**LOCKS & SCREEN FILTER**

**Screen Filter**

In everyday school life, the protection of your private and confidential data from unwanted eyes is important. This prevents data theft and complies with applicable European legal regulations (GDPR). These filters are designed to provide a clear and sharp image when the user is facing the screen. At 30 degrees or more to either side, computer and mobile device screens appear entirely black, while the user sees the image perfectly. The filter also protects the screen from scratches and finger prints.

**Notebook Locks**

A notebook can be stolen in an instant. Expensive hardware and important data are lost. This can involve a lot of work and great expense. A need to deal with police, insurance, data recovery etc. Targeted prevention is the answer – with a quality lock from DICOTA. Easy, convenient and effective. Ideal for use in the office, in school or at home.

**PRODUCTFINDER 4.0**

**Finding compatible accessories for your device is often rather cumbersome.**

No more unpleasant surprises when buying Accessories for mobile devices:

The Productfinder 4.0 has exact data for over 70000 devices and more than 180 manufacturers. A precise and quick selection is possible on this basis – with the good feeling of getting exactly the right accessory for efficient mobile work.
