People power: PostalPEOPLE is sharing its services nationwide

The Postal Service has reached a milestone in its efforts to streamline Human Resources (HR) operations — all performance clusters (PCs) are now supported by *PostalPEOPLE* shared services.

With the integration of all 80 PCs and the Inspection Service into the system, 700,000 career employees can tap into the expertise offered by the Human Resources Shared Service Center in Greensboro, NC, to handle benefits, retirement, separation and management hiring.

Headquarters and the remaining postal facilities will be added to this initial phase in the *PostalPEOPLE* rollout in coming months.

"Just like we've made it quick, easy and convenient for customers to use our products and services online, employees can handle their HR transactions online as well," says Chief Human Resources Officer Tony Vegliante.

With millions of personnel transactions conducted each year, *PostalPEOPLE* is helping to increase efficiency and reduce costs.

September's mission — Avoid infectious diseases

Viruses, bacteria and parasites now have an implacable foe — you.

That's because September is National Preparedness Month. The federal Centers for Disease Control and Prevention (CDC) is running its "An Ounce of Prevention Keeps the Germs Away" campaign. The message is simple: The battleground for the war against infectious diseases is your home.

The CDC reports that the spread of germs at home and in the workplace has a significant impact:

- More than 160,000 people in the United States die yearly from an infectious disease.
- About 10 million adults in the United States could not work during 2002 due to health problems.

PMG delivers first and 1 billionth Highlights to National Postal Museum

For more than six decades, the Postal Service has worked with Highlights for Children, Inc., to help children become their best selves. This achievement was celebrated recently as both organizations presented the National Postal Museum with one of the very first copies of the

PMG Jack Potter (left) with Highlights for Children, Inc., Chief Executive Officer Kent Johnson at the celebration of the 1 billionth delivered copy of *Highlights for Children* magazine.

magazine — printed in June 1946 — and a copy from the 1 billionth print run this summer.

The two magazines will be preserved at the museum, where they will complement the existing anthology of significant postal history, publications and philatelic collections.

With more than 2 million subscribers, *Highlights for Children* provides a monthly collection of letters, drawings, questions and poems submitted by its readers. Each issue delivered by a letter carrier helps encourage a child to develop a lifelong love of reading and learning.

"Reaching this milestone has been a true partnership between Highlights for Children, Inc., and the U.S. Postal Service," said Kent Johnson, Highlights for Children chief executive officer.

After Katrina, USPS employees deliver the promise of a brighter day

Rural Carrier Associate Elise Gipson, outside the Buras, LA, Post Office that was destroyed one year ago by Hurricane Katrina.

It was one year ago last month that Hurricane Katrina made landfall in Plaquemines Parish, pummeling the community with 125 mile-per-hour winds and signaling the start of the most destructive hurricane ever to hit the Gulf Coast.

Buras, LA, Rural Carrier Associate Elise Gipson delivers the mail to Plaquemines Parish. Like the bright strobe light on the roof of her jeep, Gipson is a beacon of hope to her community. "We started delivering in May, and once they saw the blinking light, they started replacing their mailboxes from one end of the parish to the other like crazy," she says. "They knew it meant things were going to get better. One man was so excited he put up flowers at the mailbox."

As a lifetime resident of the small community, Gipson had plenty of experience with storms and she evacuated in time. Since returning, Gipson — like her neighbors and co-workers — copes each day with the challenge of trying to return to a normal life after experiencing firsthand such wide-spread devastation. Wind, tidal surge and mud caused the roof and walls of Gipson's home to partially collapse.

"We're glad she's delivering mail for us," says customer Nicole Bourgeos. "We look forward to her little white jeep coming down the road."

Carrier Pickup is off the charts

Carrier Pickup recently made its 40 millionth pickup at LensWorld.com's main office in Hoboken, NJ.

LensWorld.com has been in business for five years now. It fulfills contact lens prescriptions through its Web site and ships them using the Postal Service's domestic and international expedited services. And each day, for five years, LensWorld.com owner Kevin Walsh was going into the local Post Office with satchels full of outgoing packages.

Customer Service Supervisor Dennis Haggerty was the first to speak to Walsh about Carrier Pickup. "I told him that we could pick up his packages at no extra charge and his eyes bugged out," said Dennis. "I walked him through the Web site and he started requesting pickups the next day."

Walsh is seeing clearly how Carrier Pickup saves both time and money. "Now, I just give my packages to my carrier and he takes care of the rest."

Richard Potter dies at 79: PMG's father was career USPS employee

Richard "Dick" Potter, a 40-year postal veteran and father of Postmaster General John E. Potter, died recently at 79. Dick began his Postal Service career as a letter carrier and worked in several stations in Manhattan, retiring in 1985 as Director of Station Operations for the New York Post Office, with responsibility for some of the most complicated delivery zones in the nation. Other survivors include his wife Maureen; sons Richard, Christopher, Brian, and Brendan; daughter Mary Anne Gassert; and 14 grandchildren. He is also survived by his sister, Anna Nestor, and his brother, James.

