ENDORSEMENT

JEFFERSON COUNTY PUBLIC SCHOOLS

LOUISVILLE, KENTUCKY

KENTUCKY STANDARD SCHOOL BUS ENDORSEMENT

This form is furnished by the Commissioner of Education per 702 KAR 5:030 (24) and shall be attached to all school bus insurance contracts in the Commonwealth of Kentucky.

<http://www.lrc.ky.gov/kar/702/005/030.htm>

It is hereby agreed that such insurance as is afforded by the policy for Bodily Injury Liability and for Property Damage Liability applies with respect to the automobile classified as "School Bus," subject to the following provisions.

Article 1: The insurance shall apply, if the automobile is of the bus or commercial type, to the Named Insured, and/or the operator or driver, and/or the substitute operator, and/or substitute driver as insured; and

Article 2: The insurance shall apply, while the automobile is used as a "School Bus" or for "Pleasure and Business" as defined in the policy, but shall not apply to the use of said automobile for general delivery or any other passenger carrying purposes; and

Article 3: "School Bus" use is defined as: (a) the transportation of school children, students and teachers to and from school, school games and outings; (b) the incidental transportation of guests or guardians of school children in connection with any school activity; and (c) operation necessary and incidental to such transportation which has been authorized by the Board of Education or its administrative officer, the superintendent; and

Article 4: The insurance shall apply to other automobiles or vehicles which may be temporarily substituted for the automobile used as a "School Bus" provided such substitution is necessitated because of weather conditions, mechanical break-down or damage to the automobile and may continue to be used only while the automobile is thus withdrawn from use; and

Article 5: The insurance does not apply, if the automobile is of the bus or commercial type, to injuries sustained by persons while riding in the automobile, other than those enumerated in the definition of "school bus" used herein; or for "Pleasure and Business" as defined in the policy pursuant to Article 2; and

Article 6: The insurance shall apply if the school term is extended beyond the expiration date of this policy by reason of the school having been closed during the regular school term; the liability and/or property damage coverage of this policy shall be extended likewise for such extended school term; and

Article 7: The insurance shall apply to cover the legal liability of the insured for accidents causing bodily injury and/or death to any person acting under the instruction of school authorities and/or the driver of the school bus insured hereunder to direct traffic while the said school bus has been stopped for the purpose of taking on or discharging school children or stopping at railroad crossings or any other necessary stop; and

Article 8: It is understood and agreed that any error or omission for unintentional violation of warranty by the assured shall not invalidate the coverage; and

Article 9: It is understood and agreed that in the event of a claim arising under the coverage afforded by this policy by virtue of this endorsement, the company will not interpose the defense, except at the request of the insured board of education, that the insured board is engaged in the performance of a governmental function; and

Article 10: In consideration of the premium stipulated in the policy to which this endorsement is attached, the insurer agrees to pay any final judgment which may be rendered against the insured for bodily injury to any person, not on duty in the insured's employ, and for property damage to any property due to the negligence of the insured, his or its agents, servants or employees in the operation or use of any vehicle used as a "school bus" as defined in Article 3 of this endorsement or any substituted or emergency vehicle as permitted by Article 4 of this endorsement, within the limits of coverage stated in the policy. The insurer further agrees that upon its failure to pay any final judgment within sixty (60) days from the date of its rendition or final affirmance or appeal, the judgment creditor may maintain an action against it in any court of competent jurisdiction to enforce such payment. This policy shall constitute a continuing indemnity. The amount of the limit stated in the Declarations as applicable to "each accident" shall not be reduced as to any succeeding accident by any payment on account of a previous accident. In the event of the insolvency or bankruptcy of the insured, the insurer shall not be relieved of the payment of such indemnity hereunder as would have been payable but for the insolvency or bankruptcy; and

Article 11: It is agreed that the policy to which this endorsement is attached can be cancelled or non renewed only in compliance with KRS 304.20-320. Written notice must be given by the insurer to the insured District's Board of Education, the individual named in the policy as the insured, and the Commissioner of Education. Notice to begin with the date the notice is actually received at the office of the Commissioner of Education, Frankfort, Kentucky, and

Article 12: It is agreed that any provisions, either in the body of the policy to which this endorsement is attached, or any other endorsement thereon or attached thereto, in conflict with or contrary to the provision of this endorsement shall be deemed to be cancelled hereby.

This endorsement shall take effect on _____, 20____, 12:01 A.M. , Standard Time at Assured's address, and shall terminate simultaneously with this Policy.

