

Lenovo TopSeller WEB Guide

April 2008

Lenovo's TopSeller Small and Medium Business Program

The Lenovo TopSeller Program provides Small and Medium Business, as well as Government & Education customers with the right technology, at the right price, at the right time.

This program combines select configurations of ThinkPad® notebooks and ThinkCentre® Desktops, plus all Lenovo 3000 Family Systems.

Locating a Lenovo Reseller

Lenovo has an extensive network of knowledgeable Business Partners who have the expertise to help you choose from a wide range of Lenovo Notebooks, Desktops and Accessories that are right for your business.

For on-line Assistance in locating your nearest Lenovo reseller click on the link below

New Lenovo ThinkPad X300

Advanced components on the Lenovo X300 ThinkPad include solid state storage drives (with no moving parts, they consume less power and are considered less likely to break down than traditional hard drives). The X300 also offers several wireless connectivity options including Wireless USB (UWB) and a Wireless WAN option that utilizes native GPS functionality built into the system. Style-wise, the X300 is closer to the size of an actual paper notebook than a ThinkPad notebook has ever been. And it offers numerous design features including a glossy bottom bezel, select illuminated buttons, and — for the first time in the X Series — an integrated camera option with stereo speakers.

Integrated DVD burner –
Hard to find in such a thin system

Extended-life batteries –
Get up to 10 hours unplugged

The thinnest ThinkPad ever –
Less than 3/4" at its thinnest

New Lenovo ThinkStation WorkStations

Lenovo ThinkStation S10 includes the latest processing technologies, such as multiple-processor capability, for massive improvements in throughput and productivity. With support for OpenGL Graphics and huge amounts of ECC memory, they easily handle complex 3D applications and large volumes of data. Environmentally-friendly, they are proof that high performance and efficiency can coexist

- ThinkStation is especially well-suited for users in the CAD/CAM/CAE, Digital Content Creation, Engineering Design Automation, and Oil & Gas markets
- ThinkStation has been tested and certified on key workstation ISV applications
- Despite being a powerful workstation, ThinkStation offers an environmentally-conscious design

Lenovo Warranty and Accident Protection Services

For uninterrupted service, purchase warranty and service upgrades at time of system purchase.

ThinkPad Protection accidental damage coverage provides you that added security of protecting your notebook investment from unplanned expenses caused by an accident under normal operating conditions such as a drop, electrical surge or spill. This type of accidental damage is not covered under the standard product warranty or extended warranty service plans.
