our principles

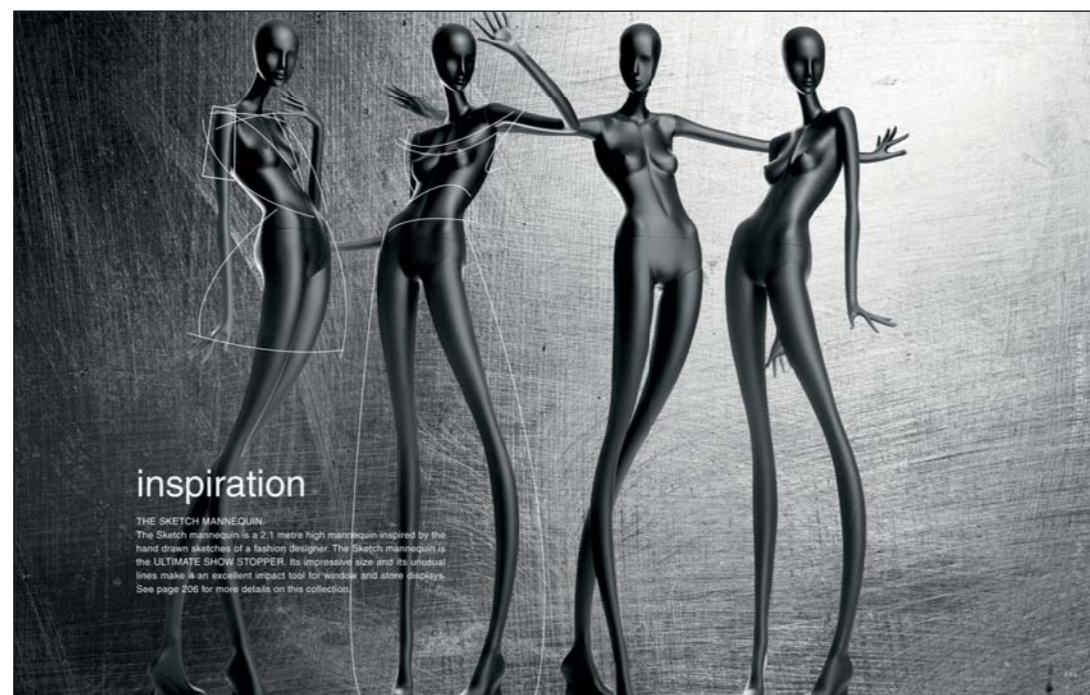

# a question of principles!

For 30 years now, WINDOW FRANCE has always been at the very forefront of the shop window display scene. It has achieved this by standing firmly by its original principles; innovation, inspiration, evolution and revolution. The constant application of these four principles demands a considerable investment in time and money, but brings us closer to our ultimate goal of offering you the most up to date and creative choice of mannequins on the market today.

our principles

# innovation

## MANNEQUINS WITH REMOVABLE FACES

WINDOW FRANCE devotes a large percentage of its time to product innovation. The latest innovation to date is the CAMELEON removable faces. This system is a series of faces that fix onto the heads using magnetic fittings, enabling you to easily modify the look of your mannequins and give new energy to your displays on a permanent basis, TRANSFORM YOUR MANNEQUIN FROM ABSTRACT TO REALISTIC in a mere click. You can discover the multitude of face choices and body finishes in our 'style guide'.

# inspiration

## THE SKETCH MANNEQUIN.

The Sketch mannequin is a 2.1 metre high mannequin inspired by the hand drawn sketches of a fashion designer. The Sketch mannequin is the **ULTIMATE SHOW STOPPER**. Its impressive size and its unusual lines make it an excellent impact tool for window and store displays. See page 211 for more details on this collection.

