A smartphone and scanner in one

A singularly versatile device that caters to your every need

- Enhanced productivity**
Scan, record, and work, while still using your smartphone for everything you do.
- Ready on day one**
Start scanning into your business app right away, with features to inject scanned data into any apps or fields - no additional development needed.
- Enterprise-grade scanning**
Faster camera boot-up and accurate auto-focus, enabled with tight Samsung hardware integration.

Quick and easy to scan

Scanning, capture and form-fill should never slow you down

- Easy scanning**
Hardware key can be remapped to trigger scanning, or use the keyboard wedge to fill in any field with a scan, without typing.
- Scanning options**
Supports single, selective, or all-at-once batch scanning for a wide range of barcode types.
- Intuitive UX**
Shallow learning curve gets your teams out in the field faster.

Deploy and configure effortlessly

Seamlessly integrates with your existing apps and systems

- Simplified integration**
Integrate to your business apps and workflows without requiring software development or system integration.
- Tailored for each app**
Optimize productivity for each business app - E.g. multiple-scan as default for app A, single-scan for app B.
- Bulk installation**
Remotely install the Knox Capture application to a large number of devices using your own EMM, with configured settings pre-applied.

Configured for frontline
Configure features at the platform level for better scanning experience - E.g. allow/disable key remapping, block/enable Wi-Fi, auto-shutdown based on idle time.
