Lighting
done right.

LED BUYERS GUIDE
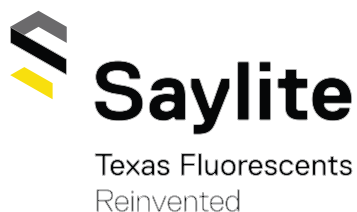

This is an amazing time in lighting. It can enhance life and work in powerful ways, with technology creating new opportunities every day. It's also more complex than ever, blurring the lines between what's possible and what's practical.

At Saylite, we know what lighting means to you. That's why we work with you to deliver a solution that's just right: the lighting you want, at the speed and value you need, from an expert team with a factory at your fingertips.

Saylite
Texas Fluorescents
Reinvented

Table of Contents

Saylite delivers lighting solutions for businesses nationwide, featuring one of the most comprehensive LED selections in the industry. As a privately held business with a state-of-the-art facility right here in the US, we're uniquely capable of getting you just the lighting you need from a team of experts you can trust.

The Simple Choice
We'll take the complexity out of lighting, helping you navigate challenges in a rapidly shifting marketplace.

The Right Lighting
Commodity to custom: choose from a broad selection, or design your own at our state-of-the-art facility.

The Best Value
Find practical lighting at any price point or have it value engineered at a fraction of the cost.

The Shortest Leadtime
Quick turnaround, often half the time of our competition. We design and build products to hit your deadlines.

Your Reliable Partner
People you can reach and count on, with the experience and attitude to do what's right for your business.

Recessed Linear

Recess in T Bar ceilings, hard ceilings, or special ceilings.

Saylite offers a recessed linear LED fixture for every lighting design and every application, from traditional 2X2 and 2X4 fixtures, to the slimmest channels, to wall wash and cove fixtures to complete the layout. Many are also offered in traditional fluorescent (see fluorescent icons) for maximum flexibility. If you don't see exactly what you are looking for, please ask. Saylite is your factory at your fingertips!

LED CENTER BASKET

This spec-grade, low-profile, linear-ribbed, center basket (lensed) fixture is designed to maximize efficiency and minimize LED glare, creating a soft "sky light" appearance for modern spaces. Full family of sizes and lumen options available.

Specify Continuous Runs
To specify continuous runs, identify the fixtures for the beginning ("-B"), for the joiner(s) ("-J") and for the end of run ("-E") with these letter designations at the end of the item number. The fixtures will include the necessary electrical harnesses and mechanical accessories for the joining of multiple fixtures.

For the Icon Legend, see pages 154-155. Item numbers highlighted in gray are DLC Listed.

## LED RECESSED LINEAR LINES OF LIGHT 2.5" X 3" (VALUE PURCHASE)

This value version uses discreet 22 inch LED arrays with metal inserts in the lens to mask dark spots on the ends. Use only for individual run lengths. Choose the right version for T Bar or Hard Ceilings. Use L34 for full featured 2.5" width line of light, for specifications that require a 2.5" fixture width.

Recessed Linear
Lines of Light

LED RECESSED LINEAR LINES OF LIGHT 1.5"
FOR HARD CEILINGS (SHEETROCK ONLY)

CLF Kit with 3FT, 2FT and 1FT combined with 4FT and 8FT lengths allow special designs.

Series CLF provides an elegant and uniform line of light only 1.5 inches wide to seemlessly blend into a hard ceiling. Choice of white flange that can be painted to match any surface or a flangeless appearance with only the narrow lens showing. Flangeless version includes a specially designed mud-in flange adjustable to accommodate different sheetrock thicknesses and installation methods. Mud-in flange can be adjusted to 1/8", 1/2" or 5/8" to match sheetrock thicknesses and mud-in methods. The Series CLF is available in 4 or 8 foot sections that can be used individually or joined together for a longer run. A uniquely designed kit that includes a 3 foot, 2 foot and 1 foot channel can be used together to make one six foot channel or used individually for a unique look with three cascading sizes of 1, 2 and 3 foot channels. The 3, 4 and 8 foot channels have integral drivers and the 3 foot has a unique plug and play wiring system with its integral driver to power the 1ft and 2ft channels with a 6 ft cord (consult for longer cords).

MULTIPLE SIZES TO CREATE INFINITE LAYOUTS
Flanged or flangeless appearance available in 4ft or 8ft lengths that can be used individually or together, and an innovative 6ft kit can be used together or separated into 1ft, 2ft and 3ft lengths.

4 FT FLANGED

8 FT FLANGED

ROUGH IN AND TRIM SYSTEM
Separate housing installs easily during rough-in. LED trim installs quickly during trim out with innovative magnetic system.

LED RECESSED LINEAR LINES OF LIGHT 1.5" NEW
FOR HARD CEILINGS (SHEETROCK ONLY)

This elegant 1.5" extruded aluminum lighting channel blends seamlessly into hard ceilings. Upgrade from the tired look of round downlights in typical sheetrock applications for general lighting. The new CLF series allows for exciting new looks with a 1.5" line of light. Choose white flange or flangeless (mud-in flange available) in multiple sizes to create infinite configurations. Value-engineered for easy installation.

Perimeter Lighting

Specify the depth of drop shield in the item number.
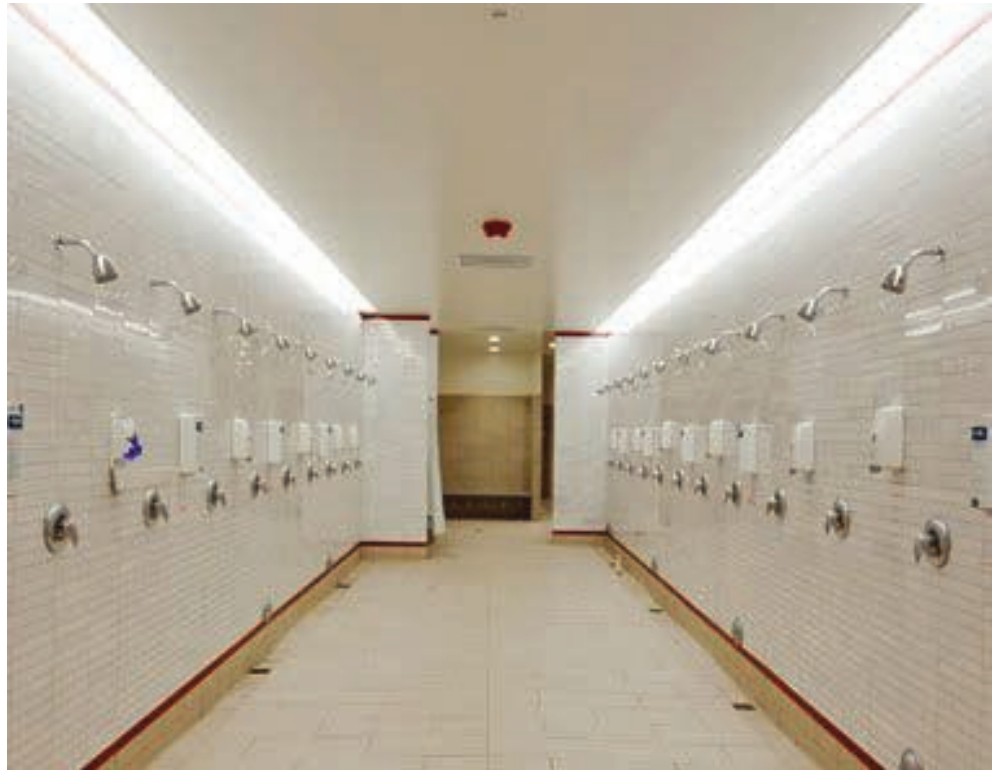

LED PERIMETER COVE LIGHTING SYSTEM `NEW`

The PRL is a cost-effective solution where cove lighting is desired. Create an elegant wash of ambient and vertical illumination between the wall and ceiling planes in offices, hallways, conference rooms, and medical facilities. Available in 2, 4, 6 or 8 foot sections along with telescoping and corner options that can all be combined for longer runs and 4" regressed optics. This Perimeter Lighting System eliminates the need for a more costly "built-in-place" solution.

