SECURITY SOLUTIONS

Kensington invented laptop security with the Kensington Security Slot back in 1992. Now we've revolutionized laptop security once again with the ClickSafe® Lock. Whether you want to protect laptops, desktop computers, tablets or peripherals, Kensington has the security solutions you need that are easy to use, yet tough for thieves to defeat.

World's
#1
Seller of Laptop Locks

CLICKSAFE®

Locking Mechanism
The lockhead simply clicks onto the Security Anchor

The ClickSafe® Security Anchor
Attaches to the industry standard Kensington Security Slot found on 99% of laptops

Pivot & Rotation
The lockhead pivots 180° and rotates a full 360° around the cable.

Cable
Advanced cable construction combats cutting attacks

CLICKSAFE® - SIMPLER SAFER SMARTER SOLUTIONS

ClickSafe® Laptop Lock

- ClickSafe® lockhead pivots 180° and rotates a full 360° around the cable for flexibility and convenience

CLICKSAFE® CUSTOM OPTIONS

CUSTOM KEYED SOLUTIONS

Custom Keyed Solutions are the most popular option for any business or institution. Custom Keyed Solutions give you more control over equipment while safeguarding employees from laptop and data theft. Choose from one of the two distinct options for the kind of access and control that is right for you.

Master Keyed:
Unique, individual keys and locks for computers; master key opens all locks. Allows individuals access to own equipment while IT manager has control of all the equipment and data.

Single Keyed:
All locks are alike; only one master key will open locks. No individual keys provided. Designed to reduce risk in classroom, lab, or library environments. Computer can be locked in place with IT manager access only.

Master Coded Combination Locks
Combination locks are ideal for field based staff or remote locations where keyed locks aren't practical. ClickSafe® Master Coded locks allow users to set their own unique combination code. Administrators can overcome the users code using a ClickSafe® ComboGenie.
