HEAVY DUTY LIGHTING CATALOG

Founded in 1972, Optronics has been a leading supplier of 12-volt lighting to the automotive, trailer, and recreational markets for over 35 years. In 2010 Optronics acquired the Panelite® Millennium Series™ line of lighting products to further expand its product line. With extensive engineering and design capabilities and manufacturing facilities in the US and Asia (ISO/TS-16949), Optronics produces lighting to meet the industry's evolving needs using the latest in technological advances. Photometric and mechanical testing both at point of manufacture and distribution ensures consistent quality and FMVSS 108 compliance of our safety lighting products, and three North American distribution centers contribute to our exemplary on-time shipping performance. Optronics offers customers the best of both worlds—lighting expertise resulting from over three decades of manufacturing experience combined with the cost savings of an import program. And while others may supply only a few items, Optronics offers complete lighting programs to cover interiors as well as exterior safety lighting in the marine, RV, cargo trailer, heavy duty and transit vehicle markets.

All products conform to DOT/SAE/FMVSS/CMVSS 108 requirements where applicable.

**MILLENNIUM SERIES™** ..... 2-5  
*Most popular panel light in the heavy duty market*

**Opti-Brite Cargo Lights** ..... 6  
*Durable lighting for harsh applications using latest LED technology*

**Miro-Flex LED Safety Lighting**..... 7-9  
*Faceted, mirrored reflectors and clear lenses provide increased light output and a high end appearance*

**Hyper X LED Safety Lighting** ..... 10-11  
*Engineered optics multiply light output and provide contemporary automotive styling*

**FLEET Count LED Safety Lighting** ..... 12-13  
*Low diode count combined with engineered optics provide DOT compliant, entry level LED lights*

**Optronics LED Safety Lighting**..... 14-22  
*Select from mid-range and high diode count to find lighting for any application*

**Optronics Incandescent Lighting, Conspicuity Tape**..... 23-31
