER

This lightweight cover fills the large void left when the stock steering system is removed; preventing water from entering the hull and reducing engine noise. Designed for use with UMI Steering System and highly recommend when using RIVA Pro-Series Power Filter Kit (part# RK13096).

Description	Part No.
RIVA Ultra 250X/LX Steering Column Cover	RK5-SCC-090

DO SPEED SPACER AND MOUNTING KIT FOR UMI RXP-X/RXT-X STEERING SYSTEMS

Do Speed has developed this spacer and mounting bracket specifically to be used in combination with a UMI steering system on a RXP-X or RXT-X. The spacer prevents water from entering the engine compartment and the bracket creates a clean and safe installation of the OEM Sea Doo warning system signal.

Description	Part No.
DO Speed Spacer and Mount Kit for UMI RXP-X/RXT-X Steering System	D-X-P

SATO ENGINEERING STEERING SYSTEM

This billet steering system is the ultimate upgrade for the new Yamaha FZ watercraft. The system is extremely strong and allows the rider to change to handlebars of their choice.

Description	Part No.
Yamaha FZR/FZS	SE-027020

SPEED MAGIC "X-MOUNT" STEERING HEAD

Speed Magic has developed the "X-Mount" for the RXP-X and RXT-X that improves handling by lowering the steering head 85mm lower than the stock position and also moves the rider forward for a more aggressive position. Available for regular and Fat Bar applications.

Description	Part No.
Speed Magic Steering Head (Standard Handlebars)	SE-027015
Speed Magic Steering Head (Fat Bars)	SE-027015F

Aftermarket Bars Installed - OEM Protective Cover No Longer Fits

Safety Switch Mounting Bracket

HANDLE BAR STEERING MOUNT COVER AND SAFETY SWITCH BRACKET

When you install aftermarket handlebars on your Sea Doo using the OEM steering system the OEM pad cover will no longer fit. AP Designs has developed this new pad to allow for the bars to fit properly and protect you while riding your Sea Doo as well as to hide the ugly cast steering system. Also developed in conjunction with this cover is a safety switch mounting bracket.

Sea Doo	Part No.
Handlebar Mount Cover for Sea Doo RXP, RXT, RX, GSX, GTX, GTI, GTS, GSI, GS 96+	SD-HCV
Safety Switch Mounting Bracket	N-SDSWMT

DCR ULTRA 250X/260X AFTERMARKET HANDLEBAR ADAPTER

DCR has developed this billet aluminum handlebar adapter to allow a rider the ability to install aftermarket handlebars on the Kawasaki Ultra 250X and 260X. This simple conversion will greatly improve steering and control.

Description	Part No.
DCR Billet Handlebar Adapter	DC-HA-KU

SKAT TRAK HEAVY ARMOR ULTRA 250X STEERING CABLE

The Skat-Trak "Heavy-Armor" steering cable directly replaces the stock steering cable that is prone to failure on modified Kawasaki Ultra 250X's. At twice the thickness, this heavy-duty steering cable is more durable and reliable when compared to the stock steering cable. Comes complete with stainless steel ball joint cable ends for easy installation and adjustment.

Description	Part No.
Skat Trak Heavy Armor Ultra 250X Steering Cable	PRSTKAWU250A
Skat Trak Heavy Armor Kaw STX-R, STX-15F	PRSTKAWSTXRA

UMI RXP TRIM/SWITCH HOUSING

U.M.I.'s trim/switch housing is machined from 6061-T6 billet aluminum, replacing the stock plastic housing. Trim/switch housing uses the factory variable trim switch and start/stop switch. This housing must be used with the U.M.I. GSX/RXP (P/#58-6321) steering system, aftermarket bars and finger throttle.

R&D AUTO DROP NOZZLE KITS

The R&D VTS/Auto Drop Nozzle is the first manually activated VTS nozzle with Auto Drop functions! When riding with the VTS adjusted in the neutral position the nozzle will drop 5 degrees in the turns allowing for a much smoother high speed turn to be made. When the steering reaches the straight position the nozzle returns back to the straight position. When riding with a full tank the best VTS setting is usually in the

click up position and stays there. With the R&D VTS Nozzle Kit you can ride 1 click up (5 degrees up) and when you turn the nozzle will drop 5 degrees which is back to zero or straight position. When steering returns back to straight the nozzle resumes the one click up (5 degrees up) position.

Yamaha	Part No.

GP1300R VTS Auto Drop Nozzle Kit	162-13000
FX SHO/FZR/FZS VTS Auto Drop Nozzle Kit	162-18010

Sea Doo RXP

The R&D RXP Auto Trim Kit was developed to override the OEM VTS System with a fully adjustable and fully automatic trim system! The R&D Auto Trim automatically drops a rider preferred adjustable 2-8 degrees. Drive from turn to turn never worrying whether the trim is in the best position for perfect turn negotiation! For long straight rides install the R&D VTS/Holeshot Driver Rod (Pt.# 163-21503), which works

in conjunction with the R&D Auto Trim to electronically override the Auto Trim back to the OEM VTS Nozzle angle trim settings!

UMI BILLET FINGER THROTTLE

Lever perch is machined at an angle which makes the lever pull at a downward sloping angle. This motion keeps the lever at the tip of your finger throughout the throttle range greatly reducing arm pump and providing superb throttle control. Also available in traditional straight pull. Teflon bushings eliminate the play common in other throttles and provides a smoother throttle pull. Stainless steel pin and C-Clip eliminates corrosion at hinge point. Available for all models. Also available in anodized black. Some models require throttle cable adapter.

Experience the Ultimate in Watercraft Control

These grips features a raised diamond plate pattern that offers additional comfort as well as control across the length of the grip. ODI has also included our exclusive "pre-cut" style flange which is just large enough to easily reference your hand position, while also being small enough to stay out of the way when you are trying to access thumb-throttles or other handlebar components.

Ultra Grip Material

Sure Grip Material

ULTRA GRIP SEAT COVERS & SURE GRIP SEAT COVERS

ULTRA GRIP — The Ultra Grip material is a rubberized, waffle patterned material designed for the recreational and racing enthusiast. It provides exceptional grip without sacrificing rider comfort. Because of its rubberized nature, the rider can ride comfortably in swim trunks and still expect exceptional traction.

SURE GRIP — Our Sure Grip material is an aggressive material designed for watercraft racers. It is extremely durable and provides exceptional grip for racing applications. We recommend that riders wear a wetsuit when using a Sure Grip seat cover.

NON SLIP GRIPPER • FOR THE TOP OF THE SEAT

= HI GRIP MATERIAL

MEDIUM SLIP • FOR THE TOP OF THE SEAT

Our medium slip material is an embossed vinyl with a design, it provides enough grip to stay on your seat without being too abrasive. We also offer a carbon fiber looking vinyl which provides some stick too.

NON SLIP SUEDE • FOR THE TOP OF THE SEAT

Want to stick to your seat? Our non slip suede will keep you on your toy. We use our non slip suede on all of our handcrafted mats. Our non slip suede is abrasive, therefore we recommend you wear a wet suit or riding pants.

SMOOTH GRAIN VINYL • FOR THE SIDE OR TAIL OF THE SEAT

Our Smooth Grain Vinyl is available in a wide array of colors and allows you to add some of your own personality to your toys. You can use the Smooth Grain Vinyl on our handcrafted PWC seat covers. it can be mixed and matched with any of our other material choices.

SOFT SUEDE • FOR THE SIDE OR TAIL OF THE SEAT

The Soft Suede Vinyl has the look of real luxury but because it is vinyl it will last and last.

OSTRICH • FOR THE SIDE OR TAIL OF THE SEAT

Ostrich Grain Vinyl is for someone who doesn't want to follow the crowd, but lead the crowd. This is best used on panels that you don't sit on, just let people admire.

HAMMERED GRAIN VINYL

Hammered Grain Vinyl will really set you apart. Everyone will know you have a custom seat that you specifically ordered yourself. You will never see this on a stock seat, and neither will anyone else.

PERFORATED VINYL

Perforated Vinyl is just perfect for those back or side panels to make your colors really stand out.

DAZZLE • FOR THE SIDE OR TAIL OF THE SEAT

Dazzle grain is a great choice if you want to "Dazzle" the crowd. This will make you really stand out. Use it to add color in the smaller sections of your seat, or go for the big splash and use it on one of the big panels. You will really draw some attention with this one. There is a slight additional charge for Dazzle Grain.