Nothing herein shall vary, alter, waive or extend any provision or condition of the Policy, other than as above stated.

To be attached to a form a part of Policy No. _____ issued to _____.

Date of issue:	Company:
Countersigned by: (Authorized Representative)	By: Executive Officer and Title
	Executive Officer and Title

NOTICE: This endorsement shall be signed by the officers of the company who have authority to make changes in the policy form.

Letter of Transmittal

November 6, 2015

The Board of Education of Jefferson County, Kentucky Jefferson County Public School District Louisville, Kentucky

We hereby submit the Comprehensive Annual Financial Report (CAFR) for Jefferson County Public School District (the “District”), a K-12 public school system, for the year ended June 30, 2015. The completeness, accuracy, and clarity of these financial statements and data herein are the responsibility of the District’s Chief Financial Officer.

This CAFR is presented in three distinct sections: Introductory, Financial, and Statistical. The Introductory Section includes this letter of transmittal, a list of our Board Members and an organizational chart. The reader may use this information to understand the District and our financial condition. Accordingly, we will discuss the Jefferson County economy and tax base, a brief history of the District and education in Kentucky, and our major accomplishments.

The Financial Section contains the general purpose financial statements. Annual audits are required legally by Kentucky Revised Statute 156.265. These statements were audited by Strothman & Company PSC, an independent Certified Public Accounting firm. Their opinion is included on page 1 of the financial section. We would like to direct the reader to Management’s Discussion and Analysis on pages 4 – 14 of the financial section. This provides an introduction to the financial statements and some financial highlights.

The Statistical Section presents numerous unaudited tables designed to present more detail and trends apparent within the District and Jefferson County.

The report has been prepared by the Finance Department following the requirements and guidelines prescribed by the Governmental Accounting Standards Board and recommended by the Government Financial Officers Association. We believe the data presented is accurate in all material respects and that it is presented in a manner designed to fairly reflect the financial position and results of operations of the District. All disclosures necessary to enable the reader to gain the maximum understanding of the District’s financial activity have been included.

High-quality teaching is the most powerful tool for helping students reach high standards

Economic Outlook

As discussed further on page 14 of the Management’s Discussion and Analysis in the Financial Section, Jefferson County has a diverse and strong economy but is affected by national economic trends.

The District receives its revenue largely from two sources related to the economy: locally-assessed real estate and property taxes, and locally-assessed occupational taxes. Additionally, the District receives state revenues derived from state income taxes, sales taxes and other taxes, but these state revenues are subject to many non-economic factors, such as political considerations and an allocation formula based on local revenue, student attendance, and transportation expenses. Beyond these sources, we also receive grant and general revenues from federal, state, local government, and private sources that are either unqualified gifts or grants based on non-tax determinants.

Real estate and personal property, other than automobile, taxes are assessed by the Property Valuation Administrator (PVA) annually, and the value is set as of January 1. After taxpayers are afforded a period to dispute the assessment, bills are prepared by the Jefferson County Sheriff and sent to the taxpayers on November 1. Real estate taxes, the largest in this total, typically show an increase in both assessments and tax rate. With growth in parts of Jefferson County and typical housing appreciation, local real estate taxes are becoming a greater percent of our revenues each year as their growth outpaces other revenues. Motor vehicle taxes are assessed as of January 1 of each year. The PVA office uses standardized guides, provided by the Department of Revenue, to determine the value of a vehicle or boat. For years, the District has levied the statutory maximum motor vehicle tax rate, and increases are derived from assessment increases alone. See the Statistical Section for more details and trend analyses on these taxes.

Locally assessed occupational taxes are levied upon Jefferson County residents who work within Jefferson County at a rate of .75% of salary. This tax tends to be an accurate barometer of the local workforce, and, in some ways, the strength of the local economy. In reviewing past years' revenues, the reader may notice the correlation between occupational tax revenues and the greater United States economy.

State revenues are based on a variety of state taxes and are allocated to the District based on a variety of factors. First, the Commonwealth of

Kentucky is inherently a political entity, and the budget is allocated accordingly. Education continues to be a priority of the current government leaders, though funding levels lag behind many adjacent states. Funds are allocated to the various Kentucky school districts by a statutory formula introduced in the Kentucky Educational Reform Act, which is discussed later in this section.

