Ceramic contact grill - PANINI

陶瓷板烧烤机 - PANINI

This ceramic contact-grill is also meant for a comfort and security of use: a lever system for a non-stop use without any tension of the upper plate. The front of the upper plate avoids the shock between 2 plates when the contact-grill is closed.

The chamber placed just under each plate gives an homogeneous contact cooking with less power. The glass ceramic contact-grill ensures a cooking without any smoke and can be used without any extractor. The ideal equipment for each point of food in train or subway stations, airports, shopping malls... Counter-balanced top plate to ensure an even cooking, whatever the size of the product by adjusting the height of the plate. Easy cleaning with a wet sponge on cooking surfaces after use. Grease or juice draining in a removable drip tray.