CARBON • FOR THE SIDE OR TAIL OF THE SEAT

Carbon Fiber Grain will make either a full on racing machine or a family fun machine just look faster. This is the hottest look at all of the gatherings and you might want to consider using some panels on your new seat.

DISCO • FOR THE SIDE OR TAIL OF THE SEAT

Disco Glitter Vinyl is perfect for the person who dances to the beat of his own drum. This glitter material adds some pizzazz to our toys.

SNAKE • FOR THE SIDE OR TAIL OF THE SEAT

You will never have a more distinctive looking seat if you have a panel or two in Snake Grain Vinyl. It really looks great and very different. The color pops because of the snake pattern. There is a slight additional charge for Snake Grain Vinyl.

JETTRIM YAMAHA FZR SEAT TEMPLATE

JETTRIM CUSTOM ORDER SEAT COVERS

Three Easy Steps to order a Custom Jettrim Seat Cover

1. Locate the seat cover template in the Hot Products 2010 price list.*
2. Write the information of the colors & materials you want on the seat cover template.
3. Fax or email the completed seat cover template.

* If you are unable to find the seat cover template for your model, please contact us.

** It may take 7-10 working days to get your custom seat cover after we receive your completed custom seat cover template.

HYDRO-TURF TRACTION TYPES

Hydro-Turf mat kits are available in four traction patterns: *Molded Diamond (MD)*, *Molded Groove (MG)*, *Cut Groove (CG)* and *Cut Diamond (CD)*.

Cut Groove (CG): This is the standard traction for all mat kits from Hydro-Turf

Molded Diamond (MD): Hydro-Turfs most aggressive and durable material. The molded diamond sheets are only available in Black (BK) and Dark Grey (DGY).

Molded Groove (MG): This is the #1 choice among the World Champion Freestyle competitors. The molded groove sheet is only available in Black (BK).

"THE ORIGINAL" DUCKY

DUC-1000

DUC-1001

DUC-1002

Description	Part No.
Water Spot Remover 32oz. Spray Bottle (946ml.)	DUC-1000
All Purpose Cleaner 32oz. Spray Bottle (946ml.)	DUC-1001
PWC Detailer 24oz. Spray Bottle (709ml.)	DUC-1002

DUCKY WATER SPOT REMOVER — DUC-1000

DUCKY, the first product ever developed specifically for the removal of hard water stains. Ducky Water Spot Remover is non-abrasive, environmentally friendly and easy to use. Simply spray on and wipe off. Use on fiberglass, glass, painted surfaces, chrome, etc.

DUCKY ALL PURPOSE CLEANER — DUC-1001

Use Ducky All Purpose for cleaning: boat hulls, exhaust deposits, upholstery, carpet, other synthetics, chrome, mirrors and windows. Trigger spray activates rich, deep-cleaning foam that penetrates, lifts and suspends grease and grime.

DUCKY PWC DETAILER — DUC-1002

Ducky Detailer creates a molecular bond with the surface of your finish, providing ultimate protection from harmful U.V. rays and soil accumulation. Ultra violet brightener will enhance colors while leaving a smooth-to-the-touch, wet-look finish.

JSU SIDE RAIL MOLDINGS

Get rid of those ill-fitting OEM side moldings that scrub speed and cause poor under the rail water flow during racing conditions. These are the same 1 1/2" inch wide molding used by the Kawasaki Racing Team.

Description	Part No.
8' Long Standup Kit	JSU-800-BUMPER
12' Long Sitdown Kit	JSU-STXR-BUMPER

ANGELO BERTOZZI, ITALY

Fabric: Glen-Tuf

Woven polypropylene is very abrasion resistant. Fibers resist moisture, rot, mildew and are treated for UV resistance.

Reinforced openings for trailer pins and attachments. Adjustable heavy duty, multi-strand shock cord sewn in hem.

Reflexite® safety reflectors on back of cover give additional warning notice when watercraft is moored on trailer. (Reflexite® meets both Federal and USCG specifications.)

Non-scratch, corrosion free access zipper for vest and wet-suit storage. Plus a quick-dry mesh bag with Velcro® closure for gloves and other small items.

Durable, double-stitched, overlapped seams.

Strong, bartacked tie-down loops secure cover on watercraft for trailering.

Pro Series Goggles

The Jettribe goggle's lenses are shatter resistant Poly Carbonate. Plus they have 100 UV protection "flash" Mirrored lens coating, and are CE certified.

Multiple upper and lower air vents allow air to flow to reduce fogging. Remember this only works if you are actually riding, not hanging around at the launch ramp...

Jettribe Pro Series is a hybrid between a goggle and cool wrap around shades. It's the best of both worlds, stays in place with the elastic straps, plus have the rigid frame of a shade.

Jettribe

Hey there, Jettribe fans! This year after long hours of soul searching, planning, brainstorming, we're taking the big leap. We at Jettribe have decided to Tour this great country of ours. We truly feel from the bottom of our Jettribe hearts that the best ways to show that we are committed to the PWC industry, is be at PWC race events to support our riders. We at Jettribe strongly believe in supporting and helping the PWC industry. We want to do much more than just spending a few bucks on some big advertisements, or flying in a Rep just to pass out some stickers and t-shirts at the races. Grass roots is the way to go.

One of the coolest things is that we are getting a new Ford F-350 dually to haul our trailer. It will be totally decked out with custom graphics. Plus, the trailer will get the same treatment also.

We the Jettribe family believe in not just sponsoring each race, but also commit our time at each events. We at Jettribe know that face to face time with our riders are truly priceless. The relationship that we build will last a life time. Sharing the love and passion for the PWC sport is unforgettable. If we think about it, the racers are the core of our PWC industry and we need to support them in everyway possible.

Jettribe's founder insist on being at the race site, interacting with our PWC fans plus have a better understanding of the rider's needs. We personally drive our trailer to each race site and set up our own booth. We love every aspect of this sport from doing behind the scene stuff before the race event starts to enjoying the starting of race #1 to the last race on Sunday. And it's always a bummer to break down our booth and go home.

No matter how much Jettribe has grown over the years and how much we will grow in the future, we at Jettribe will never be far from the race site! No matter how much Jettribe has grown over the years and how much we will grow in the future, we at Jettribe will never be far from the race site!

RESCUE STREAMER DISTRESS SIGNAL

Patented Design Approved for U.S. Military & Coast Guard

This bright orange Streamer, visible from 1.3 miles away at 1,500 ft. altitude, leads Search and Rescue teams right to you. The patented high-strength polyethylene Streamer design, tested and used by the U.S. Military and Coast Guard, is marked with the international distress symbol. It features sealed air-filled struts that keep *RescueStreamer™* afloat on water and open on land to pinpoint your exact location to rescuers. *RescueStreamers™* start at the size of a cellular phone when stored and unroll in seconds! Always ready for use anywhere—land, water and snow. Does not require chemicals, batteries or electronics to signal continuously.

Description	Part No.

Handlebar Pack	69-1002

HEAVY DUTY TUBE ROPE

This heavy tournament quality 3/8" 16-strand braided tow rope is rated at 2375 lbs. tensile strength for 1 and 2 riders. 60 feet.

Description	Part No.
Deluxe Tube Rope	AHTR-60

4000LB TUBE ROPE

This heavy duty 9/16" x 60ft. tube rope is rated at over 4375 lbs. tensile strength for 3 and 4 riders.

Description	Part No.
4000lb Tube Rope	AHTR-4000

6000LB TUBE ROPE

This super strength 16 strand, 7/8 inch x 60 foot tube tow rope is rated at 6,000 pounds tensile strength! It's the strongest tube rope your money can buy, and is engineered to pull 5 or more riders.

Description	Part No.
6000 lb Tube Rope	AHTR-6000

WAKEBOARD ROPE

This wakeboard rope has a head turning 15 in. "Squid" patterned EVA grip wrapped around a floating aluminum core. The 5/16 inch, 16 strand, UV treated low stretch rope has 3 sections for wakeboarding at 45, 55 or 65 feet. Full length finger guards help create a comfortable split finger grip. A Rope Keeper is included for tangle-free storage.

Description	Part No.
Wakeboard Rope	AHWR-3

20' TOW ROPE

This 20 ft. tow rope has a heavy-duty carabiner at each end. The 12" long "soft hook" doubles as a rope wrap for neat storage. The 3/8" diameter rope is purple/yellow/red.