Jefferson County has a long history as a central transportation hub, which fostered a manufacturing center for durable goods, including appliances, cars and trucks. In recent decades, the economy has diversified and is now the home of three *Fortune* 500 companies, including Yum! Brands, which includes KFC, Taco Bell, and Pizza Hut, Kindred Healthcare, and Humana Inc. Additionally, headquartered in Louisville are Hillerich & Bradsby, the makers of "Louisville Slugger" baseball bats, Papa John's International Inc. pizza restaurants, and Brown-Forman, makers of numerous beverages such as Jack Daniels Tennessee Whiskey. Louisville is also home to the Churchill Downs, United Parcel Service's ("UPS") Worldport Facility, employing over 20,000, two Ford plants, and General Electric's Appliance Park.

Overall, the Jefferson County economy is strong.

<u>Total Population</u>	
2004	698,822
2005	701,057
2006	704,755
2007	711,766
2008	717,414
2009	721,594
2010	742,324
2011	746,372
2012	750,828
2013	756,832

Although long-ranging challenges exist, the District's current finances are strong as well. We aspire to achieve great things in public education. To do this, we must set high goals and be strict stewards of the public funds we have. We believe in budgeting conservatively, which allows us to make continual improvements even during sluggish economies.

In order to achieve far-reaching goals, we must maintain far-reaching funding plans. At any time, we forecast instructional needs and financial trends five years into the future. Additionally, we survey the facility needs of our entire district over the next four years. Each project is prioritized by a committee, and only the top priority projects are funded.

As described further in Note F, the District is challenged by pervasively underfunded or underperforming pension plans in which our employees participate. Although the District has made all required contributions at actuarially-determined rates, failure to do so by the Kentucky legislature and subpar investing performance has created a financial contingency to both the District and the state. This creates a significant level of financial uncertainty that may necessitate drastic corrections in future budget periods.

The current initiatives discussed on pages xi and xii of this Introductory Section are major undertakings that may require dedication over many years. As a practice, we pair our recurrent revenue budget with our recurrent expense budget to eliminate liquidity concerns. In addition, all planning is done in concert with our research team to ensure that funds are allocated to programs that get results.

We also place great emphasis on internal controls. School districts have inherent weaknesses in financial structure, with funds being collected at numerous locations and where optimal segregation of duties is not always practical. However, because the cost of internal control should not exceed the anticipated benefits, the objective of these controls is to provide reasonable, rather than absolute, assurance that District assets are protected and that our financial statements are free of material misstatement. To offset our inherent risks, the District is committed to strengthening its controls at the central office level, where 99% of revenues are received, and reviewing satellite offices and schools often. Central office uses positive

pay for its disbursements and staff review bank information daily. Accordingly, the bank accounts are reconciled by the third day after the end of the month. Schools are audited every year. We maintain an anonymous fraud hotline to safeguard our assets. Currently, we are tightening segregation of duties and internal controls at satellite offices.

Students graduate prepared for college or career

History of Public Education in Jefferson County

On April 24, 1829, the City of Louisville established the first public schools for children under sixteen years of age and constructed the first school the following year. Although Louisville's charter specified that education would be free, a tuition of \$1 for primary grades and \$1.50 for other grades was assessed. By 1838, the City of Louisville had a full-service school system. Also in 1838, the remaining areas of Jefferson County outside of the City of Louisville incorporated the Common Schools of Jefferson County school district.

In 1870, Louisville Public Schools established its first two schools for African American students, bringing its enrollment up to 13,502. By this time, the Common Schools of Jefferson County operated 68 schools, including 10 for African Americans. Both districts continued to grow consistently over the decades.

In 1956, all public schools in Louisville and Jefferson County were desegregated at a time when the Louisville Public Schools were 26% African American and the Jefferson County Schools were 4% African American. By court order on April 1, 1975, the Louisville Public Schools and the Jefferson County Public Schools merged into the present Jefferson County Public Schools district in order to address the racial disparity.

At that time, it was determined that all schools in the new district must maintain racial diversity with the minority population between 15% and 50%. In June 2007, the United States Supreme Court held that some aspects of our student assignment plan did not satisfy the Court's "narrow tailoring" requirement. In May 2008, the District unanimously approved a revised student assignment plan which became effective for the 2009-2010 school year. The new plan uses socio-economic factors including educational attainment, household income, and race averages of a student's geographic region as factors when assigning students to schools other than their home school.