Add Drama and Personality to Your Space

Whether you want to accentuate the architecture, provide wayfinding, create visual interest or make your space standout, Saylite's L23 series as well as others can be configured in patterns. Custom sizes, angles and configurations are available and manufactured in our USA factory. Contact your local sales representative or sales@saylite.com for help with your project.

Linear
Pendants

Saylite offers a wide range of linear pendant LED fixtures in all the most popular profiles, from Flat Panels to geometric rectangles, to clouds, with many also available as companion recessed or surface mounted. We offer the most competitive lead times and custom capabilities in the industry. Steel fixtures are manufactured in our USA factory allowing for custom capabilities, faster lead times and cost-effective solutions.
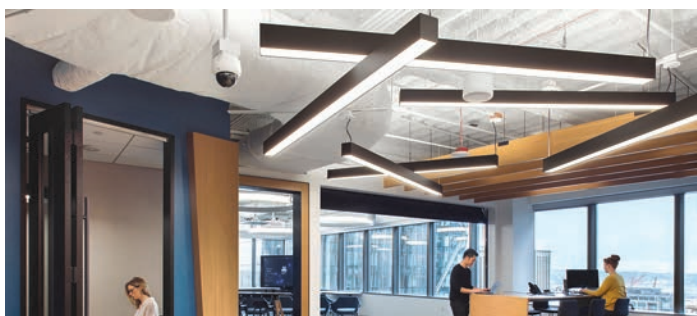

LED LINEAR RADIUS INDIRECT **NEW**

This refreshing style features an open aperture design with fully luminous interior channel. The construction with no horizontal lenses or diffusers differentiates this series and provides the eye appeal. Specially engineered LED arrays are discreetly placed on the bottom edge of the linear channel to brightly illuminate the barreled bright white reflector to provide a gentle, soft downward spread of light. The aperture glows brilliantly and seamlessly while the light output is ideal for corridors, offices and other circulation and task areas. Bold, machined ends cap the fixture available in 2, 4, 6 or 8 foot lengths that can be used individually or joined together for longer run. Custom sizes and custom powder coat finishes are available. Pendant or surface mount.

Pendant Mount Flat Panels in **NEW** Configurations FPHK Series

Saylite has developed a unique accessory to align pendant mounted Flat Panels in a variety of configurations. Mix 1x4, 2x2 and 2x4 Flat Panels each individually pendant mounted in a unique configuration to compliment your interior architecture. The Flat Panel Aligner Mounting System can be made for a variety of angles or straight configurations and finished in an accent color. A high impact look at a great value.
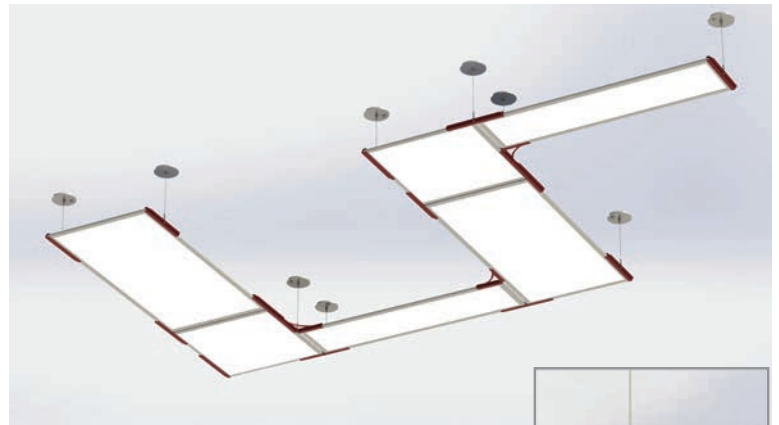

Consult Factory for Your Configuration.
See other option on page 11.

Convert a Linear Pendant to a Surface Mount

Most of the Linear Pendants on the next several pages can be surface mounted. Simply remove the hanging kit starting with "HC."

Linear Pendants

Saylite offers a complete palette of linear pendant channel fixtures for every project, in 0.7, 1.3, 2, 2.5, 4, and 6" widths, individual or continuous run, direct/indirect, and direct only, and pendant, surface or wall mounted. Still don't see exactly what you want? Please ask us. We design and build to specification every day. Saylite is your factory at your fingertips!

LED LINEAR PENDANT 2" X 3" DIRECT OR INDIRECT ONLY

Our signature micro pendant (2" wide, Direct or Indirect only) is suitable for modern corridors, lobbies and offices and can be installed individually or in continuous run. Snap-in lens hides LED arrays and provides excellent glare control. Consult for custom sizes or configured in patterns.

PENDANT CANOPY KITS

See page 153 for more information on hanging kits.

Pendant Canopy Kit (HC301WH/HC401WH are 5FT Length) & (HC302WH/HC402WH are 12FT Length).
Standard Power Cords are 3 Wire for 5 Wire or 6 Wire Cords add 5W or 6W after number.

Power Feed Canopy Kit   Non Power Feed Kit

Both come in complete kit.

Linear Pendants

JUST RIGHT, RIGHT NOW.

Choice of 2.2" or 3.5" Wide Linear Aluminum Channel available in 4ft and 8ft or join for longer runs for direct lighting. 2.2" is also available in direct and indirect output. Ships in less than 48 hours.

Based on your feedback, our brand new All-In-One LED Linear Channel is new and improved to provide the easiest channel in the industry to specify, order, and install. This integral driver channel in two different profiles provides the ideal solution for both individuals fixtures (in 4 or 8 foot), and to join multiple channels for longer, continuous runs (in 4 or 8 foot multiples). This beautifully finished aluminum channel is so easy to install that the "do-it-yourselfer" can install in minutes; and professional installers will appreciate not only the reduction in cost, but also the speed in which installation can be completed. A specially designed integral wiring harness (ordered separately) makes joining two channels electronically simple and efficient. A unique, mechanical joiner bracket in conjunction with our special joiner tool allows for joining two or more channels together with no light leak and a clean connection.

