custom designed  
pre-inked  
stamps**

**instantly!**

A white Brother Stampcreator PRO machine is the central focus. It has a purple ink reservoir on the front. In front of the machine are several ink cartridges in various colors (blue, red, black, purple) and several pre-inked stamps. Some stamps are standing upright, showing designs like 'PHOTO EXPRESS', 'NO BE INJURED!', and 'PLEASE RETURN TO'. The machine is set against a dark background with a light-colored frame behind it.

HIGH QUALITY STAMP SYSTEM

## Professional Stamp Creation

THE REVOLUTIONARY NEW SYSTEM IS  
THE FASTEST AND EASIEST WAY TO MAKE  
STAMPS... AND PROFITS!

- Perfect for starting your own business!
- Perfect for quick printers who wish to add "stamps on demand" service!
- Perfect for stamp factories who want to maximize "express service" in a minimum of floor space!

### NO WAITING! NO MISTAKES!

 **IT'S INSTANTANEOUS & READY TO GO!**  
Create a pre-inked stamp in just 3 minutes. Thanks to Brother's newly developed ink formula, the stamp will be ready to use within a short amount of waiting time (see page 3).

 **IT'S A TRAFFIC BUILDER!**  
On-demand capability means additional impulse stamp sales, not possible today.

 **IT'S ERROR-FREE!**  
Proofread and make corrections right in your store.

 **IT'S QUICK AND CLEAN!**  
There's no messy process involved. You can make stamps without seeing or touching the ink.

 **IT'S CREATIVE!**  
Utilizes your existing PC, MAC,® Fonts, Scanner, Clip Art and Digital Camera for high quality 600 dpi graphic stamps, which have been difficult to make with conventional stamp equipment. Minimum space is required... all you need is two square feet beside your properly equipped computer. No experience necessary... just 45 minutes with the dedicated stamp software will make you an expert.

 **IT'S PROFITABLE!**  
Lower wholesaler stamp cost plus the opportunity to earn more for express service and graphics capabilities, with no extra cost.

ESS

ND!

This exclusive commercial system creates a major profit center by turning signatures, graphics, text, clip art, photos and logos into pre-inked stamps...

*...while your customers wait!*

Everyone knows that stamps help people get through practically every job faster and easier, but no one ever plans ahead to buy a stamp. When your customers need one, though, they need it now. And now you can give it to them... while they wait!

It's just that fast and simple thanks to the Brother Stampcreator PRO™ System. With this innovative system, virtually anything you can put on a computer monitor, can be put on a custom designed, professional pre-inked stamp. Text, graphics, signatures, logos, clip art, photos... with the Stampcreator PRO™ System's proprietary 600 dpi technology, anything is possible and everything is reproducible.

The Brother Stampcreator PRO™ System is an ideal bonus profit opportunity for anyone in printing, stationery, mailing, copying, office equipment or other stamp-related businesses. And best of all, your virtually risk-free investment in a Stampcreator PRO™ System can actually be recouped after only about 200 stamp sales. After that, everything will be clear profit. The Brother Stampcreator PRO™ System is a totally new way to make stamps... and profit!

**IDEAL FOR:**

- Copy Shops
- Quick Printers
- Stationery Stores
- Art Supply Stores
- Awards and Engraving Stores
- Rubber Stamp Stores
- Professional Stamp Factories
- Large Office In-House Printers
- Office Equipment Retailers
- Personalization/Craft Stores

# Stamp Creation System

*Takes less than 3 minutes to make...  
lasts a lifetime!* **50,000 impressions ensure  
a virtually unlimited stamp life!**

1 Start the Stamp Editor program on your PC or MAC and then create any image you wish.

## HOW TO MAKE A STAMP

Brother has developed and perfected a totally new and revolutionary way to impose images onto rubber stamp surfaces. After you create the image on your computer and insert the text, the rest of the process will take just a few minutes. Ink never touches your fingers... this dry process is absolutely clean.

2 The Stampcreator PRO™ System will instantly transfer the image you have prepared on your computer screen onto a transparent film, which will be loaded automatically from the magazine tray inside.

600 dpi thermal transfer printing will reproduce every detail from your graphics. Open the window and you will see the film (positive master) for your stamp positioned above the Xenon Flash Assembly.

3 Position a blank stamp in the stamp creation bay above the Xenon flash assembly.

4 When the door to the stamp creation bay is shut, the Xenon flash is automatically triggered.

5 The surface of the stamp is made of a light sensitive rubber material specially developed for the Brother Stampcreator PRO™ System. Light from the Xenon flash causes millions of micro-pores in the stamp surface to close. Only pores protected by the black printing on the positive master film will remain open.