In lieu of flowers, donations in the name of Richard Potter may be sent to the Parkinson's Disease Foundation for Research, 710 W. 168 St., New York, NY 10032-3726.

National Hispanic Heritage Month, September 15 — October 15

Hispanic Americans: Our Rich Culture Contributing to America's Future is the theme of this year's National Hispanic Heritage Month celebration. The annual event highlights past and present contributions by U.S. Hispanics, who trace their roots to Spain, Mexico, and the Spanish-speaking nations of Central America, South America, and the Caribbean.

Since the discovery of America, Hispanics have had a significant role in the development of our great nation; their culture, heritage, and perspective have influenced our way of life. As we acknowledge these contributions, let us renew our understanding of ethnic diversity and the role it has in today's world.

Hispanics in America — 42.7 Million and Growing!

The Postal Service™ is committed to maintaining a tight focus on core products to ensure that universal, affordable postal services continue to have the power to communicate, reach key audiences, and help bind America together. The Postal Service takes great pride in serving one of the most diverse markets in the world. As a universal service provider, the organization serves the needs of all communities, across an array of cultures and customer back-grounds. Everyone has access to our product and services — no matter who they are or where they live.

One of our major focus areas is reaching the nation's Hispanic market segment. According to the most recent U.S. Census Bureau report, the estimated Hispanic population of the United States (excluding the 3.9 million residents of Puerto Rico) as of July 1, 2005, was 42.7 million, constituting 14 percent of the nation's total population. It is projected that by the year 2050, the Hispanic population in the United States will represent 24 percent of the nation's total population. On another front, the number of Hispanic-owned businesses grew 31 percent between 1997 and 2002 — three times the national average for all businesses — according to a report released on March 21, 2006, by the U.S. Census Bureau. The nearly 1.6 million Hispanic-owned businesses generated approximately $222 billion in revenue, up 19 percent from 1997. Reaching this valuable market segment with products and services continues to be an ongoing challenge to corporate America.

In light of this challenge, the Postal Service continues to identify emerging market strategies that will build awareness within the Hispanic community of our products and services, and continues to make our products accessible to

consumers when, where, and how they prefer. In many instances, the "how" can be in how we communicate. And in many cases, that message may have to be in another language.

In-Language Communication Makes Good Business Sense

Rapid growth in the multicultural consumer market has made it even more apparent that businesses need to look at developing in-language communication tools that can effectively target America's culturally diverse customer base.

To meet this need, the Postal Service has developed and made available a menu of in-language communication tools that are designed to inform customers about the services we provide, and assist them in doing business with us. The Multicultural Outreach page on the Postal Blue intranet *(http://blue.usps.gov/diversitynet/multicultural/welcome.htm)* contains news and information about the multicultural mar-

ket. One of its most helpful offerings is its menu of in-language translation tools.

The Multicultural Outreach page also offers translation aides for Special Services and product fact sheets for selected Postal Service–products in a variety of languages, including Spanish, Chinese, Vietnamese, French, and Russian. In-language tools provide our non–English speaking customers with a brief description of the products and services offered by the Postal Service, along with step-by-step instructions on how to use Special Service forms.

These translation aides and fact sheets are easy to use and can be printed locally by postmasters and station managers.

Join us as we celebrate National Hispanic Heritage Month.

DMM REVISION

Change to the Nominal Rate for Periodicals Mail

Effective September 13, 2006, the definition of "nominal rate" for Periodicals eligibility is 30 percent of the basic annual subscription rate.

To qualify for certain Periodicals rates, publications must show that at least half of their circulation is sent to persons who have paid above a nominal rate for a subscription. The "nominal rate" is a token subscription price that is so low that it cannot be considered a material consideration, or a payment amount that is the result of a reduction of more than 50 percent of the basic annual subscription rate, either under a premium offer or another arrangement. We are changing the definition of nominal rate from more than 50 percent to more than 70 percent of the basic annual subscription rate.

Changing this definition required a filing with the Postal Rate Commission. We filed the case on July 6, and the Commission issued a Recommended Decision on August 30 approving the change. The U.S. Postal Service Board of Governors authorized the change and set September 13 as the implementation date.

Nominal rate subscriptions include those sold at a subscription price so low that the rate cannot be considered a material consideration; or at a reduction to the subscriber (under a premium offer or any other arrangement) of more than 70% of the basic annual subscription rate that would entitle the subscriber to receive one copy of each issue published during the subscription period. The value of a premium is

considered its actual cost to the publisher, its recognized retail value, or its represented value, whichever is highest.

FIELD INFORMATION KIT

Standardized Procedures for "Notice Left" Mail

To provide better customer service and operational efficiency, the Postal Service™ has standardized the "Notice Left" operations for PS Form 3849, *Delivery Notice/Reminder/ Receipt,* which applies to all ordinary parcels, accountable mail, and other Extra Services mailpieces. This standardization establishes a uniform process nationwide for when Postal Service employees must prepare and use PS Form 3849 for unsuccessful delivery attempts.

