

# Kensington The Professionals' Choice™

Physical Security Solutions

# Kensington The Professionals' Choice™

Kensington is a leader in desktop security and mobile device accessories, trusted by organisations around the world for over 35 years. Kensington products empower people to be more productive, no matter where they are working. In both desktop and mobile environments, Kensington's extensive line-up of award-winning products provide trusted security, desktop productivity innovations and ergonomic wellbeing.

## LOCK SELECTOR

[www.lock-selector.com](http://www.lock-selector.com)

We've taken the pain out of finding the right locking solution with the Lock Selector. Find the recommended locks for your model by choosing the make, model and product number, or simply jump straight to the exact device.

# Why a Physical Security Policy is Integral to GDPR Compliance

GDPR requires organisations to apply sound security practices to electronic and paper-based data and, in the case of a data breach, notify affected or potentially affected individuals. The GDPR's reach extends globally to all organisations that control or process personally identifiable data about people in the EU, regardless of the geographic footprint of those organisations. GDPR requirements apply to both electronic and paper-based personal data and means that all organisations should address GDPR requirements if they handle EU-originated personally identifiable data.

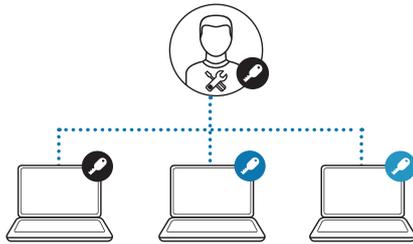

Securing data against hacking and malware is rightly top of mind for many organisations, however many fail to adequately address the physical security of IT hardware. More than half fail to use a physical lock for IT equipment.<sup>1</sup> This puts organisations at risk for non-compliance with GDPR and data subjects at risk from fraud and identity theft.

To find out more about Kensington's solutions for supporting GDPR compliance, go to [www.kensington.com/en-gb/gdpr](http://www.kensington.com/en-gb/gdpr)

\* Laptop security locks and privacy filters support GDPR Compliance  
1. Kensington IT Security & Laptop Theft Survey, August 2016

Custom Keyed Solutions are the most popular option for any business or institution. They give you more control over equipment while safeguarding employees from laptop and data theft. Choose from one of the distinct options for the kind of access and control that is right for you:

## Master Keyed

Unique, individual keys and locks for devices; Master key opens all locks. Allows individuals access to own equipment while IT manager has control of all the equipment and data.

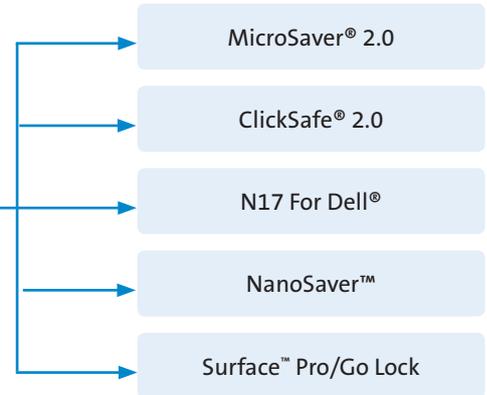

Master Keyed	
461-10209	ClickSafe® lock for Wedge-Shaped and T-Bar™ slot
461-AAET	ClickSafe® Dual lock for Wedge-Shaped and T-Bar™ slot
461-AAFB	N17 Lock for Wedge-Shaped slot
461-AAFC	N17 Twin headed lock for Wedge-Shaped and T-Bar™ slots
AA562770	N17 Preset Combination Lock
461-10072	MicroSaver® for T-Bar™ slots
461-10214	Twin MicroSaver® for T-Bar™ slots

All products contain 25 locks + 2 Master Keys. Customer Specific Master keys available on request.

## Unified Master Key

Kensington's new range of locks are the same shape and size, no matter the type of lock. This means that there is a common keying system that can be used across the whole estate of locks, whether it's a lock for a T-Bar™ slot in a desktop or a Wedge slot in the new Dell laptop models. One Master Key can open them all.

**Please visit the [www.lock-selector.com](http://www.lock-selector.com) to contact a security specialist to assist company specific Master key solutions for your business**

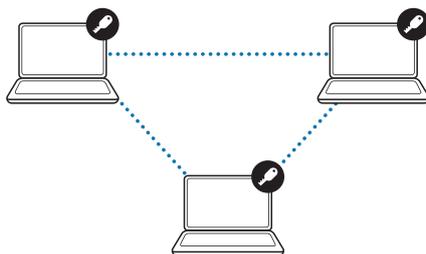

## Individual Keyed

Unique Individual keys and locks for computers. Users can register their own key code for safe keeping on Register and Retrieve.