Play

## evolution

### THE VIDEO MANNEQUIN.

We call it 'E-MOTION'. These abstract mannequins are fitted with video screens and can be used to play advertising clips, promotion videos or moving graphic displays in harmony with your decoration themes. WINDOW FRANCE works today to find new territories of mannequin usefulness and their interaction with the public, always with the goal of giving your displays more impact and creativity.

## revolution

### REMOVABLE MAKE UP.

The choice of the word 'revolution' is maybe ambitious, but it indicates our will to find new territories of mannequin conception.

The CAMELEON REMOVABLE MAKE UP CONCEPT is an exclusive invention from WINDOW FRANCE and is indeed a real revolution in both mannequin technology and design. WINDOW FRANCE is very proud to have developed a concept that brings so much versatility and creativity to your displays. Your mannequin can now participate to your decoration themes or to the colours of your latest collections. It allows you to create the exact mood that is needed at that precise moment in time and give your displays an individual personality. OVER 70,000 DIFFERENT looks can be made from the extensive choices of faces, eyes and lips, from discreet to outrageous, from abstract to realistic. Several collections use the CAMELEON CONCEPT system, see our style guide for more information.

## the french touch

Our mannequins are designed and developed in our homeland, France. France has a long and intimate relationship with the world of fashion. Just the mention of France's great fashion creators is enough to turn heads all over the world. A relationship with the public and media of great fascination and respect.

With the same passionate values as its couturier counterparts WINDOW FRANCE works to produce what are some of the world's most beautiful and perfectly made mannequins. We endeavour to make sure that in every WINDOW FRANCE there is that trace of creativity and refinement for which France has become reputed.

Mannequins that create emotion and communicate a contemporary fashion statement.

the french touch

it's about fusing beauty and simplicity

Our goal is to create emotion with the simplest of gestures, leaving the clothes to take the foreground. We try to capture and maintain the natural elegance of our chosen models throughout the production process. This process starts with a worldwide search for the ideal fashion models that have both the body language and attitude that will elevate the products impact value.

the french touch

the french touch

it's about body language

Although all collections can look radically different when dressed in opposing styles, each collection is designed in mind with a particular audience. Each collection has its specific body language that the public can identify with. The CHIC collection is often chosen for its HAUTE COUTURE elegance.

To help you choose a body language suitable for your brand image, WINDOW FRANCE has created a range of collections that correspond to different groups and ages of the fashion market.

it's about precision and ingenuity

Style and feel are very important qualities, but so is technical prowess. Certain product evolutions have come to fruition using the very latest of high technology. Window FRANCEs' investment in 3D technology has been invaluable in the creation of its latest product lines and for the prototyping of custom made products, bringing more precision than possible before and opening up new territories of product development.

The CAMELEON removable faces were developed using the very latest 3D technology. Eyes and lips fit beautifully and easily into place thanks to magnetic fittings in the components.

We are in constant search for new finishes and materials to break new ground. Some of the latest finishes include contemporary translucent resins, graphic transfers and several varieties of hand crafted solid wood.

## design you can feel...

Fashion is also about 'feel'. The 'vogue tailor made' collection reinvents the classic tailored mannequin with a selection of magnificent fabrics that marry with different styles of arms, legs and heads to produce that 'impeccable tailored look'.

Its about FASHION FOR ALL. from tall to small, from slim to plus size. WINDOW FRANCE has just launched 'the new generation' of plus size mannequins, designed to make plus size women proud of their generous proportions, and their feminin charm.

the french touch

BOTH 'OFF THE PEG' AND 'CUSTOM MADE' OBJECTS FOR YOUR DISPLAYS.