PS Form 3849, commonly referred to as a "Notice Left," is used when a mailpiece cannot be delivered when attempted by a Postal Service employee because no one is available to accept delivery. Adopting a standardized process nationwide affords mailers the ability to accurately inform their customers of when the Postal Service will make second notice attempts or will return an article to the sender.

The standardized procedures also are detailed in a new Work Instruction document (provided separately to field offices) and in *Postal Operations Manual* (POM) sections 617.3, 619.25, and 812.42 (see pages 13–15 of this issue).

This information kit is designed to inform Postal Service employees about the new procedures for preparing and using PS Form 3849 for Notice Left mail. The kit contains the following materials:

- Standup Talk for Retail Employees — Notice Left.
- Standup Talk for Delivery Employees — Notice Left and Return Guidelines.
- Standup Talk for Back Office Employees — Notice Left.
- Workroom poster entitled "Notice Left and Return Guidelines."

Standup Talk for Retail Employees — Notice Left

[Please read this stand-up talk to all retail employees (or designated employees) and then post copies on employee bulletin boards.]

The Postal Service has standardized Notice Left operations for PS Form 3849, *Delivery Notice/Reminder/Receipt,* which affects all ordinary parcels, accountable mail, and other Extra Services mailpieces. The Postal Service uses PS Form 3849 when a delivery cannot be made because no one is available to accept the item. This nationwide standardization of the Notice Left process provides better customer service and operational efficiency for the Postal Service.

What do you need to do?

- Review the dates on articles daily to determine when a second attempt or notice is required, or if the article needs to be returned to sender.

- Watch for redelivery requests that may be received through My Post Office, by customer request, or by telephone. Retrieve the items and process as requested.
- Ensure that items are stored in the designated Notice Left area.
- When a customer arrives to pick up an item:
  1. Ask for and review the PS Form 3849 and, if applicable, appropriate identification from the customer. If the customer does not have the PS Form 3849, ask for and review appropriate identification from the customer and then fill out another PS Form 3849 for the item.
  2. Obtain the customer's signature, if applicable.
  3. Scan the delivered item, if applicable.
  4. Store PS Form 3849 in the designated area.

What to avoid?

- *Items not labeled with an employee's initials and date of attempted delivery.* Ensure that all items are labeled correctly before they are stored for pickup.
- *Items held longer than the type of service allows and guidelines require.* Review articles daily to ensure that required second attempts are made and notices are issued or that items are returned as required.

Defining the processes to be followed after the initial attempt to deliver an article is just another way we are transforming our products and services to better meet the needs of our customers.

Please refer to the Work Instruction (provided separately to field offices) or your POM for specific retail acceptance details and general information about the Notice Left operation.

Standup Talk for Delivery Employees — Notice Left and Return Guidelines

[Please read this stand-up talk to all delivery employees and then post copies on employee bulletin boards.]

The Postal Service has standardized Notice Left operations for PS Form 3849, *Delivery Notice/Reminder/Receipt,* and has provided return guidelines that affect all ordinary parcels, accountable mail, and other Extra Services mailpieces. The Postal Service uses PS Form 3849 when a delivery cannot be made because no one is available to accept the item. It is very important that PS Form 3849 be filled out completely and accurately. This nationwide standardization of the Notice Left process provides better customer service and operational efficiency for the Postal Service.

What do you need to do?

- When the customer is not available to receive an item at the first attempted delivery, fill out and leave PS Form 3849 to notify the customer of the attempted delivery. Someone normally available to receive parcel: If an ordinary parcel or unnumbered insured parcel cannot be delivered on the first attempt, make a second delivery attempt the next working day. If the item is not delivered after the second attempt, leave a PS Form 3849 at the address showing that the parcel is being held awaiting call.

- Ensure that each item attempted is endorsed near the address with the date and the delivery employee's initials.

- Perform any required scans, if applicable.

- Return any attempted articles to the designated employee or designated storage area.

Note: Insure articles are filed as outlined in POM 619.251.

What to avoid?

- *Poorly marked packages.* It is important that the attempted date be noted clearly near the address of the article to ensure that a follow-up attempt can be made in a timely manner.

- *Incomplete PS Form 3849.* When filling out PS Form 3849, it is important to fill in all required blanks and date the form.

Remember:

- Back office personnel must review each attempted article to ensure that second attempts or notices are made and that items are returned when required. This can be done only when the attempted notices are filled out correctly.

- When unable to complete delivery, place PS Form 3849 in the customer's mail receptacle.

Please refer to the Work Instruction (provided separately to field offices) or your POM for specific details and general information about the Notice Left operation.

Standup Talk for Back Office Employees — Notice Left

[Please read this stand-up talk to all back office employees (or designated employees) and then post copies on employee bulletin boards.]