Description	Part No.
20' Tow-Rope	TR-20

WATER TOY TOW ROPE

This top quality 16 strand, 3/8" tow rope is 50 feet long.

Description	Part No.
Water Toy Tow Rope	WTR-50

AIRHEAD LINE WINDER

No more tangled lines with this classic styled floating line winder! It's easy to wind and neatly stow away anchor lines, mooring lines, ski ropes and tube ropes. Get a few for the garage too. Organize your extension cords, wires, clotheslines and Christmas lights once and for all. It's constructed of high impact polypropylene for extra long service. Color: Red. Ropes not included.

Description	Part No.
Airhead Rope Winder	AHLW-1

AIRHEAD® KWIK-CONNECT™

Conveniently attach and detach tube tow ropes to towables with AIRHEAD's KWIK-CONNECT. There's no need to thread 60 feet of rope through the tow strap each time you connect or disconnect a tow rope. The high impact KWIK-CONNECT has a 1 inch diameter hole to accept up to 6,000 lb. break strength tube ropes. Recommended for 1 to 4 rider towables that are not equipped with Kwik-Connects.

Description	Part No.
Kwik-Connect	AHKC-1

AIRHEAD HEAVY DUTY TOW HARNESS

This heavy duty tow harness is perfect for pulling skiers, wake boarders and up to 4 rider towables. Simply clip it onto your boat with the 5,000-pound tensile strength hooks, and attach your ski or tube rope to the heavy duty Kwik-Connect. A 6" float keeps the Kwik-Connect floating on top, away from your propeller. 12 feet long to fit larger boats and pontoons. Yellow / Red.

Description	Part No.
Airhead Tow Harness	AHTH-2

STIK-A-FLAG™ SKIER DOWN FLAG

The bright orange 420 denier nylon skier down flag is mounted to a 24" flag. PWC's with Kwik Tek's giant 3-1/4" suction cup. Required in AZ, CA, CO, ID, MO, NE, NM, OR, TX, UT & WA. Recommended everywhere for safety.

Description	Part No.
Skier Down Flag	SAF-1

IMPELLER PROTECTOR & KICK-BACK PROTECTOR

Specially designed for use on a personal watercraft, this Jet Logic protector reduces the possibility of the tow/ski rope of being sucked up inside the PWC's pump and impeller. This protector also protects PWC passengers from tow/ski rope kicking back when the rider falls.

Description	Part No.
24" long for PWC	IP-24

TRANSOM MOUNT SKI TOW HOOK

Our transom-mount ski tow is made from highly polished 304 stainless steel. A full stainless steel back plate distributes pressure evenly to prevent gel coat crazing. Tows are supplied with stainless steel nuts and star lock washers.

Description	Part No.
3/8" stock, 2-1/2" diam 4" legs, 2-1/2" transom	59-3437

AIRHEAD® 120 VOLT HI-PRESSURE AIR PUMP

You'll enjoy the performance of this 120 volt air pump. It inflates and deflates quickly and effectively. Peak pressure is 2.5 psi, plenty of pressure to get high end inflatable boats, rafts and reinforced backyard items nice and firm. You'll immediately notice how they perform better when properly inflated. A Pressure Release Valve is included to limit pressure to 1.4 psi for preventing over-inflating towables, pool toys and other vinyl and nylon covered inflatable items. The accordion-style hose locks onto the pump, eliminating annoying disconnection. Four universal valve fittings fit all popular valves and lock onto the hose. You'll love the screw-on Boston Valve adapter, an AIRHEAD exclusive. For added convenience, there's a carry handle and a 10 ft. long power cord. Draws 6.1 amps / 730 watts. Volume is 460 liters/minute.

Description	Part No.
Airhead Air Pump, 12 V	AHP-120HP

AIRHEAD® AIR PUMP, 12V

This high-volume (290 liters / minute) 12-volt portable air pump deflates towables, boats, pools, mattresses and beach toys quickly and effectively. Most pumps on the market, even those costing twice as much, don't put out this kind of air pressure and volume (9.6 cu.ft/min., .8 psi). The universal valve fittings fit all popular valves. For added convenience, the cigarette lighter plug is equipped with a 10 ft. long power cord.

Description	Part No.
Airhead Air Pump, 12 V	AHP-12H

AIRHEAD® DOUBLE ACTION PUMP

Perfect For Topping off Towables

This pump delivers a continuous stream of air on both the up and down strokes. It quickly inflates and deflates tubes, airbeds, boats, toys and other inflatables. Four universal valve fittings are included. The accordion-style hose stretches to 5 ft. long and interlocks to the pump, so that it doesn't fall off while you're pumping. Capacity is approximately 68 gallons / 60 strokes. Especially great for topping off towables, since peak pressure is 14 psi.

Description	Part No.
Airhead Double Action Pump	AHP-1

AIR DADDY™

AIR DADDY lets you get to the fun times more quickly! It allows you to inflate towables, swim toys, beach toys, inflatable boats, rafts, airbeds and sport balls with an air compressor at home or at a gas station. AIR DADDY is a universal adapter tapered to fit all valves found on inflatables, including all sizes of stem valves and Boston valves, Halkey-Roberts and Leaffield valves. The screw-on tip creates a high-pressure stream of air, perfect for workshops and garages. Soccer ball or football low on air? Stop by a gas station and use AIR DADDY's needle valve! Both the needle valve and high-pressure tip stow securely in the handle.

Description	Part No.
Air Daddy	AHAD-1

MULTI-VALVE

Inflate with Speed & Flexibility

The Airhead Multi-Valve consists of 2 Boston Valves with different thread patterns on the bottom of the Shrader Valve. One of the Boston Valves will fit your inflatable. Use the Shrader Valve to inflate quickly at a gas station or marina. Or, screw off the Shrader Valve and inflate the Boston Valve with a low pressure/high volume pump.

Description	Part No.
Multi-Valve	AHMV-1

AIRHEAD®

AIRHEAD® BLAST®

You'll have a real blast on Airhead Blast! The 4 neoprene knuckle guards and deluxe nylon-covered handles provide a sure and comfortable grip. The heavy-duty virgin PVC bladder has a double stitched nylon cover, reinforced internal tow harness and a self-draining floor vent. You'll love the eye-catching graphics on this 1 rider 54" round towable!

Description	Valve	Part No.
Airhead Blast 1 rider	Boston Valve	AHBL-1

AIRHEAD® SURF™

Face it, stowing a tube on small boats, ski boats, and PWC's can be a hassle! We designed Surf with this watercraft in mind. Despite its small size, 50" x 40" x 6", Surf is big on performance. Sit on top or lie down, either way; you'll love the remarkably stable ride. Four deluxe handles with neoprene knuckle guards provide a great grip. SURF is equipped with a Boston Valve for fast inflating and deflating, 2 board straps and a drain vent.

Description	Valve	Part No.
Airhead Surf 50" x 40" x 6" 1 rider	Boston Valve	AHSU-1

IMPROVED

Tapered Profile

AIRHEAD® BIG SLICE®

You'll really slice up the water with this 60" diameter low profile towable! Peak performance is guaranteed with Slice's topside neoprene knuckle guards, an Airhead exclusive. The durable 30-gauge virgin PVC bladder is fully encased by a double-stitched nylon cover with a reinforced internal tow harness. Slice is equipped with a super-convenient Kwik-Connect for easy hook-ups and a Boston Valve for fast inflating and deflating. It's easy to climb onto Slice from the water; it's tapered to only 6 in. high at the back. Designed for 1 or 2 riders.

Yamaha Tie Down Pin	59-3438

POWERTYE TIE DOWNS

Made from high quality 4500lb. test nylon strap with rubber coated hooks. Made in USA

Description	Part No.
Black	59-3425
Navy Blue	59-3428
Silver	59-3429

SKEEKEEPER BOW PIN

Fits any PWC trailer with a 5/8" bow coupler. Bow stop pictured is not included.

Description	Part No.
Bow Pin	TS67

R&D EZ-SLIDE BUNK GLIDES

R&D EZ-Slide Bunk Glides are designed to mount directly on the top side of the trailer bunks creating a new low friction slippery surface that allows the watercraft to glide on or off the trailer, making loading and unloading a personal watercraft easy. Designed and molded from high density urethane to significantly support the hull surface for proper trailering. The EZ-Slides are black and come in a six piece set complete with stainless steel button head mounting hardware. One set needed per watercraft.

