LIST OF APPENDICES

APPENDIX A	UTILITY TABLES
APPENDIX B	LIST OF POTENTIALLY IMPACTED PROPERTIES
APPENDIX C	COMMERCIAL RELOCATIONS

SECTION 1 - INTRODUCTION

Interstate 73 (I-73) is a national highway project that will eventually provide a transportation corridor from Michigan to South Carolina. The I-73 project will start in the vicinity of Myrtle Beach and go through portions of North Carolina, Virginia, West Virginia, and Ohio before terminating at Sault Ste. Marie, Michigan, refer to **Figure 1**.

The purpose of this report is threefold and will address utilities, right-of-way acquisition and relocations for each of the final three proposed alignments for South Carolina's northern section which extends from I-95 to the future I-73/I-74 interchange in Hamlet, North Carolina. The study area for this section of the project is shown in yellow, in **Figure 1**.

Purpose

This report describes the cost and impact comparisons made of three final alternatives. These comparisons will aid in the selection of the preferred alternative. The three alternatives were equally developed at the time of the compilation of this data.

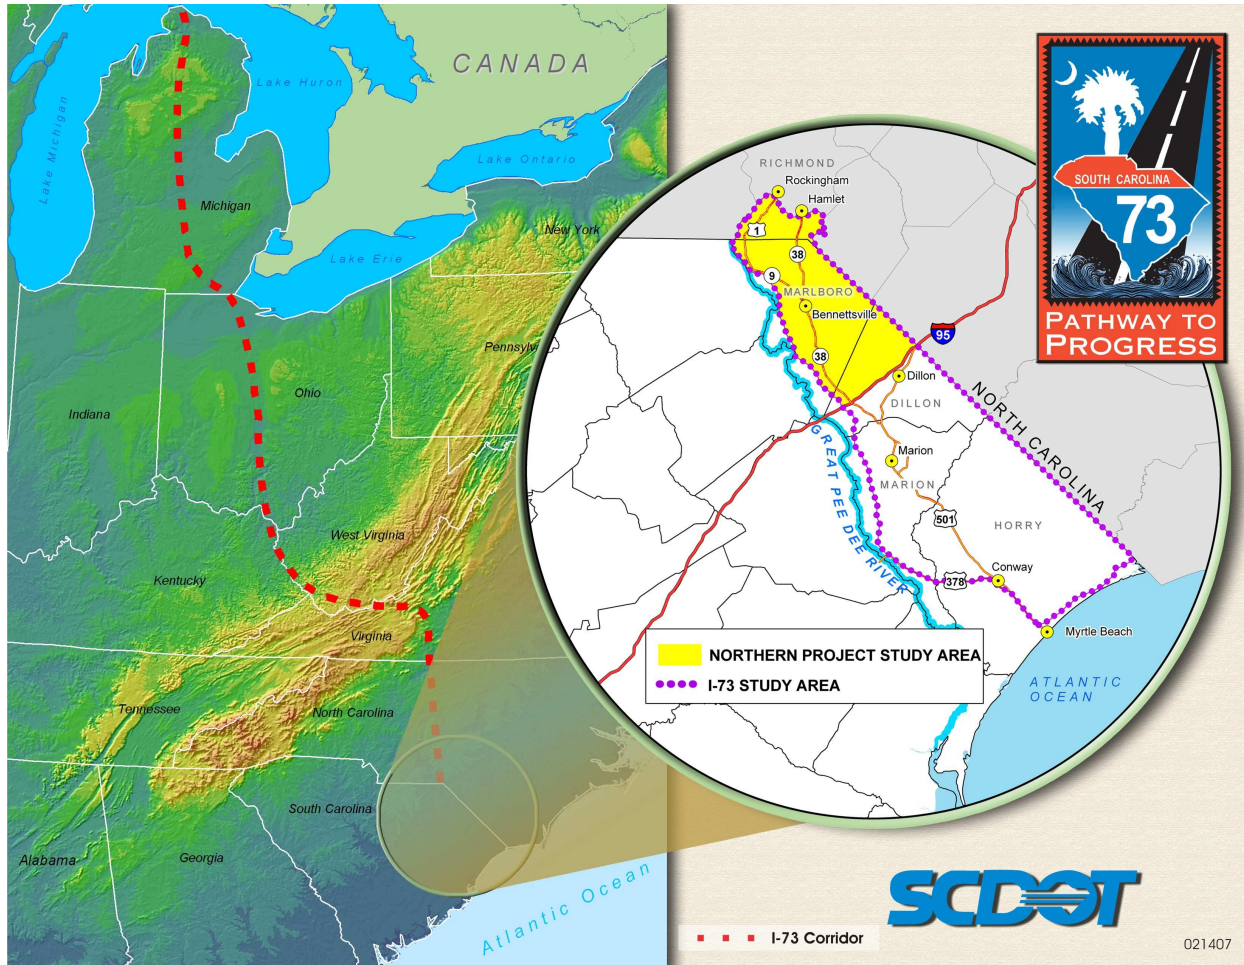

Figure 1

Alternatives

The majority of the project is located in the northeastern corner of South Carolina. The alignments encompass portions of Dillon and Marlboro Counties in South Carolina and Scotland and Richmond Counties in North Carolina. The three final alternatives (1, 2 and 3) are comprised of segments A, B, C, D, E, F, G, H, and I. The alignments vary in their routes around the towns of Bennettsville, Clio and McColl. The alternatives are shown in **Figure 2**.