The Postal Service has standardized Notice Left operations for PS Form 3849, *Delivery Notice/Reminder/Receipt,* which affects all ordinary parcels, accountable mail, and other Extra Services mailpieces. The Postal Service uses PS Form 3849 when a delivery cannot be made because no one is available to accept the item. This nationwide standardization of the Notice Left process provides better customer service and operational efficiency for the Postal Service.

What do you need to do?

- Review dates on articles daily to determine if a second attempt or notice is required, or if the article needs to be returned to sender.

- Watch for redelivery requests that may be received through My Post Office, by customer request, or by telephone. Retrieve the items and process as requested.

- Ensure that items are stored in the designated Notice Left area.

- When a customer arrives to pick up an item:

  1. Ask for and review the PS Form 3849 and, if applicable, appropriate identification from the customer. If the customer does not have the PS Form 3849, ask for and review appropriate identification from the customer and then fill out another PS Form 3849 for the item.

  2. Obtain the customer's signature, if applicable.

  3. Scan the delivered item, if applicable.

  4. Store PS Form 3849 in the designated area.

What to avoid?

- *Items not labeled with an employee's initials and date of attempted delivery.* Please ensure that all items are labeled correctly before they are stored for pickup.

- *Items held longer than the type of service allows and guidelines require.* Review articles daily to ensure that required second attempts and notices are issued or that items are returned as required.

- *Items not filed correctly.* Check items to ensure that they are stored in the proper area for efficient handling as outlined in POM 619.251.

Please refer to the Work Instruction (provided separately to field offices) or your POM for specific retail acceptance details and general information about the Notice Left operation.

Campaigning on Postal Service Premises

Postal Service regulations (see *Postal Operations Manual* 124.54; 39 CFR 232.1; and Poster 7, *Rules and Regulations Governing Conduct on Postal Property)* prohibit campaigning for election to public office on leased or owned Postal Service property. Tell individuals who ask about the availability of Postal Service property for such purposes about the prohibition, and give them a copy of the

regulations. The following points will help you interpret and apply the regulations:

- The focus of the regulations is to identify activities that are "prohibited." Activities that are not prohibited by any of the regulations are permitted. For example, in the context of political campaigning, informational leafleting would be permitted, so long as the information in the leaflet itself is not political campaigning and the leafleting was carried out in a way that does not disrupt Postal Service business.

- Campaigning for election to public office is prohibited on Postal Service property, even if the candidate is independent of any political party.

- The regulations do not prohibit all activities related to political issues. For example, distributing literature pertaining to a referendum or ballot measure is permitted. The regulations do prohibit, however, the solicitation of signatures on petitions, polls, and surveys.

- The regulations prohibit depositing posters or literature on Postal Service property, obstructing entrances, any activity that tends to impede or disturb the public in transacting Postal Service business, the sale of goods, and the solicitation of contributions on Postal Service property.

- The regulations cover activity only on Postal Service premises. Activity outside Postal Service property, even if it affects our premises, is not governed by our regulations.

Location ID (10-digit Unit Finance #) of Receiving Unit	■ SDO or SSC unit finance number, if stock is received from SDO or SSC. ■ Location's unit finance number, if stock is received from another location.

Postal Retail Unit Receives Stamp Stock From the SDO, SSC, or Another Location

If the APC, eMOVES, IRT, POS ONE, or SPORT office receives stamp stock from the SDO, SSC, or another location, then the office must pick up the stock and ensure the amount is reflected into AIC 841, Stamp Stock Received, on the unit PS Form 1412, *Daily Financial Report.*

APC, eMOVES, IRT, or POS ONE offices must also:

1. Enter the 10-digit numeric shipment number that is shown on the system-generated PS Form 17 received from the SDO or SSC or the manual PS Form 17 received from another location.

2. When stock is received from the SDO or SSC, enter the 10-digit unit finance number of the SDO or SSC.

   ■ APC, eMOVES, and POS ONE offices must select "Receive from SDO/SSC." The system will display the unit's primary SDO/SSC unit finance number.

   ■ IRT offices must select "Receive from SDO/SSC," then enter their primary SDO/SSC unit finance number. Thereafter, the system will display the unit's primary SDO/SSC unit finance number.

3. When stock is received from another location, enter the 10-digit unit finance number of the other location.

   ■ APC, eMOVES, IRT, and POS ONE offices must select "Receive from Post Office," and enter the 10-digit unit finance number of the other location.

Note: To verify your primary SDO or SSC unit finance number, look at the PS Form 17 you received from your SDO or SSC. You will find their 6-digit unit finance number on the form. Add "0000" to this number.

Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service™ employees responsible for accepting and cashing postal money orders. Do Not Cash — Upon Receipt, Notify Local Postal Inspectors

This listing will be provided to all Postal Service™ employees responsible for accepting and cashing postal money orders. Destroy any interim notices when the numbers listed appear in the *Postal Bulletin*. The new money order serial numbers consist of the first 9 digits. The 10th digit is a check digit only.

Do not cash new style money orders **000 000 001 to 692 600 000**. Advise holders to send invalid money orders to: Canada Post Corporation, Ottawa, Canada K1A 0B1. Check for altered dollar amounts by holding money orders to the light.