FEATURES INCLUDE:

- Aluminum Channel
- Integral Driver
- Snap Fit Lens
- Magnetic Light Leak Block
- Integral Wire Harness
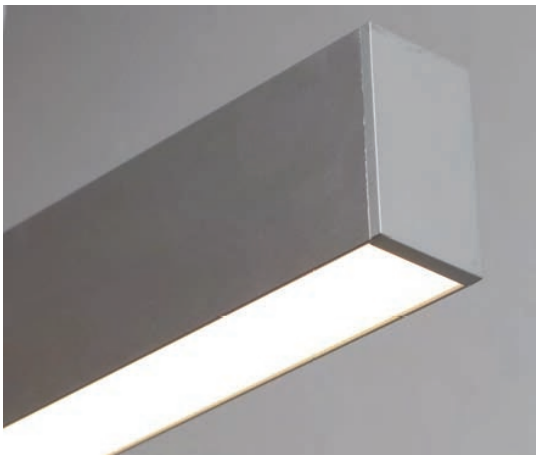

2 SIZES READY TO SHIP
Satin Aluminum or White Finishes

LLLSF
2.16" Wide, 2.75" Tall

LLLSG
3.54" Wide, 3.38" Tall
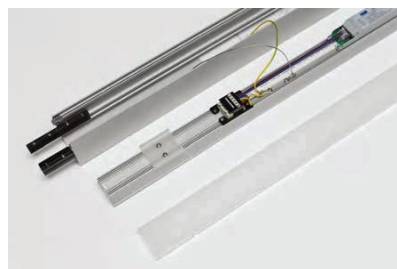

Three-part system allows for easy wiring with prewired harnesses and allows for custom finishes on channel (Consult).
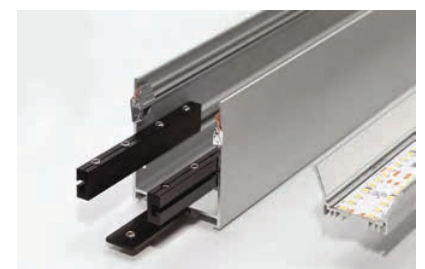

Joins easily with a mechanical spline.

LED LINEAR PENDANT CHANNEL 2.2" X 2.80"   NEW
DIRECT AND INDIRECT

Aluminum 2.2" profile with the perfect ratio direct and indirect light. Frosted lens housed in Satin Aluminum or white finished channel. Ideal for open office plans, it comes in 4- or 8- foot individual fixtures or join multiple fixtures for continuous runs. Dubbed "the easiest LED channel in the industry", the CLLBF is easy to specify, order, and install, and ships in less than 48 hours.

LED LINEAR PENDANT CHANNEL WITH REMOTE DRIVERS

Utilizing the latest LED high-powered 24-volt tape, the LLL Series provides powerful micro-illumination and can be ordered in multiple ways providing maximum flexibility for every specification. Choose from a variety of aluminum channels that can be cut to size, painted a variety of colors and mounted as an individual fixture, a continuous run, concealed behind fascias, clustered in multiples and mounted as pendant or surface mounted on wall or ceiling. Each aluminum profile utilizes a specially designed 24 volt LED tape that can be cut to size and requires a separate 24 Volt driver. Remote drivers can be specified per fixture or for a group of fixtures. Specify mounting and joining accessories to complete the fixture.

LED LINEAR PENDANT FIXED RECTANGULAR CHANNEL

Make a bold design statement with this geometric-shaped line of light. The CLLLSF4X8 is easy to specify, order, and install, making it ideal for both residential and commercial general lighting applications. This 4 x 8 foot rectangle with 2.2" wide linear channel with center lit channel is available for quick ship and economical applications to fill a large space without impairing visibility. See www.saylite.com for video on how to install.

ITEM NO.	DESCRIPTION

LED RGBW LINEAR CHANNELS 2.5" WIDE

Add RGBW capabilities to 2.5" wide linear channel to change the mood, atmosphere and look of the application. Ideal for behind coves or fascias to create a "horizon or accent of color" that psychologists have concluded can change your mood. Fixtures wire with standard 2 wires installation and control with a free phone App or choose wireless or wired controllers. RGB allows 1000's of color choices or choose from a variety of white colors. App or controller allows scheduling, white tuning and other special lighting effects.

Continuous Runs

Saylite engineers most of their pendants for continuous runs with specially designed mechanical connections and wiring harnesses for plug and play electrical connections. Add –B, -J and – E to end of Item Number to designate where the fixture goes in the continuous run (beginning, joiner or end) and ensure it comes with the right mechanical and electrical components for easy joining.

WET LOCATION LINEAR PENDANT   NEW

Now bring your exterior applications to life with a special designed wet location linear pendant. This aluminum extrusion is 3.5" wide for a bold yet minimal look with a sealed lens to keep out moisture and bugs. Specially designed power cord and mounting kits allows the fixture to be pendant or surface mounted. Choose individual fixtures or fixtures made especially for continuous runs. Both versions complete with all mounting brackets and joiner accessories. Available in satin aluminum and in 4000 and 5000 kelvin or consult for other custom options.

Acoustical Lighting
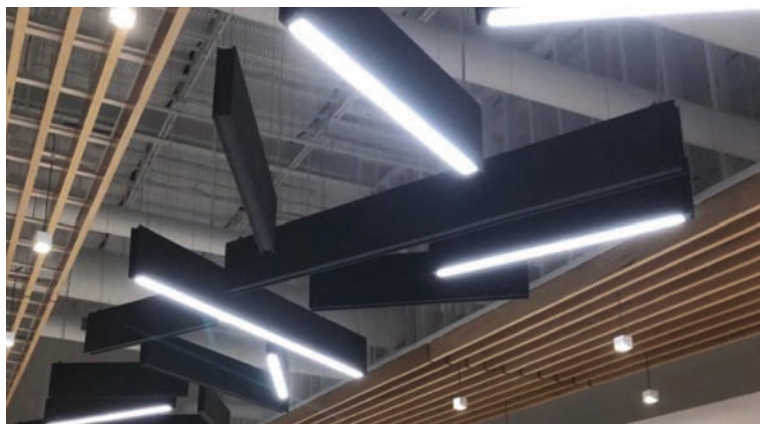

The industrial look, open ceilings, concrete floors and wide open spaces, is all the rage in interior design. The only downside can be the hard surfaces that make the space attractive also makes it loud and without any sound absorption. Saylite's new Acoustical Lighting series utilizes an eco-friendly highly sound absorbing material (PET), that can be formed in a variety of styles and integrated with lighting called Acoustical Lighting. Acoustical Lighting combines the performance of LED lighting with specially crafted sound absorption material to develop a "multi-function" architectural lighting fixture. Saylite has teamed up with Frasch that specializes in forming PET to develop off-the-shelf and custom acoustical lighting fixtures and baffles.

CUSTOM ACOUSTICAL FIXTURES
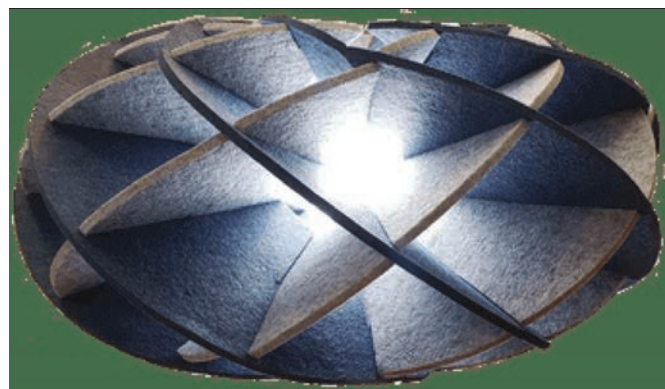

Saylite can provide custom acoustical fixtures and baffles to provide the sound absorption and lighting for your project. Whatever you need, you get experienced acoustic designers from Frasch to bring it to life while Saylite adds the lighting components to maximize form and function for your space. Best of all, the custom creation is at a price you can afford.

Acoustical Lighting

NEW

Your open architecture demands it. The design is incomplete without it. Acoustic lighting is the perfect solution, and it doesn't have to break the bank. When you have a vision that surpasses the project budget, you come to Saylite to make it right.