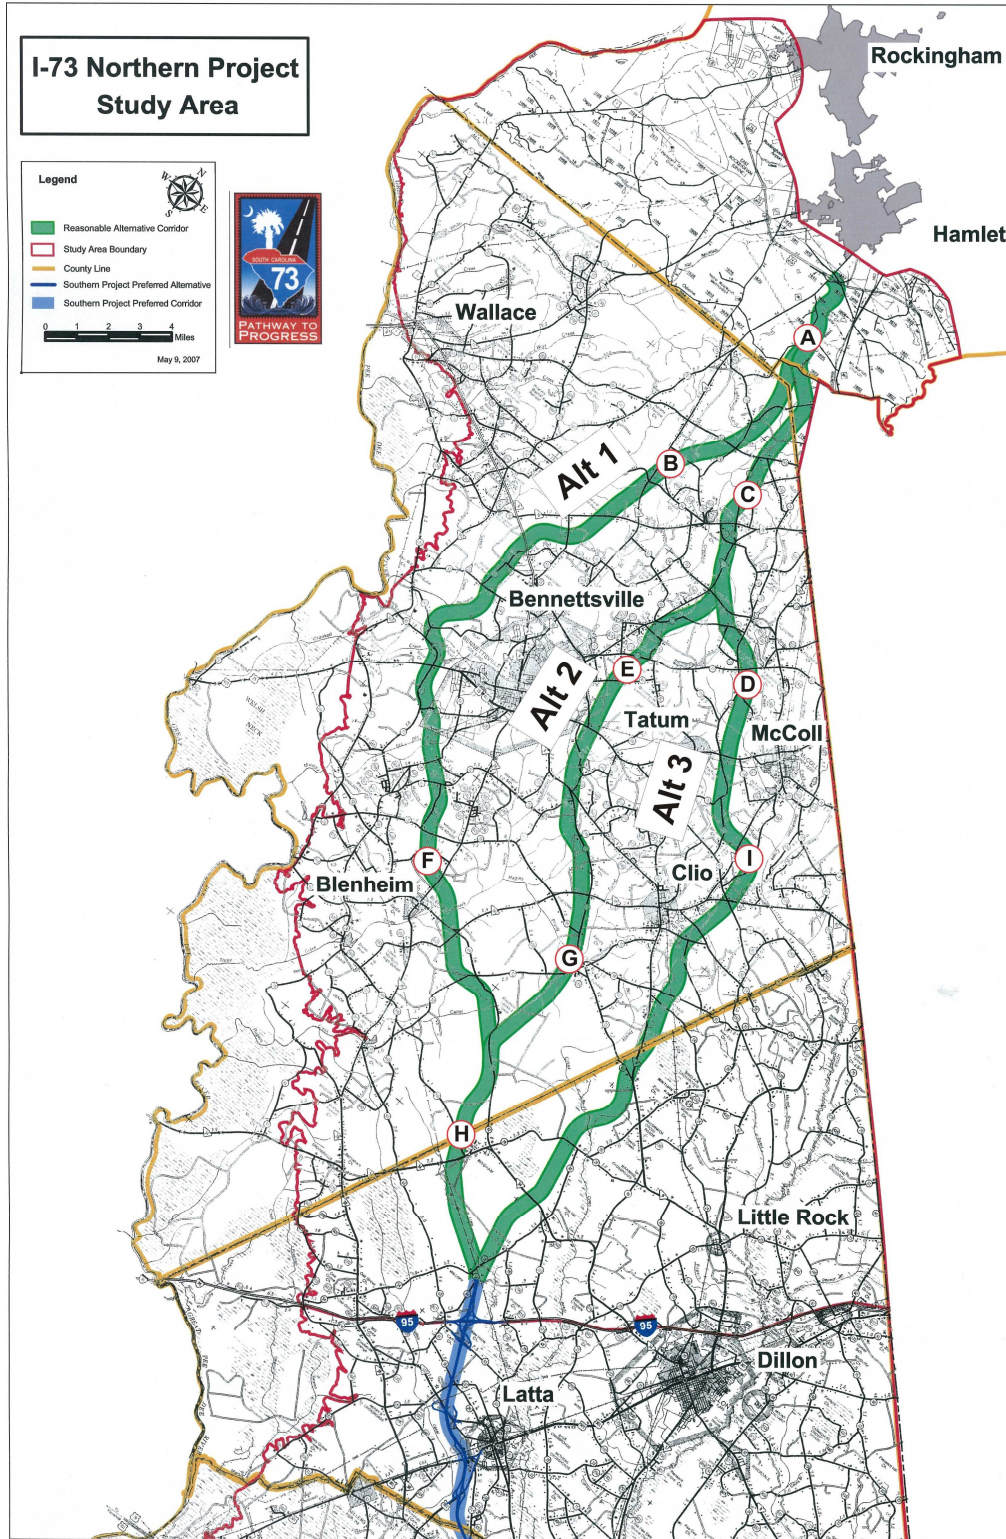

Figure 2

SECTION 2 – UTILITIES

Utility information was compiled for the alternatives shown in Figure 2. Major utility facilities in the area were identified including electric, natural gas, water, sanitary sewer, telecommunications, and cable television. Owner information as well as a description of the facilities that will potentially be impacted by the corridors is provided in **Appendix A**.

Utility Relocation Costs

A summary of the utility relocation cost estimates for each of the alternatives, in millions of dollars, is provided in **Table 1**, below. Relocation estimates by sections of the alignments are detailed in the **Appendix A** tables and are broken out into reimbursable costs and non-reimbursable costs.

Table 1: Total Utility Relocation Costs (in millions)

Alt 1	Alt 2	Alt 3
\$14.5	\$13.6	\$12.2

SECTION 3 – RIGHT OF WAY