Verifying U.S. Postal Service Money Orders

Follow these steps to cash a Postal Service™ money order:

1. Check that the amount does not exceed the legal limit: $1,000 for domestic, and $700 for international postal money orders.

2. Check that the proper security features are present:

   - When held to the light, a watermark of Benjamin Franklin is repeated from top to bottom on the left side.

   - When held to the light, a dark line (security thread) runs from top to bottom with the word "USPS" repeated.

   - There should be no discoloration around the dollar amounts, which might indicate the amounts were changes.

   These appear in Postal Service Notice 299, *U.S. Postal Money Order Reference Card,* or online at *http://www.usps.com/missingmoneyorders/security.htm.*

3. If the money order seems suspicious, call the U.S. Postal Service Money Order Verification System at 866-459-7822.

Please provide this information to local banks and retailers, as they also receive Postal Service money orders for cashing.

Overseas Military Mail

Mail addressed to military post offices overseas is subject to certain conditions or restrictions of mailing regarding content, preparation, and handling. The APO/FPO table below outlines these conditions by APO/FPO ZIP Codes™ through the use of footnoted mailing restrictions codes (see the Restrictions page following the table).

Acceptance clerks should use the table with the integrated retail terminal (IRT) or POS ONE terminal to determine which APO/FPO ZIP Codes are active and which conditions of mailing apply. **Acceptance clerks may contact the Military Postal Service Agency with any questions regarding APO/FPO ZIP Codes, toll free, at 800-810-6098, Monday–Friday, 0730–1630 ET.**

For Express Mail Military Service (EMMS) availability, all acceptance clerks must refer to the local hardcopy EMMS directory.

The entries under "Changes" appear in bold in the APO/FPO Table starting below.

HAZMAT

Hazardous Materials Items

The Postal Service™ has developed three new job aids and revised two existing HAZMAT posters to help employees to comply with Postal Service requirements for mail handling and processing of hazardous materials. The new materials are the following:

- Label DECDDD-4, *Prohibited Item Return Label.*
- Label DECDDD-5, *International Nonmailable Item Label.*
- Notice 128, *The Safety of the Mail Is Everyone's Responsibility.*

The revised posters are the following:

- Poster 138, *Keep the Mail Safe.*
- Poster 298, *Department of Transportation Hazardous Materials Warning Labels.*

Label DECDDD-4, Prohibited Item Return Label

The Postal Service prohibits the mailing of alcoholic beverages per the *Mailing Standards of the United States Postal Service,* Domestic Mail Manual (DMM®) 601.11.7. Postal Service employees must assume that all markings and labels on a mailpiece indicate the mailpiece's actual contents. Under new Postal Service procedures, alcoholic beverage boxes must be returned to the mailer. At this step, the revised Label DECDDD-4, *Prohibited Item Return Label,* is used.

If a Postal Service employee encounters an alcoholic beverage box at any point in the mailstream (originating and destinating), then he or she must follow this protocol:

1. Affix a Label DECDDD-4 over the address information.
2. Place Label 127, *Surface Transportation Only Label,* on the mailpiece.

3. Return the mailpiece to the sender via the most efficient surface transportation network.

   Note: Air transportation is prohibited.

You can order Label DECDDD-4 from the Material Distribution Center (MDC) and use touch tone order entry (TTOE): Call 800-332-0317, option 2.

Note: You must be registered to use TTOE. To register, call 800-332-0317, option 1, extension 2925, and follow the prompts to leave a message. (Wait 48 hours after registering before placing your first order.)

Label DECDDD-5, International Nonmailable Item Label

The mailing of hazardous materials to and from international and APO/FPO destinations is extremely limited. Many items permitted in domestic mail are prohibited in international and APO/FPO mail.

Label DECDDD-5 is designed for use on nonmailable international and APO/FPO mailpieces; the items are returned to the sender via surface transportation as long as the items meet the mailability standards for domestic mail. Label DECDDD-5 notifies customers of their errors and lets Postal Service employees know that the parcel is being returned to the sender.

Postal Service employees discovering a nonmailable international mailpiece at any point in the mailstream are required to perform the following:

1. Affix a Label DECDDD-5 over the address information.

2. Place Label 127, *Surface Transportation Only Label,* on the mailpiece.

3. Return the mailpiece to the sender via the most efficient surface transportation network.

Remember: Air transportation is prohibited.

Notice 128, The Safety of the Mail is Everyone's Responsibility

Notice 128*, The Safety of the Mail is Everyone's Responsibility,* is a recent addition to Postal Service HAZMAT reference material. Delivery and collection employees have been trained to recognize nonmailable and unacceptable packages and have been instructed not to accept them. However, many times, the mailer is not present when the carrier/collector arrives.

Notice 128 serves as a communication tool for delivery and collection employees to inform mailers about why their package was not accepted. Notice 128 is left with each mailpiece deemed nonmailable or unacceptable under Postal Service regulations. In addition, Notice 128 provides customers information about the Postal Service's requirements for the mailing of hazardous materials and provides reference and local contact information.