Description	Part No.
EZ-Slide Bunk Glides (Set of 6)	001-00122

SKEEKEEPER HITCH PIN

Fits any receiver-style hitch with a 2" insert. Trailer hitch receiver and ball pictured is not included.

Description	Part No.
Hitch Pin	TS68

FACTORY ZERO

Factory Zero a Japanese based company specializing in the marine manufacturing industry first introduced the Factory Zero Jet Launcher in 1992. The original Jet Launcher was distributed primarily in Japan during the first years of production. The Jet Launcher has been upgraded and modified throughout the years based on all of the input and recommendations by the users and racers. The current Jet Launcher uses the highest quality materials available and easily assembles without any tools required.

In 2006 Factory Zero signed Hot Products as the exclusive USA importer and Worldwide PWC Distributor to supply the PWC Dealers of the world the best PWC Totes and Launchers available in the market.

J-130S

FACTORY ZERO JET LAUNCHER COMPACT 2-WHEEL TOTE STAND-UP

The best selling jet Launcher for Stand-Up Ski in Japan. Quick and easy assembly and disassembly that does not require any tools. No nuts and bolts. Just pull and push Hitch Pins and assembly and disassembly is complete in just minutes. A special angle handle design makes it easy to launch and load a stand up watercraft.

Factory Zero Launchers are available for export and require a minimum purchase of 10 units per order. These items will be drop shipped directly from Japan.

Description	Part No.
Compact 2-Wheel Tote Stand-Up	J-130S

BOX: H1530xW85xD60mm / 4kg, H535xW350xD95mm / 7kg

FACTORY ZERO

Factory Zero Stainless Steel PWC Fishing Rack

The Factory Zero PWC Fishing Rack is made from high grade polished stainless steel material for strength, durability and to Factory Zero's high quality standards. These units have been developed and tested to allow the best and safest fishing experience available aboard a PWC.

Installation and removal is fast and easy and requires no drilling. The front of the fishing rack mounts securely to the rear tow hook OEM holes by simply following the instructions and utilizing the supplied hardware. The rear of the fishing rack utilizes the Factory Zero ratchet strap system to attach the rear OEM tie down hooks.

The rack is designed with drain holes to allow any water that might get in the fishing rack to drain.

These units are made to fit each specific PWC model and shown to the right.

Included in the kit is one adjustable/positionable fishing rod holder and a soft sided cooler bag.

PRO MODEL RESCUE SLED

US Utility Patent 5,354,222 and other patents pending.

Used by top watermen and Rescue Professionals for 20 years!

The Extractor PRO model has been an industry standard for quick rescue pickups in the surfline, rivers and other near shore situations. This model, due to its size and weight, is designed for use with pwc's where a single rescue operator is available to operate the pwc, or may be used in situations where a rescue swimmer is used to assist the victim.

Used by surfers around the world, the tapered tail makes it very easy to paddle up on the deck of the sled, for those doing step-offs or tow-at surf-ing. The tapered tail also makes it easier to place unconscious, handi-capped, or incapacitated victims onto the deck of the sled.

Recommended for three-seater pwc's for all types of waterborne rescue operations or recreational activities, including tow-in surfing.

Molded Linear Low Density Polyethylene shell (Highly U.V. Resistant from degradation or color fade, will not become brittle or fade from sun exposure like ABS plastic skins and polyethylene foam skins, exceptional rebound and tensile strength-will not crack, high flexural modulus, maintains overall shape, physical properties and will not warp under normal operating climate conditions, resistant to all chemicals. Monolithic molded part without laminated skins. Will not delaminate from water invasion at the seams. Easy to work with plastic welder, resistant to folding or creasing under manufacturer recommended use guidelines.

- Length: 63 in. (160 cm) • Width: 38in. (96.5cm)
 - Thickness: 3.85 in. (10cm) at thickest point, Tail is tapered at 2.5 in. (6.75 cm) thick so that the sled will not have too much flotation, and will sink a few inches under water while the pwc is at idle.
 - Capacity: 400lbs.(180 kg) or two adults.
 - Pro Sled Weight: is approximately 45 lbs (20 kg)
 - Tie Down version is standard
 - 3/8" thick PVC Foam Deck Pad - Very Comfortable (Durable and provides the right amount of traction. Non-slippery like the polyethylene bodyboard foams or non textured PVC foams. Non-Abrasive and will not create skin rashes like textured medium density EVA Trac-Top type foams)
 - 8 Handgrips Standard or 10 Handgrips (Last Chance Handgrips as an option) Made from 5000lb test nylon webbing, overmolded with proprietary, flexible elastomers, very durable and resistant to the elements. Handgrips are anchored to the sled hull using 7000lb test brass mold-in inserts and stainless fasteners. Fasteners are secured from backing out using Lock-tite. You will not find a more comfortable secure-feeling handgrip!
- Vibration Issues- The PRO Extraction Sled utilizes flexible linear low density polyethylene, flexible urethanes or EVA copolymers as bumpers at the connecting points, and a cushioning deckpad. All of these items have been used to reduce vibration caused from pwc motors.

MEGA MODEL PWC SLED

• Recommended for three seater pwc's where more room is needed for passengers, for SCUBA, for spearfishing, for tow boards, or for hauling lots of equipment.

• **Rotomolded Polyethylene Hull, with molded polyethylene flotation foam inner liner** (3/8" to 1/2 inch thick for stiffness and added flotation), hollow air cavity..

- Length: 84 in. (206cm) • Width: 42 in.(104cm)
- Max Thickness: 5.5 in. (14 cm) • Weight: is approximately 70lb.
- Capacity: three people or 600lbs. (270kg)

• Available in Quick Hitch, Basic Tie Down or Intermediate Tie Down/Direct Connect Versions

- 3/8" thick PVC Foam Deck Pad-Very Comfortable (Durable and provides the right amount of traction. Non-slippery like the polyethylene bodyboard foams or non textured PVC foams.Will not create skin rashes like textured medium density EVA Trac-Top foams)
- EVA foam rail bumper pads available
- 8 or 10 or 12 Handgrips (Last Chance Handgrips as an option)
- Vent/Drain Plug
- Cargo Webbing Loops Built into handles provide attachment points for bungee lashing, cargo straps or rope grab lanyards. These are great for securing surfboards, equipment, fishing gear, coolers, or fish kill bags.
- Hull Rocker and Rail configuration designed to provide maximum sled contact with water surface and perform well behind a pwc. The "Gooseneck nose or bow (patent pending), also relieves stress at the fulcrum point where sled nose rests on pwc transom. Air pockets or phasers on hull bottom provide hull strength and stiffness as well lift and less contact with water surface. This combined with channels in hull direct water flow off of sled tail rapidly. The result is a sled that creates less drag, tracks better without fish-tailing, provides more traction through tighter turns without the pwc sliding out, and higher pwc top speeds.
- Hand Grip/bumper Colors: Red, Black or Yellow

*Guaranteed to outlast any other pwc sled available in the world, provided use and maintenance guidelines adhered to.

Description	Part No.
Pro Model Rescue Sled	XPROTD
Mega Model Rescue Sled	XMEGATD

LIFESLED FOR PWC RESCUE

Lifeguards and public safety agencies around the world are embracing an innovative rescue system that already has saved hundreds of lives, and promises to save thousands more in extreme rough water situations such as ocean storms, heavy surf, rip currents, flooding rivers and other life-threatening situations.

Non-Invasive hookup conveniently attaches LIFESLED to most any PWC without cumbersome rigging or drilling holes.

- ◆ LIFESLED is highly maneuverable. It barely affects low-speed motoring and increases the overall stability of the craft. There is no chance of windmilling or dumping of victim.
- ◆ Bullet-nose allows 45° fish-tail pivot off the PWC transom.
- ◆ 70/30 rails allow sufficient tracking for stability, and still allow the driver to 'break loose' for quick turns.
- ◆ Inexpensive, replaceable nose-guard protects the nose of the sled and the PWC transom.
- ◆ Overall size is sufficient for two adults yet still highly maneuverable. Weighs only 35 lbs.
- ◆ The Swallow-tail design enables easy victim centering when mounting in the water.
- ◆ Hook-up design allows the sled to be folded over the PWC when not in use.