Right-of Way-Acquisitions

A list of potential right-of-way acquisitions applicable to each of the three alternatives was compiled. This list of potentially impacted properties includes, when available, county, tax map number, owner name, address and the total acreage of the tract. This property data is provided for each alternative in **Appendix B**.

The total number of properties that will be affected by each alternative is provided in **Table 2**, below.

Table 2: Affected Properties

Alt 1	Alt 2	Alt 3
447	469	369

The total estimated right of way, in acres, required for each of the alternatives is provided in **Table 3**, below.

Table 3: Right of Way (in acres)

Alt 1	Alt 2	Alt 3
2,224	2,111	2,137

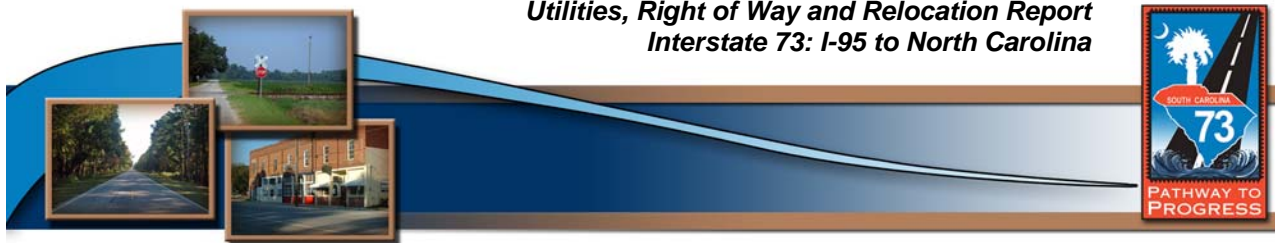

Right-of-Way Cost Estimates

Preliminary right-of-way cost values were developed for both land and for improved properties in the study area.