The Kentucky Education Reform Act ("KERA") of 1990 formed the basis for massive change to the state's educational system. One of the most comprehensive, statewide restructuring efforts ever attempted in the United States, KERA changed the formula by which Kentucky school districts receive state funding in an effort to achieve equity and educational adequacy regardless of each district's local economic base. KERA created a Site-Based Decision-Making Council system. Each school would have such a council consisting of parents, teachers, and administrators of the school, who would oversee the financial and instructional decisions of the school and hire the Principal. KERA also established a state-wide accountability system that continues to evolve to meet student needs.

Through the resulting emphasis on data-driven educational accountability, Kentucky has gained a reputation as a cutting edge educational system focusing on accountability. The District, as well, has many years of assessment data. We continuously review our curriculum and initiatives to ensure Jefferson County children are being educated to the height of their ability.

Instruction that inspires!

Jefferson County Public School District Today

The current District is very different than our beginnings. We continue to strive for excellence in our educational and financial operations.

Financially, we adjust conservatively to confront economic challenges, and still have sufficient fund balances to continue our plans for the future. We have a policy of reviewing vacancies, especially central office vacancies, to continuously strive for efficiency. We are reviewing our purchasing and distribution systems to determine if some overhead can be eliminated. We have also consolidated our banking relationships to maximize interest income and liquidity.

We have 100,854 students:

High	28,262
Middle	21,046
Elementary	37,446
Kindergarten	7,711
Preschool	4,036
Special Schools	2,353

We have 155 schools and learning centers:

High	18
Middle	23
Elementary	90
Special Needs	10
Other	14

We project that our enrollment is stable, with our 2015-16 forecast of approximately 101,000 students.

Our schools were founded based on the neighborhood schools concept. The majority of our schools are off the major thoroughfares back in neighborhoods, where traffic disruptions are minimized, and as many children can walk to school as possible. As Jefferson County has grown to its current size and complexity, the District has found the need to increase its educational and environmental offerings. While students have the opportunity to attend a school within their regional cluster and a regular school program, they have many additional choices of schools and programs to best fit their needs and wants.

School Choice: A core philosophy within the District is that parents should be allowed to choose the program and the school their child attends. We feel this allows students and their parents the opportunity to meet certain educational needs based on the individual child. Our schools are also able to differentiate themselves if the Site-Based Decision Making Council and the elected Jefferson County Board of Education approves the change. The district embraces many different schools and programs to meet students' diverse needs, interests, and learning styles.

Regular Program: Most schools offer a regular curriculum in a typical school setting. This program is the choice of the majority of our parents and gives the Site-Based Decision Making Council much educational latitude.

Magnet and Optional Programs: The District believes that not all students have the same interests or learn in the same way. We offer choices that let elementary, middle, and high school students select a specialized learning environment or a program that focuses on a particular subject.

Magnet Schools and Programs include traditional schools, Montessori schools, magnet programs, and magnet career academies. Traditional schools require uniforms, daily homework, and parent involvement. They teach at grade level in a structured classroom environment. The Montessori approach to learning is designed to encourage critical thinking, exploration, and self-directed education. Magnet programs offer specialized foci incorporated into the curriculum, such as performing arts, math & science, technology, early college, or International Baccalaureate. Magnet career academies offer high school students programs that focus on training for a specific career. There are more than a dozen magnet career academies, and most of them offer multiple career programs. Many of our magnet career academies have received national recognition in their program area. Fifteen of our high schools have Professional Career Theme Programs in such disciplines as Aerospace, Medicine, Engineering, Information Technology and the Environment.

Optional Program is a small, specialized program within a school, such as Creative Arts and Global Communications Optional Program.

Advance Program is for academically gifted students. It stimulates talented young people to stretch their abilities and requires schools to be creative in providing a range of educational opportunities that promote excellence for each child.

Adults model integrity, respect, creativity, and accountability.

Alternative Schools:

Binet School: A center which provides successful learning experiences for those students with multiple disabilities who need a more structured and supportive environment.

Breckinridge Metro High: A high school whose students have been referred to the school by the office of student services, the department of juvenile justice and/or other state and county agencies because of code violations in the regular schools or are court ordered to attend.

Churchill Park School: This special school serves students with moderate to severe functional mental disabilities from ages five to twenty-one. While following state mandated core content, the program focuses on functional life skills, community-based instruction, and occupational work experience that will allow students to access and be successful in their immediate environment.

