

İSIDAR[®]
LIGHTING SYSTEM

Price List 2017 / 1

corporate

ISILDAR LIGHTING was established in Istanbul in 1972 by Metin BODUR.

Isildar Lighting has started to produce of plastic and electrical materials by establishing to mould workshop in 250 m² area . In 2004, in line with the changing opinions; its life designs bright space to create in 6000 m² area in Ikitelli Organized Industry in renewing the machine park combining branding and targeting has established Professional Sales and Marketing team. 50% of production in the internal market and the other 50% of production in the foreign market.

In announcing the name of the foreign market with exports to 47 countries, we aim to be one of the company's global scale and future customers have come to expect from the professional service firm of lighting , sales and after sales in order to provide the dynamic structure of the never-ending energy of live.

Our quality standard in the sector with our permanent rising graph based on mutual trust we have established with our customers based on the unshakable relationship

Why IŞILDAR?

We meet expectations of our customers, that implemented most reliably of the lighting techniques, environment friendly while improving and producing the quality of lighting products, improving our quality management system, increasing the competence of employees be able to remain competitive by increasing productivity.

How Do We Solve?

We as ISILDAR LIGHTING;

We are aiming to be the first lighting of the brand that comes to mind by keeping our rising success graph, developing energy saving products in the foreground, aiming to contribute to the country's economy, according to customers need for high quality products and producing our quality and reliability with our rising graph more foregrounded our customers' needs to a solution oriented approach to policy on we will continue keep walking.