You can order Notice 128 from the MDC and use TTOE: Call 800-332-0317, option 2.

Revised Posters 138 and 298

Poster 138, *Keep the Mail Safe,* was developed to help retail associates quickly locate the proper Postal Service hazardous materials mailability references. The poster was recently updated to incorporate changes made to Postal Service hazardous materials acceptance guidelines and the newly designed DMM.

In addition, we simplified the examples of prohibited items on the poster to make it easier to determine whether a material presented for mailing is hazardous under Postal Service regulations, and we enhanced several columns of information on the poster to help acceptance personnel find information more quickly. The newest version of Poster 138 is dated January 2006.

International Mail

USPS Web Tools Can Make Your Global Business Click

The Postal Service™ now offers Application Program Interfaces (APIs) for Global Priority Mail® and Global Airmail® parcel post shipping labels through USPS Web Tools®. These new international online shipping APIs allow customers to print shipping labels that combine mailing information with PS Form 2976, *Customs Declaration CN 22 — Sender's Declaration* (green label), and PS Form 2976-A, *Customs Declaration and Dispatch Note — CP 72*, thereby eliminating the need for a separate customs form.

Business customers can install the APIs into their e-commerce Web sites or their own shipping operations to make it easy for them or their customers to print shipping labels without leaving their Web site or work station.

The APIs are easy to use and available at no charge. Business customers simply go to *www.usps.com/webtools* to register and review Postal Service technical guides that provide step-by-step instructions for integrating the USPS Web Tools.

If customers have any questions during installation of the APIs, the Postal Service provides technical support through its Internet Customer Care Center.

All the Web Tools You Need to Grow Your Global Business!

APIs support a variety of shipping options to meet the customers' international shipping needs. The Postal Service's new Web Tools for its popular Global Priority Mail and Global Airmail parcel post products allow businesses such efficiencies as eliminating manual writing of forms as well as the ability to interface with the internal and external systems of their employees, business partners, and customers.

Calculate Rates

The international rates API allows customers to calculate international rates for Global Express Guaranteed®, Global Priority Mail, Global Express Mail®, Global Airmail services (letter and parcel post), and Global Economy® services (letter-post and parcel post). Along with service standards for each class of service, the international rates API returns all the necessary Postal Service and country-specific mailing restrictions, prohibitions, observations, and customs declaration forms.

Print Shipping Labels

The shipping label API allows customers to generate Postal Service shipping labels complete with sender and recipient addresses, barcodes, customs declarations, and mailing receipts for Global Express Mail, Global Airmail parcel post, and Global Priority Mail. Customers do not need separate customs forms when using these shipping labels.

Generate Customs Forms

If the customer just needs to generate customs forms, the customs forms API allows them to generate the customs forms complete with addresses, barcodes, and customs declarations for PS Form 2976 and PS Form 2976-A.

Use Track & Confirm

The Track & Confirm API allows customers to check the status on their international shipments. Customers just need to enter the article numbers to get the status on shipments, and they can check up to five articles per transaction.

Pictorial Postmarks Announcement

As a community service, the Postal Service™ offers pictorial postmarks to commemorate local events celebrated in communities throughout the nation. A list of events for which pictorial postmarks are authorized appears below. If available, the sponsor of the pictorial postmark appears in italics under the date. Also provided, as space permits, are illustrations of those postmarks that were reproducible and available at press time.

People attending these local events may obtain the postmark in person at the temporary Post Office™ station established there. Those who cannot attend the event, but who wish to obtain the postmark, may submit a mail order request. Pictorial postmarks are available only for the dates indicated, and *requests must be postmarked no later than 30 days following the requested pictorial postmark date*.

All requests must include a stamped envelope or postcard bearing at least the minimum First-Class Mail® postage. Items submitted for postmark may not include

postage issued after the date of the requested postmark. Such items will be returned unserviced.

Customers wishing to obtain a postmark should affix stamps to any envelope or postcard of their choice, address the envelope or postcard to themselves or others, insert a card of postcard thickness in envelopes for sturdiness, and tuck in the flap. Place the envelope or postcard in a larger envelope and address it to: PICTORIAL POSTMARKS, followed by the NAME OF THE STATION, ADDRESS, CITY, STATE, ZIP+4® CODE, exactly as listed below (using all capitals and no punctuation, except the hyphen in the ZIP+4 code).

Customers can also send stamped envelopes and postcards without addresses for postmark, as long as they supply a larger envelope with adequate postage and their return address. After applying the pictorial postmark, the Postal Service returns the items (with or without addresses) under addressed protective cover.

The following postmark has been extended for 30 days.

New System Requires Postmasters and Station and Branch Managers to Save Current Business Connect Information

On October 1, 2006, we will implement a new system for the Business Connect™ Data Center.

How will this impact you?

The new system will *not* include existing customer information and Business Connect activities. After September 29, 2006, information not retained as described below will no longer be available.