Jefferson County High School: An open-entry/open-exit program that provides an opportunity for students to obtain a high school diploma by attending classes on a flexible schedule. Paper-Pencil Curriculum: Students study a curriculum, which is individualized, self-paced and teacher-designed. Independent Study through Correspondence: Students are provided the opportunity to complete a traditional, textbook-based curriculum by correspondence from anywhere in the world. Online Curriculum: *JCPSeSchool* is an internet-based curriculum offered to students worldwide.

Minor Daniels Academy: Middle school and high school students with behavioral challenges may be assigned to Minor Daniels Academy. This school uses restorative pathways to create a supportive environment with the goal that students may return to their home schools.

The Phoenix School of Discovery: Established under the federal guidelines of No Child Left Behind, this school relies heavily on technology to prepare students in grades 6-12 to reach state proficiency levels.

Liberty High: A nontraditional, safety-net school that serves students who meet any of the following criteria:

- One year of high school with fewer than five credits
- One to four years in high school and have fewer than 14 credits
- Frequently absent from school
- Failed four or more classes
- At least 16 years old
- Prefer hands-on, collaborative learning
- Prefer a flexible daily/yearly schedule
- Desire a work-based educational component
- Have diverse learning preferences and whose talents are not being developed.

State Agency Schools: Thirteen unique residential and day treatment centers that work collaboratively with treatment partners to provide a therapeutic or rehabilitative school environment. Students are placed in the State Agency Children's Program through court commitment, psychiatric hospitalization, or identified need for long term treatment of emotional or behavioral problems.

South Park and Westport Teen Age Parent Programs: Two schools designed to prevent school dropout due to teen pregnancy and parenting for middle and high school students. These award-winning programs include home-school coordinators and regular classroom instruction with a hospital-quality nursery.

Waller-Williams Environmental: A special school for students with severe and profound emotional and/or behavioral disabilities. Serving K-8th grade in a highly structured environment, this school utilizes a behavior management system where students earn tokens for good behavior and may use these tokens to purchase items in the school store.

Youth Performing Arts School (YPAS): One of only 100 schools of its kind in the nation. YPAS offers courses in dance, theater acting, musical theater, vocal music, piano, concert band, concert orchestra, visual arts, design and production. Students take their academic classes at an adjacent JCPs high school.

Adult Education: Total Adult Education enrollment in Adult Basic Education/General Education Development (GED) Program was 4,131 and 197 GED Certificates were earned.

- **GED, Basic Skills & Family Ed:** Free classes to prepare for the GED test and upgrade basic skills.
- **English as a Second Language:** Free classes for adults to improve communications skills.
- **Lifelong Learning:** More than 250 leisure-learning and career-enhancing classes. Online courses are available.

- **Workforce Services:** Training and assessment services for individuals, business, and industry.

Talents and resources used wisely to benefit students

Current Initiatives

Third Grade Reading Pledge: Reading is the pathway to success, engagement and a lifelong love of learning. The District has accepted the Third Grade Reading Pledge, a simple yet powerful goal that every student will read at grade level by the end of the third grade. Achieving this goal will create huge positive impacts for students that will last a lifetime.

Third Grade Reading Pledge strategies include improving both the quality of and access to early childhood education programs; implementing "Kindergarten Readiness Camps" during the summer prior to kindergarten; offering Summer Boost programs for struggling first and second graders;

and perhaps most important, creating partnerships with Bellarmine University and the University of Louisville for intensive, targeted and ongoing professional development to build teacher capacity around research-based literacy practices. These professional learning opportunities will equip teachers with the knowledge, diagnostic tools, and instructional strategies needed to ensure all students are reading on grade level by the end of the third grade.

Envision Equity: To progress as a school district, we must harness the strengths and talents of the entire district. The District vision is that ALL students will graduate prepared. To transform complex political, historical, social, and economic factors into opportunities, we must begin by assessing these factors, which we have done in our Equity Scorecard. Then, with literacy, discipline, college & career readiness and school climate and culture as our fundamental drivers, we are performing Cultural Competency training to all staff as we strive to make our vision a reality. By integrating this work into other key district initiatives such as Positive Behavioral Interventions and Supports (PBIS) we are working support system level change towards equitable access and outcomes in JCPS.

Extended Learning Time: The District believes that learning should not be limited to the traditional school day schedule. To this effort, the District allocated special funding to extend the school day and increase learning time in 27 schools for the 2014-15 school year. These priority schools have extended-learning time that allows students to have targeted interventions and increased instructional time until 5 p.m. These schools also offer breakfast, lunch, and dinner, in addition to transportation home.