RATIO RITE CUP & LID

The Ratio Rite measuring cup is specifically designed to help you premix gasoline for your two stroke engine. 16:1 to 70:1 mix ratios are molded into this cup, measure your two cycle oil in cc/milliliters, fluid ounces, and pints. Made from durable, long lasting plastic that is completely safe to use with fuel and oil. *Ratio Rite lid sold separately

Description	Part No.
Ratio Rite Cup	59-0548
Ratio Rite Lid	59-0582

BILLET JUG BREATHER

Fits most 5-gallon utility jugs. Simple one touch operation. Pull to open, push down to shut off. **Designed for use with Scribner Utility Jugs, not compatible with Hunsacker Utility Jugs.*

Description	Part No.
Blue	02-001

DAS PUMP FINGER TIP PUMP

Simple finger tip pump that removes water from your engine compartment and siphons gas. Includes length of hose to reach the depths of your engine compartment or gas tank.

Gets into the tightest places and is easy to use. Prevents corrosion and rusting to your engine due to condensation. "Das Pump"

Description	Part No.
DAS Pump	57-4045

DELUXE SIPHON PUMP

Deluxe Siphon Pump made with a heavy duty marine grades siphon bulb and gas resistant hose. This is the easy way to get a siphon started to drain your bilge or to transfer fuel from one place to another.

Description	Part No.
Deluxe Siphon Pump	59-0440

SCEPTER FLEXIBLE FUNNEL

Scepter's flexible funnel is perfect for all your PWC uses and really helps perform those difficult maintenance and repair applications. Manufactured from quality, high density polymers: the funnel won't rust, dent, or crack. This means no drips and leaks for you to clean up after your done. The funnel length is 18".

Description	Part No.
Scepter 18" Flexible Funnel	MR03603

LISLE CREEPER SEAT/STEP

Ergonomic design with a 300lb. capacity that can be rotated forward onto rubber feet to make a stable 14" tall ladder. Spacious storage tray below the seat keeps tools, test equipment and parts within easy reach. Perfect for PWC service, PWC pump repairs, etc. Wheels pop into tubular steel legs with an outrigger design for added stability.

Description	Part No.
Lisle Creeper Seat/Step	LS93402

SAFETY SIPHON

"The Safe Solution To Fluid Transfer Problems".

A safe alternative to transferring dangerous fuels at or messy liquids by usual means. The hose with the patented self priming pump eliminates the risk of drawing hazardous or nasty fluids into your mouth when getting the siphon process started. Why do you carry jumper cables in your vehicle? Answer: As insurance in case you or someone else needs a jump start! In the same way, the Safety Siphon is a great companion product to carry in your car or truck as insurance in case you run out of gasoline.

Never attempt to siphon gasoline by mouth!

Description	Part No.
Safety Siphon Pump 1/2" Hose	SS-4

"SWIVEL GRIP" OIL / FUEL FILTER WRENCH

For Smaller 2 3/8" to 2 5/8" Oil Filters. Also fits Fuel Filters.
For small oil and fuel filters. Tough stainless steel band with special "teeth" for extra gripping power...won't slip. Special narrow 1/2" band fits in tight spots. Handle swivels to clear obstructions and makes it easy to turn in hard to reach locations. Vinyl covered handle. Covers a range of 2 3/8" to 2 5/8" (60.3 - 66.7mm)

Description	Part No.
"Swivel Grip" Oil / Fuel Filter Wrench	LS54400

4.5 GALLON DRAIN PANS

Now with built-in-ribs for draining filters in the pan. For easy transfer of liquids. High-density polyethylene material is resistant to chemicals and solvents, and is easy to clean. 1" wide diameter spout for quick and easy pouring. The anti-splash lip and baffles help prevent spilling when carrying or pouring. Comes with large, easy-grip handles. Two colors: 17942 is black for oil and 17952 is green for anti-freeze.

Description	Part No.
4.5 Gallon Oil Drain Pan, Black	LS17942
4.5 Gallon Oil Drain Pan, Green	LS17952

MOELLER MARINE PRODUCTS FLUID EXTRACTOR

- Empties oil in 15 pumps or less
- Extracts warm or cold oil
- Pressure relief valve allows easy transportation and storage
- Single-hand-ease effortless operation
- Tethered cap
- Delivers gulp-free, mess-free performance
- Complete adapter kit is included featuring three extraction tubes

Description	Part No.
Moeller Fluid Extractor (6.5 Liter Fluid Extractor)	MR07398
Moeller Fluid Extractor Tube Replacement Kit	MR08032

*Note: Not for use with gasoline.

Complete Adapter Kit Included with MR07398

RULE FLAT TANK ELECTRIC OIL EXTRACTOR

Eliminate those costly yard service fees with the new quick, clean, compact electric oil extractor. Includes a 3-1/2 gallon compact self-priming diaphragm pump for extraction and an easy pour spout for oil transfer.

- 3.5 gallon (13 liter) leak proof container
- Designed for ease of carrying
- Complete with dipstick, suction tube & battery clamps
- Empties and stows easily

- Self-priming, dry running, 12 or 24 volt diaphragm pump

Description	Part No.
Electric Oil Extractor	17860-0012

HYDRO-TURF OIL EXTRACTOR

The unit uses a small vacuum system, which pumps fluid through a hose to the 6-liter reservoir. It also includes a pour spout to aid in emptying the reservoir. Pump is removable for easy storage.

Description	Part No.
Hydro-Turf Oil Extractor	OIL01

Tethered Cap & Easy Pour Spout

Pressure Release Valve

No Overflows With Built-in Automatic Shut-off Float!

HOSE SHEARS

Scissor-action cutter for hose.

Description	Part No.
Hose Shears	59-4020

FUEL LINE

Fuel line is made from a thick walled polyurethane tubing. Sold per foot. or 25 feet/pk

Description	Part No.
Blue (1/4") per foot	53-9970
Blue (1/4") 25 feet package	53-9970-25
Primer Line (1/8") per foot	53-9980
Primer Line (1/8") 25 feet package	53-9980-25

Fast, Easy, Strong and Secure Installation

SQUEEZE ON STAINLESS STEEL LOW PROFILE CLAMPS

Oetiker Stepless Ear Clamps, due to the reinforcing 'dimple' in the ear, hold against pressure and vibration or hose shrinkage due to temperature changes. A built-in spring action permits the clamp to "breathe" without loosening, the need to retighten is eliminated. Once installed, any tampering is easily visible, making this an excellent clamp for service or security applications.

Fast & Easy Removal

Description	Clamp Size	Part No.
Pincer Tool	-	59-4015
Clamp for 1/4" Hose (10 pcs/pk)	9/16	59-4016
Clamp for 3/8" Water Line (10 pcs/pk)	11/16	59-4017

Clamp for 1/2" Water Line (100 pcs/pk)	13/16	59-4018-100

FLEX-TECH WATER LINE HOSE

Flex-Tech multi purpose hose is more flexible and bendable for those complicated water routing requirements. This waterline is highly recommended for Factory and TBM Dry Pipe installations. Waterline is sold per foot.

Description	Part No.
3/8" Flex-Tech Light Blue Waterline Hose	56-8010

WATER LINE HOSE

Goodyear hose has been replacing rubber hose or metal tubing designs. Goodyear hose and tubing offers customers a number of benefits, including flexibility, durability, abrasion resistance, lighter weight materials, superior chemical resistance, high pressure capability, and extended product performance. Waterline is sold per foot.

Description	Part No.
3/8" Blue	56-8000
1/2" Blue	56-8004
3/8" Clear Vinyl*	56-8007

*Clear vinyl hose is not manufactured by Goodyear.

500 foot reel 3/8" blue hose available and
400 foot reel 1/2" blue hose available

FUEL SYSTEM SERVICE TOOLS

CARB SCREW ADJUSTING TOOL

Angled head for the hard-to-reach carb adjustment screws

Description	Part No.
Carb Screw Adjusting Tool	53-9994

90 DEGREE 1/4" HEX DRIVER

Precision made of high-grade aluminum & stainless steel. Designed for hard-to-reach pilot screw. Gear driven 1/4" hex. Includes 1/4" hex bits, straight slot, Phillips, D-shaped pilot screw bit, 6mm hex jet bit and 1/4"-hex-to-1/4" drive bit.

Description	Part No.
90 Degree 1/4" Hex Driver	08-0229

ONE-HANDED OPERATION

HOSE PINCHER

Clamps and holds hoses up to 3/4" inside diameter. Angled jaws close to create a complete seal every time. Jaws are offset for hard-to-reach areas. The handles lock firmly to hold the jaws in closed position.

