

Top End® Crossfire™ T6A Active Performance Wheelchair

# Crossfire™ T6A

Yes, you can.®

TOP END®

**Life's obstacles surround us each and every day and we have the choice to neglect them or accept them as opportunities.** The Crossfire™ T6A State-of-the-Art frame technology and unsurpassed fabrication make all obstacles an opportunity!

The Crossfire T6A features an adjustable, open-frame design unlike any other performance rigid chair available today. Where most adjustable rigid chairs sacrifice performance by changing the geometry of the frame relative to the ground, Top End's dual-rigid frame is designed for performance on our lower frame and positioning and comfort on the upper seat frame.

Together these two frames deliver peak performance in push efficiency and the ability to make necessary seating adjustments without sacrificing performance over time.

The months spent engineering this design resulted in a super lightweight chair that can be adjusted in minutes precisely fit for life's opportunities.

Crossfire™

Top End® Crossfire™ T6A Active Performance Wheelchair

MICHAEL, A CG/CT, IS ACTIVELY PURSUING HIS BACHELORS DEGREE IN ACCOUNTING AND ENJOYS HANGING OUT WITH HIS FRIENDS.

The seat frame allows for ample rear seat-to-floor adjustment with a durable and eye-catching aluminum crescent link. The side frame offers 3.25" of rear wheel center-of-gravity adjustment.

Each custom frame is built to accommodate a short front fork to reduce overall caster trail and keep the user's center-of-gravity low to the ground for improved balance.

The back angle is adjusted simply by loosening a button-head screw and rotating an adjustment square located on the inside of this back bracket.

Two pressed bearings located in the fork allow for a more controlled rotation and help to eliminate flutter. The T6A also eliminates problematic caster angle adjustment with our seat frame above the side frame design.

Folding side guards, available in aluminum or carbon fiber, work in harmony with the folding back by folding in, down, or up into a compact, no-hassle package.

The durable folding back locks into place creating a compact package ideal for transfers and hasty airline cargo handlers!

The new, no-charge mesh back upholstery offers more comfort in various climates, with soft, breathable material and cushioned inserts around the spine.

Full tire offering (left to right)

- Pneumatic flat-free
- Treaded pneumatic
- Primo
- Schwalbe®
- Knobby tire
- Flat-free insert

## Specifications

| Frame  |   | Knee-to-heel* (range adjusts in 1" increments)                                       |  |
|--|---|--|--|
| Width  | 6.75" plus seat width w/0° camber                                       | 16"  | 11.25" - 15.25"  |
| Seat widths  | 12" - 20"   | 17"  | 12.25" - 16.25"  |
| Seat depths  | 14" - 20"   | 18"  | 13.25" - 17.25"  |
| Front seat-to-floor*   | 16" - 21" (1/2" increments)   | 19"  | 14.25" - 18.25"  |
| Rear seat-to-floor   | 14" - 20"   | 20"  | 15.25" - 19.25"  |
| Axle positions   | Active, Extended  | 21"  | 16.25" - 20.25"  |
| Center-of-gravity range  | 3.25"   | Positioning  |  |
| Front frame modifications  | Tapered, V-front  | Arm type   | T-Arm, Swingaway   |
| Front frame angles   | 70°, 75°, 80°, 85°  | Back type  | Folding, lock-down, angle-adj. back  |
| Side & seat frame color choices                                      | 16 colors   | Back height  | 8"-11", 10"-14", 12"-16", 14"-18", 16"-20"   |