Louisville Linked: To reach their potential in the classroom, students must be prepared to learn outside of the classroom. With schools identifying student needs and linking those students to the community services providing the needed assistance, we will foster resiliency and encourage perseverance so students are prepared to be successful in the classroom.

Ford Next Generation Learning: With the combination of hiring needs in highly-skilled, 21st century positions as we prepare for the baby boomers to enter retirement, Ford Motor Company and the District have teamed up to

create a framework to improve teaching and learning. There are three strands of this ambitious partnership: transforming teaching and learning; transforming secondary schools to better serve students and their families; and transforming business and community engagement.

Enriched student educational experiences

Positive Behavioral Interventions & Supports (“PBIS”): To systemically support the establishment of positive approaches to behavior and healthy school climate, the district is implementing PBIS in 63 schools and early childhood locations, with plans to scale up district-wide within 5 years. PBIS is an evidence-based, proactive systems approach that uses school-wide interventions and supports needed for all students to achieve social, emotional and academic success, reduce discipline as a barrier to academic success, and create a safe learning environment for all students. The purpose of PBIS is to establish a climate in which appropriate behavior is the norm.

Professional Growth and Effectiveness System (“PGES”): To allow our students to achieve at their highest level, the District is implementing PGES, a system-wide teacher and leader evaluation system to provide the necessary feedback so that school staff is performing at their highest level for the students.

55,000 Degrees: To help propel Louisville from its industrial past into the information age, the District is a partner in the 55,000 Degrees initiative.

JCPS, along with local colleges and universities, businesses and community organizations, will help the community earn at least 40,000 additional bachelor’s degrees and 15,000 additional associate’s degrees. The District is doing its part by promoting four specific, highly ambitious goals by 2020:

- Increase the high school graduation rate to at least 93 percent;
- Increase the number of graduates who go to college to at least 85 percent;
- Increase the college & career readiness of graduates to at least 90 percent by 2020; and
- Decrease the number of students who are retained in the ninth grade to no more than 6 percent.

To this end, the District is offering

- Early college, where students earn college credit simultaneously with their high school requirements
- College Access Resource Teachers, whose job is to ensure that students see college as part of their future plans and know how to achieve that goal, and
- 5-Star Schools, an extensive network of schools offering dual college credit or industry and technical certification earned simultaneously with high school credit in career themes.

Schools of Innovation: JCPS sought and received special state approval to create two schools of innovation, which will implement innovative curricula focused on student success rather than strict adherence to state standards.

The Atkinson Louisville Reach Academy offers technology-based learning and small classes as well as whole-family social and educational services. This school uses the Literacy by Design program to integrate both science and social studies with reading and maintains a strong connection between the curriculum and success measures. Maupin Elementary Catalpa Model

Program provides a living education for the whole child. Teachers use art, music, drama, movement, and experiences to deliver the curriculum. Students are empowered to think creatively and critically, understand and manage emotions, and work in a focused and willing manner. These students will integrate art into the curriculum, play with social intent, and focus on relationships, nutrition, and environmental sustainability.

All schools are resourced and equipped to support student needs

Evidence of Success

The District is seeing the results of its focus on Vision 2015. Through the last round of data-driven accountability results, every student group showed progress and our District increased in every component of accountability.

Outstanding performance within the District has been validated by several national, independent organizations and governmental agencies and by the performance of our outstanding students.

Our Schools:

- JCPSS is accredited as a Quality School District through the Southern Association of Colleges and Schools
- Five of our high schools achieved in the *US News & World Report* list of Best High Schools in the United States
- Four of our high schools achieved the *Washington Post* list of America's Most Challenging High Schools
- 2014 National Blue Ribbon School
- Two schools received Alternative Program of Distinction Awards
- 2015 GRAMMY Signature School

Our Students:

- The Class of 2015 earned \$172,519,974 scholarships. Class of 2014 earned \$145,306,302 scholarships. Class of 2013 earned \$132,899,327.
- Fifty-two semifinalists in the 2015 National Merit/National Achievement Scholarship Program
- State championship in girls' basketball
- Winners of the National Journalism Quiz Bowl
- Three students earned top scores on the High School of Business exam
- Winner of the National Radon Poster Contest
- Eight recipients of the Berea College Pinnacle Scholar Award of Excellence
- A student team was named Best in Nation Winner in the National Verizon Innovation App Challenge
- A student team won the Keep Kentucky Kids Safe Public Service Announcement Contest
- Recipient of the Prudential Spirit of Community Award
- Winner of the 2015 Kentucky Geographic Bee
- Winner of the 2015 Massachusetts Institute of Technology INSPIRE
- Winner of the National Scholastic Art & Writing Award
- Winner of the National MathMovesU Middle School Scholarship
- Recipient of the Navy Junior Reserve Officers Training Corps Top Junior of the Year Award