The LAB series is designed from 100% PET with at least 40% post consumer recycled content. Available in lit and acoustic only version. Saylite can help complete your total noise reduction and lighting project.

Surface Mount

Most of our linear pendants like our 44 Series can be surface mounted. See pages 22 to 49 for other options.

Saylite has a wide selection of surface-mounted LED fixtures for every application, and many are companion fixtures to our extensive recessed and pendant-mounted fixtures. An extensive selection of linear channels are available from less than 1 inch wide to more than 6 inches wide (See Linear Pendant Section). From Flat Panels to wraparounds, to specialty corridor and wall wash fixtures, to low profile "clouds", there is a fixture for every lighting design and every application. Each surface mount is available in a variety of sizes, wattages and lumen outputs. Choose the color temperature and fixture color that works for the application. Consult our "Factory at Your Fingertips" if you don't see what you need.

Sales Illuminated Shadow Box

Saylite manufacturers a variety of Illuminated Shadow Boxes for signage, displays or lit designs. Vinyl graphics can be custom printed and is illuminated by dimmable LED arrays.

LED SURFACE PREMIUM LOW-PROFILE WELDED FLAT PANEL

This sleek, ultra-thin, LED flat panel is only 2.5" in height and available in three sizes housed in low profile welded steel frame. Ideal for offices, circulation spaces, retail, and residential kitchens where a "skylight" appearance is desired.

ITEM NO.	DESCRIPTION
SHPFPELP22LED40DMVWH40	2x2 / 40W, 5000L / 0-10V Dim / 4000K

More Choices for Surface Mount Applications

In addition to all the Surface Mount fixtures in this section, many of the fixtures in the recessed section can be surface mounted with a shroud. Also many of the fixtures in the Linear Pendant and Linear Strip section to come are ideal choices for Surface Mounting applications.

A clean and simple surface shroud easily transforms recessed fixtures to Surface Mounts to match appearances or provide a specification grade appearance.

LED LINEAR WALL WASH

Lit walls expand the space and draw the eye. This architectural linear wall wash solution does it in a sleek, inconspicuous form factor. Ideal for lobbies, circulation spaces, and office environments. Available in two-, four-, and eight- foot lengths, individual or group patterns with asymmetrical light output.

LED Strips

Saylite LED strips are easy to join in a continuous configuration with both mechanical and electrical joining well thought out.

Saylite's in-house Powder Coat capabilities allow the exact finish for the project. Choose from standard options or send in a color to match.

Orange (OR)

Red (RD)

Matte White (WH)

Black (BK)

See color chart on pg 156.

Add Style, Performance, Flexibility and Color to Your Next Project.

Linear Strips continue to be an important application in commercial, industrial and residential applications. In the new LED era, choices for these utilitarian applications have expanded to provide the exact style, light output, size, and finish required. Don't settle anymore for "just a strip" and instead specify a Saylite LED strip that will say, "the right light matters" in every application.

Using multiple of Saylite LED strips to make visual impact. Surface mount, wall mount, and pendant mount depending on the application.

LED CONTOURED STRIP

Wall or Ceiling mount, surface or pendant mount, vertical or horizontal this fixture, available standard in 3 sizes, can be used individually or joined together for a continuous run. Standard in white but with a variety of finish options. One piece lens for a great look.

Continuous Run Made Easy

Saylite provides simple methods to install strips in continuous runs to ensure ease of installation, straight and uniform joining and continuous power with one electrical feed. Mechanical joining includes end caps that transform into joiners, holes and knockout for easy nut and bolt installation and brackets for easy joining on top. Wiring harnesses in a variety of wire options make electrical joining from one power feed plug and play.

Wiring harnesses are provided in continuous run fixtures designated by -B, -J, -E for beginners, joiners and Enders. See page 153 for options.

LED LENSED STRIP (4.25" WIDE)

Low profile economy linear strip provides light where you need it. End cap and lens finish the look and provides low glare lighting.

Saylite 65

Industrial Strips Your Choice for Industrial Lighting with LED.

LED Industrials provide more light on the cartons on each side of the aisle.

BEFORE (fluorescent)

AFTER (LED)

INDUSTRIAL STRIP FAMILY

One style offered three ways to meet any industrial application – cost effective and high output - Open Strip, Frosted Lens, or a highly focused Narrow Reflector. Available surface or pendant mount.

Lens

Multiple sensor options available.

Reflector (Narrow Spread)
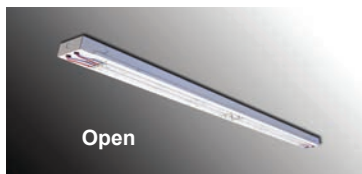

Open

Sensor Switch SFOD 7 in Detail

The SFOD 7 ODP Series sensors provide both Motion and Daylight based control of a 0-10 VDC dimmable outdoor or wet location luminaire. The SFOD 7 ODP can dim and turn on/off its connected lighting. For motion detection, the sensors utilize 100% Digital Passive Infrared (PIR) technology that is tuned for walking size motion while preventing false tripping from the environment. The SFOD 7 ODP's integrated photocell enables additional energy savings during daytime periods when there is sufficient daylight.

SPECIAL FEATURES
- Adjustable Time Delays, Max/Min Dim Levels, and Ramp Rates
- Programming Button Accessible w/o Opening Sensor or Removing Gasketing for Outdoor/Wet locations
- No Field Calibration or Sensitivity Adjustments Required
- Non-Volatile Settings Memory
- Convenient Test Mode

Linear Wall

Saylite offers a full palette of complementary wall fixtures for every application, in 2", 2.5", 4", and 6" wide profiles. Whether the plan calls for a sleek architectural form or a linear strip, we manufacture it to your specifications.

See Matching Pendants on page 24.

Mounting brackets allows easy installation and floating look.

Ordering is for Direct lighting. For Indirect Lighting Add U after the "L" after the length.

WALL LINEAR 2" X 3.5" DIRECT ONLY OR INDIRECT ONLY

Our signature micro pendant (2" wide, Direct or Indirect only) is suitable for modern corridors, lobbies and offices and can be installed individually or in continuous run. Snap-in lens hides LED arrays and provides excellent glare control. Consult for custom sizes or configured in patterns.

WALL LED LINEAR 4" X 4" DIRECT/INDIRECT ONLY

The 4" x 4" steel profile provides a bold architectural look used individually or in continuous lengths to provide comfortable, bright general lighting. Snap fit frosted lens hides the LED arrays and provides excellent glare control. Easy to join, and easy to install. Available in standard sizes, outputs and finishes with a vast array of custom options.

Saylite 75

Stairwell Lighting
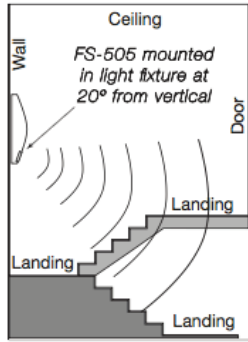

FS-505 Mounted in Stairwell

Ultrasonic technology for open area detection and line of sight obstructions.

Choose the percentage of light output *(XX)* that you want when space is unoccupied.

Saylite SMARTSENSE is an integral ultrasonic occupancy sensor to sense motion within a space and automatically turn on lights even when the sensor has no direct line of sight to occupants. After the area is vacated and the time delay has elapsed, the sensors automatically turn the lights off. Ultrasonic detection operates by transmitting sound waves throughout an area and measuring the speed at which they return. Movement increases the return frequency which indicates occupancy. Saylite Ultrasonic smartsensors provide functions for testing, overriding the fixture "ON."