What should you do?

By 11:59 P.M. CDT September 29, 2006, **postmasters and station and branch managers must print and retain customer information and the list of past Business Connect activities for their records.** Directions on printing this information from the Business Connect Data Center are noted in this article.

Remember, after September 29, 2006, all current customer data and Business Connect activities will no longer be available, so now is the time to retain this information for your records. If you have any questions, please e-mail *BusinessConnect@usps.gov.*

To print customer information:

1. Log into the Business Connect Data Center; under "Activities" (on the left side of the page), click on *View/Edit My Activities.*

2. Click on the magnifying glass next to an activity you wish to view — this will take you to the "Update Customer Information or Enter Revenue" screen.

3. Click on the magnifying glass in the middle of the screen to bring up the "Company Information" page.

4. Right-click the mouse, and then click on *Print.*

5. Go back to the "Update Customer Information or Enter Revenue" screen; click on the blue circle in the middle of the screen to go to the "Add/Edit/View Revenue" page.

6. Right-click the mouse, and then click on *Print.*

7. Keep these printouts for your records.

To print a list of your Business Connect activities:

1. After printing the customer information as described above, stay in the Business Connect Data Center; under "Activities" (on the left side of the page), click on *View/Edit My Activities.*

2. Click on the *Print Activities* button below the list of activities; scroll down to the bottom of the screen and click on *Print.*

3. Keep this printout for your records.

REMINDER

Stamps by Mail — Brochure Ordering Information

The next deadline date for ordering Stamps at Your Door™ (Stamps by Mail®, Stamps Delivered to Your Door) brochures is **October 2, 2006.** This print run will be for the holiday brochure design.

To order brochures, submit PS Form 3227-O, *Stamps At Your Door Supply Order* (August 2005), to Cyril-Scott Company:

CYRIL SCOTT COMPANY
PO BOX 627
LANCASTER OH 43130-0627

Telephone: 800-466-0455
Fax: 740-689-0210

You can find this form at *http://blue.usps.gov;* click on *Forms,* then select the form by number. A copy of this form appears on page 42 in this *Postal Bulletin.*

The cost per unit of 500 is $11.00. This cost includes overprinting the address of the fulfillment office placing the order. You may pay for orders with local IMPAC credit cards, checks, or money orders. However, Cyril-Scott Company cannot process the order until it receives payment. Local eBuy procedures may also apply (refer to local procurement procedures).

Postal Service™ Headquarters has funded a national procurement for this print run for 4 million brochures for the Stamps By Mail centralized computer processing sites. The distribution amount for each site is available by referencing column J (4MM) of the centralized site address spreadsheet. These quantities are based on revenue generated by site. No local order placement is required to receive brochures from this distribution. However, centralized sites may order **additional** quantities from the Cyril-Scott Company from local funds by following the ordering instructions contained within this article. If you order additional quantities from local funds, please inform Cyril Scott when ordering that the order is a centralized site supplemental order.

All other local Post Offices™ should follow the ordering instructions contained within this article and utilize local funds.

Cyril-Scott Company will deliver orders within 35 calendar days after printing. Printing begins 1 week after the deadline date, and actual receipt of the order will depend on the ultimate destination and the corresponding delivery service standard. You should save copies of all orders placed at your local Post Office until the order has been received. Please ensure procedures are in effect locally for proper verification of receipt.

We will publish the print run schedule for Fiscal Year 2007 in a subsequent *Postal Bulletin.*

Only 45 Days Left on the **FREE** Photo Book Offer

The *Shutterfly℠/Passport Promotion*, which runs September 1 – October 31, 2006, is driving revenue at more than 5,300 passport acceptance locations. Customers who apply for a new passport receive a coupon for a **FREE** Shutterfly 20-page, personalized photo book — a $29.99 value at *www.shutterfly.com*. Note: Customers do pay shipping charges for the photo book, starting at $6.99, which are applied at the time of the order.

When customers pay their passport application fee, they will also receive a luggage tag with the coupon, from the passport acceptance agent. Only a customer who **applies** and **pays** for a new passport through a participating passport acceptance Post Office™ can receive one luggage tag and coupon per application.
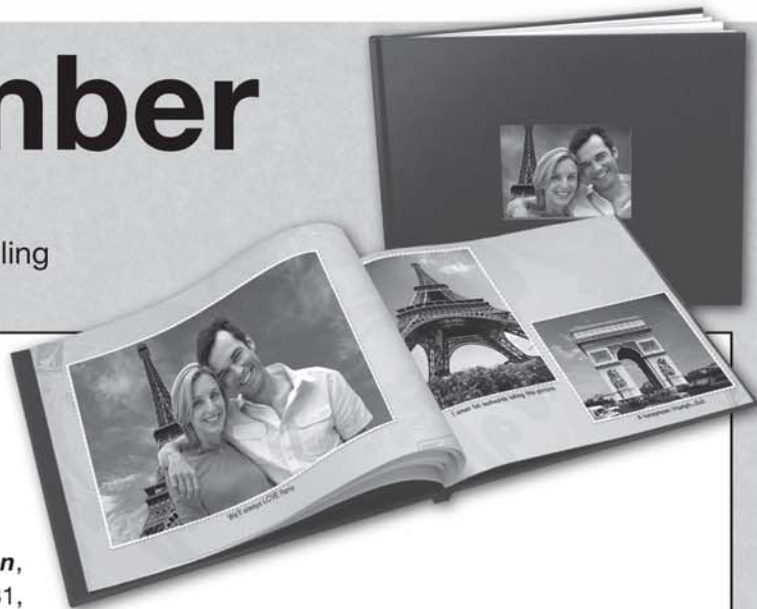