Our Teachers and Staff Members:

- 380 have earned National Board certification, which is the seventh highest nationally
- 2015 Kentucky Teacher of the Year
- Kentucky Special Education Teacher of the Year
- Kentucky Association for Career and Technical Education Outstanding New Career and Technical Teacher Award recipient
- Recipients of both the Elementary Physical Education Teacher of the Year and the Secondary Physical Education Teacher of the Year
- Three recipients of the 2015 Ashland Teacher Achievement Awards
- Recipient of the 2014 Kentucky Management Award from Governor Beshear
- National Claes Nobel Educator of Distinction
- Milken Family Foundation National Education Award Recipient
- Kentucky Community Leadership Award Recipient from Woodmen of the World
- Kentucky Council of Teachers of English/Language Arts' English Teacher of the Year 2015 Commission on Adult Basic Education Outstanding Teacher of the Year Award recipient
- Presidential Award for Excellence in Mathematics and Science Teaching recipient

Acknowledgements

We would like to thank all of the staff who assisted with closing of the District's financial records and preparing this report. In addition, we want to thank those at all levels of the District who do their part to provide relevant, comprehensive, quality instruction in order to educate, prepare, and inspire our students to learn.

Respectfully submitted,

Donna M. Hargens, Ed. D.
Superintendent

J. Cordelia Hardin
Chief Financial Officer / Treasurer

Community-based experiences to support student learning

November 6, 2015

To the Citizens of Jefferson County, Kentucky:

The Jefferson County Board of Education is committed to educational leadership, community accountability, and child advocacy. We take seriously our duty to oversee the development, operation, and improvement of the Jefferson County Public Schools (JCPS) and are currently creating our Vision 2020 strategic plan. This duty includes the governance and financial oversight of the district. Specifically, our leadership roles mandate that we:

- Set clear and high expectations.
- Create the conditions for success.
- Hold the system accountable.
- Create the public will to succeed.
- Learn as a board team.

As a Board, our first priority is to support student achievement and student learning. Our goal is to ensure that each student graduates prepared to succeed in college or career. To attain this goal, we must provide resources to recruit, develop, and retain excellent teachers and staff; deliver the appropriate tools and facilities needed for a challenging education; and offer a comprehensive curriculum with educational opportunities as diverse as our student body.

The Board views its governance responsibility as equally to the students in our schools and the taxpayers providing our support. To fulfill taxpayer expectations, we must be transparent with our resources. To this end, we have implemented a Transparency Dashboard, a web-based site where the public can drill down into our complete financial picture. Additionally, we provide a financial fraud hotline, an Internal Audit department under the direction of a CPA firm that performs risk-based audits of the entire district, and significant emphasis on internal controls. We establish sound district policies and ensure that they are followed.

The Board has established four goals for our school district and works to

maintain a focus on achieving these goals:

1. Every student progresses in his or her learning and meets or exceeds proficiency in all subjects.
2. Every student graduates prepared for his or her post-secondary choice - for college or career and life.
3. Parents, community, and partners enrich students' educational experiences and support their success.
4. All schools are staffed, resourced, and equipped to support student needs.

As your Board, we recognize that we are the collective voice of the students, parents, staff, and taxpayers of Jefferson County. On behalf of the Jefferson County Board of Education, I am pleased to present this Comprehensive Annual Financial Report for the fiscal year ended June 30, 2015.

