

TOSHIBA

The New TECRA C50 Series.

Productivity your way.

No matter what your business needs, the TECRA C50 has the right combination of processors, drives and screen resolutions for enhanced productivity. Choose between advanced Intel® Core™ processors up to 8th Generation, a HDD or SSD, and tailor the screen resolution to your own requirements, to create a business PC that's perfect for you.

Product Highlights

Designed, Manufactured and Engineered by Toshiba

Toshiba is the only major laptop manufacturer with the ability to write its own BIOS, develop, engineer, manufacture and extensively test laptops in-house to optimize system components and provided security and quality simply found nowhere else.

Business-enhancing features

The TECRA C50 features were developed with business in mind. Intel® Wi-Fi and LAN offer seamless connectivity, while the 15.6" (39.6cm) anti-glare LCD screen ensures you can review content with crystal-clear clarity. What's more, the full-size keyboard means you can enjoy full functionality and greater comfort too. The TECRA C50 is even set up to support silent working for less distraction.

Connect with ease

Connect to all your essential business peripherals quickly and easily, no matter what the situation, with an HDMI slot, RGB, USB 3.0, and Gigabit LAN. There's a full size SD card slot for added convenience.

Keeping data secure

Toshiba Easyguard is built in to TECRA C50, meaning it's been drop and spill-tested** to help safeguard your data. The laptop is secure, too: a security lock slot offers security for the device itself, while TPM encrypts your data to ensure it doesn't fall into the wrong hands.

** Drop-tested up to 70cm. Spill-resistant keyboards help protect your data from accidental spills up to 30 ml, allowing you 3 minutes shut down time to save your data