Description	Part No.
Hose Pinchers	LS23000

HOSE REMOVAL PLIERS

For easy removal of 5/32" to 1/2" (4mm to 14mm) hoses. Engage the tube (line) with the black jaw. This sharpened jaw actually "digs" into the tube to grip it! Squeeze, and the hose is easily pushed off by the silver jaw.

Description	Part No.
Hose Removal Pliers	LS47900

HOSE PINCHERS

Quick, easy way to pinch off fuel lines, etc. without damaging the line. Sold two per set.

Description	Part No.
Hose Pinchers	LS22850

MIKUNI TOOL KIT

This handy little kit contains all the tools necessary to make jetting change, perform normal maintenance as well as disassemble and rebuild any Mikuni carburetor

Description	Part No.
Mikuni Tool Kit	53-9989

ROTARY VALVE TIMING WHEEL

Description	Part No.
Rotary Valve Timing Wheel	012-170

POP-OFF GAUGE

For Accurate adjustment of pop off pressure levels.

Description	Part No.

QUICK RELEASE RING COMPRESSOR

Ring Compressor makes it easy to remove ring from piston. Range is from 2-1/8" – 5" (54mm–127mm).

Description	Part No.
Quick Release Ring Compressor	LS19000

Locks in 3 Different Positions.

FOLD-UP SCRAPER

The fold-up scraper features three arm positions and a slanted blade for proper scraping. Great for removing decals, etc.

Description	Part No.
Fold-up Scraper	LS52400

1" WIRE END BRUSHES

Made with .020" industrial heat-tempered wire. Use with portable electric and air tools. 20,000rpm maximum safe speed.

Description	Part No.
1" Knot Wire End Brush	LS14040
1" Crimped Wire End Brush	LS14060

RINGS SLIDE IN EASILY RANGE 3" TO 5" (76.2 to 127mm)

WRINKLE BAND RING COMPRESSOR

Wrinkle band cuts friction in half. Rings slide in easily 3" – 5" (76.2mm – 127mm).

Description	Part No.
Wrinkle Band Ring Compressor	LS21700

SEAL PULLER

Simply insert the tip of the tool behind the oil or grease seal, press and pull. Leverage works for you. Two size tips reach in and fit nearly all seal applications.

Description	Part No.
Seal Puller	LS56750

"O" RING AND SEAL PICK

Quickly removes and installs "O" rings and seals. Tips are hardened to stay sharp.

Description	Part No.
"O" Ring and Seal Pick	LS31840

PISTON RING INSTALLER

Description	Part No.
Piston Ring Installer	LS33500

PISTON PIN PULLER

Universal piston pin puller easily removes all sizes of piston pins without any damage to the piston.

Description	Part No.
Piston Pin Puller	59-0252

12700	2.995"
12970	3.180"

BEARING RACE AND SEAL DRIVER—MASTER SET

Make it easier to insert bearing race and seals without damage to race. This master set includes nine drivers to fit most standard bearings.

Description	Part No.
Bearing Race and Seal Drive	LS12980
Handle Mini pouched	LS12660

COMPRESSION TESTER

Contains hoses for 10, 12 & 14mm spark plug applications. Features a quick disconnect with a pressure release valve and a 300lbs. Gauge. Packed in a convenient carry box. Made in USA.

Description	Part No.
Compression Tester	08-0188

TELESCOPING MIRROR

Enables you to see around corner. 2-1/4" diameter mirror swivels to any position. Length extends from 10" to 14".

Description	Part No.
Telescoping Mirror	LS32050

JUMPER CABLES

8 feet long heavy duty 8 gauge copper jumper cables are big on charging power, yet stow conveniently in the 9 x 9 inch nylon bag.

Description	Part No.
Jumper Cables	59-0530

SPARK PLUG TOOLS

Description	Part No.
Ratchet Plug Wrench	59-0539

SPARK PLUG WIRE TESTER

Now you can check spark plug wires without piercing the wires. Light flashes indicating sound wire.

Description	Part No.
Spark Plug Wire Tester	LS26900

IGNITION SYSTEM SPARK TESTER

This ignition system tester checks the integrity and strength of your system by gauging your systems spark.

Description	Part No.
Ignition System Spark Tester	59-0253

SPARK PLUG HOLE THREAD CHASER

Cleans threads in spark plug hole. Use with 13/16" spark plug socket. Double-ended for both 14mm and 18mm threads.

Description	Part No.
Spark Plug Hole Thread Chaser	LS20200

STANDARD/HIGH ENERGY SPARK PLUG GAUGE & GAPPER

Gauge and gap all types of spark plugs from .020" to .110 (.50mm to 2.53mm).

Description	Part No.
Spark Plug Gauge and Gapper	LS67870

LOW CIRCUIT TESTER

Quick check both AC and DC current up to 28 volts with power on. Helps locate shorts or breaks in wiring. Complete with insulated grounding grip.

Description	Part No.
Low Circuit Tester	LS26250
Replacement Bulb	LS26270

SPARK PLUG HOLDERS

Spark Plug Holder protects the electrode, maintaining the proper gap.

Description	Part No.
2 per blister pack	SPH-2
40 per countertop display	SPH-40

PRO-CRIMP TOOL

To do a job right, it is important to have the right tools. If you custom build a lot of plug wires, the Pro-Crimp is the right tool for you! The Pro-Crimp features a hardened steel frame, molded hand grips and built-in ratchet action that is also adjustable. The tool is supplied with jaws to fit MSD's Super Conductor Spark Plug wires and can be removed to use additional jaws (sold separately) for crimping common wiring terminals.

Description	Part No.
MSD Pro Crimp Tool	3505
Spark Plug Dies	3508
Amp Pins	3506
Amp Lug Dies	3507
Weathertight Dies	3509
Deutsch Terminal Dies	3510

TERMINAL DETENT TOOL

The hollow barrel allows you to depress the tab on the terminal end and to remove the wire from the connector without damaging its ends.

Description	Part No.
Terminal Detent Tool	59-0254

TERMINAL REMOVAL TOOL

Includes six different shaped blades.

Description	Part No.
Terminal Removal Tool	LS14900

PERMA-SEAL CONNECTOR KIT

Description	Part No.
MSD Perma-Seal Connector Kit	4377

TIMING LIGHTS

MSD offers a heavy duty top quality timing light. This timing light is supplied in a heavy duty metal housing and features a high output Linear Xenon strobe with a focused fresnel lens that produces a light that's bright enough to use outdoors. It is equipped with a 6 foot lead and uses a metal inductive pickup that clamps to the spark plug wire.

Description	Part No.
Timing Light	8990

TIMING DEGREE WHEEL

Set total loss timing with no guess work. Check crank shaft timing to exact degree. A must for porting and port timing.

Description	Part No.
Timing Degree Wheel	08-0092

VALVE COMPRESSION TOOL SD 4-TEC

Our overhead Valve Compression Tool allows easy removal of valve springs and keepers without removing cylinder head. Includes compression adapter to pressurize cylinder keeping valves in place during removal of stock springs and keepers.

Description	Part No.
Tool, Valve Compression, SD 4-TEC	RS19050-VCT

R&D RXP SC REBUILD TOOL KIT

R&D has designed a custom tool kit that is essential in the rebuilding process of the SeaDoo Supercharger. All tools are specific in application and are CNC machined to ensure a precision job.

Description	Part No.
185 Horsepower Tool Kit*	613-96001
215 Horsepower Tool Kit*	613-96002
A. Supercharger Holder Tool	613-96005
D. Bearing Puller/Installer Tool	613-96006
4-Pin Socket	613-96007
Seal/Bearing Retainer Torx Wrench	613-96008
B. 215HP 16 Tooth Drive Gear Tool	613-96016
B. 185HP 17 Tooth Drive Gear Tool	613-96017
C. 185HP Clutch drive / Lock Washer Tool	613-96018
C. 215HP Clutch drive / Lock Washer Tool	613-96019

*NOTE: Kit comes with a S/C holder, bearing puller/installer tool, drive gear tool and clutch drive/lock washer tool.

RIVA SEADOO SUPERCHARGER SHAFT HOLDER TOOL

Our SeaDoo Supercharger Shaft Holder Tool makes servicing your supercharger a snap. Ergonomically designed billet handle allows a sure, firm grip without fatiguing your hand. Working ends are made from heat treated tool-grade steel to resist wear and are oversized to prevent flexing. A must for every mechanic's tool box!