STAIRWELL STANDARD

This sleek, spec-grade, wall-mounted fixture with SMARTSENSE and forward throw optics is ideal for brightening the perimeters of offices or when used as a wall lighting system for corridors.

DLC Qualified

Saylite tests all its LED products against DLC performance criteria for the applicable product category. Most, if not all, Saylite products meet DLC criteria. Saylite submits, on a continuing basis, the test results to DLC to add their products to the list.

Saylite focuses its product line and DLC submittals to maximize the value to our customers. In cases where utility rebates aren't plentiful, we make sure we offer the full performance criteria without the unnecessary mark-up required to pay for the DLC listing.

Search our latest DLC Listings at https://www.designlights.org/search

Linear
Wall

MCT - Provides choice of 3000, 3500 or 4000 kelvin from the same fixture with a dip switch.

LED SPILL RING BATH

Linear-sided acrylic lens distributes light evenly while reducing glare and providing visual comfort. Ideal for over-vanity bath applications.

High Bays

Saylite offers high-efficiency LED high bay fixtures for warehouse, manufacturing, and commercial facilities – anywhere you need exceptional light distribution for mounting heights up to 40 feet. The LED high bay's superior lumen package is ideal for replacing traditional metal halide and linear fluorescent high bay systems. The benefits include high efficiency, excellent color rendering, long life, instant on, and improved uniformity. Saylite heavy-duty high bay housings are manufactured from steel for long-lasting performance. Choose from linear or round, lensed or open, and with a wide range of sensors and controls.

Saylite's specially engineered High Bays for Aisles provide light in the racks to illuminate the carton labels for greater visibility and energy savings.

HIGH BAY WITH AIMABLE AND MODULAR ARRAYS

This industrial open frame unit is the ideal warehouse fixture. Premium full specular mirrored reflectors provide efficient lighting and maximum throw. Available in downlight and uplight configurations, in 2-row, 4-row, and larger. Adjusts 15% for aiming and can be mounted indirect with special accessory clips.

HIL48LA433W60000LDMV50K	45.16"L x 15.58"W x 4.30"H / High Bay / 433W, 60000L / 0-10V Dim / 5000K

`EM1` `OS2` `D1MV` `90CRI` `CCT1` `SURF` `PEND`

For Frosted Lens add "FR" after HIL. For Clear Lens change FR to CL For Wireguard add WG after FR and. For Occupancy Sensor on End add MDT4.

UPLIGHT ACCESSORY FOR HIL

Saylite engineered a unique uplight accessory for the HIL Series Linear High Bay above. Avoid the tunnel effect by adding this unique accessory to create some surface brightness to compliment the high impact downlight.
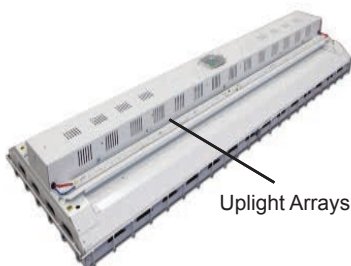

Uplight Arrays

ITEM NO.	DESCRIPTION
UV45W	HIL Uplight Accessory Module 45W and 550

`EM3` `OS6` `D1MV` `90CRI` `CCT1` `SURF` `PEND`

LED Arrays don't provide the 360 degrees light output of fluorescent lamps. For applications that require uplight, this accessory is ideal. Consult for other wattages and lumens.

For the Icon Legend, see pages 154-155. Item numbers highlighted in gray are DLC Listed.

Saylite 83

High Bays

LED PREMIUM HIGH BAY w/OPTIONAL ACCESSORIES

This high-efficiency LED high bay is engineered for premium performance. A precision-formed highly reflective mirrored reflector system is designed to achieve maximum light output for warehouses, manufacturing plants, sports facilities and retail spaces. With surface, pendant, chain or stem mounting options.

ITEM NO.	DESCRIPTION
HBIP12L110W14680LMV50K	21.5"L x 11.8"W x2 "H / High Bay / 110W, 14680L / 120-277V / 5000K

High Bays

VAPOR TIGHT HIGH BAY WET LOCATION

Demanding environments call for this tough, enclosed and gasketed, high bay fixture. For use in both indoor and outdoor applications, appropriate for damp and wet locations, as well as for protection against dust and other non-hazardous contaminants. Ideal for food industry, cold storage, warehouses, parking garages, commercial kitchens, car washes, utility tunnels, laundries and industrial facilities. IP67, NEMA 4X.

ITEM NO.	DESCRIPTION

See specification sheet for mounting options and accessories. CL is Clear Acrylic Lens, change to FR for Frosted Acrylic Lens. For Polycarbonate Versions add PC after CL or FR.

Frosted Lens option (FR) provides soft, glare-free lighting.

Citadel High Bay is ideal for food processing areas where a wash down fixture with abundant lighting is required.

LED High Bay 15 inch Diameter 14000 Lumens or 25000 Lumens

Optional Integral Sensor

Engineered for long life in ambient temperatures up to 55° centigrade, IP65, and simple hook installation.

ROUND HIGH BAY

A sleek, round high bay available in 14000 or 25000 Lumen versions makes designing in challenging environments like warehouses, gymnasiums, retail centers and manufacturing facilities easy and provides a fresh appearance.

This LED High Bay Pendant saves 60 percent energy vs. HID and fluorescent fixtures, and delivers 100,000 hours of lumen maintenance for a wide range of commercial and industrial lighting applications. Engineered to withstand significant voltage surges common in these large venues, ambient temperatures up to 55 degree Celsius (131 degree Fahrenheit) and dust, moisture and airborne contaminants with IP65 rating. A superior optical design and efficient illumination gives an ideal lighting distribution and glare control. The lens provides the right amount of illumination and glare control. A knockout in the center of the body allows adding a sensor easily and economically for enhanced energy savings and performance.

Retrofit Kits

If you are looking for retrofitting expertise, you've come to the right place. Saylite offers a comprehensive assortment of LED retrofit products and we package and ship kits in ways that reduce time for storage, unpacking and installing, even pre-wiring kits in the factory to minimize time in the field. We also make custom-configured kits in a way that eliminates 15% of unnecessary costs associated with the "universal" kits from our competitors.

Saylite offers a full assortment of Savegreen Linear LED lamps and X1LED retrofit kits to change any fluorescent fixture to accept LED linear lamps. See Savegreen Lamps on pages 142-145.

X1LED

At www.saylite.com/support/videos you can view simple "how to" solutions for retrofitting strips and troffers.
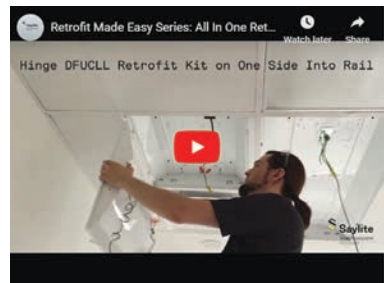

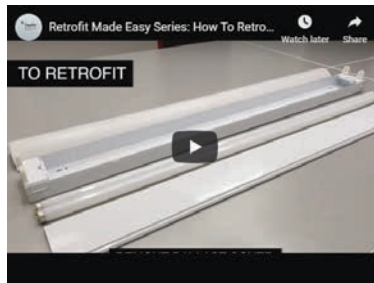

Troffer Retrofit Kits

All-In-One Retrofit Troffer Kits

Convert an existing linear fluorescent fixture to a state-of-the-art Linear LED fixture in minutes with these LED All-In-One Retrofit Kits. Increase lighting performance, save energy, reduce maintenance, and welcome a fresh new look to any space. Each kit mounts in minutes with all the LED components neatly engineered in one simple frame that mounts to two side rails that mount between the existing fixture body and the T-bar.