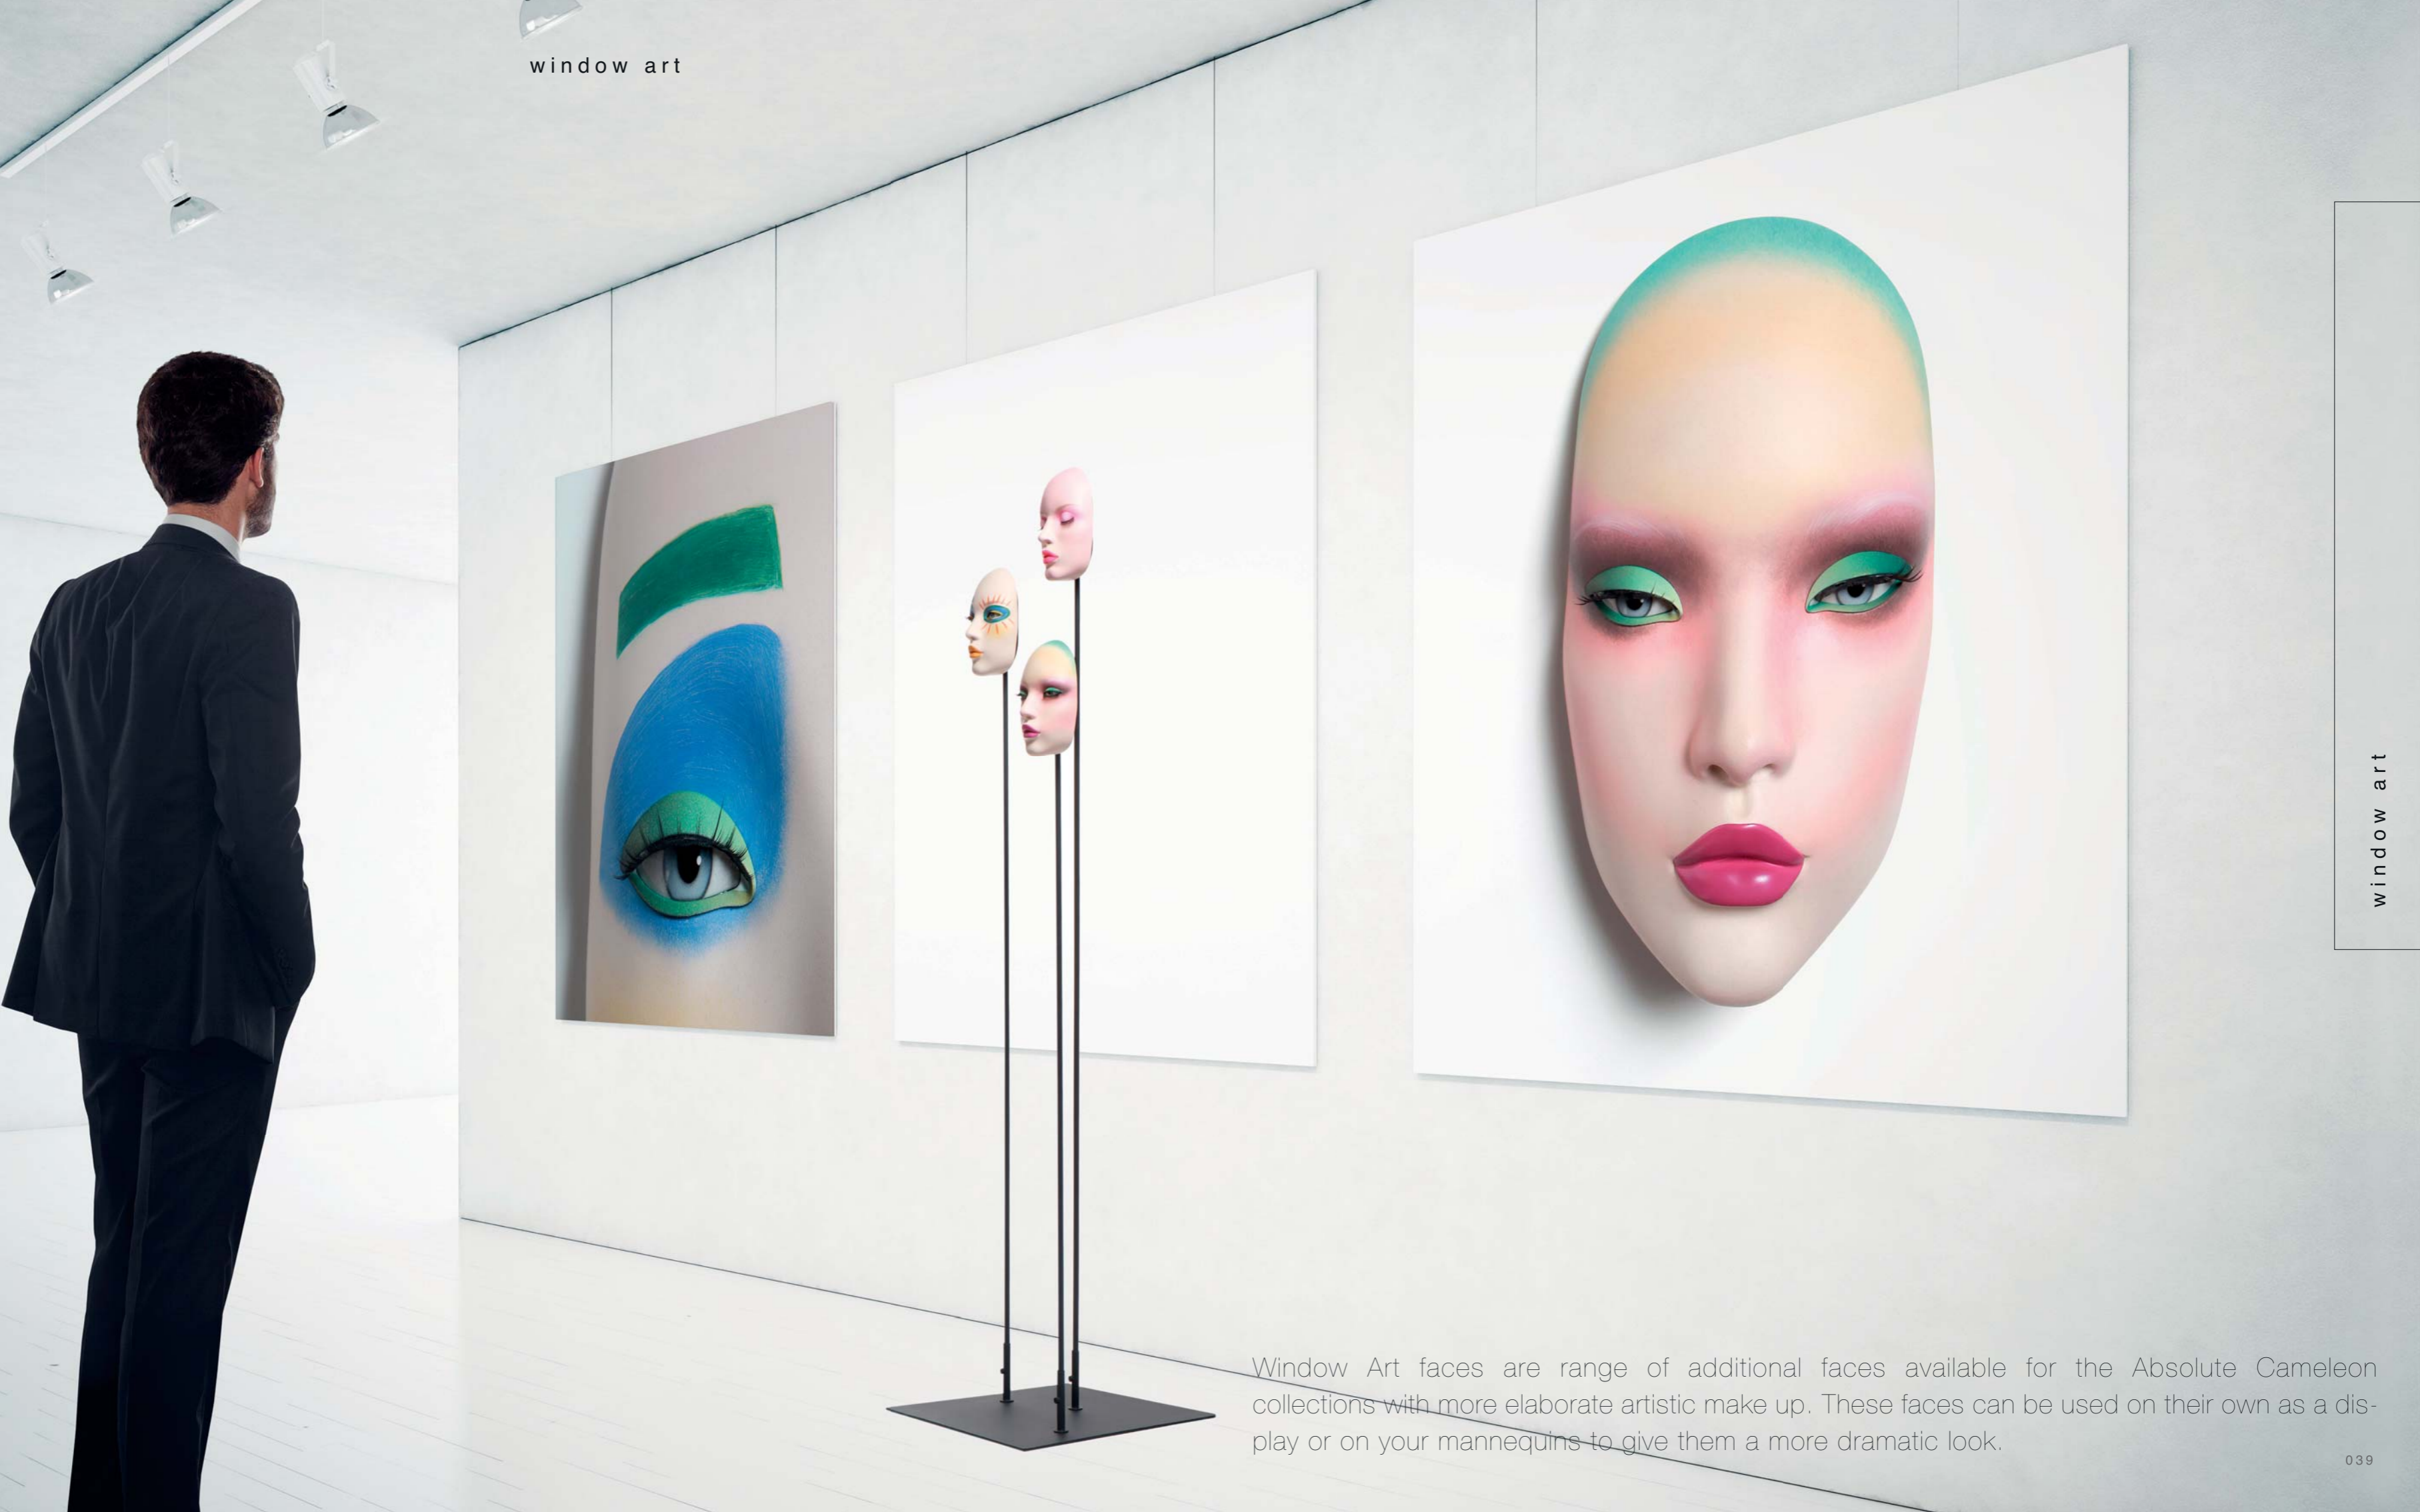

WINDOW ART is a selection of artistic objects that can be used for both decoration and display purposes.

WINDOW ART is also a custom made decor creation service based in our headquarters in France, a team of creatives and production specialists in a specially adapted prototyping studio can design and produce objects to decorate your displays and windows.