6 Attaching the stamp handle causes the ink pack embedded in the stamp base to open. Keep the stamp upright for a few minutes for all the ink to absorb. After a brief "Cure Time," the ink is absorbed by the stamp material and will be ready to use. An ID label can be printed in the same way by the Stampcreator PRO™ System.

For more information  
visit our website:

At your side.  
**brother**  
[www.brother.com](http://www.brother.com)

### LASER SHARP IMAGE

The rubber surface has millions of micro-pores that permit just the right amount of ink to come through. This makes it possible to put very precise graphics on the stamp.

### VIRTUALLY SMUDGE-PROOF

The specially developed ink dries in seconds on regular or coated paper.

### ERROR-FREE ID LABEL

You can print a label and proofread it before the final stamp is made. Then the entire stamp message can then be clearly displayed on the top for positive identification.

### NO MESSY INK PADS

The ink pack is built into the stamp base and attaching the handle causes it to open. It's absolutely safe and clean. Non-toxic and non-flammable, too... plus the ink never touches your fingers.

### LONGER LASTING

The ink tank is not directly exposed to air. Tiny micro-pads protect it so it won't dry up like conventional stamps... even if you leave the bottom cap off!

# Stampcreator PRO™

HIGH QUALITY STAMP SYSTEM

## Professional Stamp Creation System

### BUILT BETTER TO LAST LONGER!

A Brother stamp is designed to stand up to everyday office use. It features the highest quality components to ensure a lifetime of trouble-free service and reliability.

ID label printed by SC-2000

#### STAMP FEATURES:

- 11 stamp size variations
- Professional 600 dpi resolution
- Pre-inked (no separate ink pad) to give a sharp, dry and crisp image every time
- Virtually permanent... with proper re-inking it will last for 50,000 impressions

Durable true rubber surface will give 50,000 impressions

#### STAMP SURFACE FEATURES:

- Micro-raised image, always gives you the same consistent image
- Real durable rubber
- Smooth stamping operation
- Micro-porous control gives you the same amount of ink transfer all the time

Easy to use re-inking bottle

#### INTERIOR FEATURES:

- Re-inking is quick, clean and easy
- Available in:
  - Black (Model # PRINKB)
  - Red (Model # PRINKR)
  - Blue (Model # PRINKE)
  - Green (Model # PRINKG)

Long-life Xenon Lamp Unit Model #PRLAMP

#### XENON LAMP FEATURES:

- Easily replaceable unit for periodic maintenance
- Create approximately 2,000 stamps per unit

Draft Set Model New Super Fine #PRDRFTN

#### POSITIVE MASTER CREATION SYSTEM FEATURES:

- New printing cartridge to create 150 stamps
- 150 draft sheets

"1 year warranty for the Stampcreator Pro System (stamps excluded). Quick exchange service is included. \*Extended warranty is available as an option."

# Getting Started with the **brother**® Stampcreator PRO System

Not only is the Stampcreator PRO System a great way to make high-quality pre-inked stamps, but it comes with its own end-user marketing materials including catalogs and pamphlets depicting hundreds of stamp design templates with built-in order forms and colorful posters to hang in your store. Utilize these FREE promotional items and the stamps almost sell themselves. The SC-2000 Processing Unit comes complete with Windows and Mac software, serial and parallel cables, thermal ribbon cassette, 150 draft sheets and five stamps. The illustrated instruction manual, video tape and interactive tutorial will show you the way to use the system in great detail, but if you ever need technical assistance it is just a toll-free phone call away. One-year warranty is included.

## JMP Low Price Promise!

Brother's suggested retail price on this system is \$2,999.00. We offer the Stampcreator PRO System for just **\$799.00** explaining why we are Brother's largest selling distributor! Occasionally other resellers offer "refurbished" or "demo" systems at lower cost. Call us before you commit to any other offer – we promise to always be competitive on comparable equipment and supplies.

## Getting Started

Order the Stampcreator PRO System and one of our recommended Stampcreator Starter Packages from the other side and you'll be making stamps in just a few days. When you need to reorder supplies in the future your costs for stamps and accessories will come from the following tables.

Stamp Specifications			Suggested Retail Selling Price	Your Cost	
Stock No.	mm	Inches		1 to 5 stamps	Box of 6 stamps
1438	14 x 38	.55 x 1.50	\$19.95	\$ 8.00	\$40.40*