CENTER BASKET

This retrofit fixture provides the look of a popular indirect/direct linear fixture but with a specially designed LED reflector and lens and provides comfortable, abundant lighting. Available in 1X4, 2X2 or 2X4 configurations and a variety of wattages, lumens, and color temperature

Install in Minutes: Place Rails between fixture and T-Bar on each side. Then latch and secure All-In-One-LED-Retrofit into place.

High Bay Retrofit Kits

Saylite's Factory at Your Fingertips can retrofit your existing Fluorescent High Bays with specially designed LED High Bay Retrofit Kits to preserve expensive modular wiring systems and difficult to access applications. Engineered for a simple plug and play installation utilizing the existing high bay's construction to allow retrofitting in minutes.
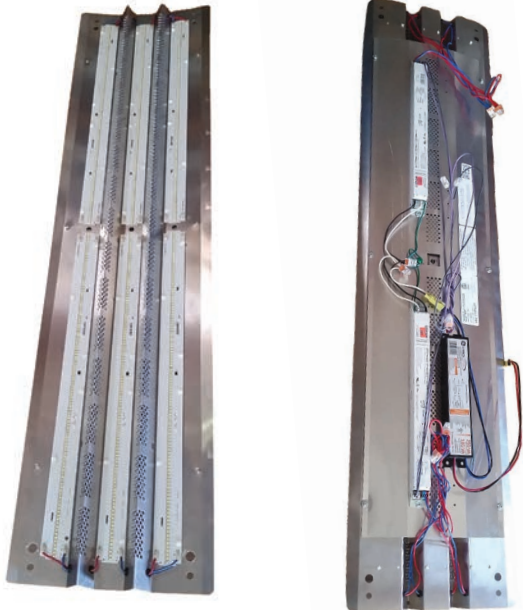

Saylite's engineering team constructed an LED retrofit kit utilizing a specular aluminum reflector and high powered LED's to convert these fluorescent high bays to save over 40% of the energy and increase life by 5 times. Our engineering team can make a custom retrofit for your High Bay.

LED T5HO or T8 linear LED lamps are ideal to retrofit fluorescent high bays with minimum investment and maximum benefit. See X1LED Retrofit section on pages 136 to 138 for more information.

Retrofit Kits

WARNING: If you have this fixture in 4 or 8 Foot, You can Retrofit Them and Save over 40% Energy and Reduce Maintenance.

ENCLOSED STRIP RETROFIT KIT

This workhorse Retrofit solution is now available with a lens. It provides an economical and versatile solution for many applications including retail, industrial, and mezzanine low-ceilinged applications where a wide light distribution is needed.

HOTCE14L14W1350LD12030K	14"Dia x 4.25"E / Dome / 14W 1350L / Triac Dim / 3000K
HOTCE14L23W1850LD12030K	14"Dia x 4.25"E / Dome / 23W 1850L / Triac Dim / 3000K

CCT4 Change 30K to 40K for 4000K. Consult for multi-volt and other wattage and lumen options.

LED SPILL RING CTC w/ SMARTSENSE

Provides adjustable soft illumination with dimming capability and occupancy sensing technology to fully illuminate areas when occupied and provide maximum cost savings when areas are not in use. The advanced microwave sensor technology has multiple sensor options available, including on/off sensor controlled, bi-level or adjustable standby, and even daylight sensing technology to ensure no is ever left in dark.

Shown without lens to see sensor. Complete Fixture looks like HOTCD on left.

ITEM NO.	DESCRIPTION
SMHOTCD18L35W3300LMVSN(50)MCT	17.75"D x 5"H / 35W, 3300L / 0-10V Dim / Occupancy and Daylight Harvesting Sensor / Available in 3000K, 3500K or 4000K

CCT3

User Friendly Color Temperature

Now some Saylite fixtures have "MCT" for color temperature which features a Dip Switch to change color from 3000, 3500 and 4000 kelvin.

CLOSE-TO-CEILING / DISK LIGHTS
LED

These Micro LED Close-to-Ceiling fixtures are particularly a good solution in wet location applications where normally a much larger and usually simple utilitarian look is used like in outdoor breezeways and showers/bathroom applications. They are also stylish substitutes for recessed downlights especially where ceiling obstructions or codes make a surface mount a good solution. It is ideal for applications that require expensive fire rated boxes for recessed fixtures since these mount simply to a surface mounted junction box.

RCS

RCR

Depth - 0.625"

ULTRA THIN EDGELIT DOWNLIGHT (WET LOCATION)

Choose either a round or square silhouette in two sizes and two finishes, white and brushed nickel with a special regressed lens to provide even, comfortable illumination from these edge-lit fixtures. Wet location for indoor and outdoor use. 120V only. Dims to 10% with standard dimmers.

ITEM NO.	DESCRIPTION

Exterior Wall Packs
& Floods

LED wall packs and floods are perfect for illuminating pathways and perimeters, giving people a greater sense of security. And whether you're looking for a traditional non-cut off, high-output, fixed-cutoff, architectural, or slim-sized fixture, we've got them all. Each is so easy to install with a full assortment of accessories for most applications. Energy efficiency, durability, optics and fresh aesthetics distinguish our offering. Poles available for certain markets along with bollards and other specialty commercial exterior fixtures to illuminate your next exterior project.

LED CUTOFF WALL PACK

Full cutoff LED wall pack. DLC listed. Photocell and EM available (most models).

Architectural Tall Bollard adds style to Strip Centers and Multi-Family exteriors.

ARCHITECTURAL TALL BOLLARDS **NEW**

This new Architectural Tall Bollard is the latest in LED design for Site and Architectural Lighting. Almost 12 feet tall with 4 feet of durable acrylic diffuser makes a bold statement. This luminaire is bolted with a mounting plate onto a foundation provided by the customer or an anchorage unit made of hot-dep galvanized steel. Consult for RGB and with custom text on the galvanized bollard.

ITEM NO.	DESCRIPTION
ATBL80WMV40K	LED Cassiopeia Architectural Tall Bollard / 7" Dia x 137.8"L / 80W / 120-277V / 4000K / Aluminum Galvanized

X1LED

The Benefits of LED with Ease, Practicality and Flexibility

THE SIMPLE LED SOLUTION

X1LED is the most economical, practical and user friendly series of LED fixtures, with the energy savings, quality of light, long life and hassle-free maintenance you have been searching for. X1 LED fixtures are UL Listed with the latest LED T8 Bypass lamps. Fixtures provide over 40% energy savings over comparable fluorescent fixtures utilizing less expensive fixtures than the fluorescent version and have flexibility to change wattage and color temperature any time. Fixture performance will evolve over time with the evolution of the T8 LED lamp technnology. Concerned about maintenance with an LED array and driver fixture, X1LED solves that by utilizing LED T8 lamps that fit into the fixture just like a fluorescent lamp.

LED System

A complete UL Listed LED fixture with no ballast or driver to fail. Special red sockets to identify fixtures made for LED T8 lamps.