Luscious lips are available in 3 sizes from small to xxl in a range of vibrant gloss colours and graphic transfer motifs. See the style guide for choice of finishes.

Window Art faces are range of additional faces available for the Absolute Cameleon collections with more elaborate artistic make up. These faces can be used on their own as a display or on your mannequins to give them a more dramatic look.

## our background

WINDOW FRANCE is one of the world's leading mannequin designers and manufacturers and one of the major leaders and catalysts in the field. It has earned this position and reputation in the market by quite simply being CONSTANTLY CREATIVE AND INNOVATIVE and by assuring the highest levels of PROFESSIONALISM AND RELIABILITY available in the world today.

WINDOW FRANCE offers its clients a level of design and technical know-how second to none as well as a production quality and capacity to satisfy the most discerning customer.

Based in the south of France, the company was started over thirty years ago by Jean Marc Mesguich (1982). WINDOW FRANCE was noticed by the industry by the audacious and original look of its products and innovative designs that have now become some of the great classics. In the years to come WINDOW FRANCE proved its capacity to create modern product lines perfectly adapted to the diversity of the fashion industry's needs.

This reputation was to earn them the right to become suppliers of mannequins to some of the world's most successful international fashion groups, where not only product design would count but also the reliability and performance of production techniques and rigorous respect for delivery deadlines.

WINDOW FRANCE gives jobs to more than 800 people in the world, divided between the design and research centre, its warehouses and manufacturing sites.

## our philosophy

Today, WINDOW FRANCE invests in the very latest high technology to create its future collections and offer an exclusive quality of creativity for its custom made mannequin clientele.

They are also actively undergoing research to apply ecological solutions to production methods and materials to live more in harmony with the environment.

Its philosophy is to unite European based creative talent with Asian based production knowhow that it has itself participated in developing. WINDOW FRANCE devotes a major part of its energy to product innovation, with an importance given to the originality of the product.

WINDOW FRANCE plays a leading role in the development of new production techniques and the design of innovative fittings that have increased reliability and quality of build.

WINDOW FRANCE has always followed the same logic in its pricing policy, that is: "high market quality with very competitive prices". The WINDOW FRANCE collections offer an affordable solution to those in search of a quality product.

## our goals

TO BE YOUR BEST SUPPLIER. It's a simple goal but by no means as simple to assume. That's why we here at WINDOW FRANCE put all our energies everyday into getting us closer to your expectations. We endeavour to think ahead and innovate in all fields of our activity, to assure you the best service and products available today. We keep a close eye on the evolutions in consumer attitudes and the fashion scene to assure you the most pertinent solutions to achieve your individual goals.

## ECOLOGY

WINDOW FRANCE AND THE PLANET - Today, intelligent industrial production should go hand in hand with our environment. WINDOW FRANCE is in continuous research for production solutions using more planet friendly materials. It shares the concerns of many major brands that also have a policy to be actively taking steps to applying ecological solutions.

WINDOW FRANCE has made it its own responsibility to be actively progressive in the following fields: CLIMATE CHANGE, reducing the carbon footprint associated with its products. WASTE, reducing waste and avoiding waste to landfill solutions. SUSTAINABLE RAW MATERIALS, introduction of natural and renewable raw materials into production.