The right-of-way costs for Alternative 2 were provided by SCDOT. The Department estimated the right-of-way cost for Alternative 2 to be \$18 million. The \$18 million and the 2,111 acres impacted by Alternative 2 were used to calculate an average per acre right-of-way cost of \$8,530 for the project area. This was applied to the acreage estimates for Alternatives 1 & 3 to calculate the right-of-way cost estimates. The right-of-way cost estimates are provided in **Table 4**.

Table 4: Right-of-Way Costs (in millions)

Alt 1	Alt 2	Alt 3
\$19.0	\$18.0	\$18.2

SECTION 4 – RELOCATIONS

Relocatee Assistant Services

Any person, who is displaced by a publicly funded project, will be provided assistance in locating decent, safe, and sanitary replacement housing which is within their financial means. Assistance will also be given to businesses, farming operations and nonprofit organizations in finding and relocating into replacement quarters.

The two types of payments for which relocatees may be eligible are: (1) moving cost, and (2) replacement housing. Housing cost may also include incidental payments in buying replacement property and increased interest cost. The relocatee will be given details about these payments and the eligibility requirements for each.

The relocatee will be provided current and updated list of replacement housing, lots, commercial locations and facilities, and farms. This list will include available information about the price, size and condition of properties on the market. Current data about cost such as security deposits for utilities, damages, and leases; closing cost; typical down payments; and interest rates and terms shall also be made available. Maps showing the location of schools, parks, public transportation, and shopping will be made available. Information from any agency that renders services useful to displaced persons, businesses, farms, and nonprofit organizations will be provided to successfully complete the relocation.

The relocatee will be given assistance in planning their move so to avoid taking any action which might disqualify them for assistance or payment.

Commercial Relocations

A detailed field review was made of potential commercial relocations for each of the alternatives. The number of commercial relocations is summarized in **Table 5**, below. No cemeteries will be impacted by any of the alternatives. A detailed list of potential commercial relocations is provided in **Appendix C**. This detailed list includes the business name, number of buildings, address, number of local employees, business type, and local annual sales.

Table 5: Commercial Relocations

Relocation	Alt 1	Alt 2	Alt 3
Businesses	2	6*	4
Churches	0	0	1

*Note: Due to modifications to Alternative 2 (Preferred Alternative) that were implemented after this report was developed, only four businesses would be impacted (refer to Chapter 2, page 2-60).

Residential Relocations

A detailed field review was made of potential residential relocations for each of the three alternatives. The residential relocations that may be required are summarized in **Table 6**.

Table 6: Residential Relocations

Relocation	Alt 1	Alt 2	Alt 3
House	44	17	18
Mobile Homes	25	18	18
Total	69	35*	36

*Note: Due to modifications to Alternative 2 (Preferred Alternative) that were implemented after this report was developed, only 24 residences would be impacted (refer to Chapter 2, page 2-60).

Availability of Decent, Safe, and Sanitary Housing

It is anticipated that there will be availability of decent, safe, and sanitary housing in the project area.

Housing of Last Resort

In the event that existing housing inventory is insufficient, does not meet relocation standards, or is not within the financial capability of the displaced, special measures consistent with the provisions of the SCDOT Department of Right of Way Relocation Assistance Manual shall be implemented. These provisions will apply when the normal Relocation Assistance Payment limits are inadequate to effect a solution to the housing needs of eligible displaced.

If it is determined that special circumstances dictate housing or payments in excess of normal maximum limits, a Preliminary Housing Study and a Last Resort Housing Plan shall be completed and approved. When simple displacements are involved, the study and plan may be combined. If there appears to be a lack of available replacement housing, two separate documents may be required.

If comparable replacement housing is not available and cannot otherwise be made available, suitable housing may be provided by methods which include, but are not limited to, the following:

- A replacement housing payment in excess of the normal limits,
- The purchase of land and/or dwellings and subsequent sale, lease or exchange with the displaced person,
- Rehabilitation and/or additions to an existing building,

- Relocation and refurbishing/rehabilitation of dwellings purchased for right-of-way purposes,
- Construction of new dwellings,
- Removal of barriers for the handicapped,
- Other innovative approaches consistent with State and Federal Policies and Regulations.
