

## Specification Guide

# US Air Conditioning Distributors

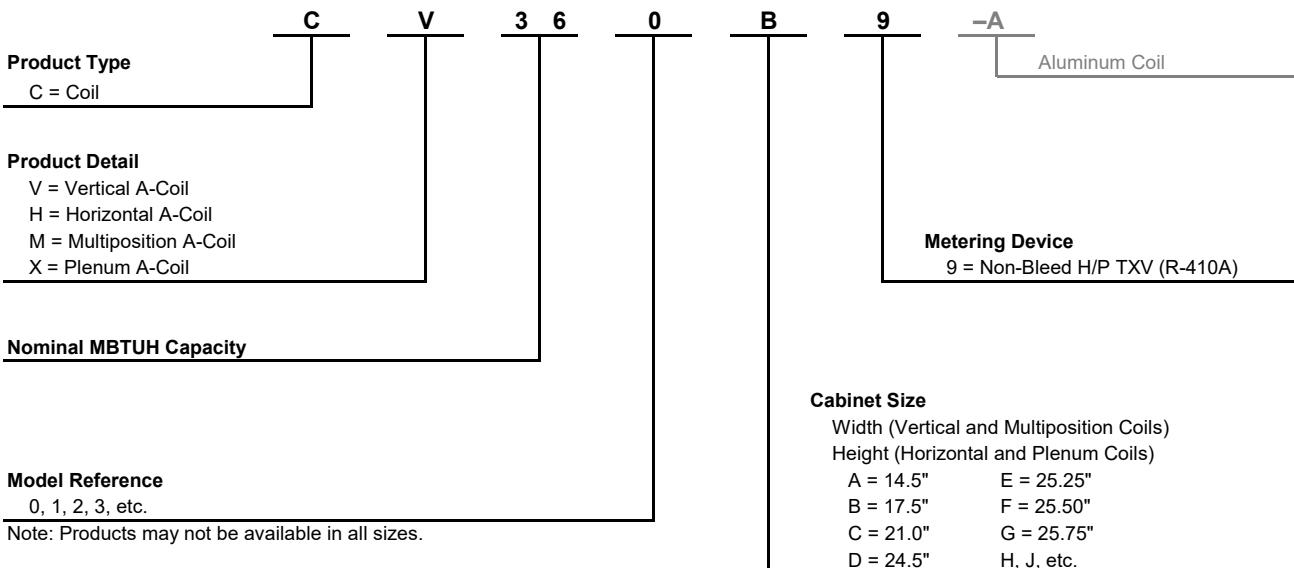

## Evaporator Coils

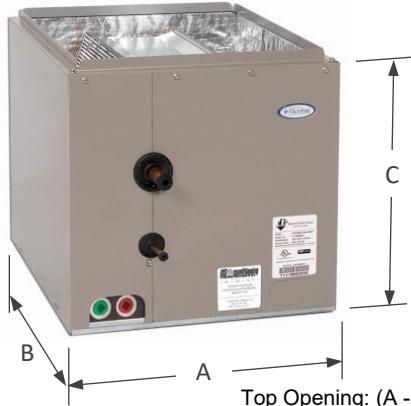

### General Features

- Microban® antimicrobial additive to inhibit the growth of mold and mildew in the drain pan.
- HydroTEC™ low water retention drain pan for improved drainage.
- UV resistant drain pans are molded of high temperature (450 deg. F) engineered polymer.
- All coils contain a factory installed screw-on expansion valve.
- Non-captive panels allow access to inside of cabinet without the need to cut refrigerant lines.
- 5-year Limited Warranty standard, 10-year Limited Warranty available.
- All coils have durable packaging with bar coded labels on the box.
- Coils have heavy gauge cabinets fully lined with 5/8" foil faced insulation.
- Coils are air pressure tested at 500 PSI, leak tested with Helium, sealed with rubber plugs and then charged with dry air.
- Refrigerant connections are 3/8" ODF liquid and 7/8" ODF suction (CV & CM A-Coils 18-36 MBTUH are 3/4" ODF suction).

### Nomenclature

# Upflow/Downflow\* A-Coil Specifications

## Features

- Corrosion resistant coil header plates.
- Cabinet insulation hold down tabs for easy drain pan removal.
- All cabinets are painted to match the current York furnace color.
- Interlocking doors reduce air leakage and allow for easy access.
- Dual 3/4" FPT condensate drains on front-left and front-right side of drain pans.
- Expansion valve mounted inside cabinet to prevent external sweating; bulb is clamped and wrapped for improved temperature sensing.
- Intertek lab tested 1% or less cabinet air leakage for better efficiency.

\* See Downflow Chart p3.

[1] Height excludes 3/4" top flange.

[2] Air pressure drop data is under wet coil conditions.

## USACD Downflow Chart

- The below chart lists downflow capable coils with approved air flow settings.
- Some applications require a field installed kit.
- Downflow applications not listed on this chart are not recommended.

Y = Downflow capable.

Kit = Downflow capable with field installed kit Part #76701323.

Dash (--) Downflow not approved at this air flow.

# Horizontal A-Coil Specifications

Supply Opening: (A - 1.5") x (B - 1.5")  
Return Opening: (A - 1.0") x (B - 1.0")

## Features

- Top refrigerant connections for installation flexibility.
- Top panel with only four screws for fast and easy coil access.
- HydroTEC™ "V" drain pan for low water retention.
- UV light knockouts to easily locate and install UV lights for enhanced IAQ.
- All cabinets are painted to match the current York furnace color.
- Refrigerant connections in center of coil away from airflow path.
- Dedicated cutouts for each condensate drain reduce air leakage.
- Dual 3/4" FPT condensate drains on both sides of cabinet accommodates left or right airflow furnaces.
- Intertek lab tested 1% or less cabinet air leakage for better efficiency.

\* Represents choice of metering device.

[1] Length excludes 3/4" plenum flange.

[2] Air pressure drop data is under dry coil conditions. For wet coil conversion at standard AHRI conditions, use 1.3 multiplier.

# Plenum Coil Specifications

## Features

- Top refrigerant connections for installation flexibility.
- Light weight aluminum coil with aluminum header plates.
- Patent pending HydroTEC™ "V" drain pan for improved drainage.
- One-piece cabinet construction for improved strength and rigidity.
- Top panel with only 4 screws for fast and easy coil access.
- UV light knockouts to easily locate and install UV lights.
- "Easy-lift" handle allows easy lifting through tight spaces.
- Secondary drain pan included standard on all models.
- Secondary drain pan locator embossments for easy installation.
- Furnace mounting bracket included for single person furnace mounting.