Postal employees and their families are eligible for the promotion too! Make sure to tell all customers asking about passport services of this picture perfect promotion.

Passport to Growing Revenue

Due to an increase in passport application volume, the Department of State has modified the estimated time frame to process a passport application. Processing times vary according to the Passport Agency's workload. With passport applications on the rise, it's a good idea to review both expedited and routine passport services:

EXPEDITED SERVICE: For customers who need passports in less than 6 weeks, the Department of State will process a passport within 2 weeks of application. Express Mail® service to and from the Department of State must be used in order to receive the passport within 2 weeks.

ROUTINE SERVICE: Passport processing takes 6 to 8 weeks. Customers who need their passport in less than 6 weeks should be encouraged to expedite their application.

NOTICE

USPS Awards Two New National Contracts for Corrugated Fiberboard Pallet Boxes

On August 30, 2006, the Mail Transport Equipment (MTE) Category Team awarded 3-year contracts to International Paper and Rand Whitney to supply corrugated fiberboard pallet boxes to all Postal Service™ mail processing facilities. The International Paper contract is effective October 1, 2006, and the Rand Whitney contract is effective September 1, 2006. Based on estimated annual usage, the projected value of these contracts is $33,370,000 per year.
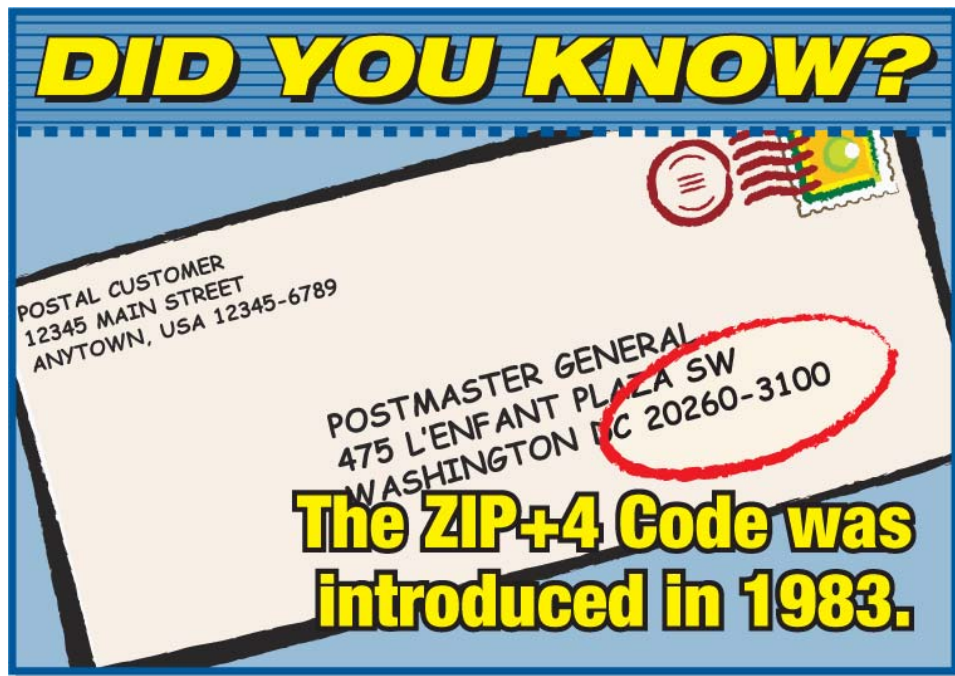

Use the eBuy online catalog requisition to place orders. Orders placed via the catalog will be routed to either International Paper or Rand Whitney.

One goal of this supply chain management effort is to consolidate requirements in order to leverage USPS® demand. As a result, the overall cost of the corrugated fiberboard pallet boxes has been reduced by 8%. Additionally, time of delivery from manufacturing site to facility will be reduced because the manufacturing site is selected based on its proximity to the Postal Service mail processing facility placing the order. International Paper has 10 manufacturing facilities across the United States and Rand Whitney has a state-of-the-art manufacturing facility strategically located in the Northeast. The final advantage of these contracts is that all responsibility from receipt of order to delivery falls on the suppliers.

For additional information, contact Jonathan Hirsch, Purchasing and Supply Management Specialist, MTE CT — Headquarters, Washington, DC, at (202) 268-8434.