Description	Part No.
RIVA SeaDoo SC Shaft Holder Tool	RS1750-ISH-949

TORX® SOCKET SET FOR SEA DOO

Special Star Sockets for Sea Doo 4-Tec & DI engine bolts are made from heat-treated vanadium steel and black oxide coated for durability. Sockets are kept in a convenient vinyl holder.

- Four 3/8" Drive Sockets (T10, T12, T14, T16)
- Three 1/4" Drive Sockets (T6, T7, T8)

Description	Part No.
Torx Socket Set	LS26750

SCRATCH BRUSH

Removes rust, scale, paint, and solder from metal surfaces.

Description	Part No.
I. Shoe Handle Scratch Brush	LS14180
J. Scratch Brush	LS14160

PARTS CLEANING BRUSH

Description	Part No.
Parts Cleaning Brush	LS14000

SUPER OUT SET

A super strong extractor set made of a special hardened, shock-resistant tool steel. Works on both left and right hand threads. Super Outs cut their way straight into bolts, eliminating wedging or further tightening of frozen bolts and screws. Five extractor sizes extract 1/4" to 1/2" and larger bolts and screws.

Description	Part No.
Super Out Extractor Set	LS62900

3/8" HAND IMPACT TOOL SET

Loosens Rusted, Frozen Nuts, Bolts and Screws. Unique design delivers over 200 ft. lbs. of "Shock Torque." Can be reversed to tighten. Can also be used with impact sockets!

29200	Impact Set Includes:
29000	3/8" Impact Tool
29520	3/8" Bit Holder
29630	#1 Phillips Bit
30180	#2 Phillips Bit
29550	#3 Phillips Bit
30190	#4 Phillips Bit
30170	3/8" Straight Slot Bit

Description	Part No.
3/8" Hand Impact Tool Set	LS29200

TORQUE ANGLE METER

For All Torque-to-Yield Fastener Applications. Commonly used for tightening head bolts & other bolts where a torque angle is required. Use with 1/2" drive.

Description	Part No.
Torque Angle Meter	LS28100

LISLE CREEPER SEAT/STEP

Ergonomic design with a 300lb. capacity that can be rotated forward onto rubber feet to make a stable 14" tall ladder. Spacious storage tray below the seat keeps tools, test equipment and parts within easy reach. Perfect for PWC service, PWC pump repairs, etc. Wheels pop into tubular steel

legs with an outrigger design for added stability.

Description	Part No.
Lisle Creeper Seat/Step	LS93402

RULE FLAT TANK ELECTRIC OIL EXTRACTOR

Eliminate those costly yard service fees with the new quick, clean, compact electric oil extractor. Includes a 3-1/2 gallon compact self-priming diaphragm pump for extraction and an easy pour spout for oil transfer.

- 3.5 gallon (13 liter) leak proof container
- Designed for ease of carrying

- Complete with dipstick, suction tube & battery clamps
- Empties and stows easily
- Self-priming, dry running, 12 or 24 volt diaphragm pump

Description	Part No.
Electric Oil Extractor	17860-0012

HYDRO-TURF OIL EXTRACTOR

The unit uses a small vacuum system, which pumps fluid through a hose to the 6-liter reservoir. It also includes a pour spout to aid in emptying the reservoir. Pump is removable for easy storage.

Description	Part No.
Hydro-Turf Oil Extractor	OIL01

MOELLER MARINE PRODUCTS FLUID EXTRACTOR

- Empties oil in 15 pumps or less
- Extracts warm or cold oil
- Pressure relief valve allows easy transportation and storage
- Single-hand-ease effortless operation
- Delivers gulp-free, mess-free performance
- Complete adapter kit is included featuring three extraction tubes
- Tethered cap

Description	Part No.
Moeller Oil Extractor (6.5 Liter Fluid Extractor)	MR07398
Moeller Fluid Extractor Tube Replacement Kit	MR08032

*Note: Not for use with gasoline.

USA Patent #5450924 - Germany Patent #29500683.8 - U.K. Patent #2272948 Australia Patent #674469 - Taiwan Patent #113238 - China Patent #ZL92241981.7

SHOP LANYARD

Not legal for riding.
For shop testing only.

Description	Part No.
KPTW, Yamaha, Sea Doo	A3240
KPTW, Yamaha, Sea Doo DESS	A3250

4.5 GALLON DRAIN PANS

Now with built-in-ribs for draining filters in the pan. For easy transfer of liquids. High-density polyethylene material is resistant to chemicals and solvents, and is easy to clean. 1" wide diameter spout for quick and easy pouring. The anti-splash lip and baffles help prevent spilling when carrying or pouring. Comes with large, easy-grip handles. Two colors: 17942 is black for oil and 17952 is green for anti-freeze.

Description	Part No.
4.5 Gallon Oil Drain Pan, Black	LS17942
4.5 Gallon Oil Drain Pan, Green	LS17952

RATIO RITE CUP & LID

With Ratio Rite measuring cup get a perfect mix every time. Fill to the pre-calibrated ratio mark and pour into gas. Ratios are from 16:1 to 44:1 for up to 12 gallons. Calibrations also include oz., cc's, and pints.

Description	Part No.
Ratio Cup	59-0548
Ratio Rite Cup Lid	59-0582

STUD TOOL

Economy stud installation and removal tool. The kit includes three sizes: 6mm, 8mm and 10mm.

Description	Part No.
Economy Stud Tool Kit	WJ7710

STUD INSTALLATION TOOLS

Will install cylinder and intake manifold studs. Hex head is 3/4" or 19mm.

Description	Part No.
6mm x 1.00 Stud Tool	59-0212
8mm x 1.25 Stud Tool	59-0213
10mm x 1.25 Stud Tool	59-0214

HEX-PRO AND STAR-PRO PIVOT HEAD WRENCHES

- Pivot design allows for easy rotation around obstructions
- Heat treated alloy tool steel
- Includes heavy duty folding canvas storage pouch

Description	Part No.
Hex-Pro Metric	08-0420
Hex-Pro SAE	08-0419
Star-Pro	08-0421

CABLE LUBBER

Installs quickly and helps free up corroded or tight cables. Note; Damaged cable should be replaced.

Description	Part No.
Cable Lubber	59-0250

T-HANDLE RATCHET

Features a compact design that allows it to be used even in tight spaces.

Description	Part No.
1/4" T-Handle Ratchet	08-0231
3/8" T-Handle Ratchet	08-0226

BALL END ALLEN SET

Made of chrome-vanadium tool steel. Size available 1.5, 2, 2.5, 3, 4, 5, 6, 8, & 10mm. Ball end allows for better access to allen-head bolts (up to 25 degree working angle.)

Description	Part No.
Ball End Allen Set	08-0185

DOC ALLEN'S VERSATOOL

- Lightweight
- Compact
- Multi-Function
- Stainless Steel
- Use in Tight Places

Description	Part No.
Compact Tool Set	VERSATOOL

MAGNETIC SOCKET HOLDERS

Standard and deep sockets fit on one convenient holder with powerful magnets, securely holding on to any steel surface. Red color only.

Description	Part No.
1/4" Holder with 26 compartments	LS40120
3/8" Holder with 28 compartments	LS40200

MAGNETIC TOOL HOLDERS

Powerful magnet holds even heavy hand tools. Ideal for both home and shop.

Description	Part No.
13" long Magnetic Tool Holder	LS21300
24" long Magnetic Tool Holder	LS21400

RUBBER-FACED & ALUMINUM VISE JAW PADS

These vise jaw pads are designed to protect delicate parts from damage. Sold in pairs.

Description	Part No.
A. Rubber-faced Vise Jaw Pads	LS48100
B. Aluminum Vise Jaw Pads	LS48000

We Get You Connected

Scan-Sea is your interactive connection to the generation of electronically equipped skis. It is designed to be used by any watercraft technician. Scan-Sea makes it easier than ever to:

- Diagnose
- Read and clear fault codes
- Add and remove keys
- Reset maintenance hours
- Deliver live data and much more!

Increase sales, save time and improve service performance with the Mariner 5 Deluxe Kit. The Mariner 5 comes complete with everything you need to get started and keep everything in its place. Every Kit also includes a **2 year warranty and 2 years of FREE software updates** from date of purchase.