Sincerely,

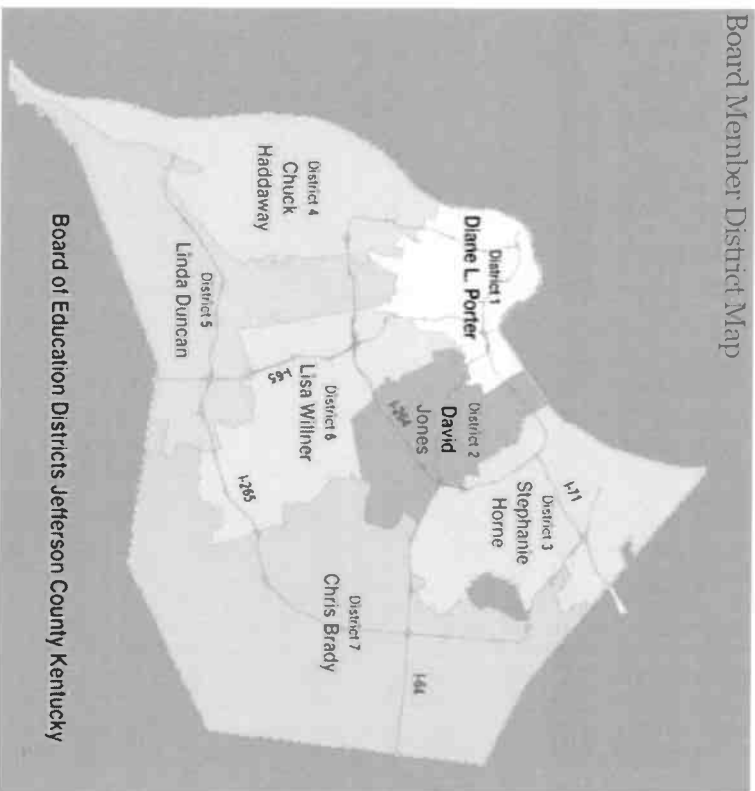

David A. Jones, Jr.
Chair, Jefferson County Board of Education

Members of the Board of Education

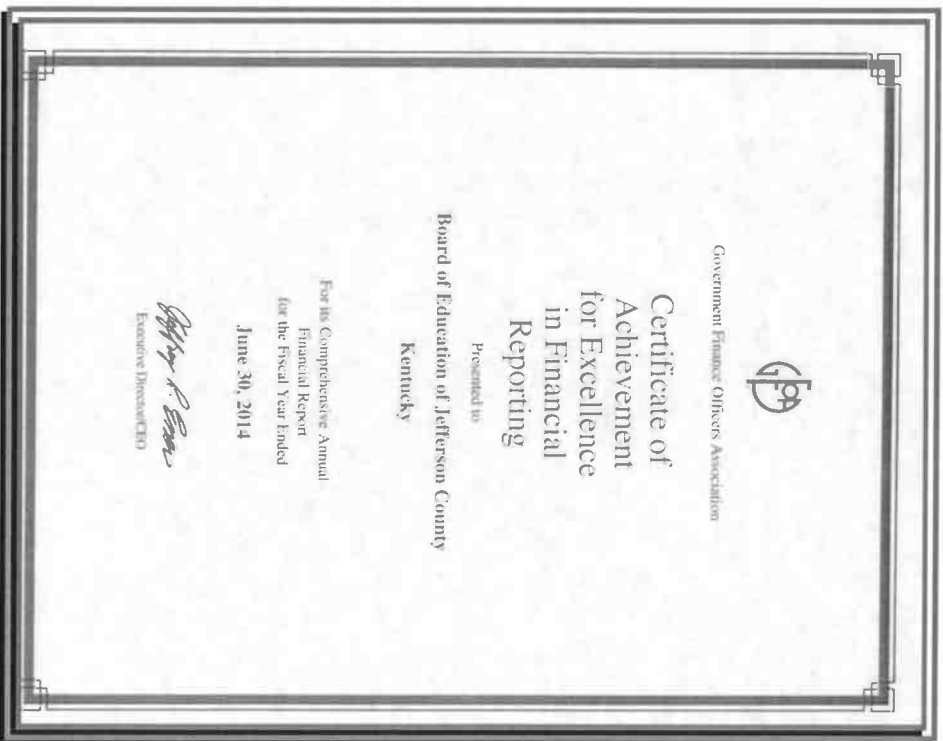

Back row: Chris Brady, District 7; David A. Jones Jr., Chairperson from District 2; Diane Porter, Vice-Chairperson from District 1; Chuck Haddaway, District 4
Front row: Dr. Lisa Willner, District 6; Linda Duncan, District 5; Stephanie Horne, District 3

Board Member District Map

Board of Education Districts Jefferson County Kentucky

This Certificate of Achievement for Excellence in Financial Reporting, awarded by the Government Finance Officers Association, is the highest form of recognition in the area of governmental accounting and financial reporting, and its attainment represents a significant accomplishment of the District. The District has received this award each year from 2007 through the latest award period for the year ended June 30, 2014.