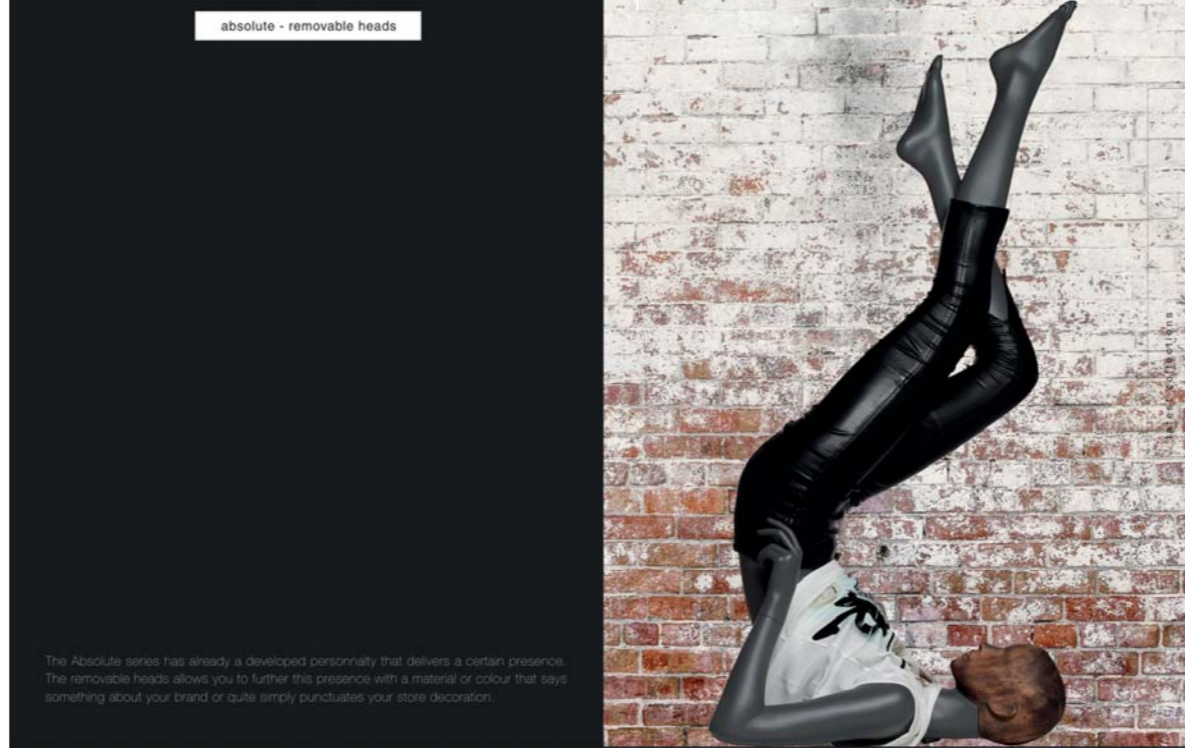

## SOCIAL PHILOSOPHY

Modern manufacturing of mannequins is carried out in factories in lesser developed countries, where standards and social values are not always the same as in the more developed countries. WINDOW FRANCE is very active in assuring higher standards of working conditions and pay. The factories have been subject to assessment audits and awarded ratings of conformity by independent auditing bodies. It's clients can therefore be assured that their moral and social values are not betrayed when buying a WINDOW FRANCE product.

SEDEX - WINDOW FRANCE is a member of SEDEX (Supplier Ethical Data Exchange), a nonprofit organization engaged in the continuous improvement of ethical actions made by supply chains. All of it's factories and offices are audited on an ongoing basis to assure the compliance with ideological and ethical standards.

voluptuous

VOLUPTUOUS. THE NEW GENERATION OF PLUS SIZE MANNEQUINS. WINDOW FRANCE WORKED WITH A TOP INTERNATIONAL PLUS SIZE MODEL TO DEVELOP THIS NEW GENERATION OF MANNEQUINS DESTINED TO MAKE LARGER SIZED WOMEN PROUD OF THEIR GENEROUS PROPORTIONS.

The VOLUPTUOUS collection is an answer to a long debate on the size and shape of modern day mannequins in shop windows. WINDOW FRANCE is supportive of public opinion and also shares its clients will to make fashion relate to all sectors of the public. WINDOW FRANCE worked to develop a new generation of plus size mannequins to meet both the public's and professional's expectations - the plus size mannequin should be accepted by the public as a credible reflection of the larger size women but also meet the brand's requirements in terms of image and esthetics.