Flexibility and Long Life

Change the LED T8 lamp any time to different wattage, color temperature or lumens.

Premium LED T8 Lamps

Saylite uses top quality LED T8 lamps that are field tested for demanding applications and up to a 10 year warranty.

How To Add Emergency to X1LED
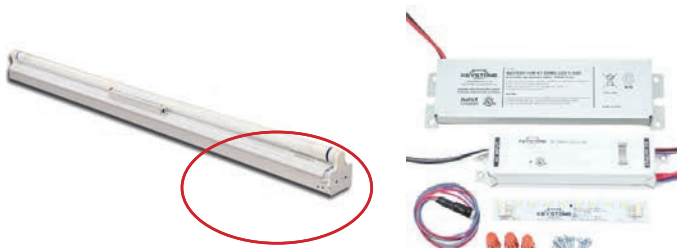

Separate LED Array added for Emergency.

KEYSTONE KT-EMERG-LED-12-1200-K1 LED EMERGENCY LIGHTING KIT

12W Constant Wattage - Ballast Battery Backup - Damp Location - 120-277V

Includes driver, separately housed 1200mAh Ni-Cd battery and 0.7" x 8" 1200 Lumen LED module for complete emergency lighting installations. When AC power fails, the driver will power the LED for a minimum of 90 minutes emergency illumination. Easy installation in existing LED or fluorescent fixtures with wiring diagrams and labels on all parts. Mounting hardware included. Full 5 year warranty on all components. Output Current 1000 mA-200mA - Output Voltage 12 ~41 Vdc

To order, add EMKT12 to end of X1LED item number.

How To Add an Inverter to X1LED

KT-EMRG-LED-5-500-AC CONSTANT WATTAGE LED EMERGENCY BACK-UP

LED Emergency Back-Up Driver | Standard Side Exit Wire Leads | 5W Output

DRIVER TYPE: Constant Wattage LED Emergency
MAX. OUTPUT POWER: 5W
INPUT VOLTAGE: 120-277Vac ±10%
OUTPUT VOLTAGE: 40-300Vdc
OUTPUT CURRENT: Load Dependant
WARRANTY: 5 Years
PRODUCT FEATURES
• Illuminates entire LED load at reduced output under emergency mode
• One Piece Design with Metal Housing
• 2 -in- 1 LED test switch and indicator light included
• Evaluated to UL 924 requirements

To order, add INV5 to end of X1LED item number.

X1LED
Retrofit Kits

Choice of Reflectors or Ballast Cover

For ballast cover,
choose strip width 4.25" or 5"

SKB

SKR
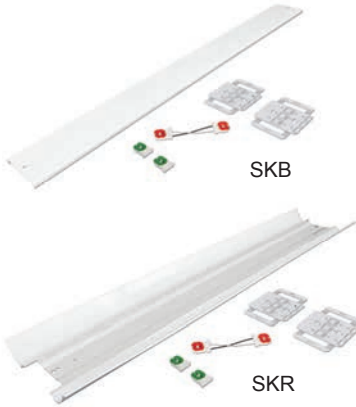

For enhanced light output add a mirrored
specular reflector (M20) or white reflector (W10).

Universal socket bar SKRUSB is
ideal to retrofit 4.25" to 5" strips with
either reflector or ballast cover.

LED LINEAR LAMPS: THE SMART WAY TO LED
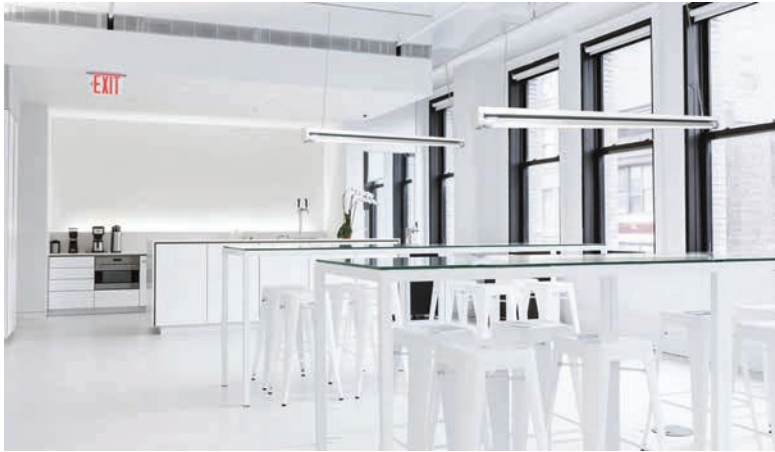

LED T8 and T5 lamps are fast becoming one of the best options to enjoy the benefits of LED. Savegreen Lamps are manufactured to strict specifications providing the highest quality, consistency, performance and life. Higher efficiencies, lumens per watt, higher output options, more product options and industry leading warranty options, makes it a great choice to light your next job.

Practical LED T8 Bypass Type B Linear Lamps

Start enjoying the benefits of LED lighting. Bypass Type B Linear Lamps are perfect for both new construction and retrofit installations. Savegreen Bypass Lamps eliminate the need for an external driver or ballast. Simply connect the 120-277V line directly to the new safety sockets and achieve long life, energy savings and flexibility for years to come.

Industry-leading, 10-year Limited Warranty

Savegreen offers a premium line of LED T8 Bypass Lamps designed to provide higher efficiency, better performance and longer life. As the industry leader, we are willing to offer a 10-year warranty on these products. Simply register your project and purchase of L10T8 lamps, and you'll receive replacements or credit towards other Savegreen LED T8 Lamps—no questions asked.

Reliable and Easy to Replace

Now you can combine the performance, long life, and energy efficiency of LED's with no maintenance crisis. It's as easy as changing a light bulb or fluorescent tube. Just twist out the old lamp and put in an affordable Savegreen lamp—no wiring, ballast or electrician required.

Versa Lamp NEW

The Simplest Way to Create Architainment

RGBW Single Ended LED Lamps That Work with DMX Control.
Create Architainment with X1LED.

The patented VersaLamp LED lamp is the first Single Ended LED Linear Lamp that fits in standard T8 fixtures either retrofit or X1LED fixtures that provides RGB, ultraviolet*, and white lighting from a single lamp controlled by DMX controllers. The lamp is ideal for creating architainment which is not only popular in entertainment applications but now creating an experience in hospitality, retail and living applications. A simple digital lighting control easily switches environments. The lamp includes long life LED lamp sources that can be addressed in sections, energy efficiency, simplicity of installation, and maintenance free operation. It can be used in new and retrofit applications. You must see it to believe how it can change your next project.

RH2WP6V7.2W	Double head weather proof remote 5.4 Watts
RHLED1MV	LED Multi-Volt (3.6v/6v/9.6v/12v) Remote Head, Single, Indoor
RHLED1PWPMV	LED Combo Remote Head, Plastic, Single, Wet Location
RHLED1WPMV	LED Combo Remote Head, Single, Wet Location
RHLED2MV	LED Multi-Volt (3.6v/6v/9.6v/12v) Remote Head, Dual, Indoor
RHLED2PWPMV	LED Combo Remote Head, Plastic, Double, Wet Location
RHLED2WPMV	LED Combo Remote Head, Double, Wet Location

For other options and accessories, see specification sheets.

RHLED2PWP

Consult for Made in USA versions.