Individual keyed	
461-10169	ClickSafe® Lock for Dell (Wedge-Shaped and T-Bar™ slots)
461-AAES	ClickSafe® Dual lock for Dell (Wedge-Shaped and T-Bar™ slots)
461-AAEU	ClickSafe® Combination Lock for Dell (Wedge-Shaped and T-Bar™ slots)

*Secures the computer cabinet to prevent theft of components, including CPU, graphics card and hard drive*

- Uses single keying so only authorised people have access
- T-Bar™ locking mechanism provides superior strength and theft protection
- Tamper Evident™ technology alerts you that someone has tried to steal your device
- Anti-Shear™ technology protects against intrusion by force
- Tough, stainless steel components
- Bespoke option available on request

# USB Port Security Solutions

## USB Port Lock with Blockers

A8668403

- Block multiple adjacent ports with one lock and allow continued secure use of authorised USB devices
- Reduces the risk of data leakage, data theft and unauthorised uploads
- Software-free solution physically blocks USB ports from unauthorised access

## USB Port Lock with Security Guard

A8769663 - Rectangular

- USB port configurators are side-by-side on a device, typically a laptop
- Reduces the risk of data leakage, data theft and unauthorised uploads
- Software-free solution physically blocks USB ports from unauthorised access
- Block multiple adjacent ports, one with an active USB device such as a keyboard or mouse with one lock, allowing continued secure use of authorised USB devices

## USB Port Lock with Security Guard

A8769621 - Square

- USB port configurators are above and below on a device, typically a desktop
- Reduces the risk of data leakage, data theft and unauthorised uploads
- Software-free solution physically blocks USB ports from unauthorised access
- Block multiple adjacent ports, one with an active USB device such as a keyboard or mouse with one lock, allowing continued secure use of authorised USB devices

## VeriMark™ Fingerprint Key

K67977WW

- Omni Pass application remembers usernames and passwords for single sign-on
- Fingerprint Algorithm meets Windows Hello Security Requirement
- Works with Windows Hello and compatible with Google, Dropbox and other sites requiring 2-stage authentication
- FIDO™ Certified and Listed
- Small and compact design 4 x 8mm

## Laptop Locking Station 2.0

K64453WW With MicroSaver® 2.0 Keyed Different lock  
K64451WW Without MicroSaver® 2.0 Keyed Different lock

- Secures ultra-thin laptops without a security slot
- Sleek, brushed aluminium design provides a non-invasive locking solution with side port access
- Adjustable security arms accommodate ultra-thin laptops from 11"-15.6" screen size
- Available with (K64453WW) or without (K64451WW) MicroSaver® 2.0 keyed laptop lock

## Laptop Locking Station with K-Fob™ Smart Lock

K66635EU Keyed Different  
K66636WW Master Keyed

- K-Fob™ Smart Lock technology combines encrypted security with the simplicity of keyless locking
- Provides unobstructed access to laptop's side ports
- Non-invasive locking requires no laptop modifications
- Adjustable security arms accommodate 11"-15.6" laptops and easily adjust without tools
- Scratch-resistant bumpers protect laptop screen and frame from cosmetic damage

# Docking Stations with K-Fob™ Smart Lock

Combining a best-in-class docking experience with next generation laptop locking technology, Kensington delivers two game-changing 2-in-1 docking and locking solutions. The Laptop Docking Station with K-Fob™ Smart Lock offers enhanced connectivity and productivity, whilst reducing the risk of laptop theft and improving compliance with corporate security protocols.

**Adjustable Security Arms**  
Accommodates 11-15" thin and light laptops

# Privacy Filters - Privacy Begins On Screen

Kensington®

**Kensington Privacy Filters** reduce the risk of unwittingly sharing confidential data with an unwanted viewer.

Available for monitors, laptops and tablets, privacy filters keep users productive without the need to adjust positions in order to shield their screen from prying eyes.

\* Privacy filters support GDPR compliance.

# Privacy Filters - An Essential Security Tool

As mobile working becomes more popular and the use of high-definition screens increases, so does the risk that confidential data may be exposed to unauthorised onlookers. A covert experiment\*\* in various work environments revealed the following results:

## VISUAL HACKING IS EASY

**91%**

In 9/10 cases, confidential data was accessed

## COMPUTER SCREENS ARE AT RISK

**52%**

More than half of the attacks result from the lack of screen protection

## IT OFTEN GOES UN-NOTICED

**68%**

The hacker was not challenged in over two out of three attempts

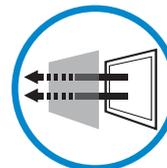

## The Benefits of Using a Privacy Filter

Limited Viewing Angle

Easy Attachment

Blue Light Filter

Touchscreen Compatible

Anti-Reflective

Effective Screen Protection

# Auto-Feed Shredding

Save 98% of your time

## Stack, shut, shred

GDPR means we should be shredding more, the good news is this doesn't need to add to your daily workload. With the Rexel Auto + shredding takes 98% less time than a traditional manual feed machine\*, you simply load your stack of documents into a secure PIN lockable tray shut the lid and you're done!