ABSOLUTE TAILOR MADE. An inspired marriage of sophistication and style. Mannequins with tailored busts are all the fashion at the moment, bringing both style and texture to your displays. THE ABSOLUTE TAILOR MADE COLLECTION has been developed with a palette of refined colours which gives it a very sophisticated charm. Here the elegant dark shade of wood marries beautifully with the matt black legs and the 'eclipse black' canvas busts, resulting in a certain tribal beauty. A major feature of this collection is the matching accessories such as bases, stands and neck caps etc available in two tones of chrome, gold and copper.

## creative philosophy

CREATIVE PHILOSOPHY - WINDOW FRANCE has a philosophy of CHOICE. Whereas other mannequin manufacturers have collections made up of few positions, WINDOW FRANCE chooses to give you a very wide choice of positions. This not only ensures that your displays are more original but allows you a wider range to express your creativity. WINDOW FRANCE has more positions available to its clients than any other mannequin company in the world.

THE REAL THING - To elaborate both its own and bespoke collections WINDOW FRANCE works with model agencies all over the world to find the right physique and body language for the targeted public or your brand's identity. We work with real live models to ensure that our mannequins have real character and impact. This involves indepth fashion shoots to seek new exciting and original attitudes.

## creative research centre

For your custom made mannequins or window display objects, WINDOW FRANCE has a creative research centre at its head office in France.

A STATE OF THE ART PROTOTYPING FACILITY - A unique specially adapted space with photographic studios, 3D scanning methods, 3D printing and etching facilities, sculpting ateliers as well as metal, wood and fibre glass workshops, enables us to cater for the prototyping of all your needs in a minimum amount of time.

UNIQUE 3D SCANNING FACILITY - WINDOW FRANCE has developed a creative process with a 3D facility that is unique in the Mannequin industry. Even if 3D technology is only one stage of the design chain, it is a key element that brings a higher degree of creative research and speed in product development. The final mannequin is the product of an entire team of professionals working in harmony:

ART DIRECTORS - research and creative direction

CASTING DIRECTOR - international casting for the ideal model

FASHION PHOTOGRAPHER - fashion shoot for position research

3D TECHNICIANS - 3D scanning process

3D SCULPTORS - 3D sculpture and sublimation

PRODUCTION TECHNICIANS - technical adaption process

CONTEMPORARY CLAY SCULPTORS - artistic enhancement

PLASTICIANS - production transformation and adjustments

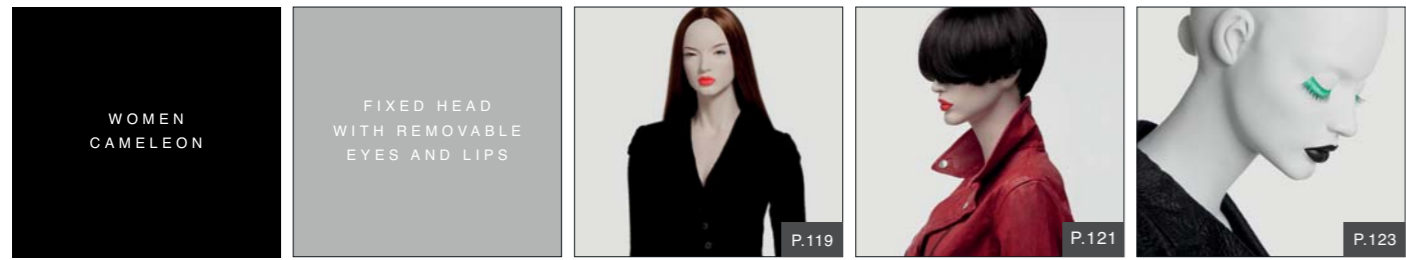

all of which are part of the team at the creative heart of WINDOW FRANCE.
