BOYESEN WATER PUMP COVERS AND IMPELLER KITS

SuperCooler Water Pump Covers and Impeller Kits

The Boyesen Supercooler Water Pump Cover and Impeller Kit increases coolant flow at all RPM ranges to keep your engine cooler and make more power.

- Patented Nautilus style impeller for 40% more hydrodynamic efficiency
- 2-piece cast aluminum construction makes it lighter and more tolerant during manufacturing

Hy-Flo Water Pump Cover

Designed by Boyesen Engineering to increase water flow and reduce hydraulic friction for a cooler, more constant temperature.

- Less horsepower loss during the late stages of a race
- Water pump covers feature a super tough, powder-coated finish that resists weathering and wear & tear

Water Pump Impeller

Designed by Boyesen Engineering to increase water flow and reduce hydraulic friction for a cooler, more constant temperature

- Less horsepower loss during the late stages of a race
- Impellers are designed to minimize cavitation

BOYESEN QUICKSHOT 2 ACCELERATOR PUMP COVER

QuickShot 2 Accelerator Pump Cover

554-8002

The QS2 accelerates fuel delivery while eliminating troublesome trapped air that can cause bog and hesitation. Provides 25% more fuel capacity plus added bleed capability allows for solid fuel delivery 100% of the time. No modification required - simple bolt-on.

- Superior to stock accelerator pump covers
- 25% more fuel capacity
- High volume check valve
- Stops hesitation and bog
- Accelerates fuel delivery
- Instant response to throttle movements
- Improved low end performance
- Reduced hot engine stalling

BOYESEN COVERS

Boyesen Clutch Covers

Factory Racing Clutch Covers are cast in aluminum and powder coated for long lasting performance and protection. Factory Covers are guaranteed not to warp and are individually surfaced for a perfect, leak-free fit.

- Cast from the highest quality aluminum
- Covers come with gasket
- Seals perfectly to keep out dirt and moisture
- Cover gaskets may be used with stock or Factory covers

BOYESEN IGNITION COVERS

Boyesen Factory Ignition Covers

Stock plastic ignition covers warp due to high heat and pressure from mounting screws. This allows water and dirt to enter your starter assembly causing corrosion of the ignition and premature wear of the crank seals. Boyesen Factory ignition covers are cast in aluminum and powder coated for performance and protection and are guaranteed not to warp.

The replacement Ignition cover gasket includes one nitrile bound gasket.

EBC CLUTCH KITS

Standard - CK Series (Street, Dirt and ATV applications)

Almost identical to original equipment clutch plates the, CK series are cork based product impregnated with aluminum particles to increase wear life and heat resistance. Material is highly compressed to avoid swell and clutch drag and is an ideal general purpose replacement material for all grades and sizes of motorcycle. Kit includes a complete "engine set" of friction plates only.

Note: Do not use fully synthetic oil

Race/Sport SRC Kevlar Series (Street Applications)

A Kevlar paper lined plate set complete with heavy duty clutch springs (for bikes fitted with diaphragm type springs EBC cannot supply a heavy duty spring kit), the SRC kit is ideal for heavy sport bikes, faster riders and production based race use. Advantages of the SRC Kevlar series are longer life, higher heat resistance, although this clutch has a more aggressive/faster take up than the CK cork series.

Note: Do not use fully synthetic oil

MX and ATV DRC Series (Dirt and ATV Applications)

- Anti-swell, alloy impregnated heavy duty cork based facings provide smooth clutch take up and allow modulation, unlike paper clutches which tend to snatch.
- Complete engine set of friction plates, HD springs and **STEEL SEPARATOR PLATES** prevent premature driven plate wear, oil muddying and loss of stack height.
- EBC DRC kits are built with swaged aluminum carriers which spread the load on the clutch basket and prevent clutch basket "dogging".

Note: Do not use fully synthetic oil

CSK Clutch Spring Sets

Always fit new springs which get tired after miles of heat and use. EBC spring kits are 10-15% stiffer than standard and are sold in engine sets. As stated in general fitting/safety instructions, advise customers that lever will feel slightly 'heavier' when up-rating springs, and to test ride/acquaint themselves with this change in control.

Coil Type Spring - These are spiral wound springs using 4- 8 pieces per set made from heat treated high carbon steel and come in various shapes and sizes delivering differing spring tensions depending on the size of the bike and the horsepower of your engine. It is important to note that you cannot change the basic shape of these springs to gain any performance advantage but what you CAN do is buy a EBC Brakes CSK kit which have slightly ticker winding material and deliver 10-15% more clamp pressure.

Diaphragm Type Spring - These are a dish shaped flat steel pressure ring and there are normally only 1 or 2 in a bikes engine, you should never add MORE springs on a diaphragm spring set up.

Coil Type Spring

Diaphragm Type Spring

OIL FILTERS

K&N Motorcycle and ATV Replacement Oil Filters

Canister Motorcycle & ATV Oil Filters - These canister style premium oil filters are designed to handle high oil pressures and they can be used with the latest synthetic or semi-synthetic motor oils. K&N canister oil filters come with a 17mm nut welded to the top that makes removal easy.

- High flow rates, & outstanding filtration.
- 17 mm exposed nut for easy removal.
- Heavy duty canister construction.
- Traps 99% of harmful contaminants.
- Can be used with the latest synthetic motor oils.
- Drilled hole in nut for safety wire attachment.

Premium Cartridge Oil Filters for Powersports - These style oil filters provide outstanding oil filtration and protection. K&N cartridge style oil filters allow for a high flow-rate and they are ideal for modern synthetic motor oils.

- Premium cartridge oil filters for motorcycles, ATV's and other powersports applications.
- High flow rates with outstanding oil filtration.
- Ideal for use with high-end synthetic motor oils.
- Traps 99% of harmful contaminants

Hi Flo Filtro Replacement Oil Filters

Hi Flo Premium Oil Filters - Hi Flo Filtro are the only TÜV certified oil filters, ensuring the highest levels of quality, performance, and vehicle warranty compatibility.

- Meet or exceed original equipment performance levels.
- Test results prove 28% longer service life than O.E. brands..
- Chrome versions available for some applications.

Note: Replacement O-Rings are not included.

Emgo Oil Filters

Emgo's microglass oil filters stop almost 100% of harmful particles inside your engine! Regular filter media traps particles over 20 microns in size. Emgo's synthetic microglass media traps particles over 10 microns in size while offering superior filtration and oil flow. Emgo's dyno testing has shown a horsepower increase. Available to fit a wide variety of applications.

Vesrah Oil Filters

Designed and manufactured from the finest filter paper.

- Filter material is a composite of paper pulp, other fibers and sins which are processed to produce extra thickness and density to provide a high filtration yield.
- Filter material is fluted to it's maximum or to the required OEM numbers. The more fluting in the filter, the higher the filtration efficiency.
- Designed to trap even the smallest particles, each filter comes complete with a sealing ring where necessary.

Fram Oil Filters

Featuring filtration ratings of 10 microns so these filters really filter out the crud that can damage your motor. Fram filters help extend the life of a bike's high temperature, high RPM.

- Filter material is fluted to it's maximum or to the required OEM numbers. The more fluting in the filter, the higher the filtration efficiency.
- Designed to trap even the smallest particles, each filter comes complete with a sealing ring where necessary.