[www.rexeurope.com](http://www.rexeurope.com) \*Independent test from Intertek Testing & Certification Ltd

## Shredding - An automatic response to GDPR

With the introduction of GDPR it is not surprising that businesses **need to be shredding more** documents. To support this, utilising a paper shredder is an automatic response to encourage employee compliance with paper security.

There are **varying levels of security** available in the market, it should be noted: the higher security level a shredder has, the more difficult it is for a document to be pieced back together. A strip cut machine is the lowest level of security and may not be sufficient to support your GDPR compliance. Both Rexel and Leitz offer a range of shredders including micro cut and cross cut to meet the specific shredding needs of any organisation.

## Rexel Auto+ Shredders - Increase your productivity

With the **Rexel Auto+** shredding takes **98% less time** than a traditional manual feed machine<sup>3)</sup>, you simply load your stack of documents into a secure PIN lockable tray, shut the lid and you are done!

### Cross Cut P4 - Confidential Security

Model	Code	Shredding Capacity	Bin Capacity	Dimensions
<b>750X</b>	AA476580 - EU AA473836 - UK	max 750 sheets (80gsm)	115L (1200 sheets)	520 x 940 x 510 mm
<b>600X</b>	2103500EUA	max 600 sheets (80gsm)	80L (850 A4 sheets)	520 x 810 x 510 mm
<b>300X</b>	2103250EU	max 300 sheets (80gsm)	40L (450 A4 sheets)	350 x 650 x 490 mm

### Main product features

- 4-digit PIN code security lock securing sensitive documents in the Auto Feed chamber
- Intelligent jam clearance
- Sleep mode after 2 minutes of non use
- Bin full indicator
- Shreds CD's, credit cards, staples and paper clips

3) Independent test from Intertek Testing & Certification Ltd

Did you know that now you can get the Rexel Auto+ cross cut shredders also with SmartTech technology? The world's first app connected intelligent shredders for remote notifications and management. Get more on [www.rexeurope.com](http://www.rexeurope.com)

# What security level should you have?

A higher P rating increases the security level and bin capacity due to smaller shred size.

## Strip Cut P2

Basic Security

Cuts 1 A4 sheet into approx.  
**40** pieces (DIN P2)

## Cross Cut P3

General Security

Cuts 1 A4 sheet into approx.  
**200** pieces (DIN P3)

## Cross Cut P4

Confidential Security

Cuts 1 A4 sheet into approx.  
**400** pieces (DIN P4)

## Micro Cut P5

High Security

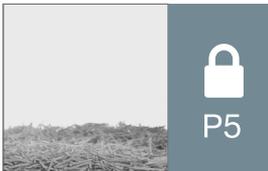

Cuts 1 A4 sheet into approx.  
**2.000** pieces (DIN P5)

P2 offers basic security for documents without any sensitive information.

P3 and P4 are ideal for home use or any corporate environment requiring confidential security.

## Micro Cut P5+

High Security

Cuts 1 A4 sheet into approx.  
**6.000** pieces (DIN P5)

## Super Micro Cut P6

Ultra High Security

Cuts 1 A4 sheet into approx.  
**6.000** pieces (DIN P6)

## Super Micro Cut P6+

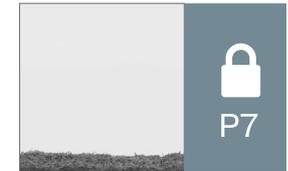

Ultra High Security

Cuts 1 A4 sheet into approx.  
**12.000** pieces (DIN P6)

## Super Fine Micro Cut P7

Top Secret Security

Cuts 1 A4 sheet into approx.  
**12.500** pieces (DIN P7)

P5 to P7 are ideal for legal, financial, government departments and other high security top secret documents.

## Jam free shredding - No hassle, no mess

Next to a sufficient security level, it is also important to feel confident while shredding. The Rexel Mercury Jam Free shredders **avoid any mess and hassle** – when the red light switches on, it is a clear message that you are trying to feed too much paper. Green light indicates that there is no risk of jamming.

**Intelligent Jam Prevention** –  
Continuously checks and indicates if  
too much paper is being fed into the  
shredder.

### Rexel Mercury Jam Free Shredders