Scan-Sea Mariner 5 Deluxe Kit Includes:

1. Mariner 5 Professional Diagnostic System* (PDS)
2. Key Programmer System* (KPS)
3. Diagnostic Cables (Available brands sold separately)
4. USB Cable
5. Scan-Sea Original Software
6. Transport Case

Description	Part No.
Mariner 5 Deluxe Kit	MAR5

The PDS scanner is the component that transfers data from the PWC to the computer via a USB cable. Data is converted into a user-friendly visual display allowing mechanics to effectively diagnose engine faults and performance. The PDS includes a 2 year warranty and 2 years of FREE software updates from date of purchase. The PDS is a standalone system and can be used without the KPS.

- Includes:
- PDS Scanner
 - USB Connector Cable
 - RS232 Cable
 - Instruction Manual
 - Durable Transport Case

Description	Part No.
Professional Diagnostic System Scanner	PDSD

Now you can give customers a choice and increase sales with the KPS. The KPS is an indispensable tool for programming the electronic Sea-Doo lanyard (key). No longer do you need to send customers or their skis to dealers to be programmed.

With Scan-Sea's KPS every Sea-Doo lanyard can be reprogrammed.

****The KPS is NOT a standalone system and requires the PDS to program keys.***

Description	Part No..
Key Programming System Tool	KPSP

The Scan-Sea Direct Injection adapter connected with the special cable to the PWC battery, supplies the necessary power to the P.D.S. The adapter is needed for the DI models only. Keep business in your shop with Scan-Sea DI version.

****The Direct Injection Adapter is NOT a standalone system and requires the Mariner 5 or PDS. *Not included in the Mariner Deluxe 5 Kit.***

Description	Part No.
Direct Injection Adapter	SDIA

The Scan-Sea iS Adapter gets you connected to the latest technology from BRP and Bosch. This adapter is required for Sea-Doo IS models only.

****The Intelligent Suspension Adapter is NOT a standalone system and requires the Mariner 5 or PDS. *Not included in the Mariner Deluxe 5 Kit.***

Description	Part No.
Intelligent Suspension Adapter	SISA

ThreeBond

THREEBOND THREAD LOCK

(Green Label) High Strength Thread Lock #1303

For various threads, screws, bolts and piping joints which must remain secure.

(Red Label) Medium Strength Bearing & Stud Thread Lock #1333B

Retain high-strength properties for bearings and studs. Apply heat to soften for easier removal.

(Red Label) Medium Strength Hi-Temperature Thread Lock #1360

Incorporates anaerobic locking agents and a heat-resistant element for sealing engine and exhaust parts.

Description	10ml	50ml
High Strength Thread Lock	1303AT000	1303A50C
Medium Strength Bearing & Stud	Not Available	1333B50C
Medium Strength Hi-Temperature	1360AT003	1360A50C

#1211AT100

#1207B100G

THREEBOND SILICON GASKET

#1211 (White) Silicon Liquid Gasket

High grade silicon liquid gasket used by many OEM's in aluminum case assembly. 1211 is tack free in 90 minutes and fully cured in 24 hours.

#1207B (Black) Quick Dry Silicon Gasket

Crankcase sealer for large gaps, sheet metal, tough to seal areas, and vertical applications. 1207B is tack free in 5 minutes and fully cured in 24 hours.

Description	Part No.
Silicon Liquid Gasket (White)	1211AT100
Quick Dry Silicon Liquid Gasket (Black)	1207B100G

THREEBOND SUPERGLUE & ADHESIVE

#1742 Super Glue - Glue attains practical use strength in a matter of seconds.

Description	Part No.
Threebond Super Glue	1742BT020

1oz. Bottle

CORROSION BLOCK MULTI-PURPOSE GREASE

This grease won't soften, breakdown or wash out in wet application. Liquid grease is ideal for use in electrical applications requiring grease.

Description	Part No.
Corrosion Block Liquid 1oz. Bottle	CB-20001

SALT TERMINATOR™

Marine Engine Flush & Corrosion Protectant

SALT TERMINATOR™ dissolves salt and leaves a protective sheen, guarding against future salt corrosion. The SALT TERMINATOR™ Mixer automatically dilutes the concentrate and siphons it through a standard garden hose. Connect the hose to your engine's flushing unit and add extra years of service. Spray SALT TERMINATOR™ on all surfaces exposed to salt water or salt air. No scrubbing required!

Description	Part No.
10 oz. Ready-to-Use Spray	SX-10
Quart Concentrate	SX-32
Gallon Concentrate	SX-128
Mixer Only	SX-M

QUICK CRAFT

QuickCraft forms an insoluble coating that binds a layer of water around the hull. As a result, the drag between the hull and the surrounding water is reduced, and the boat slides through the water will less resistance. Results in increased speed and better fuel efficiency.

Description	Part No.
QuickCraft 16 oz. bottle	QC16

“THE ORIGINAL” DUCKY

DUC-1000 DUC-1001 DUC-1002

DUCKY WATER SPOT REMOVER — DUC-1000

DUCKY, the first product ever developed specifically for the removal of hard water stains. Ducky Water Spot Remover is non-abrasive, environmentally friendly and easy to use. Simply spray on and wipe off. Use on fiberglass, glass, painted surfaces, chrome, etc.

DUCKY ALL PURPOSE CLEANER — DUC-1001

Use Ducky All Purpose for cleaning: boat hulls, exhaust deposits, upholstery, carpet, other synthetics, chrome, mirrors and windows. Trigger spray activates rich, deep-cleaning foam that penetrates, lifts and suspends grease and grime.

DUCKY PWC DETAILER — DUC-1002

Ducky Detailer creates a molecular bond with the surface of your finish, providing ultimate protection from harmful U.V. rays and soil accumulation. Ultra violet brightener will enhance colors while leaving a smooth-to-the-touch, wet-look finish.

Description	Part No.
Water Spot Remover 32oz. (946ml.)	DUC1000
All Purpose Cleaner 32oz. (946ml.)	DUC1001
PWC Detailer 24oz. (709ml.)	DUC1002

Seat Cover Templates are available in the 2010 Hot Products Price List and also on our website <http://www.HotProductsUSA.com> in the 2010 Catalog section.

*Hot Products is proud to announce the sponsorship of
Matt & Joe Edwards • 95/97 Racing (Doncaster, South Yorkshire - UK)*

*95/97 Racing would like to thank Hot Products for their generous support and sponsorship of Matt and Joe Edwards (Ages 15 and 12 respectively) that race as a family Jet Ski race team titled **95/97 Racing**.*

Both boys enjoy most extreme sports, and actively participate in; BMX, mountain biking, skateboarding, snowboarding, music and Playstation (as well as their commitment to Jet skiing).

They will try any food, having traveled to many places across the World and sampled local delicacies.

Matt and Joe have been racing for several years with Matt starting in 2005 and later winning back to back Junior British Champion titles in 2007 & 2008 at 12 and 13 of age. Last year (2009), when he had just turned 14 in March, he was given permission to move up to the premier GP class and Stock 2-stroke class racing with the Adults where he came 3rd in 2009. He has also achieved a 2nd in Junior Stock, Slalom and Junior Ltd classes at the 2008 and 2009 World Finals held at Lake Havasu in Arizona, USA.

Joe started racing at 10 year old, winning his first title the same year when he easily won the Novice Junior winter championship and therefore was asked to race in the Open British Championship alongside his Brother Matt. He rode his 2-stroke Kawasaki all year, winning the Junior 2-stroke championship (becoming British Junior 2-stroke champion in his first season) and coming second in the overall Junior Open Championship behind his brother Matt. That year (2008) Joe went to the World Finals and won the 10-12 Junior 'Lites' (2-stroke) class, becoming a WORLD Champion in his first year of racing. Last year (2009), he was unbeaten in the British Championship all season and received a special award for gaining the maximum possible points in a season, becoming the 2009 British Junior Champion at 11 years old (the youngest ever British Junior Champion). At the end of August he turned 12 and went to the World Finals in the USA where he was again unbeaten in all qualifiers and motos, winning both the Junior 2-stroke and 4-stroke classes – becoming a DOUBLE WORLD CHAMPION in 2009.

Following his achievements, Joe was nominated by the British RYA for the Young Sports Personality of the Year award.

We are all proud of the boy's achievements and thank everyone for their support from their sponsors who show commitment to their future success, and the hard work of a lot of people (behind the scenes) connected with them which have led to their joint successes so far in their chosen sport.

The boys have met and made many friends around the world through their Jet skiing and maintain their friendships through Facebook, e-mail and the web.

Thank you to all our sponsors for your continued support.

*Best Regards,
95/97 Racing