Inverters

A battery backup inverter can provide power to your emergency LED T8 lamps and fixtures for 90 minutes. We carry interruptible and uninterruptible backup power inverters in surface mount and ceiling grid mount options. These battery backup inverters are compatible with a variety of lamps, ranging from fluorescent to LED lights including X1LED. They can provide power at a distance of up to 1,000 feet to multiple emergency lamps and fixtures. A three-year warranty is standard, along with the 90-minute operation timespan.

MPS EMERGENCY POWER SYSTEMS

ITEM NO.	DESCRIPTION
MPS-20-S	Micro-electrical inverter system which powers 32 W/VA of incandescent, fluorescent, or LED lighting loads
MPS-32-S	Micro-electrical inverter system which powers 55W/VA of incandescent, fluorescent, or LED lighting loads
MPS-35-S	Micro-electrical inverter system which powers 20W/VA of incandescent, fluorescent, or LED lighting loads
MPS-55-S	Micro-electrical inverter system which powers 35W/VA of incandescent, fluorescent, or LED lighting loads

SPS EMERGENCY POWER SYSTEMS

ITEM NO.	DESCRIPTION
SPS-55/125	Mini-electrical inverter system which powers 55 Watts / 125 VA of incandescent, fluorescent, induction or LED lighting loads
SPS-110/125	Mini-electrical inverter system which powers 110 Watts / 125 VA of incandescent, fluorescent, induction or LED lighting loads
SPS-110/250	Mini-electrical inverter system which powers 110 Watts / 250 VA of incandescent, fluorescent, induction or LED lighting loads
SPS-220/250	Mini-electrical inverter system which powers 220 Watts / 250 VA of incandescent, fluorescent, induction or LED lighting loads

LPS EMERGENCY POWER SYSTEMS

ITEM NO.	DESCRIPTION
LPS-375	Large-electrical inverter system which powers 375 watts/VA of Incandescent, florescent, induction, or LED lighting loads
LPS-600	Large-electrical inverter system which powers 600 watts/VA of Incandescent, florescent, induction, or LED lighting loads

Hanging Kits

Chain

S Hook

Tong Hangers

G310

G315

HC401

HC605

HC301

ITEM NO.	DESCRIPTION
For ALL HIGHBAY	
HC101	Chain kit with 20' chain & (4) S Hooks
HC102	Jack chain (per foot)
HC103	S Hook, Set of 2
HC202	Tong hangers only, End mount (Tong Hooks Pointed Forward), Set of 2
HC203	Tong hangers only, Side mount (Tong Hooks Pointed to Center), Set of 2
HC204	Chain kit with (2) 10' Chain and (1) HC202
GT310	Cable kit with (2) 10' aircraft cable, (1) 3 wires white power feed
GT315	Cable kit with (2) 15' aircraft cable, (1) 3 wires white power feed
SCS24WH	One stem white kit with (1) 24" stem, (1) canopy and mounting hardware for a 4' fixture
2SCS24WH	Two stems white kit with (2) 24" stem, (2) canopy and mounting hardware for a 4' fixture
For LPLIN, PLIN, SLP	
HC401WH	Cable kit with (2) 4' aircraft cable, (1) 3 wires white power feed and (2) white canopy
HC402WH	Cable kit with (2) 12' aircraft cable, (1) 3 wires white power feed and (2) white canopy
HC4015WWH	Cable kit with (2) 4' aircraft cable, (1) 5 wires white power feed and (2) white canopy
HC4025WWH	Cable kit with (2) 12' aircraft cable, (1) 5 wires white power feed and (2) white canopy
HC401WHNPF	Cable kit with (1) 4' cable & (1) white canopy (non-power feed only)
HC402WHNPF	Cable kit with (1) 12' cable & (1) white canopy (non-power feed only)
For RIG	
HC421WH	Cable kit with (2) 6' aircraft cable, (1) 5 wires white power feed and (2) white canopy
HC422WH	Cable kit with (2) 12' aircraft cable, (1) 5 wires white power feed and (2) white canopy
HC421WHNPF	Cable kit with (1) 4' cable & (1) white canopy (non-power feed only)
HC422WHNPF	Cable kit with (1) 12' cable & (1) white canopy (non-power feed only)
For LLL	
HC601WH	Cable kit with (2) 6' aircraft cable, (1) 5 wires clear power feed and (2) white canopy
HC601WH	Cable kit with (2) 12' aircraft cable, (1) 5 wires clear power feed and (2) white canopy
For L23, LAB, LLLSF, LLLSG	
HC605WH	Cable kit with (2) 6' aircraft cable, (1) 5 wires clear power feed and (2) white canopy
HC612WH	Cable kit with (2) 12' aircraft cable, (1) 5 wires clear power feed and (2) white canopy
HC605WHNPF	Cable kit with (1) 4' cable & (1) white canopy (non-power feed only)
HC612WHNPF	Cable kit with (1) 12' cable & (1) white canopy (non-power feed only)
For ISS	
HC804WH	Cable kit with (2) 4' cable, (1) 5 wires white power feed and (2) white canopy
HC812WH	Cable kit with (2) 12' cable, (1) 5 wires white power feed and (2) white canopy
HC804WHNPF	Cable kit with (1) 4' cable and (1) white canopy
HC812WHNPF	Cable kit with (1) 12' cable and (1) white canopy
For the Others	
HC301WH	Cable kit with (2) 4' aircraft cable, (1) 3 wires white power feed and (2) white canopy
HC302WH	Cable kit with (2) 12' aircraft cable, (1) 3 wires white power feed and (2) white canopy
HC3015WWH	Cable kit with (2) 4' aircraft cable, (1) 5 wires white power feed and (2) white canopy
HC3025WWH	Cable kit with (2) 12' aircraft cable, (1) 5 wires white power feed and (2) white canopy
HC301WHNPF	Cable kit with (1) 4' cable & (1) white canopy (non-power feed only)
HC302WHNPF	Cable kit with (1) 12' cable & (1) white canopy (non-power feed only)
Harness - Use for all, except L23 and LLL series	
PI1	3 wires harness, including white, black and green
PI2	4 wires harness, including white, black, green and blue for emergency battery backup
PI3D	5 wires harness, including white, black, green, violet and gray
PI4D	6 wires harness, including white, black, green, violet and gray and blue for emergency battery backup

Finishes

While white is standard, Saylite offers a variety of finishes, including any RAL finish. From classic colors to unique woodgrain finishes, Saylite can make an eye catching display of your lighting. Can we match your company color? Contact us for info!

Gloss Black (GB)	Matte Black (BK)	Matte Silver (SL)	Statuary Bronze (BZ)	Glimmer (Iron) (IR)
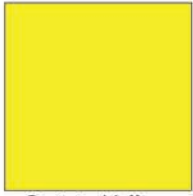

Safety Yellow (YL)	Safety Orange (OR)	Red 3003 (RD)	Fire Engine Red (FR)	Bengal Blue (BL)

Did you know that Saylite developed its High Reflectivity Matte White over years of development to make it the most reflective white on the market today? See why our standard white fixtures outperform most other manufacturers fixtures for yourself!

Consult factory for other finishes.

"Real Wood" Finishes

Barnwood (BW)	Lighter Maple (LM)	Maple (MP)	Straight Cherry (SC)	Cordoba Cherry (CC)

Dark Walnut (DW)	Light Walnut (LW)	Mahogany Cherrywood (MC)	Burled Mahogany (BM)	Straight Mahogany (SM)

Mediterranean (ME)	Oak (OA)	Walnut (WA)	Cherry (CH)	Douglas Fir (DF)
